Congressional Record

PROCEEDINGS AND DEBATES OF THE 111th CONGRESS, FIRST SESSION

SENATE—Wednesday, December 16, 2009

The Senate met at 10 a.m. and was called to order by the Honorable TOM UDALL, a Senator from the State of New Mexico.

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.
Our Father God, we thank You for this day, for eyes to see and for hearts to feel the wonders of Your world. Today, fill our Senators with a fresh faith and a triumphant confidence in Your final victory over the hearts of humanity. May our lawmakers face these sometimes baffling days with the glad assurance that no weapon that has been formed can prevail against Your eternal purposes.

Lord, help them to relinquish any negative thoughts to You and receive a fresh infusion of Your hope. Burn away the barriers to unity so that Your will can be done on Earth even as it is done in Heaven.

We pray in Your sovereign Name. Amen.

PLEDGE OF ALLEGIANCE

The Honorable TOM UDALL led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, December 16, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable TOM UDALL, a Senator from the State of New Mexico, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. UDALL of New Mexico thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. REID. Mr. President, following leader remarks, the Senate will resume consideration of the health care reform legislation. The first hour will be equally divided and controlled between the two leaders or their designees. The majority will control the first 30 minutes and the Republicans will control the next 30 minutes. We expect a vote in relation to the Hutchison motion to commit today, and the Sanders amendment. It is my understanding Senator SANDERS will offer his amendment at around 11 o'clock today. They will both be pending. Senators will be notified as to when any votes are scheduled.

HEALTH CARE REFORM

Mr. REID. Mr. President, we continue making progress toward making it possible for every American to afford to live a healthy life. Senators continue to work together toward that goal because even though we may have differences of opinion on the details, we all share the strong belief in the differences we can make for the American people as it relates to their being healthy.

We all know our current system is beyond broken, and we know the citi-

zens of this country demand that we fix it. We know this because they tell us—in letters, in phone calls, and visits we have at home, and we have not been going home very much, but certainly when we are able to get there. Those who oppose making health insurance more affordable and making health insurance companies more accountable would like you to believe that is not the case. But that is only propaganda by the insurance industry.

They want you to think the American people are happy when these greedy insurance companies deny health care to the sick and take away their coverage at the exact moment they need it the most.

They would like you to believe the American people do not mind hearing a multibillion-dollar company tell them: I am sorry you have diabetes. I am sorry you have a heart condition. But, also, it hurts my bottom line, so you are on your own.

These insurance companies and health care deliverers want you to believe that women gladly pay more than they should for the screenings they have to catch breast cancer, that men gladly pay more than they should to have the test to catch prostate cancer, and that seniors gladly pay much more than they should to get their prescription drugs.

Those who are trying to slow the Senate—and really the country—and stop reform want you to believe the American people do not mind paying hidden taxes to cover the uninsured, they do not mind the waste and fraud rampant in the health care system, and they do not mind losing their health insurance if they lose their job. But, simply, that is not true. That is not the case.

The people we represent—whether it is New Mexico, Montana; we have two from New Mexico, we have one from Michigan, one from Kentucky, Oklahoma—it does not matter what State you represent; there are stories.

Listen to what Mike Tracy, who lives in north Las Vegas, NV, said. His 26-year-old son has been an insulin-dependent diabetic since he was a baby. The insurance Mike's son gets through

● This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

work will not cover his treatments, and the Tracys cannot afford to buy more coverage on their own.

But this family's troubles are about more than just money. Since they could not afford to treat their son's diabetes, it developed into something called Addison's disease—a disease that President Kennedy had. If you have money, you can treat the disease. If you do not, it is a very bad disease, likely could be fatal.

This is what Mike wrote me this past Friday.

I don't know what to pray for first: that I will die before my son will so I don't have to bear the burden, or that I outlive him so I can provide support to his family when he is gone.

This should not be a choice for any American, and when given the chance to help people such as Mike, our choice should be easy.

Here is another example: Ellen O'Rourke wrote to me last Tuesday about her friends, the Hidalgos, who live in Incline Village, NV, a town on the shores of Lake Tahoe. The Hidalgos' 2-year-old daughter Lexie Mae has a cancer of the eye that could cost her vision or her life.

Lexie Mae's parents do not have health insurance and are counting on friends to help pay for their daughter's mounting medical bills. They are also counting on us to lower the cost of health care so they can afford their own. They work hard. They want health insurance. They cannot get it.

Another letter I got last week was from Elizabeth Parsons. She teaches music at an elementary school in Reno and volunteers after school at a dance and drama theater in town. She is 60 years old and wanted to retire at the end of this school year. But as she wrote me last Thursday.

Unfortunately that plan has been postponed indefinitely for one reason only:

"one reason"—

I can't afford to retire because of the skyrocketing increases in [my] health insurance.

Ms. Parsons has done a lot for her community. Now her country's leaders should do something for her: We should make sure her decision about whether to retire doesn't hinge on how expensive it is to keep her insurance.

A man named Walt Cousineau from Elko wrote me last Monday to tell me about his wife. She had a heart attack three Decembers ago. Health insurance companies are using that as an excuse to charge \$2,000 a month for coverage, \$25,000 a year. They call it a pre-existing condition, a prior heart attack. She is not old enough yet for Medicare, but Walt is. He is 68. He had to go back to work so she could be put on his health insurance. Now Walt is asking us to go to work for him and asking us to make sure no one's health history can make staying healthy in the future more expensive.

Ken Hansen is from Mesquite, a town on the Arizona-Nevada border. He has chronic health problems and parts of his feet have been amputated. Ken can't go to a doctor because he makes too much to qualify for Medicaid and too little to afford private insurance. I wish to share with the Senate exactly what Ken wrote me:

I am very frustrated because my only hope is that I die very soon because I can't afford to stay alive.

Those are his words—not my words—that his only hope is that he die. How can we look the other way? How can we possibly do nothing? This isn't about balance sheets or graphs or charts; it is not about contracts or fine print; it is not about politics or partisanship. This is about life and death in America.

Each story is more heartbreaking than the last. Each of these Nevadans has more than enough on his or her mind. Yet each of these citizens took time out of his or her day to beg their leaders to do something.

Mike Tracy, the father of the young man with diabetes and Addison's disease, ended his letter to me just a few days ago with this plea. Here is what he said:

Democrats need health care. Republicans need health care. Independents need health care. All Americans need health care. Get it done.

We can't let them down. We just can't let them down.

Those trying to kill this reform have made it clear they will do anything to stop us. They can recite recycled talking points until their hearts' content, but that is it. But as long as Mike Tracy's son might die from a disease we know how to treat, we can't let these obstacles stand in our way. As long as Lexie Mae's parents have to borrow from their friends to take their daughter to the doctor, we can't take no for an answer. As long as Elizabeth Parsons can't afford to retire, Walt Cousineau can't afford to stay retired, and Ken Hansen says he can't afford to stay alive, we can't stop fighting for them.

ESTATE TAX REFORM

Mr. REID. Mr. President, on a final point, for some time now we Democrats have been trying to reform the estate tax to avoid the train wreck that is coming next month.

Because of the legislation passed by the Republicans in 2001, the estate tax is repealed for 2010—gone, nothing. But because of the gimmick they used to pass this legislation, the estate tax returns in 2011, and it does so at the levels that were in effect in 2001.

This chicanery has created a nightmare for families trying to plan their affairs.

We have proposed a responsible path forward toward curing the estate tax problem. We proposed to extend the

current tax parameters so that in 2010 couples would be able to pass down up to \$7 million completely tax free. An estate tax at that level exempts all but the wealthiest two-tenths of 1 percent of estates from paying any estate tax.

The other side has rejected this reasonable approach. Instead, they want to keep the Bush tax law in place for 2010 as originally designed.

The irony in the Republicans' position is, it hurts the very families—small business men, women, and family farmers—whom they claim they are trying to help.

The surprise facing family farms and family-owned small businesses in 2010 is that repeal of the estate tax will actually increase their tax liabilities. These are families who would never pay the estate tax because they don't have assets totaling more than \$7 million for a couple.

So why do they face a tax increase? It has to do with a provision in the Tax Code called stepped-up basis. What does this mean? The assets of family-owned businesses are often in the form of unrealized capital gains, the appreciation of the family business over time. Right now, until the end of this year, December 31, these capital gains are forgiven when a person dies—no capital gains at death and for these families with less than \$7 million there is no estate tax under current law. Therefore, for these families, death is not a taxable event.

The capital gains tax is forgiven because the heirs to the property receive a step up in its basis for measuring tax liability when they ultimately sell the property.

The law my Republican colleagues insist go into place next month repeals stepped-up basis.

The bargain my Republican colleagues are advancing is simple. If you are rich, celebrate. If you are not, you should be afraid. If you are very wealthy, you get a huge windfall from repeal of the estate tax. If you are modestly successful—say you have a shoe store, a service station, a small farm, or whatever small business—but not to the point where you are facing an estate tax liability, your heirs will, nonetheless, face a tax increase because of the repeal of the estate tax.

For the wealthiest families in this country, they say don't worry about that. The estate tax is gone. For many more small businesses, Republicans say that is too bad. All these years, as Republicans were using family farms and small businesses as props in their zeal to repeal the estate tax, their real goal was protecting the wealthiest of the wealthy. The unfortunate aspect of that campaign is that repeal of the estate tax, even for just 1 year, will come at the expense of family-owned farms and small businesses.

We asked, last night, and it will be asked again by the chairman of the Finance Committee, the senior Senator

from Montana, Mr. BAUCUS, to extend the estate taxes that now exist, giving a couple an exemption of up to \$7 million for 2 months while we work things out on that and a number of other issues, but that has been rejected by my friends on the other side of the aisle.

I repeat: If the estate tax lapses for a period at the beginning of 2010, this will be a boon for the wealthy, a huge drain on the U.S. Treasury and, more importantly, let me also note that tens of thousands of middle-class families could suffer. If the estate tax lapses, even for a short period, these families will be subject to capital gains when they sell their inherited or bequeathed property, a process that will be enormously complicated for families who have no estate tax or planning issues today. Although this could be retroactively eliminated, in the meantime the uncertainty and planning around this would affect a large number of families who ordinarily don't have to think about the estate tax.

RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

ORDER OF BUSINESS

Mr. MCCONNELL. Mr. President, I would ask my colleague, the majority leader, was it his intention to propound a unanimous consent request on this issue?

Mr. REID. I say to my friend, the chairman of the Finance Committee will do that.

Mr. MCCONNELL. All right. I will go ahead and make my opening remarks. I don't know when the chairman of the Finance Committee wanted to make this request. Did he want to make a speech in connection with it as well?

The ACTING PRESIDENT pro tempore. The Senator from Montana.

Mr. BAUCUS. Mr. President, let me say to my friend from Kentucky, I will not make a lengthy speech, but I am more than prepared to wait until you give your comments, and when you conclude, I will make my request.

Mr. MCCONNELL. I would say to my friend from Montana, it would be helpful if you could go ahead and do the unanimous consent agreement, if you want to speak to the issue later.

Mr. BAUCUS. Well, other Senators wish to speak as well.

HEALTH CARE REFORM

Mr. MCCONNELL. Mr. President, reclaiming my leader time, the longer the debate over health care goes on, the clearer it becomes that the problem the Democrats are having isn't

with some of the provisions we keep hearing about on the news; their problem is the fundamental opposition of the American people to the core components of the bill—the core of the bill.

Americans oppose the Democratic plan because they know the final product is a colossal legislative mistake. Not only does this bill fail to achieve its primary goal of lowering the cost of health care, it makes matters worse by driving up premiums, raising taxes, and wrecking Medicare for seniors.

The bill is fundamentally flawed, and the American people know it can't be fixed. That is why they are asking us to stop and start over with the kind of commonsense, step-by-step reforms that will address the cost problems.

Fortunately, a growing number of Democrats are beginning to listen to the voices of the American people. We have, just today, a Washington Post poll indicating, once again, the polls are unanimous that the American people are overwhelmingly opposed to this bill, and seniors in particular, by a very wide margin, do not favor this bill.

So our friends on the other side of the aisle face a choice. They can either side with those who are making a call to history or they can side with their constituents who say a vote on this bill would be a historic mistake.

That is what is unfolding behind the scenes: As a handful of Democratic leaders press ahead in a blind rush of frantic dealmaking to find 60 votes by Christmas, a handful of other Democrats are wondering which side they want to be standing on when the dust settles—with those who are pushing them to support a bill they don't like or with the American people who are imploring them not to do it.

This is an important moment in the life of our Nation. This is one of those moments when the free decisions of a handful of elected leaders are the only difference between America going down one road or another. History will be made either way. History will be made either way. But in this case, as in many others from our history, Americans want history to show that a determined few took their side and triumphed over a powerful majority—a majority who clearly misread its mandate.

GUANTANAMO BAY

Mr. MCCONNELL. Mr. President, early yesterday, the administration announced what can only be viewed as the latest in a string of seriously misguided decisions related to the closing of the secure facility at Guantanamo Bay. It plans to move dozens of terrorist detainees from Guantanamo Bay Cuba to a prison in northern Illinois.

The explanation we used to get for moving detainees onto American soil was that Guantanamo's existence is a

potent recruiting tool for terrorists. But even if you grant that, it is hard to see how simply changing Guantanamo's mailing address would eliminate the problem. Does anyone believe Al-Jazeera will ignore the fact that enemy combatants are being held on American soil? It is naive to think our European critics, the American left, or al-Qaida will be pacified by creating an internment camp in northern Illinois, a sort of "Gitmo North" instead of "Gitmo South."

As I said, this is just the latest in a series of misguided decisions. First, there was the decision to close Guantanamo by an arbitrary date without a plan for doing so. Americans expect their Government to protect them. That is why Americans overwhelmingly rejected the idea of closing Guantanamo.

Then there was the decision to bring the self-avowed mastermind of the 9/11 attack, Khalid Shaikh Mohammed, and his fellow 9/11 plotters into New York City for trial. We learned just this week, the administration plans to give other terrorists the benefits of a civilian trial in the United States.

Now there is this: According to the reports we have seen, the administration intends to bring as many as 100—100—foreign terrorist fighters from Guantanamo Bay to America, a plan that would make our Nation less safe, not more so. What is worse, the defenders of the proposal don't even seem to get the implications.

Rather than even attempt to reassure people about safety, politicians in Illinois are trumpeting this decision—get this now—as a jobs program, a jobs program. That is how out of touch they are. Democratic politicians are so eager to spin the failure of the \$1 trillion stimulus, they are now talking about national security in the language of saved and created jobs.

The advocates of closing Guantanamo without a plan can't seem to make up their minds as to why it is a good idea. First, we were told we had to bring them here because Guantanamo is a dangerous symbol—the whole symbolism over safety argument. Now, with unemployment in double digits, it is being sold—incredibly—as a jobs project, some kind of shovel-ready plan.

But leaving aside the absurdity of marketing this as a jobs program, let's get to the core issue. The core issue is this: Moving some of the worst terrorists on Earth to U.S. soil on its face is more dangerous than leaving them where they are. Nobody could argue with that. Make no mistake, this decision, if implemented, will increase the threat to security at home. Let's count the ways in which it increases the threats of security in the United States.

There will now be another terrorist target in the heartland of America—an

obvious one at that, right near the Mississippi River.

The FBI Director has already stated his concerns about the radicalization of other prisoners that could happen by moving terrorists here.

There is also the danger of detainees communicating with terrorists on the outside, as has happened in the past—a danger that would undoubtedly increase with the additional legal rights detainees will enjoy once they are moved into the United States.

Then there is the danger that the detainees could sue their way to freedom—yes, that the detainees could sue their way to freedom. Before the first detainee has even set foot in the United States, their lawyers stand ready to challenge in court the administration's decision to incarcerate detainees indefinitely in the United States. By purposefully moving detainees here, the administration is making it easier for detainees and their lawyers to succeed in doing so.

The Supreme Court has repeatedly held that foreign nationals have more rights if they are present on U.S. soil than if they are not. We have already seen the application of this principle. We have seen a Federal judge order detainees released into the United States—only to be reversed because the detainees at the time didn't enjoy the advantage of being present in the United States—an advantage the Obama administration intends to confer on them.

Then there is the case of the so-called shoe bomber, Richard Reid, who narrowly failed in his effort to blow up a passenger jet in midair. Americans might recall that Reid ended up in a supermax facility in Colorado. They might not recall what happened next. Not satisfied with his conditions of confinement, Reid sued the government. He said he wanted to be placed in less restrictive conditions where he could watch TV, order periodicals through the mail, and learn Arabic. He got his wish. The Obama administration acceded to Reid's demands. He has been placed in the general prison population, a less restrictive environment where he can speak to the media and where his visitors and mail will no longer be regularly monitored by the FBI. Is this how we should treat people who attempt to blow up commercial airliners? We will no longer have the FBI routinely monitor their mail? This is an outrage, an absolute outrage. Unfortunately, it is not an isolated case.

Just a few years ago, this same supermax allowed terrorist inmates to communicate with terrorist networks abroad. At the time, our Democratic colleagues criticized these security lapses harshly. The senior Senator from New York said Federal prison officials were "incompetent when it comes to detecting possible terrorist activity in Federal prisons." He noted

"past evidence of terrorists communicating with live terror cells from inside prison walls." That was the senior Senator from New York.

Our Democratic colleagues now raise concerns about similar potential lapses at the proposed "Gitmo North."

This decision is ill-advised on multiple levels. It is also prohibited by law. Fortunately, if and when the Obama administration submits its plan for closing Guantanamo, Congress will have an opportunity to revisit the prohibition in current law that bars the transfer into the United States of Guantanamo detainees for the purposes of indefinite detention. That is against the law. At that point, we will decide whether this prohibition ought to be removed and whether millions of dollars ought to be appropriated to make this ill-advised decision a reality.

In short, Congress will have a chance to vote on whether we should treat the national security needs of the country as just another local jobs project. I suspect the American people will be no more supportive of this idea than they were of the administration's plan to close Guantanamo by an arbitrary date. Security can't take a backseat to symbolism, and it certainly should not take a backseat to some parochial jobs program.

I yield the floor.

RESERVATION OF LEADER TIME

The PRESIDING OFFICER (Mr. BEGICH). Under the previous order, leadership time is reserved.

SERVICE MEMBERS HOME OWNERSHIP TAX ACT OF 2009

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of H.R. 3590, which the clerk will report.

The assistant legislative clerk read as follows:

A bill (H.R. 3590) to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

Pending:

Reid amendment No. 2786, in the nature of a substitute.

Hutchison motion to commit the bill to the Committee on Finance, with instructions.

The PRESIDING OFFICER. Under the previous order, the first hour will be equally divided and controlled between the two leaders or their designees, with the minority controlling the first half and the majority controlling the second half.

The Senator from Montana is recognized.

Mr. BAUCUS. Under current law, the estate tax disappears next year—in 16 days—but snaps back to a 55-percent rate the year after. I believe that is not

sound policy. The estate tax should not be zero in 1 year and then be snapped up to a very high rate in the subsequent year. As the Chair knows, current law has the rate slowly declining and the exemption slowly increasing. The individual exemption now is \$3.5 million. If Congress takes no action, then beginning on January 1 of next year, that could be zero. The estate tax could be zero.

But another consequence that will occur too is that all heirs of the estate will find that the property they receive will be subject to a carryover basis. Currently, today, property received by heirs is subject to a step-up basis. They get the new basis and the value of the estate as of the date of the decedent's death. If this law expires, there would be no estate tax paid next year on any estate, but also the heirs will no longer have a step-up basis on the assets they receive.

There are several problems with letting the current law expire next year. One is the yo-yo effect. It is an outrage if Congress allows estate taxes to change so much, particularly near the end, that is, a lower rate this year with an expiration to a zero rate next year, and also changing a step-up to a carryover basis, and the following year up at a much higher rate.

The second problem, frankly, is I do think there should be an estate tax on the highest value estates. I think that is good policy.

Third, people don't talk much about this, but I think we should focus on it. If current law expires, every heir will be subject, as I said, to a carryover basis in determining his or her taxes when that taxpayer, the heir, at a later date sells the property and has to pay capital gains. What are the problems with that? First of all, massive record-keeping confusion—massive.

Soon, I am going to propose an extension in the current law. If that is not passed and if we do not extend the estate tax law, all taxpayers, all heirs, will be subject to massive confusion in trying to determine the value of the underlying assets when they later try to sell. The value of the step-up basis to the heir obviously is a lower capital gains tax, but there is also certainty. People pretty much know the value at the death of the decedent.

I cannot emphasize strongly enough how much confusion there will be on January 1, if my consent is not agreed to. There will be such confusion because of the heirs receiving property subject to a carryover basis, not a step-up basis, let alone the capital gains tax they will have to pay when they sell that capital asset at a subsequent date. Currently, when the heir receives that capital asset, because it is a step-up basis, there is much less capital gain paid, presumably, by that heir who sells the asset.

Here it is mid-December. The only responsible thing to do to prevent the yo-

yo effect—how in the world can people look at planning in their estates if the law goes up and down and changes all the time? It has kind of leveled off, as I said, at the 2009 rates and people have a pretty good idea what those are. Some in this body would like to see the rate go lower and exemptions go higher. Some in this body would like to see other changes. We kind of leveled off at 2009 estate tax laws, where the rates are set and the exemptions are set. Most people in the country are anticipating Congress will eventually pass that.

It would be irresponsible to further the yo-yo effect by allowing current law to expire and create all this massive confusion, this chaos that will apply to heirs of the estates on January 1 because of this change in capital assets from step-up to a carryover basis, among other things.

UNANIMOUS CONSENT REQUEST—H.R. 4154

Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of H.R. 4154, which was just received from the House and is at the desk; that the Baucus substitute be considered and agreed to, the bill, as amended, be read the third time and passed, the motion to reconsider be laid upon the table; that any statements relating to the measure be printed in the RECORD without any further action or debate.

The PRESIDING OFFICER. Is there objection?

Mr. MCCONNELL. Mr. President, reserving the right to object, there is nothing more outrageous to the American people than the thought that they will have to visit both the IRS and the undertaker on the same day.

Surveys indicate that Americans, even after informed that estate tax may not apply to them, object to it in principle.

I am going to ask that the chairman of the Finance Committee modify his request in the following way:

That there be an amendment considered that reflects a permanent, portable, and unified \$5 million exemption that is indexed for inflation, and a 35-percent top rate; and further, that the amendment be agreed to, the bill then be read the third time and passed, with the motion to reconsider laid upon the table.

Before the Chair rules, I want to acknowledge my good friend Senator KYL, the Republican whip, who has been our leader on this side of the issue. He has crafted a proposal, along with the leader on this on the other side, Senator LINCOLN of Arkansas, that is consistent with the consent agreement and with the modification I am now asking the chairman of the Finance Committee to make. This approach would provide certainty and clarity to all taxpayers, especially small businesses and farmers; whereas the UC propounded by the chairman

would only create additional confusion, with three different rates coming into effect in the course of a 12-month period.

Summing it up, I ask that my friend from Montana modify the agreement in the way I described.

Mr. BAUCUS. Mr. President, I don't think this is the way to do business here; that is, to enact estate tax law here on the floor of the Senate without any notice, and also because there are so many considerations Senators on both sides want to look at. It would be improper. I object.

Mr. MCCONNELL. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. BAUCUS. Mr. President, I yield 5 minutes to the Senator from New Mexico.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. BINGAMAN. Mr. President, let me speak in support of what Senator BAUCUS, the Senator from Montana, attempted to do just now—to get a short-term extension of current law with regard to the estate tax, so we would have a \$3.5 million exemption from the estate tax into next year for a short period, while we actually settle on what type of permanent change in estate tax law is appropriate.

As the Senator from Montana pointed out, the circumstance we find ourselves in right now, given the current state of the law, is untenable and irresponsible. What the current status is that if a person dies in the next 16 days, if their estate exceeds \$3.5 million, they will be subject to an estate tax, and a couple whose estate—when the second member of the estate dies and their estate would exceed \$7 million, they would be subject to an estate tax.

After the next 16 days, beginning on January 1 of next year, we have no estate tax under the law as it now exists. But at the end of next year—or the beginning of 2011—the estate tax comes back at a 55-percent rate.

That is not a reasonable set of circumstances for the American public to have to face. Not only is it a 55-percent rate that comes back on January 1, 2011, the exemption—the amount that is exempt from the estate tax—is reduced to \$1 million. That is, obviously, adverse to many families in this country.

What has happened on the Senate floor is that the Senator from Montana has said let's do a short-term extension of the current estate tax provisions for a few months and get a resolution of what should be done on a permanent basis. The Republican leader has said: No; here is a permanent solution. Take this permanent solution or we object.

That is not a responsible way for this body to proceed, in my opinion. I do think this issue that both Senator REID and Senator BAUCUS have spoken about

of this problem with a stepped-up basis going away for inherited assets is a very real problem. It is arcane, I understand that. It sounds like accounting speak. But it is a very real problem for American families when they inherit property in the future to have to take the value for purposes of paying capital gains tax. If that property is ever sold, they will have to go back and try to determine what was the basis that their parent or the person from whom they inherited the property had in that property. It is a bookkeeping nightmare and will create great confusion for American families.

Clearly, the right course is for us to do a short-term extension of the current estate tax provisions and then get agreement between the two parties as to what a long-term solution could be in the next couple of months.

That course, evidently, is being blocked. The request was made yesterday, I understand, by Senator PRYOR to have a short-term extension. The Republican leaders objected to that request. The same objection has been raised to the request by Senator BAUCUS today.

I do think this is an unfortunate circumstance. It is a great disappointment to me to see us doing business in this fashion. I know there are many who think there should be no estate tax. I do not agree with that perspective. The estate tax in my State—I went back and got the IRS figures. There were 80 individuals in the year 2008 who wound up having to pay some estate tax, whose estates had to pay some estate tax in the State of New Mexico. It does not apply to most individuals.

I do believe it is appropriate that there be an estate tax for large estates. I do believe we should have a consistent policy, and it should not be something that is here today, gone tomorrow, and back again in a much worse form at the beginning of January 2011. That is the course we are on today. I think it is very unfortunate.

Again, I strongly support what the Senator from Montana was trying to accomplish with his unanimous consent request.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, I ask unanimous consent that Senator KYL be permitted to speak for up to 5 minutes and that following his remarks, the hour of controlled time on the health care legislation begin.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Arizona.

Mr. KYL. Mr. President, the argument that the chairman of the Finance Committee made reminds me of a story told in law school of the fellow accused of murdering his parents. He pled for mercy on the court since he was an orphan.

I asked the chairman of the committee numerous times this year to address this problem, and the response always was: We are too busy. We are too busy with health care was the usual response. Now we find ourselves at the end of the year, and it is odd that the chairman argues that we have a big emergency on our hands and we have to act.

It is not as if we have not known this issue was out there. Nor, as Senator BINGAMAN just suggested, has it been a big mystery that the rate on the estate tax was going to go to zero next year. That is the 2001 law. We have known that for years.

Frankly, people have applauded the fact there is not going to be an estate tax next year. The only problem is if the people on the other side of the aisle intend to repeal that law so we do have an estate tax. I know that is their intention. They are creating the confusion because the law has been known about for 10 years that we are going to have a zero rate. Now all of a sudden they say we cannot let that happen. We are going to have to change it next year. Since we think we may be able to do that, we should extend what we have right now and not let the zero rate take hold.

I suspect the great dilemma that is being posed is one most folks would love to have as a problem. The dilemma being proposed is that if the rate goes to zero and the heirs of the property decide to sell the property at some point, they will have to pay a capital gains tax. That is just fine. That is what most people would like to do.

Since this income is taxed twice—it is taxed once when you make the income, then it is taxed again if you have any of that left over when you die—that is unfair. What we have always argued is that the estate tax, therefore, should go away and just leave the existing Tax Code where it is, which says: If somebody inherits property and later sells that property, sure, they should pay a capital gains tax on it. I would think most people would think that is a pretty good deal.

The capital gains tax is 15 percent; whereas the estate tax under the proposals of my friend from Montana would go to 45 percent. As between paying 45 percent and 15 percent, I think it is pretty clear what most small business folks and farmers would like to do.

Of course, the original basis of the property is the basis for paying the tax. Again, if you put that question to small business folks or farmers, they would tell you they would rather pay the capital gains tax than they would an estate tax of 45 percent.

Mr. President, I ask unanimous consent to have printed in the RECORD at the conclusion of my remarks an editorial from the Wall Street Journal

from December 11 called, "The Tax That Won't Die, Death Blow, Night of the Living Death Tax, Estates of Pain."

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. KYL. Mr. President, among the things pointed out in this editorial, they say:

We've long argued that the economically optimal and fairest death tax rate is zero. The tax is applied to income that was already taxed when it was earned, so it is a double tax on savings and capital. The correct way to tax a gain in the value of assets bequeathed to an heir is with a capital gains tax of 15 percent when the assets are sold, rather than at the time of the funeral of the original owner.

I think that says it all. I hope the problem my friends are so concerned about—first of all, they recognize a problem they themselves manufactured by not getting around to doing anything about this until the eleventh hour. Second, it is a problem that does not have to exist if they will leave the existing law alone and let the rate go to zero, which is what everybody wants it to be.

Sure enough, if your heirs sell property after that, they will have to pay capital gains. Ask them what they would rather do—pay a 15-percent rate or a 45-percent rate. I think the answer to that is pretty clear.

EXHIBIT 1

[From the Wall Street Journal, Dec. 11, 2009]

THE TAX THAT WON'T DIE

Well, the moment of truth has arrived, and House Democrats recently voted 234-199 to cancel the 2010 repeal and hold the rate permanently at 45% with a \$3.5 million exemption. Senate Majority Leader Harry Reid now wants to do the same. But to suspend the Senate's health-care debate and turn to the estate tax, he needs 60 votes. All Republicans and some Democrats are saying no. Blanche Lincoln of Arkansas and Jon Kyl of Arizona will accept no more than a 35% permanent rate with a \$5 million exemption.

We've long argued that the economically optimal and fairest death tax rate is zero. The tax is applied to income that was already taxed when it was earned, so it is a double tax on savings and capital. The correct way to tax a gain in the value of assets bequeathed to an heir is with a capital gains tax of 15% when the assets are sold, rather than at the time of the funeral of the original owner.

Study after study, including one co-authored years ago by White House economist Larry Summers, finds that a powerful motivation for entrepreneurs to grow their businesses is to pass that legacy to their children. The left disparages this as building "family dynasties," but most Americans think that it is immoral for the government to confiscate the fruits of a life's effort merely because of the fact of death.

Democrats also say their rate would apply only to the richest 2% of estates. But a new study by economists Antony Davies and Pavel Yakovel of Duquesne University finds that the estate tax "impacts small firms disproportionately versus large firms" by encouraging well-capitalized companies to gobble up smaller ones at the owner's death. The

study shows the result is to "promote the concentration of wealth by preventing small businesses from being passed on to heirs."

Republicans and willing Democrats shouldn't give up on eliminating the death tax. The Kyl-Lincoln amendment to create a permanent 35% rate is far better than the confiscatory House bill. But the best strategic outcome now is to let the death tax expire in January as scheduled under current law, and return to this debate next year when the tax rate is zero. Then let liberal Democrats explain to voters on the eve of elections that they must restore one of the most despised of all taxes.

The PRESIDING OFFICER. The Senator from Montana.

Mr. BAUCUS. Mr. President, clearly, the right public policy is to achieve continuity with respect to the estate tax. If we do not get the estate tax extended, even for a very short period of time, say, 3 months, we would clearly work to do this retroactively so when the law is changed, however it is changed, or if it is extended next year, it will have retroactive application.

The uncertainty for tens of thousands of middle-class families needs to stop. That is why retroactive application of anything that passes next year makes sense.

Right now, 99.7 percent of estates do not have to worry about the estate tax. If we do not extend current law, many heirs are going to have to worry about capital gains. There is the potential for high-income households to take advantage of the temporary reductions in the rates for gift taxes and temporary elimination of GST to do massive estate planning—potentially benefiting those households by billions of dollars at the expense of U.S. taxpayers. Beyond this, what Congress is doing is a huge benefit for lawyers and accountants who do all the estate planning.

The right thing to do is to extend current law for a brief period of time to get our act together to decide what estate laws should be. That is the right thing to do. I am very disappointed that the other side of the aisle does not let us do the right thing—at least extend current law for a while until we know what the estate tax law should be.

Mr. COBURN addressed the Chair.

The PRESIDING OFFICER. The Senator from Montana has the floor.

Mr. BAUCUS. Mr. President, for the benefit of Senators, we are now back on the health care bill. Let me lay out today's program.

It has been nearly 4 weeks since the majority leader moved to proceed to the health care reform bill. This is the 16th day that the Senate has considered the bill.

The Senate has considered 23 amendments or motions and conducted 18 rollcall votes.

Today the Senate will debate the motion to commit regarding taxes offered last night by the Senator from Texas, Mrs. HUTCHISON. Under the previous order, later this morning, we expect

that the Senator from Vermont, Mr. SANDERS, will offer his amendment No. 2837 on a national single-payer system.

This morning, the first hour of debate will be equally divided and controlled between the two leaders or their designees. The majority will control the first half hour and the Republicans will control the second half hour.

We expect the Senate to conduct votes today in relation to the Hutchison motion and the Sanders amendment.

Also, today, the House of Representatives is scheduled to act on the Department of Defense Appropriations Act which also contains a number of vital year-end measures. We look forward to receiving that measure in the Senate as well.

I yield 10 minutes to the Senator from Ohio and then 15 minutes to the Senator from Delaware.

The PRESIDING OFFICER. The Senator from Ohio.

Mr. BROWN. Mr. President, I thank Senator BAUCUS for yielding, and I thank Senator KAUFMAN also for him yielding.

Less than 5 percent of cancer patients enroll in clinical trials. Only 6 percent of people who suffer from severe chronic illnesses participate. These low participation rates mean it is harder to conduct a timely trial. In fact, delays in patient recruitment for clinical trials account for an average of almost 5 months lost per trial. Nearly 80 percent of trials run over schedule by more than a month. Only 6 percent are completed on time.

Clinical trial delays lead to treatment development delays, whether it is the next breakthrough drug or some other lifesaving therapy. Without clinical trials, medical innovation would come to a halt.

Unfortunately, one major reason more patients do not enroll in clinical trials is that their insurance company coverage discourages it.

Insurers today take advantage of lax regulations that allow them to deem all care for a person in a clinical trial as "experimental"—even routine services they would get if they were not in the trial, such as x rays, blood tests, and doctor visits.

This draconian policy predictably scares many patients away from potentially lifesaving trials. Patients simply cannot afford to pay out of pocket for all of their own care. Understand, they do not expect the insurance company to pay for the trial itself. No one is suggesting that. No one thinks that. But insurers should not be allowed to use a patient's participation in a clinical trial as an excuse to deny them coverage for standard care.

To address this problem, Senator HUTCHISON of Texas and I have filed amendment No. 2871. This amendment would require all insurance companies

to simply live up to the promises they have made to their premium-paying policyholders. It means covering the cost of routine care for clinical trial participants.

More than 30 States have already enacted a similar clinical trials policy for their State-regulated insurance plans. Medicare has already enacted a similar clinical trials policy for its beneficiaries. The VA and DOD have already enacted similar clinical trials policies for their members. Even some insurance companies are already doing the right thing in covering the routine costs associated with clinical trials.

But because many are not and because there is no standard criterion by which appeals can be adjudicated, countless patients who would otherwise enroll in clinical trials do not.

Take, for example, Sheryl Freeman from Dayton, OH. Sheryl and her husband Craig visited my office in Washington in 2007. Sheryl was a retired teacher suffering from multiple myeloma. Thankfully, she had health insurance through her husband's employer. Yet when Sheryl tried to enroll in a promising clinical trial at James Cancer Hospital at Ohio State, her insurance company balked, refusing to cover the routine care costs.

Understand this: She had insurance, she had good insurance—she thought she had good insurance. She enrolled in a clinical trial paid for by the people doing the clinical trials—the hospital, the drug company, whomever. But the insurance company pulled back and said: We are not going to cover routine care for her anymore since she is in a clinical trial, something she was entitled to with or without the clinical trial. Regardless of whether or not Sheryl enrolled in a clinical trial, she still needed to visit her oncologist in Dayton once a week for standard cancer monitoring, including scans and blood tests. But her insurance company would stop covering these services if she enrolled in the clinical trial.

Sheryl wanted to enroll in a clinical trial because she hoped it would save her life. She hoped it would give her more time with her loved ones. She hoped it would help future patients diagnosed with the same type of cancer, but she was not willing to force her family into bankruptcy. So instead of devoting her energy toward combating cancer, Sheryl spent the last months of her life haggling with the insurance company. By the time her insurance company relented, it was too late. Sheryl died December 7, 2007.

Sheryl's husband Craig, with whom I have spoken a couple of times and met with, wrote the following about the ordeal:

No patient should have to fight insurance when battling a disease such as cancer.

How many times have we heard that in this Chamber? Tragically, Sheryl's experience is not an isolated case.

In Ohio—my State—one cancer hospital has reported that over one-third of patients who tried to enroll in a clinical trial over a 6-month period were automatically denied access by their insurance company. Again, I understand how that happens. You have decent insurance, you think. Then you decide to enroll in a clinical trial that your doctor suggests. The insurance company then quits covering you for the things it used to cover you for—the routine care you need as a patient.

Take Gene Bayman. I met and talked to Gene—a courageous man who loved his family. His family was so fond of him, as you could see, when I saw him in Columbus with his family. He was diagnosed in February 2007 with multiple myeloma. Gene's doctor recommended a combination of standard treatment and clinical drugs, but Gene's insurance company threatened to stop paying for the routine care otherwise covered under the policy if he enrolled in the clinical trial.

If that is not rationing, Mr. President, I don't know what is.

Gene died in June of this year, never having the chance to participate in the cutting-edge research that might have saved his life. Gene wrote, before he died:

I don't want my health options limited by insurance companies concerned with the bottom line rather than the medical research my doctor prescribes.

Mark Runion, also from Ohio, faced the same barrier. Mark was being treated for multiple myeloma with standard care—a stem cell transplant and chemotherapy. His doctor recommended he enroll in a clinical trial to try out a new drug that might help him recover quickly. The insurance company refused to comply, telling Mark if he were to enroll in the clinical trial they wouldn't pay for any of his cancer care. Another terrible lost opportunity. The clinical trial would have helped us learn more about which drugs we should administer to patients after stem cell transplants. In other words, while this most directly, most tragically, most painfully affected Mark Runion and his family, it also affects all of us who have loved ones or who might ourselves come down with this disease. The clinical trial that Mark wanted to enroll in would have given him an opportunity and would have given all of us more scientific knowledge and information that would have been helpful.

Instead, the insurance company took a shortsighted view and denied Mark the recommended care. Mark writes:

I personally would rather make my medical decisions with my doctor—the expert in my care—rather than my insurer.

These stories should have ended differently. Sheryl, Gene, and Mark all paid premiums to health insurance for years. But when they got sick and were

referred to a clinical trial, the insurance company refused to pay for the benefits guaranteed under its policy.

Health insurance reform should be about making sure insurance companies can't renege on their commitments. It is about ensuring that insurance companies can't write sham policies that allow for rescissions and riders and exceptions and bring about more horror stories than we all care to recount. It is about closing loopholes that health insurance companies are great at taking advantage of, and as some say, staying one step ahead of the sheriff.

This amendment is consistent with those goals. It would help advance important research in the most serious diseases. This is a public health issue for all of us.

In closing, if we are ever going to find a cure for cancer and diabetes and cardiovascular disease and Alzheimer's and ALS and the hundreds of other diseases killing millions of Americans each year, we need to encourage in every way possible participation in clinical trials and not put up barriers against participation.

This amendment is endorsed by the Lance Armstrong Foundation, the American Academy of Pediatrics, the Susan G. Komen for the Cure Advocacy Alliance, the American Cancer Society, the Alzheimer's Foundation of America, and dozens of other national organizations.

Along with Senator HUTCHISON, this bipartisan amendment is also sponsored by Senators FRANKEN, WHITEHOUSE, SANDERS, SPECTER, and CARDIN. Please join us in supporting amendment No. 2871.

I yield the floor.

The PRESIDING OFFICER (Mr. KIRK). The Senator from Delaware is recognized.

Mr. KAUFMAN. Mr. President, I ask unanimous consent to speak as in morning business for up to 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

FINANCIAL MARKETS AND JOB LOSS

Mr. KAUFMAN. Mr. President, my colleagues have heard me speak in recent weeks about the troubling trends in our financial markets—the growing use of dark pools and high-frequency trading, increasing market fragmentation and looming regulatory gaps at the Securities and Exchange Commission. Today, I want to talk about an economic threat that encompasses these developments and why I think they are negatively affecting the long-term health of our economy.

After suffering through the most severe recession in decades, we are now in the midst of the most fragile of recoveries. It is evident to all that we are in a jobs crisis. We need a laser-like focus on innovation policies that encourage industry to create jobs. But this challenge comes not just from the

financial crisis and the recession that followed, the American economy has slowed in its efforts to create jobs for the past decade.

According to the Bureau of Labor Statistics, the United States had 108.5 million private, nongovernmental jobs as of September of this year. But while our population has grown 9 percent in the last 9 years, the number of jobs now available is essentially the same as June of 1999.

Let me repeat that: The number of jobs now available is essentially the same as June of 1999—over 10 years ago.

Many of the jobs this economy did create in the past decade were in the financial, housing, and consumer-led retail sectors. Two of those—financial and housing—were bubbles that have now burst. Without these sectors playing a key role in providing new jobs, many Americans are asking: Where will the future job creation most likely occur?

In the past, job creation would often come from the raft of small, newly financed, often innovative companies that raised their capital with the help of Wall Street underwriters. Thousands of times I have heard in the last months that the recovery is going to come because of small businesses, and many of those raise their capital with the help of Wall Street underwriters.

Now I am deeply concerned there is a choke point in our efforts to return to economic vibrancy, a choke point that can be found on Wall Street. Our capital markets, which have long been the envy of the world, are no longer performing one of their most essential functions; that is, the constant and reliable channeling of capital through the public sale of company stock, known as initial public offerings—or IPOs—which small companies use to innovate and, most importantly, to create jobs.

Look at this chart. There is an IPO crisis in this country. Indeed, according to a report released last month by the accounting firm Grant Thornton, the IPO market in the United States has practically disappeared. That, in turn, according to a second Grant Thornton study, has had a ripple effect on the U.S. stock markets, with the number of stock listings since 1991 dropping 22 percent in absolute terms and 53 percent when factoring in inflation-adjusted GDP growth.

New companies have been shed from the NASDAQ, New York, and American Stock Exchanges faster than being created, from almost 7,000 publicly listed companies in 1991 and nearly 8,900 in 1997, during the dot-com bubble, to 5,400 listed in 2008, a turn of events Grant Thornton has dubbed the "Great Depression of Listings."

The United States is practically the only market in the world where this phenomenon is occurring. The major stock exchanges—as you can see from

this chart—in Hong Kong, London, Milan, Tokyo, Toronto, Sydney, and Frankfurt, have all grown from their 1997 levels, Grant Thornton reports. Just look at this chart. This is what is going to take us out of the recession. Look at where we are—the United States—in relation to Hong Kong, Tokyo, Australia, and the other markets.

The effects of the IPO crisis have rippled throughout the U.S. economy. Because 92 percent of job growth occurs after a company goes public, job creation may have been stunted by these developments. In fact, according to the Grant Thornton study, if the IPO market was working properly today, we would have as many as 10 million to 20 million additional high-quality jobs for middle-class Americans. Even if that estimate is off by a factor of 10, this failure of Wall Street to provide capital to small companies may be costing our economy millions of jobs.

Mr. President, most every large company begins as a small company. That is axiomatic. The IPO market has been hit hardest at the smallest end of the market. The medium IPO in the first 6 months of 2009 was \$135 million. Let me say that again—\$135 million. Twenty years ago, IPOs at \$10 million were routine, and routinely succeeded.

Take a look at this chart and look at these companies. Venture capitalists play a critical role in long-term investment, in growing our economy and creating jobs. Indeed, when you look at these 17 venture-backed companies that raised a total of \$367 million in capital and today provide 470,000 U.S. jobs, they are among our economy's biggest success stories.

Look at this list. Think of where we would be today if these companies were not able to get IPS: Adobe, Computer Associates, Intel, Oracle, Yahoo. These are all the companies where growth came from. Right now, in our present market, they cannot go public the way they went public originally.

What has happened? A host of well-intentioned changes—some technological, some regulatory—with many unintended consequences have created this situation. Online brokerage firms, with their \$25 trades, first appeared in 1996, hastening the decline of traditional full-service brokerage firms who charge \$250 a trade. There was an advantage to those hefty fees, however. They helped maintain an underwriting apparatus that encouraged small businesses to go public and supported a substantial research base that attracted both institutional and retail clients.

The rich ecosystem of investment firms, including the Four Horsemen—Robertson Stephens, Alex Brown & Sons, Hambrecht & Quist, and Montgomery Securities—that helped their institutional buy-side clients take part in IPOs and marketed follow-on offerings, no longer exists today.

Structural changes in the U.S. capital markets dealt the final coup de grace. There were new order handling rules—decimalization, which shrank spreads significantly and made it increasingly difficult for traditional retail brokers to remain profitable; Regulation ATS and NMS, which vastly expanded the electronic marketplace.

Finally, there has been an explosive growth in high-frequency trading, which takes advantage of the market's now highly automated format to send more than 1,000 trades a second ricocheting from computer to computer.

The result, as *The Economist* magazine wrote last week, is that high-frequency traders who have come to dominate stock markets within their computer-driven strategies pay less attention to small firms, preferring to jump in and out of larger, more liquid shares.

The economist quoted:

Institutional investors wary of being stuck in an illiquid of the market are increasingly following them.

This is a situation that stands as a veritable wall against a sustained economic recovery.

One of the very vital tasks before Congress is to help unemployed Americans by crafting innovation policies that will rebuild our economy, catalyze growth, and create high-quality jobs for struggling Americans. That is our No. 1 job in the Congress right now. I think if you asked every 1 of the 100 Senators, they would say that is the case.

We must identify the causes of last year's debacle and apply them to our current economic challenges in order to help the millions of struggling Americans and to avert a future disaster. The fact that Wall Street has resumed its risky and—as we know all too well—potentially disastrous behavior is simply inexcusable.

In order to reverse this ominous trend and help companies raise capital to innovate, create jobs, and grow, we must restore the financial sector's historical role as a facilitator of long-term growth and not the source of one bubble after another.

The question, finally, is this: How can we create a market structure that works for a \$25 million initial public offering, both in the offering and the secondary aftermarket? If we can answer that question, this country will be back in business.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. KAUFMAN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KAUFMAN. Mr. President, I ask to speak in morning business for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

IN PRAISE OF WILLIAM PHILLIPS

Mr. KAUFMAN. I rise once again to recognize one of America's great federal employees.

Last week, in Stockholm and Oslo, the 2009 Nobel laureates accepted their prizes. I am particularly proud that 11 of this year's 13 prizes were won by Americans. This is a reminder of our Nation's global leadership in science, medicine, economics, and peace-making.

My honoree today holds the distinction of having been the first Federal employee to win a Nobel Prize in physics for work performed while serving the public.

Our Federal workforce is composed of citizens who are both highly educated and incredibly motivated.

Dr. William Phillips is the perfect example. A native Pennsylvanian, William learned the importance of public service and hard work from a young age. His mother, an immigrant from Italy, and his father, a descendent of American revolutionaries, were the first in their families to attend college. They both pursued careers as social workers in Pennsylvania's coal-mining region. William, along with his brother and sister, grew up in a home where reading and education were emphasized.

As a boy, William fell in love with science, and he tinkered with model rockets and chemical compounds in the basement of his family's home. While attending Juniata College in the 1960s, William delved into physics research. He spent a semester at Argonne National Laboratory and, after graduation, pursued his doctorate at M.I.T.

During his time at M.I.T., the field of laser-cooling was just heating up, and William wrote his thesis on the collisions of atoms using this new technology.

In 1978, William began working at what is today the National Institute for Standards and Technology—or "NIST"—at the Department of Commerce. At NIST, he pursued further research into laser-cooling, and his discoveries have helped open up a new field of atomic research and expand our knowledge of physics. His findings have found important application in precision time-keeping, which is important for both private industry and for national security.

In 1997, William received the Nobel Prize for Physics along with two other scientists. One of his fellow-laureates that year was Dr. Steven Chu, who now serves as Secretary of Energy.

After winning his Nobel Prize, William made a commitment to using his fame to promote both science education and public service. He regularly speaks to student groups, and he serves as a mentor to graduate students in his field.

William won the prestigious Arthur S. Flemming Award for Public Service in 1987, and he was honored by the Partnership for Public Service with its 2006 Service to America Medal for Career Achievement.

He and his wife, Jane, live in Gaithersburg, MD, and are active in their community and church. Today, after a 3-decade Federal career, William continues to work at NIST as the leader of its Laser-Cooling and Trapping Group.

I hope my colleagues will join me in honoring Dr. William Phillips and all those who work at the National Institute of Standards and Technology for their dedicated service and important contribution to our national life. They keep us at the forefront of science and human discovery. They do us all proud.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MCCAIN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Mr. President, before my colleagues begin, I think it is important for us to point out where we are here on December 16, 2009. We are now almost a year into the discussion and debate about "reforming health care in America" and we still do not know what is in the bill. We still do not know the specifics of what we are considering here.

I have had the honor of serving here for a long period of time, but I have never seen a process like this. I have never seen a situation where a major piece of legislation is not before the body and is somehow being negotiated and renegotiated amongst the other side. Meanwhile, according to the Washington Post this morning, a newspaper I always have the utmost trust and confidence in—I wish to say the title is "Public cooling to health-care reform as debate drags on, poll finds."

As the Senate struggles to meet a self-imposed, year-end deadline to complete work on legislation to overhaul the nation's health-care system, a new Washington Post-ABC News poll finds the public generally fearful that a revamped system would bring higher costs while worsening the quality of their care.

A remarkable commentary about where we are in this legislation. One of the interesting things is this poll goes back to April, where in April, 57 percent of the American people approved and 29 disapproved of the President's handling of health care. Today it is 53 disapprove and 44 approve, which means the American people, the more they find out about this, the less they like it and the more concerned they are. According to this poll again:

Medicare is the Government health insurance program for people 65 and older. Do you

think health-care reform would strengthen the Medicare program, weaken Medicare or have no effect on it?

American people have figured it out. Amongst seniors, those who are in Medicare, 12 percent say it would strengthen, 22 percent no effect, and 57 percent of seniors in America believe—and they are correct—that this proposal would weaken Medicare, the benefit they paid into and that they have earned.

Let me say it again: I plead with my colleagues on the other side of the aisle and the majority leader. Let's stop this. The American people do not approve of it. Let's sit down and work together; let's have real negotiations; let's even have the C-SPAN cameras in, as the President promised October a year ago. This present legislation spends too much, taxes too much, and reduces benefits for American citizens as far as overall health care is concerned, including Medicare, as the American people have figured out.

I welcome my colleagues here. I see Dr. COBURN is here. Let me restate: It is time to say stop. It is time to start listening to the American people. It is time to start being straightforward with the American people because the American people need to know what we are doing and they do not. The distinguished Senator from Illinois, last Friday when I asked him what is in the bill, said none of us know what is in the bill.

I ask my friend from Oklahoma, isn't what is happening—we have a proposal, we send it to CBO, CBO sends back numbers they do not like so they try to fix it, send it back to CBO, they send it back again. That is why only one Senator, the majority leader, knows what is going on.

Mrs. HUTCHISON. Mr. President, parliamentary inquiry.

Mr. MCCAIN. What is the parliamentary situation, I ask the President?

Mrs. HUTCHISON. Mr. President, I was under the impression there would be a 30-minute allocation for colloquy for our side. I am not sure when we start that process.

The PRESIDING OFFICER. The Republican side has 25 minutes 15 seconds.

Mrs. HUTCHISON. How many?

The PRESIDING OFFICER. There is 25 minutes 15 seconds.

Mr. MCCAIN. Mr. President, I thank the Chair. I think I have made my point here. I wish to yield. I ask unanimous consent to have a colloquy with the Senator from South Dakota, the Senator from Texas, the Senator from Oklahoma, and the Senator from Wyoming.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. If I might respond to the question of the Senator, one of the things our President has promised is transparency. We are going to see at

sometime in the next week or 10 days another bill—whatever the deal is. It would seem to me that 72 hours with a complete CBO score, much like was asked by 12 Members on their side, before we have to take up or make any maneuvers on that, would be something everybody could agree to since nobody knows, except HARRY REID and the CBO, what is in this bill now. At a later time, after we finish this colloquy, I will be making that unanimous consent request.

Mrs. HUTCHISON. I thank the Senator from Oklahoma. I think it is very important that before we start talking about passing a bill or having a cloture on a bill—I think the Senator from Oklahoma is making the main point. I think the Senator from Oklahoma was making a very good point that I was hoping to work with him on and that is: Where are we now? The Republicans have put forward reform alternatives for our health care system that are not a government takeover and are not going to be \$½ trillion in taxes and are not going to be \$½ trillion in Medicare cuts.

The Republican proposals would do what health care reform should do—they would lower cost. They would increase risk pools so that small business would be able to offer health care coverage for their employees. They would have medical malpractice reform so we would be able to lower the cost of frivolous lawsuits, cutting over \$50 billion out of the costs of health care, making it more accessible for more people. They would give tax credits for individuals who would buy their own health care coverage to offset that cost.

None of that would be a big government takeover of health care. That is what we have been trying to put forward here. But we have not had a seat at the table. We have not had the capability to say what our proposals would be because we have not even seen the proposed new bill yet. We have been talking about the tax increases that are going to burden small business at a very hard time for this country's economy and we have also been talking about \$½ trillion in Medicare cuts, which I think has caused many senior citizens to say: Wait a minute, I don't want my Medicare options cut. I don't want Medicare Advantage to be virtually taken away.

That is why we are here today, because the pending business before the Senate is the Hutchison-Thune motion to recommit this bill to do a simple thing. It is to say that you will not start collecting the taxes until the program is in place. It is very simple. It is the American sense of fair play, and that is that you do not start collecting taxes before you have a program that you might want to buy into. That is what the Hutchison-Thune motion to recommit does. It is very simple. It is a matter of fair play. I even question

whether we have the right to pass taxes for 4 years before you would ever see a program put in place.

We are going to try to do what is right by this body. That is to say, the \$100 billion in new taxes that will start next month—3 weeks from now—will not start until there is a program put in place. Because right now \$100 billion in new taxes starts next month but there is no program that anyone can sign up for that will supposedly make it easier to get health care coverage in this country until 2014, 4 years away.

I ask my colleague, the distinguished ranking member of the Finance Committee, if he believes all these new taxes would be fair to start before we could ever see a program—not 1 year from now, not 2, not 3 but 4 years from now. I ask the distinguished ranking member of the Finance Committee if he believes it would be fair for us to start the taxes in 3 weeks and then not start the program for 4 years. Does that seem like a fair concept?

The PRESIDING OFFICER (Mr. CASEY). The Senator from Iowa.

Mr. GRASSLEY. Mr. President, the Senator is absolutely right. Let me emphasize it this way. I was on a radio program in Iowa yesterday, where a lady called me, and I had been saying, as the Senator has just said, that you have to wait until 2014 for this program to go into effect. She said: You are telling me you are going to pass this bill right now, but we have to wait until 2014 until we get any benefit from it? She didn't talk about the taxes, as the Senator is, but the taxes go into effect. Another smokescreen is, you have 10 years of tax increases, fee increases, and the program is 6 years long, but the taxes are 10 years long. So it is nice for the CBO to say: Yes, this is balanced and maybe even has a surplus in it. But over the long term, this program does not cost just \$848 billion. I hope I answered your question.

Mrs. HUTCHISON. You did. It is interesting because you say maybe it is going to be break even. How is it going to break even? I ask my colleague from South Dakota, who is a cosponsor of this motion: How is it going to break even? With \$½ trillion in Medicare cuts, \$½ trillion in tax increases, is that the way we ought to be saying to the American people we will reform health care? Have we lost the purpose of the bill, to make health care more affordable and accessible to the American people? I ask my colleague, the Senator from South Dakota, who has worked on this issue for a long time, is that the concept of break even?

Mr. THUNE. The Senator from Texas has touched on a very important issue. The motion she offers, and which I cosponsor, does lay out what is a simple principle of fairness that most Americans understand. When you implement public policy, if you are going to raise taxes, you ought to align the tax increases and the benefits so they start

at essentially the same time. What this bill does is it starts collecting taxes, increases taxes on Americans 4 years before the major benefit provisions kick in. On January 1 of 2014, 99 percent of the spending under the bill kicks in. But the tax increases begin less than 3 weeks from today. Sixteen days from now is when the tax increases in the bill start. A tax on prescription drugs, a tax on medical devices, a tax on health plans—all begin 16 days from now. A lot of those taxes will be imposed upon the American economy and passed on to people and small businesses in the form of higher premiums. People are going to get higher premiums 4 years before they are likely to see any benefit. Ninety-nine percent of the spending under the bill doesn't kick in until January 1, 2014, or 1,477 days from now. Most Americans, as they listen to the debate, believe as I do, as a simple principle of fairness, you ought to align the benefits and the taxes. We had a vote yesterday on the Crapo motion that would recommit all the tax increases. Many of us believe raising taxes on small businesses when you have an economy in recession is not a smart thing to do; it is going to cost us a lot of jobs. Small businesses have made that clear. I also think, in addition to the principle of fairness that is at play, when it comes to raising taxes 4 years prior to the benefits kicking in, you also need to have a transparent sort of understanding about what the cost of the bill is going to be.

One of the reasons the revenue increases, the tax increases were begun immediately or 16 days from now, but the majority of the spending, 99 percent, doesn't occur until January 1 of 2014 and beyond is to understate the true cost. They wanted to bring the cost of the bill in under \$1 trillion.

If you can see, starting this year and going through 2019, it ends up at about \$1 trillion or \$1.2 trillion on this chart. But if you look at the fully implemented period; that is, 2014, when the benefits and spending begin, and take that through the next 10 years, the total spending in the bill is \$2.5 trillion over a 10-year period.

That is one thing the American people need to know. One of the reasons this is being done, tax increases starting January 1 next year or 16 days from now, most of the benefits not starting until 1,477 days from now, is so they can say this is only a \$1 trillion bill or under \$1 trillion, the way it has been advertised, when, in fact, it is going to cost \$2.5 trillion when fully implemented.

We are here 16 days before the Christmas holiday, and there are things Congress needs to do. There are a number of fairly urgent matters that need to be dealt with before the end of the year, some of which have been mentioned this morning. But trying to jam

through a new health care program, a \$2.5 trillion expansion of the Federal Government in Washington, 70 new government programs, trying to jam it through in the next 9 days or so before Christmas seems to be done more out of a political necessity, the need for a political accomplishment or a political victory, than it does with making good public policy. As the American people are approaching this holiday season, the best thing we can do, the best Christmas gift we could give the people, frankly, is for Congress to adjourn and go home before passing this \$2.5 trillion expansion.

What does it mean? If you are a small businessperson, the Christmas gift you get this year is a big lump of coal from the Congress in the form of higher taxes. If you are a senior citizen, 1 of the 11 million who are on Medicare Advantage and this bill passes, your Christmas gift this year is benefit cuts. The same thing applies to many of our providers—hospitals, nursing homes, home health agencies, hospices. If you are an average American family who is worried about the high cost of health care, your Christmas gift this year is, if this bill passes, that your health insurance premiums will continue to go up year over year at twice the rate of inflation. You lock in higher premiums for most people across the country, you raise taxes on small businesses, you cut benefits to Medicare beneficiaries and, for future generations, you create a \$2.5 trillion new entitlement program they will be paying for, for as far as the eye can see.

The CMS Actuary, last week, said, in addition to all the other things they mentioned—the overall cost of health care is going to go up, 20 percent of hospitals will close—that the Medicare cuts that are being proposed cannot be sustained on a permanent basis. If that is true, how will this be financed? Either with more taxes or borrowing, putting it on the debt and handing the bill to future generations. That is what we are left with. Once you lock in a \$2.5 trillion expansion of the Federal Government, it is going to be hard to reduce the cost. The spending is not going to go away. The way it will be paid for, if the Medicare cuts are not sustainable, is the tax increases. The increases that are already in here would have to be increased even further or, worse yet, for future generations, if you are a young American, it will be put on your bill.

The Senator from Texas and my colleagues who are here this morning all voted yesterday to get rid of the tax increases in the bill. But the motion she offers and that I cosponsor would at least, as a principle of fairness, make sure those tax increases don't begin before the benefits do.

Mrs. HUTCHISON. Mr. President, the 2 physicians out of the 100 Members of Senate are here this morning. They

have talked for a long time about the quality of care. They are the two who have the credibility on this. I would like to ask the Senator from Wyoming, Dr. BARRASSO, to talk about what is going to happen to the quality of health care when you have \$½ trillion in Medicare cuts, which we have discussed, and the bill we are discussing today and the motion Senator THUNE and I are offering, that is going to put a higher cost on every prescription drug, every piece of medical equipment. Perhaps you would expand on what kind of medical equipment is needed for people to have the quality of life we have in our country today and then the insurance companies, which are, of course, going to raise the premium of every person who already has coverage.

I ask the Senator from Wyoming, Dr. BARRASSO, in your experience, how is this going to affect the quality of health care?

Mr. BARRASSO. I am grateful to the Senator for bringing this up. I had a telephone townhall meeting last night, and this specific motion the Senator is bringing today came up with great praise from the people of Wyoming who said: She is doing it right, leading the good fight. After I answer the question, I will ask: How do we know the money is even going to be there? That is the question that came up in my telephone townhall. People of Wyoming are concerned, if this passes, it will make health care harder for people in rural States, such as Wyoming and Montana. My colleague from Montana is on the floor. The doctor shortage will worsen. This is the headline on the front page by the Wyoming Tribune Eagle: "Doctor Shortage Will Worsen." There is a lot of concern for the folks in Wyoming and communities where there is a sole hospital, a sole physician provider trying to recruit nurses and physician assistants and nurse practitioners. The doctor shortage will worsen as we see a situation where they will be cutting Medicare \$500 billion, raising taxes \$500 billion, and people who had insurance on this telephone townhall were very concerned that their insurance premiums are going to go up, in spite of the fact that the President has promised families would see insurance rates go down. We know those rates are going to go way up for people who buy their own insurance. People say: Don't cut Medicare, don't raise taxes, don't make matters worse than they are right now. For the people of Wyoming, they are afraid that matters will be made worse.

The Washington Post had a major poll in the paper today specifically asking seniors the question about Medicare. We are talking about health care quality, the quality of care. The question is: Do you think health care reform will strengthen the Medicare Program or weaken the Medicare Program? They asked specifically and

broke it down to seniors. Only 1 out of 8 seniors in this poll said it actually would get better. But the rest are saying: No, it is going to get worse. The seniors who watch this most carefully know what it means to try to get health care under the Medicare Program, a program that we know is going broke. Yet they are taking all this money not to save Medicare but to start a new program. We know the quality of care is going to go down. That is what the people of my home State and the people I talked to from around the country are concerned about. They are delighted the Senator offered this motion.

I did a poll in the townhall meeting: Are you for or against the bill? Some of them say: What is in it? We don't know. Which is exactly what the junior Senator, a Democrat from Indiana, said in today's national press release: We are all being urged to vote for something, and we don't know the details of what is in it. The junior Senator from Indiana is a Democrat. He doesn't know what is in it. The people of Wyoming don't know what is in it. But they do know taxes start immediately, benefits not for 4 years. That is why they are happy you offered this motion. They want to know: How do we know the money will be there 4 years from now?

Mrs. HUTCHISON. That is a very important question. Here we are going to start collecting the taxes for 4 years before the program is put in place. The distinguished Senator from Oklahoma, the other physician in this body, knows we have had promises from the Federal Government before. But I can't remember a time when we started collecting a tax for a purpose that would be 4 years away. What on Earth could people expect to actually be there when the program kicks in?

The program is going to have to be implemented. It is going to have to be brought up to speed. I am sure there will be changes. What would you think your patients whom you still care for in Oklahoma or the ones, in the experience you have had, how do you think people are going to react to having higher costs in all these areas of health care for 4 years, even a tax on the high-income plans, not high-income people having those plans but high coverage that a union member might have that will start being taxed in 2013, 1 year before the program takes effect?

How do you think that is going to affect the quality of health care people can expect and the cost to them out-of-pocket when there would be nothing even on the drawing boards for 4 years?

Mr. COBURN. To answer the Senator's question, No. 1, as we already know, the Oklahoma State employees' health insurance plan, in 2013, will be considered a Cadillac plan. That is every State worker in the State of Oklahoma. And they can hardly afford

their copays and their premiums in that plan today. So what we know is, we are going to tax all the Oklahoma workers. Many of those are schoolteachers who happen to be my patients, and they are struggling today.

So this disconnect between when the taxes are—

Mrs. HUTCHISON. I ask the Senator from Oklahoma, you are saying that a schoolteacher is probably not making \$200,000 or more?

Mr. COBURN. Not at all.

Mrs. HUTCHISON. Yet we were promised there would be no taxes, no harm to people making under \$200,000. Remind me if there is a teacher in Oklahoma—because I know there is not one in Texas—making over \$200,000.

Mr. COBURN. Well, our teachers wish they made what the teachers in Texas make, but they do not. But they do not make anywhere close to \$200,000. It does not just affect the Department of Human Services workers, it is also going to impact the premium increases that are going to come about before this plan is implemented. We are going to see premium increases. So the small businesses that are now covering people are going to have massive premium increases. The individuals who are buying insurance in the open individual market themselves are going to see premium increases. The fact is, that is all going to happen before the first benefit, the first real benefit—other than preexisting illnesses—before anybody sees any benefit to that.

The other thing that is not talked about is, with the skewing of this and with the relatively low tax on not complying with it, our youngest, healthiest people are going to say: I don't want any insurance because all I have to do is pay, in the first year, \$250—or even less—up to \$750, and I can save thousands of dollars every year by not buying insurance, and buying it when I get sick.

So we are going to see everything skewed in the insurance market. That is what is going to drive up the premiums.

My constituents, plus my patients, are not happy about the delay. If we are going to make this, what I believe, is a fatal mistake for our country in terms of the quality of health care, then we ought to at least match the revenues with the expenses.

Mrs. HUTCHISON. That is exactly what the Senator from South Dakota and I are trying to do. We are trying to make sure Americans will not—will not—pay taxes and increased prices on prescription drugs, on coverage we do have, the policies we do have, and the equipment that is so necessary for health care services.

Senator THUNE and I want to do what is basic fairness and very simple; that is, to say the program starts and the taxes start at the same time. That is a tradition we have had in this country

for years. We do not tax people 4 years from having any kind of program in place that they could choose from that might benefit them. We do not do that. That is not the American way, and it is certainly not anything we have done before.

What in the world would people expect to happen in 4 years? What if this plan is changed? What if the people rise up and say: We don't want this plan, and they say: No way, and they would have been paying higher premiums and higher health care costs already. It is a downpayment where you are not sure what the end is going to be.

It is like buying a house and saying: Now, in 4 years we are going to give you the key to the house, we are going to give you the key to the house that you bought 4 years from now. Oh, maybe there will be a change in condition, but you are going to get it. Maybe it will be damaged. Maybe it will be worn. Maybe it will have a fire that starts in part of it. But you will get those keys and then something will be there for you. We promise you. We are from the government, and we are going to promise you that.

That is not good enough. That is not what we owe the American people. And it is not health care reform.

I would just ask my colleague from South Dakota, who is the cosponsor of this motion, if he agrees that as a matter of simple fairness, openness, and transparency to the American people, health care reform should not mean 4 years of taxes before any program is put in place.

Mr. THUNE. I will say to my colleague from Texas, as to the taxes, the fees, the tax increases, everything in our motion very simply states they ought to be aligned with the beginning of the benefits. The benefits and the exchanges and, frankly, all the major policies—the substance of this bill—begin in 2014; the individual mandate, the State exchanges, the subsidies, as I said, premium tax credits, Medicaid expansion, the employer mandate, 2014; the government plan, 2014. The substance of this bill begins in 2014. Unfortunately, the tax increases begin 4 years earlier, 16 days from now. Sixteen days from now, January 1 of this coming year, is when the taxes start being raised. And, of course, the CBO has said those tax increases are going to be passed on in the form of higher premiums to people across this country. The benefits start 1,477 days from now.

So what we simply say in this motion is, let's commit this bill and bring it back out with the tax increases—if there are going to be tax increases; and many of us believe there should not be any, which is why we voted for the Crapo motion yesterday—but if you are going to raise taxes on America's small businesses, families, and individuals, at least align those so the policy, the substance of this bill, which begins 4 years

from now, is synchronized so we are not slapping a huge new tax increase on America's small businesses in the middle of a recession and passing on those higher costs, which is what they will do, to people in this country in the form of higher insurance premiums.

So I say to the Senator from Texas, this is a very straightforward, simple motion. I hope our colleagues on both sides will support it. It is a matter of principle, of fairness when it comes to making policy that I think the American people have come to expect. We ought to be honest and give the American people a complete understanding of what this bill really costs. Because they have done what they have done—by instituting the tax increases immediately and the spending 4 years from now—it understates the overall cost of this legislation. The American people need to know this is a \$2.5 trillion bill when it is fully implemented. The only reason they can bring that in under that number is because they start raising taxes immediately and do not start paying benefits out for another 4 years.

So I say to the Senator from Texas, I hope when we get to this vote, it will be a big bipartisan vote in the Senate, and I hope we will make a change in this legislation that implements some semblance of fairness and also gives us a true reflection of what the bill really costs.

Mrs. HUTCHISON. I thank the Senator from South Dakota.

Just to recap, the amount that would actually be collected before any program is put in place would be \$73 billion—already collected. That will include, as the Senator from Oklahoma mentioned, schoolteachers from Oklahoma who are considered to have these high-benefit plans, a schoolteacher making \$50,000, \$60,000 a year with a high-benefit plan. And do you know what the tax is on that high-benefit plan? Do you know what the tax is on that Oklahoma schoolteacher? A 40-percent excise tax—40 percent.

The PRESIDING OFFICER. The Senator's time has expired.

Mrs. HUTCHISON. Mr. President, I thank the Senator, and I would just say I hope we get a bipartisan vote on this motion. I hope we get a bipartisan vote to say the one thing we ought to do, if nothing else, is be fair to the American people. You do not pay taxes until the program is up and going.

Thank you, Mr. President.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Mr. President, I ask unanimous consent to offer some unanimous consent requests to the chairman of the Finance Committee.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. Mr. President, I offer a unanimous consent request that it not be in order for the duration of the consideration of H.R. 3590 to offer an

amendment that has not been filed at the desk for 72 hours and for which there has not been a complete CBO score.

The PRESIDING OFFICER. Is there objection?

The Senator from Montana.

Mr. BAUCUS. Mr. President, reserving the right to object, I would like to just remind our colleagues, I have sought it, and I think it has been basically a very forthright, open process we have conducted here. Certainly in the Finance Committee—I see my colleague from Iowa on the floor—it was totally transparent for months upon months, with hearing upon hearing. We posted amendments in the Finance Committee on the Internet in advance of consideration.

I have never been part of a more transparent process since I have been here, frankly, at least for something of this magnitude over this period of time. In fact, one reporter even said to me: Senator, is this the new way we do things around here? It is so transparent, so bipartisan, and so forth. I said: I don't know. I sure like it that way.

I also remind all of us that Senator REID's amendment was made available on November 18 of this year, and 3 days later, on the 21st, we voted for cloture on the motion to proceed. Then, 12 days after the Reid amendment was made available, we finally began debate on the bill. And here we are, nearly a month later. So this bill has been out here.

The Senator mentioned, I note, having in mind the managers' amendment, which he has not seen and, frankly, this Senator has not seen either. I have some ideas what is in it, but I have not seen it myself.

I think as a practical matter this will be available for 72 hours, as the Senator suggests. Why do I say that? I say that because it is my expectation that Senator REID's managers' amendment will be filed very quickly, maybe in a day or two. It is also my expectation that we will then proceed, according to expectations here, to the Defense appropriations conference report, which we will then be working on for several days. And probably a cloture motion might be filed on the health care bill—on the managers' amendment probably not until after we do Defense appropriations. So during the interim, everyone is going to be able to see, at least for more than 72 hours, the contents of the managers' amendment in the health care bill which Senator REID is going to be filing. So as a practical matter, I think it is going to happen.

I cannot at this point agree to the request to lock that in for 72 hours, but I think as a practical—

Mr. COBURN. Will the Senator yield for a question?

Mr. BAUCUS. Yes.

Mr. COBURN. One of the reasons I want this, is it not his belief that the

American people ought to get to see this for 72 hours as well and that it ought to be on the Internet and that everybody in America, if we are going to take one-sixth of our economy, ought to have the time to truly read—we are going to have a managers' amendment, and that is actually what mine is focused on.

Mr. BAUCUS. Sure.

Mr. COBURN. But to be able to truly not just read the managers' amendment but then go into the bill where it is going to fix the bill.

Mr. BAUCUS. I think that is a good idea. I think it is going to happen.

Mr. COBURN. But the Senator will not agree to it by unanimous consent?

Mr. BAUCUS. I cannot at this time but, again, saying it is my expectation it will be available for more than 72 hours.

Mr. COBURN. I appreciate the sincerity of the chairman's remarks.

Mr. BAUCUS. I thank the Senator. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. COBURN. Mr. President, I have another unanimous consent request.

The following consent request would be associated with a Coburn amendment that would certify that every Member of the Senate has read the bill and understands it before they vote on the bill. The reason I ask unanimous consent that amendment be agreed to and accepted is that is exactly what the American people expect us to be doing.

So we do not have a bill right now. We do not know what is going to be in the bill. The chairman has a good idea what is going to be in the bill, but he does not know for sure. Only two sets of people—Senator REID and his staff and CBO—know what is going to be in the bill. I suspect somebody at the White House might.

But we ought to take and embrace the idea of transparency and responsibility, that the American people can expect every one of us to have read this bill, plus the amended bill, and certify that we have an understanding for what we are doing to health care in America with this bill.

I ask unanimous consent that be accepted.

The PRESIDING OFFICER. Is there objection?

The Senator from Montana.

Mr. BAUCUS. Mr. President, reserving the right to object, I certainly agree with the basic underlying import that we should know what we are voting on here. But I must say to my good friend from Oklahoma, I cannot certify that Members of the Senate will understand what they are reading. That presumes a certain level of perception on my part in understanding and delving into the minds of Senators that not only have they read but they have taken the time to understand. And what does "understand" mean? Understand the second and third levels, the

fourth level of questions? I think it is a practical impossibility for anybody to certify that any other Senator has fully understood. They may read, but they may not fully understand for a whole variety of reasons. So I cannot certify that.

Mr. COBURN. Could I clarify my request?

Mr. BAUCUS. I have to object.

The PRESIDING OFFICER. Objection is heard.

Mr. COBURN. Let me clarify my request that the individual certify themselves. I am not asking some group of Senators to certify some other Senator. I am saying that Tom Coburn tells his constituency: I have read this puppy. I have spent the time on it. I have read the managers' amendment, and I, in fact, certify to the people of Oklahoma that I know how terrible it is going to be for their health care.

Mr. BAUCUS. The Senator is always free to make any representations he wants. If he wants to certify he has read it and certify that he has understood it, that is the Senator's privilege.

Mr. COBURN. But the Senator won't accept that we as a body, on one-sixth of the economy, ought to say we know what we are doing?

Mr. BAUCUS. I can't certify that every Member of the Senate has done anything around here. Neither can the Senator from Oklahoma. That is an impossibility. But if the Senator wants to certify he has read it, that is great, and understands it fully, that is great, on any measure—not just this measure but any measure. But I can't certify that for 100 different Senators, on any measure. That is up to the individual Senators and that is up to their mental capacities and up to their initiatives and imaginations and conscientiousness and so forth. I can't certify to that.

Mr. COBURN. I thank the chairman.

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Senator from Vermont be recognized to proceed for at least a half hour.

The PRESIDING OFFICER. The Senator from Vermont is recognized.

AMENDMENT NO. 2837 TO AMENDMENT NO. 2786

Mr. SANDERS. Madam President, I call up my amendment per the order.

The PRESIDING OFFICER (Mrs. HAGAN). The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Vermont [Mr. SANDERS], for himself, Mr. BURRIS, and Mr. BROWN, proposes an amendment numbered 2837 to amendment No. 2786.

Mr. SANDERS. Madam President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Is there objection?

Mr. COBURN. Madam President, I object.

The PRESIDING OFFICER. Objection is heard.

The assistant legislative clerk continued with the reading of the amendment.

Mr. SANDERS. Madam President, I ask unanimous consent that the amendment be considered as read.

The PRESIDING OFFICER. Is there objection?

Mr. COBURN. There is objection.

The PRESIDING OFFICER. Objection is heard.

Mr. SANDERS. Madam President, may I ask my friend from Oklahoma why he is objecting?

Mr. COBURN. Regular order, Madam President.

The PRESIDING OFFICER. Regular order is the reading of the amendment.

The assistant legislative clerk continued with the reading of the amendment.

(The amendment (No. 2837) is printed in the RECORD of Wednesday, December 2, 2009, under "Text of Amendments.")

The PRESIDING OFFICER (Mr. CARDIN). The Senator from Vermont is recognized.

AMENDMENT NO. 2837 WITHDRAWN

Mr. SANDERS. Mr. President, I withdraw my amendment.

Mr. COBURN. Regular order, Mr. President.

The PRESIDING OFFICER. The Senator has that right. The amendment is withdrawn.

Mr. SANDERS. Pursuant to the 30 minutes that I—

The PRESIDING OFFICER (Mrs. SHAHEEN). Under the previous order, the Senator from Vermont is recognized for 30 minutes.

Mr. SANDERS. Madam President, let me begin not by talking about my amendment but by talking about the Republican action that we have seen right here on the floor of the Senate. Everybody in this country understands that our Nation faces a significant number of major crises—whether it is the disintegration of our health care system, the fact that 17 percent of our people are unemployed or underemployed, or the fact that one out of four of our children is living on food stamps. We have two wars, we have global warming, we have a \$12 trillion national debt, and the best the Republicans can do is try to bring the U.S. Government to a halt by forcing a reading of a 700-page amendment. That is an outrage. People can have honest disagreements, but in this moment of crisis it is wrong to bring the U.S. Government to a halt.

I am very disturbed that I am unable to bring the amendment that I wanted to bring to the floor of the Senate. I thank Senator REID for allowing me to try to bring it up before it was obstructed and delayed and prevented by the Republican leadership. My amendment, which was cosponsored by Senators SHERROD BROWN and ROLAND

BURRIS, would have instituted a Medicare-for-all single-payer program. I was more than aware and very proud that, were it not for the Republican's obstructionist tactics, this would have been the first time in American history that a Medicare-for-all single-payer bill was brought to a vote before the floor of the Senate. I was more than aware that this amendment would not win. I knew that. But I am absolutely convinced that this legislation or legislation like it will eventually become the law of the land.

The reason for my optimism that a Medicare-for-all single-payer bill will eventually prevail is that this type of system is and will be the only mechanism we have to provide comprehensive high-quality health care to all of our people in a cost-effective way. It is the only approach that eliminates the hundreds of billions of dollars in waste, administrative costs, bureaucracy, and profiteering by the private insurance companies, and we are not going to provide comprehensive, universal, cost-effective health care to all of our people without eliminating that waste. That is the simple truth.

The day will come, although I recognize it is not today, when the Congress will have the courage to stand up to the private insurance companies and the drug companies and the medical equipment suppliers and all of those who profit and make billions of dollars every single year off of human sickness. On that day, when it comes—and it will come—the U.S. Congress will finally proclaim that health care is a right of all people and not just a privilege. And that day will come, as surely as I stand here today.

There are those who think that Medicare-for-all is some kind of a fringe idea—that there are just a few leftwing folks out there who think this is the way to go. But let me assure you that this is absolutely not the case. The single-payer concept has widespread support from diverse groups from diverse regions throughout the United States. In fact, in a 2007 AP/Yahoo poll, 65 percent of respondents said that the United States should adopt a universal health insurance program in which everyone is covered under a program like Medicare that is run by the Government and financed by taxpayers.

There is also widespread support for a Medicare-for-all approach among those people who understand this issue the most, and that is the medical community. That support goes well beyond the 17,000 doctors in the Physicians for National Health Care Program, who are fighting every day for a single-payer system. It goes beyond the California Nurses Association, the largest nurses union in the country, who are also fighting for a Medicare-for-all, single-payer health care. In March of 2008,

a survey of 2,000 American doctors published in the *Annals of Internal Medicine* concluded that 59 percent of physicians "supported legislation to establish national health insurance."

Madam President, you might be particularly interested to know that the New Hampshire Medical Society surveyed New Hampshire physicians and found that two-thirds of New Hampshire physicians, including 81 percent of primary care clinicians, indicated that they would favor a simplified payer system in which public funds, collected through taxes, were used to pay directly for services to meet the basic health care needs of all citizens. That is New Hampshire.

In 2007, *Minnesota Medicine Magazine* surveyed Minnesota physicians and found that 64 percent favored a single-payer system; 86 percent of physicians also agreed that it is the responsibility of society, through the Government, to ensure that everyone has access to good medical care.

But it is not just doctors, it is not just nurses, it is not just millions of ordinary Americans. What we are seeing now is that national, State, and local organizations representing a wide variety of interests and regions support single payer. These include the U.S. Conference of Mayors, the American Medical Students Association, the AFL/CIO, the United Church of Christ, the UAW, the International Association of Machinists, the United Steelworkers, the United Electrical Workers, the Older Women's League, and so many others that I do not have the time to list them.

I ask unanimous consent to insert a list in the RECORD of all the organizations representing millions and millions of Americans who are sick and tired of the current system and want to move toward a Medicare-for-all single-payer system.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

NATIONAL ORGANIZATIONS SUPPORT SINGLE PAYER

American Federation of Musicians of the United States and Canada, American Medical Students Association, Americans for Democratic Action, American Patients United, All Unions Committee for Single Payer Health Care, Alliance for Democracy, Business Coalition for Single Payer Health Care, California Nurses Association/National Nurse Organizing Committee, Coalition of Black Trade Unionists, Coalition of Labor Union Women, Committee of Presidents, National Association of Letter Carriers, Committees of Correspondence, Earthly Energy Werx, Electrical Workers Minority Caucus, Fellowship of Reconciliation, Feminist Caucus of the American, Humanist Association, and Global Kids Inc.

Global Security Institute, Health Plan Navigator, Healthcare NOW!, Hip Hop Caucus, House of Peace, Institute for Policy Studies, Cities for Progress, Inter-religious Foundation for Community Organization, International Association of Machinists and

Aerospace Workers, League of Independent Voters, National Association for the Advancement of Colored People, National Association of Letter Carriers, National Council on Healthcare for the Homeless, National Economic and Social Rights Initiative, National Education Association, National Organization of Women, National Student Nurses Association, Needed Now, and Older Women's League.

PAGE International Union, Peoples' Health Movement—US Circle, Physicians for a National Health Program, Progressive Christians United, Progressive Democrats of America, The United Church of Christ, United Association of Journeymen & Apprentices of the Plumbing & Pipe Fitting Industry of the United States & Canada, United Automobile Workers, United Automobile Workers, International Union Convention, United Electric Workers, United Federation of Teachers, United Methodist Global Board of Church and Society, United Steelworkers of America, Up for Democracy, Women's Division of The United Methodist Church, Women's Universal Health Initiative, and Young Democrats.

STATE ORGANIZATIONS SUPPORT SINGLE PAYER

1199SEIU United Healthcare Workers East, MD, DC, NY, MA; 1199SEIU Retired Division of New York; American Guild of Musical Artists: Chicago/Midwest Region; American Postal Workers Union (APWU), Michigan State; Arizona AFL-CIO; Arkansas AFL-CIO; California State Pipe Trades Council, United Association; California School Employees Association; Connecticut State Council of Machinists of the IAMAW; Connecticut Medicare for All; Delaware State AFL-CIO; Florida CHAIN; Florida State AFL-CIO; Florida State Alliance for Retired Americans; Health Action New Mexico; Health Care for All California; Health Care for All Colorado; Health Care for All New Jersey; Health Care for All Texas; Health Care for All Washington; Hoosiers for a Common Sense Health Plan; and Iowa Federation of Labor; AFL-CIO.

Kentucky House of Representatives; Kentucky Jobs with Justice; Kentucky State AFL-CIO; Maine Council of United Steelworkers; Maine State AFL-CIO; Maine State Building & Construction Trades Council; Maryland State and District of Columbia AFL-CIO; Massachusetts Nurses Association; Massachusetts State United Auto Workers; Michigan State AFL-CIO Women's Council; Michigan State Association of Letter Carriers; Minnesota DFL Progressive Caucus; Minnesota State AFL-CIO; Missouri State AFL-CIO; New Jersey Media Corps; New Jersey State Industrial Union Council; New York Professional Nurses Union; New York State Nurses Association; North Carolina Fair Share; North Carolina State AFL-CIO; North Dakota State AFL-CIO; Ohio Alliance for Retired Americans.

Ohio State AFL-CIO; Ohio Steelworkers Organization of Active Retirees; Oregon United Methodist Church; Pennsylvania Association of Staff Nurses and Allied Professionals; Pennsylvania State AFL-CIO; SCFL of Wisconsin; SEIU—United Healthcare Workers West; South Carolina State AFL-CIO; South Dakota AFL-CIO; Texas AFL-CIO; Texas Alliance for Retired Americans; Texas Building & Construction Trades Council; The Tennessee Tribune Newspaper; Utah Jobs with Justice; Vermont State Labor Council AFLCIO; Washington State Alliance for Retired Americans; Washington State Building and Construction Trades Council; Washington State Labor Council; West Vir-

ginia State AFL-CIO; Wisconsin Clean Elections Campaign; Wisconsin State AFL-CIO; Wyoming State AFL-CIO.

Mr. SANDERS. There is also significant support in the House of Representatives for a single-payer system. Together, H.R. 676 and H.R. 1200, two different single-payer proposals, have 94 cosponsors.

And let me say a word about State legislatures that have moved forward aggressively toward a single-payer system. In California, our largest State, the State legislature there has on two occasions passed a single-payer program. The largest State in America passed a single-payer program, and on both occasions it was vetoed by the Governor. In New York State, the State Assembly passed a single-payer system. Among other States where single payer has been proposed and seriously discussed are Ohio, Massachusetts, Georgia, Colorado, Maine, Vermont, Illinois, Wisconsin, Oregon, Washington, New Mexico, Minnesota, Indiana, and New Hampshire.

Why is it that we need an entirely new approach for health care in this country? The answer is pretty obvious. Our current system, dominated by profit-making insurance companies, simply does not work. Yes, we have to confess, it does work for the insurance companies that make huge profits and provide their CEOs with extravagant compensation packages. Yes, it does work—and we saw how well it worked right here on the floor yesterday—for the pharmaceutical industry which year after year leads almost every other industry in profit while charging the American people by far—not even close—the highest prices in the world for prescription drugs.

So it works for the insurance companies. It works for the drug companies. It works for the medical equipment suppliers and the many other companies who are making billions of dollars off of our health care system. But it is not working for—in fact, it is a disaster for—ordinary Americans.

Today, 46 million people in our country have no health insurance and an even higher number of people are underinsured, with high deductibles or copayments. Today, as our primary health care system collapses, tens of millions of Americans do not have access to a doctor on a regular basis and, tragically, some 45,000 of our fellow Americans who do not have access to a doctor on a regular basis die every single year. That is 15 times more Americans who die of preventable diseases than were murdered in the horrific 9/11 attack against our country. That takes place every year: the preventable deaths of 45,000 people.

This is not acceptable. These horrific deaths are a manifestation of a collapsing system that needs fundamental change.

A number of months ago I took to the floor to relate stories that I heard

from people throughout the State of Vermont regarding the health care crisis, stories which I published in a small pamphlet and placed on my Web site. Let me tell you one story.

A man from Swanton, VT, in the northern part of our State, wrote to me to tell me the story of his younger brother, a Vietnam veteran, who died 3 weeks after being diagnosed with colon cancer. At the time he was diagnosed, he had been laid off from his job and could not afford COBRA coverage. This is what his brother said:

When he was in enough pain to see a doctor it was too late. He left a wife and two teenage sons in the prime of his life at 50 years old. The attending physician said that, if he had only sought treatment earlier, he would still be alive.

Horribly, tragically, that same story is being told in every State in this country over and over again. If only he had gone to the doctor in time he could have lived, but he didn't have any health insurance. That should not be taking place in the United States of America in the year 2009.

Our health care disaster extends beyond even the thousands who die needlessly every single year. Many others suffer unnecessary disability—strokes that leave them paralyzed because they couldn't afford treatment for their high blood pressure, or amputations, blindness, or kidney failure from untreated diabetes. Infants are born disabled because their mothers couldn't get the kind of prenatal care that every mother should have, and millions with mental illness go without care every single day.

In a town in northern Vermont not far from where I live, a physician told me that one-third of the patients she treats are unable to pay for the prescription drugs she prescribes. Think about the insanity of that. We ask doctors to diagnose our illness, to help us out, she writes the prescription for the drug, and one-third of her patients cannot afford to fill that prescription. That is insane. That is a crumbling health care system. The reason people cannot afford to fill their prescription drugs is that our people, because of pharmaceutical industry greed, are forced to pay by far the highest prices in the world for prescription drugs. This is indefensible. There is nobody who can come to the floor of this Senate and tell me that makes one shred of sense.

The disintegration of our health care system causes not only unnecessary human pain, suffering, and death, but it is also an economic disaster. Talk to small businesses in Vermont, New Hampshire, any place in this country, and they tell you they cannot afford to invest in their companies and create new jobs because all of their profits are going to soaring health care costs—10, 15, 20 percent a year. Talk to the recently bankrupt General Motors and

they will tell you that they spend more money per automobile on health care than they do on steel. GM is forced to pay \$1,500 per car on health care while Mercedes in Germany spends \$419, and Toyota in Japan spends \$97. Try to compete against that.

From an individual economic perspective, it is literally beyond comprehension that of the nearly 1 million people who will file for bankruptcy this year, the vast majority are filing for bankruptcy because of medically related illnesses. Let's take a deep breath and think about this from an emotional point of view. Let's think about the millions of people who are today struggling with cancer, struggling with heart disease, struggling with diabetes or other chronic illnesses. They are not even able to focus on their disease and trying to get well. They are summing half their energy to fight with the insurance companies to make sure they get the coverage they need. That is not civilized. That is not worthy of the United States of America.

In my State of Vermont—and I suspect it is similar in New Hampshire and every other State—I have many times walked into small mom-and-pop stores and seen those little donation jars that say: Help out this or that family because the breadwinner is struggling with cancer and does not have any health insurance or little Sally needs some kind of operation and she doesn't have any health insurance, put in a buck or five bucks to help that family get the health care they need. This is the United States of America. This should and cannot be allowed to continue.

One of the unfortunate things that has occurred during the entire health care debate is that we have largely ignored what is happening in terms of health care around the rest of the world. I have heard some of my Republican colleagues get up and say: We have the best health care system in the world. Yes, we do, if you are a millionaire or a billionaire, but we do not if you are in the middle class, not if you are a working-class person, certainly not if you are low income. It is just not true.

Today, the United States spends almost twice as much per person on health care as any other country. Despite that, we have 46 million uninsured and many more underinsured and our health care outcomes are, in many respects—not all but in many respects—worse than other countries. Other countries, for example, have longer life expectancies than we do. They are better on infant mortality, and they do a lot better job in terms of preventable deaths. At the very beginning of this debate, we should have asked a very simple question: Why is it we are spending almost twice as much per person on health care as any other country with outcomes that, in many respects, are not as good?

According to an OECD report in 2007, the United States spent \$7,290, over \$7,000 per person on health care. Canada spent \$3,895, almost half what we spent. France spent \$3,601, less than half what we spent. The United Kingdom spent less than \$3,000, and Italy spent \$2,600 compared to the more than \$7,000 we spent. Don't you think that maybe the first question we might have asked is: Why is it we spend so much and yet our health care outcomes, in many respects, are worse than other countries? Why is it that that happens?

Let me tell you what other people will not tell you. One key issue that needed to be debated in this health care discussion has not been discussed. The simple reason as to why we spend so much more than any other country with outcomes that are not as good as many other countries is that this legislation, from the very beginning, started with the assumption that we need to maintain the private for-profit health insurance companies. That basic reality that we cannot touch private insurance companies, in fact that we have to dump millions more people into private health insurance companies, that was an issue that could not even be discussed. And as a result, despite all the money we spend, we get poor value for our investment.

According to the World Health Organization, the United States ranks 37th in terms of health system performance compared with five other countries: Australia, Canada, Germany, New Zealand, and the United Kingdom. The U.S. health system ranks less or less than half.

Sometimes these groups poll people. They go around the world and they poll people and they ask: How do you feel about your own health care system? We end up way down below other countries. Recently, while the Canadian health care system was being attacked every single day, they did a poll in Canada. They said to the Canadian people: What do you think about your health care system? People in America say you have a terrible system. Do you want to junk your system and adopt the American system? By overwhelming numbers, the people of Canada said: Thank you, no thank you. We know the American system. We will stay with our system.

I was in the United Kingdom a couple months ago. I had an interesting experience. It was a Parliamentary meeting. I met with a number of people in the Conservative Party—not the liberal Democratic Party, not the Labour Party, the Conservative Party, the party which likely will become the government of that country. The Conservatives were outraged by the kind of attacks being leveled against the national health system in their country, the lies we are being told about their system. In fact, the leader of the Conservative Party got up to defend the

national health system in the United Kingdom and said: If we come to power, we will defend the national health system. Those were the conservatives.

What is the problem with our system which makes it radically different than systems in any other industrialized country? It is that we have allowed for-profit private corporations to develop and run our health care system, and the system that these companies have developed is the most costly, wasteful, complicated, and bureaucratic in the entire world. Everybody knows that. With 1,300 private insurance companies and thousands and thousands of different health benefit programs all designed to maximize profits, private health insurance companies spend an incredible 30 percent of every health care dollar on administration and billing, on exorbitant CEO compensation packages, on advertising, lobbying, and campaign contributions. This amounts to some \$350 billion every single year that is not spent on health care but is spent on wasteful bureaucracy.

It is spent on bureaucrats and on an insurance company telling us why we can't get the insurance we pay for. How many people today are on the phone today arguing with those bureaucrats to try to get the benefits they paid for? It is spent on staff in a physician's office who spend all their time submitting claims. They are not treating people; they are submitting claims. It is spent on hundreds of people working in the basement of hospitals who are not delivering babies, not treating people with cancer. They are not making people well. They are sending out bills. That is the system we have decided to have. We send out bills, and we spend hundreds of billions of dollars doing that rather than bringing primary health care physicians into rural areas, rather than getting the doctors, dentists, and nurses we need.

Let me give a few outrageous examples. Everyone knows this country is in the midst of a major crisis in primary health care. We lack doctors. We lack nurses. We lack dentists—a major crisis getting worse every single day. Yet while we are unable to produce those desperately needed doctors and nurses and dentists, we are producing legions of insurance company bureaucrats.

Here is a chart which deals with that issue. What this chart shows is that over the last three decades, the number of administrative personnel, bureaucrats who do nothing to cure our illnesses or keep us well, the number of bureaucrats has grown by 25 times the number of physicians. This is growth in the number of doctors—nonexistent. This is growth in the number of health care bureaucrats on the phone today telling you why you can't get the health care coverage you paid for or telling you that you have a preexisting condition and throwing you off health care because you committed the crime

last year of getting sick. That growth is through the roof. This is where our health care dollars are going. This is why we need a single-payer system.

According to Dr. Uwe Reinhardt in testimony before Congress, Duke University Hospital, a very fine hospital, has almost 900 billing clerks to deal with hundreds of distinct managed care contracts. Do you know how many beds they have in that hospital? They have 900 beds. They have 900 bureaucrats involved in billing for 900 beds. Tell me that makes sense.

At a time when the middle class is collapsing and when millions of Americans are unable to afford health insurance, the profits of health insurance companies are soaring. From 2003 to 2007, the combined profits of the Nation's major health insurance companies increased by 170 percent. While more and more Americans are losing their jobs, the top executives of the industry are receiving lavish compensation packages. In 2007, despite plans to cut 3 to 4 percent of its workforce, Johnson & Johnson found the cash to pay its CEO Weldon \$31.4 million. Ron Williams of Aetna took home over \$38 million, and the head of CIGNA, Edward Hanway, took away \$120 million over 5 years on, and on and on it goes.

So what is the alternative? Let me briefly describe the main features of a Medicare-for-all single-payer system. In terms of access, people getting into health care, this legislation would provide for all necessary medical care without cost sharing or other barriers to treatment. Every American—not 94 percent but 100 percent of America's citizens—would be entitled to care. In terms of choice, the issue is not choice of insurance companies that our Republican friends talk about. The question is choice of doctors, choice of hospitals, choice of therapeutic treatments. Our single-payer legislation would provide full choice of physicians and other licensed providers and hospitals. Importantly—and I know there is some confusion—a single-payer program is a national health insurance program which utilizes a nonprofit, private delivery system. It is not a government-run health care system. It is a government-run insurance program. In other words, people would still be going to the same doctors, still going to the same hospitals and other medical providers.

The only difference is, instead of thousands of separately administered programs run with outrageous waste, there would be one health insurance program in America for Members of Congress, for the poorest people in our country, for all of us. In that process, we would save hundreds of billions of dollars in bureaucratic waste. In terms of benefits, what would you get? A single-payer program covers all medically necessary care, including primary care, emergency care, hospital services,

mental health services, prescriptions, eye care, dental care, rehabilitation services, and nursing home care as well. In terms of medical decisions, those decisions under a single-payer program would be made by the doctors and the patients, not by bureaucrats in insurance companies.

If we move toward a single-payer program, we could save \$350 billion a year in administrative simplification, bulk purchasing, improved access with greater use of preventative services, and earlier diagnosis of illness.

People will be able to get to the doctor when they need to rather than waiting until they are sick and ending up in a hospital.

Further, and importantly, like other countries with a national health care program, we would be able to negotiate drug prices with the pharmaceutical industry, and we would end the absurdity of Americans being forced to pay two, three, five times more for certain drugs than people around the rest of the world.

Every other industrialized country on Earth primarily funds health care from broad-based taxes in the same way we fund the Defense Department, Social Security, and other agencies of government, and that is how we would fund a national health care program.

Let me be specific about how we would pay for this. What this legislation would do is, No. 1, eliminate—underline “eliminate”—all payments to private insurance companies. So people would not be paying premiums to UnitedHealth, WellPoint, Blue Cross Blue Shield, and other private industry companies—not one penny. The reason for that is that private for-profit health insurance companies in this country would no longer exist.

Instead, this legislation would maintain all of the tax revenue that currently flows into public health programs like Medicare, Medicaid, and CHIP, and it would add to that an income tax increase of 2.2 percent and a payroll tax of 8.7 percent. This payroll tax would replace all other employer expenses for employee health care. In other words, employers in this country, from General Motors to a mom-and-pop store in rural America, would no longer be paying one penny toward private insurance revenue.

The income tax would take the place of all current insurance premiums, copays, deductibles, and all other out-of-pocket payments made by individuals. For the vast majority of people, a 2.2-percent income tax is way less than what they now pay for all of those other things. In other words, yes, you would be paying more in taxes. That is true. But you would no longer have to pay for private health insurance, and, at the end of the day, from both a financial perspective and a health security perspective, we would be better off as individuals and as a nation.

What remains in existence—I should add here—is the Veterans' Administration. I believe, and most of us believe, they have a separate set of issues, and the VA would remain as it is.

Let me bring my remarks to a close by giving you an example of where I think we should be going as a country in terms of health care. Oddly enough, the process that I think we should be using is what a small country of 23 million people—the country of Taiwan—did in 1995. In 1995, Taiwan was where we are right now—massive dissatisfaction with a dysfunctional health care system—and they did what we did not do. They said: Let's put together the best commission we can, the smartest people we know. Let's go all over the world. Let's take the best ideas from countries all over the world.

As Dr. Michael Chen, vice president and CFO of Taiwan's National Health Insurance Bureau, explained in an interview earlier this year, the Taiwanese ultimately chose to model their system—after a worldwide search—on our Medicare Program. That is where they went, except that they chose to insure the entire population rather than just the elderly. After searching the globe, the Taiwanese realized what many Americans already know: a Medicare-for-all, single-payer system is the most effective way to offer quality coverage at a reasonable price.

Taiwan now offers comprehensive health care to all of its people, and it is spending 6 percent of its GDP to do that while we spend 16 percent of our GDP. But, unfortunately, the single-payer model was not ever put on the table here. Maybe we should learn something from our friends in Taiwan.

Let me end by saying this: This country is in the midst of a horrendous health care crisis. We all know that. We can tinker with the system. We can come up with a 2,000-page bill which does this, that, and the other thing. But at the end of the day, if we are going to do what virtually every other country on Earth does—provide comprehensive, universal health care in a cost-effective way, one that does not bankrupt our government or bankrupt individuals—if we are going to do that, we are going to have to take on the private insurance companies and tell them very clearly that they are no longer needed. Thanks for your service. We don't need you anymore.

A Medicare-for-all program is the way to go. I know it is not going to pass today. I know we do not have the votes. I know the insurance company and the drug lobbyists will fight us to the death. But, mark my words, Madam President, the day will come when this country will do the right thing. On that day, we will pass a Medicare-for-all single-payer system.

Mr. LUGAR. Mr. President, I take this opportunity to share with my colleagues a statement I have prepared re-

garding the health care reform debate in which the Senate is currently engaged.

A majority of the Members of Congress share President Obama's humane goal that millions more Americans might enjoy health insurance coverage and that medical care to all Americans might be substantially improved. For the moment, however, President Obama and the Congress must recognize that the overwhelming demand of most Americans is that presidential and congressional leadership should focus each day on restoration of jobs, strengthening of housing opportunities, new growth in small business and large industries, and banks that are not only solvent but confident of normal lending. In essence, the task facing national leadership is truly monumental. A national and international recession has not ended and many economists predict that unemployment, which has exceeded 10 percent in the United States, will continue to grow in coming months.

The President and the current Congress have realized a final deficit for fiscal year 2009 of \$1.4 trillion, with the total national debt now at \$12 trillion. The appropriation bills that Congress has passed and that will make up the next fiscal year's expenditures are predicted to result in another annual deficit of more than \$1 trillion. In fiscal year 2009, Medicaid spending increased by 24.6 percent to \$251 billion. Spending on Food Stamps increased 41 percent to \$56 billion. Unemployment benefits increased almost 155 percent to \$120 billion.

Republicans and Democrats may feel that passing comprehensive health legislation before the end of the year is crucial to the success or failure of the Obama administration and/or party leadership in the Congress.

But I would suggest that successful leadership will be defined, now and historically, by success in bringing a horrendous economic recession to an end, bringing new strength to our economy, and providing vital leadership in international relations as we hope to bring conflicts under control and in some cases, to conclusion.

I appreciate that President Obama has strongly argued that comprehensive health care legislation is an important component to reducing federal deficit spending. He has contended that failure to pass this legislation will increase deficits now and for many years to come. I disagree with the President.

After the economic recession in our country comes to a conclusion, a high priority may be extension of health insurance coverage and reform of many health care practices. When such changes occur, they are likely to be expensive and Americans will need to debate, even then, their priority in comparison to many other national goals. One reason why health care is likely to

remain expensive is that major advances in surgical procedures, prescription drugs, and other health care practices have prolonged the lives of tens of millions of Americans and improved the quality of those additional years. The Washington Post, in a front-page story on July 26, 2009, mentioned that "the fight against heart disease has been slow and incremental. It's also been extremely expensive and wildly successful." Americans should not take for granted all of the advances in health care that have enriched our lives, but we sometimes forget that we require and even pray for much more medical progress in years to come, which is likely to be expensive.

In order to pay for the cost of the nearly \$1 trillion health care legislation, several Members of Congress are suggesting new forms of taxation, reduction of payments to doctors and hospitals, and curtailment of certain types of insurance coverage. These and other suggestions may temporarily bring about cost reduction but will also have some after-effects in the overall economy. In fact, strong financial incentives may be needed to enlist men and women to enter the medical field. Failure to enlist a sufficient number of doctors could lead to rationing of service and longer lines to find someone who will give humane attention.

In the meanwhile, it is possible that the President and Members of Congress might find some inexpensive, incremental improvements that could result in a greater number of Americans being served through health insurance and more efficiently operating health care institutions. The strong desire that most of us have to continue discussing these issues and make improvements need not be postponed even as President Obama and the Congress strive for victory over a devastating national economic recession.

Because our Federal spending deficits have risen so much and are predicted to rise even more, all substantive discussions on health care and other important issues will be conducted during many years of planning and, finally, decisive action to reduce deficit spending and preserve the value and integrity of the dollar as we continue to borrow hundreds of billions of dollars in the form of U.S. Treasury bonds sold to governments and citizens of other countries. They, too, are counting on the integrity of our dollar and our financial system to preserve the value of their financial reserves.

Starting with President Obama and extending to all Members of Congress, we wish that we had inherited a neutral, peaceful playing field. We have not been so fortunate. Our responsibility now is to recognize the extraordinary financial tragedy that has befallen our country and to recognize the unprecedented opportunity that we have to stop the momentum of that

tragedy. We must provide valid hope of constructive vision, idealism, and change in the future. I look forward to working with the President and my colleagues to tackle first things first.

Ms. COLLINS. Madam President, I rise today to speak in favor of the motion to commit offered by Senators HUTCHISON and THUNE.

The Hutchison-Thune motion to commit would send the health care bill to the Senate Finance Committee with instructions to revise the bill in a revenue-neutral manner, to prevent taxes in the bill from going into effect before the exchanges are set up in 2014.

The bill makes Americans wait until 2014 to get insurance through the new "exchanges," but it rolls out new tax hikes starting right away. Unless we take action to change this, Americans will see 4 years of tax increases before the chief benefits of this bill become available.

In the 4 years between now and the time the exchanges come online, Americans will face at least a dozen new or increased taxes and fees costing \$73 billion.

Some of these taxes start in 2 weeks. For example, a new tax on pharmaceutical manufacturers, which will raise an average of \$2.2 billion per year; a new tax on health insurance providers, which will raise \$6.7 billion per year; a new tax on medical device manufacturers, which will raise \$2 billion per year.

Other taxes kick in 1 year from now. These include an increased penalty on withdrawals from Health Savings Accounts and a new \$2,500 cap on FLEX spending accounts.

These new limits and penalties make no sense to me. Why would we want to impose a penalty on Americans who use money from their FLEX spending accounts to buy over-the-counter medicine? How is that going to help make health care more affordable?

But that is not all the bill does with respect to taxes. In 2013, the bill imposes several more taxes, including a reduction in the tax deductibility of medical expenses, a new high cost insurance excise Tax—the so-called Cadillac tax, and an increase in the Medicare payroll tax for high earners.

These tax increases total \$73 billion before 2014, before anyone gets a dollar of subsidy to purchase health insurance in the new exchanges.

These taxes will be paid right away by Americans in the form of higher health insurance premiums. This is not just my opinion; this is what the Congressional Budget concludes too. Here is what the CBO said about the \$6.7 billion annual fee on health insurance providers, which is scheduled to begin next year:

We expect a very large portion of [the] proposed insurance industry fee to be borne by purchasers of insurance in the form of higher premiums.

It is not just taxes on insurance that will be passed on to consumers. Taxes on pharmaceutical manufacturers and medical devices makers will also be passed on.

This means that American consumers will see price increases for everything from insulin pumps, to pacemakers, to power wheelchairs and drugs like Prilosec.

As the CBO Director has said:

Those fees would increase costs for the affected firms, which would be passed on to purchasers and would ultimately raise insurance premiums by a corresponding amount.

The Joint Committee on Taxation shares the CBO's view these tax hikes will be passed along to consumers.

Once again, I do not see how imposing these new taxes now—before the exchanges are set up and the chief benefits of the bill are supposed to become available—makes health care more affordable.

For all of these reasons, I will be voting in favor of the Hutchison-Thune motion to recommit, and I would urge my colleagues to do the same.

MOTION TO COMMIT

Mr. SANDERS. Madam President, I now move to table Senator HUTCHISON's motion to commit, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The question is on agreeing to the motion.

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. DURBIN. I announce that the Senator from West Virginia (Mr. BYRD) and the Senator from Massachusetts (Mr. KERRY) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Oklahoma (Mr. INHOFE).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 56, nays 41, as follows:

[Rollcall Vote No. 379 Leg.]

YEAS—56

Akaka	Gillibrand	Murray
Baucus	Hagan	Nelson (FL)
Begich	Harkin	Pryor
Bennet	Inouye	Reed
Bingaman	Johnson	Reid
Boxer	Kaufman	Rockefeller
Brown	Kirk	Sanders
Burr	Klobuchar	Schumer
Cantwell	Kohl	Shaheen
Cardin	Landrieu	Specter
Carper	Lautenberg	Stabenow
Casey	Leahy	Tester
Conrad	Levin	Udall (CO)
Dodd	Lieberman	Udall (NM)
Dorgan	Lincoln	Warner
Durbin	McCaskill	Webb
Feingold	Menendez	Whitehouse
Feinstein	Merkley	Wyden
Franken	Mikulski	

NAYS—41

Alexander	Crapo	McCain
Barrasso	DeMint	McConnell
Bayh	Ensign	Murkowski
Bennett	Enzi	Nelson (NE)
Bond	Graham	Risch
Brownback	Grassley	Roberts
Bunning	Gregg	Sessions
Burr	Hatch	Shelby
Chambliss	Hutchison	Snowe
Coburn	Isakson	Thune
Cochran	Johanns	Vitter
Collins	Kyl	Voinovich
Corker	LeMieux	Wicker
Cornyn	Lugar	

NOT VOTING—3

Byrd	Inhofe	Kerry
------	--------	-------

The motion was agreed to.

Mr. REID. Madam President, I move to reconsider the vote, and I move to lay that motion on the table.

The motion to lay on the table was agreed to.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

VOTE EXPLANATION

• Mr. KERRY. Madam President, I was necessarily absent for the vote on the motion to table the Hutchison motion to commit to the health care bill, H.R. 3590. If I were able to attend today's session, I would have voted to table the Hutchison motion to commit.●

DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

Mr. REID. Madam President, I ask the Chair to lay before the Senate a message from the House with respect to H.R. 3326, the Department of Defense Appropriations Act.

The PRESIDING OFFICER. The Chair lays before the Senate the message from the House.

H.R. 3326

Resolved, That the House agree to the amendment of the Senate to the bill (H.R. 3326) entitled "An Act making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes", with a House amendment to Senate Amendment.

CLOTURE MOTION

Mr. REID. Madam President, I move to concur in the House amendment, and I send a cloture motion to the desk.

The PRESIDING OFFICER. The clerk will report the motion.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to concur in the House amendment to the Senate amendment to H.R. 3326, the Department of Defense Appropriations Act for Fiscal Year 2010.

Daniel K. Inouye, Harry Reid, Max Baucus, Patrick J. Leahy, Sheldon Whitehouse, Carl Levin, Patty Murray, Mark Begich, Maria Cantwell, Mark L. Pryor, Jack Reed, Edward E. Kaufman, Al Franken, Tom Harkin, Jim Webb, Paul G. Kirk, Jr., Michael F. Bennet.

AMENDMENT NO. 3248

Mr. REID. Madam President, I move to concur in the House amendment with an amendment, which is at the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Nevada (Mr. REID) moves to concur in the House amendment to the Senate amendment with an amendment numbered 3248.

Mr. REID. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end of the House amendment, insert the following:

The provisions of this Act shall become effective 5 days after enactment.

Mr. REID. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 3252 TO AMENDMENT NO. 3248

Mr. REID. Madam President, I have an amendment at the desk.

The PRESIDING OFFICER. The clerk will report.

The Senator from Nevada (Mr. REID) proposes an amendment numbered 3252 to amendment No. 3248.

Mr. REID. I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

Strike "5 days" and insert "1 day".

MOTION TO REFER/AMENDMENT NO. 3249

Mr. REID. Madam President, I have a motion to refer, with instructions, at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada (Mr. REID) moves to refer H.R. 3326 to the Committee on Appropriations with instructions to report back with the following amendment No. 3249:

At the end, insert the following:

The Appropriations Committee is requested to study the impact of any delay in implementing the provisions of the Act on service members' families.

Mr. REID. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 3250

Mr. REID. Madam President, I have an amendment to my instructions at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada (Mr. REID) proposes an amendment numbered 3250 to the instructions of amendment No. 3249.

Mr. REID. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end, add the following:

"and the health care provided to those service members."

Mr. REID. Madam President, I ask for the yeas and nays on the amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

AMENDMENT NO. 3251 TO AMENDMENT NO. 3250

Mr. REID. Madam President, I have a second-degree amendment at the desk.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Nevada (Mr. REID) proposes an amendment numbered 3251 to amendment 3250.

Mr. REID. Madam President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the end, add the following:

"and the children of service members."

Mr. REID. Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. ENSIGN. I object.

The PRESIDING OFFICER. Objection is heard. The clerk will continue calling the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

Mr. REID. It is my understanding that the Senator from Texas wishes to speak for up to 5 minutes. I ask unanimous consent that she be recognized, and following that Senator DURBIN be recognized.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Texas is recognized.

Mrs. HUTCHISON. Madam President, I thank the majority leader for allowing me to speak because I am very concerned about a precedent that has been set on the floor in this last vote.

When the Senator from Vermont withdrew his amendment and started talking, my motion to commit was the measure pending on the floor. I did not

have notice—which is the normal procedure here—to be able to talk on my motion. We had no idea there would be a motion to table my motion before I had a chance to close.

Here is my point. The measure that was tabled, the Hutchison-Thune motion, would have assured the American people that there would not be 4 years of tax collection before any kind of program would be put forward under the health care reform package. I thought it was very important that Senator THUNE and I be able to close on that. That is a concept we have always had in the Senate—that a program starts when it starts. That means if taxes are included, the taxes will start when the program starts. That is not the case in the underlying bill. The underlying health care reform bill has 4 years of taxes. There will be taxes on insurance companies that will surely raise the premium of every insurance policy in America. There are taxes on prescription drug companies, so that prescription drug prices will surely go up. There are taxes on medical device companies, so the prices on health care equipment will also go up. How much are we talking about? We are talking about \$100 billion in taxes that will start in 3 weeks—in January of 2010. Again, we are looking at taxes that will start in 3 weeks, next month, which will accumulate up to \$73 billion before a program is implemented that will give anyone a choice of an affordable health care option.

That is the motion that was tabled 10 minutes ago. I want to make sure everyone knows I never had a chance to close on the motion. Senator THUNE didn't have a chance to close, because it was a motion made that could not be objected to. That is not the way things have operated here in the past, and I think it is time we bring back the traditions of the Senate, where we have time that we agree to, everybody has their say, and then we go forward.

I am very concerned about that process. I hope it is not setting precedent because I think we can resurrect health care reform if we have a bipartisan health care effort. If we have an effort that will bring down the costs, that will increase the risk pools so that an employer will be able to afford to offer employees health care coverage, bring down the costs of health care with medical malpractice reform that would save \$54 billion in the system, we can do things without a government takeover of health care. But the bill that is before us has \$½ trillion in Medicare cuts—Medicare cuts, \$½ trillion—and \$½ trillion in new taxes—taxes on businesses that offer not enough coverage, businesses that offer too much coverage, a 40-percent excise tax on policies that give what is called Cadillac coverage, the high benefit plans. So if you have a good insurance policy, you

have a 40-percent tax on top of the premium you pay. And if you have too little coverage, you also get taxed. You are whipsawed in this bill.

I think the small business people of this country know what this bill is about because that is the comment we are getting. They are the people calling into our offices. They are the people I see on the airplanes as I go back and forth to try to make sure we are covering the bases on this bill and trying to let the American people know what is in it.

I am concerned about the precedent that was set, but more than that, I am concerned that the American people must know that if this bill passes as it is on the floor today, the taxes will take effect in 3 weeks, that insurance premiums will surely go up, prescription drugs will surely go up, prices on medical equipment will surely go up, and there will not be an affordable insurance plan for people to choose to take for 4 years. It is like buying a house and having the mortgage company hand you the keys and say: Come back in 4 years, and we will let you unlock the door.

I don't think that is transparency, and it is certainly not health care reform. I hope there is still a chance that we can bring this body to a bipartisan effort that will allow lower premiums, more health care options for the people of this country but, most important, that will keep the quality of health care, the choices we have in health care that Americans have come to expect and not start going on the road to a single-payer system because in the end, that is what the bill before us will lead to. It will be a single-payer system. It will take choices out. It will take quality out.

It will add taxes and burdens on our small businesses at a time when they need to be able to hire people to get our economy going and to get that jobless rate down. We need them to employ people. We need to encourage our employers to employ people. They cannot do it if we put more taxes and burdens on them, which is what the bill before us does.

I thank the majority leader for allowing me to speak since I did not have a chance to speak before my motion was tabled. I hope the American people are listening because we have a chance to do this right. The bill on the floor today is not that bill.

I yield the floor.

The PRESIDING OFFICER (Mr. BURRIS). The Senator from Illinois is recognized.

Mr. DURBIN. Mr. President, I thank the Senator from Texas. I am glad she had an opportunity to speak. We disagree on this issue, but I am glad she had her opportunity to speak.

I hear from different people. Obviously, we must ride on different planes because the people I speak with are

anxious to see some change in this health care system and know that 14,000 Americans lose their health insurance every single day. They know that most people cannot afford health insurance because of the increase in costs.

I say to the Senator from Texas, she is my friend and we have worked on many issues in the past, but we disagree on this issue.

I am coming before the Senate with a holiday proposal. Recently there was a book that was published about World War I. It was about trench warfare that went on and on with horrendous casualties and lives being lost. Then there came a moment, a Christmas moment, when they decided to call a truce because of Christmas and play a soccer game. The Allied and Axis troops came out and, for a brief moment, stopped the war, played the soccer game, and went back to the trenches and the next day started shooting again.

I am looking for a holiday truce here for our troops because what we have before us right now is the Department of Defense appropriations bill. Although Senator HUTCHISON and I clearly disagree and many Members on both sides clearly disagree when it comes to health care, there is no disagreement when it comes to our troops. Every one of us supports our troops. Every one of us wants to make sure they have what they need, the resources they need to perform their mission successfully and come home safely.

This bill that is before us, this Department of Defense appropriations conference report, is an attempt for us to do something to help these troops in time of war. I would hope I could appeal to my colleagues on the other side of the aisle that for one brief, shining moment in the spirit of the holiday we set aside our political differences for the sake of our men and women in uniform.

The point I am getting to is that if we go through the ordinary, tortured procedure and wait, it is going to take us days to complete this bill for our troops. I hope we can show good faith on both sides of the aisle and overcome that. I hope we could enter into a consent agreement among Republicans and Democrats because I know as I stand here that the Republicans feel as the Democrats do—that we should provide funding for our overseas operations of our men and women in uniform.

In this bill, \$101 billion is included for operations and maintenance for ongoing military operations in Iraq and Afghanistan and to support the preparations to continue the withdrawal from Iraq.

In this bill, there is \$23.36 billion for equipment. We want to make sure our men and women in uniform have the equipment they need to make certain they are safe and have what they need to come home safely.

There is also a pay raise in this bill, a 3.4-percent pay raise. Does anyone dispute the need that our military has to be recognized for what they have given our country and be given a pay raise?

When it comes to readiness and training, there is \$154 billion for the defense operation and maintenance account to increase readiness.

In the field of military health care, there is \$29 billion for the Defense Health Program to provide quality care for servicemembers and their families. It includes, incidentally, \$120 million for traumatic brain injury and psychological health research.

These are issues we have all come together on. We are not arguing about these issues, and I do not think we should at this moment.

There is \$472 million for family advocacy programs and full funding for Family Support and Yellow Ribbon to provide support to military families, including quality childcare, job training for spouses, and expanded counseling and outreach.

There is one other section of the bill—and I will yield for a question from my friend from Alaska when I complete this point—there is one other section that relates to the unemployment crisis facing this country. It is a modest extension of the unemployment benefits. The last time it was on the floor, I believe it passed 97 to 0. I do not believe there is any controversy to the fact that we want to extend unemployment insurance benefits through February 28 of next year. It is difficult to envision a situation where we would actually leave here to go home to our families for the holidays and not take care of the unemployed.

There is also a provision for their health insurance under COBRA and for food stamps on which we know so many unemployed families rely. It seems to me if there is one thing in the midst of this political turmoil we can agree on, it is let's stand behind our troops, let's make sure people who are unemployed have a happy holiday season. Why do we want a tortured process to reach a "yes" on this conference report? I appeal to my colleagues on the other side of the aisle to make this a bipartisan effort. Let's do this part. We can return to the health care bill and the debate. But let's get this done and do it without all the necessary motions and time that may be spent.

I yield for a question from the Senator from Alaska.

The PRESIDING OFFICER. The Senator from Alaska is recognized.

Mr. BEGICH. Mr. President, I appreciate the Senator from Illinois bringing up what I consider a very most important piece of legislation to Alaska. Eleven percent of our population are veterans. We have thousands of military individuals in our State.

I am new to the process. One of the questions I have for the Senator—and I

hope he can enlighten me and also enlighten the whole public watching—this is probably one of the most important departments at this time. We are in two wars. Can the Senator give me an explanation? In the past—Senator DURBIN started to do it—the Defense bill seemed to be one of those bills where we all came together. It is a bipartisan approach. I know as members of the Armed Services Committee, it seems every time we deal with these issues we are unified.

Help me to understand why this is something that seems to be controversial and yet should be so simple for us to do.

Mr. DURBIN. I say in response to the Senator from Alaska, I think it is the moment. If we were in a different political environment, I think the Republican Senators and Democratic Senators would agree that this should go through and go through quickly. But we have been caught up for weeks now in debate and controversy, and this bill has been tossed into that environment. That is the explanation because I do not think there is a single provision I read here that Republican Senators do not support, as the Democratic Senators support. That is why I made my suggestion.

Mr. BEGICH. Mr. President, if I may ask one more question. That last statement the Senator from Illinois made, I know as a member of the Armed Services Committee, I have not heard complaints about this bill from anyone from the other side. I am asking, from a leadership position, have we heard any complaints on this legislation? Is it just that, it is the moment in time?

Mr. DURBIN. I say in response to the Senator from Alaska, it does include some provisions relative to the unemployed. There were other things that could have been included by the House, but we reached out to the Republican side and asked: Are any of these problematic? By and large, they said here are the things you should not include, and we did not. We did our best to ensure we brought a noncontroversial bill for consideration.

Mr. BEGICH. I thank the Senator.

Ms. STABENOW. Will the Senator yield for a question?

Mr. DURBIN. I am happy to yield to the Senator from Michigan.

Ms. STABENOW. Mr. President, from the Senator's explanation and from what we have been working on, I want the Senator to clarify two things.

First of all, we could do this conference report today if there were a willingness and, secondly, we have a pay raise for our troops that is coming right before Christmas, the holidays, help for families, help for those who have lost their jobs and are trying to figure out how they keep their health care going, and help for people who are trying to put food on the table for the holidays; is that correct? I ask the Sen-

ator to expand. As I understand it, we could actually get this done today and give people some peace of mind going into the holidays.

Mr. DURBIN. I say to the Senator from Michigan, yes, we could enter into a consent agreement now and pass this conference report without controversy, and I bet you it would get a unanimous vote.

As the Senator from Michigan described this, everybody here wants to make sure we take care of our troops. We received a unanimous vote, if memory serves me, the last time we extended unemployment benefits. I think most Members want to stand up and help those who are unemployed through this difficult time of unemployment in our country.

If there ever were a bill to bring us together in those two areas—helping our troops and helping the unemployed—this is the bill.

Ms. STABENOW. Mr. President, I wish to ask another question of the Senator from Illinois. If, in fact, the Senator from Illinois is finding the same thing I am right now—certainly, we have the highest unemployment rate in Michigan—and we are hearing it from all over the country; we are hearing from people that their unemployment benefits are about to expire. They are trying to figure out how they are going to make it through the next few months.

There are particular concerns that if we do not extend it by the end of the year that, in fact, many will have to go out and resign up with a new bureaucracy to continue benefits.

I wonder if the Senator has heard the same kinds of concerns and sense of urgency people have about being able to keep a roof over their head, keep food on the table, and keep their health care going—the same sense of urgency that I know we are feeling from people in Michigan?

Mr. DURBIN. I say in response to the Senator from Michigan, through the Chair, that I am happy to read the latest unemployment statistics showing the number of people declared unemployed each month is going down. We will not feel good about it until it is turned around and we are creating jobs again, which I hope is soon.

In the meantime, we have about six unemployed people for every job that is available. These people are in a market that is terrible, and they are trying their best. Some have gone back to school. Some are getting training courses. Some are trying to keep things together with their family and not lose their home because of unemployment.

I am sure the Senator from Michigan has met with the unemployed in Michigan, as I have in Illinois. Some are, little by little, exhausting the savings they have. Even with COBRA, many people find the COBRA provision,

which gives people a chance to buy insurance at discounts, is still too expensive. They are without a job. They are running the risk of losing their home. They are without health insurance for their children and are desperately looking for a job. We certainly do not want to put them in a situation where there is a question mark as to whether after December 31 the unemployment check will be there next month. I think it is that peace of mind we owe these folks caught up in the bad circumstances of our economy.

Ms. STABENOW. If I may conclude, to clarify, we can get this done today. We can create that peace of mind for families going into the holidays, going into Christmas, into the end of the year. We could actually do that today in the next few hours?

Mr. DURBIN. That is correct, I say to the Senator from Michigan, we can. Earlier we were embroiled in the reading of an amendment that would have literally consumed the entire day and forced us into another day's time and run the risk of not providing money for the troops when the continuing resolution, the funding resolution, ran out.

The Senator from Vermont withdrew his amendment, and now we have moved to this bill. But there is nothing stopping us. A consent agreement can be entered into by both sides of the aisle that can move this through quickly and say to our troops: We are with you.

I yield to the Senator from Rhode Island.

Mr. WHITEHOUSE. Mr. President, will the Senator from Illinois yield for a question?

Mr. DURBIN. I will be happy to yield.

Mr. WHITEHOUSE. I am interested in the parliamentary situation that took place earlier whereby one of our Members was actually obliged to withdraw an amendment that was going to be voted on by all of us because of an insistence on the part of the other side that 800 pages be read by our poor clerk before that vote should take place.

I have also heard the other side say that we want to get going, we want to move toward votes. I would be interested in the reflections of the distinguished majority whip on the extent to which a procedural objection to force the clerk to read 800 pages of an amendment, and deny one of our colleagues his vote, fairly represents a desire to move forward and get through our votes.

Mr. DURBIN. I would say in response to the Senator from Rhode Island, we have heard repeatedly that people want amendment, debate, and a vote. What happened on the floor today, when Senator COBURN of Oklahoma refused to give consent to suspending the reading of the amendment, is that the clerk—clerks, I should say—were forced to start reading. As good as they are at reading, the fact is, it was going to

take up to 10 hours to read this amendment. During that 10-hour period of time, nothing could happen—no debate, no amendments—nothing other than listening to the clerks' melodious voices. Fortunately for us, the Senator from Vermont stepped up and said: I withdraw the amendment. But if there was a true interest in debate and amendments on health care, it is inconsistent to say we are going to take a day out of the whole affair and read an amendment.

I can tell you, as I said to the Senator from Oklahoma, I can't believe there is a person in America who sat glued to the C-SPAN television listening to this amendment so they would understand it. It is a very complicated amendment page by page but, in general, understandable. The Senator from Vermont was seeking a single-payer health care system. It was not likely to pass, but it is something he believes in fervently and he wanted to offer it. So I would say the strategy on the floor today belies any request that we have more debate and more amendments.

Before the Senator from Rhode Island continues, I think this has been cleared on both sides, but I ask unanimous consent that the time until 6:15 p.m. be equally divided between the two sides, with Senators permitted to speak for up to 15 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. WHITEHOUSE. If the Senator from Illinois would yield for another question.

I was elected just about 3 years ago, and I came in with the new majority, so I did not have a chance to serve in this body when there was a Republican President and a Republican majority. I wonder if the Senator, who was here at that time, would reflect on how the other side viewed Defense appropriations for our troops during the Iraq war when they were in the majority. Were they desirous of delay and obstruction and debate and procedural maneuver on Defense appropriations at that time or is this a new strategy of theirs?

Mr. DURBIN. I would say to my colleague from Rhode Island that exactly the opposite was true. They wanted to move quickly to pass any appropriations bill to make certain there was no question in the minds of our men and women in uniform that we were standing with them, and we did. I don't believe even those of us who voted against the invasion of Iraq tried to stop the proceedings from funding the troops, regardless of what our votes might be.

So I think it would be consistent now for our colleagues on the other side of the aisle to join us, in a bipartisan fashion, to say whatever differences on other issues, such as health care, let's let the troops know this holiday season we stand behind them—Republicans and Democrats—and let's do it in an efficient and effective way.

Since this unanimous consent request has been granted, I am going to yield the floor and any of my colleagues who wish to speak, it will be equally divided time for the next 2 hours.

At this time, I yield the floor. Mr. President, if no one seeks time, I suggest the absence of a quorum and I ask unanimous consent that during the time of the quorum the time be equally divided between both sides.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. LEMIEUX. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered. The Senator from Florida is recognized.

Mr. LEMIEUX. Mr. President, while we have been here discussing health care, the clock has been ticking on our national debt. Just in the first 2 months of this fiscal year, we have accumulated \$296 billion in debt. We took in revenues of \$268 billion, and we spent \$565 billion. We spent double what we took in just in the first 2 months of the fiscal year.

I know you are new to this Chamber, Mr. President, as am I. I have only been here 90 days, but I have been here long enough to know this system is broken. It doesn't work. Neither this body nor the body across the Capitol has an ability to make ends meet. We continue to spend money we do not have. We spend the money of our children and our grandchildren. Right now we have a \$12 trillion debt. It took us 167 years in this country just to amass a \$1 trillion debt in 1982. Now we are at \$12 trillion. Every family in this country is now responsible for \$100,000 of debt.

Where are we getting this money? We are borrowing it from countries such as China, and it is hurting our standing in the world. Central banks that hold American currency are shedding those dollars because they no longer believe our country is a good investment. I worry about our children and our grandchildren. I have three sons, as you know, Max, Taylor and Chase—they are 6, 4 and 2—and we have a baby on the way in March. I am very worried that my children will not be able to experience the American dream like you and I have; to be able to be in the Senate, to be able to achieve all of our goals, whether in public service or in private. I do not believe America is going to be the same place for them, that it is going to hold the same opportunities because I believe this debt is going to strangle us.

If this body and the body across the Capitol don't figure out we need to start making ends meet and stop spending the dollars of future genera-

tions, this country will not be the leader of the world. It will not have the promise we have all enjoyed.

I rise today to speak about S.J. Res. 22, which I filed yesterday. It is a constitutional amendment that requires the Congress to balance its budget and also gives to the President of the United States a line-item veto so he, like most of the Governors in this country, can strike out inappropriate budget items, these earmarks that you hear about.

Senator MCCAIN spoke this weekend about \$2.5 million to the University of Nebraska to study operations and medical procedures in space. We cannot afford that program under any circumstance, and we certainly can't afford programs like that when we are \$12 trillion in debt. These dollar numbers are so big they are hard to comprehend.

What does \$1 trillion mean? What does \$1 billion mean? In Washington we throw these amounts around, and we do not even comprehend them. I know for the American people at home it is hard to get their minds around how much money this is. I have said this on the Senate floor before, and I am going to keep saying it so people understand that every dollar we spend is a choice.

One million dollars laid edge to edge on the ground would cover two football fields. One billion dollars laid edge to edge on the ground would cover the city of Key West, FL, 3.7 square miles. And \$1 trillion would cover the State of Rhode Island—twice. If you stacked them on the ground going up into the sky, it would be 600 miles of one-dollar bills.

Every dollar is a choice, and these numbers are out of control. Just this past Saturday we voted on a spending bill, a spending bill that had a 12-percent increase and \$40 billion more than last year. I want to give the American people the sense of what you could do with this kind of money, what good you could do or, better yet, you could give it back to the American people and they could decide what good they could do with those dollars for their families.

With \$100 billion, we could give every Floridian a \$5,000 tax cut.

With \$200 billion we could pay the salary of every teacher for a year. With \$300 billion we could pay first-year tuition at a university of their choice for every kid who is in K-12. With \$400 billion, we could build high-speed rail for 10,000 miles. We could connect Key West to Anchorage and back.

Every dollar is a choice. We are spending money out of control. Similar to those who have come before me, I will sound the alarm because we still haven't done anything about this problem. There are good measures out

there. Senator GREGG from New Hampshire has a measure, along with Senator CONRAD, to put together a commission. I support that. Senator SESSIONS has a measure to bring caps back. Up until about 2002, we actually were making headway against the budget. Then those caps expired and spending went out of control.

I support all those efforts. I support any effort to bring spending under control. This body doesn't have any leadership on spending. Look at what we spend. We don't look at the revenues coming in the door.

I served as chief of staff to a Governor in Florida. When the budget started to go bad in 2007, I was on the phone monthly with the person who determined our receipts. I knew in Florida we could only spend as much money as we had. This institution does not work that way. No one even checks to see what kind of money we are bringing in. We just spend.

I wish to talk to the American people about articles in the Wall Street Journal of today. This is not a Democratic problem or a Republican problem. This is a problem of this institution. The article is titled "The Audacity of Debt." I wish to read one paragraph. I ask unanimous consent that the full article be printed in the RECORD.

There being no objection, the material was ordered to be printed in the Record, as follows:

[From the Wall Street Journal, Dec. 16, 2009]

THE AUDACITY OF DEBT

COMPARING TODAY'S DEFICITS TO THOSE IN THE 1980S

At least someone in America isn't feeling a credit squeeze: Uncle Sam. This week Congress will vote to raise the national debt ceiling by nearly \$2 trillion, to a total of \$14 trillion. In this economy, everyone de-leverages except government.

It's a sign of how deep the fiscal pathologies run in this Congress that \$2 trillion will buy the federal government only one year before it has to seek another debt hike—conveniently timed to come after the midterm elections. Since Democrats began running Congress again in 2007, the federal debt limit has climbed by 39 percent. The new hike will lift the borrowing cap by another 15 percent.

There is surely bipartisan blame for this government debt boom. George W. Bush approved gigantic spending increases for Medicare and bailouts. He also sponsored the first ineffective "stimulus" in February 2008—consisting of \$168 billion in tax rebates and spending that depleted federal revenues in return for no economic lift.

Democrats ridiculed Mr. Bush as "the most fiscally irresponsible President in history," but then they saw him and raised. They took an \$800 billion deficit and made it \$1.4 trillion in 2009 and perhaps that high again in 2010. In 10 months they have approved more than \$1 trillion in spending that has saved union public jobs but has done little to assist private job creation. Still to come is the multitrillion-dollar health bill and another \$100 billion to \$200 billion "jobs" bill.

We've never obsessed over the budget deficit, because the true cost of government is the amount it spends, not the amount it bor-

rows. Milton Friedman used to say that the nation would be far better off with a budget half the current size but with larger deficits. Mr. Obama and his allies in Congress have done the opposite: They have increased the budget by 50 percent and financed the spending with IOUs.

Our concern is that the Administration and Congress view this debt as a way to force a permanently higher tax base for decades to come. The liberal grand strategy is to use their accidentally large majorities this year to pass new entitlements that start small but will explode in future years. U.S. creditors will then demand higher taxes—taking income taxes back to their pre-Reagan rates and adding a value-added tax too. This would expand federal spending as a share of GDP to as much as 30 percent from the pre-crisis 20 percent.

Remember the 1980s and 1990s when liberals said they worried about the debt? We now know they were faking it. When the Gipper chopped income and business tax rates by roughly 25 percent and then authorized a military build-up, Democrats and their favorite economists predicted doom for a decade. The late Paul Samuelson, the revered dean of the neo-Keynesians, expressed the prevailing view in those days when he called the Reagan deficits "an all-consuming evil."

But wait: Those "evil" Reagan deficits averaged less than \$200 billion a year, or about one-quarter as large in real terms as today's deficit. The national debt held by the public reached its peak in the Reagan years at 40.9 percent, and hit 49.2 percent in 1995—This year debt will hit 61 percent of GDP, heading to 68 percent soon even by the White House's optimistic estimates.

Our view is that there is good and bad public borrowing. In the 1980s federal deficits financed a military buildup that ended the Cold War (leading to an annual peace dividend in the 1990s of 3 percent of GDP), as well as tax cuts that ended the stagflation of the 1970s and began 25 years of prosperity. Those were high return investments.

Today's debt has financed . . . what exactly? The TARP money did undergird the financial system for a time and is now being repaid. But most of the rest has been spent on a political wish list of public programs ranging from unemployment insurance to wind turbines to tax credits for golf carts. Borrowing for such low return purposes makes America poorer in the long run.

By the way, today's spending and debt totals don't account for the higher debt-servicing costs that are sure to come. The President's own budget office forecasts that annual interest payments by 2019 will be \$774 billion, which will be more than the federal government will spend that year on national defense, education, transportation—in fact, all nondefense discretionary programs.

Democrats want to pass the debt limit increase as a stowaway on the defense funding bill, hoping that few will notice while pledging to reduce spending at some future date. Republicans ought to force a long and careful debate that educates the public. Ultimately, the U.S. government has to pay its bills and the debt limit bill will have to pass. But debt limit votes are one of the few times historically when taxpayer advocates have leverage on Capitol Hill. Republicans and Democrats who care should use it to discuss genuine ways to put Washington on a renewed and tighter spending regime.

"Washington is shifting the burden of bad choices today onto the backs of our children and grandchildren," Senator Barack Obama said during the 2006 debt-ceiling debate.

"America has a debt problem and a failure of leadership. Americans deserve better." That was \$2 trillion ago, when someone else was President.

Mr. LEMIEUX. Reading from the Wall Street Journal:

Democrats ridiculed Mr. Bush as "the most fiscally irresponsible President in history," but then they saw him and raised. They took an \$800 billion deficit and made it \$1.4 trillion in 2009 and perhaps that high again in 2010. In 10 months they have approved more than \$1 trillion in spending that has saved union public jobs but has done little to assist private job creation. Still to come is this multitrillion-dollar health care bill and another \$100 billion to \$200 billion "jobs" bill.

We can't afford the programs we have, let alone the programs we want. I filed this joint resolution to have a balanced budget. I filed the joint resolution to give the President the line-item veto like Governors do. I know I am tilting at windmills. I know there are very few people in this Chamber or the Chamber down the hall who have the courage to do this. They are part of the process. They go along and get along. But I am fresh enough to still remember how things work in the real world. We have to change things. Our children are not going to have this great country. I am so afraid that one of my kids is going to come to me when they are 18 or 22 and say: Dad, I am going to go to another country to make my living. I am going to go to Ireland or Chile or India because I have a better opportunity there to succeed. I can't pay 60 percent in taxes. I can't assume what will then be a \$23 or \$30 billion debt.

We are not even talking about all the entitlements we haven't paid for. We are not talking about all the money we have raided out of Medicare and Social Security in order to pay for current expenses. Some people say those obligations are more than \$60 trillion, numbers we can't even comprehend.

I filed this resolution. I will send a letter to every Governor asking them to adopt it in advance of the Congress taking it up. A constitutional amendment requires two-thirds of both Chambers and three-quarters of the States. They can act first. They can send letters and resolutions from their legislators to this legislative body and say: Get your act under control.

It affects them too. This new health care bill is going to send an unfunded mandate to the States and increase Medicaid from 100 percent of poverty to 133 percent. They will have to pay that bill. It is going to cost Florida in 10 years almost \$1 billion. Right now, in Florida, the No. 1 expenditure in our budget is Medicaid. Because we balance our budget, that means we take money away from teachers and education. That means we take money away from law enforcement. It is out of control.

I am here to say the siren is sounding. The ship is going to hit the iceberg. We can't make just incremental

change because then we will just hit the side of the iceberg. We have to make substantial change. The people in this body have to have the courage to do it. We can't just go along and get along as we have before. We cannot be tone deaf. The American people are onto us. They understand we are spending money we don't have. I will not stand by and let this great country fall into decline without at least arguing and pushing as strenuously as I can for a solution. I am willing to work with men and women of good will on both sides of the aisle to solve the problem. I am new here. I might not have all the answers. I probably don't. But I will surely work hard. I know this is one solution. If every State can have a balanced budget amendment and 43 States can have a line-item veto, why can't this body?

I have filed this resolution. I look forward to talking about it more. I hope this body will take it seriously. I see my friend from Massachusetts is here. He also is new to this body, although he spent many years working here. We have to do things differently. We throw around billions and trillions like it is just nickles and dimes in our pockets. It is not. Every dollar is a choice. It is a choice to make. If we don't make the right choice, it will be a choice our children and grandchildren will suffer under.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KIRK. Mr. President, "The need for comprehensive national health insurance and concomitant changes in the organization and delivery of health care in the United States is the single most important issue of health policy today." Those are not my words. Those are the words of Senator Edward M. Kennedy. The "today" of which he spoke was December 16, 1969, exactly 40 years ago today. It was his first major speech on health care reform, and I was privileged to be a young member of his staff. He delivered that speech to a group of physicians at Boston University Medical Center.

Senator Kennedy went on to say:

If we are to reach our goal of bringing adequate health care to all our citizens, we must have full cooperation between Congress, the administration, and the health professionals. We already possess the knowledge and the technology to achieve our goal. All we need is the will. The challenge is enormous, but I am confident that we are all equal to the task.

The world has progressed in many ways since he spoke those words four decades ago, but our health care system has not. In 1969, the United States spent \$18 billion on health care. Today we spend over \$2 trillion a year. Senator Kennedy pointed out, in 1969, that the Nation faced a shortage of primary care doctors. The reimbursement rates for physicians treating Medicare and Medicaid patients were too low. There

was a need to support greater innovation in delivering care, and neighborhood health centers were underfunded. He said we needed to develop an effective means of providing quality, affordable care to all Americans, regardless of their standing in life.

Does all this sound familiar? Yes. But that was then and this is now.

In recent weeks, Senators on both sides of the aisle have come to this floor to debate the merits of the Patient Protection and Affordable Care Act. We have had our differences of opinion, to be sure. But on one issue there is no dispute. When it comes to our health care system, there is no such thing as a status quo. We will move forward or we will continue to fall behind.

Here is what we will face, if we do not pass this reform. Premiums will skyrocket and could consume as much as 45 percent of a median family's income by 2016. Bankruptcies will increase due to families not being able to afford their medical costs. More Americans will be uninsured. Small and large businesses will suffer financially due to health cost increases. Health care could constitute as much as 28 percent of our Nation's GDP by 2030. Fifteen percent of the Federal budget could be dedicated to Medicare and Medicaid by 2040.

Ted Kennedy had a keen sense of history. He knew Germany adopted the idea of national health insurance in the 1880s, that Britain, France, and a number of other European nations embraced the concept after the First World War, that Canada has had a publicly funded system since the 1950s. He would ask, as he did in 1969 and again in 2009: If all these nations understood long ago that their economic health was ultimately tied to the health of their people, why does the United States stand alone as the only major industrial nation in the world that fails to guarantee health care for all its citizens?

It is not that we have never sought this goal in the past. Presidents, Republicans and Democrats, over many decades, have proposed national health insurance in America. Presidents Theodore Roosevelt, Franklin Roosevelt, Harry Truman, John F. Kennedy, Richard Nixon, and Bill Clinton all made health reform a part of their agenda. Now we stand on the threshold of history. Never has this country been so close to bringing affordable, quality health care to millions of America's families. Today, under President Obama's leadership, the goal is within our reach. Failure is not an option. All interested parties have been brought to the table. Physicians, hospitals, insurance companies, small businesses, pharmaceutical companies, and many others have had an opportunity to present their suggestions and offer their input. Dozens of hearings were held on all topics related to this issue.

The House of Representatives has acted. The Senate HELP Committee, through the diligence of Senators Kennedy, DODD, and HARKIN and the Finance Committee, under the leadership of Senator BAUCUS, held lengthy executive sessions that discussed all areas of reform and delivered and developed their respective bills. Due to the hard work and tireless patience of the majority leader, we have one merged bill before us, a single piece of legislation which will improve the lives of millions of Americans in the following ways. It expands coverage to an additional 31 million Americans, bringing health insurance to almost 94 percent of our citizens. It saves money by rewarding the quality and value of care, not the quantity and volume of care. It controls the cost of skyrocketing premiums and limits out-of-pocket expenses. It reduces the Federal deficit by an estimated \$130 billion in the first 10 years and an estimated \$650 billion in the second 10 years. It stimulates competition in the health insurance marketplace through establishment of exchanges. It strengthens Medicare by reducing unnecessary spending, lowering prescription costs, and closing the so-called doughnut hole. It attacks fraudulent and wasteful spending and helps to correct abuses in the system. It rewards wellness and prevention by expanding access to advice on how to live a healthy lifestyle by practicing good nutrition, increasing physical activity, and quitting smoking.

It eliminates unfair discrimination against patients by preventing insurance firms from denying certain coverage to women or to individuals with preexisting conditions.

It promotes flexibility and innovation in new health care technologies. It introduces a self-funded, voluntary choice for long-term services and support for the elderly and disabled. Most of all, it saves lives by providing affordable, quality care for individuals, families, and small businesses.

In my State of Massachusetts, because of our successful reform, the rate of the uninsured has been reduced to 2.7 percent of the population, and the lives of thousands of citizens of our Commonwealth have been immeasurably improved.

Carol's case is one example. Carol did not realize the importance of having quality, affordable health insurance until she was confronted with the gravity of her own health problems. She is a 24-year-old woman suffering from seizures and desperately in need of help.

She remembers having occasional seizures as a child. They occurred mostly when she was overtired. As Carol grew older, the seizures became more frequent. One day, she had an episode when driving her car. Fortunately, her passenger was able to assist her. But that frightening incident convinced Carol to seek professional help.

She learned about the assistance of Health Care For All, the Massachusetts organization dedicated to making quality, affordable health care accessible to everyone. She applied and was declared eligible for Commonwealth Care. She immediately went to see a specialist and was given the health care she needed.

Carol expressed her gratitude in these words:

I definitely feel blessed to be a Massachusetts resident. I can't thank Health Care For All and MassHealth enough for all the support given to me. The Helpline counselors literally held my hands and brought me to live a healthy life, where there is no fear or embarrassment, but there is knowledge and a total control of my seizures. So, thank you so much all of you who make this happen in people's lives.

We should all think about Carol and the millions of working families across the country when we vote for this legislation. It is our responsibility to enact laws that make a positive difference in people's lives, and that is what this bill is all about.

Senator Ted Kennedy envisioned a better America where, as he said:

[E]very American—north, south, east, west, young, old—will have decent, quality health care as a fundamental right and not a privilege.

This is a historic moment in our national life. We have the chance to finally complete the work that a respected Republican President called for over a century ago. Quality health care for all has always been needed in America but never more than now. The finish line is clearly in sight. The momentum and the energy are with us, and it is our obligation to seize this historic moment.

Every Member of this body is aware of the valiant fight Senator Kennedy waged for his own health during the last 15 months of his life. Many of you saw him, after receiving radiation and chemotherapy in the morning in Boston, walk into this Chamber that he loved to cast a deciding vote in the afternoon on the issue he proudly called the cause of his life.

While being treated at Massachusetts General Hospital, Senator Kennedy met a woman named Karen List. Her daughter Emily was one of many patients receiving a similar regimen of exhausting cancer treatments. They came from different walks of life, and cancer had touched them all.

In September 2008, after Emily's long summer of treatments, Karen wrote about Senator Kennedy and other patients he had met during his treatment. She wrote:

Now, it is almost fall, and little Caroline is starting kindergarten. Senator Kennedy, who came from a hospital bed to speak at the convention, is planning his return to the Senate in January. Alex, an Apache helicopter pilot, is back at Fort Campbell and expects to be deployed to Afghanistan in the New Year. And Emily hopes to be well

enough by spring to return to her life in London. The dream, as Senator Kennedy promised, does live on.

Mr. President, I ask unanimous consent that the article by Karen List in the Daily Hampshire Gazette be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Daily Hampshire Gazette, Sept. 8, 2008]

A CHAMPION OF HEALTH COMFORTS HIS
FELLOW PATIENTS

(By Karen List)

As Sen. Ted Kennedy's distinctive voice passed the torch at the Democratic National Convention and promised us that the dream lives on, all I could think of was that same distinctive voice several weeks ago calling out: "Where's Emily?"

Ted was at the other end of the hall in the Proton Therapy Center, Dept. of Radiation Oncology, at Massachusetts General Hospital, where both the senator and my daughter Emily were being treated for cancer.

The proton beam is cutting-edge treatment for certain types of tumors, and the MGH center is one of only five in the country and a handful in the world.

We were lucky to be there, though it was getting increasingly hard to feel lucky as seven weeks of daily treatment took their toll on Emily and the other patients at the center.

They ranged in age from toddlers to the elderly. Little Caroline was 5. Senator Kennedy was 77. In between them were Emily, 23, and Alex, 26, two of just a few young adults in proton beam treatment.

Radiation burn was the worst side effect for many patients, and it was now preventing Emily from eating or talking. She was at a low point, and she needed a lift.

We had seen Teddy come and go for several days, slipping in through a side entrance and out the same way, always accompanied by his wife, Vicki. When our eyes happened to meet, we exchanged a thumb's up and were treated to that Kennedy smile—as distinctive as the voice.

The day before Ted's treatment was to end, Emily's nurse stopped by the room where she was being treated and pulled the curtain aside. Several minutes later we heard him call from the other end of the hallway: "Where's Emily?" And then he was there, talking to her, encouraging her—and just as quickly, he was gone.

Emily was so excited that she was hopping up and down in the bed from a reclining position, if such a thing is possible. But because she couldn't talk, she hadn't been able to say a word to one of the few politicians she really admires.

The next day, our nurse delivered the card we'd written to the senator, explaining how thrilled Emily had been to meet him and how distressed she was that she couldn't tell him so herself. On the card was a photo of Emily at her favorite English pub, smiling her own distinctive smile. She had been home for a short break from her work interning in the London Theater when she'd been diagnosed with cancer. Now she was battling to get her work and her life back.

Teddy had just finished his treatment. This time, as he came down the hall for the last time, Emily was ready. On the slate that she'd been using to communicate, she'd written in purple marker: "We love you, Ted." The senator laughed, walked to her bedside

and whispered to her for a few minutes in solidarity, while Vicki talked to Emily's dad and me. We exchanged heartfelt good wishes for each other as they left the center to return home.

Emily had another week of treatment left. During that time, her nurse told us how concerned Sen. Kennedy had been about the other patients, especially the children and young people—and their parents. He had been through this same experience with his own son decades earlier when only one type of chemotherapy was available, unlike the cocktail of diverse chemo drugs that patients like Emily receive today.

This lifelong champion of health care for all Americans, especially children, had experienced once again—this time as the patient himself—what first-rate cancer care could mean. And he intends to continue fighting for its accessibility to everyone as the senior Democrat on the Health, Education, Labor, and Pensions Committee.

On Emily's last day at the center, there was a special gift waiting for her. Ted had left her a copy of his book, "My Senator and Me: A Dog's-Eye View of Washington, D.C.," written by him and his dog Splash. It was inscribed: "To Emily—Splash and I hope you enjoy."

And she did. Ted had provided just the encouragement she needed. He'd also left a stack of books for other young patients and the book on tape for those whose vision had been compromised by their treatments.

Now it's almost fall, and little Caroline is starting kindergarten. Senator Kennedy, who came from a hospital bed to speak at the convention, is planning his return to the Senate in January. Alex, an Apache helicopter pilot, is back at Ft. Campbell and expects to be deployed to Afghanistan in the New Year. And Emily hopes to be well enough by spring to return to her life in London.

The dream, as Senator Kennedy promised, does live on.

Mr. KIRK. Karen's was a statement of hope—hope and promise for each of these patients in the face of daunting odds. Their age did not matter; their economic status did not matter; each received the highest quality of health care available. And so it should be for all our people.

Senator Kennedy understood that we are all connected to one another. He often referred to President Lincoln's words about our common humanity and the good that can come to us all when touched "by the better angels of our nature." And he knew that on no issue are our futures more connected than on health care.

Ted Kennedy's voice still echoes in this Chamber. His spirit of hope and strength, of determination and perseverance is still felt here. He said:

For all my years in public life, I have believed that America must sail toward the shores of liberty and justice for all. There is no end to that journey, only the next great voyage. We know the future will outlast all of us, but I believe that all of us will live on in the future we make.

Let each of us in this Senate be moved by the better angels of our nature and make that future a better one for our generation and for generations to come. As Ted Kennedy said 40 years

ago: "All we need is the will." This is our time, Mr. President. Let us pass this legislation now.

Mr. President, I ask unanimous consent that the speech delivered by Senator Edward M. Kennedy on December 16, 1969, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

ADDRESS BY SENATOR EDWARD M. KENNEDY,
LOWELL LECTURE SERIES, BOSTON UNIVERSITY
MEDICAL CENTER—LOWELL INSTITUTE,
DECEMBER 16, 1969

I am delighted to be in Boston today under the auspices of the Boston University Medical Center and the Lowell Institute to address this distinguished audience of medical educators, private physicians, and lay men concerned with the quality of health care in America.

I am particularly pleased to be here because it gives me the opportunity to commend the many worthy accomplishments of the Boston University Medical Center and its School of Medicine. You have succeeded in breaking down walls that for decades have turned medicine inward toward the age-old trinity of patient care, research and teaching. You have expanded your horizon to embrace the equally important area beyond your walls—the community in which we live.

For more than 90 years, your Home Medical Service has taken students into the community and provided model health care and innovative medical services in the home. Your expanding programs of new hospital affiliation have brought modern urban medicine to outlying communities. You have helped to lead the way in efforts throughout the world to unify cancer care with cancer research, so that today's advances in the laboratory become tomorrow's accepted treatment. Your School of Graduate Dentistry, dedicated in September, will provide high quality dental care as part of the Medical Center's total health program for the community.

In the course of the past decade, your pioneering program in community psychiatry and mental health in the South End and Roxbury—launched long before the Great Society and the Office of Economic Opportunity came into being and made such programs fashionable—have become a model for the nation. You helped develop what is now the rallying cry for health planning in America—that new health programs must be designed with the people and by the people, not just for the people. As Dr. Handler has so eloquently stated, your far-reaching role in community involvement is like a man standing by a river watching people drown:

"Medicine traditionally wades in," he said, "and tries to save them one at a time. After doing this repeatedly, you can't help but ask what is happening upstream. It seemed sensible to go back and find out why all the people were falling in, and try to do something about it."

I commend you for your leadership in looking upstream, and for the remarkable efforts you are making in preventive community medicine and all the other major areas of this great center's activity.

Six weeks ago in Springfield, I had the occasion to discuss what I regard as the single overriding economic issue of the day—the war against inflation. As I have frequently stated, the war against inflation is a war that can and must be won without the cost of heavy unemployment. It is a war that can and must be won without cutting back on our important domestic priorities.

Nowhere is the impact of inflation more obvious than in the rising cost of medical care. Never has the gift of good health been more precious:

In the last three years, the cost of health has risen by 22 per cent, or nearly double the rise in general consumer prices.

Hospital daily service charges have soared by the astronomical rate of 55 per cent, or nearly five times the rise in consumer prices. The average cost of a hospital day is now \$68. It will rise to \$74 next year, and to \$98 by 1973.

Physicians' fees have risen by 21 per cent. Doctors line up at lawyers' offices to form corporations and raid the Federal Treasury for hundreds of thousands of dollars a year in deferred taxes.

All of this inflation has occurred during the early years of Medicare and the troubled Medicaid program. The most rewarding experience of Medicare has been its success in solving the serious problem of health costs for our poor and our aged citizens. In spite of inflation, Medicare has been immensely popular. It is liked and accepted by the people.

The most painful experience of Medicare and Medicaid has been their unfulfilled promise. We sought to spread the benefits of medical science and technology to millions of Americans, without considering the anachronistic and obsolete structure of the system by which the health services would be delivered. Unwisely, as many experts have recognized, we assumed that all that stood between our poor and aged citizens and high quality medical care was a money ticket into the mainstream of modern American medicine.

We know now that we were wrong. The money ticket was important, but it was not enough to solve the problem. In the years since Medicare and Medicaid were enacted, we have learned that medical insurance and payment programs could not be translated instantaneously into more doctors, more nurses, more health facilities, or better organization of the delivery system.

In wedding new purchasing power to the already existing demand for health services, we did nothing to solve an already intolerable situation. The cost of health care began to soar. In some cases, the quality of care declined, and an enormous strain was placed on the capacity of our existing health services and facilities. When an already overworked physician goes from seeing one hundred patients a day to seeing two hundred patients a day, the quality of his care is inevitably affected. His only escape is to consign more of his patients to hospital treatment, thereby increasing the strain on hospital facilities and hospital costs.

Today in the United States, health care is big business. Indeed, it is the fastest growing failing business in the nation—a \$60 billion industry that fails to meet the urgent demands of our people. Today, more than ever before, we are spending more on health care and enjoying it less. By 1975, we may be spending \$100 billion a year on health and be worse off than we are now in terms of the quality and responsiveness of our health care system.

Perhaps the most serious fault in the present situation is the failure of the Federal Government to play a greater role in improving the quality of the nation's health care. Health is big business in America, and the Federal Government has become a major partner in this business. The total outlays for medical and health-related activities in the Federal budget estimated for 1970 are \$18 billion, or nearly one-third of the total

health expenditures in the nation. The outlays for 1970 are divided among 14 principal departments and agencies. By far the largest amount—\$13 billion—is expended by the Department of Health, Education and Welfare, but significant amounts are also expended by the Department of Defense—\$2 billion—and the Veterans Administration—\$1.7 billion.

In 1960, the total outlays for health in the Federal budget were only \$3 billion. Thus, in the decade of the Sixties alone, we have had a six-fold increase in total Federal outlays for health. Indeed, almost 10 per cent of the total Federal budget now goes for health. The major share of the rise in recent years has been for Medicare and Medicaid. Yet, in spite of the dramatic increases in the health budget and the large amounts we are now spending, there is almost no one who believes that either the Federal Government or the private citizen is getting full value for his health dollar.

Of course, a significant proportion of the increase in health expenditures is being consumed by rising costs and our growing population. Between 1950 and 1969, personal health care expenditures increased by \$42 billion. Of this increase, 50 per cent was attributable to rising costs, and another 19 per cent was attributable to population growth, so that only 31 per cent of the increase represents real growth in health supplies and services over the past two decades.

Although the conventional wisdom is content to blame our current medical inflation on Medicare and Medicaid and the excess demand created by these programs for health care, there is another, more controversial aspect to the rising prices. At Professor Rashi Fein and other experts in the field of the economics of medicine have made clear, the basic models used by economists are not appropriate when applied to health. The medical market, is characterized by the absence of competition, diverse products, and consumer ignorance. Comparisons of quality and performance are extremely difficult, if not impossible.

In other words, the medical marketplace is an area where the laws of supply and demand do not operate cleanly, and where physicians have a relatively large amount of discretion in setting their fees. Thus, at the time Medicaid and Medicare were instituted, fees rose for a variety of reasons, many of which were unrelated to the creation of excess demand:

Some physicians raised their fees in anticipation of a Federal fee freeze.

Some raised their fees in the face of rising hospital costs, in order simply to preserve their slice of the growing health pie.

Some raised their fees simply because they had the discretion to do so, and decided to take advantage of the instability and price consciousness generated by the new Federal programs.

As in the case of physicians' fees, the economic model of supply and demand does not tell the whole story of rising hospital costs. In part, hospitals took the opportunity to provide substantial—and wholly justified—wage and salary increases to their notoriously underpaid employees. In part, costs rose because the new Federal financing methods contained few incentives for improving efficiency, but simply encouraged hospitals to pass the higher costs on to Washington.

The high cost of medical care is but one aspect of the overall health crisis. In America today, it is clear that we are facing a critical shortage of health manpower. Indeed, at bottom, our crisis in medicine is essentially a crisis in manpower. The need is urgent for

more physicians, more dentists, more nurses, and more allied health professional and technical workers. We must develop new types of health professionals and para-professionals. We must make far more efficient utilization of our existing health manpower. Only if we succeed in these efforts will we be able to free our physicians and highly trained medical experts to perform the sort of intricate operations and sensitive counselling discussed by Dean Redlich in the inaugural lecture in this series.

The need is especially clear in the case of the shortage of doctors. Our low physician-population ratio means that unsatisfactory medical care is a way of life for large numbers of our people in many parts of our nation. In 1967, in the United States as a whole, there were 260,000 private physicians providing patient care for our 200 million people. This is a ratio of 130 physicians for every 100,000 citizens, or one doctor for every 700 people.

At first glance, the ratio appears to be fairly close to the satisfactory ratio generally recommended by many health experts, but the figures are misleading. The family doctor—the general practitioner—is fast disappearing, and is on the verge of becoming an extinct species. At the present time only one out of four of the nation's physicians is engaged in the general practice of medicine. Three out of four are specialists, most of whom accept patients only on a referral basis. The true doctor-population ratio, therefore, is more like one general practitioner per three thousand population, a ratio that is clearly unacceptable for adequate health care for our people. For far too many of our citizens, the only "doctor" they know is the cold and impersonal emergency ward of the municipal hospital.

To make matters worse, the geographic distribution of our doctors is highly uneven. Two-thirds of our physicians serve the more affluent half of our population. In some states, of course, the physician-population ratio is higher than the national average of 130 doctors per 100,000 population. In Washington, D.C., the ratio is 318; in New York it is 199; in Massachusetts, 181.

In sixteen states, however, the physician-population ratio is far below the national average. In Alaska and Mississippi, the ratio is an abysmal 69, or about one-half the national average. In Alabama, it is 75. Even in Texas, it is only 106. Clearly, therefore, extremely large groups of our population are receiving seriously inadequate medical care because of the shortage of physicians.

One of our most urgent needs to meet this crisis is a stronger Federal program to expand existing medical schools and establish new schools. We must substantially increase the output of doctors from our medical schools. At the present time, about 8,000 students are graduated from our medical schools each year. The Association of American Medical Colleges estimates that the number of students entering medical schools will increase by 25 per cent to 50 per cent by 1975, as a result of the construction of new medical schools already begun, and the expansion of existing schools already planned. Yet, if the physician-patient ratio is to be improved substantially, our goal should be to admit double the number of current students by 1975, with special emphasis on medical schools in regions where the physicians-population ratio is too low.

There is another reason why we must increase the enrollment in our medical schools, aside from the need to provide better health care for our people. Today in

America, the medical profession is that one profession that flies in the face of the American credo that every man shall have the opportunity to join the profession of his choice. Today in America, if a poor black or white young American aspires to be a lawyer, he will have the opportunity to enroll in a law school somewhere in the nation that will give him the chance to fulfill his dream. It is the shame of American medicine that no such opportunity exists for the youngster who aspires to enter what is perhaps the most exalted and selfless of all our professions, the healing arts.

Ironically, at the very time we are denying this opportunity to our own citizens, we are importing thousands of foreign-trained doctors each year to meet our manpower crisis. Twenty per cent of the newly licensed physicians each year in the United States are foreign-trained. Forty thousand foreign medical graduates are now practicing medicine in the United States, or about 15 per cent of the total number of doctors providing patient care. Thirty per cent of all our interns and residents are foreign-trained.

These figures are appalling. I believe that at this crucial period in world history, it is deeply immoral for us to be luring physicians from the rest of the world to meet our own doctor shortage, when their services are even more critically needed in their own lands.

The landscape we see is bleak, but it is not without hope. If we are to be equal to the challenge, however, we must be prepared to take major new steps. As Hippocrates himself put it two thousand years ago, where the illness is extreme, extreme treatments may be necessary. I would like, therefore, to share with you my views as to the directions we should begin to take now, if we are to meet the challenge.

First, and perhaps most important, we need a new approach to the politics of health. Our single greatest deficiency in the area of health is our failure to develop a national constituency, committed to a progressive and enlightened health policy. As a prestigious Committee of the National Academy of Sciences has recently and eloquently stated with respect to the problem of the confrontation between technology and society, the issue is far more serious than the simple question of braking the momentum of the status quo. Today, all too often, whether the area be that of medicine, or education, or pollution, the vested interests are strongly ranged against innovation, and there is no champion capable of marshaling the diffuse advocates for progress and reform. When a better teaching organization threatens the bureaucratic status quo in education, we know there will be organized opposition from school officials, but there is seldom organized advocacy by parents and children. When a new and more efficient development is offered that threatens the status quo in health—whether in the organization, financing, or delivery of health care—we know there will be opposition from organized medicine, but there is seldom organized advocacy by health consumers.

In these situations, a thorough consideration of the relative merits of alternative proposals is rendered difficult, if not impossible, by the presence of powerful spokesmen for the old, and the absence of effective spokesmen for the new. If we are to succeed in making basic changes in our health care system, we can do so only by creating the sort of progressive national health constituency that can make itself heard in the halls of Congress and the councils of organized medicine.

To be sure, there is cause for hope. The present generation of medical students is outstanding. They are already beginning to develop the commitments to public causes, the enlightenment and social conscience so desperately needed in the health profession. And, in spite of the heavy responsibility that organized medicine must bear for the inadequacy of our health manpower and other resources, a few leaders have recently made progressive statements suggesting a new recognition and awareness of the problem.

Second, the Federal Government must play a far more active and coherent role in the formulation and implementation of health policy. We must develop a comprehensive and carefully coordinated national health policy, with an administrative structure capable of setting health goals and priorities for the nation. In the spring of 1968, I introduced legislation urging the creation of a National Health Council to be established in the Executive Office of the President with responsibility for setting health policies and making recommendations for the attainment of health goals, including the evaluation, coordination, and consolidation of all Federal health programs and activities. The National Health Council would be modeled along the lines of the Council of Economic Advisors, which has consistently played a superlative role in planning and coordinating the nation's economic policy.

Third, we must move away from our excessive emphasis on high-cost acute-care hospital facilities. We must make more imaginative use of innovative types of low-cost facilities, such as neighborhood health centers and other out-patient facilities, storefront clinics, and group health facilities. In spite of the active opposition of a substantial segment of the medical profession, group practice and hospital-based practice are probably the most efficient and economical means of delivering health care today. In many areas, the ideal arrangement consists of a teaching hospital in a medical center, with affiliations to community hospitals in the surrounding area. In turn, each of the community hospitals serves as the center of a series of satellite group practice clinics that can reach out directly into the entire community.

Fourth, while we are building the nation's overall health policy, we must give special attention to the health of our urban and rural poor. For too many of the poor, the family physician has disappeared, to be replaced by the endless lines and impersonal waiting rooms of huge municipal and county hospitals. Yet, there are few physicians today who were not trained on the wards and charity patients in our teaching hospitals. Too often, as Professor Alonzo Yerby has eloquently stated, our poor have had to barter their bodies and their dignity in return for medical treatment.

In America today, millions of our citizens are sick, and they are sick only because they are poor. We know that illness is twice as frequent among the poor. We know that the poor suffer three times as much heart disease, seven times as many eye defects, five times as much mental retardation and nervous disorders. Although our goal must be one health care system open to all our citizens, we have an obligation now to increase the range and efficiency of the health services and facilities available to the poor, with special emphasis on breaking down the barriers that have for so long divided our society into a two-class system of care—one for the rich and one for the poor, separate and unequal.

Specifically, I urge the Administration to create a National Health Corps, as an alternative to the draft for doctors, and stronger

than the "Project U.S.A." program recently recommended by the AMA. Today, doctors are exempt from the draft if they serve two years in the National Institutes of Health or other branches of the Public Health Service. The same exemption should exist for doctors volunteering for medical service in urban or rural poverty areas. Only in this way will we be able to meet the critical need for health manpower in depressed areas. And, once young physicians are exposed to the problems of health care for the poor, a significant proportion of them will be encouraged to remain and dedicate their careers to this service.

In addition, we should make a substantial new effort to expand the neighborhood health center program. At the present time, less than a dozen medical societies in the nation have become actively involved in neighborhood health centers. Yet, in recent weeks, prominent leaders of the AMA itself have called for a greater role for neighborhood health centers as a means of extending health care to the poor. A few imaginative pilot projects reaching in this direction have recently been funded by the Office of Economic Opportunity, including a program to reorganize the out-patient department at Boston City Hospital as a nucleus for community health care, but our overall effort has been inadequate. Tragically, at a time when even organized medicine is moving forward, we have been unwilling to allocate the resources so urgently needed for this program.

Fifth, within the critical area of health manpower, we must give special attention to training new types of health professionals. In far too many cases, highly trained physicians spend the overwhelming majority of their working day in tasks that do not require their specialized medical skills. One of the most promising methods of easing the shortage of doctors is to train new types of health workers to perform these non-specialized tasks, thereby freeing our physicians for other, more urgent needs. We must develop a broad new range of allied health professionals, such as paramedical aides, pediatric assistants, community service health officers, and family health workers.

At a number of our universities, imaginative new programs are under way to train medical corpsmen from Vietnam as physicians' assistants. In the State of Washington, hospital corpsmen are trained for three months in the medical school, and then sent into the field for nine months' further training in the offices of private physicians. A similar program now exists at Duke University. These programs are unique in their emphasis on combined training in the classroom and in the field. They are programs that must be greatly expanded if we are to meet the urgent demand for more and better trained health manpower.

Sixth, we must restore the severe budget cuts that have been proposed in Federal health programs by the present Administration. Later this week, the full Senate will vote on Federal health appropriations for the current fiscal year, 1970. None of us in Congress can be proud that almost half way through the present fiscal year, we are only now about to vote the funds that may be used. Our error is compounded by the knowledge that at this time of medical crisis, Federal assistance to health programs may be drastically curtailed, especially in the areas of research and manpower training.

Today, when every medical school and every other health school is being urged to expand its manpower programs, the Adminis-

tration is requesting far less funds than Congress authorized as recently as 1968 for these vital programs.

The impact of the proposed cuts will be felt in medical schools, hospitals, research centers, and communities throughout the nation. It will be measured in terms of cancer research cut short, lives lost because coronary care units are unfunded, special hardship for the poor, and the loss of dedicated young students from careers in medicine and medical research.

Seventh, I come to what I believe is the most significant health principle that we as a nation must pursue in the decade of the Seventies. We must begin to move now to establish a comprehensive national health insurance program, capable of bringing the same amount and high quality of health care to every man, woman, and child in the United States.

National health insurance is an idea whose time has been long in coming. More than a millennium ago, Aristotle defined the importance of health in a democratic society, when he said:

"If we believe that men have any personal rights at all as human beings, then they have an absolute moral right to such a measure of good health as society and society alone is able to give them."

Today, the United States is the only major industrial nation in the world that does not have a national health service or a program of national health insurance. The first comprehensive compulsory national health insurance was enacted in Prussia in 1854. Throughout the Twentieth century, proposals have been periodically raised for an American program, but never, until recently, with great chance of success.

National health insurance was a major proposal of Theodore Roosevelt during his campaign for the Presidency in 1912. Shortly before the First World War, a similar proposal managed to gain the support of the American Medical Association, whose orientation then was far different than it is today. During the debate on social security in the Thirties, the issue was again raised, but without success.

Today, the prospect is better. In large part it is better because of the popularity of Medicare and the fact that many other great national health programs have been successfully launched. The need for national health insurance has become more compelling, and its absence is more conspicuous. In part, the prospect is good because the popular demand for change in our existing health system is consolidating urgent and widespread new support for a national health insurance program as a way out of the present crisis.

For more than a year, I have been privileged to serve as a member of the Committee for National Health Insurance, founded by Walter Reuther, whose goal has been to mobilize broad public support for a national health insurance program in the United States. Two months ago in New York City, the Reuther Committee sponsored a major conference, attended by officers and representatives of more than 65 national organizations, to consider a tentative blueprint for a national health insurance program. At the time of the conference, I commended Mr. Reuther for the extraordinary progress his Committee has made. I look forward to the future development of the program. Already, it offers one of the most attractive legislative proposals that is likely to be presented for our consideration next year in Congress.

We must recognize, therefore, that a great deal of solid groundwork has already been

laid toward establishing a national health insurance program. It is for this reason that I believe it is time to transfer the debate from the halls of the universities and the offices of professors to the public arena—to the hearing rooms of Congress and to the offices of your elected representatives.

Early next year, at the beginning of the second session of the 91st Congress, I intend to introduce legislation proposing the sort of comprehensive national health insurance legislation that I believe is most appropriate at the current stage of our thinking. The mandate of the Medicaid Task Force in the Department of Health, Education and Welfare has been expanded to investigate this area, and I urge the Administration to prepare and submit its own proposals.

Senator Ralph Yarborough of Texas has told me that, as Chairman of the Senate Subcommittee on Health, he will schedule comprehensive hearings next year on national health insurance. Our immediate goal should be the enactment of legislation laying the cornerstone for a comprehensive health insurance program before the adjournment of the 91st Congress. This is an issue we can and must take to the people. We can achieve our goal only through the mobilization of millions of decent Americans, concerned with the high cost and inadequate organization and delivery of health care in the nation.

Last week on the floor of the Senate, we witnessed the culmination of what has been one of the most powerful nationwide legislative reform movements since I joined the Senate—the taxpayers' revolution. It now appears likely that by the end of this month, there will be laid on the President's desk the best and most comprehensive tax reform bill in the history of the Federal income tax, a bill that goes far toward producing a more equitable tax system.

We need the same sort of national effort for health—we need a national health revolution, a revolution by the consumers of health care that will stimulate action by Congress and produce a more equitable health system.

Because of the substantial groundwork already laid, I believe that we can agree on three principles we should pursue in preparing an effective program for national health insurance:

First, and most important, our guiding principle should be that the amount and quality of medical care an individual receives is not a function of his income. There should be no difference between health care for the suburbs and health care for the ghetto, between health care for the rich and health care for the poor.

Second, the program should be as broad and as comprehensive as possible, with the maximum free choice available to each health consumer in selecting the care he receives.

Third, the costs of the program should be borne on a progressive basis related to the income level of those who participate in the program.

I believe there is no need now to lock ourselves into a specific method of financing the insurance program. There are distinct advantages and disadvantages to each of the obvious alternative financing methods that have been proposed—financing out of general revenues of the Treasury, out of tax credits, out of the Social Security Trust Fund, or out of another independent trust fund that could be created specifically for the purpose.

At the present time, I lean toward a method of financing that would be based on general Treasury revenues, with sufficient guarantees to avoid the vagaries of the appropriations process that have plagued the Congress so much in recent years.

I recognize the obvious merit of the tax credit and social security approaches. In particular, Social Security financing offers the important advantage that it is a mechanism that Americans know and trust. In the thirty-five years of its existence, Social Security has grown into a program that has the abiding respect and affection of hundreds of millions of Americans. In 1966, it demonstrated its capacity to broaden its horizon by its successful implementation of the Medicare program. To many, therefore, Social Security is the obvious vehicle to embrace a program for national health insurance, and soothe the doubts and suspicions that will inevitably besiege the program when it is launched.

At the same time, however, we must recognize the obvious disadvantages of Social Security financing. Under the Social Security system, the payroll tax is heavily regressive. The poor pay far too high a proportion of their income to Social Security than our middle or upper income citizens. Today, at a time when Congress is about to grant major new tax relief to all income groups, I believe it would be especially inappropriate to finance a national health insurance program through the conventional but regressive procedures of Social Security, rather than through the progressive procedures of the Federal income tax laws.

I wish to make clear, however, that I am not now rejecting an approach that would finance national health insurance by a modified approach through the Social Security System. By the use of payroll tax exemptions and appropriate contributions from the Federal Government, it may be possible to construct a program that will build in the sort of progression that all Americans can accept. The important point here is that we must discuss these possibilities in a national forum, and weigh the alternatives in the critical light of open hearings and national debate.

We must be candid about the costs of national health insurance. In light of our present budgetary restrictions, the price tags applied to the various health insurance programs are too high. They range from about \$10 billion for "Medicredit," the AMA proposal, to about \$40 billion for the Reuther proposal. It is therefore unrealistic to suppose that a total comprehensive program can be implemented all at once.

We can all agree, however, that it is time to begin. In light of the fiscal reality, the most satisfactory approach is to set a goal for full implementation of the program at the earliest opportunity. I believe that the goal should be 1975. The legislation we enact should reflect our firm commitment to this target date. Halfway through the decade of the Seventies, we should have a comprehensive national health insurance, program in full operation for all Americans.

I have already stated my view that legislation establishing the program should be enacted next year. In January, 1971, we should begin to phase-in a program that will reach out to all Americans by the end of 1975. To meet that timetable, we should establish coverage in the first year—1971—for all infants, pre-school children, and adolescents in elementary and secondary schools. In each of the following four years, we should expand the coverage by approximately ten-year age

groups, so that by the end of 1975, all persons up to age 85 will be covered by the program, and the existing Medicare program can be phased in completely with the new comprehensive insurance.

The idea of phasing in children first should receive wide support, both from the population as a whole and from the medical profession as well. As a nation today, the United States is the wealthiest and most highly developed medical society in the world, but we rank 14th among the major industrial nations in the rate of infant mortality, and 12th in the percentage of mothers who die in childbirth. In spite of our wealth and technology, we have tolerated disease and ill-health in generations of our children. We have failed to eliminate the excessive toll of their sickness, retardation, disability and death.

Equally important, we are already close to the level of manpower needed to implement a national health insurance program for our youth. American medicine is equal to the challenge. We have a solid tradition of excellence in pediatric training, with a strong and growing supply of experienced pediatricians, pediatric nurses, and allied manpower.

Moreover, by beginning our new program with youth and child care, it will be easier for the medical profession to implement the changes in the delivery system that must accompany any effective national health insurance program. And, the changes that we make in the delivery system for pediatric care will give us valuable experience and insights into the comparable but far more difficult changes that will be necessary in the delivery of care to adults as the insurance program is phased in over subsequent years.

Finally, by phasing in the insurance program over a period of years, I believe we can avoid a serious objection that will otherwise be raised—that national health insurance will simply exacerbate our current inflation in medical costs by producing even greater demand for medical care without providing essential changes in the organization and delivery system.

We know from recent experience that changes in the organization and delivery of health care in the United States will come only by an excruciating national effort. Throughout our society today, there is perhaps no institution more resistant to change than the organized medical profession. Indeed, because the crisis is so serious in the organization and delivery of health care, there are many who argue that we must make improvements here first, before we can safely embark on national health insurance.

I believe the opposite is true. The fact that the time has come for national health insurance makes it all the more urgent to pour new resources into remaking our present system. The organization and delivery of health care is so obviously inadequate to meet our current health crisis that only the catalyst of national health insurance will be able to produce the sort of basic revolution that is needed if we are to escape the twin evils of a national health disaster or the Federalization of health care in the Seventies. To those who say that national health insurance won't work unless we first have an enormous increase in health manpower and health facilities and a revolution in the delivery of health care, I reply that until we begin moving toward national health insurance, neither Congress nor the medical profession will ever take the basic steps that are essential to reorganize the system. Without national health insurance to galvanize us into action, I fear that we will simply con-

tinue to patch the present system beyond any reasonable hope of survival.

The need for comprehensive national health insurance and concomitant changes in the organization and delivery of health care in the United States is the single most important issue of health policy today. If we are to reach our goal of bringing adequate health care to all our citizens, we must have full and generous cooperation between Congress, the Administration, and the health profession. We already possess the knowledge and the technology to achieve our goal. All we need is the will. The challenge is enormous, but I am confident that we are equal to the task.

Mr. KIRK. Mr. President, I yield the floor.

Mr. President, I suggest the absence of a quorum and ask unanimous consent that the time in the quorum call be divided equally between the majority and minority.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. JOHNSON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. JOHNSON. Mr. President, I rise to express my support for the Patient Protection and Affordable Care Act and to encourage my colleagues to support this effort to address our health care system's immediate and long-term challenges in a fiscally responsible manner.

For decades, attempts have been made to reform the way our health care system works, but only incremental changes have been made. The result is a broken system where costs are rising out of control and millions of Americans are priced out of the health insurance market.

In the last 8 years, health care premiums have grown four times faster than wages. If health care costs continue to rise at the current rates, without reform, it is projected that the average South Dakota family will be paying nearly \$17,000 in yearly premiums by 2016. That is a 74-percent increase over the current premium costs that so many already struggle to afford.

Throughout the ongoing health reform discussion, I have heard from far too many South Dakotans who currently face barriers in accessing quality health care. This can be due to exorbitant out-of-pocket costs, having no insurance coverage, being denied coverage by insurance companies, or limited or no health care providers in their area. The Patient Protection and Affordable Care Act addresses these barriers in part by extending access to affordable and meaningful health insurance to all Americans.

This legislation stands up on behalf of the American people and puts an end to insurance industry abuses that have

denied coverage to hard-working Americans when they need it most. Insurance companies will no longer be able to deny coverage for preexisting conditions and will not be able to drop coverage just because a patient gets sick. Reform will ensure that families always have guaranteed choices of quality, affordable health insurance whether they lose their job, switch jobs, move, or get sick.

The bill allows Americans to shop for the best health care plan to meet their needs and provides tax credits to help those who need assistance. It strengthens our health care workforce, improves the quality of care, and reduces waste, fraud, and abuse in the health care system.

Every American is adversely affected in some fashion by the shortcomings of our existing system, and far too many have a false sense of security. The system costs us lives, and it costs us money. If we fail to act, health care costs will consume a greater and greater share of our Nation's economy and have tremendous potential to cripple our Nation's future.

The Patient Protection and Affordable Care Act puts our Nation on a more sustainable financial path. The nonpartisan Congressional Budget Office projects that this health reform bill will reduce the Federal deficit by \$130 billion in the next 10 years and as much as \$650 billion in the decade after that. CBO also projects that this bill will result in health care coverage for more than 94 percent of legal residents in our Nation. Our citizens deserve this basic security, while improving current Medicare benefits.

This bill is the product of months of research, committee deliberation, and bipartisan negotiation. I have listened to some of my colleagues' claims that they support health reform yet object to this approach. These protests echo those made nearly 50 years ago when a new program called Medicare was proposed to provide meaningful health benefits to seniors. The increasing cost of health care is unsustainable and the do-nothing approach hurts all Americans by robbing us of this historic opportunity to stop talking about the problems and finally find a solution.

This bill is not perfect, but a "yes" vote will allow the conference committee a chance to improve it. The United States is the only Nation among industrialized democracies to not have some form of national health care. Yet the Senate Republican Party is attempting to deny us the right to vote this historic legislation up or down. They want to kill it even before it has the chance to go to conference.

I urge my colleagues to support the Patient Protection and Affordable Care Act.

Mr. President, I ask unanimous consent that the time be charged equally.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The Senator from Ohio is recognized.

Mr. VOINOVICH. Thank you, Mr. President. I have been coming to the floor to remind my colleagues and the American people about the fiscal realities our Nation faces and to explain how this health reform legislation would make our fiscal situation worse and our economy suffer even more. I have been here before to highlight how this health care bill is chock-full of budget gimmicks to hide its true unmanageable costs.

As I have said before on the floor of the Senate, as a former mayor and a former Governor, many people have come to me over the years and said: Mayor, you have to do this; Governor, you have to do this. The plea they had was genuine, and the need they expressed was genuine, but the fact is we couldn't afford what they were asking us to do, and I had to say no. Unfortunately, this legislation, in my opinion, will increase the cost of health care, drive up our national debt, and contribute to unbalanced budgets as far as the eye can see in the United States.

As a former Governor and chairman of the National Governors Association, the past chairman of the National League of Cities, one gimmick I am particularly concerned about is the one that puts 14 million additional individuals into the Medicaid Program and then asks the States to pick up a portion of the tab. I am very familiar with what unfunded mandates can do to State and local governments, and I wish to highlight some of the potential consequences of the Medicaid expansion for my colleagues.

At a \$374 billion cost to Federal taxpayers, the health care bill before us would expand Medicaid coverage to all people under 133 percent of the Federal poverty level. Because Medicaid costs are shared by the Federal and State governments, the States will be on the hook for \$25 billion of this expansion during the first 10 years.

To put the \$25 billion into perspective, let me spend a minute explaining the current fiscal situation of most States in this country. Most States such as my State—and I am sure the same is true in the Presiding Officer's State—are struggling to make ends meet. I have never seen anything like it in my entire life.

According to the National Governors Association, the States are in the deepest and longest economic downturn since the Great Depression. In the first two quarters of 2009, State revenues were down 11.7 and 16.6 percent, respectively. At the same time, Medicaid spending is growing, which already makes up, on average, approximately 22 percent of States' budgets, and enrollment in the program is skyrocketing at the levels it is today because more and more people are becoming eligible for Medicaid under the current Federal law.

In Ohio, for example, where the unemployment rate is hovering around 10.5 percent, 154,000 Ohioans enrolled in the Medicaid Program in the last year alone, an 8-percent increase over last year. This is hard to believe, but Medicaid now provides health coverage to nearly 2 million Ohioans, almost one out of five residents. Unbelievable.

Recognizing this increased demand, States have had some help from the Federal Government. Earlier this year, Congress provided \$87 billion in Federal aid to States in the so-called stimulus bill to help States deal with Medicaid costs. Yet this money was not intended to last forever. As it stands right now, in December 2010, States will face—that is next December—States will face a steep budget cliff when the temporary Medicaid payments coming from the stimulus package expire. In facing these realities, Governors across the country are already wondering how they will cover the cost of their existing programs.

I recently met with Ray Scheppach, who is the executive director of the National Governors Association. He said: Senator, Governor, Mayor, we are going to need some help when the money runs out or we will not be able to handle the Medicaid challenges we have.

Not surprisingly, my State's current Governor, Ted Strickland, a Democrat, has told me if Medicaid is expanded, he hopes the Federal Government will assume most, if not all, the costs. In fact, he told the Columbus Dispatch that he has warned officials in Washington that "with our financial challenges right now, we are not in a position to accept additional Medicaid responsibilities."

I suspect that almost every Governor in the country would make that same statement to us in the Senate. By the way, this is both Republican and Democratic Governors.

I ask: How can we in good conscience move forward with this bill and the new mandate it places on States? How can we force the States to make the difficult choices that we are unwilling or unable to make in Washington? Pass it on to them, we will pay for it a while, and then you guys pick up the cost.

I served the people of Ohio as Governor for 8 years, and I was forced to cut my budget in the beginning four times. I will never forget it. There were about 5,000 people outside my office screaming because we had made it more difficult or increased the cost of tuition for our colleges. I had to make countless difficult decisions across the board to be fiscally responsible. I understand the demands of soaring health care costs, and as I called that program then, it devoured—Medicaid devoured up to 30 percent of our State budget, and I referred to it as the Medicaid Pac-Man. I think some people remember Pac-Man. That was the Pac-Man

just eating up money like crazy. It took away money from primary and secondary education, higher education, roads, bridges, county and local government projects, and safety service programs that we wanted to provide for the citizens of Ohio. We had to do it. It was a mandate. It just sucked up that money, and that meant we didn't have money for higher education, secondary and primary education, and some of the other responsibilities of the State.

With this experience, I became particularly concerned with the cost of Federal mandates, and I worked tirelessly with State and local governments to help pass the Unfunded Mandates Reform Act. In fact, the first time I ever set foot on the floor of the Senate is the day the unfunded mandates bill passed the Senate. It was a wonderful day for Ohio and for this country. I was in the Rose Garden representing State and local governments when President Clinton signed the legislation into law in 1995.

After that experience, you can imagine how it pains me to be standing here today debating legislation that provides for the largest single expansion of the Medicaid Program in our country's history and a brandnew fiscal liability for States at a time when the States can least afford it. I have serious concerns if this bill becomes law and States are required to take on more just as the extra stimulus funds disappear—which they are going to have to do or we will have to come up with the money—Congress will be forced to spend billions more to keep the Medicaid safety net from failing completely in the not too distant future.

So what I am basically saying is that when the stimulus money ends in December of next year, the Governors are going to be down here with a bathtub asking us to fill it because if we don't do it, they are going to have to knock off thousands of people, millions in the country, because they don't have the money to provide for the program.

Now, providing extra dollars to States—and I predict it is going to happen. It will become an annual ritual for Congress, just as the doctors fix has become an annual ritual for doctors. Every year they come in. We are not going to cut the annual reimbursement. Next year it is 23 percent, I think. We are not going to fill the hole, and the Governors are going to be asking for the same kind of help. It is not only a mandate for them, it is going to become a mandate for us at a time when we are least able to handle anything like that.

So as a former Governor and a former mayor, a former county commissioner, I urge my colleagues to consider the impact this bill will have on their respective States. Think about it. Talk to your Governors. See what it is going to do to your States. I hope each of my colleagues will give careful thought to

the potentially devastating effects it could have on each of their State budgets and to consult, as I said, with their Governors and to talk about the fact that if this happens, what is going to happen in terms of the Pac-Man eating up more money in their State and their inability to take care of primary and secondary education, higher education, and all of the other responsibilities State governments have.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Hawaii is recognized.

Mr. INOUE. Mr. President, I rise today to address the Department of Defense appropriations bill for fiscal year 2010.

As my colleagues know, this afternoon the Senate received this measure from the House which represents a compromise between the bill passed by the House last July and what we passed this past October.

Since passage of the Senate measure, Vice Chairman COCHRAN and I and our staffs have spent countless hours in discussion with our colleagues in the House to thrash out the differences between our two bills. The product the Senate will consider represents the work of our discussions. While this is a House measure, I can assure my colleagues it is a very fair and balanced product.

The Defense appropriations portion of this measure totals \$636.3 billion in discretionary spending, including more than \$128 billion for the cost of our ongoing efforts in Iraq and Afghanistan.

In total, the Defense bill is \$3.8 billion below the request of the President and within the subcommittee's allocation.

This bill represents the hard work over the past year of all the members of the Defense subcommittee. It contains funds that we believe will best meet the needs of the men and women who volunteer to serve our Nation in the military. The bill provides funding to increase their pay by 3.4 percent. It provides more than \$30 billion to care for their health and the health of their families.

It provides support to families with loved ones serving in harm's way overseas and funding to ensure that their workplaces and quality of life back home are protected.

Of equal importance, the funding in this bill ensures that our forces in the field have the equipment and other tools required to meet their missions. Funding has been added to the President's request to provide for more MRAP vehicles to protect our forces from IEDs in Afghanistan.

Funds are provided for more medical evacuation and combat rescue helicopters to save our wounded troops. Funds have been added to sustain production of the C-17 Program so our forces in the field can be adequately resupplied, no matter where they are based.

This bill enhances research in life-saving technologies and increases funds to care for our wounded personnel. It fully funds the priorities of Secretary Gates and our military commanders.

While I know some will criticize the fact that funds have been included at the request of Members of Congress, I remind my colleagues that, in total, this amount is less than 1 percent of the funding in the bill.

Moreover, all the so-called earmarks in the defense portion of this bill were in either the House or Senate bills. There are no "airdropped" earmarks in the defense funding included in this measure.

In addition to the defense portion of the bill, the House has added a little more than 1 dozen provisions to provide a 2-month safety net to unemployed and nearly impoverished Americans and to extend critical provisions which are set to expire this month.

For individual Americans, provisions were included to extend, through February 28, 2010, expiring unemployment insurance benefits that were established in the American Recovery and Reinvestment Act.

Likewise, provisions were included to extend the 65-percent COBRA health insurance subsidy from 9 to 15 months for individuals who have lost their jobs and to extend the job lost eligibility date also through February 28, 2010.

Further, a provision was included to freeze the Department of Health and Human Services' poverty guidelines at 2009 levels in order to prevent a reduction in eligibility for programs such as Medicaid, food stamps, and school lunch programs through March 1 of next year.

This provision keeps struggling families from falling through the cracks.

In addition, provisions were included to provide \$125 million to extend the Recovery Act program for small businesses. The program reduces lending fees charged to borrowers under the Small Business Administration's guaranteed loan programs and increases the Federal guarantee on certain small business loans.

The Recovery Act supported a resurgence in SBA small business lending, but funds were exhausted in November. The additional funding in this bill will help support lending for small businesses during the economic recovery by continuing fee relief for borrowers and encouraging lenders to extend credit to small businesses.

Further, this bill includes a short-term extension of the highway, transit, highway safety and truck safety programs. Without this extension, the highway program would be brought to a standstill and the Department of Transportation would be unable to reimburse States for eligible expenses.

In addition, several agencies—including the Federal Highway Administration, the National Highway Traffic

Safety Administration, and the Federal Motor Carrier Safety Administration—would not have the funds necessary to pay their employees.

This is not your typical end-of-the-year Christmas tree; to the contrary, it is the bare minimum of programs which must be continued to provide for our less fortunate and our struggling small businesses.

It also allows for a 2-month extension of laws such as the PATRIOT Act, in order to allow more time for our authorizing committees to come to agreement on more permanent legislation.

The House has passed a compromise measure and forwarded it to the Senate because of the calendar. Today is December 16, and our Department of Defense has been operating on a continuing resolution for more than 2 months.

It is time we get on with the process and get this bill to the President. It is a good measure. Our troops deserve our support. Let's show we support those who volunteered to serve all of us by voting today to send this bill to the President.

As I close, I wish to thank the Defense Subcommittee staff for their dedication and hard work in putting this bill together. I wish to put into the RECORD the names of these staff members who have worked on this bill in a bipartisan fashion. They are:

Charlie Houy, Nicole Diresta, Kate Fitzpatrick, Katy Hagan, Kate Käufer, Ellen Maldonado, Rachel Meyer, Erik Raven, Gary Reese, Betsy Schmid, Renan Snowden, Bridget Zarate, Rob Berschinski, Stewart Holmes, Alycia Farrell, Brian Potts, Brian Wilson and Tom Osterhoudt.

Mr. President, it is my pleasure and privilege to be chairman of the committee. It is a great honor. I wish to make certain we express our gratitude to all these staff people. Without them, I would not be standing here at this moment.

I yield the floor.

The PRESIDING OFFICER. The Senator from Mississippi is recognized.

Mr. COCHRAN. Mr. President, I am glad I was here to hear the remarks of the distinguished Senator from Hawaii. I serve on that subcommittee of Defense Appropriations with him and get to observe, at close range, the skill and effort and courtesy that is reflected in his service as chairman of our committee. It is a pleasure to serve with him and it is an honor. He has provided leadership and cooperation in working with all Senators—not just members of our committee—to move forward in carrying out of duties by the Department of Defense through our appropriations process.

It is very important that the Senate approve, as soon as possible, the funding that is contained in the bill that our committee has reported to the Senate. It will help support and provide the resources necessary to carry out

the missions of our men and women have in Afghanistan, Iraq, and around the world, safeguarding our freedom, protecting our security interests.

The Department of Defense is now operating under a continuing resolution that expires on Friday. This is an inefficient way of managing the support for our Department of Defense. It causes too much effort to be made by employees and men and women in the Defense Department, focusing on management, how to manage day-to-day operating expenses dealing with the challenges that too few dollars are provided in a way that gives people time to plan and then execute efficiently their missions and responsibilities.

This affects the support that is available to the men and women who are overseas and in harm's way.

The act contains funds necessary to provide medical care as well as family support for members of our Armed Forces and their families. During this time of war, it is very important that every effort be made to provide good medical care for those who are injured and wounded serving our country.

It is also important we support the families. There are funds in this legislation that do just that, trying to address the stresses that are associated with combat and deployment and separation.

I am disappointed the normal process has been circumvented, or at least delayed, and the other body has not appointed conferees to the Defense Appropriations conference committee. It is a disappointment also that the Defense Appropriations bill is used as a vehicle to move other initiatives that seem to be slowing down the process. These measures should be considered separately and addressed in a more thoughtful way, based on their own merits, not on the legislation they are tied to, to carry them through the legislative process.

I think attaching nondefense-related legislation to the Defense Appropriations Act for this fiscal year has been a mistake. It has been unnecessary, unfortunate, and it has resulted in delays and uncertainty.

I am sure there are Senators who can make suggestions for improving this bill. We are open to hear those concerns and do our best to respond to the suggestions from all Senators. We don't individually support all aspects of the agreement, but we think that, in total, it is a good bill. It ought to be passed, and it ought to be passed as soon as possible in recognition of our respect for our service members and their families.

Mr. INOUE. Mr. President, there is nothing in rule XLIV which governs a message between the Houses in regard to disclosing earmarks. However, as chairman of the Appropriations Committee it is my belief that the committee should none the less attest that

all earmarks have been fully disclosed. Accordingly I note that in the bill H.R. 3326 as passed by the House and explained in the statement offered by the chairman of the Subcommittee on Defense of the House of Representatives on December 16, 2009, each earmark in the bill has been disclosed in accord with rule XLIV.

Mr. CONRAD. Mr. President, section 401(c)(4) of S. Con. Res. 13, the 2010 budget resolution, permits the Chairman of the Senate Budget Committee to adjust the section 401(b) discretionary spending limits, allocations pursuant to section 302(a) of the Congressional Budget Act of 1974, and aggregates for legislation making appropriations for fiscal years 2009 and 2010 for overseas deployments and other activities by the amounts provided in such legislation for those purposes and so designated pursuant to section 401(c)(4). The adjustment is limited to the total amount of budget authority specified in section 104(21) of S. Con. Res. 13. For 2009, that limitation is \$90.745 billion, and for 2010, it is \$130 billion.

The Senate is considering H.R. 3326, the Department of Defense Appropriations Act, 2010. That legislation includes amounts designated pursuant to section 401(c)(4). Since this is the last of the 12 regular appropriations bills for 2010, I am revising previous adjustments made to the discretionary spending limits and the allocation to the Senate Committee on Appropriations for discretionary budget authority and outlays to reflect the final amount of designations made pursuant to section 401(c)(4). When combined with all previous adjustments, the total amount of adjustments for 2010 is \$130 billion in discretionary budget authority and \$101.178 billion in outlays. In addition, I am also further revising the aggregates for 2010 consistent with section 401(c)(4) to reconcile the amount of outlays estimated by the Congressional Budget Office for designated funding with the amount originally assumed in the 2010 budget resolution.

I ask unanimous consent that the following revisions to S. Con. Res. 13 be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2010—S. CON. RES. 13; FURTHER REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTION 401(c)(4) ADJUSTMENTS TO SUPPORT ONGOING OVERSEAS DEPLOYMENTS AND OTHER ACTIVITIES

[In billions of dollars]

Section 101	
(1)(A) Federal Revenues:	
FY 2009	1,532.579
FY 2010	1,623.888
FY 2011	1,944.811
FY 2012	2,145.815
FY 2013	2,322.897

<i>Section 101</i>	
FY 2014	2,560.448
(1)(B) Change in Federal Revenues:—	
FY 2009	0.008
FY 2010	–42.098
FY 2011	–143.820
FY 2012	–214.578
FY 2013	–192.440
FY 2014	–73.210
(2) New Budget Authority:—	
FY 2009	3,675.736
FY 2010	2,910.707
FY 2011	2,842.766
FY 2012	2,829.808
FY 2013	2,983.128
FY 2014	3,193.887
(3) Budget Outlays:—	
FY 2009	3,358.952
FY 2010	3,023.691
FY 2011	2,966.921
FY 2012	2,863.655
FY 2013	2,989.852
FY 2014	3,179.437

CONCURRENT RESOLUTION ON THE BUDGET FOR FISCAL YEAR 2010—S. CON. RES. 13; FURTHER REVISIONS TO THE CONFERENCE AGREEMENT PURSUANT TO SECTION 401(c)(4) TO THE ALLOCATION OF BUDGET AUTHORITY AND OUTLAYS TO THE SENATE APPROPRIATIONS COMMITTEE AND THE SECTION 401(b) SENATE DISCRETIONARY SPENDING LIMITS

[In millions of dollars]

	Initial Allocation/Limit	Adjustment	Revised Allocation/Limit
FY 2009 Discretionary Budget Authority	1,482,201	0	1,482,201
FY 2009 Discretionary Outlays	1,247,872	0	1,247,872
FY 2010 Discretionary Budget Authority	1,219,651	1	1,219,652
FY 2010 Discretionary Outlays	1,376,195	–157	1,376,038

The PRESIDING OFFICER. The Republican leader is recognized.

SETTING PRECEDENT

Mr. MCCONNELL. Mr. President, I rise to make some observations about a matter that occurred in the Senate earlier this afternoon.

The plain language of the Senate precedent, the manual that governs Senate procedure, is that unanimous consent of all Members was required before the Senator from Vermont could withdraw his amendment while it was being read—unanimous consent.

Earlier today, the majority somehow convinced the Parliamentarian to break with the longstanding precedent and practice of the Senate in the reading of the amendment.

Senate procedure clearly states:

Under rule 15, paragraph 1, and Senate precedents, an amendment shall be read by the clerk before it is up for consideration or before the same shall be debated unless a request to waive the reading is granted.

It goes on to state that:

... the reading of which may not be dispensed with, except by unanimous consent, and if the request is denied, the amendment must be read and further interruptions are not in order.

Nothing could be more clear.

You may have heard that the majority cites an example in 1992 when the Chair made a mistake and allowed something similar to happen. But one mistake does not a precedent make.

For example, there is precedent for a Senator being beaten with a cane in the Senate. If mistakes were the rule, then the caning of Senators would be in order. Fortunately for all of us, it is not.

It is now perfectly clear that the majority is willing to do anything—anything—to jam through a 2,000-page bill before the American people or any of us have had a chance to read it, including changing the rules in the middle of the game.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Georgia is recognized.

Mr. CHAMBLISS. Mr. President, I rise today to speak about the decision to move the remaining detainees held at Guantanamo Bay Naval facility, or Gitmo, to the Thomson Correctional Center in Illinois.

The decision to transfer Gitmo detainees to the heartland of our country is irresponsible, a waste of taxpayer dollars, and contrary to the wishes of the American people.

Congress has included language permitting the transfer or detention of Gitmo detainees to the United States only under certain limited conditions in every relevant appropriations bill passed this year, including the recently passed Omnibus Appropriations Act. That is one of the reasons I voted against every single one of those bills.

The President now has made the decision to purchase the Thomson Correctional Center from the State of Illinois for the purpose of transferring and detaining Gitmo detainees.

Further, the President stated he will need to expend millions of additional dollars renovating and securing the facility when much has already been invested in the state-of-the-art facility at Guantanamo Bay. This unnecessary spending is an abuse of our tax dollars and one that holds dire national security consequences.

The administration claims that many of these detainees will continue to be held by the military in the same prison where the Department of Justice will hold average, ordinary criminals. What the administration fails to tell the American people is that these detainees will obtain the same rights as U.S. citizens the moment they step inside the United States. We have already seen detainees attempt to gain these same rights as Americans in our courts and have seen the courts grant them limited rights without them being inside the United States.

In habeas corpus cases where the court has ruled, 30 out of 38 Gitmo detainees have been found to be unlawfully detained and their release has been ordered. After reviewing the classified biographies on some of these individuals, it is clear from these decisions that the courts are not in a position to judge matters of war and cannot when they are bound by our criminal justice system.

It is not designed to handle war criminals.

The courts do not adequately consider the threat these individuals pose to U.S. interests or will pose in the future when they return to terrorism. President Obama cites the authorization for the use of military force as legal justification for continuing the detention of these terrorists. However, the courts have already indicated that these detainees cannot be indefinitely held. I wonder if the administration considered this when it decided to move Gitmo detainees to the United States.

This administration may face the same problem as the last administration did in justifying to a U.S. court the continuing detention of these terrorists. Only this time, the court will have a remedy.

It is foreseeable that some, and possibly many, of those detainees will be ordered released by our courts. The administration has tried to assure the public that our immigration laws will prohibit the release of those individuals into the United States. But, once again, this administration fails to appreciate the limits of our legal system. Once these detainees are physically present in the United States, prior judicial precedent indicates that the government can only detain an individual while immigration removal proceedings are ongoing for a maximum of 6 months. If a detainee cannot be transferred or deported, they will be released, freed into the United States, after 6 months. This is much more than just moving Guantanamo north.

On the other hand, if the administration is able to secure the transfer of these detainees to another country, we can be sure to watch the recidivism rates rise. The Department of Defense's last unclassified fact sheet on recidivism reported that 14 percent of the former Gitmo detainees returned to terrorism after their release or their transfer. This is almost one out of every seven detainees transferred. This number is much larger now after 8 months and countless transfers of the most serious terrorists.

Some of the detainees transferred openly admit their affiliation with a terrorist organization or that they were combating U.S. forces in Afghanistan. Confirming this, two former Gitmo detainees transferred to Saudi Arabia announced earlier this year that they were now the leaders of al-Qaida in the Arabian peninsula. Another detainee, Ali bin Ali Aleh, lived with Abu Zubaydah in Pakistan and was identified on a list of names in Khalid Shaikh Mohammed's possession when KSM was captured. Ali bin Ali Aleh was determined not to be an enemy combatant and ordered to be released by a U.S. court in May of this year. He was transferred to Yemen in September.

Maybe some of my colleagues have seen the recent headlines indicating that some European countries are willing to accept these detainees. In fact, detainees have recently been transferred to Belgium, Ireland, Hungary, and Italy. However, the American people are not fooled by these headlines. Of the 779 detainees held since 2001 at Guantanamo Bay, our European partners have accepted only 37. The vast majority of detainees—almost 400—have been transferred to four countries: Afghanistan, Saudi Arabia, Pakistan, and Yemen. These four countries are either currently in conflict or actively combating al-Qaida. In all four of these countries, the threat from al-Qaida and associate militants has done nothing but increase over the past few years. Yet the United States is sending back hundreds of terrorists to the most volatile regions of the world—South Asia, which poses the greatest terrorist threat currently to the homeland and to the Arabian peninsula, which I believe will present itself as the next greatest threat to the United States.

The decision to move these terrorists to the United States may force the administration to choose between freeing terrorists into Illinois or transferring them back to the center of the battle. Is this the policy position we want to put our country in while we are still combating terrorism?

No one doubts the security of our prisons to safely hold these individuals. I doubt the ability of our laws and judicial system to ensure that these terrorists are convicted or kept in prison. Prohibiting the detainees from entering the United States is the only guarantee. However, the decision to move the remaining terrorists at Gitmo to the heart of this country shattered any remaining hope for this guarantee. This is yet another step in a series of poor policy decisions which is leading our country in the wrong direction.

I am disappointed by this decision, obviously. But I can only imagine how the residents of Illinois feel about it. I know Georgians would not be pleased with housing over 200 of the most serious and hardened terrorists in the world in their backyard.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mrs. SHAHEEN). The clerk will call the roll. The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. Madam President, I wish to respond to my friend from Georgia, who just stepped off the floor, about the transfer of detainees from Guantanamo because he misstated a few things that I do not want to stay on the record.

First, he suggested that these detainees would be freed in Illinois. Not so. The plan of this administration is not to free them; the plan is to imprison them in the most secure prison in the United States of America. It is in Thomson, IL, 150 miles from Chicago. I was there a few weeks ago. It is a supermax prison built 7 years ago and never fully occupied. Now they are going to build an additional fence around it. It will be more secure than any prison in America. They will be freed into the most secure prison in America and they are not coming out until such time as there is a resolution of whatever their issues may be or they pass away.

I might also say that the current law in the United States prohibits the President of the United States from releasing these detainees in the United States. Those statements by the Senator from Georgia are just flat incorrect.

He is entitled to his position—and others share it—that we should not close Guantanamo. I believe we should. On my side of this argument would be the following people who have called for the closure of Guantanamo: President George W. Bush; Secretary of State and former Chairman of the Joint Chiefs of Staff Colin Powell; Secretary of Defense under President Bush and under President Obama, Robert Gates; former Secretary of State and domestic policy adviser Condoleezza Rice; GEN David Petraeus, and 33 other generals, in addition to President Barack Obama.

This argument that closing Guantanamo endangers the United States ignores the obvious. The people entrusted with the responsibility of protecting the United States have called for the closure of Guantanamo. Yesterday, Robert Gibbs, press secretary to President Obama, was asked about this decision to transfer. He said that on more than 30 occasions—I am not sure of the timeframe, whether it was this year or a longer period of time—but on more than 30 occasions, they have found direct linkage of terrorist recruitment activity and the use of Guantanamo as an illustration of why people needed to convert to terrorism around the world. It is still being actively used for recruitment.

If the Senator from Georgia would go back a few weeks and read Newsweek magazine, one of their reporters was captured in Tehran and held in captivity for almost 4 months. He told a story of how he was first incarcerated in a prison in Tehran. As he arrived, his jailer said to him: Welcome to Abu Ghraib and Guantanamo, American.

So for us to believe that the rest of the world does not have a negative image of Guantanamo and it is not being used against our troops is to ignore the obvious.

There are some in this body who are hidebound to keep Guantanamo open

at any costs. I will tell you, the cost is too high. If the continuation of Guantanamo means danger to our troops, we owe it to them to close it. Presidents have reached that conclusion, people in charge of national security have reached that conclusion, and we should as well.

Then there is this notion about the danger of incarcerating terrorists in the United States. For the record, over 350 convicted terrorists are currently imprisoned in the United States, all over the United States. In my home State of Illinois, 35 convicted terrorists are in prison today. The most recent incarceration involves a man arrested shortly after 9/11 in Peoria, IL, an unlikely hotbed of terrorism and spy activity, but, in fact, this man going to school in Peoria, IL, through his communications was linked with al-Qaida. He served time in a Navy brig in South Carolina, if I am not mistaken, and eventually was tried in the courts of Peoria, IL, convicted and now incarcerated in Marion, IL, in southern Illinois.

I heard not one word of criticism when this took place under the previous administration. The belief was this man had to answer for the crimes he was charged with and serve time in our prison system as a result of it. Never—not once, not one time—did I ever hear any Congressman of either political party say: Boy, it is unsafe to try him in Peoria or it is unsafe to incarcerate him in southern Illinois. It has never been said.

What happens to these people when they go into our supermax prisons, where no one has ever escaped? They disappear, as they should. They are where they ought to be—isolated and away from causing harm to anyone.

When President Obama was looking for an alternative to Guantanamo, we came forward. One of the mayors of a small town in Illinois—Thomson, IL—with just several hundred people living there, wrote to the Governor of our State and to me and said: I have a big old prison the State built and never opened—built it in 2001. It has the capacity of several thousand prisoners, and the State could never afford to open it. We had hoped that this prison would create a lot of local jobs for us. Can you find a use for it at the Federal level?

The Obama administration took a hard look at this for a long period of time. Part of it was done confidentially, and then they came out publicly and said: We are seriously interested.

The Senator from Georgia said earlier: Well, the people of Illinois are against this.

Well, I would say to my friend from Georgia, come on down to Thomson, IL. Come down and see the people who are overwhelmingly supportive—and not just Democrats, believe me. Local State representative Jim Sacia is a Republican and a former FBI agent. He

said we would be idiots not to take this offer from the Federal Government. He is right. Three thousand jobs. I don't know that there is a Senator here if you said to him: Would you be interested in 3,000 jobs in the midst of a recession, who wouldn't stand up and say: Let's talk.

Well, we did. So it is 3,000 new jobs at this prison when it is opened as part of the Bureau of Prisons and part of the Department of Defense.

How many Guantanamo detainees will be sent there? Fewer than 100. We have 35 in our prisons already. Life has not changed in my home State of Illinois, nor has it changed in any other State where they are incarcerated. It would not change in Thomson, IL. These people can be held safely and securely. I trust our men and women in the military to do that, and the Members of the Senate should do so as well.

These 3,000 jobs are going to be a Godsend to an area with 11 percent unemployment. First, there will be a lot of construction jobs, and we can use those. Those are good-paying jobs for Americans right here at home. Then those who work for the Bureau of Prisons are going to be paid a good salary and receive good benefits, the kind of salary you can use to build a family, a community, a neighborhood. These will be people who will be buying homes—3,000 of them. They will be buying homes, cars, shopping for appliances, and going to the local shopping malls. Is that going to be good for the economy? You bet it is. It is just what we need, and it is just what this area of the State wants. This argument that we somehow will oppose it is just wrong.

There is a local Congressman, who is a friend of mine—a Republican Congressman—who opposes it. We have talked about it. We just don't see eye to eye on it. But even in Rockford, IL, the largest city in his district, which is northeast of Thomson, the city council in Rockford passed a resolution of approval of this Thomson prison, 12 to 2. In county after county, State and local governments—I should say local county governments are coming out in favor of this Thomson prison. Those who come to the Senate floor and argue otherwise don't know the facts. When they know the facts, they will realize we are prepared to do this.

Now the question is whether the Senate will stand behind the President, stand behind our security advisers who believe this is in the best interest of the United States. I think it is. It isn't the first time Illinois has been called on to do something extraordinary for our country. The first supermax prison in our Federal system was built in Marion, IL, years and years ago. There was controversy. This was the most secure prison in America. But I will tell you, the people of southern Illinois rallied behind it. It has been a prison with

a lot of great professionals who have worked there. They have done their jobs and done them well.

When I go down to Marion, IL, and talk to them about Guantanamo detainees, they say: Senator, listen. Send them here. We will take care of them. We can point out among those who are incarcerated at Marion prison those who were engaged in al-Qaida terrorism, Colombian drug gangs, Mexican drug cartels, some of the meanest, toughest most violent gang bangers from the cities in the Midwest—and they are held safely every day.

I will tell you, when I hear people say they do not trust our prison system to hold a handful or 50 or whatever the number may be—less than 100—of these Guantanamo detainees, they ought to meet the men and women who do it every single day in America, and do it well. They should realize these detainees will be held by our military, the Department of Defense employees. Those are the ones we can trust to do it.

So I would urge my friends and others who have spoken earlier—Senator MCCONNELL came to the Senate floor earlier. It has become, unfortunately, a party position now that it is a bad idea. Earlier, Senator MCCAIN and Senator GRAHAM on the Republican side of the aisle didn't argue against the transfer of these detainees. They understand these prisoners aren't larger than life. They have been in prison for 8 years. Frankly, I don't know how much longer they will stay there. But as long as they are a threat to the United States, they will.

Madam President, I would like to at this point address an issue which came up earlier on the Senate floor.

Something unusual happened on the floor of the Senate today, Madam President. It happens but rarely. Under the rules of the Senate, amendments and bills can be read, if a Member requests, and we usually ask unanimous consent to dispense with the reading. And, routinely, that is done. It is done every day on scores of different things.

Today, Senator SANDERS of Vermont offered an amendment near and dear to his heart on single-payer health care reform, and it turned out to be a voluminous amendment—800 pages long. When the time came to ask consent that it not be read, there was an objection from Senator COBURN of Oklahoma. He insisted that it be read. Our poor clerking staff up here—the clerks of the Senate—started reading this bill, and they read on for almost 2 hours or more.

As they were reading it, it came to our attention that Senator SANDERS of Vermont had authority under the Senate rules to withdraw his amendment and to stop the reading of the amendment.

I wasn't aware of that because I can't recall that has ever happened since I

have been here. But I made a point—since many years ago I was a parliamentarian of the Illinois State Senate and tried to at least read the rules from time to time—to turn to rule XV, section 2, in the Standing Rules of the Senate, and here is what it says:

Any motion, amendment, or resolution may be withdrawn or modified by the mover at any time before a decision, amendment or ordering of the yeas and nays, except a motion to reconsider, which shall not be withdrawn without leave.

In other words, until action was taken on the Sanders amendment, he had the authority under rule XV, paragraph 2 to withdraw his amendment, which he did.

Some have come to the floor and protested and said this was extraordinary, and it can't be backed up by the Senate rules. But I refer them to this rule, which is explicit, and that no action had taken place on this amendment other than the introduction of the amendment and reading. So, as it says here, "any time before a decision, amendment, or ordering of the yeas and nays." I think that is a clear case.

I have since read an earlier ruling by the Chair relative to the same rule that goes back several decades, so the ruling of the Chair today, or at least the finding of the Chair, was consistent with the rules of the Senate. But the strategy that came out in the ordering of this amendment to be read is pretty clear when it comes to health care. The Republican strategy is clear to anyone who is watching the debate: They do not want amendments. In fact, they just don't want us to vote on health care reform. There comes a time when people make the best arguments they can and the Senate makes a decision, and that is what we are facing. That is what we want. We would like to do that in a timely fashion.

Members here believe we can do that in a responsible way and move this health care reform bill to a point of a vote—a cloture vote, with a 60-vote requirement—and do that in a way that we can find the sentiment in the Senate on this important measure and just maybe go home for Christmas, which a lot of us would like to do. We have been away from our families for quite a while.

During the course of this debate, we have been spending a lot of time on the bill itself. I usually like to give people an idea by holding up this 2,074-page bill. It took a lot of work to get to this point. The managers' amendment to this will be several hundred pages, I imagine.

People say: Why is it so big? It is big because we are changing the health care system in America, which is one-sixth of our economy. You can imagine all the different moving parts in this complicated health care system that we address with this bill.

During this period of time, the Republicans have not offered any alternative or substitute. I thought that

would be their first motion, to come forward and say: That is the Democratic plan to change the health care system in America, but you should see the Republican plan, how much better it is. They didn't do that because there is no Republican alternative. There is no Republican substitute.

Last week, when I went to the Senate Republican Web site—and I invite people to do the same—I found there was only one bill printed there on health care reform. It was the Democratic bill, not any bill that has been offered by the Republican side. The reason is this is hard work. Putting a bill like this together, getting experts to look at it and decide whether it is going to save money or cost money, it takes time. We have taken that time to do it, and do it right, and they have not. So they are either not up to the challenge of preparing an alternative bill, or they are content with the current system.

I guess some people are content with the current system. Among those who are content with it are the CEOs of health insurance companies. They like this system. They make a lot of money. They do it at the expense of a lot of people who need health care and end up being turned down. So, unfortunately, the Republicans have no constructive proposals to improve our bill. Each and every amendment, almost without exception, has been to send the bill back to committee; to stop working on it, and let's do this another day. All they want to do on the bill is to delay it, as they tried to do today with the reading of the Sanders amendment.

Senator JUDD GREGG of New Hampshire is a friend of mine. He and his wife Kathy and my wife Loretta and I have traveled together on official business of the Senate. I like him. He is a smart guy. He is going to retire, and he, in his wisdom, decided to leave a playbook for the Republican side of the aisle, which they shared. It is page after page of ways to slow down and stop the Senate from acting. Senator GREGG is entirely within his rights as a Senator to do it. What I read in his memo was accurate, but the intent and motive are clear: He wanted to stop this bill from moving in order, and that became the real cause on the Republican side of the aisle. They took a page out of Senator GREGG's playbook today with Senator COBURN's demanding the amendment be read. But it didn't work.

Madam President, I ask unanimous consent to have printed in the RECORD a colloquy between former Senators Adams and Packwood on the floor of the Senate on September 24, 1992.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TAX ENTERPRISE ZONES ACT

(Senate—September 24, 1992), [Page: 27573]

The Senate continued with the consideration of the bill.

The PRESIDING OFFICER. The Senator from Washington is recognized.

AMENDMENT NO. 3173

(Purpose: To amend the Internal Revenue Code of 1986 to deny the benefits of certain export subsidies in the case of exports of certain unprocessed timber, and to establish rural development programs for certain rural communities and small businesses that have been adversely affected by a declining timber supply and changes in the timber industry in the Pacific Northwest)

Mr. ADAMS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Washington [Mr. Adams] proposes an amendment numbered 3173.

Mr. ADAMS. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

Mr. PACKWOOD. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard. The clerk will read the amendment.

The assistant legislative clerk continued reading the amendment.

Mr. ADAMS. Mr. President, I ask unanimous consent that further reading of the amendment be dispensed with.

Mr. PACKWOOD. I object.

The PRESIDING OFFICER. Objection is heard.

Mr. ADAMS. Mr. President, parliamentary inquiry? I have a parliamentary inquiry of the Chair. Is it in order, during the reading of the amendment, without it being dispensed with, for the floor leader and the opponent of the amendment to have a discussion?

The PRESIDING OFFICER. The regular order, as the Chair is advised by the Parliamentarian, is that the amendment is to be read because objection has been heard to the unanimous-consent request.

The clerk will read the amendment.

The assistant legislative clerk continued reading the amendment.

Mr. ADAMS. Mr. President, I ask permission to withdraw the amendment.

The PRESIDING OFFICER. The Senator has a right to withdraw the amendment.

Mr. ADAMS. I withdraw the amendment.

The PRESIDING OFFICER. The amendment is withdrawn.

The amendment (No. 3173) was withdrawn.

The text of the amendment (No. 3173) is as follows:

At the end of title VIII, insert the following new sections:

Mr. DURBIN. Incidentally, Madam President, that is the colloquy I referred to earlier where the Chair made exactly the same ruling on that day as was made today, the finding in terms of rule XV, paragraph 2.

I also ask unanimous consent to have printed in the RECORD the memorandum prepared by Senator GREGG for the Republican side of the aisle concerning the rights of the minority in the Senate, which I have mentioned earlier, and largely includes the rights to slow down and stop the activity of the Senate.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

FOUNDATION FOR THE MINORITY PARTY'S RIGHTS IN THE SENATE (FALL 2009)

The Senate rules are designed to give a minority of Senators the right to insist on a full, complete, and fully informed debate on all measures and issues coming before the Senate. This cornerstone of protection can only be abrogated if 60 or more Senators vote to take these rights away from the minority.

I. Rights Available to Minority Before Measures are Considered on Floor (These rights are normally waived by Unanimous Consent (UC) when time is short, but any Senator can object to the waiver.)

New Legislative Day, An adjournment of the Senate, as opposed to a recess, is required to trigger a new legislative day. A new legislative day starts with the morning hour, a 2-hour period with a number of required procedures. During part of the "morning hour" any Senator may make non-debatable motions to proceed to items on the Senate calendar.

One Day and Two Day Rules—The 1-day rule requires that measures must lie over one "legislative day" before they can be considered. All bills have to lie over one day, whether they were introduced by an individual Senator (Rule XIV) or reported by a committee (Rule XVII). The 2-day rule requires that IF a committee chooses to file a written report, that committee report MUST contain a CBO cost estimate, a regulatory impact statement, and detail what changes the measure makes to current law (or provide a statement why any of these cannot be done), and that report must be available at least 2 calendar days before a bill can be considered on the Senate floor. Senators may block a measure's consideration by raising a point of order if it does not meet one of these requirements.

"Hard" Quorum Calls—Senate operates on a presumptive quorum of 51 senators and quorum calls are routinely dispensed with by unanimous consent. If UC is not granted to dispose of a routine quorum call, then the roll must continue to be called. If a quorum is not present, the only motions the leadership may make are to adjourn, to recess under a previous order, or time-consuming motions to establish a quorum that include requesting, requiring, and then arresting Senators to compel their presence in the Senate chamber.

II. Rights Available to Minority During Consideration of Measures in Senate (Many of these rights are regularly waived by Unanimous Consent.)

Motions to Proceed to Measures—with the exception of Conference Reports and Budget Resolutions, most such motions are fully debatable and 60 votes for cloture is needed to cut off extended debate.

Reading of Amendments and Conference Reports in Entirety—In most circumstances, the reading of the full text of amendments may only be dispensed with by unanimous consent. Any Senator may object to dispensing with the reading. If, as is often the case when the Senate begins consideration of a House-passed vehicle, the Majority Leader offers a full-text substitute amendment, the reading of that full-text substitute amendment can only be waived by unanimous consent. A member may only request the reading of a conference report if it is not available in printed form (100 copies available in the Senate chamber).

Senate Points of Order—A Senator may make a point of order at any point he or she believes that a Senate procedure is being violated, with or without cause. After the

presiding officer rules, any Senator who disagrees with such ruling may appeal the ruling of the chair—that appeal is fully debatable. Some points of order, such as those raised on Constitutional grounds, are not ruled on by the presiding officer and the question is put to the Senate, then the point of order itself is fully debatable. The Senate may dispose of a point of order or an appeal by tabling it; however, delay is created by the two roll call votes in connection with each tabling motion (motion to table and motion to reconsider that vote).

Budget Points of Order—Many legislative proposals (bills, amendments, and conference reports) are subject to a point of order under the Budget Act or budget resolution, most of which can only be waived by 60 votes. If budget points of order lie against a measure, any Senator may raise them, and a measure cannot be passed or disposed of unless the points of order that are raised are waived. (See <http://budget.senate.gov/republican/pressarchive/PointsofOrder.pdf>)

Amendment Process

Amendment Tree Process and/or Filibuster by Amendment—until cloture is invoked, Senators may offer an unlimited number of amendments—germane or non-germane—on any subject. This is the fullest expression of a “full, complete, and informed” debate on a measure. It has been necessary under past Democrat majorities to use the rules governing the amendment process aggressively to ensure that minority Senators get votes on their amendment as originally written (unchanged by the Majority Democrats.)

Substitute Amendments—UC is routinely requested to treat substitute amendments as original text for purposes of further amendment, which makes it easier for the majority to offer 2nd degree amendments to gut 1st degree amendments by the minority. The minority could protect their amendments by objecting to such UC's.

Divisible Amendments—amendments are divisible upon demand by any Senator if they contain two or more parts that can stand independently of one another. This can be used to fight efforts to block the minority from offering all of their amendments, because a single amendment could be drafted, offered at a point when such an amendment is in order, and then divided into multiple component parts for separate consideration and votes. Demanding division of amendments can also be used to extend consideration of a measure. Amendments to strike and insert text cannot be divided.

Motions to Recommit Bills to Committee With or Without Instructions—A Senator may make a motion to recommit a bill to the committee with or without instructions to the Committee to report it back to the Senate with certain changes or additions. Such instructions are amendable.

After Passage: Going to Conference, Motions to Instruct Conferees, Matters Out of Scope of Conference

Going to Conference—The Senate must pass 3 separate motions to go to conference: (1) a motion to insist on its amendments or disagree with the House amendments; (2) a motion to request/agree to a conference; and (3) a motion to authorize the Chair to appoint conferees. The Senate routinely does this by UC, but if a Senator objects the Senate must debate each step and all 3 motions may be filibustered (requiring a cloture vote to end debate).

Motion to Instruct Conferees—Once the Senate adopts the first two motions, Senators may offer an unlimited number of motions to instruct the Senate's conferees. The

motions to instruct are amendable—and divisible upon demand—by Senators if they contain more than one separate and distinct instruction.

Conference Reports, Out of Scope Motions—In addition to demanding a copy of the conference report to be on every Senator's desk and raising Budget points of order against it, Senators may also raise a point of order that it contains matter not related to the matters originally submitted to the conference by either chamber. If the Chair sustains the point of order, the provision(s) is stricken from the conference agreement, and the House would then have to approve the measure absent the stricken provision (even if the House had already acted on the conference report). The scope point of order can be waived by 60 Senators.

Availability of Conference Report Language. The conference report must be publicly available on a website 48 hours in advance prior to the vote on passage.

Mr. DURBIN. Madam President, I would just say that when Senator MCCONNELL came to the floor after the ruling and the decision of the Chair, he said the plain language of the Senate precedent—the manual that governs Senate procedure—is that unanimous consent of all Members was required before the Senator from Vermont could withdraw his amendment while it was being read. He said it required unanimous consent. But that is not what the language of the Senate rules say that I have read. They say a Senator has, as a matter of right under rule XV, paragraph 2, to withdraw his amendment before action is taken. In this case, as I mentioned earlier, the argument back in 1992 backs up the Parliamentarian's decision in that interpretation of the rule.

So I would say it didn't work today to stop or slow down the Senate. Currently, we are not technically debating health care reform. What is before us now is the Department of Defense appropriations bill from the House, which I hope we can move on quickly. I think it is not controversial. It is a matter of finding money for our troops who are risking their lives overseas and supporting their families at home and providing health care for members of the military and their families. I don't think there is much debate about that.

It also extends the unemployment benefits that people need across America, which passed with a 97-to-0 vote, if I am not mistaken, not that long ago—the last time it was considered. So these are matters which should move along, and we should be able to do it in a fairly straightforward way. I would hope we can show some bipartisanship when it comes to our men and women in uniform and approve the Department of Defense appropriations bill, which does not contain anything controversial beyond what I have just described. We can then get back to the health care reform bill. I think it is important that at some point we bring this to a vote, to find if we indeed have the 60 votes for health care reform. I sincerely hope we do.

I will close by saying this health care reform bill has its critics, but it also has several features which can't be denied.

The first of those features that have been verified by the Congressional Budget Office: This bill does not add to the deficit of the United States; it reduces the deficit by \$130 billion over 10 years and \$650 billion, moreover, the following 10 years.

We have also received reports from the Congressional Budget Office that the result of this bill will be a decline in the increase in the cost of health insurance premiums—something we desperately need.

It is a bill that will also extend health insurance coverage to 30 million more Americans who do not have it today—50 million uninsured Americans; 30 million of them, 60 percent of them, will have the protection of health insurance coverage. Ninety percent of Americans will have health insurance coverage—the highest percentage in the history of the United States of America—as a result of this bill.

This bill addresses directly the issue of whether health insurance companies can continue to deny coverage when people need it the most. We know stories from our own life experience and our families' and people who write to our offices, that people in the most need of health insurance protection are often turned down by the companies. They pore through the applications and say: You failed to disclose a preexisting condition. They say: Your amount of coverage has lapsed; your child is too old to be covered by your family plan—the list goes on and on.

Finally, some of the most egregious abuses by health insurance companies are addressed in this bill, and consumers across America are given the legal power to fight back and the legal power to be protected. That is why this bill is important and why it is worth passing, all the criticism notwithstanding.

I might also say that it is a bill that is critically important for the future of Medicare. If we do nothing, Medicare is going broke in 7 or 8 years, but we are told this bill will extend the life of Medicare up to 10 more years. That is good news, to put Medicare on sound financial footing, so our seniors like that.

The majority leader of the Senate came to the floor 2 days ago to announce something else that will be part of the conference committee here. The so-called doughnut hole, that gap in coverage for prescription drugs under Medicare, is going to be filled so that seniors will no longer have that period of uncertainty where their bills have reached a level where they are disqualified from payment—the so-called doughnut hole. It will be filled. It will give them peace of mind that if they have expensive pharmaceuticals, they

will have no interruption in coverage in the future when it comes to those pharmaceuticals.

For seniors, these are two major things—to put Medicare on sound financial footing and to fill the doughnut hole under the Medicare prescription part of the program.

It also is going to give seniors for the first time access to the kind of preventive care—regular checkups—they need for peace of mind and so doctors and professionals can catch problems before they get worse.

This bill is a positive bill, a positive step forward.

Yesterday, we had a chance as a Senate Democratic caucus to meet with President Obama. We went to the White House, the Executive Office Building, and the President talked to us about what this bill means. He reminded us that seven Presidents have tried to do this and failed. He told us when he started this trek that he wanted to be the last President to deal with health care reform because he wanted to get it done. I feel the same way. I think the American people feel the same way.

I am sure there is confusion. There have been a lot of misstatements made about death panels and things that really have no basis in fact. But people should be confident that when the AARP, the American Association of Retired Persons, stands up and says this is a good bill for the seniors in America under Medicare and Social Security and for their families; when medical professionals, doctors and medical professionals, stand up and say this is a good bill, that we have the kind of support we need to say to the American people that this is an important step forward in health care protection in America.

It is time for us to make history and pass this bill. Let's do it and do it in time for Members to enjoy Christmas with their families.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. DURBIN. I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permit to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING OUR ARMED FORCES

Mrs. BOXER. Madam President, I rise today to pay tribute to three

young Americans who have been killed in Iraq since July 28. This brings to 882 the number of servicemembers either from California or based in California that have been killed while serving our country in Iraq. This represents 20 percent of all U.S. deaths in Iraq.

SPC Lukas C. Hopper, 20, of Merced, CA, died October 30, southeast of Karadah, Iraq, of injuries sustained during a vehicle roll-over. Private First Class Hopper was assigned to the 1st Battalion, 505th Parachute Infantry Regiment, 3rd Brigade Combat Team, 82nd Airborne Division, Fort Bragg, NC.

SPC Christopher M. Cooper, 28, of Oceanside, CA, died October 30 in Babil province, Iraq, of injuries sustained from a noncombat related incident. Specialist Cooper was assigned to the 2nd Battalion, 28th Infantry, 172nd Infantry Brigade, Schweinfurt, Germany.

PVT Jhanner A. Tello, 29, of Los Angeles, CA, died December 10 in Baghdad, Iraq, of injuries sustained from a noncombat related incident. Private Tello was assigned to the 3rd Aviation Support Battalion, 227th Aviation Regiment, 1st Air Cavalry Brigade, 1st Cavalry Division, Fort Hood, TX.

I would also like to pay tribute to the 27 soldiers from California or based in California who have died while serving our country in Operation Enduring Freedom since July 28.

SPC Matthew K.S. Swanson, 20, of Lake Forest, CA, died August 8 at the National Naval Medical Center in Bethesda, MD, of injuries sustained during a vehicle roll-over July 19 in Logar province, Afghanistan. Specialist Swanson was assigned to the 3rd Brigade Special Troops Battalion, 3rd Brigade Combat Team, 10th Mountain Division, Light Infantry, Fort Drum, NY.

LCpl Javier Olvera, 20, of Palmdale, CA, died August 8 while supporting combat operations in Helmand province, Afghanistan. Lance Corporal Olvera was assigned to 2nd Battalion, 8th Marine Regiment, 2nd Marine Division, II Marine Expeditionary Force, Camp Lejeune, NC.

PFC Brian M. Wolverton, 21, of Oak Park, CA, died August 20 in Kunar province, Afghanistan, of wounds suffered when insurgents attacked his unit with indirect fire. Private First Class Wolverton was assigned to the 1st Battalion, 32nd Infantry Regiment, 3rd Brigade Combat Team, 10th Mountain Division, Light Infantry, Fort Drum, NY.

LCpl Donald J. Hogan, 20, of San Clemente, CA, died August 26 while supporting combat operations in Helmand province, Afghanistan. Lance Corporal Hogan was assigned to 1st Battalion, 5th Marine Regiment, 1st Marine Division, I Marine Expeditionary Force, Camp Pendleton, CA.

CPT John L. Hallett III, 30, of Concord, CA, died August 25 in southern Afghanistan, of wounds suffered when

enemy forces attacked his vehicle with an improvised explosive device. Captain Hallett was assigned to the 1st Battalion, 17th Infantry Regiment, 5th Stryker Brigade, 2nd Infantry Division, Fort Lewis, WA.

SPC Tyler R. Walshe, 21, of Shasta, CA, died August 31 in southern Afghanistan, of wounds suffered when enemy forces attacked his unit with an improvised explosive device. Specialist Walshe was assigned to the 1st Battalion, 17th Infantry Regiment, 5th Stryker Brigade, 2nd Infantry Division, Fort Lewis, WA.

SPC Jonathan D. Welch, 19, of Yorba Linda, CA, died August 31 in Shuyene Sufia, Afghanistan, of wounds suffered when enemy forces attacked his unit with an improvised explosive device. Specialist Welch was assigned to the 1st Battalion, 17th Infantry Regiment, 5th Stryker Brigade, 2nd Infantry Division, Fort Lewis, WA.

PO3 James R. Layton, 22, of Riverbank, CA, died September 8 in Kunar province, Afghanistan, while supporting combat operations. Petty Officer 3rd Class Layton was assigned to an embedded training team with Combined Security Transition Command in Afghanistan.

Capt Joshua S. Meadows, 30, of Bastrop, TX, died September 5 while supporting combat operations in Farah province, Afghanistan. Captain Meadows was assigned to 1st Marine Special Operations Battalion, Marine Corps Forces Special Operations Command, Camp Pendleton, CA.

TSgt James R. Hornbarger, 33, of Castle Rock, WA, died September 12 as a result of a non-hostile incident in the Mediterranean. Technical Sergeant Hornbarger was assigned to the 9th Aircraft Maintenance Squadron, Beale Air Force Base, CA.

SGT Joshua M. Hardt, 24, of Applegate, CA, died October 3 in Kamdesh, Afghanistan, of wounds suffered when enemy forces attacked his contingency outpost with small arms, rocket-propelled grenade and indirect fires. Sergeant Hardt was assigned to the 3rd Squadron, 61st Cavalry Regiment, 4th Brigade Combat Team, 4th Infantry Division, Fort Carson, CO.

SSgt Aaron J. Taylor, 27, of Bovey, MN, died October 9 while supporting combat operations in Helmand province, Afghanistan. Staff Sergeant Taylor was assigned to Marine Wing Support Squadron 372, Marine Wing Support Group 37, 3rd Marine Aircraft Wing, I Marine Expeditionary Force, Camp Pendleton, CA.

LCpl Alfonso Ochoa, Jr., 20, of Armona, CA, died October 10 while supporting combat operations in Farah province, Afghanistan. Lance Corporal Ochoa was assigned to 2nd Battalion, 3rd Marine Regiment, 3rd Marine Division, III Marine Expeditionary Force, Marine Corps Base Hawaii, Kaneohe Bay.

SPC Jesus O. Flores, Jr., 28, of La Mirada, CA, died October 15 in Kandahar province, Afghanistan, of wounds suffered when enemy forces attacked his vehicle with an improvised explosive device. Specialist Flores was assigned to the 569th Mobility Augmentation Company, 4th Engineer Battalion, Fort Carson, CO.

SPC Michael A. Dahl, Jr., 23, of Moreno Valley, CA, died October 17 in Argahndab, Afghanistan, of wounds suffered when enemy forces attacked his vehicle with an improvised explosive device. Specialist Dahl was assigned to 1st Battalion, 17th Infantry Regiment, 5th Stryker Brigade, 2nd Infantry Division, Fort Lewis, WA.

LCpl David R. Baker, 22, of Painesville, OH, died October 20 while supporting combat operations in Helmand province, Afghanistan. Lance Corporal Baker was assigned to 1st Battalion, 5th Marine Regiment, 1st Marine Division, I Marine Expeditionary Force, Camp Pendleton, CA.

SPC Kyle A. Coumas, 22, of Lockeford, CA, died October 21 in Kandahar province, Afghanistan, of wounds suffered when enemy forces attacked his vehicle with an improvised explosive device. Specialist Coumas was assigned to 1st Battalion, 17th Infantry Regiment, 5th Stryker Brigade Combat Team, 2nd Infantry Division, Fort Lewis, WA.

Capt Kyle R. Van De Giesen, 29, of North Attleboro, MA, died October 26 while supporting combat operations in Helmand province, Afghanistan. Sen. Gillibrand, Chair; Sen. Conrad; Sen. Baucus; Sen. Nelson; Sen. Klobuchar; Sen. Johanns, Ranking; Sen. Lugar; Sen. McConnell; and Sen. Roberts.

*Senator Lincoln and Senator Chambliss serve as ex officio members of all subcommittees.

ADDITIONAL STATEMENTS

TRIBUTE TO CANADIAN SENATOR JERAHMIEL "JERRY" GRAFSTEIN

• Mr. CARDIN. Madam President, I wish to draw the attention of my colleagues to the retirement of Jerahmiel S. Grafstein from the Canadian Senate.

As a member and now as Chairman of the Helsinki Commission, I have had the privilege to know and work with Jerry Grafstein over the years through participation in the Parliamentary Assembly of the Organization for Security and Cooperation in Europe—the OSCE. I know that my colleague from Ohio, Senator VOINOVICH, also knows Jerry well, having just worked with

him on a resolution at this year's Annual Session of the Assembly in Vilnius, Lithuania, on combating anti-Semitism. I suspect that many of my other Senate colleagues have also worked with him over the years, as have many of our colleagues in the House of Representatives.

Anybody who has met Senator Grafstein immediately recognizes him as a man of tremendous energy, deep commitment and brilliant mind. Commenting on Jerry's career, one of his Canadian Senate colleagues noted the daunting task of paying tribute "to a force of nature disguised as a person." A successful lawyer, businessman and member of the Liberal Party, he was summoned to the Canadian Senate in 1984. Jerry Grafstein's accomplishments over the next 25 years of public service are much more than I can relay here.

I do, however, want to highlight Jerry's prominent work with the 56 countries, 300 member OSCE Parliamentary Assembly. Serving for 6 years as the Assembly's treasurer and then, with me since 2007, as one of nine Vice Presidents, Jerry has understood the potential of this multilateral parliamentary forum to promote human rights, democracy and tolerance. Such a vital forum, however, does not just magically appear for the world's benefit. Someone has to take the time to make it function by participating as an officer, attending countless organizational meetings and, for us and our Canadian neighbors, traveling frequently across the Atlantic to do so. Jerry was one who rose to the challenge and then some.

Even as he helped on organizational matters, Jerry Grafstein found more time than most others to focus on substance. First and foremost, he has helped to lead the charge against rising anti-Semitism across Europe and around the world. Diplomacy has a tendency to soften the criticism and downplay the negative, often until it is too late, but Jerry has helped to ensure that the OSCE did not shy away from dealing directly with this and other manifestations of hate and prejudice that dangerously confront far too many societies. Today, thanks to the vigilance of Jerry Grafstein and others, efforts to promote greater tolerance are now a solid, ongoing and vital aspect of the OSCE's work.

This distinguished Senator from Canada also found time to participate and help lead OSCE PA missions observing elections and referenda in places like Russia, Ukraine, Georgia and Montenegro. By being an international observer, he became a witness to history and, in my view, helped history forward and make the world a more democratic place.

In all his public endeavors, Jerry Grafstein has been a close friend of the United States of America. He has

helped over the years to develop the bilateral dialogue between the U.S. Congress and the Canadian Parliament. He has come here to Washington on many occasions, including as a participant in Helsinki Commission events. He has always made clear that he is Canadian and proud of the country he represents, but that has never kept him from developing areas of common interest and seeking points of agreement even on some issues where our national views may otherwise diverge.

Jerry Grafstein has been and will remain a close personal friend as well, always concerned, always engaging, never pretentious. I wish him and his wife Carole the very best. Although he deserves some time off, I am confident that he will remain prominent in the life of the vibrant city of Toronto.

In noting the many accomplishments of Jerahmiel Grafstein and thanking him for his commitment to public service, I respectfully borrow the Canadian Senate's tradition and join his colleagues in saying: "Hear, Hear!" On a personal level, I believe I speak for numerous colleagues of my own in saying that Jerry will be missed, and always welcome to come and visit.●

TRIBUTE TO TOMÁS VILLANUEVA

● Mrs. MURRAY. Madam President, today I would like to take a moment to recognize a very special advocate, activist, and champion for equal rights in my home State of Washington on his birthday.

Tomás Villanueva has been a farmworkers, warehouse packers, and other economically disadvantaged laborers advocate since the early 1960s. Tomás was one of the first people involved in the United Farmworkers Union in my home State and has fought for years to ensure that workers are treated with dignity, respect, and under the protections of the law.

Tomás' involvement with the human rights movement began in the early 1960s when he was inspired by UFW leader Cesar Chavez. And since that time, Tomás has fought for numerous causes and people while maintaining his reputation as a kind, generous, compassionate and humble leader.

Tomás has also been a close friend and partner of mine for a very long time. He has helped my staff and I recognize the depth of the difficult conditions that farmworkers face, and has been a consistent voice in fighting to improve conditions through the legislative process.

Farmworker housing is a moral issue, an economic issue, and a family issue. Too many workers and their families face very difficult living conditions. Some live in their cars. Others share run-down, overcrowded rooms with other families. These are not the kinds of living conditions we can tolerate in the United States in the 21st

century. They are certainly not suitable for the people who help put food on our tables and who keep our State's economy strong. Tomás knows that we can and must do better.

Tomás Villanueva was 14 when his family emigrated from Mexico. After following the crops for three years, the family settled in Toppenish, Washington in 1958. Tomás spent the next several years working various jobs before earning a high school GED and enrolling in Yakima Valley College.

Hearing about Cesar Chavez's United Farm Workers movement, Tomás travelled to California in 1967 to learn about organizing. Returning to the Yakima Valley, he helped found the United Farm Worker Cooperative, one of the very first Chicano organizations in the State of Washington.

From 1967 to 1974, Tomás devoted himself to farm worker organizing and Chicano movement activism. Out of these efforts came the Yakima Valley Farmworkers Clinic, the United Farm Workers Service Center, a wave of hop harvest strikes in 1969, 1970, 1971, and a successful grape boycott.

In 1974, Tomás started a construction company with his father and brothers, but in the 1980s he was back in the union movement. In 1986 he became the first president of the newly formed United Farm Workers of Washington State. Today he lives in Toppenish and remains active in State and local politics.

Tomás Villanueva continues to be a valued friend, hard-working partner, and widely-respected leader in his community. I am so pleased to recognize his lifetime of achievements on this special day.●

RECOGNIZING SUTHERLAND WESTON MARKETING COMMUNICATIONS

● Ms. SNOWE. Madam President, as we approach the holiday season, we are frequently reminded of the generosity and warmth that Americans demonstrate year in and year out at this most festive time. In particular, we often hear stories of employees at local businesses who graciously donate their time and efforts to help the less fortunate. This week I wish to recognize the employees of one such company who consistently work to improve the lot of everyone in their community.

Sutherland Weston Marketing Communications of Bangor is a cutting-edge firm that specializes in a host of marketing topics, including public relations, media, and branding. Specifically, the company helps its customers design memorable flyers and mailers, effective television advertisements, and state-of-the-art Web sites, and teaches them the increased value of employing popular social media, such as Facebook and Twitter, in their marketing decisions. Since its inception in

2005, Sutherland Weston has assisted dozens of clients throughout Maine seeking ways to enhance their image and broaden their customer base. Among them are local small businesses such as Maine Wood Concepts of Guilford and Raye's Mustard Mill of Eastport; organizations like the Bangor Symphony Orchestra; and institutions such as the University of Maine.

Furthermore, members of the Sutherland Weston team participate regularly in conferences and seminars to better educate the public on how to maximize marketing strategies. One such event is the Social Media 101 seminar, held this past March, where the firm's owners—Elizabeth Sutherland and Cary Weston—presented a workshop designed at increasing the professional use of sites such as Facebook, Twitter, and LinkedIn.

The nine employees of Sutherland Weston are also active members of the greater Bangor community, contributing to various philanthropic endeavors on a regular basis. This past June, the company took part in the 25th Trek Across Maine in support of the American Lung Association. The "Green Marketeers," including Sutherland Weston employees, spouses, and friends, took to their bicycles for the 180-mile trip from Bethel's Sunday River mountain to the coastal town of Belfast, raising nearly \$8,000 in pledges along the way.

Additionally, in recognition of the true meaning of Christmas, the company's employees donated time and talent this year to creating a new, user-friendly Web site called Christmas is for Kids, a critical program that facilitates donations of holiday gifts for underprivileged children across Maine. The Web site allows users to find the name and hometown of a child, as well as the specific gift he or she is requesting, adding a personal touch to the experience. Donors indicate which gift they are willing to purchase so that it can be removed from the listing, doing their best to ensure that no child is left out. Several sponsors have suggested that because of Sutherland Weston's noteworthy Web site, 2009 may be the most successful season in the program's 27-year history.

As we look forward to celebrating the upcoming holidays with our loved ones, let us take a moment to remember those experiencing sorrow during this joyous season. And let us also recognize those who are working in every community across the country to make someone's day brighter through deeds great and small. I thank Elizabeth Sutherland, Cary Weston, and everyone at Sutherland Weston Marketing Communications for their selfless gift this holiday season, and wish them continued success in their future endeavors. ●

MESSAGES FROM THE HOUSE

At 11:49 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1084. An act to require the Federal Communications Commission to prescribe a standard to preclude commercials from being broadcast at louder volumes than the program material they accompany.

H.R. 1517. An act to allow certain U.S. Customs and Border Protection employees who serve under an overseas limited appointment for at least 2 years, and whose service is rated fully successful or higher throughout that time, to be converted to a permanent appointment in the competitive service.

H.R. 2194. An act to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran.

H.R. 3978. An act to amend the Implementing Recommendations of the 9/11 Commission Act of 2007 to authorize the Secretary of Homeland Security to accept and use gifts for otherwise authorized activities of the Center for Domestic Preparedness that are related to preparedness for and response to terrorism, and for other purposes.

The message also announced that the House has passed the following bill, without amendment:

S. 1472. An act to establish a section within the Criminal Division of the Department of Justice to enforce human rights laws, to make technical and conforming amendments to criminal and immigration laws pertaining to human rights violations, and for other purposes.

The message further announced that the House has agreed to the following concurrent resolution:

H. Con. Res. 223. Concurrent resolution providing for the sine die adjournment of the first session of the One Hundred Eleventh Congress.

At 2:10 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House agreed to the amendment of the Senate to the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; with an amendment, in which it requests the concurrence of the Senate.

At 5:29 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1110. An act to amend title 18, United States Code, to prevent caller ID spoofing, and for other purposes.

H.R. 4314. An act to permit continued financing of Government operations.

H.J. Res. 64. Joint resolution making further continuing appropriations for fiscal year 2010, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 160. Concurrent resolution recognizing the contributions of the American Kennel Club.

MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 1084. An act to require the Federal Communications Commission to prescribe a standard to preclude commercials from being broadcast at louder volumes than the program material they accompany; to the Committee on Commerce, Science, and Transportation.

H.R. 1110. An act to amend title 18, United States Code, to prevent caller ID spoofing, and for other purposes; to the Committee on the Judiciary.

H.R. 1517. An act to allow certain U.S. Customs and Border Protection employees who serve under an overseas limited appointment for at least 2 years, and whose service is rated fully successful or higher throughout that time, to be converted to a permanent appointment in the competitive service; to the Committee on Homeland Security and Governmental Affairs.

H.R. 2194. An act to amend the Iran Sanctions Act of 1996 to enhance United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran; to the Committee on Banking, Housing, and Urban Affairs.

H.R. 3978. An act to amend the Implementing Recommendations of the 9/11 Commission Act of 2007 to authorize the Secretary of Homeland Security to accept and use gifts for otherwise authorized activities of the Center for Domestic Preparedness that are related to preparedness for and response to terrorism, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 160. Concurrent resolution honoring the American Kennel Club; to the Committee on the Judiciary.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-4057. A communication from the Acting Administrator, Risk Management Agency, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Common Crop Insurance Regulations; Basic Provision" ((7 CFR Part 457 (RIN0563-AC23))) received in the Office of the President of the Senate on December 8, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4058. A communication from the Acting Farm Bill Coordinator, Commodity Credit Corporation, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Agricultural Management Assistance Program" (RIN0578-AA50) received in the Office of the President of the Senate on December 14, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4059. A communication from the Acting Farm Bill Coordinator, Commodity Credit Corporation, Department of Agriculture,

transmitting, pursuant to law, the report of a rule entitled "Regional Equity" (RIN0578-AA44) received in the Office of the President of the Senate on December 14, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4060. A communication from the Administrator, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Potato Research and Promotion Plan; Assessment Increase" (Docket No. AMS-FV-09-0024; FV-09-706FR) received in the Office of the President of the Senate on December 14, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4061. A communication from the Administrator, Fruit and Vegetable Programs, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Vegetable Import Regulations; Modification of Potato Import Regulations" (Docket No. AMS-FV-08-0018; FV08-980-1 FR) received in the Office of the President of the Senate on December 14, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4062. A communication from the Regulatory Officer, Foreign Agricultural Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "McGovern Dole International Food for Education and Child Nutrition Program and Food for Progress Program" (RIN0551-AA78) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4063. A communication from the Regulatory Officer, Foreign Agricultural Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Adjustment of Appendices to the Dairy Tariff-Rate Import Quota Licensing Regulation for the 2009 Tariff-Rate Quota Year" (7 CFR Part 6) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4064. A communication from the Regulatory Officer, Foreign Agricultural Service, Department of Agriculture, transmitting, pursuant to law, the report of a rule entitled "Technical Assistance for Specialty Crops" (RIN0551-AA71) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-4065. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Section 807(e)(4) Exception for Section 338 Regulations" (Notice No. 2010-1) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4066. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Remedial Amendment Period and Reliance for Section 403(b) Plans" (Announcement 2009-89) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4067. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Interim Guidance on Interactions with Foreign Tax Officials" (LMSB-4-0409-013) received in the Office of

the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4068. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Revenue Ruling: 94X Examples" (Rev. Rul. 2009-39) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4069. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Production Tax Credits for Refined Coal" (Notice No. 2009-90) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4070. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "2009 Base Period T-Bill Rate" (Rev. Rul. 2009-36) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4071. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Update of Weighted Average Interest Rates, Yield Curves, and Segment Rates" (Notice 2009-96) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4072. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Salvage Discount Factors for 2009" (Rev. Proc. 2009-56) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4073. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "2010 Standard Mileage Rates" (Rev. Proc. 2009-54) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4074. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Extension of Attributed Tip Income Program (ATIP)" (Rev. Proc. 2009-53) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Finance.

EC-4075. A communication from the Chairman of the Securities and Exchange Commission, transmitting, pursuant to law, a report entitled "2008 Annual Report of the Securities Investor Protection Corporation"; to the Committee on Banking, Housing, and Urban Affairs.

EC-4076. A communication from the Acting Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Implementation of the Wassenaar Arrangement's (WA) Task Force on Editorial Issues (TFEI) Revisions" (RIN0694-AE71) received in the Office of the President of the Senate on December 4, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-4077. A communication from the Assistant to the Board of Governors, Federal Reserve System, transmitting, pursuant to law, the report of a rule entitled "Risk-Based Capital Guidelines; Capital Adequacy Guidelines; Capital Maintenance; Capital—Residential Mortgage Loans Modified Pursuant to the Home Affordable Mortgage Program" (Docket No. R-1361) received in the Office of the President of the Senate on December 4, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-4078. A communication from the Assistant to the Board of Governors, Federal Reserve System, transmitting, pursuant to law, the report of a rule entitled "Risk-Based Capital Guidelines; Capital Adequacy Guidelines; Capital Maintenance; Capital—Residential Mortgage Loans Modified Pursuant to the Home Affordable Mortgage Program" (RIN1550-AC34) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-4079. A communication from the Legal Information Assistant, Office of Thrift Supervision, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Final Model Privacy Form Under the Gramm-Leach-Bliley Act" (RIN1550-AC12) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-4080. A communication from the Deputy to the Chairman for External Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled "Interest on Deposits" (RIN3064-AD46) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-4081. A communication from the Deputy to the Chairman for External Affairs, Federal Deposit Insurance Corporation, transmitting, pursuant to law, the report of a rule entitled "Risk-Based Capital Guidelines; Capital Adequacy Guidelines; Capital Maintenance; Capital—Residential Mortgage Loans Modified Pursuant to the Home Affordable Mortgage Program" (RIN3064-AD42) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-4082. A communication from the Director, Minerals Management Service, Department of the Interior, transmitting, pursuant to law, a report entitled "Report to Congress: Minerals Management Service Royalty in Kind Operation Program" for Fiscal Year 2008; to the Committee on Energy and Natural Resources.

EC-4083. A communication from the Assistant General Counsel for Legislation, Regulation and Energy Efficiency, Department of Energy, transmitting, pursuant to law, the report of a rule entitled "Loan Guarantees for Projects That Employ Innovative Technologies" (RIN1901-AB27) received in the Office of the President of the Senate on December 8, 2009; to the Committee on Energy and Natural Resources.

EC-4084. A communication from the Division Chief of Regulatory Affairs, Bureau of Land Management, Department of the Interior, transmitting, pursuant to law, the report of a rule entitled "Oil and Gas Leasing; National Petroleum Reserve, Alaska" (RIN1004-AD87) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Energy and Natural Resources.

EC-4085. A communication from the General Counsel, Federal Energy Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled "Mandatory Reliability Standards for the Calculation of Available Transfer Capability, Capacity Benefit Margins, Transmission Reliability Margins, Total Transfer Capability, and Existing Transmission Commitments and Mandatory Reliability Standards for the Bulk-Power System" (Docket Nos. RM08-19-000, RM08-19-001, RM09-5-000, RM06-16-005) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Energy and Natural Resources.

EC-4086. A communication from the Director of Congressional Affairs, Office of Administration, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled "Administrative Changes: Clarification of the Location of Guidance for Electronic Submission and other Miscellaneous Corrections" (RIN3150-AI73) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Environment and Public Works.

EC-4087. A communication from the Deputy Assistant Administrator, Bureau for Legislative and Public Affairs, U.S. Agency for International Development, transmitting, pursuant to law, the Agency's response to the GAO report entitled "Rebuilding IRAQ: Improved Management Controls and Iraqi Commitment Needed for Key State and USAID Capacity-Building Programs"; to the Committee on Foreign Relations.

EC-4088. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to law, the report of a rule entitled "Visas: Documentation of Immigrants and Non-immigrants-Visa Classification Symbols" received in the Office of the President of the Senate on December 9, 2009; to the Committee on Foreign Relations.

EC-4089. A communication from the Deputy Director of Regulations and Policy Management Staff, Food and Drug Administration, Department of Health and Human Services, transmitting, pursuant to law, the report of a rule entitled "Organ-Specific Warnings; Antipyretic, and Antirheumatic Drug Products for Over-the-Counter Human Use; Final Monograph; Technical Amendment" (Docket No. FDA-1977-N-0013) received in the Office of the President of the Senate on December 9, 2009; to the Committee on Health, Education, Labor, and Pensions.

EC-4090. A communication from the Assistant General Counsel for Regulatory Services, Office of Elementary and Secondary Education, Department of Education, transmitting, pursuant to law, the report of a rule entitled "State Fiscal Stabilization Fund Program" (RIN1810-AB04) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Health, Education, Labor, and Pensions.

EC-4091. A communication from the Director of Regulations and Rulings, Alcohol and Tobacco Tax and Trade Bureau, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Establishment of the Calistoga Viticultural Area (2003R-496P)" (RIN1513-AA92) received in the Office of the President of the Senate on December 10, 2009; to the Committee on the Judiciary.

EC-4092. A communication from the Staff Director, United States Commission on Civil Rights, transmitting, pursuant to law, the report of the appointment of members to the Massachusetts Advisory Committee; to the Committee on the Judiciary.

EC-4093. A communication from the Principal Deputy Assistant Attorney General, Office of Legislative Affairs, Department of Justice, transmitting, pursuant to law, a report entitled "Report to the Nation 2009"; to the Committee on the Judiciary.

EC-4094. A communication from the National Executive Secretary, Navy Club of the United States of America, transmitting, pursuant to law, a report relative to the national financial statement of the organization and national staff and convention minutes for the year ending July 31, 2009; to the Committee on the Judiciary.

EC-4095. A communication from the Chairman of the National Transportation Safety Board, transmitting, pursuant to law, the report of a rule entitled "Notification and Reporting of Aircraft Accidents or Incidents and Overdue Aircraft, and Preservation of Aircraft Wreckage, Mail, Cargo, and Records" received in the Office of the President of the Senate on December 10, 2009; to the Committee on Commerce, Science, and Transportation.

EC-4096. A communication from the Deputy Chief Counsel of the Office of Regulations and Security Standards, Transportation Security Administration, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "False Statements Regarding Security Background Checks" (RIN1652-AA65) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Commerce, Science, and Transportation.

EC-4097. A communication from the Trial Attorney, Federal Railroad Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Adjustment of the Monetary Threshold for Reporting Rail Equipment Accidents/Incidents for Calendar Year 2010" (RIN2130-ZA02) received in the Office of the President of the Senate on December 10, 2009; to the Committee on Commerce, Science, and Transportation.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. INOUE, from the Committee on Appropriations:

Special Report entitled "Further Revised Allocation to Subcommittees of Budget Totals From the Concurrent Resolution, Fiscal Year 2010." (Rept. No. 111-109).

By Mrs. LINCOLN, from the Committee on Agriculture, Nutrition, and Forestry, without amendment:

H.R. 310. A bill to provide for the conveyance of approximately 140 acres of land in the Ouachita National Forest in Oklahoma to the Indian Nations Council, Inc., of the Boy Scouts of America, and for other purposes.

H.R. 511. A bill to authorize the Secretary of Agriculture to terminate certain easements held by the Secretary on land owned by the Village of Caseyville, Illinois, and to terminate associated contractual arrangements with the Village.

By Mrs. LINCOLN, from the Committee on Agriculture, Nutrition, and Forestry, without amendment and with a preamble:

S. Res. 374. A resolution recognizing the cooperative efforts of hunters, sportsmen's associations, meat processors, hunger relief organizations, and State wildlife, health, and food safety agencies to establish programs that provide game meat to feed the hungry.

By Mr. BINGAMAN, from the Committee on Energy and Natural Resources, without amendment:

S. 1672. A bill to reauthorize the National Oilheat Research Alliance Act of 2000.

By Mr. DORGAN, from the Committee on Indian Affairs, with amendments:

S. 1790. A bill to amend the Indian Health Care Improvement Act to revise and extend that Act, and for other purposes.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mrs. LINCOLN for the Committee on Agriculture, Nutrition, and Forestry.

*Jill Long Thompson, of Indiana, to be a Member of the Farm Credit Administration Board, Farm Credit Administration, for a term expiring May 21, 2014.

By Mr. LIEBERMAN for the Committee on Homeland Security and Governmental Affairs.

*Elizabeth M. Harman, of Maryland, to be an Assistant Administrator of the Federal Emergency Management Agency, Department of Homeland Security.

*Grayling Grant Williams, of Maryland, to be Director of the Office of Counternarcotics Enforcement, Department of Homeland Security.

By Mr. AKAKA for the Committee on Veterans' Affairs.

*Robert A. Petzel, of Minnesota, to be Under Secretary for Health of the Department of Veterans Affairs.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Ms. LANDRIEU (for herself and Ms. KLOBUCHAR):

S. 2885. A bill to amend the Omnibus Crime Control and Safe Streets Act of 1968 to provide adequate benefits for public safety officers injured or killed in the line of duty, and for other purposes; to the Committee on the Judiciary.

By Ms. CANTWELL (for herself, Mr. MCCAIN, and Mr. FEINGOLD):

S. 2886. A bill to prohibit certain affiliations (between commercial banking and investment banking companies), and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

By Mrs. MURRAY:

S. 2887. A bill to amend title V of the Elementary and Secondary Education Act of 1965 to reduce class size through the use of highly qualified teachers, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. ROCKEFELLER (for himself, Mrs. HUTCHISON, Mr. LAUTENBERG, Mr. THUNE, and Mr. DORGAN):

S. 2889. A bill to reauthorize the Surface Transportation Board, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. FEINGOLD:

S. 2890. A bill to amend the Buy American Act to increase the requirement for American-made content, to tighten the waiver provisions, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

By Mr. REID (for himself, Mr. ENSIGN, Mrs. FEINSTEIN, and Mrs. BOXER):

S. 2891. A bill to further allocate and expand the availability of hydroelectric power generated at Hoover Dam, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. SHELBY (for himself and Mr. SESSIONS):

S. 2892. A bill to establish the Alabama Black Belt National Heritage Area, and for other purposes; to the Committee on Energy and Natural Resources.

By Mr. SCHUMER:

S. 2893. A bill to amend the Controlled Substances Import and Export Act to prevent the use of Indian reservations located on the United States borders to facilitate cross-border drug trafficking, and for other purposes; to the Committee on the Judiciary.

By Mrs. GILLIBRAND:

S. 2894. A bill to amend the Internal Revenue Code to provide for a refundable tax credit for heating fuels and to create a grant program for States to provide individuals with loans to weatherize their homes; to the Committee on Finance.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. INOUE (for himself, Mr. GREGG, Mr. LIEBERMAN, and Mr. DURBIN):

S. Res. 376. A resolution honoring the 60th anniversary of the establishment of diplomatic relations between the United States and the Hashemite Kingdom of Jordan, the 10th anniversary of the accession to the throne of His Majesty King Abdullah II Ibn Al Hussein, and for other purposes; considered and agreed to.

By Mr. MENENDEZ:

S. Con. Res. 48. A concurrent resolution recognizing the leadership and historical contributions of Dr. Hector Garcia to the Hispanic community and his remarkable efforts to combat racial and ethnic discrimination in the United States of America; to the Committee on the Judiciary.

ADDITIONAL COSPONSORS

S. 678

At the request of Mr. LEAHY, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 678, a bill to reauthorize and improve the Juvenile Justice and Delinquency Prevention Act of 1974, and for other purposes.

S. 777

At the request of Mr. BROWN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 777, a bill to promote industry growth and competitiveness and to improve worker training, retention, and advancement, and for other purposes.

S. 1055

At the request of Mrs. BOXER, the name of the Senator from South Da-

kota (Mr. JOHNSON) was added as a cosponsor of S. 1055, a bill to grant the congressional gold medal, collectively, to the 100th Infantry Battalion and the 442nd Regimental Combat Team, United States Army, in recognition of their dedicated service during World War II.

S. 1067

At the request of Mr. BROWNBACK, the name of the Senator from California (Mrs. FEINSTEIN) was withdrawn as a cosponsor of S. 1067, a bill to support stabilization and lasting peace in northern Uganda and areas affected by the Lord's Resistance Army through development of a regional strategy to support multilateral efforts to successfully protect civilians and eliminate the threat posed by the Lord's Resistance Army and to authorize funds for humanitarian relief and reconstruction, reconciliation, and transitional justice, and for other purposes.

S. 1204

At the request of Mrs. MURRAY, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1204, a bill to amend the Department of Veterans Affairs Health Care Programs Enhancement Act of 2001 to require the provision of chiropractic care and services to veterans at all Department of Veterans Affairs medical centers, and for other purposes.

S. 1492

At the request of Mr. BENNET, his name was added as a cosponsor of S. 1492, a bill to amend the Public Health Service Act to fund breakthroughs in Alzheimer's disease research while providing more help to caregivers and increasing public education about prevention.

S. 1524

At the request of Mr. KERRY, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1524, a bill to strengthen the capacity, transparency, and accountability of United States foreign assistance programs to effectively adapt and respond to new challenges of the 21st century, and for other purposes.

S. 1743

At the request of Mrs. LINCOLN, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 1743, a bill to amend the Internal Revenue Code of 1986 to expand the rehabilitation credit, and for other purposes.

S. 1809

At the request of Mr. WICKER, the name of the Senator from Mississippi (Mr. COCHRAN) was added as a cosponsor of S. 1809, a bill to amend the Clean Air Act to promote the certification of aftermarket conversion systems and thereby encourage the increased use of alternative fueled vehicles.

S. 1859

At the request of Mr. ROCKEFELLER, the name of the Senator from Ohio

(Mr. BROWN) was added as a cosponsor of S. 1859, a bill to reinstate Federal matching of State spending of child support incentive payments.

S. 2052

At the request of Mr. UDALL of Colorado, the names of the Senator from Louisiana (Ms. LANDRIEU) and the Senator from Idaho (Mr. RISCH) were added as cosponsors of S. 2052, a bill to amend the Energy Policy Act of 2005 to require the Secretary of Energy to carry out a research and development and demonstration program to reduce manufacturing and construction costs relating to nuclear reactors, and for other purposes.

S. 2129

At the request of Ms. COLLINS, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of S. 2129, a bill to authorize the Administrator of General Services to convey a parcel of real property in the District of Columbia to provide for the establishment of a National Women's History Museum.

S. 2847

At the request of Mr. WHITEHOUSE, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 2847, a bill to regulate the volume of audio on commercials.

S. 2852

At the request of Mr. BEGICH, the name of the Senator from Texas (Mrs. HUTCHISON) was added as a cosponsor of S. 2852, a bill to establish, within the National Oceanic and Atmospheric Administration, an integrated and comprehensive ocean, coastal, Great Lakes, and atmospheric research, prediction, and environmental information program to support renewable energy.

S. 2853

At the request of Mr. GREGG, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 2853, a bill to establish a Bipartisan Task Force for Responsible Fiscal Action, to assure the long-term fiscal stability and economic security of the Federal Government of the United States, and to expand future prosperity growth for all Americans.

S. 2859

At the request of Mr. INOUE, the name of the Senator from Florida (Mr. LEMIEUX) was added as a cosponsor of S. 2859, a bill to reauthorize the Coral Reef Conservation Act of 2000, and for other purposes.

S. 2862

At the request of Ms. SNOWE, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 2862, a bill to amend the Small Business Act to improve the Office of International Trade, and for other purposes.

S. 2869

At the request of Ms. LANDRIEU, the names of the Senator from Indiana (Mr. BAYH), the Senator from Georgia

(Mr. ISAKSON) and the Senator from California (Mrs. FEINSTEIN) were added as cosponsors of S. 2869, a bill to increase loan limits for small business concerns, to provide for low interest refinancing for small business concerns, and for other purposes.

S. 2871

At the request of Mr. INOUE, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 2871, a bill to make technical corrections to the Western and Central Pacific Fisheries Convention Implementation Act, and for other purposes.

S. RES. 374

At the request of Mrs. LINCOLN, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. Res. 374, a resolution recognizing the cooperative efforts of hunters, sportsmen's associations, meat processors, hunger relief organizations, and State wildlife, health, and food safety agencies to establish programs that provide game meat to feed the hungry.

AMENDMENT NO. 2790

At the request of Mr. CASEY, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of amendment No. 2790 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2866

At the request of Mr. SPECTER, the name of the Senator from Colorado (Mr. UDALL) was added as a cosponsor of amendment No. 2866 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2938

At the request of Mrs. GILLIBRAND, the name of the Senator from Hawaii (Mr. AKAKA) was added as a cosponsor of amendment No. 2938 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2976

At the request of Mr. CARDIN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of amendment No. 2976 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2993

At the request of Mr. SCHUMER, the name of the Senator from Indiana (Mr.

BAYH) was added as a cosponsor of amendment No. 2993 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 2997

At the request of Ms. KLOBUCHAR, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of amendment No. 2997 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 3073

At the request of Mrs. FEINSTEIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of amendment No. 3073 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 3085

At the request of Mrs. LINCOLN, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of amendment No. 3085 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 3136

At the request of Mr. UDALL of New Mexico, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of amendment No. 3136 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 3227

At the request of Mr. CARDIN, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of amendment No. 3227 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 3228

At the request of Ms. LANDRIEU, the names of the Senator from New York (Mrs. GILLIBRAND) and the Senator from Pennsylvania (Mr. SPECTER) were added as cosponsors of amendment No. 3228 intended to be proposed to H.R.

3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

AMENDMENT NO. 3241

At the request of Mr. CARPER, the name of the Senator from New Hampshire (Mr. GREGG) was added as a cosponsor of amendment No. 3241 intended to be proposed to H.R. 3590, a bill to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Ms. CANTWELL (for herself, Mr. MCCAIN, and Mr. FEINGOLD):
S. 2886. A bill to prohibit certain affiliations (between commercial banking and investment banking companies), and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. MCCAIN. Mr. President, I am pleased to be joining my friend and colleague from Washington, Senator CANTWELL, to introduce the Banking Integrity Act of 2009. My reasons for joining this effort are simple—I want to ensure that we never stick the American taxpayer with another \$700 billion tab to bail out the financial industry. If big Wall Street institutions want to take part in risky transactions—fine. But we should not allow them to do so with federally insured deposits.

Paul Volcker, a top economist in the Obama administration and former Federal Reserve Chairman, wants the nation's banks to be prohibited from owning and trading risky securities, the very practice that got the biggest ones into deep trouble in 2008. The administration is saying no, it will not separate commercial banking from investment operations. Mr. Volcker argues that regulation by itself will not work. Sooner or later, the giants, in pursuit of profits, will get into trouble. The administration should accept this and shield commercial banking from Wall Street's wild ways. "The banks are there to serve the public," Mr. Volcker said, "and that is what they should concentrate on. These other activities create conflicts of interest. They create risks, and if you try to control the risks with supervision, that just creates friction and difficulties" and ultimately fails.

The bill we are introducing today precludes any member bank of the Federal Reserve System from being affiliated with any entity or organization that is engaged principally in the issue, flotation, underwriting, public sale or distribution of stocks, bonds, debentures or other securities. Essentially,

commercial banks may no longer intermingle their business activities with investment banks. It is that simple.

Since the repeal of the Glass Steagall Act in 1999, this country has seen a new culture emerge in the financial industry: one of dangerous greed and excessive risk-taking. Commercial banks traditionally used people's deposits for the constructive purpose of main street loans. They did not engage in high risk ventures. Investment banks, however, managed rich people's money—those who can afford to take bigger risks in order to get a bigger return, and who bore their own losses. When these two worlds collided, the investment bank culture prevailed, cutting off the credit lifeblood of main street firms, demanding greater returns that were achievable only through high leverage and huge risk taking, and leaving taxpayers with the fallout.

When the glass wall dividing banks and securities firms was shattered, common sense and caution went out the door. The new mantra of "bigger is better" took over—and the path forward focused on short-term gains rather than long-term planning. Banks became overleveraged in their haste to keep up in the race. The more they lent, the more they made. Aggressive mortgages were underwritten for unqualified individuals who became homeowners saddled with loans they couldn't afford. Banks turned right around and bought portfolios of these shaky loans.

Sub-prime loans made up only five percent of all mortgage lending in 1998, but by the time the financial crisis peaked in late 2008, they were approaching 30 percent. Since January 2008, we have seen 159 state and national banks fail. In my home State of Arizona, five banks have shut their doors, leaving small businesses scrambling to find credit from other banks that may have already been overleveraged.

Banks sold sub-prime mortgages to their affiliates and other securities firms for securitization, while other financial institutions made risky bets on these and other assets for which they had no financial interest. As the market grew bigger, its foundation became shakier. It was like a house of cards waiting to fall, and fall it did.

In October 2008, the financial system was on the brink of collapse when Congress was forced to risk \$700 billion of taxpayer dollars to bail out the industry. These financial institutions had become "too big to fail." In fact, the special inspector general of the Troubled Asset Relief Program, TARP, testified before Congress earlier this year that "total potential Federal Government support could reach \$23.7 trillion" to stabilize and support the financial system. Ironically, some of these "too big to fail" institutions have now become even bigger. An edi-

torial from yesterday's New York Times stated:

The truth is that the taxpayers are still very much on the hook for a banking system that is shaping up to be much riskier than the one that led to disaster.

Big bank profits, for instance, still come mostly courtesy of taxpayers. Their trading earnings are financed by more than a trillion dollars' worth of cheap loans from the Federal Reserve, for which some of their most noxious assets are collateral. They benefit from immense federal loan guarantees, but they are not lending much. Lending to business, notably, is very tight.

What profits the banks make come mostly from trading. Many big banks are happy to depend on the lifeline from the Fed and hang onto their toxic assets hoping for a rebound in prices. And the whole system has grown more concentrated. Bank of America was considered too big to fail before the meltdown. Since then, it has acquired Merrill Lynch. Wells Fargo took over Wachovia. JPMorgan Chase gobbled up Bear Stearns.

If the goal is to reduce the number of huge banks that taxpayers must rescue at any cost, the nation is moving in the wrong direction. The growth of the biggest banks ensures that the next bailout will have to be even bigger. These banks will be more likely to take on excessive risk because they have the implicit assurance of rescue.

Excess was a common theme for banks/financial institutions in the mid-2000s—excessive risk, excessive bonuses. Times were good at Merrill Lynch in 2006 when the firm's risky mortgage business was booming. The firm made record earnings of \$7.5 billion that year and paid out bonuses of \$5 billion to \$6 billion. Fast forward to late 2008 when Merrill's gambling left it in deep financial despair with losses exceeding \$27 billion. Yet we witnessed the firm pay out another \$3.6 billion in bonuses just before it was acquired by Bank of America.

Merrill Lynch wasn't alone in excess and greed. Citigroup posted a net loss of nearly \$28 billion in 2008, yet paid out \$5.3 billion in bonuses. Although Goldman Sachs earned only \$2.3 billion, it paid out \$4.8 billion in bonuses. Morgan Stanley earned \$1.7 billion, and paid out nearly \$4.5 billion in bonuses. JPMorgan Chase earned \$5.6 billion and paid \$8.7 billion in bonuses. If a company doesn't make money, how can it pay these bonuses? In this case, each of these firms was a recipient of billions in taxpayer-funded TARP money.

The Federal Government has set a dangerous precedent here. We sent the wrong message to the financial industry: you engage in bad, risky business practices, and when you get into trouble, the government will be there to save your hide. Many would call it a moral hazard. I call it a taxpayer-funded subsidy for risky behavior.

The consolidation of the banking world was also riddled with conflicts of interest, despite the purported firewalls that were put into place. If an investment bank had underwritten shares for a company that was now in financial trouble, the investment

bank's commercial arm would feel pressure to lend the company money, despite the lack of merits to do so. The Banking Integrity Act of 2009 would eliminate some of these conflicts.

Today, it is time to put a stop to the taxpayer-financed excesses of Wall Street. No single financial institution should be so big that its failure would bring ruin to our economy and destroy millions of American jobs. This country would be better served if we limit the activities of these financial institutions. Banks should accept consumer deposits and invest conservatively, while investment banks engage in underwriting and sales of securities.

I urge my colleagues to support this bill.

By Mr. CARDIN:

S. 2888. A bill to amend section 205 of title 18, United States Code, to exempt qualifying law school students participating in legal clinics from the application of the general conflict of interest rules under such section; to the Committee on the Judiciary.

Mr. CARDIN. Mr. President, I have introduced the Law Student Participation Act of 2009.

The bill creates exceptions to Federal conflicts of interest law which generally prohibits Federal employees from acting as an attorney or agent in a matter adverse to the U.S. government. The legislation directs the exceptions to Federal employees attending law school and participating in legal clinics and employees of the District of Columbia who staff legal clinics. Where the Federal employee has participated personally and substantially in the matter or the matter is before the employee's particular agency or department, specific conflicts of interest provisions still apply. The current law is over broad and denies learning and teaching opportunities where no real conflict may exist.

Law schools, including schools in my home State, have voiced concern over the present law. Some of these schools include the University of Maryland, the University of the District of Columbia, and Georgetown University School of Law. The schools have related stories of students, who are Federal employees, regulated to clinics dealing only with state matters. In other instances a student might start working on a client's matter, but will be unable to continue once the matter goes to trial or before an administrative proceeding. Law schools complain that under such circumstances the client's right to effective counsel is diminished. Due to a requirement I championed, the University of Maryland School of Law faces unique challenges. Each student must provide legal services to the poor or persons who otherwise lack access to justice prior to graduation. Federal employees, unlike other students, must choose

from a smaller selection of clinics due to the current Federal conflicts of interest law. Finally, if Federal employee students seek careers in practice areas where Federal law predominates, they likely will obtain no practical clinic experience in law school.

It should be noted that the Office of Government Ethics, OGE, and the Department of Justice are aware of the text of the bill. Both have conveyed informally that they do not have problems with this legislation. The OGE released a report in 2006 that was critical of current Federal conflict of interest law as being overbroad and specifically pointed out that volunteer work was frequently barred even when no potential for conflict of interest existed.

The current law deprives law students who are Federal employees of valuable practical educational opportunities. Ultimately participation in these clinics would result in better attorneys many of whom later go on to work for the Federal government.

By Mr. FEINGOLD:

S. 2890. A bill to amend the Buy American Act to increase the requirement for American-made content, to tighten the waiver provisions, and for other purposes; to the Committee on Homeland Security and Governmental Affairs.

Mr. FEINGOLD. Mr. President, today I am introducing legislation to help American workers and companies.

The bill that I am introducing, the Buy American Improvement Act, focuses on the Federal Government's responsibility to support domestic manufacturers and workers and on the role of Federal procurement policy in achieving this goal. The reintroduction of this bill, which I first introduced in 2003, is part of my ongoing efforts to support American workers and manufacturing.

The Buy American Act of 1933 is the primary statute that governs Federal procurement. The name of this law accurately describes its purpose: to ensure that the Federal Government supports domestic companies and domestic workers by buying American-made goods. Regrettably, this law contains a number of loopholes that make it too easy for government agencies to buy foreign-made goods.

My bill, the Buy American Improvement Act, would strengthen the existing law by tightening its waiver provisions. Currently, the heads of Federal departments and agencies are given broad discretion to waive the act and buy foreign goods with little or no accountability. We should ensure that the Federal Government makes every

effort to give Federal contracts to companies that will perform the work domestically. We should also ensure that certain types of industries do not leave the U.S. completely, thus making the Federal Government dependent on foreign sources for goods, such as plane or ship parts, that our military may need to acquire on short notice.

With unemployed workers in the U.S. facing a double-digit unemployment rate, the highest rate since 1983, it is critical Congress back efforts to support American workers. Many unemployed American workers are currently facing persistently long periods of unemployment; data from the Department of Labor showed that in October of this year, over 35 percent of unemployed workers had been without jobs for at least 27 weeks. Since December of 2007, the number of unemployed workers in the U.S. has grown by over 8 million, with manufacturing and construction workers being particularly hard-hit. We need to do all we can to promote fiscally responsible Federal policies that support the creation of American jobs to help get the unemployed and underemployed back to work. A strong Buy American Act should be part of the Federal effort to create and retain American jobs.

During another period of economic upheaval in the 1930s, Congress passed a series of laws designed to promote job growth in the U.S., including the Buy American Act of 1933, 41 U.S.C. §10a-10d. The Buy American Act requires the Federal Government to support domestic manufacturers and workers by purchasing American-made goods. Over the years, other domestic sourcing legislation has been passed to help support American industry, including the Buy America Act, 23 U.S.C. §313, which applies to Federal transportation funding. In addition, Congress included domestic sourcing requirements in the American Recovery and Reinvestment Act, P.L. 111-5, earlier this year because it recognized the importance of supporting American workers and American industry. My legislation would help American industry by making it more difficult to waive the Buy American Act and help ensure the Federal Government does all it can to support American workers.

I have a long record of supporting efforts to help taxpayers get the most bang for their buck and opposing wasteful Federal spending. I don't think anyone can argue that supporting American jobs is "wasteful." We owe it to American manufacturers and their employees to make sure they get a fair shake. I would not support

awarding a contract to an American company that is price-gouging, but we should make every effort to ensure that domestic sources for goods needed by the Federal Government do not dry up because American companies have been slightly underbid by foreign competitors.

The gaping loopholes in the Buy American Act and the trade agreements and defense procurement agreements that contain additional waivers of domestic source restrictions have combined to weaken our domestic manufacturing base by allowing—and sometimes actually encouraging—the Federal Government to buy foreign-made goods. Congress can and should do more to support American companies and American workers. We must strengthen the Buy American Act and we must stop entering into bad trade agreements that send our jobs overseas and undermine our own domestic preference laws.

By strengthening Federal procurement policy, we can help to bolster our domestic manufacturers during these difficult times. As I have repeatedly noted, Congress cannot simply stand on the sidelines while tens of thousands of American manufacturing jobs have been and continue to be shipped overseas. While there may be no single solution to this problem one way in which Congress should act is by strengthening the Buy American Act.

By Mr. REID (for himself, Mr. ENSIGN, Mrs. FEINSTEIN, and Mrs. BOXER):

S. 2891. A bill to further allocate and expand the availability of hydroelectric power generated at Hoover Dam, and for other purposes; to the Committee on Energy and Natural Resources.

Mr. REID. Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 2891

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Hoover Power Allocation Act of 2009".

SEC. 2. ALLOCATION OF CONTRACTS FOR POWER.

(a) SCHEDULE A POWER.—Section 105(a)(1)(A) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)(1)(A)) is amended—

- (1) by striking "renewal";
- (2) by striking "June 1, 1987" and inserting "October 1, 2017"; and
- (3) by striking Schedule A and inserting the following:

“SCHEDULE A

Long term Schedule A contingent capacity and associated firm energy for offers of contracts to Boulder Canyon project contractors

Contractor	Contingent capacity (kW)	Firm Energy (thousands of kWh)		
		Summer	Winter	Total
Metropolitan Water District of Southern California	249,948	859,163	368,212	1,227,375
City of Los Angeles	495,732	464,108	199,175	663,283
Southern California Edison Company	280,245	166,712	71,448	238,160
City of Glendale	18,178	45,028	19,297	64,325
City of Pasadena	11,108	38,622	16,553	55,175
City of Burbank	5,176	14,070	6,030	20,100
Arizona Power Authority	190,869	429,582	184,107	613,689
Colorado River Commission of Nevada	190,869	429,582	184,107	613,689
United States, for Boulder City	20,198	53,200	22,800	76,000
Totals	1,462,323	2,500,067	1,071,729	3,571,796”.

(b) SCHEDULE B POWER.—Section 105(a)(1)(B) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)(1)(B)) is amended to read as follows:

“(B) To each existing contractor for power generated at Hoover Dam, a contract, for delivery commencing October 1, 2017, of the amount of contingent capacity and firm en-

ergy specified for that contractor in the following table:

“SCHEDULE B

Long term Schedule B contingent capacity and associated firm energy for offers of contracts to Boulder Canyon project contractors

Contractor	Contingent capacity (kW)	Firm Energy (thousands of kWh)		
		Summer	Winter	Total
City of Glendale	2,020	2,749	1,194	3,943
City of Pasadena	9,089	2,399	1,041	3,440
City of Burbank	15,149	3,604	1,566	5,170
City of Anaheim	40,396	34,442	14,958	49,400
City of Azusa	4,039	3,312	1,438	4,750
City of Banning	2,020	1,324	576	1,900
City of Colton	3,030	2,650	1,150	3,800
City of Riverside	30,296	25,831	11,219	37,050
City of Vernon	22,218	18,546	8,054	26,600
Arizona	189,860	140,600	60,800	201,400
Nevada	189,860	273,600	117,800	391,400
Totals	507,977	509,057	219,796	728,853”.

(c) SCHEDULE C POWER.—Section 105(a)(1)(C) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)(1)(C)) is amended—

(1) by striking “June 1, 1987” and inserting “October 1, 2017”; and

(2) by striking Schedule C and inserting the following:

“SCHEDULE C

Excess Energy

Priority of entitlement to excess energy	State
First: Meeting Arizona’s first priority right to delivery of excess energy which is equal in each year of operation to 200 million kilowatthours: Provided, That in the event excess energy in the amount of 200 million kilowatthours is not generated during any year of operation, Arizona shall accumulate a first right to delivery of excess energy subsequently generated in an amount not to exceed 600 million kilowatthours, inclusive of the current year’s 200 million kilowatthours. Said first right of delivery shall accrue at a rate of 200 million kilowatthours per year for each year excess energy in an amount of 200 million kilowatthours is not generated, less amounts of excess energy delivered.	Arizona
Second: Meeting Hoover Dam contractual obligations under Schedule A of subsection (a)(1)(A), under Schedule B of subsection (a)(1)(B), and under Schedule D of subsection (a)(2), not exceeding 26 million kilowatthours in each year of operation.	Arizona, Nevada, and California
Third: Meeting the energy requirements of the three States, such available excess energy to be divided equally among the States.	Arizona, Nevada, and California”.

(d) SCHEDULE D POWER.—Section 105(a) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)) is amended—

(1) by redesignating paragraphs (2), (3), and (4) as paragraphs (3), (4), and (5), respectively; and

(2) by inserting after paragraph (1) the following:

“(2)(A) The Secretary of Energy is authorized to and shall create from the apportioned allocation of contingent capacity and firm energy adjusted from the amounts authorized in this Act in 1984 to the amounts shown

in Schedule A and Schedule B, as modified by the Hoover Power Allocation Act of 2009, a resource pool equal to 5 percent of the full rated capacity of 2,074,000 kilowatts, and associated firm energy, as shown in Schedule D (referred to in this section as ‘Schedule D contingent capacity and firm energy’):

“SCHEDULE D

Long term Schedule D resource pool of contingent capacity and associated firm energy for new allottees

State	Contingent capacity (kW)	Firm Energy (thousands of kWh)		
		Summer	Winter	Total
New Entities Allocated by the Secretary of Energy	69,170	105,637	45,376	151,013
New Entities Allocated by State				
Arizona	11,510	17,580	7,533	25,113
California	11,510	17,580	7,533	25,113
Nevada	11,510	17,580	7,533	25,113
Totals	103,700	158,377	67,975	226,352

“(B) The Secretary of Energy shall offer Schedule D contingency capacity and firm energy to entities not receiving contingent capacity and firm energy under subparagraphs (A) and (B) of paragraph (1) (referred to in this section as ‘new allottees’) for delivery commencing October 1, 2017 pursuant to this subsection. In this subsection, the term ‘the marketing area for the Boulder City Area Projects’ shall have the same meaning as in Appendix A of the General Consolidated Power Marketing Criteria or Regulations for Boulder City Area Projects published in the Federal Register on December 28, 1984 (49 Fed. Reg. 50582 et seq.) (referred to in this section as the ‘Criteria’).”

“(C)(i) Within 18 months of the date of enactment of the Hoover Power Allocation Act of 2009, the Secretary of Energy shall allocate through the Western Area Power Administration (referred to in this section as ‘Western’), for delivery commencing October 1, 2017, for use in the marketing area for the Boulder City Area Projects 66.7 percent of the Schedule D contingent capacity and firm energy to new allottees that are located within the marketing area for the Boulder City Area Projects and that are—

“(I) eligible to enter into contracts under section 5 of the Boulder Canyon Project Act (43 U.S.C. 617d); or

“(II) federally recognized Indian tribes.

“(ii) In the case of Arizona and Nevada, Schedule D contingent capacity and firm energy for new allottees shall be offered through the Arizona Power Authority and the Colorado River Commission of Nevada, respectively.

“(iii) In performing its allocation of Schedule D power provided for in this subparagraph, Western shall apply criteria developed in consultation with the States of Arizona, Nevada, and California.

“(D) Within 1 year of the date of enactment of the Hoover Power Allocation Act of 2009, the Secretary of Energy also shall allocate, for delivery commencing October 1, 2017, for use in the marketing area for the Boulder City Area Projects 11.1 percent of the Schedule D contingent capacity and firm energy to each of—

“(i) the Arizona Power Authority for allocation to new allottees in the State of Arizona;

“(ii) the Colorado River Commission of Nevada for allocation to new allottees in the State of Nevada; and

“(iii) Western for allocation to new allottees within the State of California.

“(E) Each contract offered pursuant to this subsection shall include a provision requiring the new allottee to pay a proportionate share of its State’s respective contribution (determined in accordance with each State’s applicable funding agreement) to the cost of the Lower Colorado River Multi-Species Conservation Program (as defined in section 9401

of the Omnibus Public Land Management Act of 2009 (Public Law 111–11; 123 Stat. 1327)), and to execute the Boulder Canyon Project Implementation Agreement Contract No. 95–PAO–10616 (referred to in this section as the ‘Implementation Agreement’).

“(F) Any of the 66.7 percent of Schedule D contingent capacity and firm energy that is to be allocated by Western that is not allocated and placed under contract by October 1, 2017, shall be returned to those contractors shown in Schedule A and Schedule B in the same proportion as those contractors’ allocations of Schedule A and Schedule B contingent capacity and firm energy. Any of the 33.3 percent of Schedule D contingent capacity and firm energy that is to be distributed within the States of Arizona, Nevada, and California that is not allocated and placed under contract by October 1, 2017, shall be returned to the Schedule A and Schedule B contractors within the State in which the Schedule D contingent capacity and firm energy were to be distributed, in the same proportion as those contractors’ allocations of Schedule A and Schedule B contingent capacity and firm energy.”

(e) TOTAL OBLIGATIONS.—Paragraph (3) of section 105(a) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)) (as redesignated as subsection (d)(1)) is amended—

(1) in the first sentence, by striking “schedule A of subsection (a)(1)(A) of this section and schedule B of subsection (a)(1)(B) of this section” and inserting “pursuant to paragraphs (1)(A), (1)(B), and (2)”; and

(2) in the second sentence—

(A) by striking “any” and inserting “each”; and

(B) by striking “schedule C” and inserting “Schedule C”; and

(C) by striking “schedules A and B” and inserting “Schedules A, B, and D”.

(f) POWER MARKETING CRITERIA.—Paragraph (4) of section 105(a) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)) (as redesignated as subsection (d)(1)) is amended to read as follows:

“(4) Subdivision E of the Criteria shall be deemed to have been modified to conform to this section, as modified by the Hoover Power Allocation Act of 2009. The Secretary of Energy shall cause to be included in the Federal Register a notice conforming the text of the regulations to such modifications.”

(g) CONTRACT TERMS.—Paragraph (5) of section 105(a) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(a)) (as redesignated as subsection (d)(1)) is amended—

(1) by striking subparagraph (A) and inserting the following:

“(A) in accordance with section 5(a) of the Boulder Canyon Project Act (43 U.S.C. 617d(a)), expire September 30, 2067;”;

(2) in the proviso of subparagraph (B)—

(A) by striking “shall use” and inserting “shall allocate”; and

(B) by striking “and” after the semicolon at the end;

(3) in subparagraph (C), by striking the period at the end and inserting a semicolon; and

(4) by adding at the end the following:

“(D) authorize and require Western to collect from new allottees a pro rata share of Hoover Dam repayable advances paid for by contractors prior to October 1, 2017, and remit such amounts to the contractors that paid such advances in proportion to the amounts paid by such contractors as specified in section 6.4 of the Implementation Agreement;

“(E) permit transactions with an independent system operator; and

“(F) contain the same material terms included in section 5.6 of those long term contracts for purchases from the Hoover Power Plant that were made in accordance with this Act and are in existence on the date of enactment of the Hoover Power Allocation Act of 2009.”

(h) EXISTING RIGHTS.—Section 105(b) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(b)) is amended by striking “2017” and inserting “2067”.

(i) OFFERS.—Section 105(c) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(c)) is amended to read as follows:

“(c) OFFER OF CONTRACT TO OTHER ENTITIES.—If any existing contractor fails to accept an offered contract, the Secretary of Energy shall offer the contingent capacity and firm energy thus available first to other entities in the same State listed in Schedule A and Schedule B, second to other entities listed in Schedule A and Schedule B, third to other entities in the same State which receive contingent capacity and firm energy under subsection (a)(2) of this section, and last to other entities which receive contingent capacity and firm energy under subsection (a)(2) of this section.”

(j) AVAILABILITY OF WATER.—Section 105(d) of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a(d)) is amended to read as follows:

“(d) WATER AVAILABILITY.—Except with respect to energy purchased at the request of an allottee pursuant to subsection (a)(3), the obligation of the Secretary of Energy to deliver contingent capacity and firm energy pursuant to contracts entered into pursuant to this section shall be subject to availability of the water needed to produce such contingent capacity and firm energy. In the event that water is not available to produce the contingent capacity and firm energy set forth in Schedule A, Schedule B, and Schedule D, the Secretary of Energy shall adjust the contingent capacity and firm energy offered under those Schedules in the same proportion as those contractors’ allocations of Schedule A, Schedule B, and Schedule D contingent capacity and firm energy bears to the full rated contingent capacity and firm energy obligations.”

(k) CONFORMING AMENDMENTS.—Section 105 of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a) is amended—

(1) by striking subsections (e) and (f); and
(2) by redesignating subsections (g), (h), and (i) as subsections (e), (f), and (g), respectively.

(l) CONTINUED CONGRESSIONAL OVERSIGHT.—Subsection (e) of section 105 of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a) (as redesignated by subsection (k)(2)) is amended—

(1) in the first sentence, by striking “the renewal of”; and

(2) in the second sentence, by striking “June 1, 1987, and ending September 30, 2017” and inserting “October 1, 2017, and ending September 30, 2067”.

(m) COURT CHALLENGES.—Subsection (f)(1) of section 105 of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a) (as redesignated by subsection (k)(2)) is amended in the first sentence by striking “this Act” and inserting “the Hoover Power Allocation Act of 2009”.

(n) REAFFIRMATION OF CONGRESSIONAL DECLARATION OF PURPOSE.—Subsection (g) of section 105 of the Hoover Power Plant Act of 1984 (43 U.S.C. 619a) (as redesignated by subsection (k)(2)) is amended—

(1) by striking “subsections (c), (g), and (h) of this section” and inserting “this Act”; and

(2) by striking “June 1, 1987, and ending September 30, 2017” and inserting “October 1, 2017, and ending September 30, 2067”.

SUBMITTED RESOLUTIONS

SENATE RESOLUTION 376—HONORING THE 60TH ANNIVERSARY OF THE ESTABLISHMENT OF DIPLOMATIC RELATIONS BETWEEN THE UNITED STATES AND THE HASHEMITE KINGDOM OF JORDAN, THE 10TH ANNIVERSARY OF THE ACCESSION TO THE THRONE OF HIS MAJESTY KING ABDULLAH II IBN AL HUSSEIN, AND FOR OTHER PURPOSES

Mr. INOUE (for himself, Mr. GREGG, Mr. LIEBERMAN, and Mr. DURBIN) submitted the following resolution; which was considered and agreed to:

S. RES. 376

Whereas the Hashemite Kingdom of Jordan achieved independence on May 25, 1946;

Whereas the United States recognized Jordan as an independent state in a White House announcement on January 31, 1949;

Whereas diplomatic relations and the American Legation in Jordan were established on February 18, 1949, when United States diplomat Wells Stabler presented his credentials as Chargé d’Affaires in Amman;

Whereas, for 60 years, the United States and Jordan have enjoyed a close relationship and have worked together to advance issues ranging from the promotion of Middle East peace to advancing the socio-economic development of the people of Jordan, as well as the threat to both posed by al Qaeda and violent extremism;

Whereas, from 1952 to 1999, King Hussein charted a moderate path for his country;

Whereas, for decades, the United States has been Jordan’s strongest international partner;

Whereas, throughout his reign, King Hussein looked for opportunities to realize his

dream of a more peaceful Middle East by working to solve intra-Arab disputes and engaging successive Prime Ministers of Israel in the search for peace;

Whereas King Hussein and Prime Minister of Israel Yitzhak Rabin signed the historic Jordan-Israel peace treaty in 1994, ending nearly 50 years of war between the neighboring countries;

Whereas the United States lost a close friend and a crucial partner when King Hussein passed away in 1999;

Whereas King Hussein was succeeded by his son, King Abdullah II, who has continued his father’s work to improve the lives of the people of Jordan while also seeking to bring peace to the region;

Whereas, in the aftermath of the September 11, 2001, terrorist attacks, the Government of Jordan has been an instrumental partner in the fight against al Qaeda, has provided crucial assistance in Iraq, and has shouldered a heavy burden in providing refuge to a significant portion of the Iraqi refugee population;

Whereas, through his 2004 Amman Message, King Abdullah II has been a leading Arab voice in trying to reaffirm the true path of Islam;

Whereas, in November 2005, al Qaeda terrorists struck three hotels in Amman, Jordan, thereby uniting the people of Jordan and the United States in grief over the lives lost at this act of terrorism; and

Whereas King Abdullah II begins his second decade on the Hashemite throne by redoubling his efforts for peace in the region as the Jordan-United States partnership enters its seventh decade: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the 60th anniversary of the close relationship between the United States and the Hashemite Kingdom of Jordan;

(2) expresses its profound admiration and gratitude for the friendship of the people of Jordan;

(3) congratulates His Majesty King Abdullah II on 10 years of enlightened and progressive rule; and

(4) shares the hope of His Majesty King Abdullah II and the people of Jordan for a more peaceful Middle East.

SENATE CONCURRENT RESOLUTION 48—RECOGNIZING THE LEADERSHIP AND HISTORICAL CONTRIBUTIONS OF DR. HECTOR GARCIA TO THE HISPANIC COMMUNITY AND HIS REMARKABLE EFFORTS TO COMBAT RACIAL AND ETHNIC DISCRIMINATION IN THE UNITED STATES OF AMERICA

Mr. MENENDEZ submitted the following concurrent resolution; which was referred to the Committee on the Judiciary:

S. CON. RES. 48

Whereas Dr. Hector Garcia changed the lives of Americans from all walks of life;

Whereas Dr. Hector Garcia was born in Mexico on January 17, 1914, and immigrated to Mercedes, Texas, in 1918;

Whereas Dr. Hector Garcia is an honored alumnus of the School of Medicine at the University of Texas Medical Branch, Class of 1940;

Whereas Dr. Hector Garcia fought in World War II, specifically in North Africa and Italy, attained the rank of Major, and was

awarded the Bronze Star with six battle stars;

Whereas once the Army discovered he was a physician, Dr. Hector Garcia was asked to practice his profession by treating his fellow soldiers;

Whereas Dr. Hector Garcia moved to Corpus Christi, Texas, after the war, and opened a medical practice; rarely charged his indigent patients, and was recognized as a passionate and dedicated physician;

Whereas he first became known in south Texas for his public health messages on the radio with topics ranging from infant diarrhea to tuberculosis;

Whereas Dr. Hector Garcia continued his public service and advocacy and became founder of the American G.I. Forum, a Mexican-American veterans association, which initiated countless efforts on behalf of Americans to advance opportunities in health care, veterans’ benefits, and civil rights equality;

Whereas his civil rights movement would then grow to also combat discrimination in housing, jobs, education, and voting rights;

Whereas President Kennedy appointed Dr. Hector Garcia a member of the American Treaty Delegation for the Mutual Defense Agreement between the United States and the Federation of the West Indies;

Whereas in 1967, President Lyndon Johnson appointed Dr. Hector Garcia as alternate ambassador to the United Nations where he gave the first speech by an American before the United Nations in a language other than English;

Whereas Dr. Hector Garcia was named member of the Texas Advisory Committee to the United States Commission on Civil Rights;

Whereas President Reagan presented Dr. Hector Garcia the Nation’s highest civilian award, the Medal of Freedom, in 1984 for meritorious service to his country, the first Mexican American to receive this recognition; and

Whereas Pope John Paul II recognized him with the Pontifical Equestrian Order of Pope Gregory the Great: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That Congress—

(1) encourages—

(A) teachers of primary schools and secondary schools to launch educational campaigns to inform students about the lifetime of accomplishments by Dr. Hector Garcia; and

(B) all people of the United States to educate themselves about the legacy of Dr. Hector Garcia; and

(2) recognizes the leadership and historical contributions of Dr. Hector Garcia to the Hispanic community and his remarkable efforts to combat racial and ethnic discrimination in the United States of America.

AMENDMENTS SUBMITTED AND PROPOSED

SA 3242. Mr. CRAPO submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table.

SA 3243. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr.

HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3244. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3245. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3246. Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3247. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3248. Mr. REID proposed an amendment to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes.

SA 3249. Mr. REID proposed an amendment to the bill H.R. 3326, supra.

SA 3250. Mr. REID proposed an amendment to amendment SA 3249 proposed by Mr. REID to the bill H.R. 3326, supra.

SA 3251. Mr. REID proposed an amendment to amendment SA 3250 proposed by Mr. REID to the amendment SA 3249 proposed by Mr. REID to the bill H.R. 3326, supra.

SA 3252. Mr. REID proposed an amendment to amendment SA 3248 proposed by Mr. REID to the bill H.R. 3326, supra.

SA 3253. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table.

SA 3254. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3255. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3256. Mr. BENNET submitted an amendment intended to be proposed by him to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3257. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

SA 3258. Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, supra; which was ordered to lie on the table.

TEXT OF AMENDMENTS

SA 3242. Mr. CRAPO submitted an amendment intended to be proposed to

amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1053, between lines 2 and 3, insert the following:

SEC. 3403A. IMPROVEMENTS TO THE INDEPENDENT MEDICARE ADVISORY BOARD.

Section 1899A of the Social Security Act, as added by section 3403, is amended—

- (1) in subsection (c)—
- (A) in paragraph (1)—
- (i) by redesignating subparagraph (B) as subparagraph (C); and
- (ii) by inserting after subparagraph (A) the following new subparagraph:

“(B) PROMULGATION OF REGULATIONS TO PROVIDE FOUNDATION FOR BOARD PROPOSALS.—

“(i) IN GENERAL.—Before developing any proposal under this section, the Board, after consultation with the Secretary, shall promulgate regulations through which the Board interprets the provisions of this section that concern the duties of the Board in order to provide a substantive and procedural foundation for carrying out such duties. Such regulations shall be promulgated in accordance with the procedures under section 553 of title 5, United States Code, that relate to substantive rules.

“(ii) RULE OF CONSTRUCTION.—Clause (i) may not be construed as requiring that proposals under this section be promulgated in accordance with the rulemaking procedures referred to in clause (i).”;

(B) in paragraph (2), by adding at the end the following new subparagraphs:

“(G) CONSULTATION WITH INDEPENDENT ADVISORY COMMITTEE.—

“(i) IN GENERAL.—Not later than 60 days after the date of the enactment of the Patient Protection and Affordable Care Act, the Secretary shall establish an advisory committee to review, in accordance with procedures established in the Federal Advisory Committee Act, each proposal to be submitted to Congress under this section.

“(ii) COMPOSITION.—The advisory committee under clause (i) (referred to in this subparagraph as the ‘Independent Committee’) shall be composed of not more than 15 members who are medical and scientific experts appointed from among individuals who are not officers or employees of the Federal Government.

“(iii) REVIEW AND REPORT.—The Board shall submit a draft copy of each proposal to be submitted to the President under this section to the Independent Committee for its review. The Board shall submit such draft copy by not later than September 1 of the year preceding the year for which the proposal is to be submitted. Not later than November 1 of such year, the Independent Committee shall submit a report to Congress and the Board on the results of such review, including matters reviewed pursuant to the succeeding provisions of this subparagraph.

“(iv) CLINICAL APPROPRIATENESS OF PAYMENT RESTRICTIONS AND COVERAGE RESTRICTIONS.—The review of the Independent Committee of a recommendation in a proposal under this section shall, with respect to any changes in items or services under this title, include evaluating the differences in treatment guidelines and variables of treatment

costs for items and services under this title that are subject to a reduction in payment or restriction in coverage pursuant to the recommendation. The purpose of such evaluation shall be to ensure that the recommendation applies only to those items and services for which such comparisons may be made in a clinically appropriate manner.

“(v) SUBSTANTIAL EVIDENCE REGARDING CERTAIN RECOMMENDATIONS.—With respect to a recommendation in a proposal of the Board that reduces payment or restricts coverage for items and services under this title, the Independent Committee shall determine whether the recommendation is supported by substantial evidence.

“(vi) SPECIAL POPULATIONS; HEALTH DISPARITIES.—In reviewing a recommendation in a proposal under this section, the Independent Committee shall evaluate the effect on special populations and whether the recommendation is consistent with Federal policies to reduce health disparities.

“(vii) PUBLIC MEETING TO PRESENT AND DISCUSS FINDINGS.—Before issuing a report under clause (iii), the Independent Committee shall hold a public meeting at which it presents the findings of its review under such clause and seeks comments from individuals attending the meeting.

“(H) PUBLICATION OF INITIAL PROPOSAL IN FEDERAL REGISTER.—

“(i) IN GENERAL.—Not later than October 1 preceding the proposal year involved, the Board shall publish in the Federal Register an initial proposal of the Board under this section and shall seek comments from the public on the proposal. The final proposal shall be published in the Federal Register on the same date as the date on which such proposal is submitted to the President under paragraph (3)(A) (or under paragraph (5), as the case may be).

“(ii) LIMITATION ON JUDICIAL REVIEW.—The publication under clause (i) of a final proposal of the Board does not constitute final agency action for purposes of section 704 of title 5, United States Code.”; and

(C) in paragraph (3)(B), by striking clause (ii) and inserting the following new clause:

“(ii) taking into account comments received from the public under paragraph (2)(H)(i), an explanation of each recommendation contained in the proposal and the reasons for including such recommendation, and a statement of whether and to what extent the Board considered it feasible—

“(I) to protect and improve Medicare beneficiaries’ access to necessary and evidence-based items and services, including in rural and frontier areas; and

“(II) to otherwise comply with the requirements of paragraph (2)(B); and”;

(2) in subsection (e), by striking paragraph (5) and inserting the following new paragraph:

“(5) LIMITATION ON REVIEW.—

“(A) IN GENERAL.—There shall be no administrative or judicial review under section 1869, section 1878, or otherwise of the implementation by the Secretary under this subsection of the recommendations contained in a proposal, except as provided in subparagraph (B).

“(B) JUDICIAL REVIEW OF SCOPE OF AGENCY AUTHORITY; COMPLIANCE WITH PROCEDURAL SAFEGUARDS.—

“(i) IN GENERAL.—An aggrieved beneficiary or other party may, in accordance with the procedures that apply under section 1869(f)(3), seek review by a court of competent jurisdiction of the implementation by the Secretary of any recommendation in a

proposal of the Board if the moving party alleges that the only issue of law is the constitutionality of a recommendation, or one or more issues described in clause (ii). For purposes of this subparagraph, a regulation, determination, or ruling by the Secretary under such a recommendation is final agency action within the meaning of section 704 of title 5, United States Code.

“(ii) **RELEVANT ISSUES; PROCEDURAL SAFEGUARDS.**—For purposes of clause (i), the court shall hold unlawful and set aside a regulation, determination, or ruling by the Secretary under a recommendation in a proposal of the Board if the court finds that—

“(I) the regulation, determination, or ruling exceeds the scope of the recommendation;

“(II) the Board failed to promulgate regulations in accordance with subsection (c)(1)(B) (relating to a substantive and procedural foundation for carrying out the duties of the Board);

“(III) the Board failed to comply with subsection (c)(2)(A)(ii) (relating to prohibitions against rationing health care; increasing beneficiary cost-sharing, such as deductibles, coinsurance, and copayments; or otherwise restricting benefits or modifying eligibility criteria);

“(IV) the Board failed to comply with subparagraph (D), (E), (G), or (H) of subsection (c)(2) (relating to review by the Medicare Payment Advisory Board, review by the Secretary, review by an independent advisory panel of experts, and publishing initial and final proposals of the Board in the Federal Register, respectively); or

“(V) the Board failed to comply with subsection (c)(3)(B)(ii) (relating to providing explanations of recommendations, providing statements of whether certain duties are feasible, and taking into account public comments).

“(iii) **SUBSTANTIAL EVIDENCE REGARDING CERTAIN RECOMMENDATIONS.**—With respect to a recommendation in a proposal of the Board under this section that reduces payment or restricts coverage for items and services under this title:

“(I) The review by a court under clause (i) of the implementation by the Secretary of the recommendation shall include a review of the basis of the recommendation.

“(II) The court shall hold unlawful and set aside the recommendation, and any regulation, determination, or ruling by the Secretary under the recommendation, if the court finds that the recommendation is unsupported by substantial evidence within the meaning of section 706 of title 5, United States Code.”.

SA 3243. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 1790, between lines 9 and 10, insert the following:

SEC. 6508. REQUIREMENT FOR ALL MEDICAID AND CHIP APPLICANTS TO PRESENT AN IDENTIFICATION DOCUMENT.

(a) **IN GENERAL.**—Section 1902 of the Social Security Act (42 U.S.C. 1396a), as amended by

section 211(a)(1)(A)(i) of Public Law 111-3 and section 2303(a)(2) of this Act, is amended—

(1) in subsection (a)(46), —

(A) in subparagraph (A), by striking “and” after the semicolon;

(B) in subparagraph (B), by adding “and” after the semicolon; and

(C) by adding at the end the following:

“(C) provide that each applicant for medical assistance (or the parent or guardian of an applicant who has not attained age 18), regardless of whether the applicant is described in paragraph (2) of section 1903(x), shall present an identification document described in subsection (jj) when applying for medical assistance (and shall be provided with at least the reasonable opportunity to present such identification as is provided under clauses (i) and (ii) of section 1137(d)(4)(A) to an individual for the submittal to the State of evidence indicating a satisfactory immigration status;”;

(2) by adding at the end the following:

“(jj) For purposes of subsection (a)(46)(C), a document described in this subsection is—

“(1) in the case of an individual who is a national of the United States—

“(A) a United States passport, or passport card issued pursuant to the Secretary of State’s authority under the first section of the Act of July 3, 1926 (44 Stat. 887, Chapter 772; 22 U.S.C. 211a); or

“(B) a driver’s license or identity card issued by a State, the Commonwealth of the Northern Mariana Islands, or an outlying possession of the United States that—

“(i) contains a photograph of the individual and other identifying information, including the individual’s name, date of birth, gender, and address; and

“(ii) contains security features to make the license or card resistant to tampering, counterfeiting, and fraudulent use;

“(2) in the case of an alien lawfully admitted for permanent residence in the United States, a permanent resident card, as specified by the Secretary of Homeland Security that meets the requirements of clauses (i) and (ii) of paragraph (1)(B);

“(3) in the case of an alien who is authorized to be employed in the United States, an employment authorization card, as specified by the Secretary of Homeland Security that meets the requirements of clauses (i) and (ii) of paragraph (1)(B); or

“(4) in the case of an individual who is unable to obtain a document described in paragraph (1), (2), or (3), a document designated by the Secretary of Homeland Security that meets the requirements of clauses (i) and (ii) of paragraph (1)(B).”.

(b) **APPLICATION TO CHIP.**—Section 2105(c)(9)(A) (42 U.S.C. 1397ee(c)(9)(A)) is amended by striking “section 1902(a)(46)(B)” and inserting “subparagraphs (B) and (C) of subsection (a)(46) and subsection (jj) of section 1902”.

SA 3244. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

Subtitle —Improved Patient Access and Medical Care

PART I—EPSDT BENEFITS FOR CHILDREN
SEC. 101. EPSDT BENEFITS FOR CHILDREN.

Section 1902(gg) of the Social Security Act, as added by section 2001(b)(2) of this Act, is amended by redesignating paragraph (4) as paragraph (5) and inserting after paragraph (3) the following:

“(4) **STATES CERTIFYING ESSENTIAL BENEFITS AND COST-SHARING PROTECTIONS FOR CHILDREN IN FAMILIES WITH INCOME UP TO 300 PERCENT OF THE POVERTY LINE.**—The requirements under paragraphs (1) and (2) and section 2105(d)(3)(A) shall not apply to a State with respect to individuals whose income exceeds 133 percent of the poverty line (as defined in section 2110(c)(5)) applicable to a family of the size involved for any fiscal year or portion of a fiscal year that occurs on or after the date on which the State certifies to the Secretary that—

“(A) coverage available through an Exchange established by the State under section 1311 of the Patient Protection and Affordable Care Act for children who reside in the State, are under 19 years of age, and are in families with income that does not exceed 300 percent of the poverty line (as so defined), is at least the same as the level of benefits and cost-sharing under the State child health plan under title XXI (whether implemented under that title, this title, or both); and

“(B) the State Medicaid agency and qualified health plans offered through such an Exchange have established adequate procedures, with respect to such children, to ensure access to, and the coordinated provision of—

“(i) services described in section 1905(a)(4)(B) (relating to early and periodic screening, diagnostic, and treatment services defined in section 1905(r)) and provided in accordance with the requirements of section 1902(a)(43); and

“(ii) cost-sharing protections consistent with section 2103(e) of the Social Security Act.

A State may comply with the requirements of subparagraph (B) by providing the services and cost-sharing protections required under that subparagraph directly under the State plan under title XIX or title XXI of the Social Security, or under arrangements entered into with qualified health plans offered through such an Exchange. Expenditures by the State to provide such services and cost-sharing protections shall be treated as medical assistance for purposes of section 1903(a) and, notwithstanding section 1905(b), the enhanced FMAP under section 2105(b) shall apply to such expenditures. In no event shall a State receive a payment under section 1903(a) for any such expenditures made prior to the date on which an Exchange is established by the State and operating under section 1311 of the Patient Protection and Affordable Care Act.”.

PART II—MEDICAL CARE ACCESS PROTECTION

SEC. 11. SHORT TITLE OF PART.

This part may be cited as the “Medical Care Access Protection Act of 2009” or the “MCAP Act”.

SEC. 12. FINDINGS AND PURPOSE.

(a) **FINDINGS.**—

(1) **EFFECT ON HEALTH CARE ACCESS AND COSTS.**—Congress finds that our current civil justice system is adversely affecting patient access to health care services, better patient care, and cost-efficient health care, in that the health care liability system is a costly

and ineffective mechanism for resolving claims of health care liability and compensating injured patients, and is a deterrent to the sharing of information among health care professionals which impedes efforts to improve patient safety and quality of care.

(2) **EFFECT ON INTERSTATE COMMERCE.**—Congress finds that the health care and insurance industries are industries affecting interstate commerce and the health care liability litigation systems existing throughout the United States are activities that affect interstate commerce by contributing to the high costs of health care and premiums for health care liability insurance purchased by health care system providers.

(3) **EFFECT ON FEDERAL SPENDING.**—Congress finds that the health care liability litigation systems existing throughout the United States have a significant effect on the amount, distribution, and use of Federal funds because of—

(A) the large number of individuals who receive health care benefits under programs operated or financed by the Federal Government;

(B) the large number of individuals who benefit because of the exclusion from Federal taxes of the amounts spent to provide them with health insurance benefits; and

(C) the large number of health care providers who provide items or services for which the Federal Government makes payments.

(b) **PURPOSE.**—It is the purpose of this part to implement reasonable, comprehensive, and effective health care liability reforms designed to—

(1) improve the availability of health care services in cases in which health care liability actions have been shown to be a factor in the decreased availability of services;

(2) reduce the incidence of “defensive medicine” and lower the cost of health care liability insurance, all of which contribute to the escalation of health care costs;

(3) ensure that persons with meritorious health care injury claims receive fair and adequate compensation, including reasonable noneconomic damages;

(4) improve the fairness and cost-effectiveness of our current health care liability system to resolve disputes over, and provide compensation for, health care liability by reducing uncertainty in the amount of compensation provided to injured individuals; and

(5) provide an increased sharing of information in the health care system which will reduce unintended injury and improve patient care.

SEC. 13. DEFINITIONS.

In this part:

(1) **ALTERNATIVE DISPUTE RESOLUTION SYSTEM; ADR.**—The term “alternative dispute resolution system” or “ADR” means a system that provides for the resolution of health care lawsuits in a manner other than through a civil action brought in a State or Federal court.

(2) **CLAIMANT.**—The term “claimant” means any person who brings a health care lawsuit, including a person who asserts or claims a right to legal or equitable contribution, indemnity or subrogation, arising out of a health care liability claim or action, and any person on whose behalf such a claim is asserted or such an action is brought, whether deceased, incompetent, or a minor.

(3) **COLLATERAL SOURCE BENEFITS.**—The term “collateral source benefits” means any amount paid or reasonably likely to be paid in the future to or on behalf of the claimant, or any service, product or other benefit pro-

vided or reasonably likely to be provided in the future to or on behalf of the claimant, as a result of the injury or wrongful death, pursuant to—

(A) any State or Federal health, sickness, income-disability, accident, or workers’ compensation law;

(B) any health, sickness, income-disability, or accident insurance that provides health benefits or income-disability coverage;

(C) any contract or agreement of any group, organization, partnership, or corporation to provide, pay for, or reimburse the cost of medical, hospital, dental, or income disability benefits; and

(D) any other publicly or privately funded program.

(4) **COMPENSATORY DAMAGES.**—The term “compensatory damages” means objectively verifiable monetary losses incurred as a result of the provision of, use of, or payment for (or failure to provide, use, or pay for) health care services or medical products, such as past and future medical expenses, loss of past and future earnings, cost of obtaining domestic services, loss of employment, and loss of business or employment opportunities, damages for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation, and all other nonpecuniary losses of any kind or nature. Such term includes economic damages and noneconomic damages, as such terms are defined in this section.

(5) **CONTINGENT FEE.**—The term “contingent fee” includes all compensation to any person or persons which is payable only if a recovery is effected on behalf of one or more claimants.

(6) **ECONOMIC DAMAGES.**—The term “economic damages” means objectively verifiable monetary losses incurred as a result of the provision of, use of, or payment for (or failure to provide, use, or pay for) health care services or medical products, such as past and future medical expenses, loss of past and future earnings, cost of obtaining domestic services, loss of employment, and loss of business or employment opportunities.

(7) **HEALTH CARE GOODS OR SERVICES.**—The term “health care goods or services” means any goods or services provided by a health care institution, provider, or by any individual working under the supervision of a health care provider, that relates to the diagnosis, prevention, care, or treatment of any human disease or impairment, or the assessment of the health of human beings.

(8) **HEALTH CARE INSTITUTION.**—The term “health care institution” means any entity licensed under Federal or State law to provide health care services (including but not limited to ambulatory surgical centers, assisted living facilities, emergency medical services providers, hospices, hospitals and hospital systems, nursing homes, or other entities licensed to provide such services).

(9) **HEALTH CARE LAWSUIT.**—The term “health care lawsuit” means any health care liability claim concerning the provision of health care goods or services affecting interstate commerce, or any health care liability action concerning the provision of (or the failure to provide) health care goods or services affecting interstate commerce, brought in a State or Federal court or pursuant to an alternative dispute resolution system, against a health care provider or a health care institution regardless of the theory of

liability on which the claim is based, or the number of claimants, plaintiffs, defendants, or other parties, or the number of claims or causes of action, in which the claimant alleges a health care liability claim.

(10) **HEALTH CARE LIABILITY ACTION.**—The term “health care liability action” means a civil action brought in a State or Federal Court or pursuant to an alternative dispute resolution system, against a health care provider or a health care institution regardless of the theory of liability on which the claim is based, or the number of plaintiffs, defendants, or other parties, or the number of causes of action, in which the claimant alleges a health care liability claim.

(11) **HEALTH CARE LIABILITY CLAIM.**—The term “health care liability claim” means a demand by any person, whether or not pursuant to ADR, against a health care provider or health care institution, including third-party claims, cross-claims, counter-claims, or contribution claims, which are based upon the provision of, use of, or payment for (or the failure to provide, use, or pay for) health care services, regardless of the theory of liability on which the claim is based, or the number of plaintiffs, defendants, or other parties, or the number of causes of action.

(12) **HEALTH CARE PROVIDER.**—

(A) **IN GENERAL.**—The term “health care provider” means any person (including but not limited to a physician (as defined by section 1861(r) of the Social Security Act (42 U.S.C. 1395x(r)), registered nurse, dentist, podiatrist, pharmacist, chiropractor, or optometrist) required by State or Federal law to be licensed, registered, or certified to provide health care services, and being either so licensed, registered, or certified, or exempted from such requirement by other statute or regulation.

(B) **TREATMENT OF CERTAIN PROFESSIONAL ASSOCIATIONS.**—For purposes of this part, a professional association that is organized under State law by an individual physician or group of physicians, a partnership or limited liability partnership formed by a group of physicians, a nonprofit health corporation certified under State law, or a company formed by a group of physicians under State law shall be treated as a health care provider under subparagraph (A).

(13) **MALICIOUS INTENT TO INJURE.**—The term “malicious intent to injure” means intentionally causing or attempting to cause physical injury other than providing health care goods or services.

(14) **NONECONOMIC DAMAGES.**—The term “noneconomic damages” means damages for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation, and all other nonpecuniary losses of any kind or nature.

(15) **PUNITIVE DAMAGES.**—The term “punitive damages” means damages awarded, for the purpose of punishment or deterrence, and not solely for compensatory purposes, against a health care provider or health care institution. Punitive damages are neither economic nor noneconomic damages.

(16) **RECOVERY.**—The term “recovery” means the net sum recovered after deducting any disbursements or costs incurred in connection with prosecution or settlement of the claim, including all costs paid or advanced by any person. Costs of health care incurred by the plaintiff and the attorneys’ office overhead costs or charges for legal services are not deductible disbursements or costs for such purpose.

(17) STATE.—The term “State” means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States, or any political subdivision thereof.

SEC. 14. ENCOURAGING SPEEDY RESOLUTION OF CLAIMS.

(a) IN GENERAL.—Except as otherwise provided for in this section, the time for the commencement of a health care lawsuit shall be 3 years after the date of manifestation of injury or 1 year after the claimant discovers, or through the use of reasonable diligence should have discovered, the injury, whichever occurs first.

(b) GENERAL EXCEPTION.—The time for the commencement of a health care lawsuit shall not exceed 3 years after the date of manifestation of injury unless the tolling of time was delayed as a result of—

- (1) fraud;
- (2) intentional concealment; or
- (3) the presence of a foreign body, which has no therapeutic or diagnostic purpose or effect, in the person of the injured person.

(c) MINORS.—An action by a minor shall be commenced within 3 years from the date of the alleged manifestation of injury except that if such minor is under the full age of 6 years, such action shall be commenced within 3 years of the manifestation of injury, or prior to the eighth birthday of the minor, whichever provides a longer period. Such time limitation shall be tolled for minors for any period during which a parent or guardian and a health care provider or health care institution have committed fraud or collusion in the failure to bring an action on behalf of the injured minor.

(d) RULE 11 SANCTIONS.—Whenever a Federal or State court determines (whether by motion of the parties or whether on the motion of the court) that there has been a violation of Rule 11 of the Federal Rules of Civil Procedure (or a similar violation of applicable State court rules) in a health care liability action to which this part applies, the court shall impose upon the attorneys, law firms, or pro se litigants that have violated Rule 11 or are responsible for the violation, an appropriate sanction, which shall include an order to pay the other party or parties for the reasonable expenses incurred as a direct result of the filing of the pleading, motion, or other paper that is the subject of the violation, including a reasonable attorneys’ fee. Such sanction shall be sufficient to deter repetition of such conduct or comparable conduct by others similarly situated, and to compensate the party or parties injured by such conduct.

SEC. 15. COMPENSATING PATIENT INJURY.

(a) UNLIMITED AMOUNT OF DAMAGES FOR ACTUAL ECONOMIC LOSSES IN HEALTH CARE LAWSUITS.—In any health care lawsuit, nothing in this part shall limit the recovery by a claimant of the full amount of the available economic damages, notwithstanding the limitation contained in subsection (b).

(b) ADDITIONAL NONECONOMIC DAMAGES.—

(1) HEALTH CARE PROVIDERS.—In any health care lawsuit where final judgment is rendered against a health care provider, the amount of noneconomic damages recovered from the provider, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties other than a health care institution against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence.

(2) HEALTH CARE INSTITUTIONS.—

(A) SINGLE INSTITUTION.—In any health care lawsuit where final judgment is rendered against a single health care institution, the amount of noneconomic damages recovered from the institution, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence.

(B) MULTIPLE INSTITUTIONS.—In any health care lawsuit where final judgment is rendered against more than one health care institution, the amount of noneconomic damages recovered from each institution, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence, except that the total amount recovered from all such institutions in such lawsuit shall not exceed \$500,000.

(c) NO DISCOUNT OF AWARD FOR NONECONOMIC DAMAGES.—In any health care lawsuit—

(1) an award for future noneconomic damages shall not be discounted to present value;

(2) the jury shall not be informed about the maximum award for noneconomic damages under subsection (b);

(3) an award for noneconomic damages in excess of the limitations provided for in subsection (b) shall be reduced either before the entry of judgment, or by amendment of the judgment after entry of judgment, and such reduction shall be made before accounting for any other reduction in damages required by law; and

(4) if separate awards are rendered for past and future noneconomic damages and the combined awards exceed the limitations described in subsection (b), the future noneconomic damages shall be reduced first.

(d) FAIR SHARE RULE.—In any health care lawsuit, each party shall be liable for that party’s several share of any damages only and not for the share of any other person. Each party shall be liable only for the amount of damages allocated to such party in direct proportion to such party’s percentage of responsibility. A separate judgment shall be rendered against each such party for the amount allocated to such party. For purposes of this section, the trier of fact shall determine the proportion of responsibility of each party for the claimant’s harm.

SEC. 16. MAXIMIZING PATIENT RECOVERY.

(a) COURT SUPERVISION OF SHARE OF DAMAGES ACTUALLY PAID TO CLAIMANTS.—

(1) IN GENERAL.—In any health care lawsuit, the court shall supervise the arrangements for payment of damages to protect against conflicts of interest that may have the effect of reducing the amount of damages awarded that are actually paid to claimants.

(2) CONTINGENCY FEES.—

(A) IN GENERAL.—In any health care lawsuit in which the attorney for a party claims a financial stake in the outcome by virtue of a contingent fee, the court shall have the power to restrict the payment of a claimant’s damage recovery to such attorney, and to redirect such damages to the claimant based upon the interests of justice and principles of equity.

(B) LIMITATION.—The total of all contingent fees for representing all claimants in a health care lawsuit shall not exceed the following limits:

(i) 40 percent of the first \$50,000 recovered by the claimant(s).

(ii) 33½ percent of the next \$50,000 recovered by the claimant(s).

(iii) 25 percent of the next \$500,000 recovered by the claimant(s).

(iv) 15 percent of any amount by which the recovery by the claimant(s) is in excess of \$600,000.

(b) APPLICABILITY.—

(1) IN GENERAL.—The limitations in subsection (a) shall apply whether the recovery is by judgment, settlement, mediation, arbitration, or any other form of alternative dispute resolution.

(2) MINORS.—In a health care lawsuit involving a minor or incompetent person, a court retains the authority to authorize or approve a fee that is less than the maximum permitted under this section.

(c) EXPERT WITNESSES.—

(1) REQUIREMENT.—No individual shall be qualified to testify as an expert witness concerning issues of negligence in any health care lawsuit against a defendant unless such individual—

(A) except as required under paragraph (2), is a health care professional who—

(i) is appropriately credentialed or licensed in 1 or more States to deliver health care services; and

(ii) typically treats the diagnosis or condition or provides the type of treatment under review; and

(B) can demonstrate by competent evidence that, as a result of training, education, knowledge, and experience in the evaluation, diagnosis, and treatment of the disease or injury which is the subject matter of the lawsuit against the defendant, the individual was substantially familiar with applicable standards of care and practice as they relate to the act or omission which is the subject of the lawsuit on the date of the incident.

(2) PHYSICIAN REVIEW.—In a health care lawsuit, if the claim of the plaintiff involved treatment that is recommended or provided by a physician (allopathic or osteopathic), an individual shall not be qualified to be an expert witness under this subsection with respect to issues of negligence concerning such treatment unless such individual is a physician.

(3) SPECIALTIES AND SUBSPECIALTIES.—With respect to a lawsuit described in paragraph (1), a court shall not permit an expert in one medical specialty or subspecialty to testify against a defendant in another medical specialty or subspecialty unless, in addition to a showing of substantial familiarity in accordance with paragraph (1)(B), there is a showing that the standards of care and practice in the two specialty or subspecialty fields are similar.

(4) LIMITATION.—The limitations in this subsection shall not apply to expert witnesses testifying as to the degree or permanency of medical or physical impairment.

SEC. 17. ADDITIONAL HEALTH BENEFITS.

(a) IN GENERAL.—The amount of any damages received by a claimant in any health care lawsuit shall be reduced by the court by the amount of any collateral source benefits to which the claimant is entitled, less any insurance premiums or other payments made by the claimant (or by the spouse, parent, child, or legal guardian of the claimant) to obtain or secure such benefits.

(b) PRESERVATION OF CURRENT LAW.—Where a payor of collateral source benefits has a right of recovery by reimbursement or subrogation and such right is permitted under Federal or State law, subsection (a) shall not apply.

(c) APPLICATION OF PROVISION.—This section shall apply to any health care lawsuit that is settled or resolved by a fact finder.

SEC. 18. PUNITIVE DAMAGES.

(a) PUNITIVE DAMAGES PERMITTED.—

(1) IN GENERAL.—Punitive damages may, if otherwise available under applicable State or Federal law, be awarded against any person in a health care lawsuit only if it is proven by clear and convincing evidence that such person acted with malicious intent to injure the claimant, or that such person deliberately failed to avoid unnecessary injury that such person knew the claimant was substantially certain to suffer.

(2) FILING OF LAWSUIT.—No demand for punitive damages shall be included in a health care lawsuit as initially filed. A court may allow a claimant to file an amended pleading for punitive damages only upon a motion by the claimant and after a finding by the court, upon review of supporting and opposing affidavits or after a hearing, after weighing the evidence, that the claimant has established by a substantial probability that the claimant will prevail on the claim for punitive damages.

(3) SEPARATE PROCEEDING.—At the request of any party in a health care lawsuit, the trier of fact shall consider in a separate proceeding—

(A) whether punitive damages are to be awarded and the amount of such award; and

(B) the amount of punitive damages following a determination of punitive liability. If a separate proceeding is requested, evidence relevant only to the claim for punitive damages, as determined by applicable State law, shall be inadmissible in any proceeding to determine whether compensatory damages are to be awarded.

(4) LIMITATION WHERE NO COMPENSATORY DAMAGES ARE AWARDED.—In any health care lawsuit where no judgment for compensatory damages is rendered against a person, no punitive damages may be awarded with respect to the claim in such lawsuit against such person.

(b) DETERMINING AMOUNT OF PUNITIVE DAMAGES.—

(1) FACTORS CONSIDERED.—In determining the amount of punitive damages under this section, the trier of fact shall consider only the following:

(A) the severity of the harm caused by the conduct of such party;

(B) the duration of the conduct or any concealment of it by such party;

(C) the profitability of the conduct to such party;

(D) the number of products sold or medical procedures rendered for compensation, as the case may be, by such party, of the kind causing the harm complained of by the claimant;

(E) any criminal penalties imposed on such party, as a result of the conduct complained of by the claimant; and

(F) the amount of any civil fines assessed against such party as a result of the conduct complained of by the claimant.

(2) MAXIMUM AWARD.—The amount of punitive damages awarded in a health care lawsuit may not exceed an amount equal to two times the amount of economic damages awarded in the lawsuit or \$250,000, whichever is greater. The jury shall not be informed of the limitation under the preceding sentence.

(c) LIABILITY OF HEALTH CARE PROVIDERS.—

(1) IN GENERAL.—A health care provider who prescribes, or who dispenses pursuant to a prescription, a drug, biological product, or medical device approved by the Food and Drug Administration, for an approved indication of the drug, biological product, or med-

ical device, shall not be named as a party to a product liability lawsuit invoking such drug, biological product, or medical device and shall not be liable to a claimant in a class action lawsuit against the manufacturer, distributor, or product seller of such drug, biological product, or medical device.

(2) MEDICAL PRODUCT.—The term “medical product” means a drug or device intended for humans. The terms “drug” and “device” have the meanings given such terms in sections 201(g)(1) and 201(h) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 321), respectively, including any component or raw material used therein, but excluding health care services.

SEC. 19. AUTHORIZATION OF PAYMENT OF FUTURE DAMAGES TO CLAIMANTS IN HEALTH CARE LAWSUITS.

(a) IN GENERAL.—In any health care lawsuit, if an award of future damages, without reduction to present value, equaling or exceeding \$50,000 is made against a party with sufficient insurance or other assets to fund a periodic payment of such a judgment, the court shall, at the request of any party, enter a judgment ordering that the future damages be paid by periodic payments in accordance with the Uniform Periodic Payment of Judgments Act promulgated by the National Conference of Commissioners on Uniform State Laws.

(b) APPLICABILITY.—This section applies to all actions which have not been first set for trial or retrial before the effective date of this part.

SEC. 20. EFFECT ON OTHER LAWS.

(a) GENERAL VACCINE INJURY.—

(1) IN GENERAL.—To the extent that title XXI of the Public Health Service Act establishes a Federal rule of law applicable to a civil action brought for a vaccine-related injury or death—

(A) this part shall not affect the application of the rule of law to such an action; and

(B) any rule of law prescribed by this part in conflict with a rule of law of such title XXI shall not apply to such action.

(2) EXCEPTION.—If there is an aspect of a civil action brought for a vaccine-related injury or death to which a Federal rule of law under title XXI of the Public Health Service Act does not apply, then this part or otherwise applicable law (as determined under this part) will apply to such aspect of such action.

(b) SMALLPOX VACCINE INJURY.—

(1) IN GENERAL.—To the extent that part C of title II of the Public Health Service Act establishes a Federal rule of law applicable to a civil action brought for a smallpox vaccine-related injury or death—

(A) this part shall not affect the application of the rule of law to such an action; and

(B) any rule of law prescribed by this part in conflict with a rule of law of such part C shall not apply to such action.

(2) EXCEPTION.—If there is an aspect of a civil action brought for a smallpox vaccine-related injury or death to which a Federal rule of law under part C of title II of the Public Health Service Act does not apply, then this part or otherwise applicable law (as determined under this part) will apply to such aspect of such action.

(c) OTHER FEDERAL LAW.—Except as provided in this section, nothing in this part shall be deemed to affect any defense available, or any limitation on liability that applies to, a defendant in a health care lawsuit or action under any other provision of Federal law.

SEC. 21. STATE FLEXIBILITY AND PROTECTION OF STATES' RIGHTS.

(a) HEALTH CARE LAWSUITS.—The provisions governing health care lawsuits set forth in this part shall preempt, subject to subsections (b) and (c), State law to the extent that State law prevents the application of any provisions of law established by or under this part. The provisions governing health care lawsuits set forth in this part supersede chapter 171 of title 28, United States Code, to the extent that such chapter—

(1) provides for a greater amount of damages or contingent fees, a longer period in which a health care lawsuit may be commenced, or a reduced applicability or scope of periodic payment of future damages, than provided in this part; or

(2) prohibits the introduction of evidence regarding collateral source benefits.

(b) PREEMPTION OF CERTAIN STATE LAWS.—

No provision of this part shall be construed to preempt any State law (whether effective before, on, or after the date of the enactment of this part) that specifies a particular monetary amount of compensatory or punitive damages (or the total amount of damages) that may be awarded in a health care lawsuit, regardless of whether such monetary amount is greater or lesser than is provided for under this part, notwithstanding section 15(a).

(c) PROTECTION OF STATE'S RIGHTS AND OTHER LAWS.—

(1) IN GENERAL.—Any issue that is not governed by a provision of law established by or under this part (including the State standards of negligence) shall be governed by otherwise applicable Federal or State law.

(2) RULE OF CONSTRUCTION.—Nothing in this part shall be construed to—

(A) preempt or supersede any Federal or State law that imposes greater procedural or substantive protections (such as a shorter statute of limitations) for a health care provider or health care institution from liability, loss, or damages than those provided by this part;

(B) preempt or supercede any State law that permits and provides for the enforcement of any arbitration agreement related to a health care liability claim whether enacted prior to or after the date of enactment of this part;

(C) create a cause of action that is not otherwise available under Federal or State law; or

(D) affect the scope of preemption of any other Federal law.

SEC. 22. APPLICABILITY; EFFECTIVE DATE.

This part shall apply to any health care lawsuit brought in a Federal or State court, or subject to an alternative dispute resolution system, that is initiated on or after the date of the enactment of this part, except that any health care lawsuit arising from an injury occurring prior to the date of enactment of this part shall be governed by the applicable statute of limitations provisions in effect at the time the injury occurred.

SA 3245. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

Subtitle —Improved Patient Access and Medical Care

PART I—INCREASED MEDICAID PAYMENTS FOR PEDIATRIC CARE

SEC. 01. INCREASED PAYMENTS FOR PEDIATRIC CARE UNDER MEDICAID.

(a) IN GENERAL.—

(1) FEE-FOR-SERVICE PAYMENTS.—Section 1902 of the Social Security Act (42 U.S.C. 1396b), as amended by section 2001(b)(2), is amended—

(A) in subsection (a)(13)—

(i) by striking “and” at the end of subparagraph (A);

(ii) by adding “and” at the end of subparagraph (B); and

(iii) by adding at the end the following new subparagraph:

“(C) payment for pediatric care services (as defined in subsection (hh)(1)) furnished by hospitals or physicians (as defined in section 1861(r)) (or for services furnished by other health care professionals that would be pediatric care services under such subsection if furnished by a physician) at a rate not less than—

“(i) in the case of such services furnished by physicians (or professionals), 80 percent of the payment rate that would be applicable if the adjustment described in subsection (hh)(2) were to apply to such services and physicians or professionals (as the case may be) under part B of title XVIII (or, if there is no payment rate for such services under part B of title XVIII, the payment rate for the most comparable services, as determined by the Secretary in consultation with the Medicaid and CHIP Payment and Access Commission established under section 1900 and adjusted as appropriate for a pediatric population) for services furnished in 2010, 90 percent of such adjusted payment rate for services and physicians (or professionals) furnished in 2011, and 100 percent of such adjusted payment rate for services and hospitals or physicians (or professionals) furnished in 2012 and each subsequent year; and

“(ii) in the case of such services furnished by hospitals, 80 percent of the payment rate that would be applicable if such services were furnished under part A of title XVIII (or, if there is no payment rate for such services under part A of title XVIII, the payment rate for the most comparable services, as determined by the Secretary in consultation with the Medicaid and CHIP Payment and Access Commission established under section 1900 and adjusted as appropriate for a pediatric population) for services furnished in 2010, 90 percent of such payment rate for services furnished in 2011, and 100 percent of such payment rate for services furnished in 2012 and each subsequent year;”;

(B) by adding at the end the following new subsection:

“(hh) INCREASED PAYMENT FOR PEDIATRIC CARE.—For purposes of subsection (a)(13)(C):

“(1) PEDIATRIC CARE SERVICES DEFINED.—The term ‘pediatric care services’ means evaluation and management services, without regard to the specialty of the physician or hospital furnishing the services, that are procedure codes (for services covered under title XVIII) for services in the category designated Evaluation and Management in the Healthcare Common Procedure Coding System (established by the Secretary under section 1848(c)(5) as of December 31, 2009, and as subsequently modified by the Secretary) and that are furnished to an individual who is enrolled in the State plan under this title who has not attained age 19. Such term includes

procedure codes established by the Secretary, in consultation with the Medicaid and CHIP Payment and Access Commission established under section 1900, for services furnished under State plans under this title to individuals who have not attained age 19 and for which there is not an a procedure code (or a procedure code that the Secretary, in consultation with such Commission, determines is comparable) established under the Healthcare Common Procedure Coding System.

“(2) ADJUSTMENT.—The adjustment described in this paragraph is the substitution of 1.25 percent for the update otherwise provided under section 1848(d)(4) for each year beginning with 2010.”.

(2) UNDER MEDICAID MANAGED CARE PLANS.—Section 1932(f) of such Act (42 U.S.C. 1396u-2(f)) is amended—

(A) in the heading, by adding at the end the following: “; ADEQUACY OF PAYMENT FOR PEDIATRIC CARE SERVICES”; and

(B) by inserting before the period at the end the following: “and, in the case of pediatric care services described in section 1902(a)(13)(C), consistent with the minimum payment rates specified in such section (regardless of the manner in which such payments are made, including in the form of capitation or partial capitation)”.

(b) INCREASED FMAP.—Section 1905 of such Act (42 U.S.C. 1396d), as amended by sections 2006 and 4107(a)(2), is amended

(1) in the first sentence of subsection (b), by striking “and” before “(4)” and by inserting before the period at the end the following: “; and (5) 100 percent (for periods beginning with 2010) with respect to amounts described in subsection (cc)”;

(2) by adding at the end the following new subsection:

“(cc) For purposes of section 1905(b)(5), the amounts described in this subsection are the following:

“(1)(A) The portion of the amounts expended for medical assistance for services described in section 1902(a)(13)(C) furnished on or after January 1, 2010, that is attributable to the amount by which the minimum payment rate required under such section (or, by application, section 1932(f)) exceeds the payment rate applicable to such services under the State plan as of the date of enactment of the Patient Protection and Affordable Care Act.

“(B) Subparagraph (A) shall not be construed as preventing the payment of Federal financial participation based on the Federal medical assistance percentage for amounts in excess of those specified under such subparagraph.”.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to services furnished on or after January 1, 2010.

PART II—MEDICAL CARE ACCESS PROTECTION

SEC. 11. SHORT TITLE OF PART.

This part may be cited as the “Medical Care Access Protection Act of 2009” or the “MCAP Act”.

SEC. 12. FINDINGS AND PURPOSE.

(a) FINDINGS.—

(1) EFFECT ON HEALTH CARE ACCESS AND COSTS.—Congress finds that our current civil justice system is adversely affecting patient access to health care services, better patient care, and cost-efficient health care, in that the health care liability system is a costly and ineffective mechanism for resolving claims of health care liability and compensating injured patients, and is a deterrent to the sharing of information among health

care professionals which impedes efforts to improve patient safety and quality of care.

(2) EFFECT ON INTERSTATE COMMERCE.—Congress finds that the health care and insurance industries are industries affecting interstate commerce and the health care liability litigation systems existing throughout the United States are activities that affect interstate commerce by contributing to the high costs of health care and premiums for health care liability insurance purchased by health care system providers.

(3) EFFECT ON FEDERAL SPENDING.—Congress finds that the health care liability litigation systems existing throughout the United States have a significant effect on the amount, distribution, and use of Federal funds because of—

(A) the large number of individuals who receive health care benefits under programs operated or financed by the Federal Government;

(B) the large number of individuals who benefit because of the exclusion from Federal taxes of the amounts spent to provide them with health insurance benefits; and

(C) the large number of health care providers who provide items or services for which the Federal Government makes payments.

(b) PURPOSE.—It is the purpose of this part to implement reasonable, comprehensive, and effective health care liability reforms designed to—

(1) improve the availability of health care services in cases in which health care liability actions have been shown to be a factor in the decreased availability of services;

(2) reduce the incidence of “defensive medicine” and lower the cost of health care liability insurance, all of which contribute to the escalation of health care costs;

(3) ensure that persons with meritorious health care injury claims receive fair and adequate compensation, including reasonable noneconomic damages;

(4) improve the fairness and cost-effectiveness of our current health care liability system to resolve disputes over, and provide compensation for, health care liability by reducing uncertainty in the amount of compensation provided to injured individuals; and

(5) provide an increased sharing of information in the health care system which will reduce unintended injury and improve patient care.

SEC. 13. DEFINITIONS.

In this part:

(1) ALTERNATIVE DISPUTE RESOLUTION SYSTEM; ADR.—The term “alternative dispute resolution system” or “ADR” means a system that provides for the resolution of health care lawsuits in a manner other than through a civil action brought in a State or Federal court.

(2) CLAIMANT.—The term “claimant” means any person who brings a health care lawsuit, including a person who asserts or claims a right to legal or equitable contribution, indemnity or subrogation, arising out of a health care liability claim or action, and any person on whose behalf such a claim is asserted or such an action is brought, whether deceased, incompetent, or a minor.

(3) COLLATERAL SOURCE BENEFITS.—The term “collateral source benefits” means any amount paid or reasonably likely to be paid in the future to or on behalf of the claimant, or any service, product or other benefit provided or reasonably likely to be provided in the future to or on behalf of the claimant, as a result of the injury or wrongful death, pursuant to—

(A) any State or Federal health, sickness, income-disability, accident, or workers' compensation law;

(B) any health, sickness, income-disability, or accident insurance that provides health benefits or income-disability coverage;

(C) any contract or agreement of any group, organization, partnership, or corporation to provide, pay for, or reimburse the cost of medical, hospital, dental, or income disability benefits; and

(D) any other publicly or privately funded program.

(4) **COMPENSATORY DAMAGES.**—The term "compensatory damages" means objectively verifiable monetary losses incurred as a result of the provision of, use of, or payment for (or failure to provide, use, or pay for) health care services or medical products, such as past and future medical expenses, loss of past and future earnings, cost of obtaining domestic services, loss of employment, and loss of business or employment opportunities, damages for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation, and all other nonpecuniary losses of any kind or nature. Such term includes economic damages and noneconomic damages, as such terms are defined in this section.

(5) **CONTINGENT FEE.**—The term "contingent fee" includes all compensation to any person or persons which is payable only if a recovery is effected on behalf of one or more claimants.

(6) **ECONOMIC DAMAGES.**—The term "economic damages" means objectively verifiable monetary losses incurred as a result of the provision of, use of, or payment for (or failure to provide, use, or pay for) health care services or medical products, such as past and future medical expenses, loss of past and future earnings, cost of obtaining domestic services, loss of employment, and loss of business or employment opportunities.

(7) **HEALTH CARE GOODS OR SERVICES.**—The term "health care goods or services" means any goods or services provided by a health care institution, provider, or by any individual working under the supervision of a health care provider, that relates to the diagnosis, prevention, care, or treatment of any human disease or impairment, or the assessment of the health of human beings.

(8) **HEALTH CARE INSTITUTION.**—The term "health care institution" means any entity licensed under Federal or State law to provide health care services (including but not limited to ambulatory surgical centers, assisted living facilities, emergency medical services providers, hospices, hospitals and hospital systems, nursing homes, or other entities licensed to provide such services).

(9) **HEALTH CARE LAWSUIT.**—The term "health care lawsuit" means any health care liability claim concerning the provision of health care goods or services affecting interstate commerce, or any health care liability action concerning the provision of (or the failure to provide) health care goods or services affecting interstate commerce, brought in a State or Federal court or pursuant to an alternative dispute resolution system, against a health care provider or a health care institution regardless of the theory of liability on which the claim is based, or the number of claimants, plaintiffs, defendants, or other parties, or the number of claims or causes of action, in which the claimant alleges a health care liability claim.

(10) **HEALTH CARE LIABILITY ACTION.**—The term "health care liability action" means a civil action brought in a State or Federal Court or pursuant to an alternative dispute resolution system, against a health care provider or a health care institution regardless of the theory of liability on which the claim is based, or the number of plaintiffs, defendants, or other parties, or the number of causes of action, in which the claimant alleges a health care liability claim.

(11) **HEALTH CARE LIABILITY CLAIM.**—The term "health care liability claim" means a demand by any person, whether or not pursuant to ADR, against a health care provider or health care institution, including third-party claims, cross-claims, counter-claims, or contribution claims, which are based upon the provision of, use of, or payment for (or the failure to provide, use, or pay for) health care services, regardless of the theory of liability on which the claim is based, or the number of plaintiffs, defendants, or other parties, or the number of causes of action.

(12) **HEALTH CARE PROVIDER.**—

(A) **IN GENERAL.**—The term "health care provider" means any person (including but not limited to a physician (as defined by section 1861(r) of the Social Security Act (42 U.S.C. 1395x(r)), registered nurse, dentist, podiatrist, pharmacist, chiropractor, or optometrist) required by State or Federal law to be licensed, registered, or certified to provide health care services, and being either so licensed, registered, or certified, or exempted from such requirement by other statute or regulation.

(B) **TREATMENT OF CERTAIN PROFESSIONAL ASSOCIATIONS.**—For purposes of this part, a professional association that is organized under State law by an individual physician or group of physicians, a partnership or limited liability partnership formed by a group of physicians, a nonprofit health corporation certified under State law, or a company formed by a group of physicians under State law shall be treated as a health care provider under subparagraph (A).

(13) **MALICIOUS INTENT TO INJURE.**—The term "malicious intent to injure" means intentionally causing or attempting to cause physical injury other than providing health care goods or services.

(14) **NONECONOMIC DAMAGES.**—The term "noneconomic damages" means damages for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation, and all other nonpecuniary losses of any kind or nature.

(15) **PUNITIVE DAMAGES.**—The term "punitive damages" means damages awarded, for the purpose of punishment or deterrence, and not solely for compensatory purposes, against a health care provider or health care institution. Punitive damages are neither economic nor noneconomic damages.

(16) **RECOVERY.**—The term "recovery" means the net sum recovered after deducting any disbursements or costs incurred in connection with prosecution or settlement of the claim, including all costs paid or advanced by any person. Costs of health care incurred by the plaintiff and the attorneys' office overhead costs or charges for legal services are not deductible disbursements or costs for such purpose.

(17) **STATE.**—The term "State" means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the

Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States, or any political subdivision thereof.

SEC. 14. ENCOURAGING SPEEDY RESOLUTION OF CLAIMS.

(a) **IN GENERAL.**—Except as otherwise provided in this section, the time for the commencement of a health care lawsuit shall be 3 years after the date of manifestation of injury or 1 year after the claimant discovers, or through the use of reasonable diligence should have discovered, the injury, whichever occurs first.

(b) **GENERAL EXCEPTION.**—The time for the commencement of a health care lawsuit shall not exceed 3 years after the date of manifestation of injury unless the tolling of time was delayed as a result of—

(1) fraud;

(2) intentional concealment; or

(3) the presence of a foreign body, which has no therapeutic or diagnostic purpose or effect, in the person of the injured person.

(c) **MINORS.**—An action by a minor shall be commenced within 3 years from the date of the alleged manifestation of injury except that if such minor is under the full age of 6 years, such action shall be commenced within 3 years of the manifestation of injury, or prior to the eighth birthday of the minor, whichever provides a longer period. Such time limitation shall be tolled for minors for any period during which a parent or guardian and a health care provider or health care institution have committed fraud or collusion in the failure to bring an action on behalf of the injured minor.

(d) **RULE 11 SANCTIONS.**—Whenever a Federal or State court determines (whether by motion of the parties or whether on the motion of the court) that there has been a violation of Rule 11 of the Federal Rules of Civil Procedure (or a similar violation of applicable State court rules) in a health care liability action to which this part applies, the court shall impose upon the attorneys, law firms, or pro se litigants that have violated Rule 11 or are responsible for the violation, an appropriate sanction, which shall include an order to pay the other party or parties for the reasonable expenses incurred as a direct result of the filing of the pleading, motion, or other paper that is the subject of the violation, including a reasonable attorneys' fee. Such sanction shall be sufficient to deter repetition of such conduct or comparable conduct by others similarly situated, and to compensate the party or parties injured by such conduct.

SEC. 15. COMPENSATING PATIENT INJURY.

(a) **UNLIMITED AMOUNT OF DAMAGES FOR ACTUAL ECONOMIC LOSSES IN HEALTH CARE LAWSUITS.**—In any health care lawsuit, nothing in this part shall limit the recovery by a claimant of the full amount of the available economic damages, notwithstanding the limitation contained in subsection (b).

(b) **ADDITIONAL NONECONOMIC DAMAGES.**—

(1) **HEALTH CARE PROVIDERS.**—In any health care lawsuit where final judgment is rendered against a health care provider, the amount of noneconomic damages recovered from the provider, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties other than a health care institution against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence.

(2) **HEALTH CARE INSTITUTIONS.**—

(A) **SINGLE INSTITUTION.**—In any health care lawsuit where final judgment is rendered against a single health care institution, the amount of noneconomic damages

recovered from the institution, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence.

(B) **MULTIPLE INSTITUTIONS.**—In any health care lawsuit where final judgment is rendered against more than one health care institution, the amount of noneconomic damages recovered from each institution, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence, except that the total amount recovered from all such institutions in such lawsuit shall not exceed \$500,000.

(C) **NO DISCOUNT OF AWARD FOR NONECONOMIC DAMAGES.**—In any health care lawsuit—

(1) an award for future noneconomic damages shall not be discounted to present value;

(2) the jury shall not be informed about the maximum award for noneconomic damages under subsection (b);

(3) an award for noneconomic damages in excess of the limitations provided for in subsection (b) shall be reduced either before the entry of judgment, or by amendment of the judgment after entry of judgment, and such reduction shall be made before accounting for any other reduction in damages required by law; and

(4) if separate awards are rendered for past and future noneconomic damages and the combined awards exceed the limitations described in subsection (b), the future noneconomic damages shall be reduced first.

(D) **FAIR SHARE RULE.**—In any health care lawsuit, each party shall be liable for that party's several share of any damages only and not for the share of any other person. Each party shall be liable only for the amount of damages allocated to such party in direct proportion to such party's percentage of responsibility. A separate judgment shall be rendered against each such party for the amount allocated to such party. For purposes of this section, the trier of fact shall determine the proportion of responsibility of each party for the claimant's harm.

SEC. 16. MAXIMIZING PATIENT RECOVERY.

(A) **COURT SUPERVISION OF SHARE OF DAMAGES ACTUALLY PAID TO CLAIMANTS.**—

(1) **IN GENERAL.**—In any health care lawsuit, the court shall supervise the arrangements for payment of damages to protect against conflicts of interest that may have the effect of reducing the amount of damages awarded that are actually paid to claimants.

(2) **CONTINGENCY FEES.**—

(A) **IN GENERAL.**—In any health care lawsuit in which the attorney for a party claims a financial stake in the outcome by virtue of a contingency fee, the court shall have the power to restrict the payment of a claimant's damage recovery to such attorney, and to redirect such damages to the claimant based upon the interests of justice and principles of equity.

(B) **LIMITATION.**—The total of all contingent fees for representing all claimants in a health care lawsuit shall not exceed the following limits:

(i) 40 percent of the first \$50,000 recovered by the claimant(s).

(ii) 33½ percent of the next \$50,000 recovered by the claimant(s).

(iii) 25 percent of the next \$500,000 recovered by the claimant(s).

(iv) 15 percent of any amount by which the recovery by the claimant(s) is in excess of \$600,000.

(B) **APPLICABILITY.**—

(1) **IN GENERAL.**—The limitations in subsection (a) shall apply whether the recovery is by judgment, settlement, mediation, arbitration, or any other form of alternative dispute resolution.

(2) **MINORS.**—In a health care lawsuit involving a minor or incompetent person, a court retains the authority to authorize or approve a fee that is less than the maximum permitted under this section.

(C) **EXPERT WITNESSES.**—

(1) **REQUIREMENT.**—No individual shall be qualified to testify as an expert witness concerning issues of negligence in any health care lawsuit against a defendant unless such individual—

(A) except as required under paragraph (2), is a health care professional who—

(i) is appropriately credentialed or licensed in 1 or more States to deliver health care services; and

(ii) typically treats the diagnosis or condition or provides the type of treatment under review; and

(B) can demonstrate by competent evidence that, as a result of training, education, knowledge, and experience in the evaluation, diagnosis, and treatment of the disease or injury which is the subject matter of the lawsuit against the defendant, the individual was substantially familiar with applicable standards of care and practice as they relate to the act or omission which is the subject of the lawsuit on the date of the incident.

(2) **PHYSICIAN REVIEW.**—In a health care lawsuit, if the claim of the plaintiff involved treatment that is recommended or provided by a physician (allopathic or osteopathic), an individual shall not be qualified to be an expert witness under this subsection with respect to issues of negligence concerning such treatment unless such individual is a physician.

(3) **SPECIALTIES AND SUBSPECIALTIES.**—With respect to a lawsuit described in paragraph (1), a court shall not permit an expert in one medical specialty or subspecialty to testify against a defendant in another medical specialty or subspecialty unless, in addition to a showing of substantial familiarity in accordance with paragraph (1)(B), there is a showing that the standards of care and practice in the two specialty or subspecialty fields are similar.

(4) **LIMITATION.**—The limitations in this subsection shall not apply to expert witnesses testifying as to the degree or permanency of medical or physical impairment.

SEC. 17. ADDITIONAL HEALTH BENEFITS.

(A) **IN GENERAL.**—The amount of any damages received by a claimant in any health care lawsuit shall be reduced by the court by the amount of any collateral source benefits to which the claimant is entitled, less any insurance premiums or other payments made by the claimant (or by the spouse, parent, child, or legal guardian of the claimant) to obtain or secure such benefits.

(B) **PRESERVATION OF CURRENT LAW.**—Where a payor of collateral source benefits has a right of recovery by reimbursement or subrogation and such right is permitted under Federal or State law, subsection (A) shall not apply.

(C) **APPLICATION OF PROVISION.**—This section shall apply to any health care lawsuit that is settled or resolved by a fact finder.

SEC. 18. PUNITIVE DAMAGES.

(A) **PUNITIVE DAMAGES PERMITTED.**—

(1) **IN GENERAL.**—Punitive damages may, if otherwise available under applicable State

or Federal law, be awarded against any person in a health care lawsuit only if it is proven by clear and convincing evidence that such person acted with malicious intent to injure the claimant, or that such person deliberately failed to avoid unnecessary injury that such person knew the claimant was substantially certain to suffer.

(2) **FILING OF LAWSUIT.**—No demand for punitive damages shall be included in a health care lawsuit as initially filed. A court may allow a claimant to file an amended pleading for punitive damages only upon a motion by the claimant and after a finding by the court, upon review of supporting and opposing affidavits or after a hearing, after weighing the evidence, that the claimant has established by a substantial probability that the claimant will prevail on the claim for punitive damages.

(3) **SEPARATE PROCEEDING.**—At the request of any party in a health care lawsuit, the trier of fact shall consider in a separate proceeding—

(A) whether punitive damages are to be awarded and the amount of such award; and

(B) the amount of punitive damages following a determination of punitive liability. If a separate proceeding is requested, evidence relevant only to the claim for punitive damages, as determined by applicable State law, shall be inadmissible in any proceeding to determine whether compensatory damages are to be awarded.

(4) **LIMITATION WHERE NO COMPENSATORY DAMAGES ARE AWARDED.**—In any health care lawsuit where no judgment for compensatory damages is rendered against a person, no punitive damages may be awarded with respect to the claim in such lawsuit against such person.

(B) **DETERMINING AMOUNT OF PUNITIVE DAMAGES.**—

(1) **FACTORS CONSIDERED.**—In determining the amount of punitive damages under this section, the trier of fact shall consider only the following:

(A) the severity of the harm caused by the conduct of such party;

(B) the duration of the conduct or any concealment of it by such party;

(C) the profitability of the conduct to such party;

(D) the number of products sold or medical procedures rendered for compensation, as the case may be, by such party, of the kind causing the harm complained of by the claimant;

(E) any criminal penalties imposed on such party, as a result of the conduct complained of by the claimant; and

(F) the amount of any civil fines assessed against such party as a result of the conduct complained of by the claimant.

(2) **MAXIMUM AWARD.**—The amount of punitive damages awarded in a health care lawsuit may not exceed an amount equal to two times the amount of economic damages awarded in the lawsuit or \$250,000, whichever is greater. The jury shall not be informed of the limitation under the preceding sentence.

(C) **LIABILITY OF HEALTH CARE PROVIDERS.**—

(1) **IN GENERAL.**—A health care provider who prescribes, or who dispenses pursuant to a prescription, a drug, biological product, or medical device approved by the Food and Drug Administration, for an approved indication of the drug, biological product, or medical device, shall not be named as a party to a product liability lawsuit invoking such drug, biological product, or medical device and shall not be liable to a claimant in a class action lawsuit against the manufacturer, distributor, or product seller of such drug, biological product, or medical device.

(2) **MEDICAL PRODUCT.**—The term “medical product” means a drug or device intended for humans. The terms “drug” and “device” have the meanings given such terms in sections 201(g)(1) and 201(h) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 321), respectively, including any component or raw material used therein, but excluding health care services.

SEC. 19. AUTHORIZATION OF PAYMENT OF FUTURE DAMAGES TO CLAIMANTS IN HEALTH CARE LAWSUITS.

(a) **IN GENERAL.**—In any health care lawsuit, if an award of future damages, without reduction to present value, equaling or exceeding \$50,000 is made against a party with sufficient insurance or other assets to fund a periodic payment of such a judgment, the court shall, at the request of any party, enter a judgment ordering that the future damages be paid by periodic payments in accordance with the Uniform Periodic Payment of Judgments Act promulgated by the National Conference of Commissioners on Uniform State Laws.

(b) **APPLICABILITY.**—This section applies to all actions which have not been first set for trial or retrial before the effective date of this part.

SEC. 20. EFFECT ON OTHER LAWS.

(a) **GENERAL VACCINE INJURY.**—

(1) **IN GENERAL.**—To the extent that title XXI of the Public Health Service Act establishes a Federal rule of law applicable to a civil action brought for a vaccine-related injury or death—

(A) this part shall not affect the application of the rule of law to such an action; and

(B) any rule of law prescribed by this part in conflict with a rule of law of such title XXI shall not apply to such action.

(2) **EXCEPTION.**—If there is an aspect of a civil action brought for a vaccine-related injury or death to which a Federal rule of law under title XXI of the Public Health Service Act does not apply, then this part or otherwise applicable law (as determined under this part) will apply to such aspect of such action.

(b) **SMALLPOX VACCINE INJURY.**—

(1) **IN GENERAL.**—To the extent that part C of title II of the Public Health Service Act establishes a Federal rule of law applicable to a civil action brought for a smallpox vaccine-related injury or death—

(A) this part shall not affect the application of the rule of law to such an action; and

(B) any rule of law prescribed by this part in conflict with a rule of law of such part C shall not apply to such action.

(2) **EXCEPTION.**—If there is an aspect of a civil action brought for a smallpox vaccine-related injury or death to which a Federal rule of law under part C of title II of the Public Health Service Act does not apply, then this part or otherwise applicable law (as determined under this part) will apply to such aspect of such action.

(c) **OTHER FEDERAL LAW.**—Except as provided in this section, nothing in this part shall be deemed to affect any defense available, or any limitation on liability that applies to, a defendant in a health care lawsuit or action under any other provision of Federal law.

SEC. 21. STATE FLEXIBILITY AND PROTECTION OF STATES' RIGHTS.

(a) **HEALTH CARE LAWSUITS.**—The provisions governing health care lawsuits set forth in this part shall preempt, subject to subsections (b) and (c), State law to the extent that State law prevents the application of any provisions of law established by or under this part. The provisions governing

health care lawsuits set forth in this part supersede chapter 171 of title 28, United States Code, to the extent that such chapter—

(1) provides for a greater amount of damages or contingent fees, a longer period in which a health care lawsuit may be commenced, or a reduced applicability or scope of periodic payment of future damages, than provided in this part; or

(2) prohibits the introduction of evidence regarding collateral source benefits.

(b) **PREEMPTION OF CERTAIN STATE LAWS.**—No provision of this part shall be construed to preempt any State law (whether effective before, on, or after the date of the enactment of this part) that specifies a particular monetary amount of compensatory or punitive damages (or the total amount of damages) that may be awarded in a health care lawsuit, regardless of whether such monetary amount is greater or lesser than is provided for under this part, notwithstanding section 15(a).

(c) **PROTECTION OF STATE'S RIGHTS AND OTHER LAWS.**—

(1) **IN GENERAL.**—Any issue that is not governed by a provision of law established by or under this part (including the State standards of negligence) shall be governed by otherwise applicable Federal or State law.

(2) **RULE OF CONSTRUCTION.**—Nothing in this part shall be construed to—

(A) preempt or supersede any Federal or State law that imposes greater procedural or substantive protections (such as a shorter statute of limitations) for a health care provider or health care institution from liability, loss, or damages than those provided by this part;

(B) preempt or supersede any State law that permits and provides for the enforcement of any arbitration agreement related to a health care liability claim whether enacted prior to or after the date of enactment of this part;

(C) create a cause of action that is not otherwise available under Federal or State law; or

(D) affect the scope of preemption of any other Federal law.

SEC. 22. APPLICABILITY; EFFECTIVE DATE.

This part shall apply to any health care lawsuit brought in a Federal or State court, or subject to an alternative dispute resolution system, that is initiated on or after the date of the enactment of this part, except that any health care lawsuit arising from an injury occurring prior to the date of enactment of this part shall be governed by the applicable statute of limitations provisions in effect at the time the injury occurred.

SA 3246. Mr. CASEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 974, between lines 9 and 10, insert the following:

SEC. 3315. EXPANSION OF THE DEFINITION OF A COVERED PART D DRUG UNDER THE MEDICARE PROGRAM.

(a) **IN GENERAL.**—Section 1860D-2(e)(1)(A) of the Social Security Act (42 U.S.C. 1395w-102(e)(1)(A)) is amended by inserting “and disposable medical devices which reduce the

side effects associated with the treatment of cancer” after “1927(k)(2)”.

(b) **EFFECTIVE DATE.**—The amendment made by subsection (a) shall apply to drugs dispensed on or after January 1, 2011.

SA 3247. Mr. GRASSLEY submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 2074, after line 25, insert the following:

TITLE X—TO EXPAND ACCESS TO PRIMARY CARE SERVICES BY IMPROVING MEDICARE REIMBURSEMENT FOR PRIMARY CARE PRACTITIONERS WITH A SPECIALTY DESIGNATION OF NEUROLOGY

Subtitle A—Access to Primary Care Services

SEC. 10001. IMPROVED REIMBURSEMENT FOR PRIMARY CARE PRACTITIONERS WITH A SPECIALTY DESIGNATION OF NEUROLOGY.

Section 1833(x)(2)(A)(i)(I) of the Social Security Act, as added by section 5501, is amended by striking “or pediatric medicine” and inserting “neurology, or pediatric medicine”.

Subtitle B—Medical Care Access Protection

SEC. 10101. SHORT TITLE.

This subtitle may be cited as the “Medical Care Access Protection Act of 2009” or the “MCAP Act”.

SEC. 10102. FINDINGS AND PURPOSE.

(a) **FINDINGS.**—

(1) **EFFECT ON HEALTH CARE ACCESS AND COSTS.**—Congress finds that our current civil justice system is adversely affecting patient access to health care services, better patient care, and cost-efficient health care, in that the health care liability system is a costly and ineffective mechanism for resolving claims of health care liability and compensating injured patients, and is a deterrent to the sharing of information among health care professionals which impedes efforts to improve patient safety and quality of care.

(2) **EFFECT ON INTERSTATE COMMERCE.**—Congress finds that the health care and insurance industries are industries affecting interstate commerce and the health care liability litigation systems existing throughout the United States are activities that affect interstate commerce by contributing to the high costs of health care and premiums for health care liability insurance purchased by health care system providers.

(3) **EFFECT ON FEDERAL SPENDING.**—Congress finds that the health care liability litigation systems existing throughout the United States have a significant effect on the amount, distribution, and use of Federal funds because of—

(A) the large number of individuals who receive health care benefits under programs operated or financed by the Federal Government;

(B) the large number of individuals who benefit because of the exclusion from Federal taxes of the amounts spent to provide them with health insurance benefits; and

(C) the large number of health care providers who provide items or services for

which the Federal Government makes payments.

(b) PURPOSE.—It is the purpose of this subtitle to implement reasonable, comprehensive, and effective health care liability reforms designed to—

(1) improve the availability of health care services in cases in which health care liability actions have been shown to be a factor in the decreased availability of services;

(2) reduce the incidence of “defensive medicine” and lower the cost of health care liability insurance, all of which contribute to the escalation of health care costs;

(3) ensure that persons with meritorious health care injury claims receive fair and adequate compensation, including reasonable noneconomic damages;

(4) improve the fairness and cost-effectiveness of our current health care liability system to resolve disputes over, and provide compensation for, health care liability by reducing uncertainty in the amount of compensation provided to injured individuals; and

(5) provide an increased sharing of information in the health care system which will reduce unintended injury and improve patient care.

SEC. 10103. DEFINITIONS.

In this subtitle:

(1) ALTERNATIVE DISPUTE RESOLUTION SYSTEM; ADR.—The term “alternative dispute resolution system” or “ADR” means a system that provides for the resolution of health care lawsuits in a manner other than through a civil action brought in a State or Federal court.

(2) CLAIMANT.—The term “claimant” means any person who brings a health care lawsuit, including a person who asserts or claims a right to legal or equitable contribution, indemnity or subrogation, arising out of a health care liability claim or action, and any person on whose behalf such a claim is asserted or such an action is brought, whether deceased, incompetent, or a minor.

(3) COLLATERAL SOURCE BENEFITS.—The term “collateral source benefits” means any amount paid or reasonably likely to be paid in the future to or on behalf of the claimant, or any service, product or other benefit provided or reasonably likely to be provided in the future to or on behalf of the claimant, as a result of the injury or wrongful death, pursuant to—

(A) any State or Federal health, sickness, income-disability, accident, or workers’ compensation law;

(B) any health, sickness, income-disability, or accident insurance that provides health benefits or income-disability coverage;

(C) any contract or agreement of any group, organization, partnership, or corporation to provide, pay for, or reimburse the cost of medical, hospital, dental, or income disability benefits; and

(D) any other publicly or privately funded program.

(4) COMPENSATORY DAMAGES.—The term “compensatory damages” means objectively verifiable monetary losses incurred as a result of the provision of, use of, or payment for (or failure to provide, use, or pay for) health care services or medical products, such as past and future medical expenses, loss of past and future earnings, cost of obtaining domestic services, loss of employment, and loss of business or employment opportunities, damages for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consor-

tium (other than loss of domestic service), hedonic damages, injury to reputation, and all other nonpecuniary losses of any kind or nature. Such term includes economic damages and noneconomic damages, as such terms are defined in this section.

(5) CONTINGENT FEE.—The term “contingent fee” includes all compensation to any person or persons which is payable only if a recovery is effected on behalf of one or more claimants.

(6) ECONOMIC DAMAGES.—The term “economic damages” means objectively verifiable monetary losses incurred as a result of the provision of, use of, or payment for (or failure to provide, use, or pay for) health care services or medical products, such as past and future medical expenses, loss of past and future earnings, cost of obtaining domestic services, loss of employment, and loss of business or employment opportunities.

(7) HEALTH CARE GOODS OR SERVICES.—The term “health care goods or services” means any goods or services provided by a health care institution, provider, or by any individual working under the supervision of a health care provider, that relates to the diagnosis, prevention, care, or treatment of any human disease or impairment, or the assessment of the health of human beings.

(8) HEALTH CARE INSTITUTION.—The term “health care institution” means any entity licensed under Federal or State law to provide health care services (including but not limited to ambulatory surgical centers, assisted living facilities, emergency medical services providers, hospices, hospitals and hospital systems, nursing homes, or other entities licensed to provide such services).

(9) HEALTH CARE LAWSUIT.—The term “health care lawsuit” means any health care liability claim concerning the provision of health care goods or services affecting interstate commerce, or any health care liability action concerning the provision of (or the failure to provide) health care goods or services affecting interstate commerce, brought in a State or Federal court or pursuant to an alternative dispute resolution system, against a health care provider or a health care institution regardless of the theory of liability on which the claim is based, or the number of claimants, plaintiffs, defendants, or other parties, or the number of claims or causes of action, in which the claimant alleges a health care liability claim.

(10) HEALTH CARE LIABILITY ACTION.—The term “health care liability action” means a civil action brought in a State or Federal Court or pursuant to an alternative dispute resolution system, against a health care provider or a health care institution regardless of the theory of liability on which the claim is based, or the number of plaintiffs, defendants, or other parties, or the number of causes of action, in which the claimant alleges a health care liability claim.

(11) HEALTH CARE LIABILITY CLAIM.—The term “health care liability claim” means a demand by any person, whether or not pursuant to ADR, against a health care provider or health care institution, including third-party claims, cross-claims, counter-claims, or contribution claims, which are based upon the provision of, use of, or payment for (or the failure to provide, use, or pay for) health care services, regardless of the theory of liability on which the claim is based, or the number of plaintiffs, defendants, or other parties, or the number of causes of action.

(12) HEALTH CARE PROVIDER.—

(A) IN GENERAL.—The term “health care provider” means any person (including but

not limited to a physician (as defined by section 1861(r) of the Social Security Act (42 U.S.C. 1395x(r)), registered nurse, dentist, podiatrist, pharmacist, chiropractor, or optometrist) required by State or Federal law to be licensed, registered, or certified to provide health care services, and being either so licensed, registered, or certified, or exempted from such requirement by other statute or regulation.

(B) TREATMENT OF CERTAIN PROFESSIONAL ASSOCIATIONS.—For purposes of this subtitle, a professional association that is organized under State law by an individual physician or group of physicians, a partnership or limited liability partnership formed by a group of physicians, a nonprofit health corporation certified under State law, or a company formed by a group of physicians under State law shall be treated as a health care provider under subparagraph (A).

(13) MALICIOUS INTENT TO INJURE.—The term “malicious intent to injure” means intentionally causing or attempting to cause physical injury other than providing health care goods or services.

(14) NONECONOMIC DAMAGES.—The term “noneconomic damages” means damages for physical and emotional pain, suffering, inconvenience, physical impairment, mental anguish, disfigurement, loss of enjoyment of life, loss of society and companionship, loss of consortium (other than loss of domestic service), hedonic damages, injury to reputation, and all other nonpecuniary losses of any kind or nature.

(15) PUNITIVE DAMAGES.—The term “punitive damages” means damages awarded, for the purpose of punishment or deterrence, and not solely for compensatory purposes, against a health care provider or health care institution. Punitive damages are neither economic nor noneconomic damages.

(16) RECOVERY.—The term “recovery” means the net sum recovered after deducting any disbursements or costs incurred in connection with prosecution or settlement of the claim, including all costs paid or advanced by any person. Costs of health care incurred by the plaintiff and the attorneys’ office overhead costs or charges for legal services are not deductible disbursements or costs for such purpose.

(17) STATE.—The term “State” means each of the several States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Northern Mariana Islands, the Trust Territory of the Pacific Islands, and any other territory or possession of the United States, or any political subdivision thereof.

SEC. 10104. ENCOURAGING SPEEDY RESOLUTION OF CLAIMS.

(a) IN GENERAL.—Except as otherwise provided for in this section, the time for the commencement of a health care lawsuit shall be 3 years after the date of manifestation of injury or 1 year after the claimant discovers, or through the use of reasonable diligence should have discovered, the injury, whichever occurs first.

(b) GENERAL EXCEPTION.—The time for the commencement of a health care lawsuit shall not exceed 3 years after the date of manifestation of injury unless the tolling of time was delayed as a result of—

(1) fraud;

(2) intentional concealment; or

(3) the presence of a foreign body, which has no therapeutic or diagnostic purpose or effect, in the person of the injured person.

(c) MINORS.—An action by a minor shall be commenced within 3 years from the date of the alleged manifestation of injury except

that if such minor is under the full age of 6 years, such action shall be commenced within 3 years of the manifestation of injury, or prior to the eighth birthday of the minor, whichever provides a longer period. Such time limitation shall be tolled for minors for any period during which a parent or guardian and a health care provider or health care institution have committed fraud or collusion in the failure to bring an action on behalf of the injured minor.

(d) **RULE 11 SANCTIONS.**—Whenever a Federal or State court determines (whether by motion of the parties or whether on the motion of the court) that there has been a violation of Rule 11 of the Federal Rules of Civil Procedure (or a similar violation of applicable State court rules) in a health care liability action to which this subtitle applies, the court shall impose upon the attorneys, law firms, or pro se litigants that have violated Rule 11 or are responsible for the violation, an appropriate sanction, which shall include an order to pay the other party or parties for the reasonable expenses incurred as a direct result of the filing of the pleading, motion, or other paper that is the subject of the violation, including a reasonable attorneys' fee. Such sanction shall be sufficient to deter repetition of such conduct or comparable conduct by others similarly situated, and to compensate the party or parties injured by such conduct.

SEC. 10105. COMPENSATING PATIENT INJURY.

(a) **UNLIMITED AMOUNT OF DAMAGES FOR ACTUAL ECONOMIC LOSSES IN HEALTH CARE LAWSUITS.**—In any health care lawsuit, nothing in this subtitle shall limit the recovery by a claimant of the full amount of the available economic damages, notwithstanding the limitation contained in subsection (b).

(b) ADDITIONAL NONECONOMIC DAMAGES.—

(1) **HEALTH CARE PROVIDERS.**—In any health care lawsuit where final judgment is rendered against a health care provider, the amount of noneconomic damages recovered from the provider, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties other than a health care institution against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence.

(2) HEALTH CARE INSTITUTIONS.—

(A) **SINGLE INSTITUTION.**—In any health care lawsuit where final judgment is rendered against a single health care institution, the amount of noneconomic damages recovered from the institution, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence.

(B) **MULTIPLE INSTITUTIONS.**—In any health care lawsuit where final judgment is rendered against more than one health care institution, the amount of noneconomic damages recovered from each institution, if otherwise available under applicable Federal or State law, may be as much as \$250,000, regardless of the number of parties against whom the action is brought or the number of separate claims or actions brought with respect to the same occurrence, except that the total amount recovered from all such institutions in such lawsuit shall not exceed \$500,000.

(c) **NO DISCOUNT OF AWARD FOR NONECONOMIC DAMAGES.**—In any health care lawsuit—

(1) an award for future noneconomic damages shall not be discounted to present value;

(2) the jury shall not be informed about the maximum award for noneconomic damages under subsection (b);

(3) an award for noneconomic damages in excess of the limitations provided for in subsection (b) shall be reduced either before the entry of judgment, or by amendment of the judgment after entry of judgment, and such reduction shall be made before accounting for any other reduction in damages required by law; and

(4) if separate awards are rendered for past and future noneconomic damages and the combined awards exceed the limitations described in subsection (b), the future noneconomic damages shall be reduced first.

(d) **FAIR SHARE RULE.**—In any health care lawsuit, each party shall be liable for that party's several share of any damages only and not for the share of any other person. Each party shall be liable only for the amount of damages allocated to such party in direct proportion to such party's percentage of responsibility. A separate judgment shall be rendered against each such party for the amount allocated to such party. For purposes of this section, the trier of fact shall determine the proportion of responsibility of each party for the claimant's harm.

SEC. 10106. MAXIMIZING PATIENT RECOVERY.

(a) **COURT SUPERVISION OF SHARE OF DAMAGES ACTUALLY PAID TO CLAIMANTS.—**

(1) **IN GENERAL.**—In any health care lawsuit, the court shall supervise the arrangements for payment of damages to protect against conflicts of interest that may have the effect of reducing the amount of damages awarded that are actually paid to claimants.

(2) CONTINGENCY FEES.—

(A) **IN GENERAL.**—In any health care lawsuit in which the attorney for a party claims a financial stake in the outcome by virtue of a contingent fee, the court shall have the power to restrict the payment of a claimant's damage recovery to such attorney, and to redirect such damages to the claimant based upon the interests of justice and principles of equity.

(B) **LIMITATION.**—The total of all contingency fees for representing all claimants in a health care lawsuit shall not exceed the following limits:

(i) 40 percent of the first \$50,000 recovered by the claimant(s).

(ii) 33½ percent of the next \$50,000 recovered by the claimant(s).

(iii) 25 percent of the next \$500,000 recovered by the claimant(s).

(iv) 15 percent of any amount by which the recovery by the claimant(s) is in excess of \$600,000.

(b) APPLICABILITY.—

(1) **IN GENERAL.**—The limitations in subsection (a) shall apply whether the recovery is by judgment, settlement, mediation, arbitration, or any other form of alternative dispute resolution.

(2) **MINORS.**—In a health care lawsuit involving a minor or incompetent person, a court retains the authority to authorize or approve a fee that is less than the maximum permitted under this section.

(c) EXPERT WITNESSES.—

(1) **REQUIREMENT.**—No individual shall be qualified to testify as an expert witness concerning issues of negligence in any health care lawsuit against a defendant unless such individual—

(A) except as required under paragraph (2), is a health care professional who—

(i) is appropriately credentialed or licensed in 1 or more States to deliver health care services; and

(ii) typically treats the diagnosis or condition or provides the type of treatment under review; and

(B) can demonstrate by competent evidence that, as a result of training, education, knowledge, and experience in the evaluation, diagnosis, and treatment of the disease or injury which is the subject matter of the lawsuit against the defendant, the individual was substantially familiar with applicable standards of care and practice as they relate to the act or omission which is the subject of the lawsuit on the date of the incident.

(2) **PHYSICIAN REVIEW.**—In a health care lawsuit, if the claim of the plaintiff involved treatment that is recommended or provided by a physician (allopathic or osteopathic), an individual shall not be qualified to be an expert witness under this subsection with respect to issues of negligence concerning such treatment unless such individual is a physician.

(3) **SPECIALTIES AND SUBSPECIALTIES.**—With respect to a lawsuit described in paragraph (1), a court shall not permit an expert in one medical specialty or subspecialty to testify against a defendant in another medical specialty or subspecialty unless, in addition to a showing of substantial familiarity in accordance with paragraph (1)(B), there is a showing that the standards of care and practice in the two specialty or subspecialty fields are similar.

(4) **LIMITATION.**—The limitations in this subsection shall not apply to expert witnesses testifying as to the degree or permanency of medical or physical impairment.

SEC. 10107. ADDITIONAL HEALTH BENEFITS.

(a) **IN GENERAL.**—The amount of any damages received by a claimant in any health care lawsuit shall be reduced by the court by the amount of any collateral source benefits to which the claimant is entitled, less any insurance premiums or other payments made by the claimant (or by the spouse, parent, child, or legal guardian of the claimant) to obtain or secure such benefits.

(b) **PRESERVATION OF CURRENT LAW.**—Where a payor of collateral source benefits has a right of recovery by reimbursement or subrogation and such right is permitted under Federal or State law, subsection (a) shall not apply.

(c) **APPLICATION OF PROVISION.**—This section shall apply to any health care lawsuit that is settled or resolved by a fact finder.

SEC. 10108. PUNITIVE DAMAGES.

(a) **PUNITIVE DAMAGES PERMITTED.—**

(1) **IN GENERAL.**—Punitive damages may, if otherwise available under applicable State or Federal law, be awarded against any person in a health care lawsuit only if it is proven by clear and convincing evidence that such person acted with malicious intent to injure the claimant, or that such person deliberately failed to avoid unnecessary injury that such person knew the claimant was substantially certain to suffer.

(2) **FILING OF LAWSUIT.**—No demand for punitive damages shall be included in a health care lawsuit as initially filed. A court may allow a claimant to file an amended pleading for punitive damages only upon a motion by the claimant and after a finding by the court, upon review of supporting and opposing affidavits or after a hearing, after weighing the evidence, that the claimant has established by a substantial probability that the claimant will prevail on the claim for punitive damages.

(3) **SEPARATE PROCEEDING.**—At the request of any party in a health care lawsuit, the trier of fact shall consider in a separate proceeding—

(A) whether punitive damages are to be awarded and the amount of such award; and

(B) the amount of punitive damages following a determination of punitive liability. If a separate proceeding is requested, evidence relevant only to the claim for punitive damages, as determined by applicable State law, shall be inadmissible in any proceeding to determine whether compensatory damages are to be awarded.

(4) LIMITATION WHERE NO COMPENSATORY DAMAGES ARE AWARDED.—In any health care lawsuit where no judgment for compensatory damages is rendered against a person, no punitive damages may be awarded with respect to the claim in such lawsuit against such person.

(b) DETERMINING AMOUNT OF PUNITIVE DAMAGES.—

(1) FACTORS CONSIDERED.—In determining the amount of punitive damages under this section, the trier of fact shall consider only the following:

(A) the severity of the harm caused by the conduct of such party;

(B) the duration of the conduct or any concealment of it by such party;

(C) the profitability of the conduct to such party;

(D) the number of products sold or medical procedures rendered for compensation, as the case may be, by such party, of the kind causing the harm complained of by the claimant;

(E) any criminal penalties imposed on such party, as a result of the conduct complained of by the claimant; and

(F) the amount of any civil fines assessed against such party as a result of the conduct complained of by the claimant.

(2) MAXIMUM AWARD.—The amount of punitive damages awarded in a health care lawsuit may not exceed an amount equal to two times the amount of economic damages awarded in the lawsuit or \$250,000, whichever is greater. The jury shall not be informed of the limitation under the preceding sentence.

(c) LIABILITY OF HEALTH CARE PROVIDERS.—

(1) IN GENERAL.—A health care provider who prescribes, or who dispenses pursuant to a prescription, a drug, biological product, or medical device approved by the Food and Drug Administration, for an approved indication of the drug, biological product, or medical device, shall not be named as a party to a product liability lawsuit invoking such drug, biological product, or medical device and shall not be liable to a claimant in a class action lawsuit against the manufacturer, distributor, or product seller of such drug, biological product, or medical device.

(2) MEDICAL PRODUCT.—The term “medical product” means a drug or device intended for humans. The terms “drug” and “device” have the meanings given such terms in sections 201(g)(1) and 201(h) of the Federal Food, Drug and Cosmetic Act (21 U.S.C. 321), respectively, including any component or raw material used therein, but excluding health care services.

SEC. 10109. AUTHORIZATION OF PAYMENT OF FUTURE DAMAGES TO CLAIMANTS IN HEALTH CARE LAWSUITS.

(a) IN GENERAL.—In any health care lawsuit, if an award of future damages, without reduction to present value, equaling or exceeding \$50,000 is made against a party with sufficient insurance or other assets to fund a periodic payment of such a judgment, the court shall, at the request of any party, enter a judgment ordering that the future damages be paid by periodic payments in accordance with the Uniform Periodic Payment of Judgments Act promulgated by the National Conference of Commissioners on Uniform State Laws.

(b) APPLICABILITY.—This section applies to all actions which have not been first set for trial or retrial before the effective date of this subtitle.

SEC. 10110. EFFECT ON OTHER LAWS.

(a) GENERAL VACCINE INJURY.—

(1) IN GENERAL.—To the extent that title XXI of the Public Health Service Act establishes a Federal rule of law applicable to a civil action brought for a vaccine-related injury or death—

(A) this subtitle shall not affect the application of the rule of law to such an action; and

(B) any rule of law prescribed by this subtitle in conflict with a rule of law of such title XXI shall not apply to such action.

(2) EXCEPTION.—If there is an aspect of a civil action brought for a vaccine-related injury or death to which a Federal rule of law under title XXI of the Public Health Service Act does not apply, then this subtitle or otherwise applicable law (as determined under this subtitle) will apply to such aspect of such action.

(b) SMALLPOX VACCINE INJURY.—

(1) IN GENERAL.—To the extent that part C of title II of the Public Health Service Act establishes a Federal rule of law applicable to a civil action brought for a smallpox vaccine-related injury or death—

(A) this subtitle shall not affect the application of the rule of law to such an action; and

(B) any rule of law prescribed by this subtitle in conflict with a rule of law of such part C shall not apply to such action.

(2) EXCEPTION.—If there is an aspect of a civil action brought for a smallpox vaccine-related injury or death to which a Federal rule of law under part C of title II of the Public Health Service Act does not apply, then this subtitle or otherwise applicable law (as determined under this subtitle) will apply to such aspect of such action.

(c) OTHER FEDERAL LAW.—Except as provided in this section, nothing in this subtitle shall be deemed to affect any defense available, or any limitation on liability that applies to, a defendant in a health care lawsuit or action under any other provision of Federal law.

SEC. 10111. STATE FLEXIBILITY AND PROTECTION OF STATES' RIGHTS.

(a) HEALTH CARE LAWSUITS.—The provisions governing health care lawsuits set forth in this subtitle shall preempt, subject to subsections (b) and (c), State law to the extent that State law prevents the application of any provisions of law established by or under this subtitle. The provisions governing health care lawsuits set forth in this subtitle supersede chapter 171 of title 28, United States Code, to the extent that such chapter—

(1) provides for a greater amount of damages or contingent fees, a longer period in which a health care lawsuit may be commenced, or a reduced applicability or scope of periodic payment of future damages, than provided in this subtitle; or

(2) prohibits the introduction of evidence regarding collateral source benefits.

(b) PREEMPTION OF CERTAIN STATE LAWS.—No provision of this subtitle shall be construed to preempt any State law (whether effective before, on, or after the date of the enactment of this Act) that specifies a particular monetary amount of compensatory or punitive damages (or the total amount of damages) that may be awarded in a health care lawsuit, regardless of whether such monetary amount is greater or lesser than is provided for under this subtitle, notwithstanding section 10105(a).

(c) PROTECTION OF STATE'S RIGHTS AND OTHER LAWS.—

(1) IN GENERAL.—Any issue that is not governed by a provision of law established by or under this subtitle (including the State standards of negligence) shall be governed by otherwise applicable Federal or State law.

(2) RULE OF CONSTRUCTION.—Nothing in this subtitle shall be construed to—

(A) preempt or supersede any Federal or State law that imposes greater procedural or substantive protections (such as a shorter statute of limitations) for a health care provider or health care institution from liability, loss, or damages than those provided by this subtitle;

(B) preempt or supercede any State law that permits and provides for the enforcement of any arbitration agreement related to a health care liability claim whether enacted prior to or after the date of enactment of this Act;

(C) create a cause of action that is not otherwise available under Federal or State law; or

(D) affect the scope of preemption of any other Federal law.

SEC. 10112. APPLICABILITY; EFFECTIVE DATE.

This subtitle shall apply to any health care lawsuit brought in a Federal or State court, or subject to an alternative dispute resolution system, that is initiated on or after the date of the enactment of this Act, except that any health care lawsuit arising from an injury occurring prior to the date of enactment of this Act shall be governed by the applicable statute of limitations provisions in effect at the time the injury occurred.

SA 3248. Mr. REID proposed an amendment to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the end of the House Amendment, insert the following:

The provisions of this Act shall become effective 5 days after enactment.

SA 3249. Mr. REID proposed an amendment to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the end, insert the following:

The Appropriations Committee is requested to study the impact of any delay in implementing the provisions of the Act on service members families.

SA 3250. Mr. REID proposed an amendment SA 3249 proposed by Mr. REID to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the end, add the following:

“and the health care provided to those service members.”

SA 3251. Mr. REID proposed an amendment to amendment SA 3250 proposed by Mr. REID to the amendment SA 3249 proposed by Mr. REID to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; as follows:

At the end, add the following:
 “and the children of service members.”

SA 3252. Mr. REID proposed an amendment to amendment SA 3248 proposed by Mr. REID to the bill H.R. 3326, making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes; as follows:

Strike “5 days” and insert “1 day”.

SA 3253. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 816, after line 20, insert the following:

SEC. 3115. INCREASING THE LIMITATION ON CHARGES FOR PHYSICIANS’ SERVICES UNDER THE MEDICARE PROGRAM.

(a) IN GENERAL.—Section 1848(g)(2)(C) of the Social Security Act (42 U.S.C. 1395w-4(g)(2)(C)) is amended by striking “115 percent” and all that follows through the period at the end and inserting “the greater of—

“(i) 115 percent of the recognized payment amount under this part for nonparticipating physicians or for nonparticipating suppliers or other persons; or

“(ii) the average private insurance reimbursement rate for the item or service (as determined by the Secretary for that geographic practice cost index area).”

(b) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to items and services furnished on or after the date of the enactment of this Act.

SA 3254. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 816, after line 20, insert the following:

SEC. 3115. ALLOWING INDIVIDUALS TO CHOOSE TO OPT OUT OF THE MEDICARE PART A BENEFIT.

Notwithstanding any other provision of law, in the case of an individual who elects to opt-out of benefits under part A of title XVIII of the Social Security Act, such individual shall not be required to—

(1) opt-out of benefits under title II of such Act as a condition for making such election; and

(2) repay any amount paid under such part A for items and services furnished prior to making such election.

SA 3255. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr.

REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place in title II, insert the following:

SEC. ____ MEDICAL MALPRACTICE REFORM.

Notwithstanding any other provision of this Act, a State that receives Federal funds under any amendment made by this Act to the Medicaid program under title XIX of the Social Security Act (42 U.S.C. 1396 et seq.) to increase eligibility for participation in such program, shall implement reforms in the State medical malpractice litigation system that are designed to achieve cost savings through the development and implementation of alternatives to tort litigation.

SA 3256. Mr. BENNET submitted an amendment intended to be proposed by him to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

At the appropriate place, insert the following:

SEC. ____ LONG-TERM FISCAL ACCOUNTABILITY.

(a) PURPOSE.—The purpose of this section is—

(1) to provide a fail-safe mechanism for ensuring that actual budgetary savings from this Act equal or exceed initial estimates of such savings;

(2) to create expedited procedures for Congress to consider legislative changes to increase savings to at least the initial estimate of this Act if actual budgetary savings are less than initial estimates; and

(3) to ensure that additional budget savings will further extend the solvency of the HI Trust Fund, lower premiums and other out-of-pocket costs for Medicare beneficiaries, and reduce the national debt.

(b) DEFINITIONS.—For the purposes of this section:

(1) BUDGETARY EFFECTS.—The term “budgetary effects” refers to the sum of the spending reductions and revenue increases for the period 2010 through 2019 from this Act less the sum of the spending increases and revenue reductions resulting from this Act for the same time period. The calculation shall not include an estimate of the change in federal interest payments.

(2) FEDERAL BUDGETARY COMMITMENT TO HEALTH CARE.—The term “Federal budgetary commitment to health care” refers to the sum of net Federal outlays for all Federal programs and tax preferences for health care.

(3) OMB PROPOSAL.—The term “OMB proposal” refers to the proposed legislative language and such proposal as subsequently modified, if modified by amendment in either House required under subsection (e)(2)(C) to carry out recommendations pursuant to subsection (e)(2)(A).

(4) SAVINGS TARGET.—The term “savings target” refers to the net total provided under subsection (d)(1) for the period 2010 through 2019.

(c) CBO ADVISORY REPORTS.—Starting on October 1, 2012, and every 2 years thereafter, through October 1, 2018, not later than 60 days after the start of the fiscal year, the Congressional Budget Office (CBO) shall submit an updated advisory report to Congress and the President. The updated report shall include a detailed estimate of the budgetary effects of this Act based on the information available for the period 2010 through 2019, as well as information on the budgetary effects for the period 2020 through 2029.

(d) OMB COST ESTIMATE REPORTS.—

(1) INITIAL COST ESTIMATE REPORT.—Not later than 60 days after the date of enactment of this Act, the Director of the Office of Management and Budget (OMB) shall submit to Congress a report containing an estimate of the budgetary effects of this Act for 2010 through 2019, as well as information on the budgetary effects for 2020 through 2029. The estimate of net savings produced by this Act for the period 2010 through 2019 period shall serve as the savings target for future cost estimate reports, provided that the OMB estimate is not less than the final CBO estimate of net savings produced by this Act made by CBO prior to its enactment. If the savings estimated by OMB is less than the amount estimated by the CBO, then the estimate of net savings produced by the CBO shall serve as the savings target.

(2) UPDATED COST ESTIMATE REPORTS.—Starting on October 1, 2012, and every 2 years thereafter, through fiscal year 2019, OMB shall reestimate the budgetary effects of this Act based on the information available at that time. The updated cost estimate report shall include a detailed reestimate of the budgetary effects of this Act for the period 2010 through 2019, as well as information on the budgetary effects for the period 2020 through 2029.

(e) BIENNIAL SUBMISSION TO CONGRESS.—

(1) IN GENERAL.—Starting on October 1, 2012, and every 2 years thereafter, through fiscal year 2019, OMB shall submit the following to Congress along with its submission of the upcoming fiscal year budget of the United States Government required pursuant to section 1105 of title 31 of the United States Code:

(A) The updated cost estimate report completed pursuant to subsection (d)(2).

(B) An explanation of any discrepancies between the OMB updated cost estimate report and the updated advisory report prepared by CBO pursuant to subsection (c).

(2) REQUIRED INFORMATION UPON SAVINGS SHORTFALL.—For a fiscal year in which the amount estimated by OMB in its updated cost estimate report for the period 2010 through 2019 is less than the savings target, OMB shall also submit the following:

(A) Recommendations for increasing actual savings to or above the level of the savings target for years where the amount estimated under the updated cost estimate report is less than the savings target.

(B) An explanation of each recommendation.

(C) Proposed legislative language to carry out such recommendations (OMB proposal).

(D) Any other appropriate information.

(3) CONSIDERATIONS.—In developing and submitting the information required under paragraph (2), the OMB shall, to the extent feasible, give priority to recommendations that—

(A) preserve access to affordable health care;

(B) extend the solvency of the Medicare HI Trust Fund; and

(C) strengthen the long-term viability of the programs created under this Act.

(4) CONSULTATION WITH THE DEPARTMENT OF HEALTH AND HUMAN SERVICES AND CHIEF ACTUARY OF THE CENTERS OF MEDICARE AND MEDICAID SERVICES.—In carrying out this subsection, OMB shall consult with, including submitting a draft copy of any recommendations and legislation implementing such recommendations to, the Secretary of the Department of Health and Human Services and the Chief Actuary of the Centers of Medicare and Medicaid Services.

(f) EXPEDITED CONSIDERATION OF OMB PROPOSAL.—

(1) INTRODUCTION OF OMB PROPOSAL.—The OMB proposal shall be introduced in the House of Representatives and in the Senate not later than 5 days of session after receipt by the Congress pursuant to subsection (e), by the majority leader of each House of Congress, for himself, the minority leader of each House of Congress, for himself, or any member of the House designated by the majority leader or minority leader. If the OMB proposal is not introduced in accordance with the preceding sentence in either House of Congress, then any Member of that House may introduce the OMB proposal on any day thereafter. Upon introduction, the OMB proposal shall be referred to the relevant committees of jurisdiction.

(2) COMMITTEE CONSIDERATION.—The committees to which the OMB proposal is referred shall report the OMB proposal without any revision and with a favorable recommendation, an unfavorable recommendation, or without recommendation, not later than 30 calendar days after the date of introduction of the bill in that House, or the first day thereafter on which that House is in session. If any committee fails to report the bill within that period, that committee shall be automatically discharged from consideration of the bill, and the bill shall be placed on the appropriate calendar.

(3) FAST TRACK CONSIDERATION IN HOUSE OF REPRESENTATIVES.—

(A) PROCEEDING TO CONSIDERATION.—It shall be in order, not later than 7 days of session after the date on which an OMB proposal is reported or discharged from all committees to which it was referred, for the majority leader of the House of Representatives or the majority leader's designee, to move to proceed to the consideration of the OMB proposal. It shall also be in order for any Member of the House of Representatives to move to proceed to the consideration of the OMB proposal at any time after the conclusion of such 7-day period. All points of order against the motion are waived. Such a motion shall not be in order after the House has disposed of a motion to proceed on the OMB proposal. The previous question shall be considered as ordered on the motion to its adoption without intervening motion. The motion shall not be debatable. A motion to reconsider the vote by which the motion is disposed of shall not be in order.

(B) CONSIDERATION.—The OMB proposal shall be considered as read. The previous question shall be considered as ordered on the OMB proposal to its passage without intervening motion except 50 hours of debate, including the 2 amendments described in subparagraph (E), equally divided and controlled for the proponent and an opponent. A motion to limit debate shall be in order during such debate. A motion to reconsider the vote on passage of the OMB proposal shall not be in order.

(C) APPEALS.—Appeals from decisions of the chair relating to the application of the Rules of the House of Representatives to the procedure relating to the OMB proposal shall be decided without debate.

(D) APPLICATION OF HOUSE RULES.—Except to the extent specifically provided in this paragraph, consideration of an OMB proposal shall be governed by the Rules of the House of Representatives. It shall not be in order in the House of Representatives to consider any OMB proposal introduced pursuant to the provisions of this subsection under a suspension of the rules pursuant to clause 1 of House Rule XV, or under a special rule reported by the House Committee on Rules.

(E) AMENDMENTS.—

(i) IN GENERAL.—It shall be in order for the majority leader, or his designee, and the minority leader, or his designee, to each offer one amendment in the nature of a substitute to the OMB proposal, provided that any such amendment would not have the effect of decreasing any specific budget outlay reductions below the level of such outlay reductions provided in the OMB proposal, or would have the effect of reducing Federal revenue increases below the level of such revenue increases provided in the OMB proposal, unless such amendment makes a reduction in other specific budget outlays related to Federal health expenditures, an increase in other specific Federal revenues related to Federal health expenditures, or a combination thereof, at least equivalent to the sum of any increase in outlays or decrease in revenues provided by such amendment.

(ii) SCORING.—CBO scores of the OMB proposal and any amendment in the nature of a substitute shall be used for the purpose of determining whether such amendment achieves at least the same amount of savings as the OMB proposal.

(iii) MULTIPLE AMENDMENTS.—If more than 1 amendment is offered under this subparagraph, then each amendment shall be considered separately, and the amendment receiving both an affirmative vote of three-fifths of the Members, duly chosen and sworn, and the highest number of votes shall be the amendment adopted.

(F) VOTE ON PASSAGE.—Immediately following the conclusion of consideration of the OMB proposal, the vote on passage of the OMB proposal shall occur without any intervening action or motion and shall require an affirmative vote of three-fifths of the Members, duly chosen and sworn. If the OMB proposal is passed, the Clerk of the House of Representatives shall cause the bill to be transmitted to the Senate before the close of the next day of session of the House.

(4) FAST TRACK CONSIDERATION IN SENATE.—

(A) IN GENERAL.—Notwithstanding rule XXII of the Standing Rules of the Senate, it is in order, not later than 7 days of session after the date on which an OMB proposal is reported or discharged from all committees to which it was referred, for the majority leader of the Senate or the majority leader's designee to move to proceed to the consideration of the OMB proposal. It shall also be in order for any Member of the Senate to move to proceed to the consideration of the OMB proposal at any time after the conclusion of such 7-day period. A motion to proceed is in order even though a previous motion to the same effect has been disagreed to. All points of order against the motion to proceed to the OMB proposal are waived. The motion to proceed is not debatable. The motion is not subject to a motion to postpone. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the OMB proposal is agreed to, the OMB proposal shall remain the unfinished business until disposed of.

(B) DEBATE.—Consideration of an OMB proposal and of all debatable motions and ap-

peals in connection therewith shall not exceed a total of 50 hours. Debate shall be divided equally between the majority and minority leaders or their designees. A motion further to limit debate on the OMB proposal is in order. Any debatable motion or appeal is debatable for not to exceed 1 hour, to be divided equally between those favoring and those opposing the motion or appeal. All time used for consideration of the OMB proposal, including time used for quorum calls and voting, shall be counted against the total 50 hours of consideration.

(C) AMENDMENTS.—

(i) IN GENERAL.—It shall be in order for the majority leader, or his designee, and the minority leader, or his designee, to each offer one amendment in the nature of a substitute to the OMB proposal, provided that any such amendment would not have the effect of decreasing any specific budget outlay reductions below the level of such outlay reductions provided in OMB proposal, or would have the effect of reducing Federal revenue increases below the level of such revenue increases provided in the OMB proposal, unless such amendment makes a reduction in other specific budget outlays related to Federal health expenditures, an increase in other specific Federal revenues related to Federal health expenditures, or a combination thereof, at least equivalent to the sum of any increase in outlays or decrease in revenues provided by such amendment.

(ii) SCORING.—CBO scores of the OMB proposal and any amendment in the nature of a substitute shall be used for the purpose of determining whether such amendment achieves at least the same amount of savings as the OMB proposal.

(D) VOTE ON PASSAGE.—The vote on passage shall occur immediately following the conclusion of the debate on the OMB proposal and a single quorum call at the conclusion of the debate if requested. Passage shall require an affirmative vote of three-fifths of the Members, duly chosen and sworn.

(E) RULINGS OF THE CHAIR ON PROCEDURE.—Appeals from the decisions of the Chair relating to the application of the rules of the Senate to the procedure relating to a OMB proposal shall be decided without debate.

(5) RULES TO COORDINATE ACTION WITH OTHER HOUSE.—

(A) REFERRAL.—If, before the passage by 1 House of an OMB proposal of that House, that House receives from the other House an OMB proposal, then such proposal from the other House shall not be referred to a committee and shall immediately be placed on the calendar.

(B) TREATMENT OF OMB PROPOSAL OF OTHER HOUSE.—If 1 House fails to introduce or consider a OMB proposal under this section, the OMB proposal of the other House shall be entitled to expedited floor procedures under this section.

(C) PROCEDURE.—

(i) OMB PROPOSAL IN THE SENATE.—If prior to passage of the OMB proposal in the Senate, the Senate receives an OMB proposal from the House, the procedure in the Senate shall be the same as if no OMB proposal had been received from the House except that—

(I) the vote on final passage shall be on the OMB proposal of the House if it is identical to the OMB proposal then pending for passage in the Senate; or

(II) if the OMB proposal from the House is not identical to the OMB proposal then pending for passage in the Senate and the Senate then passes the Senate OMB proposal, the Senate shall be considered to have passed the House OMB proposal as amended by the text of the Senate OMB proposal.

(ii) DISPOSITION OF THE OMB PROPOSAL.—Upon disposition of the OMB proposal received from the House, it shall no longer be in order to consider the OMB proposal originated in the Senate.

(D) TREATMENT OF COMPANION MEASURES IN THE SENATE.—If following passage of the OMB proposal in the Senate, the Senate then receives an OMB proposal from the House of Representatives that is the same as the OMB proposal passed by the House, the House-passed OMB proposal shall not be debatable. If the House-passed OMB proposal is identical to the Senate-passed OMB proposal, the vote on passage of the OMB proposal in the Senate shall be considered to be the vote on passage of the OMB proposal received from the House of Representatives. If it is not identical to the House-passed OMB proposal, then the Senate shall be considered to have passed the OMB proposal of the House as amended by the text of the Senate OMB proposal.

(E) CONSIDERATION IN CONFERENCE.—Upon passage of the OMB proposal, the Senate shall be deemed to have insisted on its amendment and requested a conference with the House of Representatives on the disagreeing votes of the two Houses, and the Chair be authorized to appoint conferees on the part of the Senate, without any intervening action.

(F) ACTION ON CONFERENCE REPORTS IN SENATE.—

(i) MOTION TO PROCEED.—A motion to proceed to the consideration of the conference report on the OMB proposal may be made even though a previous motion to the same effect has been disagreed to.

(ii) CONSIDERATION.—During the consideration in the Senate of the conference report (or a message between Houses) on the OMB proposal, and all amendments in disagreement, and all amendments thereto, and debatable motions and appeals in connection therewith, debate (or consideration) shall be limited to 10 hours, to be equally divided between, and controlled by, the majority leader and minority leader or their designees. Debate on any debatable motion or appeal related to the conference report (or a message between Houses) shall be limited to 1 hour, to be equally divided between, and controlled by, the mover and the manager of the conference report (or a message between Houses).

(iii) DEBATE IF DEFEATED.—If the conference report is defeated, debate on any request for a new conference and the appointment of conferees shall be limited to 1 hour, to be equally divided between, and controlled by, the manager of the conference report and the minority leader or his designee, and should any motion be made to instruct the conferees before the conferees are named, debate on such motion shall be limited to one-half hour, to be equally divided between, and controlled by, the mover and the manager of the conference report. Debate on any amendment to any such instructions shall be limited to 20 minutes, to be equally divided between and controlled by the mover and the manager of the conference report. In all cases when the manager of the conference report is in favor of any motion, appeal, or amendment, the time in opposition shall be under the control of the minority leader or his designee.

(iv) AMENDMENTS IN DISAGREEMENT.—If there are amendments in disagreement to a conference report on the OMB proposal, time on each amendment shall be limited to 30 minutes, to be equally divided between, and controlled by, the manager of the conference

report and the minority leader or his designee. No amendment that is not germane to the provisions of such amendments shall be received.

(G) VOTE ON CONFERENCE REPORT IN EACH HOUSE.—Passage of the conference in each House shall be by an affirmative vote of three-fifths of the Members of that House, duly chosen and sworn.

(H) VETO.—If the President vetoes the bill debate on a veto message in the Senate under this subsection shall be 1 hour equally divided between the majority and minority leaders or their designees.

(6) RULES OF THE SENATE AND HOUSE OF REPRESENTATIVES.—This subsection is enacted by Congress—

(A) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and is deemed to be part of the rules of each House, respectively but applicable only with respect to the procedure to be followed in that House in the case of bill under this section, and it supersedes other rules only to the extent that it is inconsistent with such rules; and

(B) with full recognition of the constitutional right of either House to change the rules (so far as they relate to the procedure of that House) at any time, in the same manner, and to the same extent as in the case of any other rule of that House.

SA 3257. Ms. MURKOWSKI submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 352, line 8, strike “50” and insert “500”.

On page 352, line 13, strike “50” and insert “500”.

On page 352, line 16, strike “50” and insert “500”.

On page 352, line 20, strike “50” and insert “500”.

SA 3258. Mrs. SHAHEEN submitted an amendment intended to be proposed to amendment SA 2786 proposed by Mr. REID (for himself, Mr. BAUCUS, Mr. DODD, and Mr. HARKIN) to the bill H.R. 3590, to amend the Internal Revenue Code of 1986 to modify the first-time homebuyers credit in the case of members of the Armed Forces and certain other Federal employees, and for other purposes; which was ordered to lie on the table; as follows:

On page 869, between lines 14 and 15, insert the following:

SEC. 3143. FLOOR ON AREA WAGE INDEX.

(a) IN GENERAL.—Notwithstanding any other provision of law, beginning with discharges occurring on or after October 1, 2009, for purposes of section 1886(d)(3)(E) of the Social Security Act (42 U.S.C. 1395ww(d)(3)(E)), the area wage index applicable under such section to hospitals with Medicare provider numbers 300001, 300003, 300005, 300011, 300012, 300014, 300017, 300018, 300019, 300020, 300023, 300029, and 300034 shall not be less than the post-reclassification area wage index applicable to the hospital for purposes of deter-

mining payments during the period beginning on or after October 1, 2006, and before October 1, 2007.

(b) IMPLEMENTATION.—The Secretary of Health and Human Services (in this section referred to as the “Secretary”) shall make a proportional adjustment in the standardized amounts determined under section 1886(d)(3) of the Social Security Act (42 U.S.C. 1395ww(d)(3)) to assure that the provisions of this section do not result in aggregate payments under section 1886 of such Act (42 U.S.C. 1395ww) that are greater or less than those that would otherwise be made. Notwithstanding any other provision of law, for purposes of making adjustments under this subsection, the Secretary shall not further adjust the wage index or standardized amounts for any area, State, or region within the United States.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Agriculture, Nutrition, and Forestry be authorized to meet during the session of the Senate on December 16, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ARMED SERVICES

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet during the session of the Senate on December 16, 2009, at 1:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate on December 16, at 11:30 a.m., in room SD-366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on December 16, 2009, at 10 a.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on December 16, 2009, at 3 p.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled “Judicial Nominations.”

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON VETERANS' AFFAIRS

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Veterans' Affairs be authorized to meet during the session of the Senate on December 16, 2009.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON FEDERAL FINANCIAL MANAGEMENT, GOVERNMENT INFORMATION, FEDERAL SERVICES, AND INTERNATIONAL SECURITY

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs' Subcommittee on Federal Financial Management, Government Information, Federal Services, and International Security be authorized to meet during the session of the Senate on December 16, 2009, at 2:30 p.m. to conduct a hearing entitled, "Tools to Combat Deficits and Waste: Enhanced Rescission Authority".

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON HUMAN RIGHTS AND THE LAW

Mr. BAUCUS. Mr. President, I ask unanimous consent that the Committee on the Judiciary, Subcommittee on Human Rights and the Law, be authorized to meet during the session of the Senate on December 16, 2009, at 10:30 a.m., in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled "The Law of the Land: U.S. Implementation of Human Rights Treaties."

The PRESIDING OFFICER. Without objection, it is so ordered.

HONORING THE ESTABLISHMENT OF DIPLOMATIC RELATIONS BETWEEN THE UNITED STATES AND THE HASHEMITE KINGDOM OF JORDAN

Mr. DURBIN. I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 376, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The assistant legislative clerk read as follows:

A resolution (S. Res. 376) honoring the 60th anniversary of the establishment of diplomatic relations between the United States and the Hashemite Kingdom of Jordan, the 10th anniversary of the accession to the throne of His Majesty King Abdullah II Ibn Al Hussein, and for other purposes.

There being no objection, the Senate proceeded to consider the resolution.

Mr. INOUE. Madam President, today, I am supporting this resolution to honor the 60th anniversary of the establishment of diplomatic relations between the U.S. and the Hashemite Kingdom of Jordan, as well as to honor the 10th anniversary of His Majesty King Abdullah II Ibn Al Hussein's ac-

cession to the throne. I am pleased to be joined in this endeavor by Senator GREGG.

Since establishing diplomatic relations, Jordan has worked together with the U.S. towards the mutual goal of peace in the Middle East. In 1994, King Hussein and Prime Minister of Israel, Yitzhak Rabin, signed the Jordan-Israel peace treaty, ending nearly 50 years of war between the two countries. The government of Jordan has been an instrumental partner in the fight against al-Qaida and terrorism. As a result, the people of Jordan have also suffered devastating losses at the hands of terrorists.

Mr. DURBIN. I ask unanimous consent to be added as a cosponsor to this legislation.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 376) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

S. RES. 376

Whereas the Hashemite Kingdom of Jordan achieved independence on May 25, 1946;

Whereas the United States recognized Jordan as an independent state in a White House announcement on January 31, 1949;

Whereas diplomatic relations and the American Legation in Jordan were established on February 18, 1949, when United States diplomat Wells Stabler presented his credentials as Chargé d'Affaires in Amman;

Whereas, for 60 years, the United States and Jordan have enjoyed a close relationship and have worked together to advance issues ranging from the promotion of Middle East peace to advancing the socio-economic development of the people of Jordan, as well as the threat to both posed by al Qaeda and violent extremism;

Whereas, from 1952 to 1999, King Hussein charted a moderate path for his country;

Whereas, for decades, the United States has been Jordan's strongest international partner;

Whereas, throughout his reign, King Hussein looked for opportunities to realize his dream of a more peaceful Middle East by working to solve intra-Arab disputes and engaging successive Prime Ministers of Israel in the search for peace;

Whereas King Hussein and Prime Minister of Israel Yitzhak Rabin signed the historic Jordan-Israel peace treaty in 1994, ending nearly 50 years of war between the neighboring countries;

Whereas the United States lost a close friend and a crucial partner when King Hussein passed away in 1999;

Whereas King Hussein was succeeded by his son, King Abdullah II, who has continued his father's work to improve the lives of the

people of Jordan while also seeking to bring peace to the region;

Whereas, in the aftermath of the September 11, 2001, terrorist attacks, the Government of Jordan has been an instrumental partner in the fight against al Qaeda, has provided crucial assistance in Iraq, and has shouldered a heavy burden in providing refuge to a significant portion of the Iraqi refugee population;

Whereas, through his 2004 Amman Message, King Abdullah II has been a leading Arab voice in trying to reaffirm the true path of Islam;

Whereas, in November 2005, al Qaeda terrorists struck three hotels in Amman, Jordan, thereby uniting the people of Jordan and the United States in grief over the lives lost at this act of terrorism; and

Whereas King Abdullah II begins his second decade on the Hashemite throne by redoubling his efforts for peace in the region as the Jordan-United States partnership enters its seventh decade: Now, therefore, be it

Resolved, That the Senate—

(1) commemorates the 60th anniversary of the close relationship between the United States and the Hashemite Kingdom of Jordan;

(2) expresses its profound admiration and gratitude for the friendship of the people of Jordan;

(3) congratulates His Majesty King Abdullah II on 10 years of enlightened and progressive rule; and

(4) shares the hope of His Majesty King Abdullah II and the people of Jordan for a more peaceful Middle East.

ORDERS FOR THURSDAY, DECEMBER 17, 2009

Mr. DURBIN. I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m., Thursday, December 17; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate resume consideration of the House message with respect to H.R. 3326, the Department of Defense appropriations bill, with Senators permitted to speak for up to 10 minutes each; provided further that the first hour be equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first half and the majority controlling the second half.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. DURBIN. Madam President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 6:21 p.m., adjourned until Thursday, December 17, 2009, at 10 a.m.

HOUSE OF REPRESENTATIVES—Wednesday, December 16, 2009

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Ms. BALDWIN).

DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
December 16, 2009.

I hereby appoint the Honorable TAMMY BALDWIN to act as Speaker pro tempore on this day.

NANCY PELOSI,
Speaker of the House of Representatives.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

During this season of holidays and holy days, Lord, we pray for families all across this Nation. The times, economics, and unemployment are causing great stress within some families. Military service, sickness, recent deaths, and alienation bring other families to the point of heartbreak and tears. Yet we believe, Lord, that the family is not only the basic social unit upon which our communities and our Nation are built. Family life is the "domestic church" where prayer is practiced and faith is first witnessed.

For You, Lord God, the family itself is a great mystery, our first school of formation, which shapes human values, affirms self-image, and provides a world view. Here one accepts personal independence within a sense of belonging and authority with a sense of humor, bold enough to giggle at life's inconsistencies and laugh at oneself. Daily, children and adults learn self-giving, gratitude, patience, forgiveness, and simple expressions of love and being loved.

Lord, may Congress respect and protect family life in this country. With Your blessing, may every family this season nurture the experience of love: conjugal love, paternal and maternal love, fraternal love, and the love of a community of persons and of generations. May they acknowledge Your Presence in everyone around the table, both now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Kentucky (Mr. YARMUTH) come forward and lead the House in the Pledge of Allegiance.

Mr. YARMUTH led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 15 requests for 1-minute speeches on each side of the aisle.

SACRIFICING THE FUTURE FOR WAR AND WALL STREET

(Mr. KUCINICH asked and was given permission to address the House for 1 minute.)

Mr. KUCINICH. The Greatest Generation sacrificed during their lifetime so future generations could have it better. Here, the "bailout generation" demands the future will be sacrificed for the present with unlimited money from Wall Street and war.

While the government expands the debt for Wall Street and war, people are led to believe that we're doing it for jobs on Main Street. Even today as Congress expands the debt limit, CitiGroup will get billions in new tax breaks. Last week, Congress let Wall Street keep their over-the-counter black box derivatives game going, which will leave the taxpayers exposed to huge losses in the future.

Today, Congress will give the Pentagon another \$550 billion and the wars in Iraq and Afghanistan another \$130 billion, where we expand the national debt, sacrificing the future for the present. In the past 2 years, Congress chose war and Wall Street over jobs and Main Street, expanding the debt, sacrificing the future for the present.

Today's job bill is necessary but will address only a fraction of the unemployed. Rather than prime the pump of the economy and put all of America back to work, we have to sacrifice the future for war and for Wall Street.

OBAMAVILLE IN COLORADO SPRINGS

(Mr. LAMBORN asked and was given permission to address the House for 1 minute.)

Mr. LAMBORN. Madam Speaker, this picture shows what the failed policies of this Congress and administration are doing to America. This sign was put up near a homeless camp in my district. It's next to the highway, down by the river. It says: Welcome to Obamaville—Colorado's fastest growing community.

It's obvious that the liberals' prescription for creating jobs only creates more government by taking hard-earned dollars from families and small businesses for taxes that could have gone into creating real jobs.

When the President said he wanted more jobs through the so-called stimulus, it's mostly meant more bureaucrats, and that's not the jobs Americans want. When Americans lose their jobs in this recession and end up living in a tent, something is wrong.

The policies of this administration and Congress, by raising taxes and putting more regulations in the way of business, will not create the jobs Americans need for the future, but their policies will create tent cities.

HONORING JACKIE HAYS

(Mr. YARMUTH asked and was given permission to address the House for 1 minute.)

Mr. YARMUTH. Madam Speaker, I rise today to pay tribute to Jackie Hays, a broadcasting legend in Louisville, Kentucky, who has served our community for nearly 22 years. Jackie will retire this Friday, and she will be greatly missed.

Over the course of her career at WAVE-TV, Jackie has done it all: flying in Thunderbirds and Blue Angels, covering more than 25 Kentucky Derbies, and joining Louisvillians for our greatest celebrations and darkest tragedies. But most of all, she has endeared herself to Louisvillians because we always knew how much she cared about us. That's why she was selected 16 times as Louisville's favorite female anchor. She proved her love for our community not just by her on-air professionalism, but also by her enthusiastic involvement in civic and charitable activities.

Jackie once said: God isn't going to ask me one day how many newscasts I did or how many stories I broke, but what kind of person I was.

As Jackie's WAVE-3 career comes to an end, I can say without reservation that she is a person that anyone would hold up as a role model, and we are grateful she has called Louisville home so long. I join everyone in Louisville in

wishing her a long and fulfilling retirement.

TIME TO STOP DIGGING THE DEFICIT HOLE

(Mrs. SCHMIDT asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SCHMIDT. A few weeks ago, Moody's Investor Services told us that our country's AAA bond rating will be downgraded if we do not get the budget deficit under control. This is because the President and this Congress ran up a record-breaking deficit last year to the tune of \$1.4 trillion, tripling our prior record.

The response from the President and the majority is more spending and absolutely no commitment to do anything to reduce the deficit. In fact, today we're going to be asked to raise our debt ceiling so we can borrow more.

An article in Barron's financial magazine on Monday said this: "Moody's expressed optimism that the U.S. budget deficit would be reined in, helped by quicker-than-expected repayment of funds under the TARP program. But the ink was hardly dry on its report when President Obama, Tuesday, announced a new 'jobs' program, funded in part by the greater-than-anticipated return of TARP funds."

Repaid TARP funds are supposed to be used for deficit reduction. Besides this, I thought the trillion dollar stimulus bill was supposed to create jobs.

You know, when you get yourself into a hole, you have to stop digging.

It's time to stop digging.

JOBS, JOBS, AND JOBS

(Mr. SIRES asked and was given permission to address the House for 1 minute.)

Mr. SIRES. Madam Speaker, while this House has made great strides to improve our economy, our journey towards economic recovery will not be complete until after a robust jobs package is passed. The nearly half a million unemployed New Jerseyans and over 15 million unemployed Americans simply cannot wait. They need jobs now, and they're relying on us to deliver it.

In order to put Americans back to work and lay the groundwork for future growth, we must build on the investments in job creation we have already made; specifically, investments in infrastructure and clean energy: jobs to repair existing roads and bridges, jobs to improve public transportation and water infrastructure, and jobs in alternative energy initiatives, including solar and wind.

In addition to job creation, we must also ensure that the unemployed can make ends meet while searching for

jobs by continuing the extension of unemployment benefits and helping them maintain health care coverage by extending COBRA subsidies that are set to expire.

Madam Speaker, our work is not done. We need to pass a bill that will generate jobs, jobs, and even more jobs—not in a month, not two, but now.

CONSTITUTIONAL BALANCED BUDGET AMENDMENT

(Mr. BUCHANAN asked and was given permission to address the House for 1 minute.)

Mr. BUCHANAN. Madam Speaker, the congressional leaders this week want to raise the Federal debt ceiling \$1.8 trillion. The current debt in the country is over \$12 trillion.

When I first came here 3 years ago, I introduced a constitutional balanced budget amendment. I hear up here the last 3 years that the Democrats are the problem, the Republicans are the problem on the spending. They're both the problem. In the last 50 years, they've only balanced the budget five or six times, yet 49 out of 50 Governors have to balance the budget.

Our State of Florida has had a tough cycle in terms of revenues. They've cut expenses. Families are cutting expenses. Small businesses in our communities are cutting 20, 30 percent in expenses, yet we're raising expenses 12 percent.

The time is now. We almost had a constitutional balanced budget amendment in 1994. That's the only thing that's going to solve the problem. We need to act today as Democrats and Republicans and do what's right for America and Americans.

SS "ST. LOUIS"

(Mr. KLEIN of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. KLEIN of Florida. Madam Speaker, this week I had the chance to meet with some of the survivors of the SS *St. Louis* in my community of south Florida. This was a memorable and moving experience that provides each of us with a powerful lesson about our past.

As you know, the SS *St. Louis* carried nearly 1,000 Jewish refugees from Nazi Germany in 1939, and, shamefully, the United States turned the ship away. Its passengers were sent back to Europe where hundreds of them perished. We cannot forget this dark moment in our Nation's history, and we must remember the story and share it with our next generation in order to keep our promise of "never again."

I'd like to associate myself with Senate Resolution 111 passed by the U.S. Senate, which recognizes the tragedy of the SS *St. Louis* and honors the memory of the passengers who lost

their lives. I join my colleagues and continue to pay tribute to those who did not survive, and I express my gratitude for the opportunity to join the survivors in person this week.

□ 0915

AFGHANISTAN-PAKISTAN BORDER AND U.S.-MEXICO BORDER

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Madam Speaker, I had the opportunity to be with our resilient troops last week in Afghanistan near the violent southern border with Pakistan. Part of their mission is to secure the border by preventing drugs, arms, money and Taliban criminals from crossing back and forth through the vast border regions. It's in America's interest to have our military in Afghanistan and protect the sovereignty of that country.

It is ironic, however, we see the need to protect the borders of other nations; but because of political reasons, we don't have the moral will to protect our own borders. This is not the first administration that has given a wink and a nod to our porous borders, but it should be the last.

Our southern border region is a haven for organized criminal cartels, gun smugglers, human smugglers and rogue outlaws that cross as freely as they did in the days of the old west. We should be as concerned about protecting our own border as we are about protecting the borders of Third World countries like Afghanistan. We should put our military on the border if necessary.

After all, the first duty of government is protection of our own homeland.

And that's just the way it is.

JOBS

(Ms. LINDA T. SÁNCHEZ of California asked and was given permission to address the House for 1 minute.)

Ms. LINDA T. SÁNCHEZ of California. Madam Speaker, I rise today for American working men and women who want to work but can't find a job. The Nation's unemployment rate stands at 10 percent, with my home State of California ranking third worst in the country.

While I support a stronger safety net to help families survive, in the end, Americans don't want unemployment checks. They want to work.

That's why I'm proud to support the Jobs for Main Street Act which will put Americans back to work in the most direct way possible: by hiring them. This bill makes overdue investments in America's rails, roads and schools and in well-paying Davis-Bacon-covered jobs for our workers.

The benefits for our economy of encouraging unionized jobs cannot be overstated. As the great Dr. Martin Luther King, Jr., said, "Everyone knows that the labor movement did not diminish the strength of the Nation, but enlarged it. By raising the living standards of millions, labor miraculously created a market for industry and lifted the whole Nation to undreamed of levels of production."

May this bill continue in that tradition.

JOBS

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Madam Speaker, as we approach the Christmastime, too many Americans are asking, Where are the jobs? In January, the unemployment rate was 7.6 percent. Only 10 months later, the national unemployment reached a whopping 10.2 percent, the highest level since April 1983. That means today there are 15.7 million unemployed Americans looking for work.

House Republicans have an economic recovery plan that will help get Americans back to work. Our economic recovery plan will create twice the jobs at half the cost of the Democrats' failed stimulus plan.

How ironic that our colleagues are coming to the floor today to talk about the need for jobs when it is their votes and the policies of this President that have killed so many jobs.

It's time we started working on behalf of the American people and focus on real commonsense solutions that will help put people get back to work and let them celebrate Christmas in a wonderful way.

JOB CREATION PROGRAM

(Mrs. MALONEY asked and was given permission to address the House for 1 minute.)

Mrs. MALONEY. Madam Speaker, I would like to respond to my good friend on the other side of the aisle from the great State of North Carolina who pointed out that there are many jobless Americans. That's true, but let's put this in perspective. The last month that former President Bush was in office, this country lost over 750,000 jobs.

Under President Barack Obama's leadership, we are trending in the right direction. This last month, we lost 11,000 jobs. The last 5 months of the Bush administration, they lost well over 600,000 jobs.

And as Nobel laureate Joseph Stiglitz pointed out at a joint economic hearing last week, that job creation during the Bush administration was fueled by an artificial bubble. Inflated housing prices and a ballooning real estate market spurred consumption and hir-

ing and put us in a very dangerous position where we find ourselves today.

We owe it to the 15 million jobless Americans to invest in aggressive job creation policies which will be on the floor today in the Democratic jobs program.

STOP THE AUTOMATIC PAY RAISE FOR MEMBERS OF CONGRESS IN FISCAL YEAR 2011 ACT

(Mr. MITCHELL asked and was given permission to address the House for 1 minute.)

Mr. MITCHELL. Madam Speaker, my colleague, Dr. RON PAUL, and I have once again introduced legislation to stop Members of Congress from receiving the next scheduled automatic pay raise. Earlier this year, we introduced legislation to block the fiscal year 2010 pay raise, and we were joined by a bipartisan coalition of more than 100 of our colleagues in the process. Thanks to their help, as well as that of our leadership, the fiscal year 2010 pay raise was blocked.

With unemployment so high and so many families struggling to make ends meet, we believe that it would be wrong for Congress to now raise its own pay in fiscal year 2011. Right now, we need our focus to be on getting people back to work, shoring up the economy, and keeping our families and communities safe, not on giving ourselves a pay raise. The American people are not getting a raise. Neither should Congress.

I encourage my colleagues from both sides of the aisle to do the same and join Dr. RON PAUL and me in stopping the next automatic pay raise from taking effect by supporting H.R. 4255, the Stop the Automatic Pay Raise for Members of Congress in Fiscal Year 2011 Act.

REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF SENATE AMENDMENT TO H.R. 3326, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010; FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 64, FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2010; FOR CONSIDERATION OF H.R. 4314, PERMITTING CONTINUED FINANCING OF GOVERNMENT OPERATIONS; FOR CONSIDERATION OF SENATE AMENDMENT TO H.R. 2847, COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Ms. PINGREE of Maine, from the Committee on Rules, submitted a privileged report (Rept. No. 111-380) on the resolution (H. Res. 976) providing for consideration of the Senate amendment to the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending Sep-

tember 30, 2010, and for other purposes; for consideration of the joint resolution (H.J. Res. 64) making further continuing appropriations for fiscal year 2010, and for other purposes; for consideration of the bill (H.R. 4314) to permit continued financing of Government operations; for consideration of the Senate amendment to the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the House Calendar and ordered to be printed.

WAIVING REQUIREMENT OF CLAUSE 6(a) OF RULE XIII WITH RESPECT TO CONSIDERATION OF CERTAIN RESOLUTIONS

Ms. PINGREE of Maine. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 973 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 973

Resolved, That the requirement of clause 6(a) of rule XIII for a two-thirds vote to consider a report from the Committee on Rules on the same day it is presented to the House is waived with respect to any resolution reported on the legislative day of December 16, 2009.

The SPEAKER pro tempore. The gentlewoman from Maine is recognized for 1 hour.

Ms. PINGREE of Maine. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentlewoman from North Carolina, Dr. FOXX. All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Ms. PINGREE of Maine. I also ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 973.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maine?

There was no objection.

Ms. PINGREE of Maine. I yield myself such time as I may consume.

Madam Speaker, House Resolution 973 waives clause 6(a) of rule XIII which requires a two-thirds vote to consider a rule on the same day it is reported from the Rules Committee. This waiver applies to any resolutions reported on the legislative day of December 16, 2009. This will allow the House to consider today important legislation, including legislation to ensure the funding of our military in addition to measures to put people back to work.

Madam Speaker, we must act quickly to deliver the bills before us today that will fund our military and get people back to work. Today the House will

take up several measures that will fund our military and make critical investments in the Nation's infrastructure in order to put people back to work. We have the opportunity today to take the bailout money that was used as a lifeline to Wall Street and give that money back to the American people and those who have been hit hardest by these tough economic times.

The legislation that we will take up later today will divert the TARP money to programs that will create and save jobs across the country. We do this by investing \$75 billion of TARP money into highways, to transit, to school renovation, to hiring teachers, police and firefighters, to supporting small businesses, job training and affordable housing.

For those hit hardest by the recession, this bill also provides emergency relief by extending programs like Unemployment Benefits, COBRA and FMAP, which is health care funding for our States, and the child care tax credit. These are measures that we must pass to build a foundation for long-term economic recovery.

This is not an ordinary day; and given the importance of this legislation, I hope Members on both sides of the aisle will support this rule so that we can move quickly to enact these critically important measures.

I wish, as so many of my colleagues wish, that we weren't faced with such difficult problems. I wish that when the Democrats took over the majority, we weren't saddled with two wars, a recession and a \$1.3 trillion deficit. But wishing won't make these problems go away. There is real urgency in the actions before us today, and I truly hope that my colleagues on both sides of the aisle will join me in supporting this rule to allow us to move forward.

Later in the day, we will debate the merits of all of this legislation and the grave implications of not passing these bills. But right now, I urge my colleagues to support this rule and allow us to move forward on the debate to complete the work that we were sent here to do.

I reserve the balance of my time.

Ms. FOXX. Madam Speaker, I appreciate my colleague yielding the time this morning.

I want to say that it seems every time we come here, we have to do a little bit of correcting people's memory and their recollection of history. My colleague just said when they took over the majority, we had a \$1.3 trillion deficit. I think if she will check her facts, she will see that the \$1.3 trillion deficit came about as a result of the Democrats' taking over the majority. She may not have been here in 2007, but when they took over the majority, I believe that the deficit was \$259 billion, and they made it \$1.3 trillion this year with their Democratic President.

We are here considering a same-day martial law rule. Now, I understand

that there are times when we need to move quickly when we are faced with an immediate crisis. However, I think the word "crisis" has been overused particularly this year. We haven't had much by way of crisis this year, and yet they're trying to make it a crisis by bringing in this, again, same-day martial law rule.

The Rules Committee met last night at 8:45. We didn't get the text of the bills that we're going to be debating and the rule that we're going to approve again in a few minutes, or a little while, so we've had very little time to be able to deal with these things. But we've known about this for a long, long time. We've known that the funding for the government would run out Friday night for over a month. So what have we been doing during that period of time when we should have been preparing for this day?

Let me give some ideas on what we've been doing by reading out some of the bills that we've been voting on on the floor: expressing support for designation of November 29, 2009, as "Drive Safer Sunday," surely something that the country could not live without, without our voting on it; expressing support for designation of the week beginning on November 9, 2009, as "National School Psychology Week," another extraordinarily important issue for us to be dealing with; recognizing the 60th anniversary of the Berlin Airlift's success. Certainly I am extremely proud of the fact that Ronald Reagan helped end the Cold War by opening up Berlin. But I don't think that really needed to be done by a vote on this floor.

□ 0930

And then the one that I really think tops the cake and will get the attention of the American people, honoring the 2,560th anniversary of the birth of Confucius and recognizing his invaluable contributions to philosophy and social and political thought. The fact that 2,560 years have passed since the birth of Confucius and we hadn't acknowledged it, I really think that could have waited a little bit longer in terms of the importance of the work that we are doing.

So, here we are again doing what our colleagues across the aisle have been so good at this session, short-circuiting the legislative process so we can jam through another major spending bill without the benefit of Members or, more importantly, the citizens of this country having the opportunity to read it.

This rule enables us to take up the next rule, and that rule will let the House consider more than \$1 trillion in spending, all done almost in the blink of an eye if you put it in the context of the birth of Confucius. But let us not be fooled by this attempt to say that something is a crisis. The reason we

are doing this on the spur of the moment is because our Speaker and several Members are going to leave today to go to Copenhagen to talk with people about climate control. And they're going to emit much, much carbon on their way to do that, which really is sort of hypocritical in terms of what the conference is all about. So we have folks talking out of both sides of their mouths here over and over and over again.

Madam Speaker, I reserve the balance of my time.

Ms. PINGREE of Maine. My good friend from North Carolina has suggested that this isn't an emergency. I would say that I hear every day from constituents in my district who feel that we are in a time of emergency. In Maine, we have 20,000 unemployed workers who are facing the end of their unemployment benefits. A very critical thing that we are about to talk about today is the extension of unemployment benefits.

Now, we are anxious for the economy to improve, but the fact is in my State unemployment benefits are the fourth largest payroll. That is a tragedy that we have to deal with. We have to make sure that those people, in the middle of a cold winter, don't go without their vital support and that our State doesn't go without a critical part of our economy.

Many of those people can't even stand a delay because the fact is if they go for even a few days or weeks without their benefits, they've already hit the end of their credit card limits, they've already gone as far as they can possibly go. Many workers have talked to me about the fact that they are using their COBRA subsidy; they were laid off, and the fact is this extended that as well.

As far as I'm concerned, there are many critical things in this bill. This is the time to get it passed. People say to me all the time, When are you going to get something done in Washington? As far as I'm concerned, this is something we have to get done, and we need to get back to work today.

I reserve the balance of my time.

Ms. FOXX. Madam Speaker, I now yield such time as he may consume to the distinguished gentleman from California and ranking member of the Rules Committee, Mr. DREIER.

Mr. DREIER. Madam Speaker, our friend from Maine is absolutely right. This is a very, very challenging time for people who are dealing with the economic downturn through which we have suffered, and it is essential that we do a number of the things that are before us today.

The national security of the United States of America is priority number one. I always argue that the five most important words in the middle of the preamble of the U.S. Constitution are "provide for the common defense." I

say that, Madam Speaker, because if you think about the issues with which we regularly contend here, nearly all of them can be done either by an individual, within a family, within a church or community, a city, a county, or a State level of governing, but our national defense can only be handled by the Federal Government. So I will acknowledge it is very, very important for us to ensure that our men and women in uniform have what they need. And I will acknowledge that as we deal with the economic downturn, ensuring that people have job opportunities is a very, very, very important priority for us.

I happen to think that we have gone in the exact opposite direction when it comes to the notion of encouraging long-term private sector job creation and economic growth. I believe that we should deal with that issue in a bipartisan way. And when I say bipartisan, I'm referring to two Presidents in the last half century; one is John F. Kennedy, the other Ronald Reagan. John F. Kennedy, when we were dealing with economic challenges in the early 1960s, decided very clearly that the best way to get the economy back on track, the best way to encourage private sector job creation and economic growth was to do what? Bring about broad, marginal tax rate reduction, reducing the top rate on capital gains and taking the top rate on job creators, men and women who are out there working to create more and more opportunity for their fellow Americans.

Well, Madam Speaker, that kind of plan was put into place in the early 1960s with a Democratic Congress and a Democratic President of the United States. And guess what happened? During the decade of the 1960s, we saw a doubling of the flow of revenues to the Federal Treasury because of the heralded John F. Kennedy tax cuts; again, a Democratic President and a Democratic Congress.

Rush forward from the early 1960s to the early 1980s, two decades. I was privileged to be a Member of the 97th Congress which convened in January of 1981. We were dealing with very, very serious economic problems, some of which were even more challenging than exist today. In the early 1980s, people will recall that interest rates were well into double digits, we had an unemployment rate that dramatically exceeded where we are today, and if you look at the overall challenge, it was similar. How did we deal with that, Madam Speaker? We dealt with it by doing, under Ronald Reagan, exactly what President John Kennedy, a great Democratic President, did. Under Ronald Reagan, we saw broad reductions across the board of marginal tax rates, we saw a reduction in the capital gains rate.

And what happened? As we encouraged those job creators out there in our

economy, what happened, Madam Speaker, was we saw, again, a doubling of the flow of revenues to the Federal Treasury and we saw good, long-term private sector jobs created.

Now, the thing that is most troubling about what it is that we are doing is, while we have seen—I am really happy to see this reduction of 10.2 percent to 10 percent, the unemployment rate; it's a positive sign. The problem is that it's not private sector job creation; what we are seeing is public sector job creation.

I will acknowledge that infrastructure spending is important. I represent the Los Angeles Basin, and we have very serious infrastructure problems. And so I recognize that government does have an appropriate role in dealing with infrastructure, and jobs are created when we put resources into infrastructure. I will acknowledge that.

But if you look at the other areas, when the President had his job summit the other day, we had a meeting of Republicans. One of the economists who participated was Kevin Hassett of the American Enterprise Institute, and he provided us with an amazing number. He said that he had his staff at AEI, the American Enterprise Institute, sit down and look at the challenge of the entire nearly \$1 trillion in stimulus spending. He said, Tell me what would happen if we were to have taken that entire stimulus bill and just hired people.

Well, his staff came up with the following conclusion, Madam Speaker. He reported to us that if you look at the average wage rate in the United States, it's \$37,000 a year. That's the average wage rate across the country. If we were to take the entire stimulus bill and simply hire people, guess how many jobs would be created? I was stunned when Mr. Hassett reported to us that that number is 21 million. And when you look at how the stimulus dollars have been expended, we obviously haven't created that many jobs, Madam Speaker. But the fact is, if we were to take all of those resources and just hire people at the average wage rate across the United States of America, it would be 21 million jobs that would have been created.

That is not the way to deal with the challenge of the economic downturn. The way to deal with it is to encourage long-term private sector job creation and economic growth. That is why, when we look at these priorities and the urgency of dealing with the challenges that exist today, that is what we should be doing.

Now, as Ms. Foxx has appropriately said, Madam Speaker, we are here with a virtually unprecedented scenario before us. First, this rule gives something that according to our staff has not happened before, and that is, it gives the Chair the authority to just, without any action by the Members of the

House, adjourn the House. That is a troubling sign. And it is troubling but not terribly surprising based on what we have seen over the past 3 years since we had first unveiled to us a document known as "A New Direction for America." This was the proposal that was put forward by the now-Speaker of the House, who was then minority leader. And as minority leader, she was very concerned.

And I will acknowledge, having done a less than perfect job in my position as chairman of the House Rules Committee, I am proud of what our work product was, but I could have done better, and I will acknowledge that freely here. But it's interesting to note what "A New Direction for America" actually had. I would like to just share a couple of brief lines from that, if I might, Madam Speaker.

It says, Bills should be developed following full hearings and open subcommittee and committee markups, with appropriate referrals to other committees. Members should have at least 24 hours to examine a bill prior to consideration at the subcommittee level. Bills should generally come to the floor under a procedure that allows open, full, and fair debate.

I am going to repeat that, Madam Speaker. It says, Bills should come to the floor under a procedure that allows open, full, and fair debate consisting of a full amendment process that grants the minority the right to offer its alternatives, including a substitute.

Members should have at least 24 hours to examine bill and conference report text prior to floor consideration. Rules governing floor debate must be reported before 10 p.m. for a bill to be considered the following day.

Now, Madam Speaker, as we know, virtually all of that has been thrown out the window.

The other thing that is unprecedented—and I mentioned this in the Rules Committee when I confirmed it with our staff—to my knowledge, this is the first session ever to go through the entire session of Congress without any bill being considered under an open rule. I know that my friend from Maine was there upstairs when I raised this issue, and I hope very much that she does have an opportunity soon, because as we've talked about—and this bill that is coming before us is an appropriations bill—again, for the first time ever we had the appropriations process shut down, shut down, denying Members an opportunity to offer amendments. Never before in the history of the Republic has that taken place, and we now have, unfortunately, seen that.

But as we prepare to extend Christmas and Hanukkah greetings to our colleagues and our friends across the country, it is very unfortunate that we have now—if we do in fact see today as the last day of the first session of this Congress—an entire session without any open rules.

I will tell you that there are many people on the Rules Committee who work long and hard to deal with challenges. We, as Ms. FOXX said, met into the evening last night, and then we were here at 7:30 this morning.

One of our Rules Committee staff members, Shane Chambers, who has worked long and hard, is getting ready to leave. I would like to say, Madam Speaker, how much I appreciate his work. He and his wife and new baby are moving to Dallas, Texas. I am sure that he will have an opportunity—even with a new baby—to get more rest than he does as a staff member on the House Rules Committee. But I would like to express appreciation to those staff members on both sides of the aisle who do work long and hard to address these challenges.

I am going to urge my colleagues to join in voting “no” on this rule because I believe that we can do better. This is not the appropriate way, and it is not what was promised to the American people.

□ 0945

Ms. PINGREE of Maine. Madam Speaker, I do want to thank my colleague, the ranking member on the committee, both for his history lesson and also for extending holiday greetings to those across the country. I do appreciate that, as a new Member, I often learn bits of the past from the things that he discusses with us, and I want to join him in thanking our hard-working staff. He is absolutely right. We were here late into the evening, and we were here early in the morning. I know that my colleagues put in many hours and that our staffs work very hard, and I want them to know I appreciate greatly their hard work on our behalf and for dealing with many of the challenges we often have before us which make our procedural challenges even more difficult as we try to determine how to get so much work done that is before us and with so much more to do. That is why we are here today—to talk about this same-day rule, to talk about the work that is before us.

I yield as much time as he is interested in consuming to my good colleague from Colorado (Mr. PERLMUTTER).

Mr. PERLMUTTER. I appreciate my friend from Maine giving me some time to respond to my friend from California.

Madam Speaker, I think we were getting a little lesson in history about Kennedy, about Reagan, and about the Recovery Act that was passed earlier this session.

I'm glad my friend is now returning, because what he forgot to mention was that, with John Kennedy, when those tax cuts were made, the highest marginal rates were 70 percent. Today's highest marginal rates are half that.

So we need to understand, when those cuts were made, it was a substantial amount higher than what we've experienced today. I would also remind my friend that, in the Recovery Act, which was passed earlier this year, \$300 billion—about 40 percent of that bill—was in the form of tax cuts. So those kinds of efforts are being made.

I would also remind my friend that, when President Reagan came in in 1981, he did take some tough steps in trying to rebuild the economy, which was suffering from high interest rates and from a number of other things, and it wasn't just nirvana the next day. At least in Colorado, we had years of recession that lasted almost until 1990.

So what we see before us, really, I think, as a result of stabilizing the banking system last fall and of rejuvenating the economy in the spring with the Recovery Act, is downward pressure on unemployment. We are not out of the woods, but it is getting better. We can continue to do better than what we saw at the end of the Bush administration.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. PINGREE of Maine. I yield the gentleman another 1 minute.

Mr. DREIER. Would the gentleman yield?

Mr. PERLMUTTER. I yield 10 seconds to my friend from California.

Mr. DREIER. I am going to need more than 10 seconds to respond. I would be happy to ask my friend from the Grandfather community if she might yield 1 minute to the gentleman.

Ms. FOXX. I am happy to yield 1 minute to the gentleman from Colorado.

Mr. DREIER. Would the gentleman yield?

Mr. PERLMUTTER. I yield to my friend.

Mr. DREIER. I thank my friend for yielding.

Madam Speaker, let me just say very quickly that, under John F. Kennedy, it's true. We saw a 70 percent marginal rate dramatically reduced. We are not asking for a halving of marginal rates. The \$300 billion in tax cuts have not been focused on job creators, which is exactly what President Kennedy did then.

I also want to say, Madam Speaker, that I recognize very well that, if you look at the provisions that have been put into place within the past year, we've not been focused on that private sector job creation that President Kennedy and President Reagan perceived.

I thank my friend for yielding.

Mr. PERLMUTTER. Reclaiming my time, I appreciate that, but I would disagree with my friend by saying, first of all, we provided tax credits for first-time home buyers to stimulate home construction and home sales. We provided tax credits, net operating loss, carrybacks, and carryforwards for busi-

nesses. We provided tax credits on depreciation. There are many, many business tax credits that have gone to stimulate the economy and to create jobs. So I would disagree.

Mr. DREIER. Will the gentleman further yield?

Mr. PERLMUTTER. Just for a second.

Mr. DREIER. Madam Speaker, let me just say that, again, the example that I used, the bipartisan example of the Kennedy/Reagan tax cuts, were marginal rate reductions for individuals, which encouraged job creation and a reduction of the capital gains rate, and we've chosen to increase taxes.

Mr. PERLMUTTER. I take back my time.

Madam Speaker, the business types of tax cuts as well as individual tax cuts are part of the package that is helping this country recover, but we aren't there yet. We haven't finished yet. We helped Wall Street with TARP money. That same money should be able to be available to Main Street. That's the purpose of today's bill. That's why this rule is important.

I would urge an “aye” vote on this rule as well as an “aye” vote on the underlying bill.

Ms. FOXX. Madam Speaker, I yield 2 minutes to the gentleman from California.

Mr. DREIER. Madam Speaker, I would be happy to engage in a colloquy further with my friend from Colorado to simply say that I believe very, very strongly, Madam Speaker, that it is important for us to recognize what needs to be done to encourage job creation and economic growth. What we have seen in the past year, unfortunately, has been a dramatic expansion of the size and scope and reach of government, which, frankly, I think, would concern both John F. Kennedy and Ronald Reagan.

The fact is the notion of this regulatory burden and tax cuts that are not modeled after the pro-growth model of President Kennedy and President Reagan are not going to create the kind of opportunity that we need. Why? Because we constantly hear this class warfare argument of “tax the rich.”

This week's Economist has a very interesting piece, Madam Speaker, in which it focuses on the bonus tax that Prime Minister Gordon Brown in Great Britain is putting into place. The piece in The Economist is entitled, “Class Warrior.” It focuses on the fact, again, that Prime Minister Brown is trying to, with his policy, get the economy going when the British economy is, in fact, among those in Europe, doing the worst of the economies. We are in a position right now where he is engaging in class warfare, and The Economist has this great line, which reads, “Market reforms are not what class warriors do.”

As we continue to attack job creators, as we continue to attack those at the upper end of the spectrum who are, in fact, struggling right now to get our economy back on track to create the private sector jobs, we've got policies here that are undermining that.

Ms. PINGREE of Maine. Will the gentleman yield?

Mr. DREIER. Of course, I am happy to yield.

Ms. PINGREE of Maine. I am happy to yield back again to my wonderful colleague from Colorado.

Mr. DREIER. I have got time. I will yield to him.

Ms. PINGREE of Maine. We will yield to everybody.

I want to answer one thing. The two of you have been entered into a colloquy, a very interesting one, going back to Kennedy.

The SPEAKER pro tempore. The time of the gentleman from California has expired.

Ms. PINGREE of Maine. I am happy to engage in a colloquy with both of my colleagues here, but let me just make one point to my much more senior and well-informed Members.

Mr. DREIER. If the gentlewoman would yield, that means older.

Ms. PINGREE of Maine. No, I don't think, actually, they are all older.

Anyway, I just want to say that, while this has been a very interesting history lesson and while I greatly appreciate my colleague from Colorado and his understanding of the financial services industry and of this world that we've been working so hard on to both regulate and to deal with, much of my colleague from California's remarks have been referring to President Kennedy and to President Reagan, which were very different eras.

I just want to remind my colleagues on the floor that we are here at the end of the Bush administration. When President Obama came to office, yes, the Democrats had been here for 2 years before and there were things that we were unable to fix when we were simply in the majority. The fact is that President Obama and this particular Congress—and I came here as a freshman—inherited the worst recession since the Great Depression, two wars that weren't paid for, a broken health care system, and a 1950s energy policy. That is what we have had to deal with. As my colleagues know, this has not been an easy year. We are here over and over again, attempting to deal with this.

I yield 1 minute to my colleague from Colorado (Mr. PERLMUTTER).

Mr. PERLMUTTER. I appreciate my friend from Maine yielding.

I would just say to my colleague from Maine, as well as to my colleague from California, that I think that Ms. PINGREE has a very substantial point. My friend from California complained about the regulatory burden.

One of the reasons that this country is facing the recession that we are facing is as a result of the Wild West approach on Wall Street where there was no regulatory burden, or if there was, it was ignored by the regulators under the Bush administration. As a consequence, the private sector was brought to its knees last fall and is just now getting on its feet as a result of the rejuvenation—the Recovery Act—which was passed by this Congress and by President Obama. It is those kinds of things that have required intervention by the Federal Government to get this country back on its feet. We are not there yet, but we are heading in the right direction.

Ms. FOXX. Madam Speaker, I find it very interesting that my colleague from Maine says we find ourselves here at the end of the Bush administration. We have been in the Obama administration for a year, yet our colleagues across the aisle cannot stop hearkening back to President Bush and blaming him for everything that has happened in this country in the last year when President Bush hasn't been in office and while the Republicans have not been in control. The Democrats are in control. They have been in control of the Congress for 3 years.

They actually inherited from President Bush and from the Republican-controlled Congress a very excellent economy—55 straight months of job growth. In the first month that the Democrats took over the Congress, the economy started going downhill, and we can document that very, very easily. It isn't the Bush administration that deserves the blame for the ills of the economy; it's the Democrat-controlled Congress, which began in January of 2007, which is when the economy started going sour.

I want to go back to the issue at hand, which is: Why do we have closed rules? Why do we have a same-day martial law rule? Why isn't there time for us to debate the important issues that the American people want us to be debating?

Why is it, as my colleague from California has pointed out, that our most important function, that being the defense of this Nation and the appropriations for that part of the country—which can be done by no other group of people in this country as the States can't do it and the locals can't do it—is left to be done on a day when everybody is trying to get out for Christmas, and we are doing it in a rush?

The Members aren't allowed to read the bill. The 72-hour rule has gone out the window. Nobody is allowed to read the bill because there is not enough time to do it. We have been operating, as my colleague said, under closed rules with bills with no amendments while we are doing things like recognizing the Grand Concourse on its 100th anniversary as the preeminent thor-

oughfare in the borough of the Bronx and as an important nexus of commerce and culture for the City of New York.

That is how our colleagues want to spend their time, which is by dealing with issues that are not a part of our critical job here in the House of Representatives, by dealing with things that could have been done on a voice vote; but we have to have no amendments allowed and no debate time because there isn't time to do these things, according to the chairman of the Appropriations Committee, and this is what we are doing.

Madam Speaker, I had an opportunity this week to, once more, visit Arlington National Cemetery. It is always a sobering thing to do. I went particularly to the active duty section this time where men and women who are currently serving our country have lost their lives. It gets one's attention. There were parents and relatives there, grieving, who had recently lost loved ones. I visited the eternal flame of John Kennedy. I don't have to be reminded of his comments in his inaugural speech, "Ask not what your country can do for you. Ask what you can do for your country."

□ 1000

We are in a totally different time, as my colleague has said. We are in a time where we have people representing this country who want wealth redistribution. They want to take money from some people and give it to others.

In fact, that seems to be their entire focus, spread the wealth around, take up time on frivolous issues. Don't deal with what's important, don't deal with national security, because we really don't want to talk about that. That's not what's important. But that is what is important to us.

I watched the soldiers who guard the Tomb of the Unknowns, and I was given some insight into the preparation that they have for that job and how difficult it is to get it.

Would that Members of Congress had a tiny little percentage of the dedication that these soldiers have for doing their jobs. They do everything with perfection. Perfection is not just the goal; it is the standard that those people live up to. We are falling far short of the standard that our military people uphold for our country.

We are so fortunate that we have men and women willing to serve and have been willing to serve since the founding of this country. This Congress is falling short of the goals that they set.

I support our military. I support the funding for our military and our troops, the equipment, the medical care and all that we are going to appropriate, but I don't support this martial law way of operating. I don't support the arrogance of this administration

and this Congress to bring things up at the last minute and to disregard the needs of those people.

To put on the bills things that are irrelevant, things they don't think they can pass any other way, what a travesty, what a shame. What a shame on this Congress that we are doing this bill at the last minute and that we are putting these things on here.

We should be voting on appropriations for our military and honoring them here just before the holidays.

Madam Speaker, I will ask my colleagues to vote "no" on this same-day rule and "no" on the next rule so that we could stop and debate this and not be up against a deadline for a group of our Members to go to Copenhagen, adding to the carbon problem while they are going over there to talk about it.

I yield back the balance of my time.

Ms. PINGREE of Maine. Thank you to my colleague from North Carolina for her thoughts. While we don't always agree, I appreciate her reminding us about the soldiers who have fallen, about their families, about her visit to Arlington Cemetery.

I want to concur. I had the privilege of visiting the cemetery myself this week. Not only did I also grieve for those families who were there visiting the gravestones of their loved ones and their family members, and many who were just there to think about the people who they didn't even know who served for us.

I was also tremendously proud to see the thousands of wreaths that decorated those graves that had been brought down from my home State, the State of Maine, in honor of our fallen soldiers. There were 16,000 that were brought to Arlington Cemetery, and there were many people who traveled with them to make sure that we show the proper respect for our military, for our soldiers, and for those who served their country in the past and virtually every day.

I want to just say that we are here today in part to talk about making sure that there is adequate funding for our military. Yes, we all wish that our colleagues in the Senate had acted faster on this bill, that we weren't dealing with continuing resolutions, but this is the particular situation that we are in. It is very important that we finish our work before the end of the year, before the end of the holidays, that we recognize our soldiers, our current military, and many of the other needs in this bill, many of which will be discussed as soon as we finish the debate on this same-day rule.

Madam Speaker, in closing, I just want to say that the rule before us this morning simply allows the consideration of these measures to move forward.

We have heard a lot about the process this morning. I want to simply state for the record in the 109th Con-

gress, before I was a Member of this body, the Republican majority reported out over 20 rules that allowed for same-day consideration.

Madam Speaker, I urge my colleagues to vote for this rule and for the underlying measures before us today. These programs are too important. Our constituents are in too much turmoil to slow this process down any further.

I urge a "yes" vote on the previous question and on the rule.

The material previously referred to by Ms. FOXX is as follows:

AMENDMENT TO H. RES. 973 OFFERED BY MS. FOXX OF NORTH CAROLINA

At the end of the resolution, insert the following new section:

SEC. 2. On the third legislative day after the adoption of this resolution, immediately after the third daily order of business under clause 1 of rule XIV and without intervention of any point of order, the House shall proceed to the consideration of the resolution (H. Res. 554) amending the Rules of the House of Representatives to require that legislation and conference reports be available on the Internet for 72 hours before consideration by the House, and for other purposes. The resolution shall be considered as read. The previous question shall be considered as ordered on the resolution and any amendment thereto to final adoption without intervening motion or demand for division of the question except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Rules; (2) an amendment, if offered by the Minority Leader or his designee and if printed in that portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII at least one legislative day prior to its consideration; which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read and shall be separately debatable for twenty minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit which shall not contain instructions. Clause 1(c) of rule XIX shall not apply to the consideration of House Resolution 554.

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's *Precedents of the House of Representatives*, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March

15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the *Floor Procedures Manual* published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from *Congressional Quarterly's "American Congressional Dictionary"*: "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's *Procedure in the U.S. House of Representatives*, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Ms. PINGREE of Maine. I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. FOXX. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, further proceedings on this question will be postponed.

PROVIDING FOR THE SINE DIE ADJOURNMENT OF THE FIRST SESSION OF THE 111TH CONGRESS

Ms. PINGREE of Maine. Madam Speaker, I send to the desk a privileged concurrent resolution and ask for its immediate consideration.

The Clerk read the concurrent resolution, as follows:

H. CON. RES. 223

Resolved by the House of Representatives (the Senate concurring), That when the House adjourns on any legislative day from Wednesday, December 16, 2009, through Saturday, January 2, 2010, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it stand adjourned sine die, or until the time of any reassembly pursuant to section 3 of this concurrent resolution; and that when the Senate adjourns on any day from Friday, December 18, 2009, through Saturday, January 2, 2010, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it stand adjourned sine die, or until the time of any reassembly pursuant to section 3 of this concurrent resolution.

SEC. 2. When the House adjourns on any legislative day of the second session of the One Hundred Eleventh Congress from Tuesday, January 5, 2010, through Saturday, January 9, 2010, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it shall stand adjourned until noon on Tuesday, January 12, 2010, or until the time of any reassembly pursuant to section 3 of this concurrent resolution, whichever occurs first; and that when the Senate recesses or adjourns on any day of the second session of the One Hundred Eleventh Congress from Tuesday, January 5, 2010, through Saturday, January 9, 2010, on a motion offered pursuant to this concurrent resolution by its Majority Leader or his designee, it shall stand recessed or adjourned until noon on Tuesday, January 19, 2010, or until such other time on that day as may be specified by its Majority Leader or his designee in the motion to recess or adjourn, or until the time of any reassembly pursuant to section 3 of this concurrent resolution, whichever occurs first.

SEC. 3. The Speaker of the House and the Majority Leader of the Senate, or their respective designees, acting jointly after consultation with the Minority Leader of the House and the Minority Leader of the Senate, shall notify the Members of the House and the Senate, respectively, to reassemble at such place and time as they may designate if, in their opinion, the public interest shall warrant it.

The SPEAKER pro tempore. The concurrent resolution is not debatable. The question is on the concurrent resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. FOXX. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, this 15-minute vote on adoption of House Concurrent Resolution 223 will be followed by 5-minute votes on ordering the previous question on H. Res. 973; adoption of H. Res. 973, if ordered; and the motion to suspend the rules on H. Con. Res. 160.

The vote was taken by electronic device, and there were—yeas 222, nays 195, not voting 17, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members have 2 minutes remaining on this vote.

So (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

The title was amended so as to read: "A concurrent resolution recognizing the contributions of the American Kennel Club."

A motion to reconsider was laid on the table.

Stated for:

Mr. FILNER. Madam Speaker, on rollcall 981, I was away from the Capitol. Had I been present, I would have voted "yes."

Ms. SLAUGHTER. Madam Speaker, I was unavoidably detained and missed rollcall vote No. 981. Had I been present, I would have voted "aye" on rollcall vote No. 981.

PERSONAL EXPLANATION

Mr. RADANOVICH. Madam Speaker, I was unable to make today's votes on the House floor due to a family illness. Had I been present I would have voted as follows: "No" on rollcall vote No. 978, the Adjournment Resolution, H. Con. Res. 223; "no" on rollcall vote No. 979, on ordering the previous question on H. Res. 973 for consideration of a same day rule; "no" on rollcall No. 980, on the adoption of H. Res. 973, for consideration of a same day rule; and "aye" on rollcall vote No. 981, on the motion to suspend the rules and agree to H. Con. Res. 160, Honoring the American Kennel Club on its 125th Anniversary.

PERSONAL EXPLANATION

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, on rollcall Nos. 978, 979, and 981, I would have voted "yea." On rollcall No. 980, I would have voted "aye."

PERSONAL EXPLANATION

Mr. BARRETT of South Carolina. Madam Speaker, unfortunately, I missed the following recorded votes on the House floor on Tuesday, December 15, 2009 and on the morning of Wednesday, December 16, 2009.

On Tuesday, December 15, 2009, had I been present I would have voted "aye" on rollcall vote No. 971 (on motion to suspend the rules and agree to H. Res. 894); "aye" on rollcall vote No. 972 (on motion to suspend the rules and agree to H.R. 1517); "aye" on rollcall vote No. 973 (on motion to suspend the rules and agree to H.R. 3978); "aye" on rollcall vote No. 974 (on motion to suspend the rules and agree to H. Res. 971); "aye" on rollcall vote No. 975 (on motion to suspend the rules and agree to H.R. 2194); "aye" on rollcall vote No. 976 (on motion to suspend the rules and agree to H. Res. 150); "aye" on rollcall vote No. 977 (on motion to suspend the rules and agree to S. 1472).

On December 16, 2009, had I been present I would have voted "no" on rollcall vote No. 978 (on agreeing to H. Con. Res. 223, providing for the sin die adjournment of the first session of the 111th Congress); "no" on rollcall vote No. 979 (on ordering the previous question to H. Res. 973); "no" on rollcall vote No. 980 (on agreeing to H. Res. 973); "aye" on rollcall vote No. 981 (on motion to suspend the rules and agree to H. Con. Res. 160).

PROVIDING FOR CONSIDERATION OF SENATE AMENDMENT TO H.R. 3326, DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010; FOR CONSIDERATION OF HOUSE JOINT RESOLUTION 64, FURTHER CONTINUING APPROPRIATIONS, FISCAL YEAR 2010; FOR CONSIDERATION OF H.R. 4314, PERMITTING CONTINUED FINANCING OF GOVERNMENT OPERATIONS; FOR CONSIDERATION OF SENATE AMENDMENT TO H.R. 2847, COMMERCE, JUSTICE, SCIENCE, AND RELATED AGENCIES APPROPRIATIONS ACT, 2010

Ms. PINGREE of Maine. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 976 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 976

Resolved, That upon adoption of this resolution it shall be in order to take from the Speaker's table the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes, with the Senate amendment thereto, and to consider in the House, without intervention of any point of order except those arising under clause 10 of rule XXI, a motion offered by the chair of the Committee on Appropriations or his designee that the House concur in the Senate amendment with the amendment printed in part A of the report of the Committee on Rules accompanying this resolution. The Senate amendment and the motion shall be considered as read. The motion shall be debatable for one hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. The previous question shall be considered as ordered on the motion to its adoption without intervening motion.

SEC. 2. Upon the adoption of this resolution it shall be in order to consider in the House the joint resolution (H.J. Res. 64) making further continuing appropriations for fiscal year 2010, and for other purposes. All points of order against consideration of the joint resolution are waived except those arising under clause 9 or 10 of rule XXI. The joint resolution shall be considered as read. All points of order against provisions in the joint resolution are waived. The previous question shall be considered as ordered on the joint resolution to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations; and (2) one motion to recommit.

SEC. 3. Upon the adoption of this resolution it shall be in order to consider in the House tie bill (H.R. 4314) to permit continued financing of Government operations. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. The bill shall be considered as read. All points of order against provisions in the bill are waived. The previous question shall be considered as ordered on the bill to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Ways and Means; and (2) one motion to recommit.

SEC. 4. Upon the adoption of this resolution it shall be in order to take from the Speaker's table the bill (H.R. 2847) making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes, with the Senate amendment thereto, and to consider in the House, without intervention of any point of order except those arising under clause 10 of rule XXI, a motion offered by the chair of the Committee on Appropriations or his designee that the House concur in the Senate amendment with the amendment printed in part B of the report of the Committee on Rules. The Senate amendment and the motion shall be considered as read. The motion shall be debatable for one hour equally divided and controlled by the chair and ranking minority member of the Committee on Appropriations. The previous question shall be considered as ordered on the motion to its adoption without intervening motion.

SEC. 5. In the engrossment of the House amendment to the Senate amendment to H.R. 2847, the Clerk shall—

(a) add the text of H.R. 2920, as passed by the House, as new matter at the end of the text proposed to be inserted by the House amendment;

(b) assign appropriate designations to provisions within the engrossment of the text proposed to be inserted by the House; and

(c) conform provisions for short titles within the engrossment of the text proposed to be inserted by the House.

SEC. 6. It shall be in order at any time during the remainder of the first session of the One Hundred Eleventh Congress for the Speaker to entertain motions that the House suspend the rules. The Speaker or her designee shall consult with the Minority Leader or his designee on the selection of any matter for consideration pursuant to this section.

SEC. 7. The requirement of clause 6(a) of rule XIII for a two-thirds vote to consider a report from the Committee on Rules on the same day it is presented to the House is waived for the remainder of the first session of the One Hundred Eleventh Congress.

SEC. 8. The chair of the Committee on Appropriations may insert in the CONGRESSIONAL RECORD at any time during the remainder of the first session of the One Hundred Eleventh Congress such material as he may deem explanatory of the Senate amendments and the motions specified in the first and fourth sections of this resolution.

SEC. 9. On any legislative day of the second session of the One Hundred Eleventh Congress before January 12, 2010, the Speaker at any time may dispense with organizational or legislative business.

SEC. 10. On any legislative day of the second session of the One Hundred Eleventh Congress before January 12, 2010, the Chair at any time may declare the House adjourned or declare the House adjourned pursuant to an applicable concurrent resolution of adjournment.

SEC. 11. (a) On any legislative day of the first session of the One Hundred Eleventh Congress, the Speaker may at any time declare the House adjourned.

(b) When the House adjourns on a motion pursuant to this subsection or a declaration pursuant to subsection (a) on the legislative day of:

(1) Wednesday, December 16, 2009, it shall stand adjourned until 6 p.m. on Saturday, December 19, 2009.

(2) Saturday, December 19, 2009, it shall stand adjourned until noon on Wednesday, December 23, 2009.

(3) Wednesday, December 23, 2009, it shall stand adjourned until 10 a.m. on Saturday, December 26, 2009.

(4) Saturday, December 26, 2009, it shall stand adjourned until noon on Wednesday, December 30, 2009.

(5) Wednesday, December 30, 2009, it shall stand adjourned until 10 a.m. on Saturday, January 2, 2010.

(c) If, during any adjournment addressed by subsection (b), the House has received: (1) confirmation that the President has approved H.R. 3326; (2) a message from the Senate transmitting its passage without amendment of H.R. 4314; and (3) a message from the Senate transmitting its concurrence in an applicable concurrent resolution of adjournment, the House shall stand adjourned pursuant to such concurrent resolution of adjournment.

(d) The Speaker may appoint Members to perform the duties of the Chair for the duration of the period addressed by this section as though under clause 8(a) of rule I.

□ 1115

POINT OF ORDER

Mr. FLAKE. Madam Speaker, I raise a point of order against H. Res. 976 because the resolution violates section 426(a) of the Congressional Budget Act. The resolution contains a waiver of all points of order against consideration of the legislation, which includes a waiver of section 425 of the Congressional Budget Act, which causes a violation of section 426(1).

The SPEAKER pro tempore. The gentleman from Arizona makes a point of order that the resolution violates section 426(a) of the Congressional Budget Act of 1974.

The gentleman has met the threshold burden under the rule, and the gentleman from Arizona and a Member opposed each will control 10 minutes of debate on the question of consideration. After that debate, the Chair will put the question of consideration.

The Chair recognizes the gentleman from Arizona.

Mr. FLAKE. Madam Speaker, approximately 68 years ago, in January of 1941, Sam Rayburn was elected Speaker of the House of Representatives. Just prior to his swearing in, he rose on the House floor and said the following:

"You have elevated me to a position, I must confess, that has been one of the ambitions of my lifetime. The House of Representatives has been my life and my love for this more than a quarter of a century. I love its traditions; I love its precedents; I love its dignity; I glory in the power of the House of Representatives. It is my highest hope and my unswerving aim to preserve, protect, and defend the rights, prerogatives, and the power of the House of Representatives."

What a beautiful statement. You can't help but hear and feel the words of love that Speaker Rayburn felt for this House. As Speaker, he considered himself a custodian of its traditions, its precedents and, as he put it, its dignity.

You might ask why I tell this story, why I raise this point. It is because we

are about to consider a bill that endorses and condones a practice that has placed a dark and ominous cloud over this institution. This practice, for lack of a better term, can be called circular fund-raising. It involves the awarding of earmarks, which are essentially no-bid contracts, in close proximity to the receipt of campaign contributions from the earmark recipients.

This legislation contains more than 500 earmarks where a private, for-profit company is the intended recipient. Let me repeat that. This legislation we are about to consider contains more than 500 earmarks, or no-bid contracts, directed to private companies. In many cases, the Members of the Congress securing these no-bid contracts have either received, or will soon receive after this legislation is enacted into law, large campaign contributions from the executives of these companies and/or the lobbyists that represent them.

By now my colleagues are well aware of the PMA scandal which was largely centered on the practice of circular fund-raising. Since news broke in February 2008 of the FBI's raid of the PMA offices, press reports and editorials from coast to coast have raised questions about the action of that firm and the integrity of this body, sowing public distrust and tarnishing the dignity of the House. Just listen to what is being said off the Hill and beyond the beltway.

ABC's news site, The Blotter, noted that PMA's "operations—millions out to lawmakers, hundreds of millions back in earmarks for clients—have made it, for many observers, the poster child for tacit 'pay-to-play' politics in Washington."

An editorial in The New York Times entitled, "Political Animal 101" referred to "the relationship between campaign donors and the customized appropriations they are fed by grateful lawmakers" as "the ultimate in symbiotic survival" and "cynical influence trading."

An article in The Kansas City Star noted that "the earmark game gets a bit less baffling" when taxpayers consider "the campaign donors that grease political palms."

The Columbus Dispatch summed it up when they noted, "Congress has an abysmal public approval rating of 26 percent as of early November, and the smell of quid pro quo certainly doesn't help."

The embarrassing coverage isn't just limited to domestic press. The Irish Times noted that "U.S. Congressmen tread a fine line between legitimate political fund-raising and influence-peddling, between friendship with lobbyists and outright corruption." They go on, "Now a leaked confidential report, prepared by the committee (on Ethics) in July and detailed in yesterday's Washington Post, has provided a rare glimpse into the cesspool of Capitol Hill politics."

Madam Speaker, I have here that article referred to from The Washington Post dated October 30 of this year. It notes that seven Members who sit on the Appropriations Committee, the Subcommittee on Defense, are "under scrutiny by ethics investigators." The article notes that "Together, the seven legislators have personally steered more than \$200 million in earmarks to clients of the PMA Group in the past 2 years, and received more than \$6.2 million in campaign contributions from PMA and its clients in the past decade."

According to The Wall Street Journal, Members who sit on the Defense Subcommittee have this year alone "received a total of \$141,000 in campaign contributions from companies that received earmarks from the lawmakers."

So here we are today, Madam Speaker, with a backdrop of investigations into the practice of circular fund-raising by the Justice Department and our own Ethics Committee, yet we are poised to pass a Defense appropriations bill that contains more than 500 no-bid contracts for private companies.

In mid-January of 2010, we will see a quarterly report from the Office of Congressional Ethics that will shed light into their investigations. Thereafter, it is likely that our own Ethics Committee will have to provide additional notice of their actions related to the PMA scandal.

If the future is anything like the past, additional scandals will spring from the earmarks that we approve today. We are surely, as the poet said, "traipsing down a flower-strewn path unpricked by thorns of reason."

I should note that circular fund-raising is not a partisan issue; both parties engage in it. The cloud that hangs over this body rains on Republicans and Democrats alike. But it is fair to ask, what about the dignity of this body? Are we appropriately concerned that the words "pay-to-play," "quid pro quo," "swamp" and "cesspool" are increasingly routine in articles describing the appropriations process? Should we have no standard higher than whether the abuse of the process rises to the level of an indictable offense?

One thing is clear: The practice of circular fund-raising will someday end. The question is, who will end it? Will it take us, in our own initiative, to clean our own House, or will we wait for the Justice Department to launch more investigations and take further action?

My own hope is that those who find themselves in leadership positions today will summon the dormant custodial spirit of those who have protected and defended this wonderful institution long before we arrived in this Chamber. We owe it to them to correct the process that led to this flawed piece of legislation before us.

I reserve the balance of my time.

Ms. PINGREE of Maine. Madam Speaker, I claim time in opposition.

The SPEAKER pro tempore. The gentlewoman is recognized for 10 minutes.

Ms. PINGREE of Maine. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, as my colleagues know, we have been here before. This is the same point of order that has been raised against almost every appropriations measure during this Congress, and each time it is used to discuss something other than its intended purpose.

I would want to respond to my good colleague from Arizona that I, too, share concerns about the earmarking process, and I encourage him to become a cosponsor on the fair elections bill. As we have in Maine, public financing takes away much of the scrutiny around the link between campaign contributions and earmarks.

But once again, this particular debate is about delaying consideration of this bill and ultimately stopping it altogether. I hope my colleagues will again vote "yes" so we can consider this important legislation on its merits and not stop it on a procedural motion.

This rule provides for enactment of legislation to fund our Nation's defense. The brave men and women who serve in the military, particularly those who are currently at war in Iraq and Afghanistan, deserve a swift enactment of this legislation.

This legislation that we will take up later today will also divert TARP money to programs that create and save jobs across the country. We do this by investing \$75 billion of TARP money into highways, transit, school renovation, hiring teachers, police, firefighters, supporting our small businesses, funding job training, and affordable housing. And for those hardest hit by the recession, this bill also provides emergency relief by extending programs like unemployment benefits, COBRA, FMAP, our health care funding for the State, and the child care tax credit.

Those who oppose this measure can vote against it on final passage. We must consider this rule, and we must pass this critical legislation today.

I have the right to close, but in the end I will urge my colleagues to vote "yes" and consider the rule.

Madam Speaker, I reserve the balance of my time.

Mr. FLAKE. Madam Speaker, may I inquire as to the time remaining?

The SPEAKER pro tempore. The gentleman from Arizona controls 3 remaining minutes.

Mr. FLAKE. I am accused of using a procedural measure to bring up earmarks again. Let me tell you why I'm doing that. I'm doing that because this year, for the first time in the history of this institution, every appropriations bill that came to the floor—including

this one, including the Defense appropriations bill—came under a structured or closed rule with only certain amendments being offered. That's the first time in the history of this institution where every appropriations bill has come to the floor in that manner.

And so individuals like myself and others were only allowed to offer the amendments that the other side wanted us to offer, the ones that they said we could offer rather than the ones that we ourselves would choose. I was fortunate in that I got 10 of the 550-some amendments I offered on this bill. I offered that many because that's how many no-bid contracts for private companies are contained in the bill, and I thought that they deserved some scrutiny.

I wish that the Appropriations Committee was vetting these earmarks; given this, it's clear that they're not. This is one of hundreds of articles out there. There is a cloud hanging over this institution because of prior Defense bills, and this is going to end up the same way. We are guaranteeing that there will be scandal that springs from earmarks approved in this bill because they haven't been appropriately vetted, and they haven't been because we weren't allowed an open rule for people to bring to the floor amendments that they wanted to offer.

I mentioned that I was fortunate in that I got 10 of them. Some of my colleagues offered multiple amendments on multiple appropriations bills throughout the year and weren't given the opportunity to offer any of them, not one. Here are Members across the country wanting to represent their constituents, and through the entire appropriations process, 12 bills this year, weren't given the opportunity to offer one amendment because we have the equivalent of martial law on appropriations bills.

And why? Because we were told we had to get it done so we wouldn't do any omnibus bills at the end of the year. Well, here we are, we just approved a massive omnibus bill last week, and we're here today because the Defense bill was held just so that we could tag on additional items that people who wouldn't want to vote for them anyway would have to because it's a Defense bill. That's just no way to conduct business. This institution deserves better than this. It deserves better than to have a bill that has more than 500 no-bid contracts for private companies of which articles have been written and will be written, making a cloud hang over this body.

As I mentioned, this isn't a partisan issue. This isn't where one party is in the right and one party is in the wrong. We are both doing this, and we shouldn't. And it will come back to haunt us as surely as other practices have in the past.

Madam Speaker, I yield back the balance of my time.

Ms. PINGREE of Maine. Madam Speaker, again I want to urge my colleagues to vote "yes" on this motion to consider so that we can debate and pass this and the other important items covered by this rule.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired.

The question is, Shall the House now consider the resolution?

The question of consideration was decided in the affirmative.

The SPEAKER pro tempore. The gentlewoman from Maine (Ms. PINGREE) is recognized for 1 hour.

Ms. PINGREE of Maine. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to the gentlewoman from North Carolina, Dr. Foxx. All time yielded during consideration of the rule is for debate only.

GENERAL LEAVE

Ms. PINGREE of Maine. I ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 976.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Maine?

There was no objection.

Ms. PINGREE of Maine. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, House Resolution 976 provides for the consideration of the Senate amendment to H.R. 3326, House Joint Resolution 64, H.R. 4314, and the Senate amendment to H.R. 2847.

For the Senate amendment to H.R. 3326, the rule makes in order a motion to concur in the Senate amendment with the House amendment, provides 1 hour of debate controlled by the Committee on Appropriations, and waives all points of order against consideration of the motion except those arising under clause 10 of rule XXI.

□ 1130

The rule provides for consideration of H.J. Res. 64 under a closed rule. It provides for 1 hour of debate controlled by the Committee on Appropriations. It provides one motion to recommit with or without instructions. It waives all points of order against consideration of the joint resolution except those arising under clause 9 or 10 of rule XXI, and it waives all points of order against provisions in the joint resolution.

The rule provides for consideration of H.R. 4314 under a closed rule. It provides for 1 hour of debate controlled by the Committee on Ways and Means. It provides one motion to recommit with or without instructions. It waives all points of order against consideration of the bill except those arising under clause 9 or 10 of rule XXI, and it waives

all points of order against provisions in the bill.

For the Senate amendment to H.R. 2847, the rule makes in order a motion to concur in the Senate amendment with the House amendment. It provides 1 hour of debate on the motion controlled by the Committee on Appropriations, and it waives all points of order against consideration of the motion except those arising under clause 10 of rule XXI.

The rule provides that in the engrossment of the House amendment to the Senate amendment to H.R. 2847, the Clerk shall add the text of H.R. 2920 as passed by the House.

The rule also provides that measures may be considered under suspension of the rules at any time during the remainder of the first session of the 111th Congress.

The rule waives the requirement of a two-thirds vote to consider a rule on the same day it is reported from the Rules Committee for the remainder of the first session of the 111th Congress.

The rule provides that the Chair of the Committee on Appropriations may insert in the CONGRESSIONAL RECORD explanatory materials on the Senate amendments and the motions regarding H.R. 3326 and H.R. 2847.

The rule provides that, on any legislative day before January 12, 2010, the Speaker may dispense with organizational or legislative business.

The rule provides that, before January 12, 2010, the Chair may declare the House adjourned.

The rule provides for pro forma sessions until the House adjourns sine die.

And finally, the rule provides that, on any legislative day of the first session of the 111th Congress, the Speaker may declare the House adjourned.

Madam Speaker, the rule before us today allows the House to consider the Department of Defense Appropriations Act for fiscal year 2010, which is the last appropriations bill for this fiscal year.

The conference agreement on H.R. 3326 provides over \$363 billion towards protecting our troops abroad and taking better care of their families at home. To help protect our troops, this bill provides increased funding for the Mine Resistant Ambush Protected Vehicle Fund and for the procurement of new Humvees and of new heavy and medium tactical vehicles. This is particularly important given the casualty rate and the difficulties our soldiers are experiencing in Afghanistan.

H.R. 3326 increases pay for all servicemembers by 3.4 percent, and it fully funds the requested end strength levels for active reserve and selected reserve personnel. The bill provides over \$29 billion for top-of-the-line medical care, including \$120 million for traumatic brain injury and psychological health, and it increases funding for the wounded, the ill and injured warrior programs.

The conference agreement also includes over \$472 million for family advocacy programs, and it fully funds the family support and yellow ribbon programs. The bill also includes \$20 million for the Army National Guard family assistance centers and reintegration programs; but this bill cannot provide for the common defense without a common effort.

In my home State of Maine, there are men and women who work every day to help in this effort. The funding in this bill would have been wasted if it weren't for the efforts of the welders, designers, and metal workers of the Bath Ironworks; of the skilled factory workers and assembly men at Vintech in Biddeford, Maine; of the world-class machinists and engineers at Pratt and Whitney in North Berwick; or of the dedicated laborers and nuclear engineers at the Portsmouth Naval Shipyard.

This is a clear example of why the bills before us today are so interconnected. Our economic security and our national security are inextricably linked, and our economic security is still in dire straits.

Madam Speaker, if you were sitting at a boardroom table on Wall Street today, you might hear the employees with Goldman Sachs discussing their \$1 billion in profits or bonuses or you might hear employees of Citibank discussing raises for their top executives. You might also hear that the stock market has gone up 60 percent since the spring. You might even hear terms like "economic recovery" or "rebound." So, if you are sitting at that boardroom table on Wall Street, you might think that the economy has fully bounced back and that we are out of the woods. You may start to believe that there is nothing but smooth sailing ahead.

Yet, if you were at a kitchen table on Main Street in my home State of Maine, you would hear a very different story. Rather than talk of large profits, you would hear families discussing a savings account that has all but disappeared. Instead of listening to talk of raises or bonuses, you would hear families debating cutbacks on food or cutbacks on health care. Instead of hearing phrases like "economic recovery" or "rebound," you would hear terms like "high unemployment" and "mounting debt."

For the big banks on Wall Street, the economic recovery may be at hand, but for the millions of unemployed workers and for the thousands of small businesses that are struggling to get by, the economic recovery is still a long way off. In my State and all across the country, there are millions of Americans who want to get back to work, but they need us to lend the same helping hand that we gave to Wall Street in its time of need.

Madam Speaker, the rule before us today allows for the consideration of

the Jobs for Main Street Act, which will move us down that road. This legislation invests in our Nation's infrastructure, and it puts more Americans back to work by providing \$48 billion to rebuild and repair our national transportation system. This investment provides a measurable return, not only by creating and preserving jobs but by literally building the foundation for a long-term economic recovery. This bill will also preserve the jobs of teachers, of police officers, and of firefighters. For those who have already lost their jobs, the Jobs Act extends unemployment benefits for 2 months, and it maintains the current COBRA subsidy.

These programs—these investments, the economic lifelines—have a real impact. Just this week, I heard from a constituent of mine who said these words: Something needs to be done. There are less than 4 weeks left for my husband's unemployment. After that, we won't be able to pay the rent, and we will be out on the streets with a child under 2 years old. Every day, I wonder what is going to happen next, and I even have nightmares. You bail out these large banks which then only raise our interest rates and lower our credit lines—and for what? That doesn't help the little guy like us. Do something to help us.

Madam Speaker, we have the opportunity and we have the obligation to take the bailout money that was used as a lifeline to Wall Street and to give that money back to the American people and to those who have been hit the hardest by these tough economic times. The COBRA subsidy we passed this spring began expiring a few weeks ago. If we don't act now, it will completely disappear by January 1. In my State, full payment for COBRA uses up nearly 90 percent of the average unemployment benefits. That means out-of-work Mainers end up with only about \$150 a month left after paying the full cost of their health insurance.

We need to act now, and we need to act fast to ensure that Main Street recovers. If we do not act, we will have only assured that Wall Street keeps their bonuses while American families lose their benefits. We will have only watched Wall Street get rid of their debt while watching small businesses take on more.

Madam Speaker, we have already put more than enough into shoring up Wall Street. Now we need to focus on creating jobs for the average American that will rebuild our economy from the bottom up.

I reserve the balance of my time.

Ms. FOXX. I yield myself such time as I may consume.

I thank my colleague from Maine for yielding time.

Madam Speaker, the Department of Defense appropriations bill for fiscal year 2010 is intended to provide equipment and technology for our troops.

Our country's greatest treasure lies in the bravery, in the dedication, and in the ability of our servicemen and -women. These courageous individuals protect our freedoms every day.

We thank them, and we thank their families for their support, dedication, and sacrifice.

This bill provides top-of-the-line medical care for our troops, including funding for traumatic brain injury and psychological health. This bill provides funding for wounded, ill, and injured servicemembers as well as for cancer research. This bill provides our military with a pay increase, and it continues efforts to end the practice of stop loss—compensating troops for every month their terms of service will be involuntarily extended in 2010. This bill includes funding to provide support for our country's military families who sacrifice every day on behalf of our Nation and to whom we owe a great debt. This bill provides our troops with first-class military equipment and readiness training, ensuring they are fully prepared to successfully perform their missions.

However, while this bill contains funding for several important and necessary initiatives, I would be remiss if I did not mention my disappointment in the overall funding levels when compared to the increases we have seen throughout the appropriations season this year. While the bill does receive, roughly, a 4.5 percent increase over last year, this increase is not comparable to nondefense appropriations bills we have voted on this year, which average a 12 percent increase in funding levels. As we have noted before, the Federal Government is the only unit of government to provide for our national security.

These represent the wrong priorities of the Democrats, who are in charge of the Congress, and of the Obama administration. Increasing spending for domestic priorities by double digits while, in comparison, shortchanging national defense represents a dangerous, wrongheaded policy that does not rightly prioritize the security of our Nation.

Thus, while I am pleased that several items in this bill are being funded in order to provide our troops with the tools, training, and medical services they need and deserve, I am disappointed that, after increasing the funding levels for domestic appropriations bills by an average of 12 percent, the Democrats in control decided only to increase our defense spending by 4.5 percent—less than half—for the coming year.

This is the last appropriations bill, and that is because it has been held in order for the majority to put into it things that are not related, which I will be discussing a bit more, but the substance of the DOD appropriations bill is not the source of my concern.

The extent of the closed rule before us today allows for the consideration of a variety of additional legislation that has been cobbled together without committee consideration. As my colleagues have said before, our colleagues across the aisle have gone to great lengths to shut down debate. Therefore, I urge my colleagues to vote “no” on the rule so the bill can be returned to the committee and can be brought back under regular order.

Madam Speaker, I reserve the balance of my time.

Ms. PINGREE of Maine. Madam Speaker, I yield 3 minutes to a member of the Committee on Rules, the gentleman from Massachusetts (Mr. MCGOVERN).

Mr. MCGOVERN. I thank my colleague for yielding.

Madam Speaker, I rise in support of this rule, and specifically, I rise in support of the Jobs for Main Street Act, which we made in order under this rule. This important bill will provide the following:

\$48 billion for highways, transit, and other infrastructure projects; \$27 billion to hire teachers, police, firefighters, and for other job training programs. That's \$75 billion for job-creating programs that are proven successes and that will help put Americans back to work. On top of that, the Jobs for Main Street Act provides \$79 billion in emergency relief funding that will go to critical safety net programs like unemployment benefits, health insurance for unemployed workers, Federal matching funds for Medicaid, and funding for the child tax credit.

All told, Madam Speaker, the Jobs for Main Street Act is a good bill, one that will build on the success of the Recovery Act, which was signed into law earlier this year and which is one that will put people back to work. We know that these are difficult economic times, and we recognize that the American public is hurting. With the Jobs for Main Street Act, we will continue to stimulate the economy, to shrink the unemployment rate, and, more importantly, to create new jobs.

Ten months after President Obama signed the Recovery Act into law, we are seeing real results across the country. According to the Transportation and Infrastructure Committee, real jobs are being created by the Recovery Act, and we are seeing the impact of these jobs in the unemployment figures. Look at the results:

Because of the Recovery Act, we have seen the creation of almost 630,000 direct and indirect jobs in the transportation industry alone. That's 210,000 direct hires alone. The result of these direct hires is a \$1.1 billion payroll. It is \$179 million in unemployment compensation not spent. It is people's insurance restored, health insurance restored, and it is \$230 million in paid

Federal taxes. Additional jobs have been created because of the clean water and high-speed rail projects.

All told, the Transportation and Infrastructure Committee estimates that the Recovery Act has created or has sustained approximately 857,000 jobs. All of this underscores the importance of public infrastructure programs. These aren't projects just for the safety and well-being of our friends and neighbors; they are also projects that put these friends and neighbors back to work.

Madam Speaker, this Congress is acting. This House will pass the Jobs for Main Street Act and even more jobs will be created.

□ 1145

Earlier this year, my Republican friends chose politics over the needs of the American people, and every single one of them opposed the Recovery and Reinvestment Act.

They liked the same old, same old. Well, that was their way of thinking. That's the old way of thinking. That way of thinking took Bill Clinton's accomplishments in creating a record number of jobs and eliminating our deficits and paying down the debt and turned it into George Bush's recession, a recession that cost millions of Americans jobs, a recession that added billions and billions to our debt and added that debt on the backs of our children and our grandchildren.

Madam Speaker, people in this country want us to act. People want us to create jobs, and that's what we are going to do.

Ms. FOXX. Madam Speaker, I would now like to yield 3 minutes to my very distinguished colleague from Texas, one of only five CPAs in the House, Mr. CONAWAY.

Mr. CONAWAY. I thank the gentlewoman from North Carolina.

I want to talk to two aspects of this rule, one that sets up the vote on a trick that allows us to vote on the “son of stimulus” bill that will become before us later on this afternoon, and that is voting, having stripped out the Senate amendment to H.R. 2847 and put in place this other legislation.

This trick silences the minority one more time. It would not allow for a motion to recommit and/or a substitute on that bill.

This legislation of some \$150 billion was apparently thrown together in the dark last night, posted on the Internet about 11:10, so we are now 12 hours and 25 minutes into being able to study this bill, again thrown together. It will increase the deficit in spite of the rhetoric that says we are going to use TARP money to do that.

The intent of TARP all along was once it was paid back was to be back into the Treasury to reduce the amount of money we have to borrow and/or reduce the deficit. There are two

provisions in this slush fund and this bill that you need to be aware of. One is that it creates additional billion-dollar spending in the Barney Frank trust fund, the housing slush fund, and makes ACORN available to get back into the game, much to the chagrin of this body, as we voted on.

It also replaces \$2 billion in the Cash for Clunkers money that came out of the stimulus bill last summer. We were on the bill when the proponents of the Cash for Clunkers said this will not increase the deficit because we will take it out of the stimulus money. Immediately the Speaker came to the floor, along with the others, and said, *au contraire*, we will find a replacement for that \$2 billion, and it's in this bill.

Now the stimulus bill, the first stimulus, is up to 787 billion, because, as you all know we all enjoyed the Cash for Clunkers work, but this money is back in the bill with respect to the new stimulus.

The other bill I would like to talk about is the Defense Department appropriations bill. This rule waives the demand, waives the requirement that the chairman of the Appropriations Committee post on the Internet the earmarks and/or plus-ups, depending on how you want to call those, in this bill, some 1,700 of them, we were told. Some are good, some are bad, but we ought to know what's in there.

They were shortly posted on the Internet last night for a brief period of time and then taken down. Madam Speaker, I would like to know what's in this bill that embarrasses the majority that they will not allow this transparency to come before us to allow us to look at it. Like I said, I am not against or for any of those necessarily, but we don't know what they are.

By not posting them until after this bill is voted on sometime between now and the end of the year, we are going to be voting blind one more time at the specific request of the majority. It is your responsibility, Madam Speaker, through the chairman of the Appropriations Committee, to have posted these earmarks on the Internet so that those of us could look at them and see them.

We are not going to see those. What has been stuck in here in the dark of night between last summer when we passed the bill and when we are going to vote on this afternoon? Why are there things in there that's going to embarrass the majority before we take this vote?

Madam Speaker, I urge my colleagues to vote against this rule and against the underlying bill on the "son of stimulus" bill.

Ms. PINGREE of Maine. Madam Speaker, I yield 3 minutes to the gentleman from New York, a member of the Committee on Rules, Mr. ARCURI.

Mr. ARCURI. I would like to thank my colleague from Maine for yielding.

I rise today in support of consideration of H.R. 3326, the Department of Defense Appropriations Act and the underlying rule, not for the reasons just stated by my friend from Texas, but because the bill ensures that our brave men and women who are in the military are paid what they deserve to be paid for defending us, that they have the tools to fight the war on terror and that they are able to do the things that we ask them to do, and that is to fight terror, to keep us safe. That is why I support this bill and the underlying rule.

I would like to thank and commend the members of the Appropriations Committee in the House and Senate, their counterparts for bringing before us this bipartisan approach that puts the preparedness and safety of our troops first, and also continues President Obama's pledge to put the cost of the war on the books.

The bill does not include funding for an escalation of troops in Afghanistan, and I have heard some of my colleagues on the other side of the aisle criticize that we may have to consider a supplemental measure to provide funds for that purpose. I want to make it very clear. There is a difference between requesting supplemental funding to address changes on the ground and simply using the supplemental appropriation acts to fund the majority of the wars in Iraq and Afghanistan as we have done under the prior administration.

The House passed our version of the Defense Appropriations Act on July 30 of this year. At that time we determined the amount of spending necessary for the ongoing operation in Iraq and Afghanistan. Since that time, our generals have stated that they believe conditions in Afghanistan warrant additional troops. President Obama is listening to those generals in the field and may require additional funds. However, that is what supplemental appropriations acts are intended for, responding to changes in circumstances throughout the year, not for funding ongoing operations.

In addition to ensuring that our troops have first-class weapons and equipment, the bill also includes other important aspects that improve transparency and accountability of the Defense Department procurement process.

For instance, congressional earmarks account for only 1 percent of the total funding of this bill. In addition, for the first time, this House-Senate agreement retains the requirement that has been included in every House-passed appropriations bill this year that requires any earmark for a private company to be competed.

I applaud the leadership of our side of the Capitol to institute this important new measure of accountability in the earmark process, and I hope that it will become a part of all final spending bills as we go forward.

I urge my colleagues to support this rule and the bill.

Ms. FOXX. Madam Speaker, I now would like to yield 3 minutes to another distinguished colleague from Texas (Mr. HENSARLING).

Mr. HENSARLING. I thank the gentlewoman for yielding.

Madam Speaker, apparently the House is due to adjourn for the year today. Before it does, the House will apparently present the American people with a number of Christmas gifts wrapped up in one nice neat little package represented by this rule.

The first Christmas gift that the majority is giving the American people is the fifth, fifth increase in the debt ceiling since they took control of Congress, raising the debt ceiling an additional \$290 billion, more debt to be placed upon the backs of our children and grandchildren.

The second gift for the American people at Christmas time is, guess what, yet another stimulus bill, this one weighing in at \$150 billion. I lose track, Madam Speaker. I don't know if this is stimulus 4, stimulus 5. It's a little bit like those old "Friday the 13th" movies: it just doesn't go away.

The next gift, Madam Speaker, is kind of a recycled gift, one that they have given the American people all year and that is unemployment, double-digit unemployment under the economic policies of this administration, under this Democratic controlled Congress. They continue to give the American people double-digit unemployment.

The rule that is before us, Madam Speaker, allows for more of the same. I would hope, I would hope that one day, for the sake of the country, that my friends on the other side of the aisle will realize that you cannot spend your way into more jobs, you cannot borrow your way into more jobs, you cannot bail out your way into more jobs. That is not the recipe.

We suffer from double-digit unemployment, not through a lack of bailouts in spending and debt, which is the hallmark of this Congress. If we truly want to create jobs, Madam Speaker, the first thing we have to do is show the American people that we are serious about this sea of red ink. Nobody wants to launch a new business enterprise in an economy that is going to be socked with debt and taxes, impossible double-digit inflation as the debt has to be monetized.

The uncertainty and cost of a nationalized health care system, which is going to cost the American people their freedom, their opportunities—not to mention a trillion dollars. There is a \$600 billion energy tax passed by the majority. Last week we just passed the Perpetual Wall Street Bailout and Credit Contraction Act of 2009.

Madam Speaker, where does it all end? If we want jobs, we have to reject

the failed policies. This rule brings more of the same. Let's vote against the spending, against the debt, against the bailouts.

Ms. PINGREE of Maine. Madam Speaker, before I yield to one of my colleagues, I do want to mention one point of concern I have in the bill.

The conference agreement on H.R. 3326 is the first step towards cutting wasteful defense spending, but it is by no means perfect. It is no means the last step that we must take. The conference agreement provides \$465 million for the development of an alternative engine for the F-35 Joint Strike Fighter. This provision represents businesses as usual in Washington for providing funds for an engine that's already being built and already being built well.

There is no need to devote our precious Federal dollars to a wasteful alternative engine program at this time when Americans are struggling to find jobs to pay their medical bills and to put food on the table. Every defense bill that we spend wisely contributes to our national security, and every defense dollar that we waste hampers our economic security.

Madam Speaker, I would like to yield 2 minutes to the gentleman from Illinois (Mr. HARE).

Mr. HARE. Madam Speaker, I rise in strong support of the rule and the underlying bill, the Jobs for Main Street Act.

First I would like to thank all the members of the Democratic leadership for their hard work in putting together a jobs bill, the Jobs for Main Street Act. It is an important step forward.

As we all know, since December of 2007, our Nation has faced the greatest economic crisis since the Great Depression. As a result, 15 million, or 10 percent, of our Americans are out of work. The Jobs for Main Street Act is an important first step in reemploying America and making our families more secure.

Specifically, I want to call attention to several principles that I have championed that have been included in this bill, such as extending the COBRA subsidy. This is a critical safety net for the millions of unemployed across this country, protecting and expanding our Nation's critical workforce with teachers, police and firefighters; putting people to work to improve and rehabilitate our Federal, State and local public lands.

I would also like to commend Chairman OBERSTAR for his leadership on the transportation and infrastructure portion of this bill. There is no better way to invest in our economy and create jobs than by investing in infrastructure.

For example, only 4 percent of the Recovery Act went to programs under the jurisdiction of Chairman OBERSTAR. However, that 4 percent for infra-

structure has created 25 percent of the jobs under the Recovery Act. This is a testament to the effectiveness of investing in infrastructure. Over half of this bill is dedicated to investing in our roads, bridges, trails, transit systems, airports, and waterways.

Madam Speaker, I look forward to working with leadership to ensure that this Congress passes this bill and takes further action in the next session to put Americans back to work.

Ms. FOXX. Madam Speaker, I now would like to yield to a third colleague from Texas (Mr. CULBERSON), who has come to speak against this rule, one of the most fiscally conservative Members of the House, such time as he may consume.

Mr. CULBERSON. Madam Speaker, I want us to slow down for just a minute and think about what is happening here today. The House is scheduled to vote today on a package of four massive bills, spending over \$1.1 trillion hard-earned tax dollars that will be paid for by additional debt that our children must repay.

□ 1200

Worst of all, these bills were only posted on the Internet last night for the American people to see at about 11 o'clock, so literally 13 hours for the public, for the taxpayers, for the Members of Congress to read these bills spending over \$1.1 trillion. And I've scouted around, Madam Speaker, and the only copy of the bill before us, the Defense bill, that anybody can find is the one up there on the Clerk's desk.

These bills were put up on the Internet 13 hours ago. They're not even outside in the House lobby. And it's always tradition that at an absolute minimum that Members of Congress would be able to physically read the bill outside in the lobby. But this is all I found: this empty box outside in the lobby is all we have before us today. And \$1.1 trillion spent in a little over 12 hours. Why the rush? Why are we rushing to do this? So Speaker PELOSI can catch a plane to Copenhagen.

We're spending \$1.1 trillion on top of the \$6.7 trillion that this liberal majority has already spent this year. That means in the course of 12 months, this liberal majority in Congress has already spent in this House nearly \$8 trillion in 12 months. It's unprecedented. It is unsupportable. It will bankrupt this Nation and crush our children under a burden of debt that they cannot possibly repay without crushing tax burdens and massive sacrifices. We may be the first generation in American history that leaves our children worse off than the world we inherited from our parents. It's just unacceptable and outrageous.

My colleague Representative BRIAN BAIRD and I, Madam Speaker, introduced legislation earlier this year to require the House to lay these bills

out, every bill, for at least 72 hours before they can be voted on on the floor.

And I just would ask the Speaker a simple question: what's more important, giving the American people time to read these bills, to give the Members of Congress time to read these bills, or to catch an airplane to a global warming conference? That's really what's going on here today.

I would ask Speaker PELOSI in all sincerity, Madam Speaker, please cancel your flight. Give the American people time to read these spending bills.

It's time to stop forcing Congress to vote blind.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members are reminded to direct their remarks to the Chair.

Ms. PINGREE of Maine. Madam Speaker, I yield 2 minutes to the gentleman from Washington (Mr. DICKS), a member of the Committee on Appropriations.

Mr. DICKS. I wanted to discuss a change that was made this year in the appropriations process, and I just want to read it into the RECORD to correct something that was said previously.

"Each congressionally directed spending item specified in this Act"—this is the defense bill—"or the explanatory statement regarding this Act that is also identified in Senate report 111-74 and intended for award to a for-profit entity shall be subject to acquisition regulations for full and open competition on the same basis as each spending item intended for a for-profit entity that is contained in the budget request of the President.

"Exceptions: Subsection (a) shall not apply to any contract awarded, (1), by a means that is required by Federal statute, including for a purchase made under a mandated preferential program; (2), pursuant to the Small Business Act (15 U.S.C. 631 et seq.); or (3), in an amount less than the simplified acquisition threshold described in section 302A(a) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 252a(a)).

"Any congressionally directed spending item specified in this Act or the explanatory statement regarding this Act that is intended for award to a for-profit entity and is not covered by the competition requirement specified in subsection (a), shall be awarded under full and open competition, except that any contract previously awarded under full and open competition that remains in effect during fiscal year 2010 shall be considered to have satisfied the conditions of full and open competition.

"In this section, the term 'congressionally directed spending item' means the following:

"A congressionally directed spending item, as defined in rule XLIV of the Standing Rules of the Senate; a congressional earmark for purposes of rule XXI of the House of Representatives."

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. PINGREE of Maine. I yield the gentleman an additional 30 seconds.

Mr. DICKS. I think this clarifies the statement that was made previously by the gentleman from Arizona.

Ms. FOXX. Madam Speaker, the West continues to be well-represented here. I now yield 3 minutes to our colleague from Arizona (Mr. FLAKE).

Mr. FLAKE. I thank the gentleman for yielding.

I had hoped that the gentleman would rise and explain what he just explained.

Now, I will gladly yield to him to explain why this would only apply to earmarks by House Members alone and why the competition requirements don't apply to earmarks that are jointly requested by a House and Senate Member. If we're hanging our hat on language that requires that these earmarks be subject to competition, then surely we would extend it to anything that had our name on it, but we're not.

My understanding is that the language only applies to those earmarks that are requested solely by a House Member, and that if you have a Senate Member on your earmark request, then it is not subject to competition. The language just explained does not apply to it. So you can't have it both ways.

Now, I will argue that it doesn't matter anyway, because right now if you talk to the Department of Defense, and I have, we've held meetings in my office with the procurement officials, and we've asked them, How does this work when these earmarks come over? Are they subject to competition? They said, Yes, we follow the rules. Yet when you ask them to do a cursory examination or a full-fledged examination of those earmarks that were requested in prior years, you will find an uncanny alignment, as you might expect, between the intended recipient and those who actually got the earmarks in the end.

So you can say until you're blue in the face we're going to subject these to full and open competition. The Department of Defense already says that. And these articles that I already talked about, these scandals that are currently underway are under a policy where the Department of Defense already says we subject these to full and open competition. But let me tell you, if an earmark comes over from a Member of Congress, particularly from those on the Appropriations Committee—and I should explain that the majority of these earmarks, a disproportionate number, are from the powerful Members on the Appropriations Committee—believe me, those procurement officials at the Department of Defense take that into account. They know who butters their bread, and they know that they'd better award this contract to the intended

recipient or they might not get funded the next year. If that's not the case, why have we seen so much an uncanny alignment between the intended recipient and those who actually got the earmark in the first place?

So, first, again let me say if we're hanging our hat on the language that says these are subject to competition, then why wouldn't we apply it to every earmark that is contained in this bill? It doesn't apply to Senate earmarks, nor does it apply to earmarks requested by both Senate and House Members. So are we saying, well, we're going to subject some to competition and that means something, but these others, yes, it's okay if there are no-bid contracts? That simply doesn't work.

Ms. PINGREE of Maine. Madam Speaker, I yield 1 minute to the gentleman from Washington (Mr. DICKS).

Mr. DICKS. Again I want to just say this is an initiative that Mr. OBEY put into place this year. This is the first year we've had this initiative. And what it says is that if an earmark is directed to a for-profit company, there must be full and open competition. This was extended to the United States Senate as well.

So, again, the gentleman from Arizona misleads the House of Representatives on a very important and a very sensitive matter.

There ought to be competition on these things, and I thought the gentleman would recognize how important it was and compliment Mr. OBEY for his initiative, but I don't hear that.

Ms. FOXX. Madam Speaker, having a charge of misspeaking is very serious. I would like, therefore, to yield such time as he may consume to the gentleman from Arizona (Mr. FLAKE) to speak again on the rule.

Mr. FLAKE. I thank the gentleman for her indulgence here.

This is important, and I would ask the gentleman and would yield to him to respond, is it your understanding, then, that this language, this new competition language, applies to Senate earmarks as well as earmarks requested by both House and Senate Members?

Mr. DICKS. It is my understanding that the language that came out of conference applies both to the House and Senate earmarks for for-profit companies requiring competition. There are some little variations because of Section 8(a) and other restrictions that the Senate still claims that should be followed, but this is a major step forward, and I think Mr. OBEY deserves great credit for this. So I just want to clear this up, that on district directed for-profit companies there is full and open competition.

Mr. FLAKE. I thank the gentleman. Let me simply say if that is the case, that is in conflict with the agreement that we understand to be in effect.

The agreement we understand to be in effect and what I was told is that

only those earmarks that are requested solely by a House Member has the language that applies to competition. If it is an earmark requested by both a House and a Senate Member, then it does not apply this year, and supposedly it will next year, although obviously there are no guarantees. We can't bind a future session. And that if it is a Senate earmark, they didn't agree to this at all. That's what we understand. If there is some difference there, then please let's have the chairman of the Appropriations Committee explain it.

But, again, the question here is if that language is so important, then why wouldn't we apply it across the board?

And doesn't it strike everybody a little bit funny that you have an earmark that, when a Member requests it from the Appropriations Committee, they say this earmark of this amount, \$500,000, \$2 million, \$2.5 million, whatever, is to go to this company at this address? It's that specific. It goes to that company at that address.

Now, the Appropriations Committee will say we're just providing a look-see, and so the Department of Defense can say, well, we didn't know that that company existed but now we do, and we're doing nothing more than simply giving them a look-see and giving them a chance to see which companies those are. I think that doesn't quite pass the laugh test.

Mr. DICKS. Will the gentleman yield?

Mr. FLAKE. Yes, I will.

Mr. DICKS. I think the gentleman is trying to confuse himself.

Clearly what we're talking about here is that there has been a decision to have full and open competitions. The gentleman has been an advocate for that. It doesn't matter how it's written in. The law says "full and open competition." So please don't try to confuse yourself and the House and the American people. This is a reform that you've been advocating for. You ought to be saying thank you for doing it, and it's the right thing to do. But you'd rather have the issue than to resolve something.

Mr. FLAKE. I thank the gentleman for explaining my motives.

But in truth what I would like to see is no more earmarks in the defense bill because when you have an earmark, you don't have full and open competition. What I'm talking about is I would not like to see no-bid contracts for private companies in the defense bill. When you have that, I don't know how in the world you can say we have full and open competition.

Like I say, I don't believe that that language means much at all, but to the extent that you believe it does mean something, then at least you should apply it across the board, not just to earmarks sought by Members of the

House solely but those earmarks that are requested by Senate Members as well. How can we say with a straight face that, hey, we're doing things right because we're applying that competition language to us, but all you have to do is to get a Senate Member to request it along with you and then you don't have to subject it to full and open competition. It simply doesn't make sense, Madam Speaker.

I thank the gentlewoman for her indulgence and I appreciate this discussion.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair reminds Members to direct their remarks to the Chair.

Ms. PINGREE of Maine. Madam Speaker, I yield 3 minutes to the gentlewoman from Texas (Ms. JACKSON-LEE).

□ 1215

Ms. JACKSON-LEE of Texas. Let me thank the distinguished gentlelady from Maine.

Madam Speaker, I wish to start by wishing America a very Merry Christmas, and to many other Americans, a happy holiday. And I'd like to give my thanks to the Rules Committee and the staff of the Rules Committee for doing an enormous job. Our chairwoman, LOUISE SLAUGHTER, has been at the forefront of the major successes we have had on behalf of the American people. I offer my appreciation as well for Chairman JOHN MURTHA, who, in his astuteness and commitment to the men and women of the United States military, finds many of us today supporting the Defense appropriations bill, even as we begin to consider the next steps in Afghanistan.

But why am I standing here today to be able to speak to my colleagues and the American people? One, because history gets distorted. We are in this predicament because the last administration of Republican leadership took away our surplus that had been created in the 1990s. They dashed and dashed and destroyed and devastated. Isn't it interesting that you'd come now to complain about a leadership, President and Democratic leadership in Congress, that have had to make the political sacrifice to ensure that Americans can work?

And so let me just set the record straight. The American Recovery and Reinvestment Act—that secured no Republican votes—created 3.5 million jobs and gave 95 percent of American workers a tax cut. And today, as we speak, we are cutting the job loss every single month. Why I'm standing here today is because I'm enthusiastically supporting this rule, because we will then pass a jobs bill, and I will be able to go home to those in the 18th Congressional District who told me over the Thanksgiving holiday as I was participating in feeding those on Thanks-

giving Day, I lost my job from a major corporation. Well, I'm going to tell them that because of infrastructure funding, \$48 billion, in fact, that we will be able to invest in highways and mass transit. One billion dollars in Federal investments to highways creates 27,800 jobs. Is there something wrong with that? The wrongness of it is that the other side is not thinking about the American people, and has not had a good thought about how to invest in America.

This jobs bill is going to keep States from cutting teachers and police and firefighters, and it's going to provide job training. I am proud that they have taken my ideas and many of our ideas, but work that I have done on summer youth jobs. They're going to put 150,000 people in job training positions. One of the ideas that can be incorporated that I have put forward in a bill is to make sure that people can keep their unemployment while they are in a job training and receive a stipend. Dignity, jobs, is what we're talking about.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. PINGREE of Maine. I yield the gentlewoman 15 additional seconds.

Ms. JACKSON-LEE of Texas. And then, my small business friends, once and for all we'll answer your question about getting loans. But the big thing is, Riverside General Hospital, because of the astuteness of those who worked on the Defense bill, will get \$1 million for the first time, an African American hospital, to help our soldiers with post-traumatic stress disorder. I have worked on this for 4 years. It's a celebration. Merry Christmas to America.

Ms. FOXX. Madam Speaker, I want to say thank you to our colleague from Arizona for his very valuable input on the issue of earmarks, and say that I join him in opposing all earmarks in any of our bills until we fix this broken system. And I think what we need is a study of how these specific earmarks then get awarded, since there seems to be open competition. And I would welcome the majority to institute such a study and just see how open the competition is.

I now yield 3 minutes to my colleague from Iowa (Mr. KING).

Mr. KING of Iowa. Madam Speaker, before I take up the subject that I came here to talk about, I can't help but remark that the gentlelady from Texas said that the people on our side had not had a good thought about how to invest in America. Not a good thought. I would submit that the good thoughts are right there on the immigration naturalization flash cards. What is the economic system of America? Flip the card over, and if you want to be naturalized as a citizen, you need to answer the question this way. Free enterprise capitalism.

Free enterprise capitalism has been the enemy of this administration. Tim

Geithner said that free enterprise capitalism is what brought us to the brink of ruin. Can you imagine tearing asunder the very foundation, one of the principal pillars of American exceptionalism, and arguing that those that have stood up and defended it and refurbished it somehow hadn't had a good thought about America.

I would ask again, why do we need African American hospitals? Why can't we have hospitals that take care of God's children? Why can't we all be members of the human race? Why is there any legislation that's brought into this Congress that sets aside special privileges for people based upon their skin color rather than the content of their character? I think that this is the wrong path. We've got to embrace each other as individuals. This wallowing in self-guilt has gone on and on, Madam Speaker.

We had a President—Clinton—that went and apologized to entire continents. Now we have a President Obama that has apologized to entire continents as well for Americanism. In this bill, on page 109 of the bill, we have another apology, an apology from Congress. First, it's got some good things in there. It talks about Native Americans. It recognizes the special legal and political relationship that Indian tribes have in the United States. That's good. It commends the Native Peoples for the thousands of years they have stewarded and protected this land. Part of that's real good. Part of that record's not real good. This doesn't say so. In fact, the third piece says it recognizes that there have been years of official depredations, ill-conceived policies, and the breaking of covenants by the Federal Government regarding Indian tribes. That's true. There's also another side to that thing that isn't negative.

And now it says, on page 109 of the bill, we, as Congress, ask the President—the United States, acting through Congress, actually—to apologize on behalf of the people of the United States to all Native Peoples for the many instances of violence, maltreatment, and neglect inflicted on Native Peoples by citizens of the United States; as if there were no guilt on the other side.

Madam Speaker, I would direct the attention of this body to the Declaration of Independence. And there, on paragraph 29 of 32, as I count them, it says, and I'm going to stop short of violating the political correctness, but I am going to read directly from the Declaration of Independence.

He has excited domestic insurrections among us—speaking of King George—and has endeavored to bring on the inhabitants of our frontiers, and there I stop and commend the text of the Declaration of Independence which apparently violates this bill.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. KING of Iowa. I urge the rejection of this rule for this and many other reasons.

Ms. PINGREE of Maine. Madam Speaker, I yield 2 minutes to the gentleman from Maryland (Mr. CUMMINGS).

Mr. CUMMINGS. Madam Speaker, I rise today in support of the rule and the underlying bill, H.R. 2847, the Jobs for Main Street Act.

As a member of the Transportation and Infrastructure Committee and chairman of the Coast Guard and Maritime Transportation Subcommittee, I've seen hundreds of thousands of jobs created through infrastructure funding. I've seen improvements created by that funding slow the recession and help begin our recovery. However, that recovery is simply not complete. We still have far too many Americans without jobs.

The COBRA, unemployment and food stamp extensions in this bill are crucial to help those who are in need or who have lost a job through no fault of their own. These small lifelines can be immense to those who are suffering. For some Americans who still face foreclosure, this funding can help keep them in their homes so that the loss of their job does not result in the further devastation of an entire family.

Finally, the jobs we create through our work today must be open to all Americans, including the minority communities who are being particularly decimated by unemployment, foreclosure and a crisis of credit.

Before we passed the Recovery Act, I requested bonding assistance, allowing small and disadvantaged businesses to obtain the insurance they needed to win contracts to become prime contractors and to hire workers. The bonding assistance program created in that act led to much-needed jobs in minority communities, and so I requested further such assistance in this act. The \$20 million included in this bill today will ensure that jobs created will be available to every American and every business in every community so they can compete on an even playing field.

I support fair competition for government projects and the jobs that they will create. I encourage all my colleagues to support the underlying bill and the rule that will bring this matter to the floor.

Ms. FOXX. Madam Speaker, you know, I'm sitting here listening to the crocodile tears, particularly of my colleague from Maine who spoke earlier about the many people in her district who want to have jobs. And it is the very policies that she and her party have passed in this session of Congress that have caused those people to lose their jobs. What we need to do is let the American people keep their money. Their money. It is not the government's money. It is the hard-earned money of those who work in this country.

And let me point out, even President Obama has said, and I'm going to quote, November 18, 2009: It is important, though, to recognize if we keep on adding to the debt, even in the midst of this recovery, that at some point people could lose confidence in the U.S. economy in a way that can actually lead to a double dip recession.

But what are we doing today? Adding to the debt, with the support of the President. Do they think the American people are not paying attention? To the contrary, more than ever, the American people are paying attention to what's going on in this Congress, and they have spoken in many, many ways. They have spoken through the polls, they have spoken through election polls in terms of where they're voting, and they're telling us every day this is not what they want this Congress to be doing.

They also are aware of the fact that this Congress is breaking every promise that it made before the majority was elected. And I want to say, with apologies to Elizabeth Barrett Browning and her sonnet No. 43, how many ways can we count the promises that have been broken? Many, many ways. Too many ways to talk about today.

But let me give some examples—one from Majority Leader HOYER:

"I think that is a very important pursuit. Our committees and Members are served on both sides of the aisle by pursuing regular order. Regular order gives to everybody the opportunity to participate in the process in a fashion which will effect, in my opinion, the most consensus and best product."

Again, a letter to Majority Leader HOYER from members of the Democrat Blue Dog and New Democratic Caucuses which said:

"Committees must function thoroughly and inclusively, and cooperation must ensue between the parties and the Houses to ensure that our legislative tactics enable rather than impede progress. In general, we must engender an atmosphere that allows partisan games to cease and collaboration to succeed. We look forward to working with you to restore this institution."

And what are we getting? Just the opposite. Even Speaker PELOSI endorsed the idea of regular order with her spokesperson stating at the time:

"The Speaker prefers to consider legislation in regular order and the committees of jurisdiction held hearings and markups on the current economic recovery bill. In a few cases, because of urgent financial crises, the leadership agreed to use expedited procedures."

Lest we forget, promises Democrats made in their 2006 document entitled *A New Direction for America*, which promised that:

"Bills should be developed following full hearings and open subcommittee and committee markups with appropriate referrals to other committees.

Members should have at least 24 hours to examine a bill prior to consideration at the subcommittee level."

And we've pointed out it's barely been 12 hours since this bill, the bill underlying this rule, was presented.

"Bills should generally come to the floor under a procedure that allows open, full and fair debate, consisting of a full amendment process that grants the minority the right to offer its alternatives, including a substitute."

As Mr. DREIER pointed out earlier, this is the first Congress in the history of this country that has not allowed that.

□ 1230

"Members should have at least 24 hours to examine bill and conference report text prior to floor consideration. Rules governing for debate must be reported before 10 p.m. for a bill to be considered the following day."

We can go on and on and on about promises broken. The President said bills would be available for 72 hours. The President promised he would post bills 5 days before signing them. He said he would read every bill line for line, and he said there would be no earmarks. He would veto bills with earmarks.

This is a bill with 1,700 earmarks. Is he going to veto the bill? I doubt it.

So here we have one promise after another that's broken. How can the American people believe anything that is said by the other side after this?

Again, they're paying attention. I know they're paying attention, and I believe that there will be consequences to the fact that these promises have been broken.

Madam Speaker, I will enter into the RECORD a letter written by Republicans, 173 of us, to Speaker PELOSI on December 11, 2009, asking that we not continue this practice.

WASHINGTON, DC,

December 11, 2009.

Hon. NANCY PELOSI,
Speaker of the House, The Capitol,
Washington, DC.

DEAR MADAM SPEAKER: We write today to express our strong opposition to reports that the Democrat Majority is considering attaching unrelated and extremely controversial proposals, such as an increase in the public debt limit, to the Fiscal Year 2010 Defense Appropriations bill. We object to maneuvers to use our troops as leverage to enact proposals that the Majority either cannot pass on their own or for which they wish to avoid directly voting on and we will oppose a Defense Appropriations package that includes such provisions.

Unfortunately, there seems to be a pattern developing this year of using legislation that supports our men and women in uniform to pass other contentious proposals that are extraneous to our troops. We should supply those who risk their lives for our country with the resources they need without conditions and without using them to accomplish other legislative goals. House Republicans stand ready to help the Majority enact a defense bill that meets the needs of our troops,

but we will not assist your effort to use the troops to enact an increase in our national debt limit so as to finance the irresponsible spending policies of your party.

With that, I reserve the balance of my time.

Ms. PINGREE of Maine. Madam Speaker, I rise to discuss at least one thing my colleague and friend from North Carolina mentioned. I'm a Northerner, so I can't claim to be an expert on crocodiles, but I assume that when you're talking about crocodile tears, you're talking about being insincere, and I want to say I receive letters from my constituents every day about the urgency of what we are doing today. And I have to say that like it or not, I cannot get through the pile of letters without crying tears for real. It's very, very difficult to think about the small businesses, laid-off individuals, individuals worrying about their jobs, what they're going through in my district and the urgency with which they view the actions that we are about to take today and the importance of moving on from this rule and getting to the actual debate.

I want to read one of them that is in front of me here before I yield a little time to my colleague from California.

This one says: "My housemate and I were both laid off, me in September 08 and she in February 09. We have applied diligently for work in and around Portland with no luck. We had to cash in our meager 401(k)'s, and have been very thankful for the COBRA subsidy so that we could afford insurance during this most harsh of times. But our money is running out fast.

"As you know, the subsidy is about to expire, and we cannot afford the huge jump in premium. We cannot afford both the mortgage and the insurance. We cannot afford our prescriptions, and our health care will be at stake, as if things weren't bad enough. We will lose our home.

"PLEASE help push through the COBRA extension and continuation of the ARRA COBRA subsidy. It is an immediate fix for so many families who will surely gain employment over the next 6 months now that the economy has finally taken an upswing."

Madam Speaker, those are the things that make us all cry real tears and make us want to pass this rule and go on to passing this legislation today.

Madam Speaker, I yield 2 minutes to the gentleman from California (Mr. GARAMENDI).

Mr. GARAMENDI. Madam Speaker, I just heard a fine exposition on promises. There is one promise that overrides all of the others, and that's the promise that I think each one of us made to our constituents to do everything that we possibly could to see that they were well cared for and that this government was acting on their behalf. If we are simply looking at a rule and whether it's going to be ap-

plied and that becomes the most important promise of all, then we are forgetting about the well-being of Americans, of whom there are 35 million unemployed, of whom there are, in my district, tens of thousands, more than one out of eight either unemployed or underemployed. My promise to those people is that I will do everything I possibly can to see that they have a job.

This rule allows us to get to that. It allows us to get to the point of providing a jobs program that's going to provide at least \$35 billion for highways and transit, that's going to provide some 500,000 young men and women the opportunity to have summer jobs, to expand AmeriCorps so that people can provide services and employment.

It's also going to take care of those who are unemployed, who, for no reason of their own, have found themselves out of a job. It's time for us to stand for them, and it's, frankly, time for us to move away from the notion of just providing those unemployment benefits to providing a job.

Far better that there be taxpayers than tax receivers. That's what this is about. It gives us an opportunity to do that, and we will do everything we possibly can on our side of the aisle to make the fundamental promise of making sure that the Federal Government is doing everything it possibly can to provide jobs and opportunities for businesses, for employment, and for taxpayers to actually have a job so they can pay taxes.

Ms. FOXX. Madam Speaker, I would just like to point out it's not the role of Federal Government to provide jobs. It's not our job to take money from some and give to others, to try to make them dependent on the government.

I urge my colleagues, Madam Speaker, to defeat the previous question so an amendment can be added to the rule. The amendment to the rule will provide for separate consideration of House Resolution 554, a resolution to require that legislation and conference reports be posted on the Internet for 72 hours prior to consideration by the House, and does not affect the bill made in order by the rule.

I ask unanimous consent to insert the text of the amendment and extraneous materials immediately prior to the vote on the previous question.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Ms. FOXX. I ask my colleagues to vote "no" on the previous question and the rule.

I yield back the balance of my time.

Ms. PINGREE of Maine. Madam Speaker, the legislation we are considering today is about investing in jobs. It is about investing in infrastructure,

and it is about rebalancing our economy. So it's not just the big banks and Wall Street firms that benefit from an economic recovery. This bill is about helping the American family.

This week, a New York Times/CBS News poll surveyed unemployed Americans. Not surprisingly, they found that being unemployed takes a toll far beyond what can be measured in dollars and cents. Half of the people surveyed said they had begun to suffer from depression and anxiety, half said the recession has caused them to make major life changes, and nearly half said they have seen changes in their children's behavior that they know is a result of their difficult financial situation.

We are not just helping men and women who've lost their job, who have suffered from uncertainty, emotional pain, and indignation, but we are helping their families. We are helping their children. It is time for us to invest in the jobs and policies that will get the American Dream back on track and restore the promise of opportunity and prosperity for everyone.

I urge a "yes" vote on the previous question and on the rule.

The material previously referred to by Ms. FOXX is as follows:

AMENDMENT TO H. RES. 976

OFFERED BY MS. FOXX

At the end of the resolution, insert the following new section:

SEC. 32. On the third legislative day after the adoption of this resolution, immediately after the third daily order of business under clause 1 of rule XIV and without intervention of any point of order, the House shall proceed to the consideration of the resolution (H. Res. 554) amending the Rules of the House of Representatives to require that legislation and conference reports be available on the Internet for 72 hours before consideration by the House, and for other purposes. The resolution shall be considered as read. The previous question shall be considered as ordered on the resolution and any amendment thereto to final adoption without intervening motion or demand for division of the question except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Rules; (2) an amendment, if offered by the Minority Leader or his designee and if printed in that portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII at least one legislative day prior to its consideration, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read and shall be separately debatable for twenty minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit which shall not contain instructions. Clause 1(c) of rule XIX shall not apply to the consideration of House Resolution 554.

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not

merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the Floor Procedures Manual published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information form Congressional Quarterly's "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: "Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Ms. PINGREE of Maine. I yield back the balance of my time and move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Ms. FOXX. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on ordering the previous question will be followed by 5-minute votes on adoption of H. Res. 976, if ordered, and suspension of the rules with regard to H. Res. 905.

The vote was taken by electronic device, and there were—yeas 235, nays 193, not voting 6, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining on this vote.

□ 1311

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. LARSON of Connecticut. Madam Speaker, on rollcall No. 983, I was unavoidably detained and unfortunately missed the

vote. Had I been present, I would have voted "aye."

RECOGNIZING 70TH ANNIVERSARY OF RETIREMENT OF JUSTICE LOUIS D. BRANDEIS

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 905, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. COHEN) that the House suspend the rules and agree to the resolution, H. Res. 905.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 423, nays 1, not voting 10, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members have 2 minutes remaining in this vote.

□ 1317

So (two-thirds being in the affirmative) the rules were suspended and the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. LARSON of Connecticut. Madam Speaker, on rollcall No. 984, I was unavoidably detained and most unfortunately, missed the vote. Had I been present, I would have voted "yea."

PERSONAL EXPLANATION

Mr. RADANOVICH. Madam Speaker, I was unable to make today's votes on the House floor due to a family illness. Had I been present I would have voted as follows:

"Nay" on rollcall vote No. 982, on ordering the previous question on the rule providing consideration for H.R. 3326, H.J. Res. 64, H.R. 4314, and H.R. 2847.

"No" on rollcall vote No. 983, on the adoption of H. Res. 976, the rule for consideration for H.R. 3326, H.J. Res. 64, H.R. 4314, and H.R. 2847.

"Yea" on rollcall vote No. 984, on the motion to suspend the rules and agree to H. Res. 905, recognizing the 70th anniversary of the retirement of Justice Louis D. Brandeis from the United States Supreme Court.

DEPARTMENT OF DEFENSE
APPROPRIATIONS ACT, 2010

Mr. MURTHA. Madam Speaker, pursuant to House Resolution 976, I call up the bill (H.R. 3326) making appropriations for the Department of Defense for the fiscal year ending September 30, 2010, and for other purposes, with a Senate amendment thereto, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The Clerk will designate the Senate amendment.

The text of the Senate amendment is as follows:

Senate amendment:

Strike out all after the enacting clause and insert:

That the following sums are appropriated, out of any money in the Treasury not otherwise appropriated, for the fiscal year ending September 30, 2010, for military functions administered by the Department of Defense and for other purposes, namely:

TITLE I

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between

permanent duty stations, for members of the Army on active duty, (except members of reserve components provided for elsewhere), cadets, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$41,267,448,000.

MILITARY PERSONNEL, NAVY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$25,440,472,000.

MILITARY PERSONNEL, MARINE CORPS

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$12,883,790,000.

MILITARY PERSONNEL, AIR FORCE

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$26,378,761,000.

RESERVE PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 10211, 10302, and 3038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$4,286,656,000.

RESERVE PERSONNEL, NAVY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Navy Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$1,905,166,000.

RESERVE PERSONNEL, MARINE CORPS

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders class, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$611,500,000.

RESERVE PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 10211, 10305, and 8038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$1,584,712,000.

NATIONAL GUARD PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under section 10211, 10302, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$7,535,088,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under section 10211, 10305, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$2,923,599,000.

TITLE II

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed \$12,478,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes, \$30,667,886,000.

OPERATION AND MAINTENANCE, NAVY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed \$14,657,000 can be used for emergencies and extraordinary expenses, to

be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes, \$34,773,497,000.

OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Marine Corps, as authorized by law, \$5,435,923,000.

OPERATION AND MAINTENANCE, AIR FORCE

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law; and not to exceed \$7,699,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes, \$33,739,447,000.

OPERATION AND MAINTENANCE, DEFENSE-WIDE
(INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law, \$28,205,050,000: Provided, That not more than \$50,000,000 may be used for the Combatant Commander Initiative Fund authorized under section 166a of title 10, United States Code: Provided further, That not to exceed \$36,000,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes: Provided further, That of the funds provided under this heading, not less than \$29,732,000 shall be made available for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$3,600,000 shall be available for centers defined in 10 U.S.C. 2411(1)(D): Provided further, That none of the funds appropriated or otherwise made available by this Act may be used to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the service headquarters of one of the Armed Forces into a legislative affairs or legislative liaison office: Provided further, That \$6,667,000, to remain available until expended, is available only for expenses relating to certain classified activities, and may be transferred as necessary by the Secretary to operation and maintenance appropriations or research, development, test and evaluation appropriations, to be merged with and to be available for the same time period as the appropriations to which transferred: Provided further, That any ceiling on the investment item unit cost of items that may be purchased with operation and maintenance funds shall not apply to the funds described in the preceding proviso: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$2,582,624,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles;

travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$1,272,501,000.

OPERATION AND MAINTENANCE, MARINE CORPS
RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$219,425,000.

OPERATION AND MAINTENANCE, AIR FORCE
RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$3,085,700,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL
GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft), \$5,989,034,000.

OPERATION AND MAINTENANCE, AIR NATIONAL
GUARD

For expenses of training, organizing, and administering the Air National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; transportation of things, hire of passenger motor vehicles; supplying and equipping the Air National Guard, as authorized by law; expenses for repair, modification, maintenance, and issue of supplies and equipment, including those furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau, \$5,857,011,000.

UNITED STATES COURT OF APPEALS FOR THE
ARMED FORCES

For salaries and expenses necessary for the United States Court of Appeals for the Armed Forces, \$13,932,000, of which not to exceed \$5,000 may be used for official representation purposes.

ENVIRONMENTAL RESTORATION, ARMY
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$430,864,000, to remain available until transferred: Provided, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Army, or for similar purposes, transfer the funds made

available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, NAVY
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Navy, \$285,869,000, to remain available until transferred: Provided, That the Secretary of the Navy shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Navy, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Navy, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, AIR FORCE
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Air Force, \$494,276,000, to remain available until transferred: Provided, That the Secretary of the Air Force shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Air Force, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Air Force, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE
(INCLUDING TRANSFER OF FUNDS)

For the Department of Defense, \$11,100,000, to remain available until transferred: Provided, That the Secretary of Defense shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of Defense, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of Defense, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided fur-

ther, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, FORMERLY USED
DEFENSE SITES
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$307,700,000, to remain available until transferred: Provided, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris at sites formerly used by the Department of Defense, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC
AID

For expenses relating to the Overseas Humanitarian, Disaster, and Civic Aid programs of the Department of Defense (consisting of the programs provided under sections 401, 402, 404, 407, 2557, and 2561 of title 10, United States Code), \$109,869,000, to remain available until September 30, 2011.

COOPERATIVE THREAT REDUCTION ACCOUNT

For assistance to the republics of the former Soviet Union and, with appropriate authorization by the Department of Defense and Department of State, to countries outside of the former Soviet Union, including assistance provided by contract or by grants, for facilitating the elimination and the safe and secure transportation and storage of nuclear, chemical and other weapons; for establishing programs to prevent the proliferation of weapons, weapons components, and weapon-related technology and expertise; for programs relating to the training and support of defense and military personnel for demilitarization and protection of weapons, weapons components and weapons technology and expertise, and for defense and military contacts, \$424,093,000, to remain available until September 30, 2012: Provided, That of the amounts provided under this heading, not less than \$15,000,000 shall be available only to support the dismantling and disposal of nuclear submarines, submarine reactor components, and security enhancements for transport and storage of nuclear warheads in the Russian Far East and North.

DEPARTMENT OF DEFENSE ACQUISITION
WORKFORCE DEVELOPMENT FUND

For the Department of Defense Acquisition Workforce Development Fund, \$100,000,000.

TITLE III
PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment,

appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$5,244,252,000, to remain available for obligation until September 30, 2012.

MISSILE PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$1,257,053,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF WEAPONS AND TRACKED
COMBAT VEHICLES, ARMY

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$2,310,007,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF AMMUNITION, ARMY

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$2,049,995,000, to remain available for obligation until September 30, 2012.

OTHER PROCUREMENT, ARMY

For construction, procurement, production, and modification of vehicles, including tactical, support, and non-tracked combat vehicles; the purchase of passenger motor vehicles for replacement only; and the purchase of eight vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned

equipment layaway; and other expenses necessary for the foregoing purposes, \$9,395,444,000, to remain available for obligation until September 30, 2012.

AIRCRAFT PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$18,079,312,000, to remain available for obligation until September 30, 2012.

WEAPONS PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$3,446,419,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$814,015,000, to remain available for obligation until September 30, 2012.

SHIPBUILDING AND CONVERSION, NAVY

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof, plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long lead time components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows:

Carrier Replacement Program, \$739,269,000;
Carrier Replacement Program (AP), \$484,432,000;
NSSN, \$1,964,317,000;
NSSN (AP), \$1,959,725,000;
CVN Refueling, \$1,563,602,000;
CVN Refuelings (AP), \$211,820,000;
DDG-1000 Program, \$1,393,797,000;
DDG-51 Destroyer, \$3,650,000,000;
DDG-51 Destroyer (AP), \$328,996,000;
Littoral Combat Ship, \$1,080,000,000;
LPD-17, \$872,392,000;
LPD-17 (AP), \$184,555,000;

LHA-R (AP), \$170,000,000;
Intratheater Connector, \$177,956,000;
LCAC Service Life Extension Program, \$63,857,000;

Prior year shipbuilding costs, \$144,950,000;
Service Craft, \$3,694,000; and

For outfitting, post delivery, conversions, and first destination transportation, \$391,238,000.

In all: \$15,384,600,000, to remain available for obligation until September 30, 2014: Provided, That additional obligations may be incurred after September 30, 2014, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction: Provided further, That none of the funds provided under this heading for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign facilities for the construction of major components of such vessel: Provided further, That none of the funds provided under this heading shall be used for the construction of any naval vessel in foreign shipyards.

OTHER PROCUREMENT, NAVY

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of passenger motor vehicles for replacement only, and the purchase of seven vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$5,499,413,000, to remain available for obligation until September 30, 2012.

PROCUREMENT, MARINE CORPS

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine Corps, including the purchase of passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, \$1,550,080,000, to remain available for obligation until September 30, 2012.

AIRCRAFT PROCUREMENT, AIR FORCE

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things, \$13,148,720,000, to remain available for obligation until September 30, 2012.

MISSILE PROCUREMENT, AIR FORCE

For construction, procurement, and modification of missiles, spacecraft, rockets, and related

equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things, \$6,070,344,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF AMMUNITION, AIR FORCE

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$815,246,000, to remain available for obligation until September 30, 2012.

OTHER PROCUREMENT, AIR FORCE

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of passenger motor vehicles for replacement only, and the purchase of two vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; lease of passenger motor vehicles; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, \$17,283,800,000, to remain available for obligation until September 30, 2012.

PROCUREMENT, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of passenger motor vehicles for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, \$4,017,697,000, to remain available for obligation until September 30, 2012.

NATIONAL GUARD AND RESERVE EQUIPMENT

For procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons, and other procurement for the reserve components of the Armed Forces, \$1,500,000,000, to remain available for obligation until September 30, 2012: Provided, That the Chiefs of the Reserve and National Guard components shall, not later

than 30 days after the enactment of this Act, individually submit to the congressional defense committees the modernization priority assessment for their respective Reserve or National Guard component.

DEFENSE PRODUCTION ACT PURCHASES

For activities by the Department of Defense pursuant to sections 108, 301, 302, and 303 of the Defense Production Act of 1950 (50 U.S.C. App. 2078, 2091, 2092, and 2093), \$149,746,000, to remain available until expended.

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$10,653,126,000, to remain available for obligation until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$19,148,509,000, to remain available for obligation until September 30, 2011: Provided, That funds appropriated in this paragraph which are available for the V-22 may be used to meet unique operational requirements of the Special Operations Forces: Provided further, That funds appropriated in this paragraph shall be available for the Cobra Judy program.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$28,049,015,000, to remain available for obligation until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test and evaluation; advanced research projects as may be designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment, \$20,408,968,000, to remain available for obligation until September 30, 2011, of which \$2,500,000 shall be available only for the Missile Defense Agency to construct a replacement Patriot launcher pad for the Japanese Ministry of Defense.

OPERATIONAL TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, necessary for the independent activities of the Director, Operational Test and Evaluation, in the direction and supervision of operational test and evaluation, including initial operational test and evaluation which is conducted prior to, and in support of, production decisions; joint operational testing and evaluation; and administrative expenses in connection therewith, \$190,770,000, to remain available for obligation until September 30, 2011.

TITLE V

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Funds, \$1,455,004,000.

NATIONAL DEFENSE SEALIFT FUND

For National Defense Sealift Fund programs, projects, and activities, and for expenses of the

National Defense Reserve Fleet, as established by section 11 of the Merchant Ship Sales Act of 1946 (50 U.S.C. App. 1744), and for the necessary expenses to maintain and preserve a U.S.-flag merchant fleet to serve the national security needs of the United States, \$1,242,758,000, to remain available until expended: Provided, That none of the funds provided in this paragraph shall be used to award a new contract that provides for the acquisition of any of the following major components unless such components are manufactured in the United States: auxiliary equipment, including pumps, for all shipboard services; propulsion system components (engines, reduction gears, and propellers); shipboard cranes; and spreaders for shipboard cranes: Provided further, That the exercise of an option in a contract awarded through the obligation of previously appropriated funds shall not be considered to be the award of a new contract: Provided further, That the Secretary of the military department responsible for such procurement may waive the restrictions in the first proviso on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

TITLE VI

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For expenses, not otherwise provided for, for medical and health care programs of the Department of Defense as authorized by law, \$28,311,113,000; of which \$26,990,219,000 shall be for operation and maintenance, of which not to exceed one percent shall remain available until September 30, 2011, and of which up to \$15,093,539,000 may be available for contracts entered into under the TRICARE program; of which \$322,142,000, to remain available for obligation until September 30, 2012, shall be for procurement; and of which \$998,752,000, to remain available for obligation until September 30, 2011, shall be for research, development, test and evaluation.

CHEMICAL AGENTS AND MUNITIONS

DESTRUCTION, DEFENSE

For expenses, not otherwise provided for, necessary for the destruction of the United States stockpile of lethal chemical agents and munitions, to include construction of facilities, in accordance with the provisions of section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521), and for the destruction of other chemical warfare materials that are not in the chemical weapon stockpile, \$1,539,869,000, of which \$1,125,911,000 shall be for operation and maintenance, of which no less than \$84,839,000, shall be for the Chemical Stockpile Emergency Preparedness Program, consisting of \$34,905,000 for activities on military installations and \$49,934,000, to remain available until September 30, 2011, to assist State and local governments; \$12,689,000 shall be for procurement, to remain available until September 30, 2012, of which no less than \$12,689,000 shall be for the Chemical Stockpile Emergency Preparedness Program to assist State and local governments; and \$401,269,000, to remain available until September 30, 2011, shall be for research, development, test and evaluation, of which \$398,669,000 shall only be for the Assembled Chemical Weapons Alternatives (ACWA) program.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

(INCLUDING TRANSFER OF FUNDS)

For drug interdiction and counter-drug activities of the Department of Defense, for transfer

to appropriations available to the Department of Defense for military personnel of the reserve components serving under the provisions of title 10 and title 32, United States Code; for operation and maintenance; for procurement; and for research, development, test and evaluation, \$1,103,086,000: Provided, That the funds appropriated under this heading shall be available for obligation for the same time period and for the same purpose as the appropriation to which transferred: Provided further, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: Provided further, That the transfer authority provided under this heading is in addition to any other transfer authority contained elsewhere in this Act.

OFFICE OF THE INSPECTOR GENERAL

For expenses and activities of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$288,100,000, of which \$287,100,000 shall be for operation and maintenance, of which not to exceed \$700,000 is available for emergencies and extraordinary expenses to be expended on the approval or authority of the Inspector General, and payments may be made on the Inspector General's certificate of necessity for confidential military purposes; and of which \$1,000,000, to remain available until September 30, 2012, shall be for procurement.

TITLE VII

RELATED AGENCIES

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain the proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System, \$290,900,000.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

For necessary expenses of the Intelligence Community Management Account, \$750,812,000.

TITLE VIII

GENERAL PROVISIONS

SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: Provided, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: Provided further, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: Provided further, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 8003. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

SEC. 8004. No more than 20 percent of the appropriations in this Act which are limited for

obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year: *Provided*, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.

(TRANSFER OF FUNDS)

SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$4,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided*, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: *Provided further*, That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: *Provided further*, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress: *Provided further*, That a request for multiple reprogrammings of funds using authority provided in this section must be made prior to June 30, 2010: *Provided further*, That transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section: *Provided further*, That no obligation of funds may be made pursuant to section 1206 of Public Law 109-163 (or any successor provision) unless the Secretary of Defense has notified the congressional defense committees prior to any such obligation.

SEC. 8006. (a) Not later than 60 days after enactment of this Act, the Department of Defense shall submit a report to the congressional defense committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2010: *Provided*, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation both by budget activity and program, project, and activity as detailed in the Budget Appendix; and

(3) an identification of items of special congressional interest.

(b) Notwithstanding section 8005 of this Act, none of the funds provided in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional defense committees, unless the Secretary of Defense certifies in writing to the congressional defense committees that such reprogramming or transfer is necessary as an emergency requirement.

SEC. 8007. The Secretaries of the Air Force and the Army are authorized, using funds available under the headings "Operation and Maintenance, Air Force" and "Operation and Maintenance, Army", to complete facility conversions and phased repair projects which may include

upgrades and additions to Alaskan range infrastructure and training areas, and improved access to these ranges.

(TRANSFER OF FUNDS)

SEC. 8008. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: *Provided*, That transfers may be made between such funds: *Provided further*, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8009. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in advance to the congressional defense committees.

SEC. 8010. None of the funds provided in this Act shall be available to initiate: (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000; or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year, unless the congressional defense committees have been notified at least 30 days in advance of the proposed contract award: *Provided*, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: *Provided further*, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: *Provided further*, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: *Provided further*, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement: *Provided further*, That none of the funds provided in this Act may be used for a multiyear contract executed after the date of the enactment of this Act unless in the case of any such contract—

(1) the Secretary of Defense has submitted to Congress a budget request for full funding of units to be procured through the contract and, in the case of a contract for procurement of aircraft, that includes, for any aircraft unit to be procured through the contract for which procurement funds are requested in that budget request for production beyond advance procurement activities in the fiscal year covered by the budget, full funding of procurement of such unit in that fiscal year;

(2) cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(3) the contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units; and

(4) the contract does not provide for a price adjustment based on a failure to award a follow-on contract.

SEC. 8011. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: *Provided*, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: *Provided further*, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8012. (a) During fiscal year 2010, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(b) The fiscal year 2011 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2011 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2011.

(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8013. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8014. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time spent as a full-time student is credited toward completion of a service commitment: *Provided*, That this section shall not apply to those members who have reenlisted with this option prior to October 1, 1987: *Provided further*, That this section applies only to active components of the Army.

SEC. 8015. (a) None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of the enactment of this Act, is performed by more than 10 Department of Defense civilian employees unless—

(1) the conversion is based on the result of a public-private competition that includes a most

efficient and cost effective organization plan developed by such activity or function;

(2) the Competitive Sourcing Official determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of—

(A) 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees; or

(B) \$10,000,000; and

(3) the contractor does not receive an advantage for a proposal that would reduce costs for the Department of Defense by—

(A) not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of that activity or function under the contract; or

(B) offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5, United States Code.

(b)(1) The Department of Defense, without regard to subsection (a) of this section or subsection (a), (b), or (c) of section 2461 of title 10, United States Code, and notwithstanding any administrative regulation, requirement, or policy to the contrary shall have full authority to enter into a contract for the performance of any commercial or industrial type function of the Department of Defense that—

(A) is included on the procurement list established pursuant to section 2 of the Javits-Wagner-O'Day Act (41 U.S.C. 47);

(B) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or

(C) is planned to be converted to performance by a qualified firm under at least 51 percent ownership by an Indian tribe, as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)), or a Native Hawaiian Organization, as defined in section 8(a)(15) of the Small Business Act (15 U.S.C. 637(a)(15)).

(2) This section shall not apply to depot contracts or contracts for depot maintenance as provided in sections 2469 and 2474 of title 10, United States Code.

(c) The conversion of any activity or function of the Department of Defense under the authority provided by this section shall be credited toward any competitive or outsourcing goal, target, or measurement that may be established by statute, regulation, or policy and is deemed to be awarded under the authority of, and in compliance with, subsection (h) of section 2304 of title 10, United States Code, for the competition or outsourcing of commercial activities.

(TRANSFER OF FUNDS)

SEC. 8016. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protege Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protege Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8017. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4

inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: Provided, That for the purpose of this section manufactured will include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): Provided further, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured in the United States exceeds the aggregate cost of the components produced or manufactured outside the United States: Provided further, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8018. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols.

SEC. 8019. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense committees that such a relocation is required in the best interest of the Government.

SEC. 8020. In addition to the funds provided elsewhere in this Act, \$15,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544): Provided, That a prime contractor or a subcontractor at any tier that makes a subcontract award to any subcontractor or supplier as defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code, shall be considered a contractor for the purposes of being allowed additional compensation under section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544) whenever the prime contract or subcontract amount is over \$500,000 and involves the expenditure of funds appropriated by an Act making Appropriations for the Department of Defense with respect to any fiscal year: Provided further, That notwithstanding section 430 of title 41, United States Code, this section shall be applicable to any Department of Defense acquisition of supplies or services, including any contract and any subcontract at any tier for acquisition of commercial items produced or manufactured, in whole or in part by any subcontractor or supplier defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code.

SEC. 8021. Funds appropriated by this Act for the Defense Media Activity shall not be used for any national or international political or psychological activities.

SEC. 8022. None of the funds appropriated by this Act shall be available to perform any cost study pursuant to the provisions of OMB Circular A-76 if the study being performed exceeds a period of 24 months after initiation of such study with respect to a single function activity or 30 months after initiation of such study for a multi-function activity.

SEC. 8023. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: Provided, That upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

SEC. 8024. (a) Of the funds made available in this Act, not less than \$25,756,000 shall be available for the Civil Air Patrol Corporation, of which—

(1) \$22,433,000 shall be available from "Operation and Maintenance, Air Force" to support Civil Air Patrol Corporation operation and maintenance, readiness, counterdrug activities, and drug demand reduction activities involving youth programs;

(2) \$2,426,000 shall be available from "Aircraft Procurement, Air Force"; and

(3) \$897,000 shall be available from "Other Procurement, Air Force" for vehicle procurement.

(b) The Secretary of the Air Force should waive reimbursement for any funds used by the Civil Air Patrol for counter-drug activities in support of Federal, State, and local government agencies.

SEC. 8025. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administrated by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.

(b) No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be compensated for his or her services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: Provided, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year 2010 may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings, for payment of cost sharing for projects funded by Government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 2010, not more than 5,600 staff years of technical effort (staff years) may be funded for defense FFRDCs: Provided, That of the specific amount referred to previously in this subsection, not more than 1,100 staff years may be funded for the defense studies and analysis FFRDCs: Provided further, That this subsection shall not apply to staff years funded in the National Intelligence Program (NIP) and the Military Intelligence Program (MIP).

(e) The Secretary of Defense shall, with the submission of the department's fiscal year 2011 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year and the associated budget estimates.

(f) Notwithstanding any other provision of this Act, the total amount appropriated in this Act for FFRDCs is hereby reduced by \$120,200,000.

SEC. 8026. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: Provided, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: Provided further, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That these restrictions shall not apply to contracts which are in being as of the date of the enactment of this Act.

SEC. 8027. For the purposes of this Act, the term "congressional defense committees" means the Armed Services Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

SEC. 8028. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: Provided, That the Senior Acquisition Executive of the military department or Defense Agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids: Provided further, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section.

SEC. 8029. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) The Secretary of Defense shall submit to the Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year 2010. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means title III of the Act entitled

"An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

SEC. 8030. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510; 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act.

SEC. 8031. (a) Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, and Minnesota relocatable military housing units located at Grand Forks Air Force Base, Malmstrom Air Force Base, Mountain Home Air Force Base, Ellsworth Air Force Base, and Minot Air Force Base that are excess to the needs of the Air Force.

(b) The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, and Minnesota.

(c) The Operation Walking Shield Program shall resolve any conflicts among requests of Indian tribes for housing units under subsection (a) before submitting requests to the Secretary of the Air Force under subsection (b).

(d) In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103-454; 108 Stat. 4792; 25 U.S.C. 479a-1).

SEC. 8032. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$250,000.

SEC. 8033. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2011 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2011 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2011 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.

SEC. 8034. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30,

2011: Provided, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: Provided further, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947, as amended, shall remain available until September 30, 2011.

SEC. 8035. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

SEC. 8036. Of the funds appropriated to the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$12,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related administrative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.

SEC. 8037. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.

SEC. 8038. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support: Provided, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to

improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8039. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or
(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to—

(1) field operating agencies funded within the National Intelligence Program; or

(2) an Army field operating agency established to eliminate, mitigate, or counter the effects of improvised explosive devices, and, as determined by the Secretary of the Army, other similar threats.

(RESCISSIONS)

SEC. 8040. Of the funds appropriated in Department of Defense Appropriations Acts, the following funds are hereby rescinded from the following accounts and programs in the specified amounts:

“Research, Development, Test and Evaluation, Air Force, 2009/2010”, \$110,230,000;

“Research, Development, Test and Evaluation, Defense-Wide, 2009/2010”, \$199,750,000;

“Procurement of Weapons and Tracked Combat Vehicles, Army, 2009/2011”, \$41,087,000;

“Other Procurement, Army, 2009/2011”, \$138,239,000;

“Aircraft Procurement, Air Force, 2009/2011”, \$628,900,000;

“Missile Procurement, Air Force, 2009/2011”, \$147,595,000;

“Other Procurement, Air Force, 2009/2011”, \$5,000,000;

“Procurement, Defense-Wide, 2009/2011”, \$5,200,000; and

“Procurement, Defense-Wide, 2008/2010”, \$2,000,000.

SEC. 8041. None of the funds available in this Act may be used to reduce the authorized positions for military (civilian) technicians of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve for the purpose of applying any administratively imposed civilian personnel ceiling, freeze, or reduction on military (civilian) technicians, unless such reductions are a direct result of a reduction in military force structure.

SEC. 8042. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

SEC. 8043. Funds appropriated in this Act for operation and maintenance of the Military Departments, Combatant Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the National Intelligence Program and the Military In-

telligence Program: Provided, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

SEC. 8044. During the current fiscal year, none of the funds appropriated in this Act may be used to reduce the civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level: Provided, That the Service Surgeons General may waive this section by certifying to the congressional defense committees that the beneficiary population is declining in some catchment areas and civilian strength reductions may be consistent with responsible resource stewardship and capitation-based budgeting.

SEC. 8045. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

SEC. 8046. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: Provided, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: Provided further, That this restriction shall not apply to the purchase of “commercial items”, as defined by section 4(12) of the Office of Federal Procurement Policy Act, except that the restriction shall apply to ball or roller bearings purchased as end items.

SEC. 8047. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.

SEC. 8048. None of the funds made available in this or any other Act may be used to pay the salary of any officer or employee of the Department of Defense who approves or implements the transfer of administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress: Provided, That this limitation shall not apply to transfers of funds expressly provided for in Defense Appropriations Acts, or provisions of Acts providing supplemental appropriations for the Department of Defense.

SEC. 8049. (a) Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) This section applies to—

(1) any international peacekeeping or peace-enforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(2) any other international peacekeeping, peace-enforcement, or humanitarian assistance operation.

(c) A notice under subsection (a) shall include the following—

(1) A description of the equipment, supplies, or services to be transferred.

(2) A statement of the value of the equipment, supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide funds for such replacement.

SEC. 8050. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8051. During the current fiscal year, no more than \$30,000,000 of appropriations made in this Act under the heading “Operation and Maintenance, Defense-Wide” may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

SEC. 8052. (a) IN GENERAL.—Service as a member of the Alaska Territorial Guard during World War II of any individual who was honorably discharged therefrom under section 8147 of the Department of Defense Appropriations Act, 2001 (Public Law 106-259; 114 Stat. 705) shall be treated as active service for purposes of the computation under chapter 61, 71, 371, 571, 871, or 1223 of title 10, United States Code, as applicable, of the retired pay to which such individual may be entitled under title 10, United States Code.

(b) APPLICABILITY.—Subsection (a) shall apply with respect to amounts of retired pay payable under title 10, United States Code, for months beginning on or after the date of the enactment of this Act. No retired pay shall be paid to any individual by reason of subsection (a) for any period before that date.

(c) WORLD WAR II DEFINED.—In this section, the term “World War II” has the meaning given that term in section 101(8) of title 38, United States Code.

SEC. 8053. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be

available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8054. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: Provided, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: Provided further, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy source.

SEC. 8055. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: Provided, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: Provided further, That this restriction does not apply to programs funded within the National Intelligence Program: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8056. None of the funds made available in this Act may be used to approve or license the sale of the F-22A advanced tactical fighter to any foreign government: Provided, That the Department of Defense may conduct or participate in studies, research, design and other activities to define and develop a future export version of the F-22A that protects classified and sensitive information, technologies and U.S. warfighting capabilities.

SEC. 8057. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50–65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 8058. (a) None of the funds made available by this Act may be used to support any training program involving a unit of the security forces of a foreign country if the Secretary of Defense has received credible information from the Department of State that the unit has committed a gross violation of human rights, unless all necessary corrective steps have been taken.

(b) The Secretary of Defense, in consultation with the Secretary of State, shall ensure that prior to a decision to conduct any training program referred to in subsection (a), full consideration is given to all credible information available to the Department of State relating to human rights violations by foreign security forces.

(c) The Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in subsection (a) if he determines that such waiver is required by extraordinary circumstances.

(d) Not more than 15 days after the exercise of any waiver under subsection (c), the Secretary of Defense shall submit a report to the congressional defense committees describing the extraordinary circumstances, the purpose and duration of the training program, the United States forces and the foreign security forces involved in the training program, and the information relating to human rights violations that necessitates the waiver.

SEC. 8059. None of the funds appropriated or made available in this Act to the Department of the Navy shall be used to develop, lease or procure the T-AKE class of ships unless the main propulsion diesel engines and propulsors are manufactured in the United States by a domestically operated entity: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes or there exists a significant cost or quality difference.

SEC. 8060. None of the funds appropriated or otherwise made available by this or other Department of Defense Appropriations Acts may be obligated or expended for the purpose of performing repairs or maintenance to military family housing units of the Department of Defense, including areas in such military family housing units that may be used for the purpose of conducting official Department of Defense business.

SEC. 8061. Notwithstanding any other provision of law, funds appropriated in this Act under the heading “Research, Development, Test and Evaluation, Defense-Wide” for any new start advanced concept technology demonstration project or joint capability demonstration project may only be obligated 30 days after a report, including a description of the project, the planned acquisition and transition strategy and its estimated annual and total cost, has been provided in writing to the congressional defense committees: Provided, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying to the congressional defense committees that it is in the national interest to do so.

SEC. 8062. The Secretary of Defense shall provide a classified quarterly report beginning 30 days after enactment of this Act, to the House and Senate Appropriations Committees, Subcommittees on Defense on certain matters as directed in the classified annex accompanying this Act.

SEC. 8063. During the current fiscal year, none of the funds available to the Department of Defense may be used to provide support to another

department or agency of the United States if such department or agency is more than 90 days in arrears in making payment to the Department of Defense for goods or services previously provided to such department or agency on a reimbursable basis: Provided, That this restriction shall not apply if the department is authorized by law to provide support to such department or agency on a nonreimbursable basis, and is providing the requested support pursuant to such authority: Provided further, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8064. Notwithstanding section 12310(b) of title 10, United States Code, a Reserve who is a member of the National Guard serving on full-time National Guard duty under section 502(f) of title 32, United States Code, may perform duties in support of the ground-based elements of the National Ballistic Missile Defense System.

SEC. 8065. None of the funds provided in this Act may be used to transfer to any nongovernmental entity ammunition held by the Department of Defense that has a center-fire cartridge and a United States military nomenclature designation of “armor penetrator”, “armor piercing (AP)”, “armor piercing incendiary (API)”, or “armor-piercing incendiary-tracer (API-T)”, except to an entity performing demilitarization services for the Department of Defense under a contract that requires the entity to demonstrate to the satisfaction of the Department of Defense that armor piercing projectiles are either: (1) rendered incapable of reuse by the demilitarization process; or (2) used to manufacture ammunition pursuant to a contract with the Department of Defense or the manufacture of ammunition for export pursuant to a License for Permanent Export of Unclassified Military Articles issued by the Department of State.

SEC. 8066. Notwithstanding any other provision of law, the Chief of the National Guard Bureau, or his designee, may waive payment of all or part of the consideration that otherwise would be required under section 2667 of title 10, United States Code, in the case of a lease of personal property for a period not in excess of 1 year to any organization specified in section 508(d) of title 32, United States Code, or any other youth, social, or fraternal nonprofit organization as may be approved by the Chief of the National Guard Bureau, or his designee, on a case-by-case basis.

SEC. 8067. None of the funds appropriated by this Act shall be used for the support of any nonappropriated funds activity of the Department of Defense that procures malt beverages and wine with nonappropriated funds for resale (including such alcoholic beverages sold by the drink) on a military installation located in the United States unless such malt beverages and wine are procured within that State, or in the case of the District of Columbia, within the District of Columbia, in which the military installation is located: Provided, That in a case in which the military installation is located in more than one State, purchases may be made in any State in which the installation is located: Provided further, That such local procurement requirements for malt beverages and wine shall apply to all alcoholic beverages only for military installations in States which are not contiguous with another State: Provided further, That alcoholic beverages other than wine and malt beverages, in contiguous States and the District of Columbia shall be procured from the most competitive source, price and other factors considered.

SEC. 8068. Funds available to the Department of Defense for the Global Positioning System during the current fiscal year may be used to

fund civil requirements associated with the satellite and ground control segments of such system's modernization program.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8069. Of the amounts appropriated in this Act under the heading "Operation and Maintenance, Army", \$106,754,000 shall remain available until expended: Provided, That notwithstanding any other provision of law, the Secretary of Defense is authorized to transfer such funds to other activities of the Federal Government: Provided further, That the Secretary of Defense is authorized to enter into and carry out contracts for the acquisition of real property, construction, personal services, and operations related to projects carrying out the purposes of this section: Provided further, That contracts entered into under the authority of this section may provide for such indemnification as the Secretary determines to be necessary: Provided further, That projects authorized by this section shall comply with applicable Federal, State, and local law to the maximum extent consistent with the national security, as determined by the Secretary of Defense.

SEC. 8070. Section 8106 of the Department of Defense Appropriations Act, 1997 (titles I through VIII of the matter under subsection 101(b) of Public Law 104-208; 110 Stat. 3009-111; 10 U.S.C. 113 note) shall continue in effect to apply to disbursements that are made by the Department of Defense in fiscal year 2010.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8071. Of the amounts appropriated in this Act under the heading "Research, Development, Test and Evaluation, Defense-Wide", \$202,434,000 shall be for the Israeli Cooperative Programs: Provided, That of this amount, \$80,092,000 shall be for the Short Range Ballistic Missile Defense (SRBMD) program, \$50,036,000 shall be available for an upper-tier component to the Israeli Missile Defense Architecture, and \$72,306,000 shall be for the Arrow Missile Defense Program, of which \$25,000,000 shall be for producing Arrow missile components in the United States and Arrow missile components in Israel to meet Israel's defense requirements, consistent with each nation's laws, regulations and procedures: Provided further, That funds made available under this provision for production of missiles and missile components may be transferred to appropriations available for the procurement of weapons and equipment, to be merged with and to be available for the same time period and the same purposes as the appropriation to which transferred: Provided further, That the transfer authority provided under this provision is in addition to any other transfer authority contained in this Act.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8072. Of the amounts appropriated in this Act under the heading "Shipbuilding and Conversion, Navy", \$144,950,000 shall be available until September 30, 2010, to fund prior year shipbuilding cost increases: Provided, That upon enactment of this Act, the Secretary of the Navy shall transfer such funds to the following appropriations in the amounts specified: Provided further, That the amounts transferred shall be merged with and be available for the same purposes as the appropriations to which transferred:

To:

Under the heading "Shipbuilding and Conversion, Navy, 2004/2010":

New SSN, \$26,906,000; and

LPD-17 Amphibious Transport Dock Program, \$16,844,000.

Under the heading "Shipbuilding and Conversion, Navy, 2005/2010":

New SSN, \$18,702,000; and

LPD-17 Amphibious Transport Dock Program, \$16,498,000.

Under the heading "Shipbuilding and Conversion, Navy, 2008/2012":

LPD-17 Amphibious Transport Dock Program, \$66,000,000.

SEC. 8073. None of the funds available to the Department of Defense may be obligated to modify command and control relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific fleet: Provided, That the command and control relationships which existed on October 1, 2004, shall remain in force unless changes are specifically authorized in a subsequent Act.

SEC. 8074. Notwithstanding any other provision of law or regulation, the Secretary of Defense may exercise the provisions of section 7403(g) of title 38, United States Code, for occupations listed in section 7403(a)(2) of title 38, United States Code, as well as the following:

Pharmacists, Audiologists, Psychologists, Social Workers, Othotists/Prosthetists, Occupational Therapists, Physical Therapists, Rehabilitation Therapists, Respiratory Therapists, Speech Pathologists, Dietitian/Nutritionists, Industrial Hygienists, Psychology Technicians, Social Service Assistants, Practical Nurses, Nursing Assistants, and Dental Hygienists:

(A) The requirements of section 7403(g)(1)(A) of title 38, United States Code, shall apply.

(B) The limitations of section 7403(g)(1)(B) of title 38, United States Code, shall not apply.

SEC. 8075. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of the Intelligence Authorization Act for Fiscal Year 2010.

SEC. 8076. None of the funds provided in this Act shall be available for obligation or expenditure through a reprogramming of funds that creates or initiates a new program, project, or activity unless such program, project, or activity must be undertaken immediately in the interest of national security and only after written prior notification to the congressional defense committees.

SEC. 8077. In addition to funds made available elsewhere in this Act, \$5,500,000 is hereby appropriated and shall remain available until expended to provide assistance, by grant or otherwise (such as the provision of funds for information technology and textbook purchases, professional development for educators, and student transition support) to public schools in states that are considered overseas assignments with unusually high concentrations of special needs military dependents enrolled: Provided, That up to 2 percent of the total appropriated funds under this section shall be available for the administration and execution of the programs and/or events that promote the purpose of this appropriation: Provided further, That up to 5 percent of the total appropriated funds under this section shall be available to public schools that have entered into a military partnership: Provided further, That \$1,000,000 shall be available for a nonprofit trust fund to assist in the public-private funding of public school repair and maintenance projects: Provided further, That \$500,000 shall be available to fund an ongoing special education support program in public schools with unusually high concentrations of active duty military dependents enrolled: Provided further, That to the extent a Federal agency provides this assistance by contract, grant, or otherwise, it may accept and expend non-Federal funds in combination with these Federal funds to provide assistance for the authorized purpose.

SEC. 8078. In addition to the amounts appropriated or otherwise made available elsewhere in this Act, \$50,500,000 is hereby appropriated to

the Department of Defense: Provided, That the Secretary of Defense shall make grants in the amounts specified as follows: \$20,000,000 to the Edward M. Kennedy Institute for the Senate; \$5,500,000 to the U.S.S. Missouri Memorial Association; and \$25,000,000 to the National World War II Museum.

SEC. 8079. The budget of the President for fiscal year 2011 submitted to the Congress pursuant to section 1105 of title 31, United States Code, shall include separate budget justification documents for costs of United States Armed Forces' participation in contingency operations for the Military Personnel accounts, the Operation and Maintenance accounts, and the Procurement accounts: Provided, That these documents shall include a description of the funding requested for each contingency operation, for each military service, to include all Active and Reserve components, and for each appropriations account: Provided further, That these documents shall include estimated costs for each element of expense or object class, a reconciliation of increases and decreases for each contingency operation, and programmatic data including, but not limited to, troop strength for each Active and Reserve component, and estimates of the major weapons systems deployed in support of each contingency: Provided further, That these documents shall include budget exhibits OP-5 and OP-32 (as defined in the Department of Defense Financial Management Regulation) for all contingency operations for the budget year and the two preceding fiscal years.

SEC. 8080. None of the funds in this Act may be used for research, development, test, evaluation, procurement or deployment of nuclear armed interceptors of a missile defense system.

SEC. 8081. None of the funds appropriated or made available in this Act shall be used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve, if such action would reduce the WC-130 Weather Reconnaissance mission below the levels funded in this Act: Provided, That the Air Force shall allow the 53rd Weather Reconnaissance Squadron to perform other missions in support of national defense requirements during the non-hurricane season.

SEC. 8082. None of the funds provided in this Act shall be available for integration of foreign intelligence information unless the information has been lawfully collected and processed during the conduct of authorized foreign intelligence activities: Provided, That information pertaining to United States persons shall only be handled in accordance with protections provided in the Fourth Amendment of the United States Constitution as implemented through Executive Order No. 12333.

SEC. 8083. (a) At the time members of reserve components of the Armed Forces are called or ordered to active duty under section 12302(a) of title 10, United States Code, each member shall be notified in writing of the expected period during which the member will be mobilized.

(b) The Secretary of Defense may waive the requirements of subsection (a) in any case in which the Secretary determines that it is necessary to do so to respond to a national security emergency or to meet dire operational requirements of the Armed Forces.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8084. The Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation for the purpose of liquidating necessary changes resulting from inflation, market fluctuations, or rate adjustments for any ship construction program appropriated in law: Provided, That the Secretary may transfer not to exceed \$100,000,000 under the authority provided by this section: Provided further, That the Secretary may not

transfer any funds until 30 days after the proposed transfer has been reported to the Committees on Appropriations of the House of Representatives and the Senate, unless a response from the Committees is received sooner: Provided further, That the transfer authority provided by this section is in addition to any other transfer authority contained elsewhere in this Act.

SEC. 8085. For purposes of section 612 of title 41, United States Code, any subdivision of appropriations made under the heading "Shipbuilding and Conversion, Navy" that is not closed at the time reimbursement is made shall be available to reimburse the Judgment Fund and shall be considered for the same purposes as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in the current fiscal year or any prior fiscal year.

SEC. 8086. (a) None of the funds appropriated by this Act may be used to transfer research and development, acquisition, or other program authority relating to current tactical unmanned aerial vehicles (TUVs) from the Army.

(b) The Army shall retain responsibility for and operational control of the MQ-1C Sky Warrior Unmanned Aerial Vehicle (UAV) in order to support the Secretary of Defense in matters relating to the employment of unmanned aerial vehicles.

SEC. 8087. Of the funds provided in this Act, \$10,000,000 shall be available for the operations and development of training and technology for the Joint Interagency Training and Education Center and the affiliated Center for National Response at the Memorial Tunnel and for providing homeland defense/security and traditional warfighting training to the Department of Defense, other Federal agencies, and State and local first responder personnel at the Joint Interagency Training and Education Center.

SEC. 8088. Notwithstanding any other provision of law or regulation, the Secretary of Defense may adjust wage rates for civilian employees hired for certain health care occupations as authorized for the Secretary of Veterans Affairs by section 7455 of title 38, United States Code.

SEC. 8089. Up to \$16,000,000 of the funds appropriated under the heading "Operation and Maintenance, Navy" may be made available for the Asia Pacific Regional Initiative Program for the purpose of enabling the Pacific Command to execute Theater Security Cooperation activities such as humanitarian assistance, and payment of incremental and personnel costs of training and exercising with foreign security forces: Provided, That funds made available for this purpose may be used, notwithstanding any other funding authorities for humanitarian assistance, security assistance or combined exercise expenses: Provided further, That funds may not be obligated to provide assistance to any foreign country that is otherwise prohibited from receiving such type of assistance under any other provision of law.

SEC. 8090. None of the funds appropriated by this Act for programs of the Office of the Director of National Intelligence shall remain available for obligation beyond the current fiscal year, except for funds appropriated for research and technology, which shall remain available until September 30, 2011.

SEC. 8091. Notwithstanding any other provision of this Act, to reflect savings from revised economic assumptions, the total amount appropriated in title II of this Act is hereby reduced by \$194,000,000, the total amount appropriated in title III of this Act is hereby reduced by \$322,000,000, the total amount appropriated in title IV of this Act is hereby reduced by \$336,000,000, and the total amount appropriated in title V of this Act is hereby reduced by \$9,000,000: Provided, That the Secretary of Defense shall allocate this reduction proportion-

ally to each budget activity, activity group, sub-activity group, and each program, project, and activity, within each appropriation account.

SEC. 8092. For purposes of section 1553(b) of title 31, United States Code, any subdivision of appropriations made in this Act under the heading "Shipbuilding and Conversion, Navy" shall be considered to be for the same purpose as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in any prior fiscal year, and the 1 percent limitation shall apply to the total amount of the appropriation.

SEC. 8093. Notwithstanding any other provision of law, that not more than 35 percent of funds provided in this Act for environmental remediation may be obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130,000,000 or higher.

SEC. 8094. The Director of National Intelligence shall include the budget exhibits identified in paragraphs (1) and (2) as described in the Department of Defense Financial Management Regulation with the congressional budget justification books.

(1) For procurement programs requesting more than \$20,000,000 in any fiscal year, the P-1, Procurement Program; P-5, Cost Analysis; P-5a, Procurement History and Planning; P-21, Production Schedule; and P-40 Budget Item Justification.

(2) For research, development, test and evaluation projects requesting more than \$10,000,000 in any fiscal year, the R-1, RDT&E Program; R-2, RDT&E Budget Item Justification; R-3, RDT&E Project Cost Analysis; and R-4, RDT&E Program Schedule Profile.

SEC. 8095. None of the funds made available in this Act may be used in contravention of the following laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (done at New York on December 10, 1984):

(1) Section 2340A of title 18, United States Code.

(2) Section 2242 of the Foreign Affairs Reform and Restructuring Act of 1998 (division G of Public Law 105-277; 112 Stat. 2681-822; 8 U.S.C. 1231 note) and regulations prescribed thereto, including regulations under part 208 of title 8, Code of Federal Regulations, and part 95 of title 22, Code of Federal Regulations.

(3) Sections 1002 and 1003 of the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006 (Public Law 109-148).

SEC. 8096. (a) Not later than 60 days after enactment of this Act, the Office of the Director of National Intelligence shall submit a report to the congressional intelligence committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2010: Provided, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation by Expenditure Center and project; and

(3) an identification of items of special congressional interest.

(b) None of the funds provided for the National Intelligence Program in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional intelligence committees, unless the Director of National Intelligence certifies in writing to the congressional intelligence committees that such reprogramming or transfer is necessary as an emergency requirement.

SEC. 8097. The Director of National Intelligence shall submit to Congress each year, at or about the time that the President's budget is submitted to Congress that year under section 1105(a) of title 31, United States Code, a future-years intelligence program (including associated annexes) reflecting the estimated expenditures and proposed appropriations included in that budget. Any such future-years intelligence program shall cover the fiscal year with respect to which the budget is submitted and at least the four succeeding fiscal years.

SEC. 8098. For the purposes of this Act, the term "congressional intelligence committees" means the Permanent Select Committee on Intelligence of the House of Representatives, the Select Committee on Intelligence of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives, and the Subcommittee on Defense of the Committee on Appropriations of the Senate.

SEC. 8099. The Department of Defense shall continue to report incremental contingency operations costs for Operation Iraqi Freedom and Operation Enduring Freedom on a monthly basis in the Cost of War Execution Report as prescribed in the Department of Defense Financial Management Regulation Department of Defense Instruction 7000.14, Volume 12, Chapter 23 "Contingency Operations", Annex 1, dated September 2005.

SEC. 8100. The amounts appropriated in title II of this Act are hereby reduced by \$500,000,000 to reflect excess cash balances in Department of Defense Working Capital Funds, as follows:

From "Operation and Maintenance, Air Force", \$500,000,000.

SEC. 8101. During the current fiscal year, not to exceed \$10,000,000 from each of the appropriations made in title III of this Act for "Operation and Maintenance, Army", "Operation and Maintenance, Navy", and "Operation and Maintenance, Air Force" may be transferred by the military department concerned to its central fund established for Fisher Houses and Suites pursuant to section 2493(d) of title 10, United States Code.

SEC. 8102. Of the funds appropriated in the Intelligence Community Management Account for the Program Manager for the Information Sharing Environment, \$24,000,000 is available for transfer by the Director of National Intelligence to other departments and agencies for purposes of Government-wide information sharing activities: Provided, That funds transferred under this provision are to be merged with and available for the same purposes and time period as the appropriation to which transferred: Provided further, That the Office of Management and Budget must approve any transfers made under this provision.

SEC. 8103. Funds appropriated by this Act for operation and maintenance shall be available for the purpose of making remittances to the Defense Acquisition Workforce Development Fund in accordance with the requirements of section 1705 of title 10, United States Code.

SEC. 8104. (a) REPORT ON GROUND-BASED INTERCEPTOR MISSILES.—Not later than 60 days after the date of the enactment of this Act, the Director of the Missile Defense Agency shall submit to the congressional defense committees a report on the utilization of funds to maintain the production line of Ground-Based Interceptor (GBI) missiles. The report shall include a plan for the utilization of funds for Ground-Based Interceptor missiles made available by this Act for the Midcourse Defense Segment, including—

(1) the number of Ground-based Interceptor missiles proposed to be produced during fiscal year 2010; and

(2) any plans for maintaining production of such missiles and the subsystems and components of such missiles.

(b) **REPORT ON GROUND-BASED MIDCOURSE DEFENSE SYSTEM.**—Not later than 120 days after the date of the enactment of this Act, the Director of the Missile Defense Agency shall submit to the congressional defense committees a report setting forth the acquisition strategy for the Ground-Based Midcourse Defense (GMD) system during fiscal years 2011 through 2016. The report shall include a description of the plans of the Missile Defense Agency for each of the following:

(1) To maintain the capability for production of Ground-Based Interceptor missiles.

(2) To address modernization and obsolescence of the Ground-Based Midcourse Defense system.

(3) To conduct a robust test program for the Ground-Based Midcourse Defense system.

SEC. 8105. (a) HIGH PRIORITY NATIONAL GUARD COUNTERDRUG PROGRAMS.—Of the amount appropriated or otherwise made available by title VI under the heading “**DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE**”, up to \$30,000,000 shall be available for the purpose of High Priority National Guard Counterdrug Programs.

(b) **SUPPLEMENT NOT SUPPLANT.**—The amount made available by subsection (a) for the purpose specified in that subsection is in addition to any other amounts made available by this Act for that purpose.

APOLOGY TO NATIVE PEOPLES OF THE UNITED STATES

SEC. 8106. (a) ACKNOWLEDGMENT AND APOLOGY.—The United States, acting through Congress—

(1) recognizes the special legal and political relationship Indian tribes have with the United States and the solemn covenant with the land we share;

(2) commends and honors Native Peoples for the thousands of years that they have stewarded and protected this land;

(3) recognizes that there have been years of official depredations, ill-conceived policies, and the breaking of covenants by the Federal Government regarding Indian tribes;

(4) apologizes on behalf of the people of the United States to all Native Peoples for the many instances of violence, maltreatment, and neglect inflicted on Native Peoples by citizens of the United States;

(5) expresses its regret for the ramifications of former wrongs and its commitment to build on the positive relationships of the past and present to move toward a brighter future where all the people of this land live reconciled as brothers and sisters, and harmoniously steward and protect this land together;

(6) urges the President to acknowledge the wrongs of the United States against Indian tribes in the history of the United States in order to bring healing to this land; and

(7) commends the State governments that have begun reconciliation efforts with recognized Indian tribes located in their boundaries and encourages all State governments similarly to work toward reconciling relationships with Indian tribes within their boundaries.

(b) **DISCLAIMER.**—Nothing in this section—

(1) authorizes or supports any claim against the United States; or

(2) serves as a settlement of any claim against the United States.

SEC. 8107. (a) REPORT ON USE OF LIVE PRIMATES IN TRAINING RELATING TO CHEMICAL AND BIOLOGICAL AGENTS.—Not later than 90 days after the date of the enactment of this Act, the Secretary of Defense shall submit to the congressional defense committees a report setting forth a detailed description of the requirements for the use by the Department of Defense of live primates at the United States Army Medical Research Institute of Chemical Defense, and elsewhere, to demonstrate the effects of chemical or

biological agents or chemical (such as physostigmine) or biological agent simulants in training programs.

(b) **ELEMENTS.**—The report required by subsection (a) shall include, at a minimum, the following:

(1) The number of live primates used in the training described in subsection (a).

(2) The average lifespan of primates from the point of introduction into such training programs.

(3) An explanation why the use of primates in such training is more advantageous and realistic than the use of human simulators or other alternatives.

(4) An estimate of the cost of converting from the use of primates to human simulators in such training.

SEC. 8108. (a) FINDINGS.—The Senate makes the following findings:

(1) Real time intelligence, surveillance, and reconnaissance (ISR) is critical to our warfighters in fighting the ongoing wars in Iraq and Afghanistan.

(2) Secretary of Defense Gates and the military leadership of the United States have highlighted the importance of collecting and disseminating critical intelligence and battlefield information to our troops on the ground in Iraq and Afghanistan.

(3) The Chief of Staff of the Air Force, General Norton Schwartz, has stated that the Air Force is “all-in” for the joint fight.

(4) One of the most effective and heavily tasked intelligence, surveillance, and reconnaissance assets operating today is the Air Force’s E-8C Joint Surveillance Target Attack Radar System, also known as Joint STARS.

(5) Commanders in the field rely on Joint STARS to give them a long range view of the battlefield and detect moving targets in all weather conditions as well as tactical support to Brigade Combat Teams, Joint Tactical Air Controllers and Special Operations Forces convoy overwatch.

(6) Joint STARS is a joint platform, flown by a mix of active duty Air Force and Air National Guard personnel and operated by a joint Army, Air Force, and Marine crew, supporting missions for all the Armed Forces.

(7) With a limited number of airframes, Joint STARS has flown over 55,000 combat hours and 900 sorties over Iraq and Afghanistan and directly contributed to the discovery of hundreds of Improvised Explosive Devices.

(8) The current engines greatly limit the performance of Joint STARS aircraft and are the highest cause of maintenance problems and mission aborts.

(9) There is no other current or programmed aircraft or weapon system that can provide the detailed, broad-area ground moving target indicator (GMTI) and airborne battle management support for the warfighter that Joint STARS provides.

(10) With the significant operational savings that new engines will bring to the Joint STARS, re-engining Joint STARS will pay for itself by 2017 due to reduced operations, sustainment, and fuel costs.

(11) In December 2002, a JSTARS re-engining study determined that re-engining provided significant benefits and cost savings. However, delays in executing the re-engining program continue to result in increased costs for the re-engining effort.

(12) The budget request for the Department of Defense for fiscal year 2010 included \$205,000,000 in Aircraft Procurement, Air Force, and \$16,000,000 in Research, Development, Test, and Evaluation, Air Force for Joint STARS re-engining.

(13) On September 22, 2009, the Department of Defense re-affirmed their support for the Presi-

dent’s Budget request for Joint STARS re-engining.

(14) On September 30, 2009, the Undersecretary of Defense (Acquisition, Technology, and Logistics) signed an Acquisition Decision Memorandum directing that the Air Force proceed with the Joint STARS re-engining effort, to include expenditure of procurement and research, development, test, and evaluation funds.

(b) **SENSE OF SENATE.**—It is the sense of the Senate that—

(1) Funds for re-engining of the E-8C Joint Surveillance Target Attack Radar System (Joint STARS) should be appropriated in the correct appropriations accounts and in the amounts required in fiscal year 2010 to execute the Joint STARS Re-Engining System Design and Development Program; and

(2) the Air Force should proceed with currently planned efforts to re-engine Joint STARS aircraft, to include expending both procurement and research, development, test, and evaluation funds.

SEC. 8109. (a) Notwithstanding any other provision of this Act and except as provided in subsection (b), any report required to be submitted by a Federal agency or department to the Committee on Appropriations of either the Senate or the House of Representatives in this Act shall be posted on the public website of that agency upon receipt by the committee.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

SEC. 8110. (a) The Secretary of Defense shall conduct a study on defense contracting fraud and submit a report containing the findings of such study to the congressional defense committees.

(b) The report required under subsection (a) shall include—

(1) an assessment of the total value of Department of Defense contracts entered into to with contractors that have been indicted for, settled charges of, been fined by any Federal department or agency for, or been convicted of fraud in connection with any contract or other transaction entered into with the Federal Government; and

(2) recommendations by the Inspector General of the Department of Defense or other appropriate Department of Defense official regarding how to penalize contractors repeatedly involved in fraud in connection with contracts or other transactions entered into with the Federal Government.

SEC. 8111. Of the amount appropriated or otherwise made available by title IV under the heading “**RESEARCH, DEVELOPMENT, TEST, AND EVALUATION, ARMY**”, \$12,000,000 shall be available for the peer-reviewed Gulf War Illness Research Program of the Army run by Congressionally Directed Medical Research Programs.

SEC. 8112. (a) It is the sense of Congress that—

(1) All of the National Nuclear Security Administration sites, including the Nevada Test Site can play an effective and essential role in developing and demonstrating—

(A) innovative and effective methods for treaty verification and the detection of nuclear weapons and other materials; and

(B) related threat reduction technologies; and

(2) the Administrator for Nuclear Security should expand the mission of the Nevada Test Site to carry out the role described in paragraph (1), including by—

(A) fully utilizing the inherent capabilities and uniquely secure location of the Site;

(B) continuing to support the Nation’s nuclear weapons program and other national security programs; and

(C) renaming the Site to reflect the expanded mission of the Site.

(b) Not later than one year after the date of the enactment of this Act, the Administrator for Nuclear Security shall submit to the congressional defense committees a plan for improving the infrastructure of the Nevada Test Site of the National Nuclear Security Administration and, if the Administrator deems appropriate, all other sites under the jurisdiction of the National Nuclear Security Administration—

(1) to fulfill the expanded mission of the Site described in subsection (a); and

(2) to make the Site available to support the threat reduction programs of the entire national security community, including threat reduction programs of the National Nuclear Security Administration, the Defense Threat Reduction Agency, the Department of Homeland Security, and other agencies as appropriate.

SEC. 8113. Of the amounts appropriated or otherwise made available by title II under the heading “OPERATION AND MAINTENANCE, DEFENSE-WIDE” and available for the Office of the Secretary of Defense, up to \$250,000 may be available to the Under Secretary of Defense for Policy for the declassification of the nuclear posture review conducted under section 1041 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (as enacted into law by Public Law 106-398; 114 Stat. 1654A-262) upon the release of the nuclear posture review to succeed such nuclear posture review.

SEC. 8114. Of the amount appropriated or otherwise made available by title II under the heading “OPERATION AND MAINTENANCE, DEFENSE-WIDE”, up to \$15,000,000 may be available for the implementation by the Department of Defense of the responsibilities of the Department under the Military and Overseas Voter Empowerment Act and the amendments made by that Act.

SEC. 8115. None of the funds appropriated or otherwise made available by this Act may be used to dispose of claims filed regarding water contamination at Camp Lejeune, North Carolina, until the Agency for Toxic Substances and Disease Registry (ATSDR) fully completes all current, ongoing epidemiological and water modeling studies pending as of the date of the enactment of this Act.

SEC. 8116. (a) LIMITATION ON AVAILABILITY OF FUNDS FOR EXECUTION OF CONTRACTS UNDER LOGCAP.—No later than 90 days after enactment of this Act none of the funds appropriated or otherwise made available by this Act may be obligated or expended for the execution of a contract under the Logistics Civil Augmentation Program (LOGCAP) unless the Secretary of the Army determines that the contract explicitly requires the contractor—

(1) to inspect and immediately correct deficiencies that present an imminent threat of death or serious bodily injury so as to ensure compliance with generally accepted electrical standards as determined by the Secretary of Defense in work under the contract;

(2) monitor and immediately correct deficiencies in the quality of any potable or non-potable water provided under the contract to ensure that safe and sanitary water is provided; and

(3) establish and enforce strict standards for preventing, and immediately addressing and cooperating with the prosecution of, any instances of sexual assault in all of its operations and the operations of its subcontractors.

(b) WAIVER.—The Secretary of the Army may waive the applicability of the limitation in subsection (a) to any contract if the Secretary certifies in writing to Congress that—

(1) the waiver is necessary for the provision of essential services or critical operating facilities for operational missions; or

(2) the work under such contract does not present an imminent threat of death or serious bodily injury.

SEC. 8117. None of the funds appropriated or otherwise made available by this Act may be used by the Secretary of the Army to transfer by sale, lease, loan, or donation government-owned ammunition production equipment or facilities to a private ammunition manufacturer until 60 days after the Secretary submits a certification to the congressional defense committees that the transfer will not increase the cost of ammunition procurement or negatively impact national security, military readiness, government ammunition production or the United States ammunition production industrial base. The certification shall include the Secretary of the Army's assessment of the following:

(1) A cost-benefit risk analysis for converting government-owned ammunition production equipment or facilities to private ammunition manufacturers, including cost-savings comparisons.

(2) A projection of the impact on the ammunition production industrial base in the United States of converting such equipment or facilities to private ammunition manufacturers.

(3) A projection of the capability to meet current and future ammunition production requirements by both government-owned and private ammunition manufacturers, as well as a combination of the two sources of production assets.

(4) Potential impact on national security and military readiness.

SEC. 8118. (a) None of the funds appropriated or otherwise made available by this Act may be used for any existing or new Federal contract if the contractor or a subcontractor at any tier requires that an employee or independent contractor, as a condition of employment, sign a contract that mandates that the employee or independent contractor performing work under the contract or subcontract resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention.

(b) The prohibition in subsection (a) does not apply with respect to employment contracts that may not be enforced in a court of the United States.

SEC. 8119. (a) LIMITATION ON EARLY RETIREMENT OF TACTICAL AIRCRAFT.—The Secretary of the Air Force may not retire any tactical aircraft as announced in the Combat Air Forces structuring plan announced on May 18, 2009, until the Secretary submits to the congressional defense committees the report described in subsection (b).

(b) REPORT.—The report described in this subsection is a report that sets forth the following:

(1) A detailed plan for how the Secretary of the Air Force will fill the force structure and capability gaps resulting from the retirement of tactical aircraft under the structuring plan described in subsection (a).

(2) A description of the follow-on missions for each base affected by the structuring plan.

(3) An explanation of the criteria used for selecting the bases referred to in paragraph (2) and for the selection of tactical aircraft for retirement under the structuring plan.

(4) A plan for the reassignment of the regular and reserve Air Force personnel affected by the retirement of tactical aircraft under the structuring plan.

(5) An estimate of the cost avoidance to be achieved by the retirement of such tactical aircraft, and a description how such funds would be invested under the period covered by the most current future-years defense program.

SEC. 8120. (a) NATURE OF FULL AND OPEN COMPETITION FOR CONGRESSIONALLY DIRECTED

SPENDING ITEMS.—Each congressionally directed spending item specified in this Act or the report accompanying this Act that is intended for award to a for-profit entity shall be subject to acquisition regulations for full and open competition on the same basis as each spending item intended for a for-profit entity that is contained in the budget request of the President.

(b) EXCEPTIONS.—Subsection (a) shall not apply to any contract awarded—

(1) by a means that is required by Federal statute, including for a purchase made under a mandated preferential program;

(2) pursuant to the Small Business Act (15 U.S.C. 631 et seq.); or

(3) in an amount less than the simplified acquisition threshold described in section 302A(a) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 252a(a)).

(c) CONGRESSIONALLY DIRECTED SPENDING ITEM DEFINED.—In this section, the term “congressionally directed spending item” means the following:

(1) A congressionally directed spending item, as defined in Rule XLIV of the Standing Rules of the Senate.

(2) A congressional earmark for purposes of rule XXI of the House of Representatives.

SEC. 8121. (a) FUNDING FOR TWO-STAGE GROUND-BASED INTERCEPTOR MISSILE.—Of the amounts appropriated or otherwise made available by this Act for a long-range missile defense system in Europe, or appropriated or otherwise made available for the Department of Defense for a long-range missile defense system in Europe from the Consolidated Security Disaster Assistance, and Continuing Appropriations Act of 2009 (Public Law 110-329) and available for obligation, no less than \$50,000,000, and up to \$151,000,000 shall be available for research, development, test, and evaluation of the two-stage ground-based interceptor missile.

(b) PROHIBITION ON DIVERSION OF FUNDS.—Funds appropriated or otherwise made available by this Act for the Missile Defense Agency for the purpose of research, development, and testing of the two-stage ground based interceptor missile shall be utilized solely for that purpose, and may not be reprogrammed or otherwise utilized for any other purpose.

(c) REPORT.—Not later than February 1, 2010, the Director of the Missile Defense Agency shall submit to the congressional defense committees a report setting forth the following:

(1) A comprehensive plan for the continued development and testing of the two-stage ground-based interceptor missile, including a description how the Missile Defense Agency will leverage the development and testing of such missile to modernize the Ground-based Midcourse Defense component of the ballistic missile defense system.

(2) Options for deploying an additional Ground-based Midcourse Defense site in Europe or the United States to provide enhanced defense in response to future long-range missile threats from Iran, and a description of how such a site may be made interoperable with the planned missile defense architecture for Europe and the United States.

SEC. 8122. (a) AMOUNT FOR EVALUATIONS OF CERTAIN LASER SYSTEMS.—Of the amount appropriated or otherwise made available by title IV under the heading “RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE” and available for Advanced Weapons Technology (PE# 0603605F), up to \$5,000,000 may be available to carry out the evaluations and analyses required by subsection (b).

(b) EVALUATIONS AND ANALYSES OF CERTAIN LASER SYSTEMS.—The Secretary of Defense shall, in a manner consistent with the October 8, 2008, report of the Air Force Scientific Advisory Board entitled “Airborne Tactical Laser (ATL) Feasibility for Gunship Operations”—

(1) carry out additional enhanced user evaluations of the Advanced Tactical Laser system on a variety of instrumented targets; and

(2) enter into an agreement with a federally funded research and development center under which the center shall—

(A) conduct an analysis of the feasibility of integrating solid state laser systems onto C-130, B-1, and F-35 aircraft platforms to provide close air support; and

(B) estimate the cost per unit of such laser systems and the cost of operating and maintaining each such platform with such laser systems.

TITLE IX

OVERSEAS CONTINGENCY OPERATIONS

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For an additional amount for “Military Personnel, Army”, \$9,597,340,000.

MILITARY PERSONNEL, NAVY

For an additional amount for “Military Personnel, Navy”, \$1,175,601,000.

MILITARY PERSONNEL, MARINE CORPS

For an additional amount for “Military Personnel, Marine Corps”, \$670,722,000.

MILITARY PERSONNEL, AIR FORCE

For an additional amount for “Military Personnel, Air Force”, \$1,445,376,000.

RESERVE PERSONNEL, ARMY

For an additional amount for “Reserve Personnel, Army”, \$293,637,000.

RESERVE PERSONNEL, NAVY

For an additional amount for “Reserve Personnel, Navy”, \$37,040,000.

RESERVE PERSONNEL, MARINE CORPS

For an additional amount for “Reserve Personnel, Marine Corps”, \$31,337,000.

RESERVE PERSONNEL, AIR FORCE

For an additional amount for “Reserve Personnel, Air Force”, \$19,822,000.

NATIONAL GUARD PERSONNEL, ARMY

For an additional amount for “National Guard Personnel, Army”, \$824,966,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For an additional amount for “National Guard Personnel, Air Force”, \$9,500,000.

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For an additional amount for “Operation and Maintenance, Army”, \$51,928,167,000.

OPERATION AND MAINTENANCE, NAVY

For an additional amount for “Operation and Maintenance, Navy”, \$5,899,597,000.

OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for “Operation and Maintenance, Marine Corps”, \$3,775,270,000.

OPERATION AND MAINTENANCE, AIR FORCE

For an additional amount for “Operation and Maintenance, Air Force”, \$9,929,868,000.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

For an additional amount for “Operation and Maintenance, Defense-Wide”, \$7,550,900,000, of which:

(1) Not to exceed \$12,500,000 for the Combatant Commander Initiative Fund, to be used in support of Operation Iraqi Freedom and Operation Enduring Freedom; and

(2) Not to exceed \$1,600,000,000, to remain available until expended, for payments to reimburse key cooperating nations for logistical, military, and other support, including access provided to United States military operations in support of Operation Iraqi Freedom and Operation Enduring Freedom, notwithstanding any other provision of law: Provided, That such reimbursement payments may be made in such

amounts as the Secretary of Defense, with the concurrence of the Secretary of State, and in consultation with the Director of the Office of Management and Budget, may determine, in his discretion, based on documentation determined by the Secretary of Defense to adequately account for the support provided, and such determination is final and conclusive upon the accounting officers of the United States, and 15 days following notification to the appropriate congressional committees: Provided further, That these funds may be used for the purpose of providing specialized training and procuring supplies and specialized equipment and providing such supplies and loaning such equipment on a non-reimbursable basis to coalition forces supporting United States military operations in Iraq and Afghanistan, and 15 days following notification to the appropriate congressional committees: Provided further, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees on the use of funds provided in this paragraph.

OPERATION AND MAINTENANCE, ARMY RESERVE

For an additional amount for “Operation and Maintenance, Army Reserve”, \$234,898,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For an additional amount for “Operation and Maintenance, Navy Reserve”, \$68,059,000.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For an additional amount for “Operation and Maintenance, Marine Corps Reserve”, \$86,667,000.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For an additional amount for “Operation and Maintenance, Air Force Reserve”, \$125,925,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For an additional amount for “Operation and Maintenance, Army National Guard”, \$450,246,000.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For an additional amount for “Operation and Maintenance, Air National Guard”, \$289,862,000.

AFGHANISTAN SECURITY FORCES FUND

For the “Afghanistan Security Forces Fund”, \$6,562,769,000, to remain available until September 30, 2011: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Combined Security Transition Command—Afghanistan, or the Secretary's designee, to provide assistance, with the concurrence of the Secretary of State, to the security forces of Afghanistan, including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and funding: Provided further, That the authority to provide assistance under this heading is in addition to any other authority to provide assistance to foreign nations: Provided further, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund and used for such purposes: Provided further, That the Secretary of Defense shall notify the congressional defense committees in writing upon the receipt and upon the obligation of any contribution, delineating the sources and amounts of the funds received and the specific use of such contributions: Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to obligating from this appropriation account, notify the congressional defense committees in writing of the details of any such obligation.

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For an additional amount for “Aircraft Procurement, Army”, \$1,119,319,000, to remain available until September 30, 2012.

MISSILE PROCUREMENT, ARMY

For an additional amount for “Missile Procurement, Army”, \$475,954,000, to remain available until September 30, 2012.

PROCUREMENT OF WEAPONS AND TRACKED

COMBAT VEHICLES, ARMY

For an additional amount for “Procurement of Weapons and Tracked Combat Vehicles, Army”, \$875,866,000, to remain available until September 30, 2012.

PROCUREMENT OF AMMUNITION, ARMY

For an additional amount for “Procurement of Ammunition, Army”, \$365,635,000, to remain available until September 30, 2012.

OTHER PROCUREMENT, ARMY

For an additional amount for “Other Procurement, Army”, \$4,874,176,000, to remain available until September 30, 2012.

AIRCRAFT PROCUREMENT, NAVY

For an additional amount for “Aircraft Procurement, Navy”, \$1,342,577,000, to remain available until September 30, 2012.

WEAPONS PROCUREMENT, NAVY

For an additional amount for “Weapons Procurement, Navy”, \$50,700,000, to remain available until September 30, 2012.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For an additional amount for “Procurement of Ammunition, Navy and Marine Corps”, \$681,957,000, to remain available until September 30, 2012.

OTHER PROCUREMENT, NAVY

For an additional amount for “Other Procurement, Navy”, \$260,118,000, to remain available until September 30, 2012.

PROCUREMENT, MARINE CORPS

For an additional amount for “Procurement, Marine Corps”, \$868,197,000, to remain available until September 30, 2012.

AIRCRAFT PROCUREMENT, AIR FORCE

For an additional amount for “Aircraft Procurement, Air Force”, \$736,501,000, to remain available until September 30, 2012.

MISSILE PROCUREMENT, AIR FORCE

For an additional amount for “Missile Procurement, Air Force”, \$36,625,000, to remain available until September 30, 2012.

PROCUREMENT OF AMMUNITION, AIR FORCE

For an additional amount for “Procurement of Ammunition, Air Force”, \$256,819,000, to remain available until September 30, 2012.

OTHER PROCUREMENT, AIR FORCE

For an additional amount for “Other Procurement, Air Force”, \$3,138,021,000, to remain available until September 30, 2012.

PROCUREMENT, DEFENSE-WIDE

For an additional amount for “Procurement, Defense-Wide”, \$480,780,000, to remain available until September 30, 2012.

MINE RESISTANT AMBUSH PROTECTED VEHICLE FUND

(INCLUDING TRANSFER OF FUNDS)

For the Mine Resistant Ambush Protected Vehicle Fund, \$6,656,000,000, to remain available until September 30, 2011: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, to procure, sustain, transport, and field Mine Resistant Ambush Protected vehicles: Provided further, That the Secretary shall transfer

such funds only to appropriations for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purpose provided herein: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: Provided further, That the Secretary shall, not fewer than 10 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For an additional amount for "Research, Development, Test and Evaluation, Army", \$57,962,000, to remain available until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For an additional amount for "Research, Development, Test and Evaluation, Navy", \$84,180,000, to remain available until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For an additional amount for "Research, Development, Test and Evaluation, Air Force", \$39,286,000, to remain available until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For an additional amount for "Research, Development, Test and Evaluation, Defense-Wide", \$112,196,000, to remain available until September 30, 2011.

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For an additional amount for "Defense Working Capital Funds", \$412,215,000.

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For an additional amount for "Defense Health Program", \$1,563,675,000, which shall be for operation and maintenance.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES

For an additional amount for "Drug Interdiction and Counter-Drug Activities", \$353,603,000, to remain available until September 30, 2011.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

(INCLUDING TRANSFER OF FUNDS)

For the "Joint Improvised Explosive Device Defeat Fund", \$2,033,560,000, to remain available until September 30, 2012: Provided, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Director of the Joint Improvised Explosive Device Defeat Organization to investigate, develop and provide equipment, supplies, services, training, facilities, personnel and funds to assist United States forces in the defeat of improvised explosive devices: Provided further, That within 60 days of the enactment of this Act, a plan for the intended management and use of the amounts provided under this heading shall be submitted to the congressional defense committees: Provided further, That the Secretary of Defense shall submit a report not later than 60 days after the end of each fiscal quarter to the congressional defense committees providing assessments of the evolving threats, individual service requirements to counter the threats, the current strategy for predeployment training of members

of the Armed Forces on improvised explosive devices, and details on the execution of this Fund: Provided further, That the Secretary of Defense may transfer funds provided herein to appropriations for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purpose provided herein: Provided further, That amounts transferred shall be merged with and available for the same purposes and time period as the appropriations to which transferred: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: Provided further, That the Secretary of Defense shall, not fewer than 15 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer.

OFFICE OF THE INSPECTOR GENERAL

For an additional amount for the "Office of the Inspector General", \$8,876,000.

GENERAL PROVISIONS—THIS TITLE

SEC. 9001. Notwithstanding any other provision of law, funds made available in this title are in addition to amounts appropriated or otherwise made available for the Department of Defense for fiscal year 2010.

(INCLUDING TRANSFER OF FUNDS)

SEC. 9002. Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer up to \$4,000,000,000 between the appropriations or funds made available to the Department of Defense in this title: Provided, That the Secretary shall notify the Congress promptly of each transfer made pursuant to the authority in this section: Provided further, That the authority provided in this section is in addition to any other transfer authority available to the Department of Defense and is subject to the same terms and conditions as the authority provided in the Department of Defense Appropriations Act, 2010: Provided further, That the amount in this section is designated as being for overseas deployments and other activities pursuant to sections 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 9003. Supervision and administration costs associated with a construction project funded with appropriations available for operation and maintenance or the "Afghanistan Security Forces Fund" provided in this Act and executed in direct support of overseas contingency operations in Afghanistan, may be obligated at the time a construction contract is awarded: Provided, That for the purpose of this section, supervision and administration costs include all in-house Government costs.

SEC. 9004. From funds made available in this title, the Secretary of Defense may purchase for use by military and civilian employees of the Department of Defense in Iraq and Afghanistan: (a) passenger motor vehicles up to a limit of \$75,000 per vehicle and (b) heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$250,000 per vehicle, notwithstanding price or other limitations applicable to the purchase of passenger carrying vehicles.

SEC. 9005. Not to exceed \$1,200,000,000 of the amount appropriated in this title under the heading "Operation and Maintenance, Army" may be used, notwithstanding any other provision of law, to fund the Commander's Emergency Response Program, for the purpose of enabling military commanders in Iraq and Afghanistan to respond to urgent humanitarian relief and reconstruction requirements within their areas of responsibility: Provided, That not later than 15 days after the end of each fiscal

year quarter, the Secretary of Defense shall submit to the congressional defense committees a report regarding the source of funds and the allocation and use of funds during that quarter that were made available pursuant to the authority provided in this section or under any other provision of law for the purposes described herein.

SEC. 9006. Funds available to the Department of Defense for operation and maintenance may be used, notwithstanding any other provision of law, to provide supplies, services, transportation, including airlift and sealift, and other logistical support to coalition forces supporting military and stability operations in Iraq and Afghanistan: Provided, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding support provided under this section.

SEC. 9007. Each amount in this title is designated as being for overseas deployments and other activities pursuant to section 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 9008. None of the funds appropriated or otherwise made available by this or any other Act shall be obligated or expended by the United States Government for a purpose as follows:

(1) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Iraq.

(2) To exercise United States control over any oil resource of Iraq.

(3) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Afghanistan.

SEC. 9009. (a) The Director of the Office of Management and Budget, in consultation with the Secretary of Defense; the Commander of the United States Central Command; the Commander, Multi-National Security Transition Command—Iraq; and the Commander, Combined Security Transition Command—Afghanistan, shall submit to the congressional defense committees not later than 45 days after the end of each fiscal quarter a report on the proposed use of all funds appropriated by this or any prior Act under each of the headings "Iraq Security Forces Fund", "Afghanistan Security Forces Fund", and "Pakistan Counterinsurgency Fund" on a project-by-project basis, for which the obligation of funds is anticipated during the 3-month period from such date, including estimates by the commanders referred to in this section of the costs required to complete each such project.

(b) The report required by this subsection shall include the following:

(1) The use of all funds on a project-by-project basis for which funds appropriated under the headings referred to in subsection (a) were obligated prior to the submission of the report, including estimates by the commanders referred to in subsection (a) of the costs to complete each project.

(2) The use of all funds on a project-by-project basis for which funds were appropriated under the headings referred to in subsection (a) in prior appropriations Acts, or for which funds were made available by transfer, reprogramming, or allocation from other headings in prior appropriations Acts, including estimates by the commanders referred to in subsection (a) of the costs to complete each project.

(3) An estimated total cost to train and equip the Iraq, Afghanistan, and Pakistan security forces, disaggregated by major program and subelements by force, arrayed by fiscal year.

(c) The Secretary of Defense shall notify the congressional defense committees of any proposed new projects or transfers of funds between

sub-activity groups in excess of \$20,000,000 using funds appropriated by this or any prior Act under the headings "Iraq Security Forces Fund", "Afghanistan Security Forces Fund", and "Pakistan Counterinsurgency Fund".

SEC. 9010. (a) None of the funds appropriated or otherwise made available by this Act or any prior Act may be used to transfer, release, or incarcerate any individual who was detained as of October 1, 2009, at Naval Station, Guantanamo Bay, Cuba, to or within the United States or its territories.

(b) In this section, the term "United States" means the several States and the District of Columbia.

SEC. 9011. In addition to amounts made available elsewhere in this title there is hereby appropriated \$329,000,000 for the purchase of fuel to the following accounts in the specified amounts:

"Operation and Maintenance, Army", \$83,552,000;

"Operation and Maintenance, Navy", \$33,889,000;

"Operation and Maintenance, Marine Corps", \$1,619,000;

"Operation and Maintenance, Air Force", \$179,191,000;

"Operation and Maintenance, Army Reserve", \$8,567,000;

"Operation and Maintenance, Navy Reserve", \$3,007,000;

"Operation and Maintenance, Marine Corps Reserve", \$39,000; and

"Operation and Maintenance, Army National Guard", \$19,136,000.

SEC. 9012. None of the funds made available under this Act may be distributed to the Association of Community Organizations for Reform Now (ACORN) or its subsidiaries.

SEC. 9013. The Secretary of Defense may, in consultation with the Secretary of State and the Administrator of the United States Agency for International Development, continue to support requirements for monthly integrated civilian-military training for civilians deploying to Afghanistan at Camp Atterbury, Indiana, including through the allocation of military and civilian personnel, trainers, and other resources for that purpose.

SEC. 9014. (a) **HEARINGS ON STRATEGY AND RESOURCES WITH RESPECT TO AFGHANISTAN AND PAKISTAN.**—Appropriate committees of Congress shall hold hearings, in open and closed session, relating to the strategy and resources of the United States with respect to Afghanistan and Pakistan promptly after the decision by the President on those matters is announced.

(b) **TESTIMONY.**—The hearings described in subsection (a) should include testimony from senior civilian and military officials of the United States, including, but not limited to, the following:

- (1) The Secretary of Defense.
- (2) The Secretary of State
- (3) The Chairman of the Joint Chiefs of Staff.
- (4) The Commander of the United States Central Command.
- (5) The Commander of the United States European Command and Supreme Allied Commander, Europe.
- (6) The Commander of United States Forces-Afghanistan.
- (7) The United States Ambassador to Afghanistan.
- (8) The United States Ambassador to Pakistan.

SEC. 9015. (a) **FUNDING FOR OUTREACH AND REINTEGRATION SERVICES UNDER YELLOW RIBBON REINTEGRATION PROGRAM.**—Of the amounts appropriated or otherwise made available by title IX. \$20,000,000 shall be available for outreach and reintegration services under the Yellow Ribbon Reintegration Program under section 582(h) of the National Defense Authoriza-

tion Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 125; 10 U.S.C. 10101 note).

(b) **SUPPLEMENT NOT SUPPLANT.**—The amount made available by subsection (a) for the services described in that subsection is in addition to any other amounts available in this Act for such services.

This Act may be cited as the "Department of Defense Appropriations Act, 2010".

MOTION OFFERED BY MR. MURTHA

Mr. MURTHA. Madam Speaker, I offer the motion at the desk.

The SPEAKER pro tempore. The Clerk will designate the motion.

The text of the motion is as follows:

Mr. Murtha moves that the House concur in the amendment of the Senate with the amendment printed in House Report 111-380.

The SPEAKER pro tempore. The House amendment to the Senate amendment to the bill H.R. 3326 contains an emergency designation for the purposes of pay-as-you-go principles.

Accordingly, the Chair must put the question of consideration under clause 10(c)(3) of rule XXI.

The question is, Will the House now consider the motion to concur in the Senate amendment with an amendment?

The question of consideration was decided in the affirmative.

A motion to reconsider was laid on the table.

The SPEAKER pro tempore. Pursuant to House Resolution 976, the amendment printed in part A of House Report 111-380 and the motion shall be considered as read.

The text of the amendment is as follows:

House amendment to Senate amendment:

In lieu of the matter proposed to be inserted by the amendment of the Senate, insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Department of Defense Appropriations Act, 2010".

SEC. 2. TABLE OF CONTENTS.

The table of contents of this Act is as follows:

Sec. 1. Short title.

Sec. 2. Table of contents.

Sec. 3. References.

DIVISION A—DEPARTMENT OF DEFENSE APPROPRIATIONS

Title I—Military Personnel

Title II—Operation and Maintenance

Title III—Procurement

Title IV—Research, Development, Test and Evaluation

Title V—Revolving and Management Funds

Title VI—Other Department of Defense Programs

Title VII—Related Agencies

Title VIII—General Provisions

Title IX—Overseas Contingency Operations

DIVISION B—OTHER MATTERS

SEC. 3. REFERENCES.

Except as expressly provided otherwise, any reference to "this Act" contained in any division of this Act shall be treated as referring only to the provisions of that division.

DIVISION A—DEPARTMENT OF DEFENSE APPROPRIATIONS

The following sums are appropriated, out of any money in the Treasury not otherwise

appropriated, for the fiscal year ending September 30, 2010, for military functions administered by the Department of Defense and for other purposes, namely:

TITLE I

MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Army on active duty, (except members of reserve components provided for elsewhere), cadets, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$41,005,612,000.

MILITARY PERSONNEL, NAVY

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Navy on active duty (except members of the Reserve provided for elsewhere), midshipmen, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$25,289,049,000.

MILITARY PERSONNEL, MARINE CORPS

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Marine Corps on active duty (except members of the Reserve provided for elsewhere); and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$12,799,990,000.

MILITARY PERSONNEL, AIR FORCE

For pay, allowances, individual clothing, subsistence, interest on deposits, gratuities, permanent change of station travel (including all expenses thereof for organizational movements), and expenses of temporary duty travel between permanent duty stations, for members of the Air Force on active duty (except members of reserve components provided for elsewhere), cadets, and aviation cadets; for members of the Reserve Officers' Training Corps; and for payments pursuant to section 156 of Public Law 97-377, as amended (42 U.S.C. 402 note), and to the Department of Defense Military Retirement Fund, \$26,174,136,000.

RESERVE PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army Reserve on active duty under sections 10211, 10302, and 3038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and expenses authorized by section

16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$4,304,713,000.

RESERVE PERSONNEL, NAVY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Navy Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$1,909,301,000.

RESERVE PERSONNEL, MARINE CORPS

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Marine Corps Reserve on active duty under section 10211 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty, and for members of the Marine Corps platoon leaders class, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$613,500,000.

RESERVE PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air Force Reserve on active duty under sections 10211, 10305, and 8038 of title 10, United States Code, or while serving on active duty under section 12301(d) of title 10, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing reserve training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$1,589,412,000.

NATIONAL GUARD PERSONNEL, ARMY

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Army National Guard while on duty under section 10211, 10302, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United States Code; and for payments to the Department of Defense Military Retirement Fund, \$7,546,905,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For pay, allowances, clothing, subsistence, gratuities, travel, and related expenses for personnel of the Air National Guard on duty under section 10211, 10305, or 12402 of title 10 or section 708 of title 32, United States Code, or while serving on duty under section 12301(d) of title 10 or section 502(f) of title 32, United States Code, in connection with performing duty specified in section 12310(a) of title 10, United States Code, or while undergoing training, or while performing drills or equivalent duty or other duty, and expenses authorized by section 16131 of title 10, United

States Code; and for payments to the Department of Defense Military Retirement Fund, \$2,938,229,000.

TITLE II

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Army, as authorized by law; and not to exceed \$12,478,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Army, and payments may be made on his certificate of necessity for confidential military purposes, \$30,934,550,000.

OPERATION AND MAINTENANCE, NAVY

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Navy and the Marine Corps, as authorized by law; and not to exceed \$14,657,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Navy, and payments may be made on his certificate of necessity for confidential military purposes, \$34,714,396,000.

OPERATION AND MAINTENANCE, MARINE CORPS

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Marine Corps, as authorized by law, \$5,539,117,000.

OPERATION AND MAINTENANCE, AIR FORCE

For expenses, not otherwise provided for, necessary for the operation and maintenance of the Air Force, as authorized by law; and not to exceed \$7,699,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of the Air Force, and payments may be made on his certificate of necessity for confidential military purposes, \$33,477,116,000.

OPERATION AND MAINTENANCE, DEFENSE-WIDE (INCLUDING TRANSFER OF FUNDS)

For expenses, not otherwise provided for, necessary for the operation and maintenance of activities and agencies of the Department of Defense (other than the military departments), as authorized by law, \$28,115,793,000: *Provided*, That not more than \$50,000,000 may be used for the Combatant Commander Initiative Fund authorized under section 166a of title 10, United States Code: *Provided further*, That not to exceed \$36,000,000 can be used for emergencies and extraordinary expenses, to be expended on the approval or authority of the Secretary of Defense, and payments may be made on his certificate of necessity for confidential military purposes: *Provided further*, That of the funds provided under this heading, not less than \$29,732,000 shall be made available for the Procurement Technical Assistance Cooperative Agreement Program, of which not less than \$3,600,000 shall be available for centers defined in 10 U.S.C. 2411(1)(D): *Provided further*, That none of the funds appropriated or otherwise made available by this Act may be used to plan or implement the consolidation of a budget or appropriations liaison office of the Office of the Secretary of Defense, the office of the Secretary of a military department, or the service headquarters of one of the Armed Forces into a legislative affairs or legislative liaison office: *Provided further*, That \$6,667,000, to remain available until expended, is available only for expenses relating to certain classified activities, and may be transferred as necessary by the Secretary to operation and maintenance appropriations

or research, development, test and evaluation appropriations, to be merged with and to be available for the same time period as the appropriations to which transferred: *Provided further*, That any ceiling on the investment item unit cost of items that may be purchased with operation and maintenance funds shall not apply to the funds described in the preceding proviso: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

OPERATION AND MAINTENANCE, ARMY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Army Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$2,617,496,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Navy Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$1,273,701,000.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Marine Corps Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$223,175,000.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For expenses, not otherwise provided for, necessary for the operation and maintenance, including training, organization, and administration, of the Air Force Reserve; repair of facilities and equipment; hire of passenger motor vehicles; travel and transportation; care of the dead; recruiting; procurement of services, supplies, and equipment; and communications, \$3,131,200,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For expenses of training, organizing, and administering the Army National Guard, including medical and hospital treatment and related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; hire of passenger motor vehicles; personnel services in the National Guard Bureau; travel expenses (other than mileage), as authorized by law for Army personnel on active duty, for Army National Guard division, regimental, and battalion commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau; supplying and equipping the Army National Guard as authorized by law; and expenses of repair, modification, maintenance, and issue of supplies and equipment (including aircraft), \$6,189,713,000.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For expenses of training, organizing, and administering the Air National Guard, including medical and hospital treatment and

related expenses in non-Federal hospitals; maintenance, operation, and repairs to structures and facilities; transportation of things, hire of passenger motor vehicles; supplying and equipping the Air National Guard, as authorized by law; expenses for repair, modification, maintenance, and issue of supplies and equipment, including those furnished from stocks under the control of agencies of the Department of Defense; travel expenses (other than mileage) on the same basis as authorized by law for Air National Guard personnel on active Federal duty, for Air National Guard commanders while inspecting units in compliance with National Guard Bureau regulations when specifically authorized by the Chief, National Guard Bureau, \$5,882,251,000.

UNITED STATES COURT OF APPEALS FOR THE ARMED FORCES

For salaries and expenses necessary for the United States Court of Appeals for the Armed Forces, \$13,932,000, of which not to exceed \$5,000 may be used for official representation purposes.

ENVIRONMENTAL RESTORATION, ARMY
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$423,364,000, to remain available until transferred: *Provided*, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Army, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, NAVY
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Navy, \$285,869,000, to remain available until transferred: *Provided*, That the Secretary of the Navy shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Navy, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Navy, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, AIR FORCE
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Air Force, \$494,276,000, to remain available until transferred: *Provided*, That the Secretary of the Air Force shall, upon determining that such

funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of the Air Force, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Air Force, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, DEFENSE-WIDE
(INCLUDING TRANSFER OF FUNDS)

For the Department of Defense, \$11,100,000, to remain available until transferred: *Provided*, That the Secretary of Defense shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris of the Department of Defense, or for similar purposes, transfer the funds made available by this appropriation to other appropriations made available to the Department of Defense, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

ENVIRONMENTAL RESTORATION, FORMERLY USED DEFENSE SITES
(INCLUDING TRANSFER OF FUNDS)

For the Department of the Army, \$292,700,000, to remain available until transferred: *Provided*, That the Secretary of the Army shall, upon determining that such funds are required for environmental restoration, reduction and recycling of hazardous waste, removal of unsafe buildings and debris at sites formerly used by the Department of Defense, transfer the funds made available by this appropriation to other appropriations made available to the Department of the Army, to be merged with and to be available for the same purposes and for the same time period as the appropriations to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority provided elsewhere in this Act.

OVERSEAS HUMANITARIAN, DISASTER, AND CIVIC AID

For expenses relating to the Overseas Humanitarian, Disaster, and Civic Aid programs of the Department of Defense (consisting of the programs provided under sections 401, 402, 404, 407, 2557, and 2561 of title 10, United States Code), \$109,869,000, to remain available until September 30, 2011.

COOPERATIVE THREAT REDUCTION ACCOUNT

For assistance to the republics of the former Soviet Union and, with appropriate

authorization by the Department of Defense and Department of State, to countries outside of the former Soviet Union, including assistance provided by contract or by grants, for facilitating the elimination and the safe and secure transportation and storage of nuclear, chemical and other weapons; for establishing programs to prevent the proliferation of weapons, weapons components, and weapon-related technology and expertise; for programs relating to the training and support of defense and military personnel for demilitarization and protection of weapons, weapons components and weapons technology and expertise, and for defense and military contacts, \$424,093,000, to remain available until September 30, 2012: *Provided*, That of the amounts provided under this heading, not less than \$15,000,000 shall be available only to support the dismantling and disposal of nuclear submarines, submarine reactor components, and security enhancements for transport and storage of nuclear warheads in the Russian Far East and North.

DEPARTMENT OF DEFENSE ACQUISITION
WORKFORCE DEVELOPMENT FUND

For the Department of Defense Acquisition Workforce Development Fund, \$100,000,000.

TITLE III
PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$5,093,822,000, to remain available for obligation until September 30, 2012.

MISSILE PROCUREMENT, ARMY

For construction, procurement, production, modification, and modernization of missiles, equipment, including ordnance, ground handling equipment, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$1,251,053,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For construction, procurement, production, and modification of weapons and tracked combat vehicles, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-

owned equipment layaway; and other expenses necessary for the foregoing purposes, \$2,335,807,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF AMMUNITION, ARMY

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$2,056,115,000, to remain available for obligation until September 30, 2012.

OTHER PROCUREMENT, ARMY

For construction, procurement, production, and modification of vehicles, including tactical, support, and non-tracked combat vehicles; the purchase of passenger motor vehicles for replacement only; and the purchase of eight vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; communications and electronic equipment; other support equipment; spare parts, ordnance, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$8,582,660,000, to remain available for obligation until September 30, 2012.

AIRCRAFT PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of aircraft, equipment, including ordnance, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$18,643,221,000, to remain available for obligation until September 30, 2012.

WEAPONS PROCUREMENT, NAVY

For construction, procurement, production, modification, and modernization of missiles, torpedoes, other weapons, and related support equipment including spare parts, and accessories therefor; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$3,357,572,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$800,651,000, to remain available for obligation until September 30, 2012.

SHIPBUILDING AND CONVERSION, NAVY

For expenses necessary for the construction, acquisition, or conversion of vessels as authorized by law, including armor and armament thereof, plant equipment, appliances, and machine tools and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; procurement of critical, long lead time components and designs for vessels to be constructed or converted in the future; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, as follows:

Carrier Replacement Program, \$739,269,000;
Carrier Replacement Program (AP), \$484,432,000;
NSSN, \$1,964,317,000;
NSSN (AP), \$1,959,725,000;
CVN Refueling, \$1,563,602,000;
CVN Refuelings (AP), \$211,820,000;
DDG-1000 Program, \$1,382,797,000;
DDG-51 Destroyer, \$1,912,267,000;
DDG-51 Destroyer (AP), \$578,996,000;
Littoral Combat Ship, \$1,080,000,000;
LPD-17, \$872,392,000;
LPD-17 (AP), \$184,555,000;
LHA-R (AP), \$170,000,000;
Intratheater Connector, \$177,956,000;
LCAC Service Life Extension Program, \$63,857,000;

Prior year shipbuilding costs, \$144,950,000;
Service Craft, \$3,694,000; and

For outfitting, post delivery, conversions, and first destination transportation, \$386,903,000.

In all: \$13,881,532,000, to remain available for obligation until September 30, 2014: *Provided*, That additional obligations may be incurred after September 30, 2014, for engineering services, tests, evaluations, and other such budgeted work that must be performed in the final stage of ship construction: *Provided further*, That none of the funds provided under this heading for the construction or conversion of any naval vessel to be constructed in shipyards in the United States shall be expended in foreign facilities for the construction of major components of such vessel: *Provided further*, That none of the funds provided under this heading shall be used for the construction of any naval vessel in foreign shipyards.

OTHER PROCUREMENT, NAVY

For procurement, production, and modernization of support equipment and materials not otherwise provided for, Navy ordnance (except ordnance for new aircraft, new ships, and ships authorized for conversion); the purchase of passenger motor vehicles for replacement only, and the purchase of seven

vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; expansion of public and private plants, including the land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway, \$5,441,234,000, to remain available for obligation until September 30, 2012.

PROCUREMENT, MARINE CORPS

For expenses necessary for the procurement, manufacture, and modification of missiles, armament, military equipment, spare parts, and accessories therefor; plant equipment, appliances, and machine tools, and installation thereof in public and private plants; reserve plant and Government and contractor-owned equipment layaway; vehicles for the Marine Corps, including the purchase of passenger motor vehicles for replacement only; and expansion of public and private plants, including land necessary therefor, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title, \$1,521,505,000, to remain available for obligation until September 30, 2012.

AIRCRAFT PROCUREMENT, AIR FORCE

For construction, procurement, and modification of aircraft and equipment, including armor and armament, specialized ground handling equipment, and training devices, spare parts, and accessories therefor; specialized equipment; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things, \$13,295,474,000, to remain available for obligation until September 30, 2012: *Provided*, That none of the funds provided in this Act for modification of C-17 aircraft may be obligated until all C-17 contracts funded with prior year "Aircraft Procurement, Air Force" appropriated funds are definitized unless the Secretary of the Air Force certifies in writing to the congressional defense committees that each such obligation is necessary to meet the needs of a warfighting requirement or prevents increased costs to the taxpayer and provides the reasons for failing to definitize the prior year contracts along with the prospective contract definitization schedule.

MISSILE PROCUREMENT, AIR FORCE

For construction, procurement, and modification of missiles, spacecraft, rockets, and related equipment, including spare parts and accessories therefor, ground handling equipment, and training devices; expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes including rents and transportation of things, \$5,995,544,000, to remain available for obligation until September 30, 2012.

PROCUREMENT OF AMMUNITION, AIR FORCE

For construction, procurement, production, and modification of ammunition, and accessories therefor; specialized equipment and training devices; expansion of public and private plants, including ammunition facilities, authorized by section 2854 of title 10, United States Code, and the land necessary therefor, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; and procurement and installation of equipment, appliances, and machine tools in public and private plants; reserve plant and Government and contractor-owned equipment layaway; and other expenses necessary for the foregoing purposes, \$801,550,000, to remain available for obligation until September 30, 2012.

OTHER PROCUREMENT, AIR FORCE

For procurement and modification of equipment (including ground guidance and electronic control equipment, and ground electronic and communication equipment), and supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of passenger motor vehicles for replacement only, and the purchase of two vehicles required for physical security of personnel, notwithstanding price limitations applicable to passenger vehicles but not to exceed \$250,000 per vehicle; lease of passenger motor vehicles; and expansion of public and private plants, Government-owned equipment and installation thereof in such plants, erection of structures, and acquisition of land, for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon, prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, \$17,138,239,000, to remain available for obligation until September 30, 2012.

PROCUREMENT, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments) necessary for procurement, production, and modification of equipment, supplies, materials, and spare parts therefor, not otherwise provided for; the purchase of passenger motor vehicles for replacement only; expansion of public and private plants, equipment, and installation thereof in such plants, erection of structures, and acquisition of land for the foregoing purposes, and such lands and interests therein, may be acquired, and construction prosecuted thereon prior to approval of title; reserve plant and Government and contractor-owned equipment layaway, \$4,050,537,000, to remain available for obligation until September 30, 2012.

DEFENSE PRODUCTION ACT PURCHASES

For activities by the Department of Defense pursuant to sections 108, 301, 302, and 303 of the Defense Production Act of 1950 (50 U.S.C. App. 2078, 2091, 2092, and 2093), \$150,746,000, to remain available until expended.

TITLE IV

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$11,474,180,000, to remain available for obligation until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$20,003,463,000, to remain available for obligation until September 30, 2011: *Provided*, That funds appropriated in this paragraph which are available for the V-22 may be used to meet unique operational requirements of the Special Operations Forces: *Provided further*, That funds appropriated in this paragraph shall be available for the Cobra Judy program.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For expenses necessary for basic and applied scientific research, development, test and evaluation, including maintenance, rehabilitation, lease, and operation of facilities and equipment, \$28,121,985,000, to remain available for obligation until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For expenses of activities and agencies of the Department of Defense (other than the military departments), necessary for basic and applied scientific research, development, test and evaluation; advanced research projects as may be designated and determined by the Secretary of Defense, pursuant to law; maintenance, rehabilitation, lease, and operation of facilities and equipment, \$20,747,081,000, to remain available for obligation until September 30, 2011, of which \$2,500,000 shall be available only for the Missile Defense Agency to construct a replacement Patriot launcher pad for the Japanese Ministry of Defense.

OPERATIONAL TEST AND EVALUATION, DEFENSE

For expenses, not otherwise provided for, necessary for the independent activities of the Director, Operational Test and Evaluation, in the direction and supervision of operational test and evaluation, including initial operational test and evaluation which is conducted prior to, and in support of, production decisions; joint operational testing and evaluation; and administrative expenses in connection therewith, \$190,770,000, to remain available for obligation until September 30, 2011.

TITLE V

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Funds, \$1,455,004,000.

NATIONAL DEFENSE SEALIFT FUND

For National Defense Sealift Fund programs, projects, and activities, and for expenses of the National Defense Reserve Fleet, as established by section 11 of the Merchant Ship Sales Act of 1946 (50 U.S.C. App. 1744), and for the necessary expenses to maintain and preserve a U.S.-flag merchant fleet to serve the national security needs of the United States, \$1,672,758,000, to remain available until expended: *Provided*, That none of the funds provided in this paragraph shall be used to award a new contract that provides for the acquisition of any of the following major components unless such components are manufactured in the United States: auxiliary equipment, including pumps, for all shipboard services; propulsion system components (engines, reduction gears, and propellers); shipboard cranes; and spreaders for shipboard cranes: *Provided fur-*

ther, That the exercise of an option in a contract awarded through the obligation of previously appropriated funds shall not be considered to be the award of a new contract: *Provided further*, That the Secretary of the military department responsible for such procurement may waive the restrictions in the first proviso on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes.

TITLE VI

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For expenses, not otherwise provided for, for medical and health care programs of the Department of Defense as authorized by law, \$29,243,428,000; of which \$27,596,689,000 shall be for operation and maintenance, of which not to exceed one percent shall remain available until September 30, 2011, and of which up to \$15,093,539,000 may be available for contracts entered into under the TRICARE program; of which \$366,692,000, to remain available for obligation until September 30, 2012, shall be for procurement; and of which \$1,280,047,000, to remain available for obligation until September 30, 2011, shall be for research, development, test and evaluation: *Provided*, That, notwithstanding any other provision of law, of the amount made available under this heading for research, development, test and evaluation, not less than \$10,000,000 shall be available for HIV prevention educational activities undertaken in connection with United States military training, exercises, and humanitarian assistance activities conducted primarily in African nations.

CHEMICAL AGENTS AND MUNITIONS

DESTRUCTION, DEFENSE

For expenses, not otherwise provided for, necessary for the destruction of the United States stockpile of lethal chemical agents and munitions, to include construction of facilities, in accordance with the provisions of section 1412 of the Department of Defense Authorization Act, 1986 (50 U.S.C. 1521), and for the destruction of other chemical warfare materials that are not in the chemical weapon stockpile, \$1,560,760,000, of which \$1,146,802,000 shall be for operation and maintenance, of which no less than \$84,839,000, shall be for the Chemical Stockpile Emergency Preparedness Program, consisting of \$34,905,000 for activities on military installations and \$49,934,000, to remain available until September 30, 2011, to assist State and local governments; \$12,689,000 shall be for procurement, to remain available until September 30, 2012, of which no less than \$12,689,000 shall be for the Chemical Stockpile Emergency Preparedness Program to assist State and local governments; and \$401,269,000, to remain available until September 30, 2011, shall be for research, development, test and evaluation, of which \$398,669,000 shall only be for the Assembled Chemical Weapons Alternatives (ACWA) program.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES, DEFENSE

(INCLUDING TRANSFER OF FUNDS)

For drug interdiction and counter-drug activities of the Department of Defense, for transfer to appropriations available to the Department of Defense for military personnel of the reserve components serving

under the provisions of title 10 and title 32, United States Code; for operation and maintenance; for procurement; and for research, development, test and evaluation, \$1,158,226,000: *Provided*, That the funds appropriated under this heading shall be available for obligation for the same time period and for the same purpose as the appropriation to which transferred: *Provided further*, That upon a determination that all or part of the funds transferred from this appropriation are not necessary for the purposes provided herein, such amounts may be transferred back to this appropriation: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority contained elsewhere in this Act.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

(INCLUDING TRANSFER OF FUNDS)

For the "Joint Improvised Explosive Device Defeat Fund", \$121,550,000 for Staff and Infrastructure: *Provided*, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Director of the Joint Improvised Explosive Device Defeat Organization to investigate, develop and provide equipment, supplies, services, training, facilities, personnel and funds to assist United States forces in the defeat of improvised explosive devices: *Provided further*, That within 60 days of the enactment of this Act, a plan for the intended management and use of the amounts provided under this heading shall be submitted to the congressional defense committees: *Provided further*, That the Secretary of Defense shall submit a report not later than 60 days after the end of each fiscal quarter to the congressional defense committees providing assessments of the evolving threats, individual service requirements to counter the threats, the current strategy for predeployment training of members of the Armed Forces on improvised explosive devices, and details on the execution of the Fund: *Provided further*, That the Secretary of Defense may transfer funds provided herein to appropriations for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purpose provided herein: *Provided further*, That amounts transferred shall be merged with and available for the same purposes and time period as the appropriations to which transferred: *Provided further*, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That the Secretary of Defense shall, not fewer than 15 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer.

OFFICE OF THE INSPECTOR GENERAL

For expenses and activities of the Office of the Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$288,100,000, of which \$287,100,000 shall be for operation and maintenance, of which not to exceed \$700,000 is available for emergencies and extraordinary expenses to be expended on the approval or authority of the Inspector General, and payments may be made on the Inspector General's certificate of necessity for confidential military purposes; and of which \$1,000,000, to remain available until September 30, 2012, shall be for procurement.

TITLE VII

RELATED AGENCIES

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For payment to the Central Intelligence Agency Retirement and Disability System Fund, to maintain the proper funding level for continuing the operation of the Central Intelligence Agency Retirement and Disability System, \$290,900,000.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

For necessary expenses of the Intelligence Community Management Account, \$707,912,000.

TITLE VIII

GENERAL PROVISIONS

SEC. 8001. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes not authorized by the Congress.

SEC. 8002. During the current fiscal year, provisions of law prohibiting the payment of compensation to, or employment of, any person not a citizen of the United States shall not apply to personnel of the Department of Defense: *Provided*, That salary increases granted to direct and indirect hire foreign national employees of the Department of Defense funded by this Act shall not be at a rate in excess of the percentage increase authorized by law for civilian employees of the Department of Defense whose pay is computed under the provisions of section 5332 of title 5, United States Code, or at a rate in excess of the percentage increase provided by the appropriate host nation to its own employees, whichever is higher: *Provided further*, That this section shall not apply to Department of Defense foreign service national employees serving at United States diplomatic missions whose pay is set by the Department of State under the Foreign Service Act of 1980: *Provided further*, That the limitations of this provision shall not apply to foreign national employees of the Department of Defense in the Republic of Turkey.

SEC. 8003. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year, unless expressly so provided herein.

SEC. 8004. No more than 20 percent of the appropriations in this Act which are limited for obligation during the current fiscal year shall be obligated during the last 2 months of the fiscal year: *Provided*, That this section shall not apply to obligations for support of active duty training of reserve components or summer camp training of the Reserve Officers' Training Corps.

(TRANSFER OF FUNDS)

SEC. 8005. Upon determination by the Secretary of Defense that such action is necessary in the national interest, he may, with the approval of the Office of Management and Budget, transfer not to exceed \$4,000,000,000 of working capital funds of the Department of Defense or funds made available in this Act to the Department of Defense for military functions (except military construction) between such appropriations or funds or any subdivision thereof, to be merged with and to be available for the same purposes, and for the same time period, as the appropriation or fund to which transferred: *Provided*, That such authority to transfer may not be used unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress: *Provided further*,

That the Secretary of Defense shall notify the Congress promptly of all transfers made pursuant to this authority or any other authority in this Act: *Provided further*, That no part of the funds in this Act shall be available to prepare or present a request to the Committees on Appropriations for reprogramming of funds, unless for higher priority items, based on unforeseen military requirements, than those for which originally appropriated and in no case where the item for which reprogramming is requested has been denied by the Congress: *Provided further*, That a request for multiple reprogrammings of funds using authority provided in this section shall be made prior to June 30, 2010: *Provided further*, That transfers among military personnel appropriations shall not be taken into account for purposes of the limitation on the amount of funds that may be transferred under this section: *Provided further*, That no obligation of funds may be made pursuant to section 1206 of Public Law 109-163 (or any successor provision) unless the Secretary of Defense has notified the congressional defense committees prior to any such obligation.

SEC. 8006. (a) With regard to the list of specific programs, projects, and activities (and the dollar amounts and adjustments to budget activities corresponding to such programs, projects, and activities) contained in the tables titled "Explanation of Project Level Adjustments" in the explanatory statement regarding this Act, the obligation and expenditure of amounts appropriated or otherwise made available in this Act for those programs, projects, and activities for which the amounts appropriated exceed the amounts requested are hereby required by law to be carried out in the manner provided by such tables to the same extent as if the tables were included in the text of this Act.

(b) Amounts specified in the referenced tables described in subsection (a) shall not be treated as subdivisions of appropriations for purposes of section 8005 of this Act: *Provided*, That section 8005 shall apply when transfers of the amounts described in subsection (a) occur between appropriation accounts.

SEC. 8007. (a) Not later than 60 days after enactment of this Act, the Department of Defense shall submit a report to the congressional defense committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2010: *Provided*, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation both by budget activity and program, project, and activity as detailed in the Budget Appendix; and

(3) an identification of items of special congressional interest.

(b) Notwithstanding section 8005 of this Act, none of the funds provided in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional defense committees, unless the Secretary of Defense certifies in writing to the congressional defense committees that such reprogramming or transfer is necessary as an emergency requirement.

SEC. 8008. The Secretaries of the Air Force and the Army are authorized, using funds available under the headings "Operation and Maintenance, Air Force" and "Operation and Maintenance, Army", to complete facility

conversions and phased repair projects which may include upgrades and additions to Alaskan range infrastructure and training areas, and improved access to these ranges.

(TRANSFER OF FUNDS)

SEC. 8009. During the current fiscal year, cash balances in working capital funds of the Department of Defense established pursuant to section 2208 of title 10, United States Code, may be maintained in only such amounts as are necessary at any time for cash disbursements to be made from such funds: *Provided*, That transfers may be made between such funds: *Provided further*, That transfers may be made between working capital funds and the "Foreign Currency Fluctuations, Defense" appropriation and the "Operation and Maintenance" appropriation accounts in such amounts as may be determined by the Secretary of Defense, with the approval of the Office of Management and Budget, except that such transfers may not be made unless the Secretary of Defense has notified the Congress of the proposed transfer. Except in amounts equal to the amounts appropriated to working capital funds in this Act, no obligations may be made against a working capital fund to procure or increase the value of war reserve material inventory, unless the Secretary of Defense has notified the Congress prior to any such obligation.

SEC. 8010. Funds appropriated by this Act may not be used to initiate a special access program without prior notification 30 calendar days in advance to the congressional defense committees.

SEC. 8011. None of the funds provided in this Act shall be available to initiate: (1) a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year of the contract or that includes an unfunded contingent liability in excess of \$20,000,000; or (2) a contract for advance procurement leading to a multiyear contract that employs economic order quantity procurement in excess of \$20,000,000 in any one year, unless the congressional defense committees have been notified at least 30 days in advance of the proposed contract award: *Provided*, That no part of any appropriation contained in this Act shall be available to initiate a multiyear contract for which the economic order quantity advance procurement is not funded at least to the limits of the Government's liability: *Provided further*, That no part of any appropriation contained in this Act shall be available to initiate multiyear procurement contracts for any systems or component thereof if the value of the multiyear contract would exceed \$500,000,000 unless specifically provided in this Act: *Provided further*, That no multiyear procurement contract can be terminated without 10-day prior notification to the congressional defense committees: *Provided further*, That the execution of multiyear authority shall require the use of a present value analysis to determine lowest cost compared to an annual procurement: *Provided further*, That none of the funds provided in this Act may be used for a multiyear contract executed after the date of the enactment of this Act unless in the case of any such contract—

(1) the Secretary of Defense has submitted to Congress a report within 30 days of enactment of this Act that certifies full funding of units to be procured through the contract and, in the case of a contract for procurement of aircraft, that includes, for any aircraft unit to be procured through the contract for which procurement funds are identified in that report for production beyond advance procurement activities in the fiscal

year 2010 budget, full funding of procurement of such unit in that fiscal year;

(2) cancellation provisions in the contract do not include consideration of recurring manufacturing costs of the contractor associated with the production of unfunded units to be delivered under the contract;

(3) the contract provides that payments to the contractor under the contract shall not be made in advance of incurred costs on funded units; and

(4) the contract does not provide for a price adjustment based on a failure to award a follow-on contract.

Funds appropriated in title III of this Act may be used for a multiyear procurement contract as follows:

F-18 aircraft variants.

SEC. 8012. Within the funds appropriated for the operation and maintenance of the Armed Forces, funds are hereby appropriated pursuant to section 401 of title 10, United States Code, for humanitarian and civic assistance costs under chapter 20 of title 10, United States Code. Such funds may also be obligated for humanitarian and civic assistance costs incidental to authorized operations and pursuant to authority granted in section 401 of chapter 20 of title 10, United States Code, and these obligations shall be reported as required by section 401(d) of title 10, United States Code: *Provided*, That funds available for operation and maintenance shall be available for providing humanitarian and similar assistance by using Civic Action Teams in the Trust Territories of the Pacific Islands and freely associated states of Micronesia, pursuant to the Compact of Free Association as authorized by Public Law 99-239: *Provided further*, That upon a determination by the Secretary of the Army that such action is beneficial for graduate medical education programs conducted at Army medical facilities located in Hawaii, the Secretary of the Army may authorize the provision of medical services at such facilities and transportation to such facilities, on a nonreimbursable basis, for civilian patients from American Samoa, the Commonwealth of the Northern Mariana Islands, the Marshall Islands, the Federated States of Micronesia, Palau, and Guam.

SEC. 8013. (a) During fiscal year 2010, the civilian personnel of the Department of Defense may not be managed on the basis of any end-strength, and the management of such personnel during that fiscal year shall not be subject to any constraint or limitation (known as an end-strength) on the number of such personnel who may be employed on the last day of such fiscal year.

(b) The fiscal year 2011 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2011 Department of Defense budget request shall be prepared and submitted to the Congress as if subsections (a) and (b) of this provision were effective with regard to fiscal year 2011.

(c) Nothing in this section shall be construed to apply to military (civilian) technicians.

SEC. 8014. None of the funds made available by this Act shall be used in any way, directly or indirectly, to influence congressional action on any legislation or appropriation matters pending before the Congress.

SEC. 8015. None of the funds appropriated by this Act shall be available for the basic pay and allowances of any member of the Army participating as a full-time student and receiving benefits paid by the Secretary of Veterans Affairs from the Department of Defense Education Benefits Fund when time

spent as a full-time student is credited toward completion of a service commitment: *Provided*, That this section shall not apply to those members who have reenlisted with this option prior to October 1, 1987: *Provided further*, That this section applies only to active components of the Army.

SEC. 8016. (a) None of the funds appropriated by this Act shall be available to convert to contractor performance an activity or function of the Department of Defense that, on or after the date of the enactment of this Act, is performed by more than 10 Department of Defense civilian employees unless—

(1) the conversion is based on the result of a public-private competition that includes a most efficient and cost effective organization plan developed by such activity or function;

(2) the Competitive Sourcing Official determines that, over all performance periods stated in the solicitation of offers for performance of the activity or function, the cost of performance of the activity or function by a contractor would be less costly to the Department of Defense by an amount that equals or exceeds the lesser of—

(A) 10 percent of the most efficient organization's personnel-related costs for performance of that activity or function by Federal employees; or

(B) \$10,000,000; and

(3) the contractor does not receive an advantage for a proposal that would reduce costs for the Department of Defense by—

(A) not making an employer-sponsored health insurance plan available to the workers who are to be employed in the performance of that activity or function under the contract; or

(B) offering to such workers an employer-sponsored health benefits plan that requires the employer to contribute less towards the premium or subscription share than the amount that is paid by the Department of Defense for health benefits for civilian employees under chapter 89 of title 5, United States Code.

(b)(1) The Department of Defense, without regard to subsection (a) of this section or subsection (a), (b), or (c) of section 2461 of title 10, United States Code, and notwithstanding any administrative regulation, requirement, or policy to the contrary shall have full authority to enter into a contract for the performance of any commercial or industrial type function of the Department of Defense that—

(A) is included on the procurement list established pursuant to section 2 of the Javits-Wagner-O'Day Act (41 U.S.C. 47);

(B) is planned to be converted to performance by a qualified nonprofit agency for the blind or by a qualified nonprofit agency for other severely handicapped individuals in accordance with that Act; or

(C) is planned to be converted to performance by a qualified firm under at least 51 percent ownership by an Indian tribe, as defined in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)), or a Native Hawaiian Organization, as defined in section 8(a)(15) of the Small Business Act (15 U.S.C. 637(a)(15)).

(2) This section shall not apply to depot contracts or contracts for depot maintenance as provided in sections 2469 and 2474 of title 10, United States Code.

(c) The conversion of any activity or function of the Department of Defense under the authority provided by this section shall be credited toward any competitive or outsourcing goal, target, or measurement that

may be established by statute, regulation, or policy and is deemed to be awarded under the authority of, and in compliance with, subsection (h) of section 2304 of title 10, United States Code, for the competition or outsourcing of commercial activities.

(TRANSFER OF FUNDS)

SEC. 8017. Funds appropriated in title III of this Act for the Department of Defense Pilot Mentor-Protégé Program may be transferred to any other appropriation contained in this Act solely for the purpose of implementing a Mentor-Protégé Program developmental assistance agreement pursuant to section 831 of the National Defense Authorization Act for Fiscal Year 1991 (Public Law 101-510; 10 U.S.C. 2302 note), as amended, under the authority of this provision or any other transfer authority contained in this Act.

SEC. 8018. None of the funds in this Act may be available for the purchase by the Department of Defense (and its departments and agencies) of welded shipboard anchor and mooring chain 4 inches in diameter and under unless the anchor and mooring chain are manufactured in the United States from components which are substantially manufactured in the United States: *Provided*, That for the purpose of this section, the term “manufactured” shall include cutting, heat treating, quality control, testing of chain and welding (including the forging and shot blasting process): *Provided further*, That for the purpose of this section substantially all of the components of anchor and mooring chain shall be considered to be produced or manufactured in the United States if the aggregate cost of the components produced or manufactured outside the United States: *Provided further*, That when adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis, the Secretary of the service responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations that such an acquisition must be made in order to acquire capability for national security purposes.

SEC. 8019. None of the funds available to the Department of Defense may be used to demilitarize or dispose of M-1 Carbines, M-1 Garand rifles, M-14 rifles, .22 caliber rifles, .30 caliber rifles, or M-1911 pistols, or to demilitarize or destroy small arms ammunition or ammunition components that are not otherwise prohibited from commercial sale under Federal law, unless the small arms ammunition or ammunition components are certified by the Secretary of the Army or designee as unserviceable or unsafe for further use.

SEC. 8020. No more than \$500,000 of the funds appropriated or made available in this Act shall be used during a single fiscal year for any single relocation of an organization, unit, activity or function of the Department of Defense into or within the National Capital Region: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the congressional defense committees that such a relocation is required in the best interest of the Government.

SEC. 8021. In addition to the funds provided elsewhere in this Act, \$15,000,000 is appropriated only for incentive payments authorized by section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544): *Provided*, That a prime contractor or a subcontractor at any tier that makes a subcontract award to any subcontractor or supplier as defined in sec-

tion 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code, shall be considered a contractor for the purposes of being allowed additional compensation under section 504 of the Indian Financing Act of 1974 (25 U.S.C. 1544) whenever the prime contract or subcontract amount is over \$500,000 and involves the expenditure of funds appropriated by an Act making Appropriations for the Department of Defense with respect to any fiscal year: *Provided further*, That notwithstanding section 430 of title 41, United States Code, this section shall be applicable to any Department of Defense acquisition of supplies or services, including any contract and any subcontract at any tier for acquisition of commercial items produced or manufactured, in whole or in part by any subcontractor or supplier defined in section 1544 of title 25, United States Code, or a small business owned and controlled by an individual or individuals defined under section 4221(9) of title 25, United States Code.

SEC. 8022. Funds appropriated by this Act for the Defense Media Activity shall not be used for any national or international political or psychological activities.

SEC. 8023. None of the funds appropriated by this Act shall be available to perform any cost study pursuant to the provisions of OMB Circular A-76 if the study being performed exceeds the period permitted by section 322 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84).

SEC. 8024. During the current fiscal year, the Department of Defense is authorized to incur obligations of not to exceed \$350,000,000 for purposes specified in section 2350j(c) of title 10, United States Code, in anticipation of receipt of contributions, only from the Government of Kuwait, under that section: *Provided*, That upon receipt, such contributions from the Government of Kuwait shall be credited to the appropriations or fund which incurred such obligations.

SEC. 8025. (a) Of the funds made available in this Act, not less than \$33,756,000 shall be available for the Civil Air Patrol Corporation, of which—

(1) \$26,433,000 shall be available from “Operation and Maintenance, Air Force” to support Civil Air Patrol Corporation operation and maintenance, readiness, counterdrug activities, and drug demand reduction activities involving youth programs;

(2) \$6,426,000 shall be available from “Air-craft Procurement, Air Force”; and

(3) \$997,000 shall be available from “Other Procurement, Air Force” for vehicle procurement.

(b) The Secretary of the Air Force should waive reimbursement for any funds used by the Civil Air Patrol for counter-drug activities in support of Federal, State, and local government agencies.

SEC. 8026. (a) None of the funds appropriated in this Act are available to establish a new Department of Defense (department) federally funded research and development center (FFRDC), either as a new entity, or as a separate entity administrated by an organization managing another FFRDC, or as a nonprofit membership corporation consisting of a consortium of other FFRDCs and other nonprofit entities.

(b) No member of a Board of Directors, Trustees, Overseers, Advisory Group, Special Issues Panel, Visiting Committee, or any similar entity of a defense FFRDC, and no paid consultant to any defense FFRDC, except when acting in a technical advisory capacity, may be compensated for his or her

services as a member of such entity, or as a paid consultant by more than one FFRDC in a fiscal year: *Provided*, That a member of any such entity referred to previously in this subsection shall be allowed travel expenses and per diem as authorized under the Federal Joint Travel Regulations, when engaged in the performance of membership duties.

(c) Notwithstanding any other provision of law, none of the funds available to the department from any source during fiscal year 2010 may be used by a defense FFRDC, through a fee or other payment mechanism, for construction of new buildings, for payment of cost sharing for projects funded by Government grants, for absorption of contract overruns, or for certain charitable contributions, not to include employee participation in community service and/or development.

(d) Notwithstanding any other provision of law, of the funds available to the department during fiscal year 2010, not more than 5,600 staff years of technical effort (staff years) may be funded for defense FFRDCs: *Provided*, That of the specific amount referred to previously in this subsection, not more than 1,100 staff years may be funded for the defense studies and analysis FFRDCs: *Provided further*, That this subsection shall not apply to staff years funded in the National Intelligence Program (NIP) and the Military Intelligence Program (MIP).

(e) The Secretary of Defense shall, with the submission of the department's fiscal year 2011 budget request, submit a report presenting the specific amounts of staff years of technical effort to be allocated for each defense FFRDC during that fiscal year and the associated budget estimates.

(f) Notwithstanding any other provision of this Act, the total amount appropriated in this Act for FFRDCs is hereby reduced by \$125,200,000.

SEC. 8027. None of the funds appropriated or made available in this Act shall be used to procure carbon, alloy or armor steel plate for use in any Government-owned facility or property under the control of the Department of Defense which were not melted and rolled in the United States or Canada: *Provided*, That these procurement restrictions shall apply to any and all Federal Supply Class 9515, American Society of Testing and Materials (ASTM) or American Iron and Steel Institute (AISI) specifications of carbon, alloy or armor steel plate: *Provided further*, That the Secretary of the military department responsible for the procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: *Provided further*, That these restrictions shall not apply to contracts which are in being as of the date of the enactment of this Act.

SEC. 8028. For the purposes of this Act, the term “congressional defense committees” means the Armed Services Committee of the House of Representatives, the Armed Services Committee of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the Senate, and the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives.

SEC. 8029. During the current fiscal year, the Department of Defense may acquire the modification, depot maintenance and repair

of aircraft, vehicles and vessels as well as the production of components and other Defense-related articles, through competition between Department of Defense depot maintenance activities and private firms: *Provided*, That the Senior Acquisition Executive of the military department or Defense Agency concerned, with power of delegation, shall certify that successful bids include comparable estimates of all direct and indirect costs for both public and private bids: *Provided further*, That Office of Management and Budget Circular A-76 shall not apply to competitions conducted under this section.

SEC. 8030. (a)(1) If the Secretary of Defense, after consultation with the United States Trade Representative, determines that a foreign country which is party to an agreement described in paragraph (2) has violated the terms of the agreement by discriminating against certain types of products produced in the United States that are covered by the agreement, the Secretary of Defense shall rescind the Secretary's blanket waiver of the Buy American Act with respect to such types of products produced in that foreign country.

(2) An agreement referred to in paragraph (1) is any reciprocal defense procurement memorandum of understanding, between the United States and a foreign country pursuant to which the Secretary of Defense has prospectively waived the Buy American Act for certain products in that country.

(b) The Secretary of Defense shall submit to the Congress a report on the amount of Department of Defense purchases from foreign entities in fiscal year 2010. Such report shall separately indicate the dollar value of items for which the Buy American Act was waived pursuant to any agreement described in subsection (a)(2), the Trade Agreement Act of 1979 (19 U.S.C. 2501 et seq.), or any international agreement to which the United States is a party.

(c) For purposes of this section, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

SEC. 8031. During the current fiscal year, amounts contained in the Department of Defense Overseas Military Facility Investment Recovery Account established by section 2921(c)(1) of the National Defense Authorization Act of 1991 (Public Law 101-510; 10 U.S.C. 2687 note) shall be available until expended for the payments specified by section 2921(c)(2) of that Act.

SEC. 8032. (a) Notwithstanding any other provision of law, the Secretary of the Air Force may convey at no cost to the Air Force, without consideration, to Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, and Minnesota relocatable military housing units located at Grand Forks Air Force Base, Malmstrom Air Force Base, Mountain Home Air Force Base, Ellsworth Air Force Base, and Minot Air Force Base that are excess to the needs of the Air Force.

(b) The Secretary of the Air Force shall convey, at no cost to the Air Force, military housing units under subsection (a) in accordance with the request for such units that are submitted to the Secretary by the Operation Walking Shield Program on behalf of Indian tribes located in the States of Nevada, Idaho, North Dakota, South Dakota, Montana, Oregon, and Minnesota.

(c) The Operation Walking Shield Program shall resolve any conflicts among requests of

Indian tribes for housing units under subsection (a) before submitting requests to the Secretary of the Air Force under subsection (b).

(d) In this section, the term "Indian tribe" means any recognized Indian tribe included on the current list published by the Secretary of the Interior under section 104 of the Federally Recognized Indian Tribe Act of 1994 (Public Law 103-454; 108 Stat. 4792; 25 U.S.C. 479a-1).

SEC. 8033. During the current fiscal year, appropriations which are available to the Department of Defense for operation and maintenance may be used to purchase items having an investment item unit cost of not more than \$250,000.

SEC. 8034. (a) During the current fiscal year, none of the appropriations or funds available to the Department of Defense Working Capital Funds shall be used for the purchase of an investment item for the purpose of acquiring a new inventory item for sale or anticipated sale during the current fiscal year or a subsequent fiscal year to customers of the Department of Defense Working Capital Funds if such an item would not have been chargeable to the Department of Defense Business Operations Fund during fiscal year 1994 and if the purchase of such an investment item would be chargeable during the current fiscal year to appropriations made to the Department of Defense for procurement.

(b) The fiscal year 2011 budget request for the Department of Defense as well as all justification material and other documentation supporting the fiscal year 2011 Department of Defense budget shall be prepared and submitted to the Congress on the basis that any equipment which was classified as an end item and funded in a procurement appropriation contained in this Act shall be budgeted for in a proposed fiscal year 2011 procurement appropriation and not in the supply management business area or any other area or category of the Department of Defense Working Capital Funds.

SEC. 8035. None of the funds appropriated by this Act for programs of the Central Intelligence Agency shall remain available for obligation beyond the current fiscal year, except for funds appropriated for the Reserve for Contingencies, which shall remain available until September 30, 2011: *Provided*, That funds appropriated, transferred, or otherwise credited to the Central Intelligence Agency Central Services Working Capital Fund during this or any prior or subsequent fiscal year shall remain available until expended: *Provided further*, That any funds appropriated or transferred to the Central Intelligence Agency for advanced research and development acquisition, for agent operations, and for covert action programs authorized by the President under section 503 of the National Security Act of 1947, as amended, shall remain available until September 30, 2011.

SEC. 8036. Notwithstanding any other provision of law, funds made available in this Act for the Defense Intelligence Agency may be used for the design, development, and deployment of General Defense Intelligence Program intelligence communications and intelligence information systems for the Services, the Unified and Specified Commands, and the component commands.

SEC. 8037. Of the funds appropriated to the Department of Defense under the heading "Operation and Maintenance, Defense-Wide", not less than \$12,000,000 shall be made available only for the mitigation of environmental impacts, including training and technical assistance to tribes, related adminis-

trative support, the gathering of information, documenting of environmental damage, and developing a system for prioritization of mitigation and cost to complete estimates for mitigation, on Indian lands resulting from Department of Defense activities.

SEC. 8038. (a) None of the funds appropriated in this Act may be expended by an entity of the Department of Defense unless the entity, in expending the funds, complies with the Buy American Act. For purposes of this subsection, the term "Buy American Act" means title III of the Act entitled "An Act making appropriations for the Treasury and Post Office Departments for the fiscal year ending June 30, 1934, and for other purposes", approved March 3, 1933 (41 U.S.C. 10a et seq.).

(b) If the Secretary of Defense determines that a person has been convicted of intentionally affixing a label bearing a "Made in America" inscription to any product sold in or shipped to the United States that is not made in America, the Secretary shall determine, in accordance with section 2410f of title 10, United States Code, whether the person should be debarred from contracting with the Department of Defense.

(c) In the case of any equipment or products purchased with appropriations provided under this Act, it is the sense of the Congress that any entity of the Department of Defense, in expending the appropriation, purchase only American-made equipment and products, provided that American-made equipment and products are cost-competitive, quality-competitive, and available in a timely fashion.

SEC. 8039. None of the funds appropriated by this Act shall be available for a contract for studies, analysis, or consulting services entered into without competition on the basis of an unsolicited proposal unless the head of the activity responsible for the procurement determines—

(1) as a result of thorough technical evaluation, only one source is found fully qualified to perform the proposed work;

(2) the purpose of the contract is to explore an unsolicited proposal which offers significant scientific or technological promise, represents the product of original thinking, and was submitted in confidence by one source; or

(3) the purpose of the contract is to take advantage of unique and significant industrial accomplishment by a specific concern, or to insure that a new product or idea of a specific concern is given financial support: *Provided*, That this limitation shall not apply to contracts in an amount of less than \$25,000, contracts related to improvements of equipment that is in development or production, or contracts as to which a civilian official of the Department of Defense, who has been confirmed by the Senate, determines that the award of such contract is in the interest of the national defense.

SEC. 8040. (a) Except as provided in subsections (b) and (c), none of the funds made available by this Act may be used—

(1) to establish a field operating agency; or

(2) to pay the basic pay of a member of the Armed Forces or civilian employee of the department who is transferred or reassigned from a headquarters activity if the member or employee's place of duty remains at the location of that headquarters.

(b) The Secretary of Defense or Secretary of a military department may waive the limitations in subsection (a), on a case-by-case basis, if the Secretary determines, and certifies to the Committees on Appropriations of the House of Representatives and Senate

that the granting of the waiver will reduce the personnel requirements or the financial requirements of the department.

(c) This section does not apply to—

(1) field operating agencies funded within the National Intelligence Program; or

(2) an Army field operating agency established to eliminate, mitigate, or counter the effects of improvised explosive devices, and, as determined by the Secretary of the Army, other similar threats.

SEC. 8041. The Secretary of Defense, notwithstanding any other provision of law, acting through the Office of Economic Adjustment of the Department of Defense, may use funds made available in this Act under the heading “Operation and Maintenance, Defense-Wide” to make grants and supplement other Federal funds in accordance with the guidance provided in the explanatory statement regarding this Act.

(RESCISSIONS)

SEC. 8042. Of the funds appropriated in Department of Defense Appropriations Acts, the following funds are hereby rescinded from the following accounts and programs in the specified amounts:

“Research, Development, Test and Evaluation, Navy, 2009/2010”, \$20,000,000;

“Research, Development, Test and Evaluation, Air Force, 2009/2010”, \$98,430,000;

“Research, Development, Test and Evaluation, Defense-Wide, 2009/2010”, \$154,457,000;

“Procurement of Weapons and Tracked Combat Vehicles, Army, 2009/2011”, \$41,087,000;

“Other Procurement, Army, 2009/2011”, \$138,239,000;

“Other Procurement, Navy, 2009/2011”, \$84,844,000;

“Aircraft Procurement, Air Force, 2009/2011”, \$628,900,000;

“Missile Procurement, Air Force, 2009/2011”, \$60,000,000;

“Other Procurement, Air Force, 2009/2011”, \$10,900,000;

“Procurement, Defense-Wide, 2009/2011”, \$5,200,000; and

“Procurement, Defense-Wide, 2008/2010”, \$2,000,000.

SEC. 8043. None of the funds available in this Act may be used to reduce the authorized positions for military (civilian) technicians of the Army National Guard, Air National Guard, Army Reserve and Air Force Reserve for the purpose of applying any administratively imposed civilian personnel ceiling, freeze, or reduction on military (civilian) technicians, unless such reductions are a direct result of a reduction in military force structure.

SEC. 8044. None of the funds appropriated or otherwise made available in this Act may be obligated or expended for assistance to the Democratic People's Republic of Korea unless specifically appropriated for that purpose.

SEC. 8045. Funds appropriated in this Act for operation and maintenance of the Military Departments, Combatant Commands and Defense Agencies shall be available for reimbursement of pay, allowances and other expenses which would otherwise be incurred against appropriations for the National Guard and Reserve when members of the National Guard and Reserve provide intelligence or counterintelligence support to Combatant Commands, Defense Agencies and Joint Intelligence Activities, including the activities and programs included within the National Intelligence Program and the Military Intelligence Program: *Provided*, That nothing in this section authorizes deviation from established Reserve and National Guard personnel and training procedures.

SEC. 8046. During the current fiscal year, none of the funds appropriated in this Act may be used to reduce the civilian medical and medical support personnel assigned to military treatment facilities below the September 30, 2003, level: *Provided*, That the Service Surgeons General may waive this section by certifying to the congressional defense committees that the beneficiary population is declining in some catchment areas and civilian strength reductions may be consistent with responsible resource stewardship and capitation-based budgeting.

SEC. 8047. (a) None of the funds available to the Department of Defense for any fiscal year for drug interdiction or counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

(b) None of the funds available to the Central Intelligence Agency for any fiscal year for drug interdiction and counter-drug activities may be transferred to any other department or agency of the United States except as specifically provided in an appropriations law.

SEC. 8048. None of the funds appropriated by this Act may be used for the procurement of ball and roller bearings other than those produced by a domestic source and of domestic origin: *Provided*, That the Secretary of the military department responsible for such procurement may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate, that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes: *Provided further*, That this restriction shall not apply to the purchase of “commercial items”, as defined by section 4(12) of the Office of Federal Procurement Policy Act, except that the restriction shall apply to ball or roller bearings purchased as end items.

SEC. 8049. None of the funds in this Act may be used to purchase any supercomputer which is not manufactured in the United States, unless the Secretary of Defense certifies to the congressional defense committees that such an acquisition must be made in order to acquire capability for national security purposes that is not available from United States manufacturers.

SEC. 8050. None of the funds made available in this or any other Act may be used to pay the salary of any officer or employee of the Department of Defense who approves or implements the transfer of administrative responsibilities or budgetary resources of any program, project, or activity financed by this Act to the jurisdiction of another Federal agency not financed by this Act without the express authorization of Congress: *Provided*, That this limitation shall not apply to transfers of funds expressly provided for in Defense Appropriations Acts, or provisions of Acts providing supplemental appropriations for the Department of Defense.

SEC. 8051. (a) Notwithstanding any other provision of law, none of the funds available to the Department of Defense for the current fiscal year may be obligated or expended to transfer to another nation or an international organization any defense articles or services (other than intelligence services) for use in the activities described in subsection (b) unless the congressional defense committees, the Committee on Foreign Affairs of the House of Representatives, and the Com-

mittee on Foreign Relations of the Senate are notified 15 days in advance of such transfer.

(b) This section applies to—

(1) any international peacekeeping or peace-enforcement operation under the authority of chapter VI or chapter VII of the United Nations Charter under the authority of a United Nations Security Council resolution; and

(2) any other international peacekeeping, peace-enforcement, or humanitarian assistance operation.

(c) A notice under subsection (a) shall include the following—

(1) A description of the equipment, supplies, or services to be transferred.

(2) A statement of the value of the equipment, supplies, or services to be transferred.

(3) In the case of a proposed transfer of equipment or supplies—

(A) a statement of whether the inventory requirements of all elements of the Armed Forces (including the reserve components) for the type of equipment or supplies to be transferred have been met; and

(B) a statement of whether the items proposed to be transferred will have to be replaced and, if so, how the President proposes to provide funds for such replacement.

SEC. 8052. None of the funds available to the Department of Defense under this Act shall be obligated or expended to pay a contractor under a contract with the Department of Defense for costs of any amount paid by the contractor to an employee when—

(1) such costs are for a bonus or otherwise in excess of the normal salary paid by the contractor to the employee; and

(2) such bonus is part of restructuring costs associated with a business combination.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8053. During the current fiscal year, no more than \$30,000,000 of appropriations made in this Act under the heading “Operation and Maintenance, Defense-Wide” may be transferred to appropriations available for the pay of military personnel, to be merged with, and to be available for the same time period as the appropriations to which transferred, to be used in support of such personnel in connection with support and services for eligible organizations and activities outside the Department of Defense pursuant to section 2012 of title 10, United States Code.

SEC. 8054. During the current fiscal year, in the case of an appropriation account of the Department of Defense for which the period of availability for obligation has expired or which has closed under the provisions of section 1552 of title 31, United States Code, and which has a negative unliquidated or unexpended balance, an obligation or an adjustment of an obligation may be charged to any current appropriation account for the same purpose as the expired or closed account if—

(1) the obligation would have been properly chargeable (except as to amount) to the expired or closed account before the end of the period of availability or closing of that account;

(2) the obligation is not otherwise properly chargeable to any current appropriation account of the Department of Defense; and

(3) in the case of an expired account, the obligation is not chargeable to a current appropriation of the Department of Defense under the provisions of section 1405(b)(8) of the National Defense Authorization Act for Fiscal Year 1991, Public Law 101-510, as amended (31 U.S.C. 1551 note): *Provided*, That in the case of an expired account, if subsequent review or investigation discloses that

there was not in fact a negative unliquidated or unexpended balance in the account, any charge to a current account under the authority of this section shall be reversed and recorded against the expired account: *Provided further*, That the total amount charged to a current appropriation under this section may not exceed an amount equal to 1 percent of the total appropriation for that account.

SEC. 8055. (a) IN GENERAL.—Service as a member of the Alaska Territorial Guard during World War II of any individual who was honorably discharged therefrom under section 8147 of the Department of Defense Appropriations Act, 2001 (Public Law 106-259; 114 Stat. 705) shall be treated as active service for purposes of the computation under chapter 61, 71, 371, 571, 871, or 1223 of title 10, United States Code, as applicable, of the retired pay to which such individual may be entitled under title 10, United States Code.

(b) APPLICABILITY.—Subsection (a) shall apply with respect to amounts of retired pay payable under title 10, United States Code, for months beginning on or after the date of the enactment of this Act. No retired pay shall be paid to any individual by reason of subsection (a) for any period before that date.

(c) WORLD WAR II DEFINED.—In this section, the term “World War II” has the meaning given that term in section 101(8) of title 38, United States Code.

SEC. 8056. (a) Notwithstanding any other provision of law, the Chief of the National Guard Bureau may permit the use of equipment of the National Guard Distance Learning Project by any person or entity on a space-available, reimbursable basis. The Chief of the National Guard Bureau shall establish the amount of reimbursement for such use on a case-by-case basis.

(b) Amounts collected under subsection (a) shall be credited to funds available for the National Guard Distance Learning Project and be available to defray the costs associated with the use of equipment of the project under that subsection. Such funds shall be available for such purposes without fiscal year limitation.

SEC. 8057. Using funds available by this Act or any other Act, the Secretary of the Air Force, pursuant to a determination under section 2690 of title 10, United States Code, may implement cost-effective agreements for required heating facility modernization in the Kaiserslautern Military Community in the Federal Republic of Germany: *Provided*, That in the City of Kaiserslautern such agreements will include the use of United States anthracite as the base load energy for municipal district heat to the United States Defense installations: *Provided further*, That at Landstuhl Army Regional Medical Center and Ramstein Air Base, furnished heat may be obtained from private, regional or municipal services, if provisions are included for the consideration of United States coal as an energy source.

SEC. 8058. None of the funds appropriated in title IV of this Act may be used to procure end-items for delivery to military forces for operational training, operational use or inventory requirements: *Provided*, That this restriction does not apply to end-items used in development, prototyping, and test activities preceding and leading to acceptance for operational use: *Provided further*, That this restriction does not apply to programs funded within the National Intelligence Program: *Provided further*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House

of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8059. None of the funds made available in this Act may be used to approve or license the sale of the F-22A advanced tactical fighter to any foreign government: *Provided*, That the Department of Defense may conduct or participate in studies, research, design and other activities to define and develop a future export version of the F-22A that protects classified and sensitive information, technologies and U.S. warfighting capabilities.

SEC. 8060. (a) The Secretary of Defense may, on a case-by-case basis, waive with respect to a foreign country each limitation on the procurement of defense items from foreign sources provided in law if the Secretary determines that the application of the limitation with respect to that country would invalidate cooperative programs entered into between the Department of Defense and the foreign country, or would invalidate reciprocal trade agreements for the procurement of defense items entered into under section 2531 of title 10, United States Code, and the country does not discriminate against the same or similar defense items produced in the United States for that country.

(b) Subsection (a) applies with respect to—

(1) contracts and subcontracts entered into on or after the date of the enactment of this Act; and

(2) options for the procurement of items that are exercised after such date under contracts that are entered into before such date if the option prices are adjusted for any reason other than the application of a waiver granted under subsection (a).

(c) Subsection (a) does not apply to a limitation regarding construction of public vessels, ball and roller bearings, food, and clothing or textile materials as defined by section 11 (chapters 50–65) of the Harmonized Tariff Schedule and products classified under headings 4010, 4202, 4203, 6401 through 6406, 6505, 7019, 7218 through 7229, 7304.41 through 7304.49, 7306.40, 7502 through 7508, 8105, 8108, 8109, 8211, 8215, and 9404.

SEC. 8061. (a) None of the funds made available by this Act may be used to support any training program involving a unit of the security forces of a foreign country if the Secretary of Defense has received credible information from the Department of State that the unit has committed a gross violation of human rights, unless all necessary corrective steps have been taken.

(b) The Secretary of Defense, in consultation with the Secretary of State, shall ensure that prior to a decision to conduct any training program referred to in subsection (a), full consideration is given to all credible information available to the Department of State relating to human rights violations by foreign security forces.

(c) The Secretary of Defense, after consultation with the Secretary of State, may waive the prohibition in subsection (a) if he determines that such waiver is required by extraordinary circumstances.

(d) Not more than 15 days after the exercise of any waiver under subsection (c), the Secretary of Defense shall submit a report to the congressional defense committees describing the extraordinary circumstances, the purpose and duration of the training program, the United States forces and the foreign security forces involved in the training program, and the information relating to human rights violations that necessitates the waiver.

SEC. 8062. None of the funds appropriated or made available in this Act to the Depart-

ment of the Navy shall be used to develop, lease or procure the T-AKE class of ships unless the main propulsion diesel engines and propulsors are manufactured in the United States by a domestically operated entity: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that adequate domestic supplies are not available to meet Department of Defense requirements on a timely basis and that such an acquisition must be made in order to acquire capability for national security purposes or there exists a significant cost or quality difference.

SEC. 8063. None of the funds appropriated or otherwise made available by this or other Department of Defense Appropriations Acts may be obligated or expended for the purpose of performing repairs or maintenance to military family housing units of the Department of Defense, including areas in such military family housing units that may be used for the purpose of conducting official Department of Defense business.

SEC. 8064. Notwithstanding any other provision of law, funds appropriated in this Act under the heading “Research, Development, Test and Evaluation, Defense-Wide” for any new start advanced concept technology demonstration project or joint capability demonstration project may only be obligated 30 days after a report, including a description of the project, the planned acquisition and transition strategy and its estimated annual and total cost, has been provided in writing to the congressional defense committees: *Provided*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying to the congressional defense committees that it is in the national interest to do so.

SEC. 8065. The Secretary of Defense shall provide a classified quarterly report beginning 30 days after enactment of this Act, to the House and Senate Appropriations Committees, Subcommittees on Defense on certain matters as directed in the classified annex accompanying this Act.

SEC. 8066. During the current fiscal year, none of the funds available to the Department of Defense may be used to provide support to another department or agency of the United States if such department or agency is more than 90 days in arrears in making payment to the Department of Defense for goods or services previously provided to such department or agency on a reimbursable basis: *Provided*, That this restriction shall not apply if the department is authorized by law to provide support to such department or agency on a nonreimbursable basis, and is providing the requested support pursuant to such authority: *Provided further*, That the Secretary of Defense may waive this restriction on a case-by-case basis by certifying in writing to the Committees on Appropriations of the House of Representatives and the Senate that it is in the national security interest to do so.

SEC. 8067. Notwithstanding section 12310(b) of title 10, United States Code, a Reserve who is a member of the National Guard serving on full-time National Guard duty under section 502(f) of title 32, United States Code, may perform duties in support of the ground-based elements of the National Ballistic Missile Defense System.

SEC. 8068. None of the funds provided in this Act may be used to transfer to any non-governmental entity ammunition held by the Department of Defense that has a center-fire cartridge and a United States military

nomenclature designation of "armor penetrator", "armor piercing (AP)", "armor piercing incendiary (API)", or "armor-piercing incendiary-tracer (API-T)", except to an entity performing demilitarization services for the Department of Defense under a contract that requires the entity to demonstrate to the satisfaction of the Department of Defense that armor piercing projectiles are either: (1) rendered incapable of reuse by the demilitarization process; or (2) used to manufacture ammunition pursuant to a contract with the Department of Defense or the manufacture of ammunition for export pursuant to a License for Permanent Export of Unclassified Military Articles issued by the Department of State.

SEC. 8069. Notwithstanding any other provision of law, the Chief of the National Guard Bureau, or his designee, may waive payment of all or part of the consideration that otherwise would be required under section 2667 of title 10, United States Code, in the case of a lease of personal property for a period not in excess of 1 year to any organization specified in section 508(d) of title 32, United States Code, or any other youth, social, or fraternal nonprofit organization as may be approved by the Chief of the National Guard Bureau, or his designee, on a case-by-case basis.

SEC. 8070. None of the funds appropriated by this Act shall be used for the support of any nonappropriated funds activity of the Department of Defense that procures malt beverages and wine with nonappropriated funds for resale (including such alcoholic beverages sold by the drink) on a military installation located in the United States unless such malt beverages and wine are procured within that State, or in the case of the District of Columbia, within the District of Columbia, in which the military installation is located: *Provided*, That in a case in which the military installation is located in more than one State, purchases may be made in any State in which the installation is located: *Provided further*, That such local procurement requirements for malt beverages and wine shall apply to all alcoholic beverages only for military installations in States which are not contiguous with another State: *Provided further*, That alcoholic beverages other than wine and malt beverages, in contiguous States and the District of Columbia shall be procured from the most competitive source, price and other factors considered.

SEC. 8071. Funds available to the Department of Defense for the Global Positioning System during the current fiscal year may be used to fund civil requirements associated with the satellite and ground control segments of such system's modernization program.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8072. Of the amounts appropriated in this Act under the heading "Operation and Maintenance, Army", \$106,754,000 shall remain available until expended: *Provided*, That notwithstanding any other provision of law, the Secretary of Defense is authorized to transfer such funds to other activities of the Federal Government: *Provided further*, That the Secretary of Defense is authorized to enter into and carry out contracts for the acquisition of real property, construction, personal services, and operations related to projects carrying out the purposes of this section: *Provided further*, That contracts entered into under the authority of this section may provide for such indemnification as the Secretary determines to be necessary: *Provided further*, That projects authorized by

this section shall comply with applicable Federal, State, and local law to the maximum extent consistent with the national security, as determined by the Secretary of Defense.

SEC. 8073. Section 8106 of the Department of Defense Appropriations Act, 1997 (titles I through VIII of the matter under subsection 101(b) of Public Law 104-208; 110 Stat. 3009-111; 10 U.S.C. 113 note) shall continue in effect to apply to disbursements that are made by the Department of Defense in fiscal year 2010.

SEC. 8074. In addition to amounts provided elsewhere in this Act, \$3,750,000 is hereby appropriated to the Department of Defense, to remain available for obligation until expended: *Provided*, That notwithstanding any other provision of law, these funds shall be available only for a grant to the Fisher House Foundation, Inc., only for the construction and furnishing of additional Fisher Houses to meet the needs of military family members when confronted with the illness or hospitalization of an eligible military beneficiary.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8075. Of the amounts appropriated in this Act under the heading "Research, Development, Test and Evaluation, Defense-Wide", \$202,434,000 shall be for the Israeli Cooperative Programs: *Provided*, That of this amount, \$80,092,000 shall be for the Short Range Ballistic Missile Defense (SRBMD) program, including cruise missile defense research and development under the SRBMD program, \$50,036,000 shall be available for an upper-tier component to the Israeli Missile Defense Architecture, and \$72,306,000 shall be for the Arrow Missile Defense Program, of which \$25,000,000 shall be for producing Arrow missile components in the United States and Arrow missile components in Israel to meet Israel's defense requirements, consistent with each nation's laws, regulations and procedures: *Provided further*, That funds made available under this provision for production of missiles and missile components may be transferred to appropriations available for the procurement of weapons and equipment, to be merged with and to be available for the same time period and the same purposes as the appropriation to which transferred: *Provided further*, That the transfer authority provided under this provision is in addition to any other transfer authority contained in this Act.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8076. Of the amounts appropriated in this Act under the heading "Shipbuilding and Conversion, Navy", \$144,950,000 shall be available until September 30, 2010, to fund prior year shipbuilding cost increases: *Provided*, That upon enactment of this Act, the Secretary of the Navy shall transfer such funds to the following appropriations in the amounts specified: *Provided further*, That the amounts transferred shall be merged with and be available for the same purposes as the appropriations to which transferred:

To:

Under the heading "Shipbuilding and Conversion, Navy, 2004/2010":

New SSN, \$26,906,000; and

LPD-17 Amphibious Transport Dock Program, \$16,844,000.

Under the heading "Shipbuilding and Conversion, Navy, 2005/2010":

New SSN, \$18,702,000; and

LPD-17 Amphibious Transport Dock Program, \$16,498,000.

Under the heading "Shipbuilding and Conversion, Navy, 2008/2012":

LPD-17 Amphibious Transport Dock Program, \$66,000,000.

SEC. 8077. None of the funds available to the Department of Defense may be obligated to modify command and control relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific fleet: *Provided*, That the command and control relationships which existed on October 1, 2004, shall remain in force unless changes are specifically authorized in a subsequent Act.

SEC. 8078. Notwithstanding any other provision of law or regulation, the Secretary of Defense may exercise the provisions of section 7403(g) of title 38, United States Code, for occupations listed in section 7403(a)(2) of title 38, United States Code, as well as the following:

Pharmacists, Audiologists, Psychologists, Social Workers, Othotists/Prosthetists, Occupational Therapists, Physical Therapists, Rehabilitation Therapists, Respiratory Therapists, Speech Pathologists, Dietitian/Nutritionists, Industrial Hygienists, Psychology Technicians, Social Service Assistants, Practical Nurses, Nursing Assistants, and Dental Hygienists:

(A) The requirements of section 7403(g)(1)(A) of title 38, United States Code, shall apply.

(B) The limitations of section 7403(g)(1)(B) of title 38, United States Code, shall not apply.

SEC. 8079. Funds appropriated by this Act, or made available by the transfer of funds in this Act, for intelligence activities are deemed to be specifically authorized by the Congress for purposes of section 504 of the National Security Act of 1947 (50 U.S.C. 414) during fiscal year 2010 until the enactment of the Intelligence Authorization Act for Fiscal Year 2010.

SEC. 8080. None of the funds provided in this Act shall be available for obligation or expenditure through a reprogramming of funds that creates or initiates a new program, project, or activity unless such program, project, or activity must be undertaken immediately in the interest of national security and only after written prior notification to the congressional defense committees.

SEC. 8081. In addition to funds made available elsewhere in this Act, \$5,500,000 is hereby appropriated and shall remain available until expended to provide assistance, by grant or otherwise (such as the provision of funds for information technology and textbook purchases, professional development for educators, and student transition support) to public schools in states that are considered overseas assignments with unusually high concentrations of special needs military dependents enrolled: *Provided*, That up to 2 percent of the total appropriated funds under this section shall be available for the administration and execution of the programs and/or events that promote the purpose of this appropriation: *Provided further*, That up to 5 percent of the total appropriated funds under this section shall be available to public schools that have entered into a military partnership: *Provided further*, That \$1,000,000 shall be available for a nonprofit trust fund to assist in the public-private funding of public school repair and maintenance projects: *Provided further*, That \$500,000 shall be available to fund an ongoing special education support program in public schools with unusually high concentrations of active duty military dependents enrolled: *Provided further*, That to the extent a Federal agency provides this assistance by contract, grant,

or otherwise, it may accept and expend non-Federal funds in combination with these Federal funds to provide assistance for the authorized purpose.

SEC. 8082. (a) In addition to the amounts provided elsewhere in this Act, \$3,000,000 is hereby appropriated to the Department of Defense for "Operation and Maintenance, Army National Guard". Such amount shall be made available to the Secretary of the Army only to make a grant in the amount of \$3,000,000 to the entity specified in subsection (b) to facilitate access by veterans to opportunities for skilled employment in the construction industry.

(b) The entity referred to in subsection (a) is the Center for Military Recruitment, Assessment and Veterans Employment, a non-profit labor-management cooperation committee provided for by section 302(c)(9) of the Labor-Management Relations Act, 1947 (29 U.S.C. 186(c)(9)), for the purposes set forth in section 6(b) of the Labor Management Cooperation Act of 1978 (29 U.S.C. 175a note).

SEC. 8083. The budget of the President for fiscal year 2011 submitted to the Congress pursuant to section 1105 of title 31, United States Code, shall include separate budget justification documents for costs of United States Armed Forces' participation in contingency operations for the Military Personnel accounts, the Operation and Maintenance accounts, and the Procurement accounts: *Provided*, That these documents shall include a description of the funding requested for each contingency operation, for each military service, to include all Active and Reserve components, and for each appropriations account: *Provided further*, That these documents shall include estimated costs for each element of expense or object class, a reconciliation of increases and decreases for each contingency operation, and programmatic data including, but not limited to, troop strength for each Active and Reserve component, and estimates of the major weapons systems deployed in support of each contingency: *Provided further*, That these documents shall include budget exhibits OP-5 and OP-32 (as defined in the Department of Defense Financial Management Regulation) for all contingency operations for the budget year and the two preceding fiscal years.

SEC. 8084. None of the funds in this Act may be used for research, development, test, evaluation, procurement or deployment of nuclear armed interceptors of a missile defense system.

SEC. 8085. In addition to the amounts appropriated or otherwise made available elsewhere in this Act, \$110,640,000 is hereby appropriated to the Department of Defense: *Provided*, That the Secretary of Defense shall make grants in the amounts specified as follows: \$15,000,000 to the United Service Organizations; \$22,500,000 to the Red Cross; \$6,000,000 to the SOAR Virtual School District; \$5,000,000 to The Presidio Heritage Center; \$5,000,000 to the Paralympics Military Program; \$3,840,000 to the Arrest Deterioration of Ford Island Aviation Control Tower, Pearl Harbor, Hawaii; \$1,500,000 to the Go For Broke program; \$800,000 to Our Military Kids; \$3,000,000 to the New Jersey Technology Center; \$1,600,000 to the Women in Military Service for America Memorial; \$500,000 to the Marshall Legacy Institute; \$1,000,000 to the Vietnam Veterans Memorial Fund for Demining Activities; \$18,900,000 to the Edward M. Kennedy Institute for the Senate; \$5,000,000 to the U.S.S. Missouri Memorial Association; \$20,000,000 to the National World War II Museum; and \$1,000,000 for the River-

side General Hospital in Houston, Texas, for the treatment of psychological health issues.

SEC. 8086. None of the funds appropriated or made available in this Act shall be used to reduce or disestablish the operation of the 53rd Weather Reconnaissance Squadron of the Air Force Reserve, if such action would reduce the WC-130 Weather Reconnaissance mission below the levels funded in this Act: *Provided*, That the Air Force shall allow the 53rd Weather Reconnaissance Squadron to perform other missions in support of national defense requirements during the non-hurricane season.

SEC. 8087. None of the funds provided in this Act shall be available for integration of foreign intelligence information unless the information has been lawfully collected and processed during the conduct of authorized foreign intelligence activities: *Provided*, That information pertaining to United States persons shall only be handled in accordance with protections provided in the Fourth Amendment of the United States Constitution as implemented through Executive Order No. 12333.

SEC. 8088. (a) At the time members of reserve components of the Armed Forces are called or ordered to active duty under section 12302(a) of title 10, United States Code, each member shall be notified in writing of the expected period during which the member will be mobilized.

(b) The Secretary of Defense may waive the requirements of subsection (a) in any case in which the Secretary determines that it is necessary to do so to respond to a national security emergency or to meet dire operational requirements of the Armed Forces.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8089. The Secretary of Defense may transfer funds from any available Department of the Navy appropriation to any available Navy ship construction appropriation for the purpose of liquidating necessary changes resulting from inflation, market fluctuations, or rate adjustments for any ship construction program appropriated in law: *Provided*, That the Secretary may transfer not to exceed \$100,000,000 under the authority provided by this section: *Provided further*, That the Secretary may not transfer any funds until 30 days after the proposed transfer has been reported to the Committees on Appropriations of the House of Representatives and the Senate, unless a response from the Committees is received sooner: *Provided further*, That the transfer authority provided by this section is in addition to any other transfer authority contained elsewhere in this Act.

SEC. 8090. For purposes of section 612 of title 41, United States Code, any subdivision of appropriations made under the heading "Shipbuilding and Conversion, Navy" that is not closed at the time reimbursement is made shall be available to reimburse the Judgment Fund and shall be considered for the same purposes as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in the current fiscal year or any prior fiscal year.

SEC. 8091. (a) None of the funds appropriated by this Act may be used to transfer research and development, acquisition, or other program authority relating to current tactical unmanned aerial vehicles (TUAVs) from the Army.

(b) The Army shall retain responsibility for and operational control of the MQ-1C Sky Warrior Unmanned Aerial Vehicle (UAV) in order to support the Secretary of Defense in matters relating to the employment of unmanned aerial vehicles.

SEC. 8092. Of the funds provided in this Act, \$10,000,000 shall be available for the operations and development of training and technology for the Joint Interagency Training and Education Center and the affiliated Center for National Response at the Memorial Tunnel and for providing homeland defense/security and traditional warfighting training to the Department of Defense, other Federal agencies, and State and local first responder personnel at the Joint Interagency Training and Education Center.

SEC. 8093. Notwithstanding any other provision of law or regulation, the Secretary of Defense may adjust wage rates for civilian employees hired for certain health care occupations as authorized for the Secretary of Veterans Affairs by section 7455 of title 38, United States Code.

SEC. 8094. Up to \$16,000,000 of the funds appropriated under the heading "Operation and Maintenance, Navy" may be made available for the Asia Pacific Regional Initiative Program for the purpose of enabling the Pacific Command to execute Theater Security Cooperation activities such as humanitarian assistance, and payment of incremental and personnel costs of training and exercising with foreign security forces: *Provided*, That funds made available for this purpose may be used, notwithstanding any other funding authorities for humanitarian assistance, security assistance or combined exercise expenses: *Provided further*, That funds may not be obligated to provide assistance to any foreign country that is otherwise prohibited from receiving such type of assistance under any other provision of law.

SEC. 8095. None of the funds appropriated by this Act for programs of the Office of the Director of National Intelligence shall remain available for obligation beyond the current fiscal year, except for funds appropriated for research and technology, which shall remain available until September 30, 2011.

SEC. 8096. For purposes of section 1553(b) of title 31, United States Code, any subdivision of appropriations made in this Act under the heading "Shipbuilding and Conversion, Navy" shall be considered to be for the same purpose as any subdivision under the heading "Shipbuilding and Conversion, Navy" appropriations in any prior fiscal year, and the 1 percent limitation shall apply to the total amount of the appropriation.

SEC. 8097. Notwithstanding any other provision of this Act, to reflect savings from revised economic assumptions, the total amount appropriated in title II of this Act is hereby reduced by \$194,000,000, the total amount appropriated in title III of this Act is hereby reduced by \$322,000,000, the total amount appropriated in title IV of this Act is hereby reduced by \$336,000,000, and the total amount appropriated in title V of this Act is hereby reduced by \$9,000,000: *Provided*, That the Secretary of Defense shall allocate this reduction proportionally to each budget activity, activity group, subactivity group, and each program, project, and activity, within each appropriation account.

SEC. 8098. Notwithstanding any other provision of law, that not more than 35 percent of funds provided in this Act for environmental remediation may be obligated under indefinite delivery/indefinite quantity contracts with a total contract value of \$130,000,000 or higher.

SEC. 8099. The Secretary of Defense shall create a major force program category for space for the Future Years Defense Program of the Department of Defense. The Secretary of Defense shall designate an official in the

Office of the Secretary of Defense to provide overall supervision of the preparation and justification of program recommendations and budget proposals to be included in such major force program category.

SEC. 8100. The Director of National Intelligence shall include the budget exhibits identified in paragraphs (1) and (2) as described in the Department of Defense Financial Management Regulation with the congressional budget justification books.

(1) For procurement programs requesting more than \$20,000,000 in any fiscal year, the P-1, Procurement Program; P-5, Cost Analysis; P-5a, Procurement History and Planning; P-21, Production Schedule; and P-40, Budget Item Justification.

(2) For research, development, test and evaluation projects requesting more than \$10,000,000 in any fiscal year, the R-1, RDT&E Program; R-2, RDT&E Budget Item Justification; R-3, RDT&E Project Cost Analysis; and R-4, RDT&E Program Schedule Profile.

SEC. 8101. Notwithstanding any other provision of law, none of the funds made available in this Act may be used to pay negotiated indirect cost rates on a contract, grant, or cooperative agreement (or similar arrangement) entered into by the Department of Defense and an entity in excess of 35 percent of the total cost of the contract, grant, or agreement (or similar arrangement): *Provided*, That this limitation shall apply only to contracts, grants, or cooperative agreements entered into after the date of enactment of this Act using funds made available in this Act for basic research.

SEC. 8102. The Secretary of Defense shall maintain on the homepage of the Internet website of the Department of Defense a direct link to the Internet website of the Office of Inspector General of the Department of Defense.

SEC. 8103. (a) Not later than 60 days after enactment of this Act, the Office of the Director of National Intelligence shall submit a report to the congressional intelligence committees to establish the baseline for application of reprogramming and transfer authorities for fiscal year 2010: *Provided*, That the report shall include—

(1) a table for each appropriation with a separate column to display the President's budget request, adjustments made by Congress, adjustments due to enacted rescissions, if appropriate, and the fiscal year enacted level;

(2) a delineation in the table for each appropriation by Expenditure Center and project; and

(3) an identification of items of special congressional interest.

(b) None of the funds provided for the National Intelligence Program in this Act shall be available for reprogramming or transfer until the report identified in subsection (a) is submitted to the congressional intelligence committees, unless the Director of National Intelligence certifies in writing to the congressional intelligence committees that such reprogramming or transfer is necessary as an emergency requirement.

SEC. 8104. The Director of National Intelligence shall submit to Congress each year, at or about the time that the President's budget is submitted to Congress that year under section 1105(a) of title 31, United States Code, a future-years intelligence program (including associated annexes) reflecting the estimated expenditures and proposed appropriations included in that budget. Any such future-years intelligence program shall cover the fiscal year with respect to which

the budget is submitted and at least the four succeeding fiscal years.

SEC. 8105. For the purposes of this Act, the term "congressional intelligence committees" means the Permanent Select Committee on Intelligence of the House of Representatives, the Select Committee on Intelligence of the Senate, the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives, and the Subcommittee on Defense of the Committee on Appropriations of the Senate.

SEC. 8106. The Department of Defense shall continue to report incremental contingency operations costs for Operation Iraqi Freedom and Operation Enduring Freedom on a monthly basis in the Cost of War Execution Report as prescribed in the Department of Defense Financial Management Regulation Department of Defense Instruction 7000.14, Volume 12, Chapter 23 "Contingency Operations", Annex 1, dated September 2005.

SEC. 8107. The amounts appropriated in title II of this Act are hereby reduced by \$400,000,000 to reflect excess cash balances in Department of Defense Working Capital Funds, as follows:

(1) From "Operation and Maintenance, Army", \$150,000,000; and

(2) From "Operation and Maintenance, Air Force", \$250,000,000.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8108. (a) CONTINUATION OF STOP-LOSS SPECIAL PAY.—Funds appropriated by this Act, or made available by the transfer of funds in this Act, shall be made available to the Secretaries of the military departments only to provide special pay during fiscal year 2010 to members of the Army, Navy, Air Force, and Marine Corps, including members of their reserve components, who, at any time during fiscal year 2010, serve on active duty while the members' enlistment or period of obligated service is extended, or whose eligibility for retirement is suspended, pursuant to section 123 or 12305 of title 10, United States Code, or any other provision of law (commonly referred to as a "stop-loss authority") authorizing the President to extend an enlistment or period of obligated service, or suspend an eligibility for retirement, of a member of the uniformed services in time of war or of national emergency declared by Congress or the President.

(b) SPECIAL PAY AMOUNT.—The amount of the special pay paid under subsection (a) to or on behalf of an eligible member shall be \$500 per month for each month or portion of a month during fiscal year 2010 that the member is retained on active duty as a result of application of the stop-loss authority.

(c) TREATMENT OF DECEASED MEMBERS.—If an eligible member described in subsection (a) dies before the payment required by this section is made, the Secretary of the military department concerned shall make the payment in accordance with section 2771 of title 10, United States Code.

(d) CLARIFICATION OF RETROACTIVE STOP-LOSS SPECIAL PAY AUTHORITY.—Section 310 of the Supplemental Appropriations Act, 2009 (Public Law 111-32; 123 Stat. 1870) is amended by adding at the end the following new subsection:

"(i) EFFECT OF SUBSEQUENT REENLISTMENT OF VOLUNTARY EXTENSION OF SERVICE.—Members of the Armed Forces, retired members, and former members otherwise described in subsection (a) are not eligible for a payment under this section if the members—

"(1) voluntarily reenlisted or extended their service after their enlistment or period of obligated service was extended, or after

their eligibility for retirement was suspended, pursuant to a stop-loss authority; and

"(2) received a bonus for such reenlistment or extension of service."

(INCLUDING TRANSFER OF FUNDS)

SEC. 8109. During the current fiscal year, not to exceed \$11,000,000 from each of the appropriations made in title II of this Act for "Operation and Maintenance, Army", "Operation and Maintenance, Navy", and "Operation and Maintenance, Air Force" may be transferred by the military department concerned to its central fund established for Fisher Houses and Suites pursuant to section 2493(d) of title 10, United States Code.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8110. Of the funds appropriated in the Intelligence Community Management Account for the Program Manager for the Information Sharing Environment, \$24,000,000 is available for transfer by the Director of National Intelligence to other departments and agencies for purposes of Government-wide information sharing activities: *Provided*, That funds transferred under this provision are to be merged with and available for the same purposes and time period as the appropriation to which transferred: *Provided further*, That the Office of Management and Budget must approve any transfers made under this provision.

SEC. 8111. Funds appropriated by this Act for operation and maintenance may be available for the purpose of making remittances to the Defense Acquisition Workforce Development Fund in accordance with the requirements of section 1705 of title 10, United States Code.

SEC. 8112. (a) HIGH PRIORITY NATIONAL GUARD COUNTERDRUG PROGRAMS.—Of the amount appropriated or otherwise made available by title VI under the heading "Drug Interdiction and Counter-Drug Activities, Defense", up to \$15,000,000 shall be available for the purpose of High Priority National Guard Counterdrug Programs.

(b) SUPPLEMENT NOT SUPPLANT.—The amount made available by subsection (a) for the purpose specified in that subsection is in addition to any other amounts made available by this Act for that purpose.

APOLOGY TO NATIVE PEOPLES OF THE UNITED STATES

SEC. 8113. (a) ACKNOWLEDGMENT AND APOLOGY.—The United States, acting through Congress—

(1) recognizes the special legal and political relationship Indian tribes have with the United States and the solemn covenant with the land we share;

(2) commends and honors Native Peoples for the thousands of years that they have stewarded and protected this land;

(3) recognizes that there have been years of official depredations, ill-conceived policies, and the breaking of covenants by the Federal Government regarding Indian tribes;

(4) apologizes on behalf of the people of the United States to all Native Peoples for the many instances of violence, maltreatment, and neglect inflicted on Native Peoples by citizens of the United States;

(5) expresses its regret for the ramifications of former wrongs and its commitment to build on the positive relationships of the past and present to move toward a brighter future where all the people of this land live reconciled as brothers and sisters, and harmoniously stewarded and protect this land together;

(6) urges the President to acknowledge the wrongs of the United States against Indian

tribes in the history of the United States in order to bring healing to this land; and

(7) commends the State governments that have begun reconciliation efforts with recognized Indian tribes located in their boundaries and encourages all State governments similarly to work toward reconciling relationships with Indian tribes within their boundaries.

(b) **DISCLAIMER.**—Nothing in this section—

(1) authorizes or supports any claim against the United States; or

(2) serves as a settlement of any claim against the United States.

SEC. 8114. (a) Any agency receiving funds made available in this Act, shall, subject to subsections (b) and (c), post on the public website of that agency any report required to be submitted by the Congress in this or any other Act, upon the determination by the head of the agency that it shall serve the national interest.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains proprietary information.

(c) The head of the agency posting such report shall do so only after such report has been made available to the requesting Committee or Committees of Congress for no less than 45 days.

SEC. 8115. (a) It is the sense of Congress that—

(1) All of the National Nuclear Security Administration sites, including the Nevada Test Site can play an effective and essential role in developing and demonstrating—

(A) innovative and effective methods for treaty verification and the detection of nuclear weapons and other materials; and

(B) related threat reduction technologies; and

(2) the Administrator for Nuclear Security should expand the mission of the Nevada Test Site to carry out the role described in paragraph (1), including by—

(A) fully utilizing the inherent capabilities and uniquely secure location of the Site;

(B) continuing to support the Nation's nuclear weapons program and other national security programs; and

(C) renaming the Site to reflect the expanded mission of the Site.

(b) Not later than one year after the date of the enactment of this Act, the Administrator for Nuclear Security shall submit to the congressional defense committees and the Subcommittees on Energy and Water Development of the Committees on Appropriations a plan for improving the infrastructure of the Nevada Test Site of the National Nuclear Security Administration and, if the Administrator deems appropriate, all other sites under the jurisdiction of the National Nuclear Security Administration—

(1) to fulfill the expanded mission of the Site described in subsection (a); and

(2) to make the Site available to support the threat reduction programs of the entire national security community, including threat reduction programs of the National Nuclear Security Administration, the Defense Threat Reduction Agency, the Department of Homeland Security, and other agencies as appropriate.

SEC. 8116. (a) None of the funds appropriated or otherwise made available by this Act may be expended for any Federal contract for an amount in excess of \$1,000,000 that is awarded more than 60 days after the effective date of this Act, unless the contractor agrees not to:

(1) enter into any agreement with any of its employees or independent contractors that requires, as a condition of employment, that the employee or independent contractor agree to resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention; or

(2) take any action to enforce any provision of an existing agreement with an employee or independent contractor that mandates that the employee or independent contractor resolve through arbitration any claim under title VII of the Civil Rights Act of 1964 or any tort related to or arising out of sexual assault or harassment, including assault and battery, intentional infliction of emotional distress, false imprisonment, or negligent hiring, supervision, or retention.

(b) None of the funds appropriated or otherwise made available by this Act may be expended for any Federal contract awarded more than 180 days after the effective date of this Act unless the contractor certifies that it requires each covered subcontractor to agree not to enter into, and not to take any action to enforce any provision of, any agreement as described in paragraphs (1) and (2) of subsection (a), with respect to any employee or independent contractor performing work related to such subcontract. For purposes of this subsection, a "covered subcontractor" is an entity that has a subcontract in excess of \$1,000,000 on a contract subject to subsection (a).

(c) The prohibitions in this section do not apply with respect to a contractor's or subcontractor's agreements with employees or independent contractors that may not be enforced in a court of the United States.

(d) The Secretary of Defense may waive the application of subsection (a) or (b) to a particular contractor or subcontractor for the purposes of a particular contract or subcontract if the Secretary or the Deputy Secretary personally determines that the waiver is necessary to avoid harm to national security interests of the United States, and that the term of the contract or subcontract is not longer than necessary to avoid such harm. The determination shall set forth with specificity the grounds for the waiver and for the contract or subcontract term selected, and shall state any alternatives considered in lieu of a waiver and the reasons each such alternative would not avoid harm to national security interests of the United States. The Secretary of Defense shall transmit to Congress, and simultaneously make public, any determination under this subsection not less than 15 business days before the contract or subcontract addressed in the determination may be awarded.

SEC. 8117. (a) **PROHIBITION ON CONVERSION OF FUNCTIONS PERFORMED BY FEDERAL EMPLOYEES TO CONTRACTOR PERFORMANCE.**—None of the funds appropriated or otherwise made available by this Act, or that remain available for obligation for the Department of Defense from the Consolidated Security, Disaster Assistance, and Continuing Appropriations Act, 2009 (Public Law 110-329), the American Recovery and Reinvestment Act of 2009 (Public Law 111-5), and the Supplemental Appropriations Act, 2009 (Public Law 111-32), may be used to begin or announce the competition to award to a contractor or convert to performance by a contractor any functions performed by Federal employees pursuant to a study conducted under Office

of Management and Budget (OMB) Circular A-76.

(b) **EXCEPTION.**—The prohibition in subsection (a) shall not apply to the award of a function to a contractor or the conversion of a function to performance by a contractor pursuant to a study conducted under Office of Management and Budget (OMB) Circular A-76 once all reporting and certifications required by section 325 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111-84) have been satisfactorily completed.

SEC. 8118. (a)(1) No National Intelligence Program funds appropriated in this Act may be used for a mission critical or mission essential business management information technology system that is not registered with the Director of National Intelligence. A system shall be considered to be registered with that officer upon the furnishing notice of the system, together with such information concerning the system as the Director of the Business Transformation Office may prescribe.

(2) During the current fiscal year no funds may be obligated or expended for a financial management automated information system, a mixed information system supporting financial and non-financial systems, or a business system improvement of more than \$3,000,000, within the Intelligence Community without the approval of the Business Transformation Investment Review Board.

(b) The Director of the Business Transformation Office shall provide the congressional intelligence committees a semi-annual report of approvals under paragraph (1) no later than March 30 and September 30 of each year. The report shall include the results of the Business Transformation Investment Review Board's semi-annual activities, and each report shall certify that the following steps have been taken for systems approved under paragraph (1):

(1) Business process reengineering.

(2) An analysis of alternatives and an economic analysis that includes a calculation of the return on investment.

(3) Assurance the system is compatible with the enterprise-wide business architecture.

(4) Performance measures.

(5) An information assurance strategy consistent with the Chief Information Officer of the Intelligence Community.

(c) This section shall not apply to any programmatic or analytic systems or programmatic or analytic system improvements.

(INCLUDING TRANSFER OF FUNDS)

SEC. 8119. In addition to funds made available elsewhere in this Act, there is hereby appropriated \$291,715,000, to remain available until transferred: *Provided*, That these funds are appropriated to the "Tanker Replacement Transfer Fund" (referred to as "the Fund" elsewhere in this section): *Provided further*, That the Secretary of the Air Force may transfer amounts in the Fund to "Operation and Maintenance, Air Force", "Air-craft Procurement, Air Force", and "Research, Development, Test and Evaluation, Air Force", only for the purposes of proceeding with a tanker acquisition program: *Provided further*, That funds transferred shall be merged with and be available for the same purposes and for the same time period as the appropriations or fund to which transferred: *Provided further*, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That the Secretary of the Air Force shall, not fewer than 15 days prior to

making transfers using funds provided in this section, notify the congressional defense committees in writing of the details of any such transfer: *Provided further*, That the Secretary shall submit a report no later than 30 days after the end of each fiscal quarter to the congressional defense committees summarizing the details of the transfer of funds from this appropriation.

SEC. 8120. (a) RESETTLEMENT SUPPORT AND OTHER PUBLIC BENEFITS FOR CERTAIN IRAQI REFUGEES.—Section 1224(g) of the Refugee Crisis in Iraq Act of 2007 (subtitle C of title XII of division A of Public Law 110-181; 122 Stat. 398) is amended by striking “for a period not to exceed eight months” and inserting “to the same extent, and for the same periods of time, as such refugees”.

(b) RESETTLEMENT SUPPORT AND OTHER PUBLIC BENEFITS FOR CERTAIN AFGHAN ALLIES.—Section 602(b)(8) of the Afghan Allies Protection Act of 2009 (title VI of division F of Public Law 111-8; 123 Stat. 809) is amended by striking “for a period not to exceed 8 months” and inserting “to the same extent, and for the same periods of time, as such refugees”.

SEC. 8121. (a) Each congressionally directed spending item specified in this Act or the explanatory statement regarding this Act that is also identified in Senate Report 111-74 and intended for award to a for-profit entity shall be subject to acquisition regulations for full and open competition on the same basis as each spending item intended for a for-profit entity that is contained in the budget request of the President.

(b) EXCEPTIONS.—Subsection (a) shall not apply to any contract awarded—

(1) by a means that is required by Federal statute, including for a purchase made under a mandated preferential program;

(2) pursuant to the Small Business Act (15 U.S.C. 631 et seq.); or

(3) in an amount less than the simplified acquisition threshold described in section 302A(a) of the Federal Property and Administrative Services Act of 1949 (41 U.S.C. 252a(a)).

(c) Any congressionally directed spending item specified in this Act or the explanatory statement regarding this Act that is intended for award to a for-profit entity and is not covered by the competition requirement specified in subsection (a), shall be awarded under full and open competition, except that any contract previously awarded under full and open competition that remains in effect during fiscal year 2010 shall be considered to have satisfied the conditions of full and open competition.

(d) In this section, the term “congressionally directed spending item” means the following:

(1) A congressionally directed spending item, as defined in Rule XLIV of the Standing Rules of the Senate.

(2) A congressional earmark for purposes of rule XXI of the House of Representatives.

SEC. 8122. None of the funds appropriated or otherwise made available by this Act may be used to award to a contractor or convert to performance by a contractor any functions pursuant to a study conducted under Office of Management and Budget (OMB) Circular A-76 or as part of a utility privatization authorized under section 2688 of title 10, United States Code or under any other provision of law, that are performed by Federal employees at the United States Military Academy, West Point, as of the date of enactment of this Act.

SEC. 8123. None of the funds made available under this Act may be distributed to the As-

sociation of Community Organizations for Reform Now (ACORN) or its subsidiaries.

SEC. 8124. The explanatory statement regarding this Act printed in the House of Representatives section of the Congressional Record on or about December 16, 2010, by the Chairman of the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives shall have the same effect with respect to the allocation of funds and implementation of this Act as if it were a joint explanatory statement of a committee of conference.

TITLE IX

OVERSEAS CONTINGENCY OPERATIONS MILITARY PERSONNEL

MILITARY PERSONNEL, ARMY

For an additional amount for “Military Personnel, Army”, \$9,958,840,000.

MILITARY PERSONNEL, NAVY

For an additional amount for “Military Personnel, Navy”, \$1,388,601,000.

MILITARY PERSONNEL, MARINE CORPS

For an additional amount for “Military Personnel, Marine Corps”, \$778,722,000.

MILITARY PERSONNEL, AIR FORCE

For an additional amount for “Military Personnel, Air Force”, \$1,667,376,000.

RESERVE PERSONNEL, ARMY

For an additional amount for “Reserve Personnel, Army”, \$293,137,000.

RESERVE PERSONNEL, NAVY

For an additional amount for “Reserve Personnel, Navy”, \$37,040,000.

RESERVE PERSONNEL, MARINE CORPS

For an additional amount for “Reserve Personnel, Marine Corps”, \$31,337,000.

RESERVE PERSONNEL, AIR FORCE

For an additional amount for “Reserve Personnel, Air Force”, \$19,822,000.

NATIONAL GUARD PERSONNEL, ARMY

For an additional amount for “National Guard Personnel, Army”, \$824,966,000.

NATIONAL GUARD PERSONNEL, AIR FORCE

For an additional amount for “National Guard Personnel, Air Force”, \$9,500,000.

OPERATION AND MAINTENANCE

OPERATION AND MAINTENANCE, ARMY

For an additional amount for “Operation and Maintenance, Army”, \$47,821,154,000.

OPERATION AND MAINTENANCE, NAVY

For an additional amount for “Operation and Maintenance, Navy”, \$5,475,925,000.

OPERATION AND MAINTENANCE, MARINE CORPS

For an additional amount for “Operation and Maintenance, Marine Corps”, \$3,430,258,000.

OPERATION AND MAINTENANCE, AIR FORCE

For an additional amount for “Operation and Maintenance, Air Force”, \$9,216,319,000.

OPERATION AND MAINTENANCE, DEFENSE-WIDE

For an additional amount for “Operation and Maintenance, Defense-Wide”, \$7,490,900,000, of which:

(1) Not to exceed \$12,500,000 for the Combatant Commander Initiative Fund, to be used in support of Operation Iraqi Freedom and Operation Enduring Freedom; and

(2) Not to exceed \$1,570,000,000, to remain available until expended, for payments to reimburse key cooperating nations for logistical, military, and other support, including access provided to United States military operations in support of Operation Iraqi Freedom and Operation Enduring Freedom, notwithstanding any other provision of

law: *Provided*, That such reimbursement payments may be made in such amounts as the Secretary of Defense, with the concurrence of the Secretary of State, and in consultation with the Director of the Office of Management and Budget, may determine, in his discretion, based on documentation determined by the Secretary of Defense to adequately account for the support provided, and such determination is final and conclusive upon the accounting officers of the United States, and 15 days following notification to the appropriate congressional committees: *Provided further*, That these funds may be used for the purpose of providing specialized training and procuring supplies and specialized equipment and providing such supplies and loaning such equipment on a non-reimbursable basis to coalition forces supporting United States military operations in Iraq and Afghanistan, and 15 days following notification to the appropriate congressional committees: *Provided further*, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees on the use of funds provided in this paragraph.

OPERATION AND MAINTENANCE, ARMY RESERVE

For an additional amount for “Operation and Maintenance, Army Reserve”, \$204,326,000.

OPERATION AND MAINTENANCE, NAVY RESERVE

For an additional amount for “Operation and Maintenance, Navy Reserve”, \$68,059,000.

OPERATION AND MAINTENANCE, MARINE CORPS RESERVE

For an additional amount for “Operation and Maintenance, Marine Corps Reserve”, \$86,667,000.

OPERATION AND MAINTENANCE, AIR FORCE RESERVE

For an additional amount for “Operation and Maintenance, Air Force Reserve”, \$125,925,000.

OPERATION AND MAINTENANCE, ARMY NATIONAL GUARD

For an additional amount for “Operation and Maintenance, Army National Guard”, \$321,646,000.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For an additional amount for “Operation and Maintenance, Air National Guard”, \$289,862,000.

OVERSEAS CONTINGENCY OPERATIONS TRANSFER FUND

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for expenses directly relating to overseas contingency operations by United States military forces, \$5,000,000,000, to remain available for obligation until expended: *Provided*, That of the funds made available under this heading, the Secretary of Defense may transfer these funds only to military personnel accounts, operation and maintenance accounts, the defense health program appropriation, the Mine Resistant Ambush Protected Vehicle Fund, and working capital funds accounts: *Provided further*, That the funds transferred shall be merged with and shall be available for the same purposes and for the same time period, as the appropriation to which transferred: *Provided further*, That the Secretary shall notify the congressional defense committees 15 days prior to such transfer: *Provided further*, That the transfer authority provided under this heading is in addition to any other transfer authority available to the Department of Defense.

AFGHANISTAN SECURITY FORCES FUND

For the "Afghanistan Security Forces Fund", \$6,562,769,000, to remain available until September 30, 2011: *Provided*, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, for the purpose of allowing the Commander, Combined Security Transition Command—Afghanistan, or the Secretary's designee, to provide assistance, with the concurrence of the Secretary of State, to the security forces of Afghanistan, including the provision of equipment, supplies, services, training, facility and infrastructure repair, renovation, and construction, and funding: *Provided further*, That the authority to provide assistance under this heading is in addition to any other authority to provide assistance to foreign nations: *Provided further*, That contributions of funds for the purposes provided herein from any person, foreign government, or international organization may be credited to this Fund and used for such purposes: *Provided further*, That the Secretary of Defense shall notify the congressional defense committees in writing upon the receipt and upon the obligation of any contribution, delineating the sources and amounts of the funds received and the specific use of such contributions: *Provided further*, That the Secretary of Defense shall, not fewer than 15 days prior to obligating from this appropriation account, notify the congressional defense committees in writing of the details of any such obligation.

PROCUREMENT

AIRCRAFT PROCUREMENT, ARMY

For an additional amount for "Aircraft Procurement, Army", \$1,238,219,000, to remain available until September 30, 2012.

MISSILE PROCUREMENT, ARMY

For an additional amount for "Missile Procurement, Army", \$475,954,000, to remain available until September 30, 2012.

PROCUREMENT OF WEAPONS AND TRACKED COMBAT VEHICLES, ARMY

For an additional amount for "Procurement of Weapons and Tracked Combat Vehicles, Army", \$1,169,466,000, to remain available until September 30, 2012.

PROCUREMENT OF AMMUNITION, ARMY

For an additional amount for "Procurement of Ammunition, Army", \$365,635,000, to remain available until September 30, 2012.

OTHER PROCUREMENT, ARMY

For an additional amount for "Other Procurement, Army", \$5,800,516,000, to remain available until September 30, 2012.

AIRCRAFT PROCUREMENT, NAVY

For an additional amount for "Aircraft Procurement, Navy", \$853,297,000, to remain available until September 30, 2012.

WEAPONS PROCUREMENT, NAVY

For an additional amount for "Weapons Procurement, Navy", \$50,700,000, to remain available until September 30, 2012.

PROCUREMENT OF AMMUNITION, NAVY AND MARINE CORPS

For an additional amount for "Procurement of Ammunition, Navy and Marine Corps", \$675,957,000, to remain available until September 30, 2012.

OTHER PROCUREMENT, NAVY

For an additional amount for "Other Procurement, Navy", \$241,018,000, to remain available until September 30, 2012.

PROCUREMENT, MARINE CORPS

For an additional amount for "Procurement, Marine Corps", \$893,197,000, to remain available until September 30, 2012.

AIRCRAFT PROCUREMENT, AIR FORCE

For an additional amount for "Aircraft Procurement, Air Force", \$736,501,000, to remain available until September 30, 2012.

MISSILE PROCUREMENT, AIR FORCE

For an additional amount for "Missile Procurement, Air Force", \$36,625,000, to remain available until September 30, 2012.

PROCUREMENT OF AMMUNITION, AIR FORCE

For an additional amount for "Procurement of Ammunition, Air Force", \$256,819,000, to remain available until September 30, 2012.

OTHER PROCUREMENT, AIR FORCE

For an additional amount for "Other Procurement, Air Force", \$2,583,421,000, to remain available until September 30, 2012.

PROCUREMENT, DEFENSE-WIDE

For an additional amount for "Procurement, Defense-Wide", \$480,780,000, to remain available until September 30, 2012.

NATIONAL GUARD AND RESERVE EQUIPMENT

For procurement of aircraft, missiles, tracked combat vehicles, ammunition, other weapons and other procurement for the reserve components of the Armed Forces, \$950,000,000, to remain available for obligation until September 30, 2012, of which \$575,000,000 shall be available only for the Army National Guard: *Provided*, That the Chiefs of National Guard and Reserve components shall, not later than 30 days after the enactment of this Act, individually submit to the congressional defense committees the modernization priority assessment for their respective National Guard or Reserve component.

MINE RESISTANT AMBUSH PROTECTED VEHICLE FUND

(INCLUDING TRANSFER OF FUNDS)

For the Mine Resistant Ambush Protected Vehicle Fund, \$6,281,000,000, to remain available until September 30, 2011: *Provided*, That such funds shall be available to the Secretary of Defense, notwithstanding any other provision of law, to procure, sustain, transport, and field Mine Resistant Ambush Protected vehicles: *Provided further*, That the Secretary shall transfer such funds only to appropriations made available in this or any other Act for operation and maintenance; procurement; research, development, test and evaluation; and defense working capital funds to accomplish the purpose provided herein: *Provided further*, That such transferred funds shall be merged with and be available for the same purposes and the same time period as the appropriation to which transferred: *Provided further*, That this transfer authority is in addition to any other transfer authority available to the Department of Defense: *Provided further*, That the Secretary shall, not fewer than 10 days prior to making transfers from this appropriation, notify the congressional defense committees in writing of the details of any such transfer.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For an additional amount for "Research, Development, Test and Evaluation, Army", \$57,962,000, to remain available until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For an additional amount for "Research, Development, Test and Evaluation, Navy", \$58,660,000, to remain available until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For an additional amount for "Research, Development, Test and Evaluation, Air Force", \$39,286,000, to remain available until September 30, 2011.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For an additional amount for "Research, Development, Test and Evaluation, Defense-Wide", \$112,196,000, to remain available until September 30, 2011.

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For an additional amount for "Defense Working Capital Funds", \$412,215,000.

OTHER DEPARTMENT OF DEFENSE PROGRAMS

DEFENSE HEALTH PROGRAM

For an additional amount for "Defense Health Program", \$1,256,675,000, which shall be for operation and maintenance.

DRUG INTERDICTION AND COUNTER-DRUG ACTIVITIES

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for "Drug Interdiction and Counter-Drug Activities", \$346,603,000, to remain available until September 30, 2011.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

(INCLUDING TRANSFER OF FUNDS)

For an additional amount for "Joint Improvised Explosive Device Defeat Fund", \$1,762,010,000, to remain available until September 30, 2012.

OFFICE OF THE INSPECTOR GENERAL

For an additional amount for the "Office of the Inspector General", \$8,876,000.

GENERAL PROVISIONS—THIS TITLE

SEC. 9001. Notwithstanding any other provision of law, funds made available in this title are in addition to amounts appropriated or otherwise made available for the Department of Defense for fiscal year 2010.

(INCLUDING TRANSFER OF FUNDS)

SEC. 9002. Upon the determination of the Secretary of Defense that such action is necessary in the national interest, the Secretary may, with the approval of the Office of Management and Budget, transfer up to \$4,000,000,000 between the appropriations or funds made available to the Department of Defense in this title: *Provided*, That the Secretary shall notify the Congress promptly of each transfer made pursuant to the authority in this section: *Provided further*, That the authority provided in this section is in addition to any other transfer authority available to the Department of Defense and is subject to the same terms and conditions as the authority provided in the Department of Defense Appropriations Act, 2010: *Provided further*, That the amount in this section is designated as being for overseas deployments and other activities pursuant to sections 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 9003. Supervision and administration costs associated with a construction project funded with appropriations available for operation and maintenance or the "Afghanistan Security Forces Fund" provided in this Act and executed in direct support of overseas contingency operations in Afghanistan, may be obligated at the time a construction contract is awarded: *Provided*, That for the purpose of this section, supervision and administration costs include all in-house Government costs.

SEC. 9004. From funds made available in this title, the Secretary of Defense may purchase for use by military and civilian employees of the Department of Defense in Iraq and Afghanistan: (a) passenger motor vehicles up to a limit of \$75,000 per vehicle and (b) heavy and light armored vehicles for the physical security of personnel or for force protection purposes up to a limit of \$250,000 per vehicle, notwithstanding price or other limitations applicable to the purchase of passenger carrying vehicles.

SEC. 9005. Not to exceed \$1,200,000,000 of the amount appropriated in this title under the heading "Operation and Maintenance, Army" may be used, notwithstanding any other provision of law, to fund the Commander's Emergency Response Program, for the purpose of enabling military commanders in Iraq and Afghanistan to respond to urgent humanitarian relief and reconstruction requirements within their areas of responsibility: *Provided*, That not later than 45 days after the end of each fiscal year quarter, the Secretary of Defense shall submit to the congressional defense committees a report regarding the source of funds and the allocation and use of funds during that quarter that were made available pursuant to the authority provided in this section or under any other provision of law for the purposes described herein: *Provided further*, That, of the funds provided, \$500,000,000 shall not be available until 5 days after the Secretary of Defense has completed a thorough review of the Commander's Emergency Response Program and provided a report on his findings to the congressional defense committees.

SEC. 9006. Funds available to the Department of Defense for operation and maintenance may be used, notwithstanding any other provision of law, to provide supplies, services, transportation, including airlift and sealift, and other logistical support to coalition forces supporting military and stability operations in Iraq and Afghanistan: *Provided*, That the Secretary of Defense shall provide quarterly reports to the congressional defense committees regarding support provided under this section.

SEC. 9007. Each amount in this title is designated as being for overseas deployments and other activities pursuant to section 401(c)(4) and 423(a)(1) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 9008. None of the funds appropriated or otherwise made available by this or any other Act shall be obligated or expended by the United States Government for a purpose as follows:

(1) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Iraq.

(2) To exercise United States control over any oil resource of Iraq.

(3) To establish any military installation or base for the purpose of providing for the permanent stationing of United States Armed Forces in Afghanistan.

SEC. 9009. None of the funds made available in this Act may be used in contravention of the following laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment (done at New York on December 10, 1984):

(1) Section 2340A of title 18, United States Code.

(2) Section 2242 of the Foreign Affairs Reform and Restructuring Act of 1998 (division G of Public Law 105-277; 112 Stat. 2681-822; 8

U.S.C. 1231 note) and regulations prescribed thereto, including regulations under part 208 of title 8, Code of Federal Regulations, and part 95 of title 22, Code of Federal Regulations.

(3) Sections 1002 and 1003 of the Department of Defense, Emergency Supplemental Appropriations to Address Hurricanes in the Gulf of Mexico, and Pandemic Influenza Act, 2006 (Public Law 109-148).

SEC. 9010. (a) The Director of the Office of Management and Budget, in consultation with the Secretary of Defense; the Commander of the United States Central Command; the Commander, Multi-National Security Transition Command—Iraq; and the Commander, Combined Security Transition Command—Afghanistan, shall submit to the congressional defense committees not later than 45 days after the end of each fiscal quarter a report on the proposed use of all funds appropriated by this or any prior Act under each of the headings "Iraq Security Forces Fund", "Afghanistan Security Forces Fund", and "Pakistan Counterinsurgency Fund" on a project-by-project basis, for which the obligation of funds is anticipated during the 3-month period from such date, including estimates by the commanders referred to in this section of the costs required to complete each such project.

(b) The report required by this subsection shall include the following:

(1) The use of all funds on a project-by-project basis for which funds appropriated under the headings referred to in subsection (a) were obligated prior to the submission of the report, including estimates by the commanders referred to in subsection (a) of the costs to complete each project.

(2) The use of all funds on a project-by-project basis for which funds were appropriated under the headings referred to in subsection (a) in prior appropriations Acts, or for which funds were made available by transfer, reprogramming, or allocation from other headings in prior appropriations Acts, including estimates by the commanders referred to in subsection (a) of the costs to complete each project.

(3) An estimated total cost to train and equip the Iraq, Afghanistan, and Pakistan security forces, disaggregated by major program and sub-elements by force, arrayed by fiscal year.

(c) The Secretary of Defense shall notify the congressional defense committees of any proposed new projects or transfers of funds between sub-activity groups in excess of \$20,000,000 using funds appropriated by this or any prior Act under the headings "Iraq Security Forces Fund", "Afghanistan Security Forces Fund", and "Pakistan Counterinsurgency Fund".

SEC. 9011. (a) None of the funds made available in this or any other Act may be used to release an individual who is detained, as of June 24, 2009, at Naval Station, Guantanamo Bay, Cuba, into the continental United States, Alaska, Hawaii, or the District of Columbia, into any of the United States territories of Guam, American Samoa (AS), the United States Virgin Islands (USVI), the Commonwealth of Puerto Rico and the Commonwealth of the Northern Mariana Islands (CNMI).

(b) None of the funds made available in this or any other Act may be used to transfer an individual who is detained, as of June 24, 2009, at Naval Station, Guantanamo Bay, Cuba, into the continental United States, Alaska, Hawaii, or the District of Columbia, into any of the United States territories of Guam, American Samoa (AS), the United

States Virgin Islands (USVI), the Commonwealth of Puerto Rico and the Commonwealth of the Northern Mariana Islands (CNMI), for the purpose of detention, except as provided in subsection (c).

(c) None of the funds made available in this or any other Act may be used to transfer an individual who is detained, as of June 24, 2009, at Naval Station, Guantanamo Bay, Cuba, into the continental United States, Alaska, Hawaii, or the District of Columbia, into any of the United States territories of Guam, American Samoa (AS), the United States Virgin Islands (USVI), the Commonwealth of Puerto Rico and the Commonwealth of the Northern Mariana Islands (CNMI), for the purposes of prosecuting such individual, or detaining such individual during legal proceedings, until 45 days after the plan described in subsection (d) is received.

(d) The President shall submit to Congress, in classified form, a plan regarding the proposed disposition of any individual covered by subsection (c) who is detained as of June 24, 2009. Such plan shall include, at a minimum, each of the following for each such individual:

(1) A determination of the risk that the individual might instigate an act of terrorism within the continental United States, Alaska, Hawaii, the District of Columbia, or the United States territories if the individual were so transferred.

(2) A determination of the risk that the individual might advocate, coerce, or incite violent extremism, ideologically motivated criminal activity, or acts of terrorism, among inmate populations at incarceration facilities within the continental United States, Alaska, Hawaii, the District of Columbia, or the United States territories if the individual were transferred to such a facility.

(3) The costs associated with transferring the individual in question.

(4) The legal rationale and associated court demands for transfer.

(5) A plan for mitigation of any risks described in paragraphs (1), (2), and (7).

(6) A copy of a notification to the Governor of the State to which the individual will be transferred, to the Mayor of the District of Columbia if the individual will be transferred to the District of Columbia, or to any United States territories with a certification by the Attorney General of the United States in classified form at least 14 days prior to such transfer (together with supporting documentation and justification) that the individual poses little or no security risk to the United States.

(7) An assessment of any risk to the national security of the United States or its citizens, including members of the Armed Services of the United States, that is posed by such transfer and the actions taken to mitigate such risk.

(e) None of the funds made available in this or any other Act may be used to transfer or release an individual detained at Naval Station, Guantanamo Bay, Cuba, as of June 24, 2009, to the country of such individual's nationality or last habitual residence or to any other country other than the United States or to a freely associated State, unless the President submits to the Congress, in classified form, at least 15 days prior to such transfer or release, the following information:

(1) The name of any individual to be transferred or released and the country or the freely associated State to which such individual is to be transferred or released.

(2) An assessment of any risk to the national security of the United States or its

citizens, including members of the Armed Services of the United States, that is posed by such transfer or release and the actions taken to mitigate such risk.

(3) The terms of any agreement with the country or the freely associated State for the acceptance of such individual, including the amount of any financial assistance related to such agreement.

(f) In this section, the term “freely associated States” means the Federated States of Micronesia (FSM), the Republic of the Marshall Islands (RMI), and the Republic of Palau.

(g) Prior to the termination of detention operations at Naval Station, Guantanamo Bay, Cuba, the President shall submit to the Congress a report in classified form describing the disposition or legal status of each individual detained at the facility as of the date of enactment of this Act.

SEC. 9012. (a) FUNDING FOR OUTREACH AND REINTEGRATION SERVICES UNDER YELLOW RIBBON REINTEGRATION PROGRAM.—Of the amounts appropriated or otherwise made available by title IX, up to \$20,000,000 may be available for outreach and reintegration services under the Yellow Ribbon Reintegration Program under section 582(h) of the National Defense Authorization Act for Fiscal Year 2008 (Public Law 110-181; 122 Stat. 125; 10 U.S.C. 10101 note).

(b) SUPPLEMENT NOT SUPPLANT.—The amount made available by subsection (a) for the services described in that subsection is in addition to any other amounts available in this Act for such services.

This division may be cited as the “Department of Defense Appropriations Act, 2010”.

DIVISION B—OTHER MATTERS

SEC. 1001. There are hereby appropriated such sums as may be necessary, for an additional amount for “Food and Nutrition Service—Supplemental Nutrition Assistance Program” for necessary current year expenses to carry out the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.): *Provided*, That such amount shall be used only in such amounts and at such times as may become necessary to carry out program operations: *Provided further*, That amounts so appropriated are designated as emergency requirements and necessary to meet emergency needs pursuant to sections 403 and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 1002. (a) IN GENERAL.—For the costs of State administrative expenses associated with administering the supplemental nutrition assistance program established under the Food and Nutrition Act of 2008 (7 U.S.C. 2011 et seq.), there are hereby appropriated \$400,000,000, which shall remain available until September 30, 2011.

(b) ALLOCATION OF FUNDS.—Funds described in subsection (a) shall be made available as grants to State agencies as follows—

(1) 75 percent of the amounts available shall be allocated to States based on the share of each State of households that participate in the supplemental nutrition assistance program as reported to the Department of Agriculture for the most recent 12-month period for which data are available, adjusted by the Secretary (as of the date of enactment) for participation in disaster programs under section 5(h) of the Food and Nutrition Act of 2008 (7 U.S.C. 2014(h));

(2) 25 percent of the amounts available shall be allocated to States based on the increase in the number of households that participate in the supplemental nutrition assistance program as reported to the Department

of Agriculture over the most recent 12-month period for which data are available, adjusted by the Secretary (as of the date of enactment) for participation in disaster programs under section 5(h) of the Food and Nutrition Act of 2008 (7 U.S.C. 2014(h)); and

(3) Not later than 60 days after the date of enactment of this Act, the Secretary shall make available to States amounts based on paragraphs (1) and (2) of this subparagraph.

(c) REALLOCATION OF FUNDS.—Funds unobligated at the State level in fiscal year 2010 may be recovered and reallocated to the States in fiscal year 2011.

(d) EMERGENCY DESIGNATION.—Amounts in this section are designated as emergency requirements and necessary to meet emergency needs pursuant to sections 403 and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 1003. (a) AMENDMENTS TO SECTION 119 OF TITLE 17, UNITED STATES CODE.—

(1) IN GENERAL.—Section 119 of title 17, United States Code, is amended—

(A) in subsection (c)(1)(E), by striking “December 31, 2009” and inserting “February 28, 2010”; and

(B) in subsection (e), by striking “December 31, 2009” and inserting “February 28, 2010”.

(2) TERMINATION OF LICENSE.—

(A) TERMINATION.—Section 119 of title 17, United States Code, as amended by paragraph (1), shall cease to be effective on February 28, 2010.

(B) CONFORMING AMENDMENT.—Section 4(a) of the Satellite Home Viewer Act of 1994 (17 U.S.C. 119 note; Public Law 103-369) is repealed.

(b) AMENDMENTS TO COMMUNICATIONS ACT OF 1934.—Section 325(b) of the Communications Act of 1934 (47 U.S.C. 325(b)) is amended—

(1) in paragraph (2)(C), by striking “December 31, 2009” and inserting “February 28, 2010”; and

(2) in paragraph (3)(C), by striking “January 1, 2010” each place it appears in clauses (ii) and (iii) and inserting “March 1, 2010”.

(c) EMERGENCY DESIGNATION.—Amounts in this section are designated as emergency requirements and necessary to meet emergency needs pursuant to sections 403 and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 1004. (a) USA PATRIOT IMPROVEMENT AND REAUTHORIZATION ACT OF 2005.—Section 102(b)(1) of the USA PATRIOT Improvement and Reauthorization Act of 2005 (Public Law 109-177; 120 Stat. 195) is amended by striking “December 31, 2009” and inserting “February 28, 2010”.

(b) INTELLIGENCE REFORM AND TERRORISM PREVENTION ACT OF 2004.—Section 6001(b)(1) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458; 118 Stat. 3742; 50 U.S.C. 1801 note) is amended by striking “December 31, 2009” and inserting “February 28, 2010”.

SEC. 1005. Section 129 of the Continuing Appropriations Resolution, 2010 (Public Law 111-68) is amended by striking “by substituting” and all that follows through the period at the end, and inserting “by substituting February 28, 2010 for the date specified in each such section.”

SEC. 1006. (a) There is hereby appropriated \$125,000,000, for an additional amount for “Small Business Administration—Business Loans Program Account” for fee reductions and eliminations under section 501 of division A of the American Recovery and Rein-

vestment Act of 2009 (Public Law 111-5) and for the cost of guaranteed loans under section 502 of such division: *Provided*, That such cost shall be as defined in section 502 of the Congressional Budget Act of 1974.

(b) Section 502(f) of division A of the American Recovery and Reinvestment Act of 2009 is amended by striking “the date 12 months after the date of enactment of this Act” and inserting “February 28, 2010”.

(c) Amounts in this section are designated as emergency requirements and necessary to meet emergency needs pursuant to sections 403 and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 1007. (a) PAYMENT.—The Secretary of the Interior may make a payment to Swain County, North Carolina, in an amount of \$12,800,000, in connection with the non-construction of the North Shore Road: *Provided*, That \$4,000,000 shall be available for obligation upon enactment of this Act: *Provided further*, That remaining amounts shall not be available for obligation until 120 days following signature of an agreement between the Secretary of the Interior, Swain County, the State of North Carolina, and the Tennessee Valley Authority that supersedes the agreement of July 30, 1943, related to the construction of North Shore Road between the Secretary, the County, the State, and the Authority. For this payment, there is hereby appropriated \$6,800,000, to remain available until expended, and an amount of \$6,000,000 from unobligated balances available to the Department of the Interior from prior appropriations to the “Construction” account for the National Park Service.

(b) RESCISSION.—Of the funds appropriated in the Department of Transportation and Related Agencies Appropriations Act, 2001 (Public Law 106-346), in section 378 for construction of, and improvements to, North Shore Road in Swain County, North Carolina, \$6,800,000 is hereby permanently rescinded.

SEC. 1008. (a) For purposes of the continued extension of surface transportation programs and related authority to make expenditures from the Highway Trust Fund and other trust funds under sections 157 through 162 of the Continuing Appropriations Resolution, 2010, the date specified in section 106(3) of such resolution shall be deemed to be February 28, 2010.

(b) Section 158(c) is amended by striking the period at the end and inserting “except for the rescission made by section 123 of division I of the Omnibus Appropriations Act, 2009. The amount made available for each of the apportioned Federal-aid highway programs under subsection (a) shall be reduced by an amount equaling \$33,401,492 multiplied by the amount calculated under subsection (a) and divided by \$23,941,505,262”.

SEC. 1009. (a)(1) Section 4007 of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended—

(A) by striking “December 31, 2009” each place it appears and inserting “February 28, 2010”;

(B) in the heading for subsection (b)(2), by striking “DECEMBER 31, 2009” and inserting “FEBRUARY 28, 2010”; and

(C) in subsection (b)(3), by striking “May 31, 2010” and inserting “July 31, 2010”.

(2) Section 2002(e) of the Assistance for Unemployed Workers and Struggling Families Act, as contained in Public Law 111-5 (26 U.S.C. 3304 note; 123 Stat. 438), is amended—

(A) in paragraph (1)(B), by striking “before January 1, 2010” and inserting “on or before February 28, 2010”;

(B) in the heading for paragraph (2), by striking "JANUARY 1, 2010" and inserting "FEBRUARY 28, 2010"; and

(C) in paragraph (3), by striking "June 30, 2010" and inserting "August 31, 2010".

(3) Section 2005 of the Assistance for Unemployed Workers and Struggling Families Act, as contained in Public Law 111-5 (26 U.S.C. 3304 note; 123 Stat. 444), is amended—

(A) by striking "January 1, 2010" each place it appears and inserting "February 28, 2010"; and

(B) in subsection (c), by striking "June 1, 2010" and inserting "July 31, 2010".

(4) Section 5 of the Unemployment Compensation Extension Act of 2008 (Public Law 110-449; 26 U.S.C. 3304 note) is amended by striking "May 30, 2010" and inserting "July 31, 2010".

(b) Section 4004(e)(1) of the Supplemental Appropriations Act, 2008 (Public Law 110-252; 26 U.S.C. 3304 note) is amended by striking "by reason of" and all that follows and inserting the following: "by reason of—

"(A) the amendments made by section 2001(a) of the Assistance for Unemployed Workers and Struggling Families Act;

"(B) the amendments made by sections 2 through 4 of the Worker, Homeownership, and Business Assistance Act of 2009; and

"(C) the amendments made by section 1009 of the Department of Defense Appropriations Act, 2010; and".

(c) Amounts in this section are designated as emergency requirements and necessary to meet emergency needs pursuant to sections 403 and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

SEC. 1010. (a) EXTENSION OF ELIGIBILITY PERIOD.—Subsection (a)(3)(A) of section 3001 of division B of the American Recovery and Reinvestment Act of 2009 (Public Law 111-5) is amended by striking "December 31, 2009" and inserting "February 28, 2010".

(b) EXTENSION OF MAXIMUM DURATION OF ASSISTANCE.—Subsection (a)(2)(A)(ii)(I) of such section is amended by striking "9 months" and inserting "15 months".

(c) RULES RELATED TO 2009 EXTENSION.—Subsection (a) of such section is further amended by adding at the end the following:

"(16) RULES RELATED TO 2009 EXTENSION.—

"(A) ELECTION TO PAY PREMIUMS RETROACTIVELY AND MAINTAIN COBRA COVERAGE.—In the case of any premium for a period of coverage during an assistance eligible individual's transition period, such individual shall be treated for purposes of any COBRA continuation provision as having timely paid the amount of such premium if—

"(i) such individual was covered under the COBRA continuation coverage to which such premium relates for the period of coverage immediately preceding such transition period, and

"(ii) such individual pays, not later than 60 days after the date of the enactment of this paragraph (or, if later, 30 days after the date of provision of the notification required under subparagraph (D)(ii)), the amount of such premium, after the application of paragraph (1)(A).

"(B) REFUNDS AND CREDITS FOR RETROACTIVE PREMIUM ASSISTANCE ELIGIBILITY.—In the case of an assistance eligible individual who pays, with respect to any period of COBRA continuation coverage during such individual's transition period, the premium amount for such coverage without regard to paragraph (1)(A), rules similar to the rules of paragraph (12)(E) shall apply.

"(C) TRANSITION PERIOD.—

"(i) IN GENERAL.—For purposes of this paragraph, the term 'transition period'

means, with respect to any assistance eligible individual, any period of coverage if—

"(I) such period begins before the date of the enactment of this paragraph, and

"(II) paragraph (1)(A) applies to such period by reason of the amendment made by section 1010(b) of the Department of Defense Appropriations Act, 2010.

"(ii) CONSTRUCTION.—Any period during the period described in subclauses (I) and (II) of clause (i) for which the applicable premium has been paid pursuant to subparagraph (A) shall be treated as a period of coverage referred to in such paragraph, irrespective of any failure to timely pay the applicable premium (other than pursuant to subparagraph (A)) for such period.

"(D) NOTIFICATION.—

"(i) IN GENERAL.—In the case of an individual who was an assistance eligible individual at any time on or after October 31, 2009, or experiences a qualifying event (consisting of termination of employment) relating to COBRA continuation coverage on or after such date, the administrator of the group health plan (or other entity) involved shall provide an additional notification with information regarding the amendments made by section 1010 of the Department of Defense Appropriations Act, 2010, within 60 days after the date of the enactment of such Act or, in the case of a qualifying event occurring after such date of enactment, consistent with the timing of notifications under paragraph (7)(A).

"(ii) TO INDIVIDUALS WHO LOST ASSISTANCE.—In the case of an assistance eligible individual described in subparagraph (A)(i) who did not timely pay the premium for any period of coverage during such individual's transition period or paid the premium for such period without regard to paragraph (1)(A), the administrator of the group health plan (or other entity) involved shall provide to such individual, within the first 60 days of such individual's transition period, an additional notification with information regarding the amendments made by section 1010 of the Department of Defense Appropriations Act, 2010, including information on the ability under subparagraph (A) to make retroactive premium payments with respect to the transition period of the individual in order to maintain COBRA continuation coverage.

"(iii) APPLICATION OF RULES.—Rules similar to the rules of paragraph (7) shall apply with respect to notifications under this subparagraph."

(d) CLARIFICATION THAT ELIGIBILITY AND NOTICE IS BASED ON TIMING OF QUALIFYING EVENT.—Subsection (a) of such section is amended—

(1) in paragraph (3)(A)—

(A) by striking "at any time" and inserting "such qualified beneficiary is eligible for COBRA continuation coverage related to a qualifying event occurring"; and

(B) by striking "such qualified beneficiary is eligible for COBRA continuation coverage"; and

(2) in paragraph (7)(A), by striking "become entitled to elect COBRA continuation coverage" and inserting "have a qualifying event relating to COBRA continuation coverage".

(e) EFFECTIVE DATE.—The amendments made by this section shall take effect as if included in the provisions of section 3001 of division B of the American Recovery and Reinvestment Act of 2009 to which they relate.

(f) EMERGENCY DESIGNATIONS.—

(1) IN GENERAL.—Amounts in this section are designated as emergency requirements

and necessary to meet emergency needs pursuant to sections 403 and 423(b) of S. Con. Res. 13 (111th Congress), the concurrent resolution on the budget for fiscal year 2010.

(2) PAYGO.—All applicable provisions in this section are designated as an emergency for purposes of pay-as-you-go principles.

SEC. 1011. (a) IN GENERAL.—Section 1848(d) of the Social Security Act (42 U.S.C. 1395w-4(d)) is amended by adding at the end the following new paragraph:

"(10) UPDATE FOR PORTION OF 2010.—

"(A) IN GENERAL.—Subject to paragraphs (7)(B), (8)(B), and (9)(B), in lieu of the update to the single conversion factor established in paragraph (1)(C) that would otherwise apply for 2010 for the period beginning on January 1, 2010, and ending on February 28, 2010, the update to the single conversion factor shall be 0 percent for 2010.

"(B) NO EFFECT ON COMPUTATION OF CONVERSION FACTOR FOR REMAINING PORTION OF 2010 AND SUBSEQUENT YEARS.—The conversion factor under this subsection shall be computed under paragraph (1)(A) for the period beginning on March 1, 2010, and ending on December 31, 2010, and for 2011 and subsequent years as if subparagraph (A) had never applied."

(b) FUNDING FROM MEDICARE IMPROVEMENT FUND.—Section 1898(b)(1) of such Act (42 U.S.C. 1395iii(b)(1)) is amended—

(1) in subparagraph (A)—

(A) by striking "\$22,290,000,000" and inserting "\$20,740,000,000"; and

(B) by striking "and" at the end;

(2) by redesignating subparagraph (B) as subparagraph (C); and

(3) by inserting after subparagraph (A) the following new subparagraph:

"(B) fiscal year 2015, \$550,000,000; and".

SEC. 1012. Notwithstanding any other provision of law, the Secretary of Health and Human Services shall not publish updated poverty guidelines for 2010 under section 673(2) of the Omnibus Budget Reconciliation Act of 1981 (42 U.S.C. 9902(2)) before March 1, 2010, and the poverty guidelines published under such section on January 23, 2009, shall remain in effect until updated poverty guidelines are published.

SEC. 1013. From the "National Telecommunications and Information Administration—Digital-to-Analog Converter Box Program" in the Department of Commerce, \$128,000,000 is hereby rescinded.

SEC. 1014. The explanatory statement regarding this Act printed in the House of Representatives section of the Congressional Record on or about December 16, 2010, by the Chairman of the Subcommittee on Defense of the Committee on Appropriations of the House of Representatives shall have the same effect with respect to the allocation of funds and implementation of this Act as if it were a joint explanatory statement of a committee of conference.

The SPEAKER pro tempore. The motion shall be debatable for 1 hour equally divided and controlled by the Chair and ranking minority member of the Committee on Appropriations.

The gentleman from Pennsylvania (Mr. MURTHA) and the gentleman from Florida (Mr. YOUNG) each will control 30 minutes.

The Chair recognizes the gentleman from Pennsylvania.

GENERAL LEAVE

Mr. MURTHA. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to

revise and extend their remarks and to include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

Mr. MURTHA. I yield myself such time as I may consume.

Madam Speaker, Members of the House, this is the largest appropriations bill that we have ever handled. It was completely bipartisan. We never did anything without working together. It is basically the same bill we voted on before it went to the Senate but with a few minor changes. I am pleased to say that we made some conciliatory changes with the White House and also with the Senate. This, as a matter of fact, is \$625 billion. The House passed \$636 billion. It pays for first-class medical care for military personnel.

I have to say I don't usually talk on any one thing, but having been out at Bethesda in intensive care for 2 days, I have to endorse the money that we have spent on the care at Bethesda. They did a marvelous job, and I am so pleased about the way the money is being handled out there.

Medical research, of course, the committee under my leadership and under the leadership of JERRY LEWIS and BILL YOUNG, has always been in the forefront. There are peer-reviewed programs, which have turned out to be as good as any programs you will find any place. We are supporting military families, operations and maintenance, civilian workforce, and insourcing. We are trying to reduce the contractors, and we are struggling in doing that. The inspector of general oversight, we worked at that for 2 or 3 years. This bill includes the MRAP program and \$526 million for situational awareness.

In other words, this is as good a bill as we could come up with given the amount of money that was apportioned to us.

The Fiscal Year 2010 Defense Appropriations Bill puts troops first, ensuring their readiness, providing them with first class weapons and equipment, and ensuring the availability of care and support for their families.

The bill makes critical investments in the health, well-being and readiness of our armed forces; addressing issues raised by service members, their families, and Department of Defense officials in testimony before the Congress, and discovered through visits to military bases across the United States and overseas. The bill also reins in the use of contractors and begins to return inherently governmental functions to Department of Defense personnel.

For the first time since the beginning of operations in Iraq, this bill includes funding for Overseas Contingency Operations in Afghanistan and Iraq for the upcoming fiscal year; providing \$128.3 billion to support current operations, and to meet the needs of our troops in the field and their families here at home. The bill does not address the President's new

Afghanistan security strategy because the Administration has yet to request funding for that initiative.

[Bill total in billions]

2009 Total Enacted	\$625.3
President's Request	640.1
House Passed	636.3
Senate Passed	636.3
2010 Total Bill	636.3

Military Personnel and Pay: The bill provides a 3.4 percent military pay increase, 0.5 percent above the request. The bill also includes \$1 billion pursuant to an amended budget request in order to increase U.S. Army troop strength.

First Class Medical Care: The bill recommends a total of \$29.2 billion for the Defense Health Program, \$3 billion above fiscal year 2009 and \$1 billion above the 2010 request. The increase includes \$307 million above the request to provide for shortfalls in the TRICARE program. The bill also includes \$300 million above the request for transportation infrastructure issues related to base closure.

To provide quality medical care for service members and their families, and address the serious financial challenges facing the Defense Health Program, the bill recommends the following funding:

HIV Research	\$20,000,000
Wound Care Research	13,000,000
Traumatic Brain Injury and Psychological Health Research (\$372m budget + \$120m over budget)	120,000,000
Global HIV/AIDS Prevention	10,000,000
Peer-Reviewed Medical Research Program	50,000,000
Peer-Reviewed Breast Cancer Research	150,000,000
Peer-Reviewed Ovarian Cancer Research Program	18,750,000
Peer-Reviewed Prostate Cancer Research Program	80,000,000

Supporting Military Families: The bill provides greater support for military families. The bill includes funding for quality child care, job training for spouses, and expanded counseling and outreach to families that have experienced the separation and stress of war. The bill fully funds \$472.4 million for Family Advocacy programs and fully funds Family Support and Yellow Ribbon programs.

Operation and Maintenance: The bill recommends \$154 billion for operation and maintenance, an increase of \$1.3 billion above the fiscal year 2009 enacted level. The recommendation includes funding above the budget request for the following items:

Hybrid Operations Readiness Training (Hybrid—DoD's new terminology for full-spectrum training)	\$43,000,000
Army Helicopter Readiness Training	142,000,000
Navy Aircraft Depot Maintenance	35,000,000
Environmental Restoration	32,500,000

The recommendation rebalances funding from preparing for Cold War-era types of conflicts to the highest priority readiness require-

ments for the hybrid operations that the military services will be facing for the foreseeable future. The bill also includes adjustments based on trends in DoD budget execution.

Civilian Workforce and In-Sourcing: The bill supports increased funding for DoD civilian personnel to in-source workload. The Department estimates that every position converted from contract to federal civilian saves on average \$44,000 per year. Additionally, the bill includes general provisions to suspend further conversions by the Department of Defense from government functions to contractors.

The bill also includes \$100 million, as requested, to fund further development and training for the DoD acquisition workforce.

Inspector General Oversight: the bill includes \$288 million, \$16 million above the request, for the Inspector General to hire additional investigators to ensure proper oversight of DoD acquisition and contracting.

Procurement Programs: The bill recommends \$104.4 billion for procurement, an increase of \$3.46 billion above the fiscal year 2009 enacted level and a decrease of \$816 million below the 2010 request. The bill includes:

\$6.8 billion, the requested amount, for the procurement of 30 F-35 Lightning Aircraft, 16 Short Take-off and Vertical Landing variants for the Marine Corps, 4 Carrier variants for the Navy, and 10 conventional variants for the Air Force.

\$465 million above the request to continue development and initial procurement of the Alternative Engine for the Joint Strike Fighter.

\$2.5 billion above the request for procurement of 10 additional C-17 aircraft.

The bill also includes:

\$6.3 billion for the Mine Resistant Ambush Protected Vehicle Fund, an increase of \$825 million above the request.

\$526 million as requested for Situational Awareness upgrades to 353 Bradley Fighting Vehicles.

\$498 million for the procurement of Family of Medium Tactical Vehicles.

\$613 million for the procurement of Family of Heavy Tactical Vehicles.

\$15 billion, \$120 million above the request, for Navy Shipbuilding and Conversion and the National Defense Sealift Fund for the procurement of 7 Navy ships, including: one DDG-51 Guided Missile Destroyer; one SSN-774 Attack Submarine; two Littoral Combat Ships; and one Intra-theater Connector Ship (joint high speed vessel to move personnel and equipment within theater).

Additionally, this funding provides for the final increments of funding for the CVN-78 Aircraft Carrier, the third DDG-1000 Guided Missile Destroyer, and the tenth LPD-17 Amphibious Transport Dock.

\$30 million, not requested, for the shipbuilding loan guarantee program to assist in stimulating the domestic shipbuilding industry.

\$1.5 billion for the procurement of 18 F/A-18E/F Super Hornet Tactical aircraft, nine above the request.

\$1.6 billion, the requested amount for 22 EA-18G Growler electronic attack aircraft.

\$2.7 billion for the procurement of 30 MV-22 and five CV-22 Osprey aircraft.

\$950 million for National Guard and Reserve Equipment.

Research and Development: The bill recommends \$80.5 billion for research and development, an increase of \$17 million above the fiscal year 2009 enacted level, and a \$2 billion increase over the fiscal year 2010 request. Major funding items include:

\$4 billion for the continued development of the F-35 Lightning Joint Strike Fighter aircraft, \$430 million above the President's request.

\$130 million for Presidential Helicopter, of which \$100 million is for technology capture to recoup investments in research and development of the VH-71, an increase of \$44.8 million above the request.

\$306 million for the development of the Next Generation Aerial Refueling Aircraft.

\$62 million for JSTARS re-engineering research and development, an increase of \$46 million above the request.

\$202 million for the Israeli Cooperative Program (Arrow). The recommendation is \$82.8 million above the President's request.

\$50.5 million, the President's request for Ballistic Missile Defense European Capability.

\$2.2 billion for the continued development of the restructured Future Combat Systems Program.

\$1.2 billion for the continued development of the P-8A Multi-mission Maritime Aircraft.

\$387.5 million, the President's request, starting development of the replacement for the Ohio class ballistic missile submarine.

\$526 million for the continued development of the DDG-1000 Guided Missile Destroyer.

Overseas Contingency Operations: The recommendation addresses a number of policy issues concerning operations in Iraq and Afghanistan including:

A general provision prohibiting the establishment of permanent bases in Iraq or Afghanistan;

A general provision prohibiting the torture of detainees held in U.S. custody;

The bill provides \$1.2 billion, a reduction of \$300 million from the request for the Commanders Emergency Response Program (CERP) authority and fences \$500 million pending a spending plan from the Department of Defense; and

Provides no funds for the closure of the detention facility at Guantanamo Naval base.

EXPLANATORY STATEMENT OF HOUSE AMENDMENT TO THE SENATE AMENDMENT TO H.R. 3326—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2010

DIVISION A DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, FISCAL YEAR 2010

Following is an explanation of the effects of Division A, which makes appropriations for the Department of Defense for fiscal year 2010. As provided in Section 8124 of the consolidated bill, this explanatory statement shall have the same effect with respect to the allocation of funds and the implementation of this as if it were a joint explanatory statement of a committee of the conference.

The recommendation on the Department of Defense Appropriations Act, 2010, incorporates some of the provisions of both the House and Senate versions of the bill. The language and allocations set forth in House Report 111-230 and Senate Report 111-74 should be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

The Senate amendment deleted the entire House bill after the enacting clause and in-

serted new language. The recommendation includes revised language.

DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

For the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the term program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2010, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: for the military personnel and the operation and maintenance accounts, for which the term "program, project, and activity" is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget for fiscal year 2011, the Secretary of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the "M-1" and "O-1" which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2011.

CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" are congressional special interest items for purposes of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

REPROGRAMMING GUIDANCE

The Department of Defense is directed to follow the reprogramming guidance for acquisition accounts as contained herein under titles III and IV. For operation and maintenance accounts, the Department shall follow the reprogramming guidelines contained herein under title II. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles I, II, III and IV of this Act. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both the program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds

are cumulative from the base for reprogramming as made by any adjustment action. Therefore, if the combined value of transfers into or out of operation and maintenance (O-1), a procurement (P-1) or research, development, test and evaluation (R-1) line exceed the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in these materials.

FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the table.

JOINT SURVEILLANCE-TARGET ATTACK RADAR SYSTEM (JSTARS) PROGRAM

The Department of Defense decision to proceed with the JSTARS re-engineing program is supported in the recommendation. It is noted that the JSTARS program has been used as a source of funds for reprogrammings in the past. The Air Force is encouraged to restore those prior year funds if additional resources are needed. The recommendation provides, \$115,900,000, an increase of \$46,000,000, in the Research, Development, Test and Evaluation funding and provides \$54,000,000 in the Aircraft Procurement, Air Force appropriation.

The recommendation does not include language that restricts the obligation of funds for the JSTARS re-engineing program, as provided in the Senate report.

In addition, the Air Force is not directed to transfer a SYERS-3 sensor to complete the SYERS Demonstration Program. The Air Force should have the sensor for an adequate time, and the necessary financial resources have already been appropriated to ensure completion of the demonstration program. The Secretary of the Air Force is directed to submit a written notification to the congressional defense committees on the status of the demonstration program not later than 60 days after the enactment of this Act.

COMBAT AIR FORCE RESTRUCTURE

The lack of detail and analysis provided to the Congress regarding the Air Force's Combat Air Force restructure plan that would retire 248 legacy F-15, F-16 and A-10 aircraft is concerning. Therefore, it is directed that the reports stipulated in Sec. 1075 of the Conference Report accompanying the National Defense Authorization Act of Fiscal Year 2010 also be transmitted to the Committees on Appropriations of the House and Senate.

Additionally, there is concern with the personnel costs and potential acquisition costs associated with the Air Force proposal to remove the training of F-15 pilots and related personnel from Tyndall Air Force Base. The Secretary of the Air Force is directed to provide a cost-benefit analysis of this proposal regarding Tyndall Air Force Base and Keesley Field in Klamath Falls which shall include an analysis of factors impacting F-15 training quantity and quality at each location, to include training synergies, airspace access and availability. The report shall identify and explain the justification for where F-15 Basic Crew Chief Training, Air Control Squadron Training and Intelligence Formal Training will be established and maintained. The report shall include analysis on simulator and ancillary training access, expected effect on the quality and experience of the instructor base, future military

construction requirements and special considerations and costs required due to the differing training environments and climatology at each base.

Moreover, the Department is requested to identify airfields that share runways for both Air Force and commercial operations within the continental United States. The Department is requested to include Air Force policy on and analysis of the training and operational mission impacts at bases with shared runways.

Additionally, the Secretary of the Air Force is directed to conduct an independent review by a Federally Funded Research and Development Center (FFRDC) on the impact of the restructure on the Nation's combat air forces. The Secretary of the Air Force is directed to provide the three described reports on April 1, 2010. The Secretary of the Air Force is further directed that no funds may be obligated on executing the Combat Air Force restructure until submission to the congressional defense committees of all directed reports.

CONTRACTING FRAUD

The numerous reports and allegations of defense contractors defrauding the government is concerning. Therefore, the Secretary of Defense is encouraged to strengthen policies and safeguards against such abuse. The Secretary of Defense is directed, in coordination with the Department of Defense Inspector General, to report to the congressional defense committees on contracting fraud. The report shall include an assessment of the total value of Department of Defense contracts entered into with contractors that

have been indicted for, settled charges of, been fined by any Federal department or agency for, or been convicted of fraud in connection with any contract or other transaction entered into with the Federal Government over the past ten years. The report shall also include recommendations on how to penalize contractors who are repeatedly involved in contract fraud allegations. Finally, the report shall describe the actions taken to strengthen Department policies and safeguards against contractor fraud. The report should be submitted not later than March 15, 2010.

2001 NUCLEAR POSTURE REVIEW

Section 1041(c) of P.L. 106-398, the National Defense Authorization Act for Fiscal Year 2001, required the Secretary of Defense to submit to Congress, in unclassified and classified forms as necessary, a report on the results of the 2001 Nuclear Posture Review. The Secretary of Defense is encouraged to provide the unclassified report of the 2001 Nuclear Posture Review to the congressional defense committees as soon after submission of the 2009 Nuclear Posture Review as is possible.

SENIOR MENTORS PROGRAM

There is deep concern over the Department of Defense's Senior Mentors Program. The Department spends millions of dollars each year to place retired general officers on contract to act as advisors and mentors. It is of concern that the Department uses large defense industry firms as the prime contractor to serve as third party "go betweens." There is also concern that the contracts and task orders appear to be written almost as per-

sonal services contracts. Therefore, the Department of Defense Inspector General is directed to review the Senior Mentors Program and report to the congressional defense committees no later than March 31, 2010.

INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE

Senate Report 111-20 directed the Secretary of Defense to submit a report to the congressional defense committees on the strategy to transition the responsibilities of the Intelligence, Surveillance and Reconnaissance (ISR) Task Force. Although the report was supposed to have been submitted no later than October 1, 2009, the Department has only recently begun to address this reporting requirement.

The recommendation reiterates the concerns leading to the reporting requirement, and the Secretary of Defense is directed to submit the report within 30 days of enactment of this Act.

Furthermore, over the past two years, Congress has approved significant increases in ISR collection, processing, and dissemination in support of overseas contingency operations. The Secretary of Defense is directed to provide a classified report to the congressional defense committees within 90 days of enactment of this Act that describes the deployment of additional ISR capabilities, particularly tactical signals intelligence and full motion video, to support combat operations in Afghanistan. The report should address the adequacy of these capabilities to support troop commitments to Afghanistan as well as the plans to correct any shortfalls.

TITLE I - MILITARY PERSONNEL

For Military Personnel, funds are to be available for fiscal year 2010,

as follows:

CASH INCENTIVES

The recommendation supports the services' use of cash incentives to meet the extraordinary recruiting and retention challenges they have faced since September 11, 2001. The services are commended for their successful efforts to grow and maintain the finest fighting force in the world under very difficult circumstances. Because the services are generally meeting or exceeding their recruitment and retention goals, it is the belief

that now is an opportune time to examine whether the use and size of these cash incentives can be reduced to maximize their manning utility while lowering costs. Therefore, the Secretary of Defense is directed to provide a report to the Committee on Appropriations of both the House of Representatives and the Senate that describes these cash incentives, to include the number of cash incentives used for recruiting and retention, the average amount provided for each Military Occupational Specialty (MOS),

and the length of contract when these incentive options are accepted by recruits and those reenlisting. This report shall also include a quantitative analysis of the optimal size of these incentives and an actuarially-based estimate of the impact on recruiting and retention of a 10 percent and a 20 percent reduction of the amounts provided per incentive. This report shall be submitted no later than 120 days after the enactment of this Act.

MILITARY PERSONNEL, ARMY

For Military Personnel, Army, funds are to be available for fiscal year

2010, as follows:

(In thousands of dollars)

UNDISTRIBUTED REDUCTIONS BASED ON HISTORICAL UNDEREXECUTION

Both the House and Senate recommend execution reductions to the operation and maintenance accounts. The House's adjustment is based on the Government Accountability Office's analysis of historical budget execution trends. The Senate's adjustment is based on the historical difference between the request and obligations for restoration and modernization, citing data that the execution of appropriated funds was significantly different than what was requested for certain budget line items. Since the issues behind these recommendations are so similar, the recommendation includes an undistributed reduction to each of the operation and maintenance accounts based on historical underexecution. This reduction shall be applied to any budget line item with the exception of Facilities Sustainment, Restoration and Modernization lines.

FINANCIAL IMPROVEMENT AND AUDIT READINESS

It is concerning that the Department of Defense is not placing enough emphasis on improving financial management processes, internal controls and audit readiness capability. The Department should continue to develop and implement the Financial Improvement and Audit Readiness (FIAR) plan to correct financial management deficiencies and meet audit readiness objectives. Such actions would likely result in significant programmatic savings, increased efficiencies, and an improved ability to properly spend and account for the Department's critical assets and resources. The recommendation supports the Department of Defense's FIAR planning and financial improvement programs.

OPERATION AND MAINTENANCE REPROGRAMMINGS

The recommendation includes a provision identical to the provision enacted in fiscal year 2009 that requires the Department to submit the DD Form 1414, Base for Reprogramming Actions, for each of the fiscal year 2010 appropriations accounts within 60 days after the enactment of this Act. This provision prohibits the Department from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and the Senate Committees on Appropriations.

With respect to the Services' operation and maintenance accounts, the Department shall submit prior approval reprogramming requests to the congressional defense committees for proposed transfers of funds in excess of \$15,000,000 to or from the levels specified for budget activities. In addition, the Department shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget sub-activities:

Operation and Maintenance, Army:
Land Forces Depot Maintenance
Operation and Maintenance, Navy:
Aircraft Depot Maintenance
Ship Depot Maintenance
Operation and Maintenance, Marine Corps:
Depot Maintenance
Operation and Maintenance, Air Force:
Air Operations Depot Maintenance
Mobility Operations Depot Maintenance
Basic Skills/Training Depot Maintenance
Logistics Operations Depot Maintenance

In addition, the Department shall follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 into the following budget sub-activity:

Operation and Maintenance, Army National Guard:

Other Personnel Support/Recruiting and Advertising

Further, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 from the following budget sub-activities:

Operation and Maintenance, Army:

Maneuver Units
Modular Support Brigades
Land Forces Operations Support
Force Readiness Operations Support
Base Operations Support
Facilities, Sustainment, Restoration and Modernization

Operation and Maintenance, Navy:

Facilities Sustainment, Restoration and Modernization

Operation and Maintenance, Marine Corps:

Facilities Sustainment, Restoration and Modernization

Operation and Maintenance, Air Force:

Primary Combat Forces
Combat Enhancement Forces
Combat Communications
Facilities Sustainment, Restoration and Modernization

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures. In addition, the Department shall provide written notification of cumulative transfers in excess of \$15,000,000 or 20 percent, whichever is less, from the following line items identified in the Operation and Maintenance, Defense-Wide project level table contained in this Act:

Defense Legal Services Agency

Office of the Secretary of Defense:

Acquisition, Technology, and Logistics Programs

Personnel and Readiness

Comptroller and Chief Financial Officer

Under Secretary of Defense (Intelligence)

Under Secretary of Defense (Policy)

Director, Program Analysis and Evaluation

Assistant Secretary for Defense (Networks and Information Integration)

A congressional interest item contained in Operation and Maintenance, Defense-Wide is defined only as a specified increase provided in this Act.

OPERATION AND MAINTENANCE BUDGET EXECUTION DATA

The Secretary of Defense is directed to continue to provide the congressional defense committees with quarterly budget execution data. Such data should be provided not later than 45 days past the close of each quarter for the fiscal year, and shall be provided for each 0-1 budget activity, activity group, and sub-activity group for each of the active, defense-wide, reserve and National Guard components. For each 0-1 budget activity, activity group, and sub-activity group, these reports shall include: the budget request and actual obligations; the Department of Defense distribution of unallocated congressional adjustments to the budget request; all adjustments made in establishing the Base for Reprogramming (DD Form 1414) report; all adjustments resulting from below threshold reprogrammings; and all adjustments resulting from prior approval reprogramming requests.

FEDERAL GOVERNMENT CONTRACTING PROCEDURES

Section 811 of the National Defense Authorization Act for Fiscal Year 2010 (Public

Law 111-84) included a provision amending Federal government contracting procedures for 8(a) Native American sole source Federal contracts. The provision requires that any 8(a) Native American contracts in excess of \$20,000,000 will now be subject to an additional level of review through the Justification and Approval process. The effect that this additional requirement will have on the efficiency of the contracting process and the competitiveness of Native American companies is unknown. Therefore, the Secretary of Defense is directed to submit a report 90 days after the implementation of the new contracting procedures. This report shall detail the impact of the provision on the selection of Native American companies for large dollar contracts; discuss how the provision is affecting the contracting process, whether an excessive administrative burden has been placed on contracting personnel; and provide recommendations for how the provision can be amended to mitigate any unintended negative consequences.

MILITARY TIRES

As part of the Tire Commodity Management Privatization initiative, undertaken in compliance with the Base Realignment and Closure Act of 2005, the Department of Defense shifted responsibility for tire supply, storage, and distribution from the Defense Logistics Agency to a contractor who would be in charge of procuring and distributing all ground and air military tires worldwide for the Department and the military services. It is recognized that the intent of this initiative was to lower costs and streamline the process of getting tires to the warfighter and that the current prime contractor has exceeded expectations. However, having a tire manufacturer as the manager as well as the vendor creates a perception of a lack of competition.

The Secretary of Defense is directed to award new military ground vehicle and aircraft tire management contracts when the existing base contract expires. The new contract should prohibit any tire manufacturer from acting as a prime contractor for the management of the contract. The existing Navy aircraft tire contracts are exempted provided the Department of the Navy certifies that these contracts represent the best value to the government.

INFORMATION OPERATIONS

The Department of Defense must improve both budgetary and policy oversight of its strategic communications and information operations programs. The Department's leadership has only recently become aware of the variety, scope, and magnitude of funding associated with these programs across the services and at all levels within the combatant commands. Fiscal year 2010 Department of Defense budget justification materials provided to the Congress initially indicated the request included nearly one billion dollars across the Department of Defense and within the services for information operations programs. However, after the congressional defense committees made several inquiries during the budget review process, it was determined by the Department that the budget request for these activities was actually \$626,200,000 for fiscal year 2010, \$360,000,000 less than originally indicated.

As part of its own efforts, the Department has improved its ability to account for the vast sums of dollars that have been spent on these programs in the past, and those being requested in the current budget submission. However, throughout the budget review process of the House and Senate Appropriations

Committees, repeated questions to the Department about the execution of appropriated funds and the proposed use of requested funding were too often answered with varied responses or admissions of uncertainty. The Congress cannot be expected to continue supporting programs which lack accountability and clear direction.

The Department of Defense should formulate, coordinate, operate and account for its strategic communications and information operations programs within an enterprise-wide architecture. This should include designating an individual or individuals with authority to ensure that the programs support national security policies and strategies, that they are properly coordinated with other government departments and agencies, and that appropriated dollars are obligated, expended, and accounted for in accordance with the intent justified and communicated to the Congress, and for the purposes appropriated. In this regard, the recommendation concurs with the reporting requirement included in the National Defense Authorization Act for Fiscal Year 2010 regarding the Department's efforts to develop enterprise-wide oversight and coordination mechanisms for military strategic communications and information operations programs. This report should also include an evaluation of proposals to establish or empower an office within the Secretary of Defense with Executive Agent authority over military strategic communications and information operations programs.

The Congress has a need for better budget justification and execution documentation for congressional oversight of information

operations program funds. The classified annex to the Supplemental Appropriations Act for Fiscal Year 2009 included a reporting requirement on Department of Defense strategic communications programs. The Department should submit such a report annually with updated informative materials and data. Accordingly, the Under Secretary of Defense for Policy, in coordination with the Under Secretary of Defense (Comptroller), shall submit a strategic communications and information operations programs report to the congressional defense committees not later than 30 days after the submission of the President's annual budget request to Congress. The report shall include supplemental budget justification materials for strategic communication programs to include information operations, psychological operations, and influence activities of the Department of Defense for which base budget, supplemental, or overseas contingency operation funds have been appropriated or requested over the fiscal year 2007 through 2011 period, including: program strategies, target audiences, goals, and measures of effectiveness; budget exhibits at the appropriations account and sub-activity level; spend plans (including positions and other direct costs and locations. The report shall include an annex for necessary explanatory and supporting classified information. Within this annex the Department should specifically designate, and include a comprehensive explanation of, any programs, activities, or operations where the involvement of the United States Government may be anything less than publicly acknowledged.

Finally, funding requested for United States Central Command (CENTCOM) information operations programs in Afghanistan has grown from \$39,900,000 in fiscal year 2008, to a request of \$243,800,000 in fiscal year 2010, a 500 percent increase. Of the \$109,700,000 specifically appropriated for United States Forces—Afghanistan (USFOR-A) information operations programs in fiscal year 2009, only \$63,400,000 was obligated. The remaining \$46,300,000 (42 percent of the appropriation) was used by CENTCOM and the Army for other purposes in Afghanistan. The large increase in the funding requested and the ability of CENTCOM to execute this funding based on its prior year execution is of concern. Accordingly, the Under Secretary of Defense (Comptroller) is directed to provide a classified quarterly report to the congressional defense committees on the obligation and expenditure of those funds requested and appropriated in Title IX of this Act, "Operation and Maintenance, Army" for CENTCOM's United States Forces—Afghanistan and External Information Program—Afghanistan information operation programs and activities. The report shall identify any of the funds provided that have been obligated or expended for other than information operation activities, or transferred either above or below the reprogramming threshold notification requirements, and the purposes for which the funds were otherwise used.

The recommendation makes the following reductions to the Department of Defense request for information operations and strategic communications programs:

(In thousands of dollars)

Account	Line	Program adjustment	House reduction	Senate reduction	Recommended reduction
Operation and Maintenance, Title II					
O&M Army	134	Information Operations		-18,800	0
O&M Army	138	EUCOM Information Operations			-2,000

O&M DW	SOCOM	Information Operations	-58,000	-20,000	-50,000

ARMY AND AIR FORCE EXCHANGE SERVICE

There is deep concern that Army and Air Force Exchange Service (AAFES) decisions to construct new restaurants will negatively impact locally-owned restaurants of the same franchise in the community. Such actions, especially in areas with economic con-

ditions that cannot support multiple restaurants of the same franchise, are harmful to the community. As partners with the community, the Department should consider these implications when making decisions about building new retail, restaurant or concessions services on an installation. Accordingly, the Department is directed to report

to the congressional defense committees within 90 days after enactment of this Act on the decision process to open new AAFES restaurants at Fort Stewart, and what considerations were made to account for the potential impact of such openings on the locally-owned restaurants of the same franchise.

OPERATION AND MAINTENANCE, ARMY

For Operation and Maintenance, Army, funds are to be available for
fiscal year 2010, as follows:

(In thousands of dollars)

ACCOUNTABILITY OF COMMON ACCESS CARDS

House Report 111-230 on the Department of Defense Appropriations Bill, 2010 noted major problems cited by the Department of Defense Inspector General regarding Common Access Card abuses by contractors. A program has been established to provide secure credentials to contractors and is currently being tested at Fort Belvoir, Virginia. These steps to address the force protection deficiencies cited by the Inspector General are encouraging and the Department should work to continue to improve the process for issuing Common Access Cards and to im-

prove the security of Department of Defense facilities.

JUNIOR RESERVE OFFICERS' TRAINING CORPS

The Junior Reserve Officers' Training Corps (JROTC) helps instill the essential qualities of character, citizenship, and fitness in its participants. The Department is commended for JROTC's proven track record of developing leadership potential, logical thinking and enhanced oral and verbal communication skills. JROTC's valuable role is an outlet through which its participants remain engaged, dedicated and disciplined in

their academic and extracurricular endeavors. JROTC's emphasis on the importance of high school graduation, college attendance, and other advanced educational and employment opportunities which contribute to a successful future is to be applauded. In order to extend and enhance the benefits of this invaluable program, the recommendation provides \$12,000,000 above the budget request only for a pilot program of JROTC units that would expand the scope and availability of this program in localities that desire to participate in such a program.

OPERATION AND MAINTENANCE, NAVY

For Operation and Maintenance, Navy, funds are to be available for
fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation

NAVAL AIR STATION, MOFFETT FIELD

The future of the Hanger One site at the former Naval Air Station (NAS) Moffett Field remains uncertain, and the Department of the Navy and the National Aero-

navics and Space Administration are encouraged to continue to work with the Office of Management and Budget to reach an expeditious recommendation for the environmental remediation and restoration of the facility.

JOINT POW/ MIA ACCOUNTING COMMAND

The Secretary of Defense is directed that, of the funds available within Operation and Maintenance, Navy, \$67,417,000 shall be for the Joint POW/MIA Accounting Command.

OPERATION AND MAINTENANCE, MARINE CORPS

For Operation and Maintenance, Marine Corps, funds are to be
available for fiscal year 2010, as follows:

(In thousands of dollars)

WATER CONTAMINATION CLAIMS AT CAMP
LEJEUNE.

During fiscal year 2010, the Secretary of
the Navy may not dispose of claims filed re-

garding water contamination at Camp
Lejeune, North Carolina, until the Agency
for Toxic Substances and Disease Registry
(ATSDR) fully completes all current, ongo-

ing epidemiological and water modeling
studies pending as of the date of the enact-
ment of this Act.

OPERATION AND MAINTENANCE, AIR FORCE

DEFENSE INFORMATION SYSTEMS AGENCY

Funding for the Senior Leadership Enterprise (SLE), in the amount of \$55,924,000 is restored following a briefing by representatives from the Defense Information Systems Agency (DISA). It is concerning that DISA failed to include any information on SLE in either the classified or unclassified budget justification documents. Further, DISA failed to respond to repeated requests for information on SLE prior to the House markup of the fiscal year 2010 Defense Appropriations bill. Because DISA's request for this new program lacked any budget justification or explanation, the House declined to fund the request. The Director, Defense Information Systems Agency is urged to review the organization's legislative affairs operations to ensure more responsive, effective communications with Congress in the future.

SECURITY AND STABILIZATION ASSISTANCE
(SECTION 1207 AUTHORITY)

The recommendation includes \$97,090,000 for the Security and Stabilization Assistance Program. It is not anticipated that additional Department of Defense resources will be provided to this program in the future. The recommendation is \$100,000,000 below the budget request, which is similar to the amount recommended for the Complex Crises Fund and Transitions Initiatives in the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010. The Complex Crises Fund was recently created to provide the United States Agency for International Development (USAID) and the Department of State with increased resources and flexibility to respond to urgent requirements, in much the same manner and for similar purposes as projects funded under section 207. The establishment of the Complex Crises Fund will enable USAID and the Department of State to meet emergent re-

quirements that fall under their purview without relying on the Department of Defense. The \$97,090,000 recommended for Security and Stabilization Assistance is provided as a bridging mechanism until the Complex Crises Fund is fully implemented. Although future Security and Stabilization Assistance projects should be funded in USAID and Department of State budget requests, the Secretary of Defense, the Director, USAID and the Secretary of State are directed to maintain and strengthen the interagency process created from the section 1207 program when formulating, reviewing, and approving future projects that would have been funded through section 1207.

BRIGADE BASING REMEDIATION

The House report expressed concerns regarding the impact on local communities following a decision by the Secretary of Defense to reverse the planned growth in the number of Army Brigade Combat Teams (BCT) from 45 to 48. The report called for in the House report on efforts by the Department to mitigate the impact of this decision is of great interest, and the Department of Defense is expected to act promptly to prepare this report.

OFFICE OF THE UNDER SECRETARY OF DEFENSE
(COMPTROLLER) AND CHIEF FINANCIAL OFFICER

The recommendation provides \$2,348,000 for the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer for the costs associated with the recruitment, hiring, training, retention and pay for additional Federal employees to improve fiscal management and oversight. The Department is strongly urged to exempt the Office of the Under Secretary of Defense (Comptroller) and Chief Financial Officer from internal Department headquarters personnel ceilings if necessary to ensure proper fiscal management and budget oversight.

COMMISSION ON WARTIME CONTRACTING

The recommendation includes an additional \$3,200,000 for the Commission on Wartime Contracting, providing a total of \$12,300,000 for Commission operations in fiscal year 2010.

NATIONAL SECURITY SPACE OFFICE

The recommendation strongly supports an integrated national security space architecture planning function that provides strategic, senior-level decision-making within the Department of Defense with timely and cogent space system architecture alternatives. Therefore, the recommendation provides \$7,000,000 for the National Security Space Office (NSSO) and transfers the management and tasking to the Under Secretary of Defense for Acquisition, Technology, and Logistics (USD (AT&L)), Space and Intelligence Office (SIO). This new arrangement will accomplish the original intent of the office as the Department of Defense's space architecture planning organization. Therefore, the USD(AT&L)/SIO is directed to revise the NSSO charter and provide a roadmap and goals to the congressional defense committees within 180 days of enactment of this Act on how this office will be used in future space system architecture planning.

MILITARY VOTING

A number of new authorities have been established in the National Defense Authorization Act for Fiscal Year 2010 with regard to military voting. The Department of Defense is expected to use the necessary resources to implement these new requirements and to ensure that uniformed servicemembers, their family members, and overseas citizens have the full opportunity to vote, particularly at a time when so many military personnel are serving in combat areas.

OPERATION AND MAINTENANCE, ARMY RESERVE

For Operation and Maintenance, Army Reserve, funds are to be
available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation

ARMY NATIONAL GUARD RECRUITING AND
ADVERTISING

The Senate reduced funding to Sub-activity Group 434, Other Personnel Support, based on unjustified growth in recruiting and advertising between fiscal year 2009 and fiscal year 2010. Since the time of that proposed reduction, the Army National Guard has adequately justified the budget request for re-

cruiting and advertising. The reason for the skewed original analysis was attributed to the amount of funding the Army National Guard realigns into Sub-activity Group 434 in the year of execution. In fiscal years 2007–2009, the Army National Guard realigned between \$100,000,000 and \$200,000,000 each year into recruiting and advertising. Because the Army National Guard has had flexibility to

move a large amount of funding in the past, the recommendation includes an undistributed reduction to Operation and Maintenance, Army National Guard due to the migration of funds from other sources into recruiting and advertising. New prior approval reprogramming guidelines for the Army National Guard are addressed in the operation and maintenance overview.

OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

For Operation and Maintenance, Air National Guard, funds are to be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
33000 OPERATION AND MAINTENANCE, AIR NATIONAL GUARD

194TH REGIONAL SUPPORT WING

In fiscal year 2010, the Air National Guard had planned to eliminate 98 essential billets from the 194th Regional Support Wing. The National Guard Bureau and the Air National Guard 194th Regional Support Wing are currently in negotiations to resolve the matter but have yet to reach final resolution. For this reason, the Secretary of Defense is directed to retain all of the billets that existed in fiscal year 2009 for the remainder of fiscal year 2010. Additionally, the Chief of the Air National Guard is directed to provide a report on the long term plans for those billets that had been proposed for elimination in fiscal year 2010. The report shall be provided to the House and Senate Committees on Appropriations not later than May 15, 2010. The Committees plan to reexamine this issue as part of the fiscal year 2011 budget consideration and urge both the National Guard Bureau and the 194th Regional Support Wing to make a good faith effort to reach a fair and reasonable solution.

OVERSEAS CONTINGENCY OPERATIONS
TRANSFER ACCOUNT

For the Overseas Contingency Operations Transfer Account, no funds are provided for fiscal year 2010.

UNITED STATES COURT OF APPEALS
FOR THE ARMED FORCES

For the United States Court of Appeals for the Armed Forces, \$13,932,000 is provided for fiscal year 2010.

ENVIRONMENTAL RESTORATION, ARMY
(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$423,364,000 for Environmental Restoration, Army, instead of \$415,864,000 as proposed by the House and \$430,864,000 as proposed by the Senate.

ENVIRONMENTAL RESTORATION, NAVY
(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$285,869,000 for Environmental Restoration, Navy, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, AIR
FORCE

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$494,276,000 for Environmental Restoration, Air Force, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION,
DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$11,100,000 for Environmental Restoration, Defense-Wide, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION,
FORMERLY USED DEFENSE SITES

(INCLUDING TRANSFER OF FUNDS)

The recommendation provides \$292,700,000 for Environmental Restoration, Formerly Used Defense Sites, instead of \$277,700,000 as proposed by the House and \$307,700,000 as proposed by the Senate. The adjustments to the budget for Environmental Restoration, Formerly Used Defense Sites are shown below:

UXO Remediation	\$5,000,000
Other Unfunded Requirements	20,000,000

OVERSEAS HUMANITARIAN, DISASTER,
AND CIVIC AID

For Overseas, Humanitarian, Disaster, and Civic Aid, \$109,869,000 is provided for fiscal year 2010.

COOPERATIVE THREAT REDUCTION
ACCOUNT

For the Cooperation Threat Reduction Account, \$424,093,000 is provided for fiscal year 2010.

DEPARTMENT OF DEFENSE ACQUISITION
WORKFORCE DEVELOPMENT FUND

For the Department of Defense Acquisition Workforce Development Fund, \$100,000,000 is provided for fiscal year 2010.

TITLE III – PROCUREMENT

For Procurement, funds are to be available for fiscal year 2010, as

follows:

(In thousands of dollars)

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

C-130 AVIONICS MODERNIZATION PROGRAM

The recommendation provides no funding in Aircraft Procurement, Air Force for the C-130 Avionics Modernization Program given that the fiscal year 2009 funds have thus far not been put on contract due to a delayed Milestone C decision. Based on these delays, the funding requested for fiscal year 2010 is early to need. The Under Secretary of Defense (Acquisition, Technology, and Logistics) is strongly encouraged to make a decision on the acquisition strategy and proceed expeditiously with the program of record in order to provide this needed capability to Active, Guard, and Reserve C-130 aircraft.

C-130 FIREFIGHTING CAPABILITY

The Secretary of the Air Force, the Chief of the Air Force Reserve and the Director of the National Guard Bureau, are directed, within 60 days of enactment of this Act, to create an Integrated Working Group (IWG) in conjunction with the United States Department of Agriculture Forest Service (USDAFS) and the Department of the Interior for the purpose of coordinating the joint use of Federal forest firefighting assets, and, within 90 days after formation of the IWG, to submit a report to the congressional defense committees; the House and Senate Committees on Appropriations, Subcommittees on Interior; the House Energy and Commerce Committee and Senate Energy and Natural Resources Committee, detailing the following:

1. The viability of the Air National Guard, the Air Force Reserve, and the USDAFS to jointly operate a fleet of new C-130s procured for the primary purposes of firefighting duties at the request of the USDAFS, and equipped with the latest proven firefighting technology.

2. Any and all prior analyses done in the past ten years by the Department of the Air Force, the National Guard Bureau or the USDAFS concerning the recapitalization of the national firefighting fleet.

3. A new business case analysis which examines the cost and operational effectiveness of procurement of new C-130 aircraft and joint cooperation between the Department of the Air Force, the National Guard Bureau and the USDAFS for the firefighting mission as compared to the present approach

of utilizing the current fleet of aging firefighting aircraft available via commercial operator contracts.

4. Any existing legislative impediments to interagency cooperation and joint operation of a dedicated firefighting fleet by the Department of the Air Force, the National Guard Bureau and the USDAFS.

5. An assessment and accounting of public-private property losses as well as taxpayer expenses spent annually fighting forest and wildfires and how such losses can be mitigated by the described joint firefighting business model with respect to the Department of the Air Force, the National Guard Bureau and the USDAFS.

An interim report shall be submitted to Congress not later than 90 days after enactment of this Act detailing the progress made on the final report.

NON-INTRUSIVE INSPECTION TECHNOLOGIES

Vehicle and cargo-borne threats to U.S. forward operating bases and unmet requests for fielding non-intrusive inspection (NII) technologies for base access control to detect hidden weapons, explosives and personnel, increase the operating risk for our forces. The Secretary of Defense is directed to prioritize the NII technology needs of the 100 highest-risk bases and submit a schedule for NII technology procurement for these bases to the congressional defense committees not later than 30 days after enactment of this Act.

JOINT STRIKE FIGHTER

Concerns persist regarding the progress of the F-35 Joint Strike Fighter (JSF) program. Last year, the Department of Defense established a Joint Estimating Team (JET) to evaluate this program. The JET reported that the program would cost significantly more and take longer to fully develop and test than the Department was then projecting. Although the JET has yet to officially report out for 2009, the initial indications are that cost growth and schedule issues remain. Nevertheless, the Department insists that the program is on track to achieve both the cost and schedule currently reflected in the program of record.

Therefore, the JSF procurement program is provided \$6,840,478,000, and the JSF program is designated as a congressional special interest item. The Secretary of Defense is directed to ensure that all 30 aircraft be procured as requested in the budget. The Under Secretary of Defense for Acquisition, Technology and Logistics is directed to provide the findings of the JET along with recent studies on the test program and causes of cost growth to the congressional defense committees no later than January 15, 2010.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

It is the intent of Congress that the program baseline for reprogramming funds reflects all approved adjustment actions: the initial appropriation as well as any rescissions, supplemental appropriations and approved Department of Defense 1415 reprogrammings. The Secretary of Defense is directed to ensure that financial management regulations incorporate approved reprogramming actions as an adjustment to the base for reprogramming value.

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations Act (H.R. 109-119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test, and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for reprogramming value as modified by any adjustment action. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test, and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming request to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report. This guidance is effective for fiscal year 2010 and forward.

REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

AIRCRAFT PROCUREMENT, ARMY

For Aircraft Procurement, Army, funds are to be available for fiscal
year 2010, as follows:

BRADLEY FIGHTING VEHICLE

The various versions of the Bradley Fighting Vehicle family have continued to provide excellent performance in combat operations. The Bradleys have assumed a heavy workload in Iraq and have achieved survivability goals second only to the M1 Abrams Tank. However, there are concerns that the termination of the Future Combat Systems manned ground vehicles has created considerable uncertainty regarding the current Bradley. Congress has been consistent in its strong support for robust Bradley programs, providing \$784,600,000 for Bradley reset and remanufacture in the Supplemental Appropriations Act, 2009. The Army is strongly urged to sustain the Bradley industrial base by accomplishing vehicle restoration and reset efforts to the zero hours, zero miles standard plus survivability upgrades.

The recommendation fully supports the fiscal year 2010 budget request for Bradley modifications of \$526,356,000 in base budget funding, plus \$243,600,000 for overseas contingency operations, for a total of \$769,956,000. The Army is expected to apply the funding to sustain the Bradley industrial base, continue upgrades of Bradley Operation Desert Storm (ODS) variants to the ODS Situational Awareness variant, and reset Bradley

Fighting Vehicles to the zero hours, zero miles standard, plus 963 survivability enhancements. The Army is encouraged to include Bradley Fighting Vehicles from prepositioned equipment sets in the rotation through the reset and remanufacture program.

It is understood that the Army's M-113 divestiture decision will affect approximately 4,100 M-113 type vehicles, including ambulance, mortar, command post and fire support variants. Strong consideration should be given to replacing these vehicles in the Heavy Brigade Combat Teams with a Bradley-based vehicle to leverage the Bradley's track record of proven performance as well as the existing logistics support.

There is a disparity in digital data management between the engineer units in certain Heavy Brigade Combat Teams and the infantry and tank units that they support. The digital brigades have digital Abrams Tanks, matched with digital A3 Bradleys, but the engineers have non-digital Bradley ODS variants, which limits the engineers' ability to be fully integrated into the information network. The Army is urged to procure Bradley A3 variants with digital configuration for engineer units in heavy bri-

gades that have the Bradley A3 and M1A2 System Enhancement Package Abrams tank.

Added survivability enhancements and other improvements have increased the weight of the Bradley Fighting Vehicle and adversely impacted some aspects of performance. The Army is expected to give strong consideration to Space, Weight, and Power improvements with the funds provided in Research, Development, Test and Evaluation, Army and to incorporate these improvements into the fleet at the earliest opportunity.

In addition, the recommendation fully supports the Army's M109 Paladin Howitzer/Field Artillery Ammunition Resupply Vehicle Integrated Management (PIM) program for fiscal year 2010, including a transfer of \$91,500,000 from the procurement request to the Research, Development, Test and Evaluation, Army appropriation. The Vietnam-era M109 Paladin self-propelled howitzer requires major upgrades in mobility, maintainability and reliability and the PIM program, which incorporated an upgraded turret and fire control system with a Bradley Fighting Vehicle chassis, offers vast improvements in mobility and fire support. The Army is urged to move ahead promptly with the Paladin PIM program.

PROCUREMENT OF AMMUNITION, ARMY

For Procurement of Ammunition, Army, funds are to be available for
fiscal year 2010, as follows:

Small Caliber Ammunition Production Modernization		5,000		4,000

AMMUNITION FACILITIES AND EQUIPMENT

The Army is planning to transfer or consolidate government-owned ammunition assets to private ammunition manufacturers. In order to ensure a comprehensive understanding of these plans, the Secretary of the Army is directed to provide a report to the congressional defense committees not later than 60 days after enactment of this Act on any plans to consolidate government-owned ammunition production assets or to transfer by sale, lease, loan or donation government-owned ammunition production equipment or facilities to a private ammunition manufacturer. The report shall include the Secretary of the Army's assessment of the following: a cost-benefit risk analysis for consolidating or transferring government-owned ammunition production equipment or facilities to private ammunition manufacturers, includ-

ing cost-savings comparisons; a projection of the impact on the ammunition production industrial base in the United States of consolidating or transferring such equipment or facilities to private ammunition manufacturers; a projection of the capability to meet current and future ammunition production requirements by both government-owned and private ammunition manufacturers, as well as a combination of the two sources of production assets; and the potential impact on national security and military readiness.

Furthermore, if additional consolidation or transfers are required during fiscal year 2010 and are not addressed in the report submitted to the congressional defense committees, the Secretary of the Army is directed to certify to the congressional defense committees that the transfer or consolidation will not increase the cost of ammunition

procurement or negatively impact national security, military readiness, government ammunition production or the United States ammunition production industrial base.

Finally, there is an existing contract to operate the Milan and Iowa Army Ammunition Plants (AAP) that would transform, at the contractor's expense, the Iowa AAP into a Joint Munitions Load, Assemble and Pack facility and transform the Milan AAP into a Logistics Center of Excellence/Joint Munitions Storage and Distribution Center by 2011. The Secretary of the Army is directed to notify the congressional defense committees not later than 30 days prior to any modification to this contract. In addition, the Government Accountability Office (GAO) is directed to conduct an audit on the amount and sources of funds used in furtherance of this contract.

OTHER PROCUREMENT, ARMY

For Other Procurement, Army, funds are to be available for fiscal year

2010, as follows:

ARMY TRUCK PROGRAM

Concerns persist regarding the absence of an overall truck acquisition strategy to guide the Army's plans and programs. It is not clear that the Army has conducted the needed analyses for sound acquisition plans or to reap potential savings. Not later than 180 days after the enactment of this Act, the Secretary of the Army shall provide a report to the congressional defense committees detailing the Army's acquisition strategy for future truck procurement.

NETWORKED COMMUNICATIONS CAPABILITIES

The recommendation continues to support the overall objectives of the Joint Tactical Radio System (JTRS) program, but concerns remain about the technical risk, cost and availability of the JTRS radios. While the JTRS family of radios and waveforms has successfully tested several variants and demonstrated key networking waveforms, full testing objectives have not been realized. The Secretary of Defense is encouraged to examine lower-risk approaches to bridge the networked communications gap while providing interoperability and moving toward a competitive radio business model. Competition is encouraged between legacy and com-

mercially available radios and waveforms that meet the majority of JTRS approved standards until such time as the JTRS radios are fielded. Additionally, the Assistant Secretary of Defense for Networks and Information Integration is encouraged to examine the cost effectiveness of such an approach and to submit a report to the congressional defense committees not later than March 15, 2010, with recommendations for closing any networked communications capability gap with commercially available and legacy radios and waveforms.

MODIFICATION OF IN-SERVICE EQUIPMENT

According to accounting reports, the Army has over \$1,284,000,000 in prior year funding available for Modification of In-Service Equipment, Budget Activity-1. Therefore, the recommendation provides \$2,314,000 for this program in fiscal year 2010, a reduction of \$8,000,000. Additionally, due to the large prior year funding balance, the recommendation includes a reduction of \$195,950,000 in the title IX portion of this program.

RAPID EQUIPPING FORCE

For fiscal year 2010, the recommendation provides \$13,370,000 for Rapid Equipping Force funding, a reduction of \$35,400,000 from

the budget request due to funding available in prior year accounts. There is concern with the Army's demand driven approach in providing Soldier Wearable Acoustic Targeting Systems (SWATS) to soldiers, and a strong belief that the equipment should be made available to all deploying units, not just those units submitting Urgent Needs Statements.

The Supplemental Appropriations Act, 2009 provided \$50,000,000 for SWATS. However, the slow pace of obligating available funding for the life-saving SWATS, and the lack of urgency in establishing a basis of issue plan and making it a Program of Record causes concern. The Army is expected to correct the situation quickly.

The Secretary of the Army has yet to provide a report on the acquisition objective and basis of issue plan for both vehicular and soldier wearable sniper detection equipment as directed in the Joint Explanatory Statement accompanying the Supplemental Appropriations Act, 2009. The report shall be provided to the congressional defense committees not later than 60 days after enactment of this Act.

AIRCRAFT PROCUREMENT, NAVY

For Aircraft Procurement, Navy, funds are to be available for fiscal
year 2010, as follows:

F-18 AIRCRAFT

The variants of the F-18 aircraft have been the workhorses of the Navy's aviation fleet

for a generation. Consistent with the National Defense Authorization Act for Fiscal Year 2010, a multi-year procurement strategy has been approved to complete the pro-

curement of the F-18E/F/G aircraft as the Navy transitions to the Joint Strike Fighter aircraft.

WEAPONS PROCUREMENT, NAVY

For Weapons Procurement, Navy, funds are to be available for fiscal
year 2010, as follows:

(In thousands of dollars)				
	Budget	House	Senate	Recommendation
WEAPONS PROCUREMENT, NAVY				
BALLISTIC MISSILES MODIFICATION OF MISSILES				
1 TRIDENT II MODS.....	1,060,504	1,055,504	1,060,504	1,055,504
SUPPORT EQUIPMENT AND FACILITIES

Transfer to line number 9			-309,636	-309,636

SHIPBUILDING

The fiscal year 2010 shipbuilding budget request from the Department once again falls short of the quantity of ten ships nominally required to reach and maintain the required fleet size of 313 ships. Further, the Department's revised acquisition strategy for the Littoral Combat Ship, solidified after the submission of the budget, has reduced the requested number of ships from a quantity of eight to a quantity of seven. In an effort to position the Department to request additional ship quantities in fiscal year 2011, the recommendation includes an additional \$170,000,000 of advance procurement funding for the LHA (Replacement) helicopter assault ship and \$250,000,000 of additional advance procurement funding for the DDG-51 Guided Missile Destroyer program.

COMMON HULL FORMS

The Navy has discussed in testimony the use of existing hull forms for the design of future ships in an effort to reduce the cost of these ships. Candidate ships include, but are not limited to the replacement command ship, future dock landing ships, future surface combatant, and hospital ships. Candidate hull forms include, but are not limited to, the LPD-17, T-AKE, National Security Cutter, Patrol Coastal and DDG-51 hull forms all currently in use. This initiative continues to have strong support and the Secretary of the Navy is directed to submit

a report that outlines the benefits of using an existing hull form for future ship construction. The report should include candidate hull forms, candidate ship classes (including survivability requirements), potential cost savings (including under multi-year procurement authority), and the timeframe of when the decision would be made to use an existing hull form for future designs. This report should be submitted to the congressional defense committees not later than March 15th, 2010.

LITTORAL COMBAT SHIP (LCS)

The recommendation includes \$1,080,000,000 for the construction of two Littoral Combat Ships (LCS), a reduction of \$300,000,000 and one ship from the budget request. This adjustment properly prices the program and is consistent with the Navy's revised acquisition strategy for the LCS program which calls for down selecting to a single ship design in fiscal year 2010, versus the two designs that the program has been carrying. The recommendation supports this strategy which should result in reduced program costs as a result of reducing the overhead within the program. Further, the recommendation provides an additional \$60,000,000 to the LCS research and development program for the development of a technical data package that will allow a future second source of the winning LCS design.

Additionally, in compliance with previous congressional direction, the Assistant Secretary of the Navy for Research, Development, and Acquisition (ASN (RDA)) provides the congressional defense committees a monthly progress report on LCS construction costs. Presently, these reports provide cost information only for the first two LCS platforms (LCS-1 and LCS-2). The ASN (RDA) is directed to provide the same monthly cost reports for LCS-3 and LCS-4 upon enactment of this Act.

LEASING OF FOREIGN BUILT SHIPS

There exists strong interest in the impact that the review of future requirements in the Quadrennial Defense Review will have on the Navy's practice of leasing foreign built ships. Therefore, the Secretary of the Navy is directed to update its March 2008 report on the use of such leases and address impacts on American seafarers, sealift capabilities, and naval shipbuilding.

DDG-51 GUIDED MISSILE DESTROYER

The recommendation includes \$578,996,000, an increase of \$250,000,000 above the budget request, for advance procurement of components for the two DDG-51 destroyers planned in fiscal year 2011. The recommendation fully supports re-start of the DDG-51 program and provides additional funding in an effort to re-start the program in a more efficient and cost effective manner.

OTHER PROCUREMENT, NAVY

For Other Procurement, Navy, funds are to be available for fiscal year

2010, as follows:

(In thousands of dollars)

SHIP SERVICE TURBINE GENERATOR ROTORS

The budget request includes \$3,330,000 for an Ohio-class submarine Ship's Service Turbine Generator (SSTG) rotor. The recommendation provides no funds for the rotor because the procurement does not result in a usable end item in violation of the full funding policy. The Secretary of the Navy is

urged to submit a fiscal year 2010 reprogramming request that fully funds the SSTG rotor in order to support the planned installation schedule.

WEAPONS RANGE SUPPORT EQUIPMENT

Due to carryover of production engineering funding in the weapons range support equip-

ment program, the recommendation reduces the program by \$1,000,000. This reduction is to be applied only against the fiscal year 2010 production engineering funding and shall not reduce funds available for completion of auxiliary systems in support of Magnetic Silencing Facility military construction.

PROCUREMENT, MARINE CORPS

For Procurement, Marine Corps, funds are to be available for fiscal
year 2010, as follows:

Program Reduction				-27,000

C-17 GLOBEMASTER III

The recent actions of the Air Force to address and curtail the wide use of undefinitized contract actions (UCA) are encouraging. To further encourage a sense of urgency to reduce the number of UCAs, bill language has been included that limits obligations for modifications until all C-17 UCAs funded with prior year "Aircraft Procurement, Air Force" funds are definitized or certifications of need are made by the Secretary of the Air Force.

The Under Secretary of Defense (Acquisition, Technology and Logistics) (USD(AT&L)) is directed to review contracting procedures within the Air Force and provide a report to the congressional defense committees not later than 90 days after en-

actment of this Act detailing a strategy to reduce current and minimize further undefinitized contracts in the Air Force. Additionally, the USD(AT&L) is directed to provide to the congressional defense committees a consolidated list of undefinitized contracts within the Department of Defense by November 15 and April 15 of each year.

The recommendation provides an additional \$2,500,000,000 for the procurement of ten C-17 aircraft, associated spares, support equipment and training equipment as required.

OPERATIONAL SUPPORT AND VIP SPECIAL
AIRLIFT MISSION AIRCRAFT

The recommendation includes \$220,444,000 for operational support and VIP special mission aircraft, which is the amount and quan-

tity requested by the President. The Department of Defense maintains a number of aircraft to provide safe and secure transportation for senior government officials as well as the Combatant Commanders and other senior military leadership. The fleet of aircraft is aging creating maintenance and reliability issues. For example, the Department of Defense grounded the C-9 aircraft within the fleet due to several safety of flight issues. Accordingly, the Secretary of Defense is directed to provide a report on the health of the fleet, inventory requirements and the plans to sustain and upgrade the aircraft in the future to the congressional defense committees, within 90 days after enactment of this Act.

MISSILE PROCUREMENT, AIR FORCE

For Missile Procurement, Air Force, funds are to be available for
fiscal year 2010, as follows:

EVOLVED EXPENDABLE LAUNCH VEHICLE

There is concern that the Air Force has not established a robust process for managing content on the Evolved Expendable Launch Vehicle (EELV) Launch Capabilities contract. Therefore, the Secretary of the Air Force is directed to establish a formal systems engineering process which includes the National Reconnaissance Office as the func-

tional manager for space launch for the Intelligence Community, as a voting member, in order to prioritize and manage all efforts encompassed by the EELV Launch Capabilities contract.

MULTI-SATELLITE VEHICLE PROCUREMENT STRATEGIES

The language on multi-satellite vehicle procurement strategy as described in House

Report 111-230 is supported in the recommendation. In addition to the programs listed in House Report 111-230, the five year investment strategy is also directed to consider Wideband Global Satellite and Advanced Extremely High Frequency satellite systems for future multi-vehicle purchases.

PROCUREMENT OF AMMUNITION, AIR FORCE

For Procurement of Ammunition, Air Force, funds are to be available
for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation

BASE INFORMATION INFRASTRUCTURE

The fiscal year 2010 budget request includes \$425,780,000 for the Combat Information Transport System (CITS), an increase of \$88,590,000 from the amount appropriated in fiscal year 2009. This requested increase stemmed from a requirement to modernize

the information transport system at stand-alone Air National Guard (ANG) bases. While there is support for funding the ANG requirement, it is recognized that the CITS program has yet to obligate \$126,700,000 in fiscal year 2008 funding, and, despite reallocating over \$90,000,000 away from CITS, the service has

yet to obligate an additional \$87,500,000 in fiscal year 2009 funding. Therefore, the Base Information Infrastructure request is reduced by \$100,000,000, and the Secretary of the Air Force is directed to allocate no less than \$100,000,000 of the appropriated amount to Air National Guard modernization.

GRAND TOTAL, RDT&E.....	78,634,289	80,237,955	78,450,388	80,537,479

JOINT LIGHT TACTICAL VEHICLE

The budget request includes a total of \$90,099,000 to continue technology development for the Joint Light Tactical Vehicle (JLTV). The acquisition strategy involves competitive prototyping of vehicles from three contractors, followed by a down-select to two vehicles in fiscal year 2011 to proceed into the engineering and manufacturing development phase of the program. The recommendation fully supports this development strategy, which shares a number of elements of the reforms that have been written into law by the Weapon Systems Acquisition Reform Act of 2009. However, the program has yet to demonstrate itself as a model for a successful development program despite the reformed acquisition strategy. The funding profile has not changed despite a four month delay in initiating the program. Deficiencies in billings have resulted in the program falling far behind the financial benchmarks established by the Department of Defense. Program management has been complicated due to the different funding strategies pursued by the Army and the Marine Corps. There is great concern that of the \$217,255,000 Congress has approved for JLTV since fiscal year 2007, only \$53,128,000 had been expended through the end of fiscal year 2009. Despite these challenges, information has been provided that the program is proceeding in accordance with its revised schedule, billing errors are being addressed, budget execution is being corrected and prior year funding will be exhausted in 2010. Based upon these assurances, the recommendation contains full funding for the budget request. Careful oversight of program execution and military requirements will continue to ensure the commitment of the Army and Marine Corps to the success of the program.

EJECTION SEATS

The US16E ejection seat was competitively selected as the ejection seat for the F-35 Joint Strike Fighter. The progress made on this ejection seat is encouraging and the program of record is fully supported.

ENERGETICS

House language noted that the efforts of the military Services as coordinated through the Office of the Secretary of Defense, with the Department of Energy, have led to steady progress in the last decade in advancing the science of energetics and revitalizing the research and development workforce.

However, a report on energetics in the Department of Defense, as directed in House

Report 110-652, and which was to be provided to the congressional defense committees not later than March 1, 2009, was completed June 2009, and was finally delivered September 2, 2009.

House language recommended that the Department of Defense capitalize on best practices within the individual Services to advance the state of the energetics field, and directed that no funds be expended for the creation of a new Executive Agent or Executive Director for Advanced Energetics. The Senate included no similar language.

The recommendation includes no language regarding the use of funds for the creation of a new Executive Agent or Executive Director for Advanced Energetics and directs instead that the Secretary of Defense shall provide a report to the congressional defense committees not later than October 1, 2010, on progress being made on the findings and actions in the June 2009 report.

DOMESTIC ENERGY PRODUCTION

There is concern that a plan has not been presented to fund continued development and risk mitigation of domestic gas centrifuge enrichment technology during fiscal year 2010. Despite that, there is support for efforts to develop domestic gas centrifuge enrichment technology so that it can move to commercial scale uranium enrichment operations and potentially serve as a domestic source of fuel for nuclear power and the enrichment requirements of the defense community. Therefore, the Secretary of Defense, in consultation with the Department of Energy, is urged to explore utilizing all possible existing statutory authority to fund this important activity and to report to the Committees on Appropriations of both the House and Senate no later than 30 days following enactment of this Act regarding funding options.

SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase "only for" or "only to" are congressional interest items for purposes of the Base for Reprogramming Department of Defense form (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

It is the intent of Congress that the program baseline for reprogramming funds reflects all approved adjustment actions: the

initial appropriation as well as any rescissions, supplemental appropriations and approved Department of Defense 1415 reprogrammings. The Secretary of Defense is directed to ensure that financial management regulations incorporate approved reprogramming actions as an adjustment to the base for reprogramming value.

The Department of Defense is directed to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations Act (H.R. 109-119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test, and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. The percentage change limitation applies to both program increases and decreases. Additionally, this percentage change applies to the program base value at the time the below threshold movement of funds is executed. These thresholds are cumulative from the base for reprogramming value as modified by any adjustment action. Therefore, if the combined value of transfers into or out of a procurement (P-1) or research, development, test, and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming request to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this report. This guidance is effective for fiscal year 2010 and forward.

REPROGRAMMING REPORTING REQUIREMENTS

The Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the statement of the managers accompanying the conference report on the Department of Defense Appropriations Act, 2006.

FUNDING INCREASES

The funding increases outlined in these tables shall be provided only for the specific purposes indicated in the table.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

For Research, Development, Test and Evaluation, Army, funds are to be available for fiscal year 2010, as follows:

ENGINEERING & MANUFACTURING DEVELOPMENT				
73 AIRCRAFT AVIONICS.....	92,977	88,977	92,977	89,977
74 ARMED, DEPLOYABLE OH-58D.....	65,515	70,515	61,236	66,515
75 ELECTRONIC WARFARE DEVELOPMENT.....	248,463	248,463	197,463	202,063
76 ALL SOURCE ANALYSIS SYSTEM.....	13,107	13,107	13,107	13,107
77 TRACTOR CAGE.....	16,286	16,286	16,286	16,286
78 INFANTRY SUPPORT WEAPONS.....	74,814	76,814	82,814	83,614
79 MEDIUM TACTICAL VEHICLES.....	5,683	5,683	5,683	5,683
80 SMOKE, OBSCURANT AND TARGET DEFEATING SYS-SDD.....	978	978	978	978
81 FAMILY OF HEAVY TACTICAL VEHICLES.....	7,477	10,477	7,477	9,877
82 AIR TRAFFIC CONTROL.....	7,578	7,578	7,578	7,578
83 NON-LIGHT OF SIGHT LAUNCH SYSTEM.....	88,660	88,660	92,460	91,700
84 NON-LINE OF SIGHT CANNON.....	58,216	31,216	58,216	48,216
85 FCS MANNED GRD VEHICLES & COMMON GRD VEHICLE.....	368,557	184,557	368,557	276,557
86 FCS SYSTEMS OF SYSTEMS ENGR & PROGRAM MGMT.....	1,067,191	1,067,191	868,191	917,191
87 FCS RECONNAISSANCE (UAV) PLATFORMS.....	68,701	68,701	78,001	75,501
88 FCS UNMANNED GROUND VEHICLES.....	125,616	125,616	125,616	125,616
89 FCS UNATTENDED GROUND SENSORS.....	26,919	26,919	26,919	26,919
90 FCS SUSTAINMENT & TRAINING R&D.....	749,182	749,182	567,182	659,182
92 NIGHT VISION SYSTEMS - SDD.....	55,410	57,910	55,410	57,410
93 COMBAT FEEDING, CLOTHING, AND EQUIPMENT.....	2,092	2,092	2,092	2,092
94 NON-SYSTEM TRAINING DEVICES - SDD.....	30,209	30,209	30,209	30,209
95 AIR DEFENSE COMMAND, CONTROL AND INTELLIGENCE -SDD....	28,936	28,936	28,936	28,936
96 CONSTRUCTIVE SIMULATION SYSTEMS DEVELOPMENT.....	33,213	33,213	33,213	33,213
97 AUTOMATIC TEST EQUIPMENT DEVELOPMENT.....	15,320	15,320	15,320	15,320
98 DISTRIBUTIVE INTERACTIVE SIMULATIONS (DIS) - SDD.....	15,727	15,727	15,727	15,727
99 POSITIONING SYSTEMS DEVELOPMENT (SPACE).....	9,446	9,446	9,446	9,446
100 COMBINED ARMS TACTICAL TRAINER (CATT) CORE.....	26,243	26,243	26,243	26,243
102 WEAPONS AND MUNITIONS - SDD.....	34,878	44,378	69,878	87,478
103 LOGISTICS AND ENGINEER EQUIPMENT - SDD.....	36,018	37,518	36,018	37,218

(In thousands of dollars)

	Budget	House	Senate	Recommendation
104 COMMAND, CONTROL, COMMUNICATIONS SYSTEMS - SDD.....	88,995	88,995	43,995	58,995
105 MEDICAL MATERIEL/MEDICAL BIOLOGICAL DEFENSE EQUIPMENT.	33,893	40,293	37,393	42,013
106 LANDMINE WARFARE/BARRIER - SDD.....	82,260	60,960	82,260	72,760
107 ARTILLERY MUNITIONS.....	42,452	42,452	42,452	42,452
108 COMBAT IDENTIFICATION.....	20,070	20,070	10,070	10,070
109 ARMY TACTICAL COMMAND & CONTROL HARDWARE & SOFTWARE...	90,864	85,364	78,072	79,864
111 GENERAL FUND ENTERPRISE BUSINESS SYSTEM (GFEBs).....	6,002	6,002	6,002	23,902
112 FIREFINDER.....	20,333	20,333	20,333	20,333
113 SOLDIER SYSTEMS - WARRIOR DEM/VAL.....	19,786	19,786	19,786	19,786
114 ARTILLERY SYSTEMS.....	23,318	34,318	114,818	116,418
115 PATRIOT/MEADS COMBINED AGGREGATE PROGRAM (CAP).....	569,182	569,182	569,182	569,182
116 NUCLEAR ARMS CONTROL MONITORING SENSOR NETWORK.....	7,140	7,140	7,140	7,140
117 INFORMATION TECHNOLOGY DEVELOPMENT.....	35,309	35,309	67,109	66,909
118 JOINT AIR-TO-GROUND MISSILE (JAGM).....	127,439	127,439	127,439	127,439
119 MANNED GROUND VEHICLE.....	100,000	50,000	100,000	80,000
TOTAL, ENGINEERING & MANUFACTURING DEVELOPMENT.....	4,640,455	4,389,555	4,319,284	4,397,115
RDT&E MANAGEMENT SUPPORT				
120 THREAT SIMULATOR DEVELOPMENT.....	22,222	30,222	22,222	25,222
121 TARGET SYSTEMS DEVELOPMENT.....	13,615	13,615	13,615	13,615
122 MAJOR T&E INVESTMENT.....	51,846	51,846	51,846	51,846
123 RAND ARROYO CENTER.....	16,305	16,305	18,305	17,905
124 ARMY KWAJALEIN ATOLL.....	163,514	163,514	163,514	163,514
125 CONCEPTS EXPERIMENTATION PROGRAM.....	23,445	23,445	26,945	26,545
127 ARMY TEST RANGES AND FACILITIES.....	354,693	354,693	354,693	354,693
128 ARMY TECHNICAL TEST INSTRUMENTATION AND TARGETS.....	72,911	75,111	86,611	84,831
129 SURVIVABILITY/LETHALITY ANALYSIS.....	45,016	45,016	45,016	45,016
130 DOD HIGH ENERGY LASER TEST FACILITY.....	2,891	2,891	8,891	7,391
131 AIRCRAFT CERTIFICATION.....	3,766	3,766	3,766	3,766
132 METEOROLOGICAL SUPPORT TO RDT&E ACTIVITIES.....	8,391	8,391	8,391	8,391
133 MATERIEL SYSTEMS ANALYSIS.....	19,969	19,969	19,969	19,969

(In thousands of dollars)

	Budget	House	Senate	Recommendation
134 EXPLOITATION OF FOREIGN ITEMS.....	5,432	5,432	5,432	5,432
135 SUPPORT OF OPERATIONAL TESTING.....	77,877	77,877	77,877	77,877
136 ARMY EVALUATION CENTER.....	66,309	68,309	66,309	67,909
137 SIMULATION & MODELING FOR ACQ, RQTS, & TNG (SMART)....	5,357	5,357	5,357	5,357
138 PROGRAMWIDE ACTIVITIES.....	77,823	77,823	77,823	77,823
139 TECHNICAL INFORMATION ACTIVITIES.....	51,620	51,620	51,620	51,620
140 MUNITIONS STANDARDIZATION, EFFECTIVENESS AND SAFETY...	45,053	70,653	56,153	73,233
141 ENVIRONMENTAL QUALITY TECHNOLOGY MGMT SUPPORT.....	5,191	5,191	5,191	5,191
142 MANAGEMENT HEADQUARTERS (RESEARCH AND DEVELOPMENT)....	15,866	15,866	15,866	15,866
TOTAL, RDT&E MANAGEMENT SUPPORT.....	1,149,112	1,186,912	1,185,412	1,203,012
OPERATIONAL SYSTEMS DEVELOPMENT				
144 MLRS PRODUCT IMPROVEMENT PROGRAM.....	27,693	27,693	27,693	27,693
146 AEROSTAT JOINT PROJECT OFFICE.....	360,076	288,076	360,076	330,076

Effects Based Operations Decision Support Services		2,000		1,600
Green Armament and RangeSafe Technology Initiatives		2,000		1,600
Highly Integrated Lethality Systems Development		4,000		4,000
Highly Integrated Production for Expediting Reset		2,500		2,000
Mortar Anti-Personnel/Anti-Materiel Technology		4,000		3,200
Project National Shield Integration Center		1,500		1,200
Rare Earth Mining Separation and Metal Production		3,000		2,400
Rapid Response Force Projection Systems		2,000		1,600
Reliability and Affordability Enhancement for Precision Guided Munition Systems		6,000		4,800
Scaleable Efficient Power for Armament Systems and Vehicles Dual Use		5,000		4,000
Specialized Compact Automated Mechanical Clearance Platform		4,000		3,200
Tamper Proof Organic Packaging as Applied to Remote Armament Systems		6,000		4,800
Technology Development at the Quad Cities Manufacturing Laboratory (Transferred to line number 32)		2,000		0
Threat Detection and Neutralization		4,000		3,200
Tungsten Heavy Alloy Penetrator and Warhead Development		1,500		1,200
Accelerated Materials Development for Army Cannon Systems			3,000	2,400
Acoustic Gun Detection System for Tracked Combat Vehicles			2,000	1,600
Advanced Materials and Process for Armament Structures (AMPAS)			4,000	3,200
Building a Unified Information Framework			2,000	1,600
Center for Borane Technology			2,000	2,000
Exploding Foil Initiators (EFI) with Nanomaterial-Based Circuits			3,000	2,400
Kinetic Energy Enhanced Lethality and Protection Materials			2,000	2,000
Laser-Guided Energy (LGE) Demonstrator			2,800	2,240
Multifunctional Nanomaterials for Homeland Defense, Counter-Terrorism and Dual-Use Applications			2,500	2,000
Nanotechnology Enterprise Consortium (NTEC)			5,000	5,000
Perimeter Security Systems			5,000	4,500
Projectile Unmanned Aerial Systems		3,000	2,000	2,400
Ripsaw Unmanned Ground Vehicle (UGV) Weaponization			2,500	2,000
Titanium Extraction, Mining and Process Engineering Research			6,000	4,800
18 ELECTRONICS AND ELECTRONIC DEVICES	61,404	115,454	107,204	135,234
Advanced Flexible Solar Photovoltaic Technologies		3,000		2,400
Advanced Power Generation Unit for Military Applications		650		650

R-1	Budget Request	House	Senate	Recommendation
Advanced Power Source for Future Soldiers		1,500		1,200
Bio Battery		1,000		800
Program Increase - SOF Technology Insertion		10,000		6,000
Portable Fuel Cell Power Source		3,000		2,400
High-Volume Manufacturing Development for Thin-film Lithium Stack Battery Technologies		1,000		800
Integrated Lightweight Tracker System		2,000		2,000
Intelligent Energy Control Systems		3,000		2,400
Internal Base Facility Energy Independence		3,200		2,560
Large Format Li-Ion Battery		600	6,200	4,960
Market Viable, Dual-Use, Advanced Energy Storage Solutions Development		5,000		4,000
Micromachined Switches in Support of Transformational Communications Architecture		3,000		2,400
Mid-Infrared Super Continuum Laser		1,000		800
Military Fuel Cell Genset Technology Demonstration		2,500		2,000
Multi-Campus Base Facility Energy Independence		4,000		3,200
Novel Zinc Air Power Sources for Military Applications		2,500		2,000
ONAMI Miniaturized Tactical Energy Systems Development		2,500	3,000	2,500
Printed and Conformal Electronics for Military Applications		2,000		1,600
Soldier Situational Awareness Wristband		1,400		1,120
Solid Oxide Fuel Cell Powered Tactical Charger		1,200		960
Unmanned System Algorithm Development		4,000		3,200
Unjustified program growth		-5,000		-5,000
Tactical Cogeneration System		1,000	3,000	2,400
Advanced Hybrid Chemistry for Portable Power			3,200	2,560
Advanced Soldier-Portable Power Systems Technologies			3,100	2,480
Advanced Wearable Power System Manufacturing			2,000	1,600
Army Asset Visibility Enhancement			1,000	800
Ceramic Membrane – 10(X) Times More Energy for Battery Systems			3,000	2,400
Cogeneration for Enhanced Cooling and Heating of Advanced Tactical Vehicles			4,000	3,200
Eye Safe Laser Range Finder			3,000	2,400
High-Frequency, High-Power Electronic and Optoelectronic Devices on Aluminum Nitride (AlN)			4,000	3,200
Light Weight Nanophosphate Battery with Improved Energy Density			3,000	2,000
Maryland Proof of Concept Alliance for Defense Technologies			2,000	1,600
Self Powered, Lightweight, Flexible Display Unit on a Plastic Substrate			3,800	3,040
Stabilized Enzyme Biofuel Cell (SEBC) for Unmanned Ground Sensors			1,500	1,200
19 NIGHT VISION TECHNOLOGY	26,893	48,893	35,893	51,143

ENHANCED MEDIUM ALTITUDE
RECONNAISSANCE AND SURVEILLANCE SYSTEM

The fiscal year 2010 budget request includes \$210,035,000 in Research, Development, Test and Evaluation, Army to initiate the restructured Aerial Common Sensor (ACS) program. However, the Department of Defense has advised that the ACS has been terminated as a program of record and established in its place the Enhanced Medium Altitude Reconnaissance and Surveillance System (EMARSS), which provides a fixed-wing, multi-sensor, integrated intelligence, surveillance and reconnaissance capability to the warfighter. Additionally, the fiscal year 2010 Overseas Contingency Operations (OCO) budget request includes \$105,000,000 to procure EMARSS C-12 aircraft and to modify those aircraft with special mission hardware as a quick reaction capability to satisfy theater-based requirements. The Department based its OCO request on the assumption that ACS would not deliver capability to the war fighter for several years. However, with EMARSS selected as a new program of

record in lieu of ACS, the EMARSS quick reaction capability request is duplicative of the program of record, and under current schedules, system deliveries for the program of record are expected shortly after deliveries of the so-called quick reaction capability. Accordingly, the recommendation provides no funding in the OCO title for procurement and modification of C-12 aircraft. In order to establish EMARSS as a program of record while fulfilling urgent theater-based fielding requirements, the recommendation includes \$116,035,000 in Research, Development, Test and Evaluation, Army, to fully fund the new EMARSS program of record and to accelerate its fielding while establishing a standardized, sustainable intelligence, surveillance and reconnaissance program.

REPORT ON THE USE OF LIVE PRIMATES IN
TRAINING RELATING TO CHEMICAL AND BIO-
LOGICAL AGENTS

The Secretary of Defense is directed to submit to the congressional defense commit-

tees, not later than 90 days after the date of the enactment of this Act, a report setting forth a detailed description of the requirements for use by the Department of Defense of live primates at the United States Army Medical Research Institute of Chemical Defense, and elsewhere, to demonstrate the effects of chemical or biological agents or chemical (such as physostigmine) or biological agent simulants in training programs. The report shall include, at a minimum, the following:

- (1) The number of live primates used in the training;
- (2) The average lifespan of primates from the point of introduction into such training programs;
- (3) An explanation as to why the use of primates in such training is more advantageous and realistic than the use of human simulators or other alternatives; and
- (4) An estimate of the cost of converting from the use of primates to human simulators in such training.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, NAVY

For Research, Development, Test and Evaluation, Navy, funds are to be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
RESEARCH, DEVELOPMENT, TEST & EVAL, NAVY				
BASIC RESEARCH				
1 UNIVERSITY RESEARCH INITIATIVES.....	99,472	103,472	102,472	102,672
2 IN-HOUSE LABORATORY INDEPENDENT RESEARCH.....	18,076	18,076	18,076	18,076

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

R-1	Budget Request	House	Senate	Recommendation
1 UNIVERSITY RESEARCH INITIATIVES	99,472	103,472	102,472	102,672
Center for Assured Critical Application and Infrastructure Security		1,500		1,200
Ship Model Testing		2,500		2,000
Molecular Electronics for Flash Memory Production (transferred to RDT&E, Army line number 3)			3,000	
3 DEFENSE RESEARCH SCIENCES	413,743	426,143	423,643	430,903
Characterization and Exploitation of Magnetic and Electric Fields in the Coastal Ocean Environment		2,500		2,000
Energetics S&T Workforce Development		3,500		3,500
Next Generation Manufacturing Processes and Systems		1,500		1,200
ONAMI Nanoelectronics, Nanometrology and Nanobiotechnology Initiative		2,500	4,800	3,840
Shock and Vibration Modeling of Marine Composites		2,400		1,920
Waves, Wind and Scavengers: Next Generation			2,000	2,000
Renewable Energy Systems for Naval Applications			2,000	1,600
Texas Microfactory			1,100	1,100
Human Neural Cell-Based Biosensor				
4 POWER PROJECTION APPLIED RESEARCH	59,787	68,787	72,287	77,547
Aging Military Aircraft Fleet Support		2,000		1,600
Electronic Motion Actuation Systems		1,000		800
Multifunctional Materials, Devices, and Applications		2,000		1,600
Strike Weapon Propulsion		4,000		3,200
Advanced Helicopter Landing Aid			800	800
Combustion Light Gas Gun Projectile			5,000	4,000
Enhanced EO/IR Sensors			3,000	2,400
Naval Advanced Electric Launcher System			2,000	2,000
Millimeter Wave Imaging			1,700	1,360
5 FORCE PROTECTION APPLIED RESEARCH	91,400	124,900	135,900	146,700
Advanced Battery System for Military Avionics Power Systems		2,000		1,600
Advanced Energetics Initiative		4,000		4,000
Advanced Simulation Tools for Composite Aircraft Structures		2,000		1,600
Energetic Nano-Materials Agent Defeat Initiative		2,000		1,600
Center for Autonomous Solar Power - Supercapacitors for Integrated Power Storage		5,000	2,500	4,000
Advanced Composite Manufacturing for Composite High- Speed Boat Design		2,000		1,600
Non Traditional Ballistic Fiber and Fabric Weaving Application for Force Protection		2,500		2,000
Integration of Electro-Kinetic Weapons into Next Generation Navy Ships		5,000	4,000	4,000
Lithium Ion Storage Advancement for Aircraft Applications		2,500		2,000
Multi-Mission Unmanned Surface Vessel		2,500		2,000
Program Increase - Hybrid Power Systems		4,000		2,000
Alternative Energy Research			25,000	18,500
Carbon Composite Thin Films for Power Generation and Energy Storage			2,000	1,600
Magnetic Refrigeration Technology for Naval Applications			5,000	4,000

R-1	Budget Request	House	Senate	Recommendation
Fuel Efficient, High Specific Power Free Piston Engine for USSVs			2,000	1,600
Harbor Shield - Homeland Defense Port Security Initiative			2,000	1,600
Proton Exchange Membrane Fuel Cell for Underwater Vehicles			2,000	1,600
6 MARINE CORPS LANDING FORCE TECHNOLOGY	39,308	39,308	46,808	45,808
Warfighter Rapid Awareness Processing Technologies			5,000	4,500
High Power Ultra Lightweight Zinc-Air Battery			2,500	2,000
MATERIALS, ELECTRONICS AND COMPUTER				
7 TECHNOLOGY	0	3,500	0	2,800
Infrared Materials Laboratory		3,500		2,800
8 COMMON PICTURE APPLIED RESEARCH	83,163	85,963	89,663	90,903
Cognitive Radio Institute		1,000		800
Sensor Integration Framework		1,800		1,440
Intelligent Decision Exploration			4,500	3,900
Head Attitude Tracking System			2,000	1,600
9 WARFIGHTER SUSTAINMENT APPLIED RESEARCH	104,169	104,169	122,569	119,289
Composite Materials Enhancements through Polymer Science R&D			5,900	5,120
Productization of Anti-fouling and Fouling Release Coating Systems			3,500	2,800
Nanotechnology for Anti-Reverse Engineering			3,000	2,400
Biosensors for Defense Applications			1,000	800
Managing and Extending DoD Asset Lifecycles			2,000	1,600
Advanced Composite Maritime Manufacturing			2,000	1,600
Assistive Technologies for Injured Service Members			1,000	800
10 RF SYSTEMS APPLIED RESEARCH	64,816	68,316	66,816	69,616
Gallium Nitride (GaN) Power Technology		2,000		1,600
Silicon Carbide Wafer Production - Process Development for Low Defect Power Electronics		1,500		1,200
National Initiatives for Applications of Multifunctional Materials			2,000	2,000
OCEAN WARFIGHTING ENVIRONMENT APPLIED				
11 RESEARCH	48,750	53,750	51,750	53,950
Autonomous Marine Sensors and Networks for Rapid Littoral Assessment		3,000		2,400
Underwater Imaging and Communications Using Lasers		2,000	2,000	2,000
Unmanned Undersea Vehicle Submerged Long Range Positioning			1,000	800
13 UNDERSEA WARFARE APPLIED RESEARCH	55,694	60,194	63,194	65,294
Autonomous UUV Delivery and Communication System Integration		4,500		3,600
Advanced High Energy Density Surveillance Power Module			4,000	3,200
Gallienol Energy Harvesting			3,500	2,800
MINE AND EXPEDITIONARY WARFARE APPLIED				
14 RESEARCH	40,880	40,880	44,380	44,080
Electromagnetic Signatures Assessment System Using Multiple Autonomous Undersea Vehicles, Phase III			2,000	2,000
Virtual Onboard Analyst for Multi-Sensor Mine Detection			1,500	1,200

R-1	Budget Request	House	Senate	Recommendation
15 POWER PROJECTION ADVANCED TECHNOLOGY	107,969	125,869	106,869	116,689
AARGM Counter Air Defense Future Capabilities		2,500		2,000
Countermine LIDAR UAV-Based Systems		2,000	1,400	1,600
Flow Path Analysis Tool		2,000		1,600
Moving Target Indicator Scout Radar		1,000		800
Quiet Drive Advanced Rotary Actuator		2,000		1,600
Smart Instrument Development for the Magdalena Ridge Observatory		2,000	5,000	4,000
Tactical High Speed Anti-Radiation Missile Propulsion Demonstration		1,900		1,520
X-49A Envelope Expansion Modifications		4,500		3,600
Reduction to growth			-10,000	-10,000
Detection, Tracking, and Identification for ISRTE of Mobile and Asymmetric Targets			2,500	2,000
16 FORCE PROTECTION ADVANCED TECHNOLOGY	66,035	91,935	75,235	93,355
Accelerating Fuel Cells Manufacturability		2,000		1,600
Advanced Logistics Fuel Reformer for Fuel Cells (Phase II)		3,000		2,400
Agile Port and High Speed Ship Technology		2,000		1,600
HBCU Applied Research Incubator		1,000		800
High Power Density Motor Drive		3,600		2,880
High Temperature Radar Dome Materials		2,000		1,600
High Temperature Superconductor Trap Field Magnet Motor		1,000		800
Multi-Element Structured Filter Arrays for Naval Platforms		4,300		3,440
NAVAIR Project for Land/Sea-Based Air Systems Maintenance and Air Worthiness		2,000	2,000	2,000
Pure Hydrogen Supply from Logistic Fuels		3,000		2,400
Wide Area Sensor Force Protection Targeting		2,000		1,600
Single Generator Operations Lithium Ion Battery			5,000	4,000
Captive Air Amphibious Transporter			2,200	2,200
17 COMMON PICTURE ADVANCED TECHNOLOGY	108,394	49,284	110,394	109,994
High Integrity Global Positioning System		-59,110		
4-D Data Fusion Visualization			2,000	1,600
WARFIGHTER SUSTAINMENT ADVANCED TECHNOLOGY	86,239	95,039	86,239	93,279
Intelligent Retrieval of Imagery		2,500		2,000
Marine Corps Cultural and Language Training Platform		800		640
Nanofluidic Lubricants for Increased Fuel Efficiency in Heavy Duty Vehicles		1,500		1,200
Environmentally Sealed, Ruggedized Avionics Displays		4,000		3,200
ELECTROMAGNETIC SYSTEMS ADVANCED TECHNOLOGY	65,827	65,827	76,327	75,827
Reduction to new starts			-7,000	-7,000
Pacific Airborne Surveillance and Testing			17,500	17,000
MARINE CORPS ADVANCED TECHNOLOGY DEMONSTRATION (ATD)	107,363	114,863	115,363	121,063
California Central Coast Partnership Research		3,500		2,800
Enhanced Small Arms Protective Insert		2,000		1,600
Near Infrared Optical Augmentation System		2,000		1,600
Ground Warfare Acoustical Combat Systems of Netted Sensors			5,000	5,000
Marine Air-Ground Task Force Situational Awareness			3,000	2,700

PRESIDENTIAL HELICOPTER

The House report directed the Secretary of Defense to report on the use of certain funds for the VH-71 Presidential Helicopter. The Senate report contained no similar language. The recommendation does not retain the House language.

BONE MARROW REGISTRY

The recommendation includes \$31,500,000 for the Department of the Navy, to be administered by the C.W. Bill Young Marrow Donor Recruitment and Research Program, also known as and referred to within the Naval Medical Research Center as the Bone Marrow Registry. Funds appropriated for the

C.W. Bill Young Marrow Donor Recruitment and Research Program shall remain available only for the purposes for which they were appropriated, and may only be obligated for the C.W. Bill Young Marrow Program. This donor center has recruited more than 525,000 Department of Defense volunteers and provides more marrow donors per week than any other donor center in the nation. More than 3,360 servicemembers and other Department volunteers from this donor center have provided marrow to save the lives of patients. The success of this national and international life-saving program for military and civilian patients, which now

includes more than 7,500,000 potential volunteer donors, is admirable. Further, the agencies involved in contingency planning are encouraged to continue to include the C.W. Bill Young Marrow Donor Recruitment and Research Program in the development and testing of their contingency plans. The Department of Defense form (DD Form 1414) shall show this as a congressional interest item. The Department of Defense is further directed to release all the funds appropriated for this purpose to the C.W. Bill Young Marrow Donor Recruitment and Research Program within 60 days of the enactment of this Act.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, AIR FORCE

For Research, Development, Test and Evaluation, Air Force, funds are
to be available for fiscal year 2010, as follows:

(In thousands of dollars)				
	Budget	House	Senate	Recommendation
RESEARCH, DEVELOPMENT, TEST & EVAL, AIR FORCE				
BASIC RESEARCH				
1 DEFENSE RESEARCH SCIENCES.....	321,028	323,528	331,028	329,828
2 UNIVERSITY RESEARCH INITIATIVES.....	132,249	140,449	136,949	142,109

AERIAL REFUELING TANKER PROGRAM

The recommendation includes \$15,000,000 in Research, Development, Test and Evaluation, Air Force for program management and a general provision providing \$291,715,000 in a Tanker Replacement Transfer Fund.

Not later than 10 days after the release of the final request for proposal soliciting bids for an aerial tanker replacement aircraft, the Secretary of the Air Force is directed to submit a report to the congressional defense committees that includes a description of changes from the draft proposal to the final request for proposal and the rationale for each change.

The Secretary of the Air Force is encouraged to pursue tanker recapitalization at a rate of 36 aircraft per year instead of 12 or 15 aircraft in the current plan. This quantity will recapitalize the fleet in one-third the time and allow for a rapid retirement of the aging KC-135 aircraft. Furthermore, a more accelerated procurement strategy will avoid the large sustainment and modernization costs associated with keeping the legacy KC-135 fleet in the inventory longer.

MODULAR AERIAL SPRAY SYSTEM (MASS)
REPLACEMENT

The modular aerial spray system (MASS) is maintained by the Air Force Reserve and is the only fixed-wing aerial spray capability in the Department of the Defense. The current program is over 20 years old and is becoming increasingly difficult to maintain, leading to increased cost and the inability to conduct required missions. There is presently no recapitalization plan to replace the system. The Secretary of the Air Force is encouraged to pursue a recapitalization program in order to maintain this needed capability.

EVOLVED EXPENDABLE LAUNCH VEHICLE
COMMON UPPER STAGE

The recommendation includes \$20,000,000 to study options and begin research and development to achieve a common upper stage between the Atlas and Delta launch vehicle families. The Air Force is urged to develop a process to modify Delta IV RL-10 upper stage engines to the Atlas V RL-10 configuration to enable more efficient use of the existing RL-10 inventory. The study shall also investigate how to modify the upper stage(s) to enable Centaur and the Delta Cryogenic Second Stage to use a common RL-10 engine and other potential modifications to achieve a truly common upper stage.

EVOLVED EXPENDABLE LAUNCH VEHICLE
SUSTAINMENT PLAN

The Secretary of the Air Force, in consultation with the Director of the National Reconnaissance Office, is directed to submit an Evolved Expendable Launch Vehicle sustainment plan as described in House Report 111-230 to the congressional defense committees with the fiscal year 2011 budget submission.

15-YEAR SPACE SYSTEM INVESTMENT
STRATEGY

The recommendation supports language on a long-term space system investment strategy as described in House Report 111-230. The investment strategy is directed to span 15 years rather than the originally proposed 30 years. In addition, the Under Secretary of Defense (Acquisition, Technology and Logistics) is directed, in coordination with the Secretary of the Air Force and the Under Secretary of Defense (Intelligence), to deliver this Space System Investment Strategy to the congressional defense committees not later than May 1, 2010. As necessary, the report should contain a classified appendix.

NATIONAL POLAR-ORBITING OPERATIONAL
ENVIRONMENTAL SATELLITE SYSTEM

There is concern about the executability and management of the National Polar-orbiting Operational Environmental Satellite System (NPOESS) program. Therefore, it is directed that not more than 50 percent of the funds made available to the Department of Defense for the NPOESS program shall be obligated or expended until the Under Secretary of Defense (Acquisition, Technology and Logistics) certifies in writing to the congressional defense committees that the NPOESS program is being executed in support of the requirements, timelines and acquisition policies needed to meet Department of Defense missions.

The Secretary of Defense is directed, in consultation with the National Oceanic and Atmospheric Administration and the National Aeronautics and Space Administration, to perform an independent cost analysis of all recommended programmatic and acquisition alternatives. This analysis shall be submitted to the Committee on Appropriations, Subcommittees on Defense and Commerce, Justice, Science and Related Agencies, of both the House and Senate, in addition to any other congressional oversight committee before any contract changes are signed and any major documents are revised by the government.

OPERATIONALLY RESPONSIVE SPACE

The Director of the Operationally Responsive Space program office is urged to provide the congressional defense committees with independent cost, schedule and performance estimates prior to initiating any satellite development activity.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION, DEFENSE-WIDE

For Research, Development, Test and Evaluation, Defense-Wide,
funds are to be available for fiscal year 2010, as follows:

DARPA NEW START PROGRAMS

The Defense Advanced Research Projects Agency's (DARPA's) fiscal year 2010 budget request includes \$135,170,000 for new start programs, a significant increase over the \$28,000,000 executed for new starts in fiscal year 2009 and the \$16,000,000 executed for new starts in fiscal year 2008. The recently appointed Director of DARPA did not have an opportunity to adjust DARPA's fiscal year 2010 budget submission to reflect the new administration's priorities. Additionally, management changes instituted to address DARPA's historic budget execution challenges are likely to require some time before taking effect.

Therefore, the recommendation denies all funding for the requested new start programs. Instead, following the receipt of additional information from the new DARPA Director, the recommendation provides \$85,000,000 in multiple program elements, as requested by the Director, for fiscal year 2010 new starts to be selected by the Director in fiscal year 2010. None of these funds may be obligated until the Director provides details to the congressional defense committees on the programs to be initiated, to include descriptions, program objectives, the expected duration of the DARPA effort and associated out-year funding requirements and planned technology readiness levels to be achieved by DARPA and Service transition partners. This is an exception to conventional budgeting procedures and the Director of DARPA is directed to use established budgeting procedures for its fiscal year 2011 budget submission.

RAPID EXPLOITATION OF INNOVATIVE TECHNOLOGIES IN ALL AREAS OF SCIENCE AND TECHNOLOGY

The recommendation provides \$4,500,000 for fiscal year 2010 new starts in Rapid Exploitation of Innovative Technologies (REITS) and directs the Commander, Special Operations Command, to provide quarterly reports to the congressional defense committees on the use of any current fiscal year or prior year funds provided for REITS, to include individual project schedules, cost estimates and transition plans. The Commander, Special Operations Command, is further directed to submit an annual report to the congressional defense committees on the actual cost, schedule to complete and transition to operational use or further development for all projects for which REITS funds were executed.

GROUND-BASED MISSILE DEFENSE

In addition to the reporting requirements contained in Sections 232 and 233 of H.R. 2647,

the National Defense Authorization Act for Fiscal Year 2010, the Director of the Missile Defense Agency (MDA) is directed to provide a report on how MDA will utilize the funds in the Ground-based Midcourse Defense (GMD) program in fiscal year 2010 to maintain the Ground-Based Interceptor (GBI) production line. The report shall identify the number of GBIs that are being produced in fiscal year 2010. Furthermore, the report shall include a discussion of MDA's GMD Analysis of Alternatives that was conducted as a result of U.S. Northern Command's Ballistic Missile Defense study that was provided to MDA in October 2008. These reports shall be submitted to the congressional defense committees at the same time the President submits the fiscal year 2011 budget request to Congress.

BALLISTIC MISSILE DEFENSE TEST AND TARGETS

There is strong support for a robust testing program for the Missile Defense Agency (MDA). In December of 2008, the Director of MDA initiated a review of the entire Ballistic Missile Defense test program and developed the Integrated Master Test Plan (IMTP) that was signed in late July 2009, well after the submission of the fiscal year 2010 budget request. The IMTP's primary purpose is to establish and document the executable test baseline program from fiscal year 2010 and out to satisfy critical engagement conditions and empirical measurement events data collection requirements.

Since the plan was submitted, it has become known that some tests scheduled for fiscal year 2010 have slipped to fiscal year 2011 and that target synchronization with the new test plan still needs clarification. Furthermore, the fiscal year 2010 budget requests an increase of \$50,000,000 over last year's funding level. However, MDA has not expended over \$500,000,000 of fiscal year 2009 funds and those funds will be carried over into fiscal year 2010 in the test and target program. Therefore, the recommendation reduces the budget request by \$135,800,000 due to a premature request of funding.

EARLY INTERCEPTOR

The Director of the Missile Defense Agency (MDA) is conducting a 90-day study on the different components of the early interceptor to evaluate how best to incorporate them into the Integrated Master Test Plan and MDA's new focus on early/ascent-phase intercept. The recommendation includes \$80,000,000 in Line 27, Ballistic Missile Defense Technology, only for the development of the relevant technologies and incorpora-

tion of existing technologies to support the early intercept program. Additionally, MDA is urged to use previously appropriated funds in other program elements that would be complimentary or enhance the relevant technologies for early/ascent-phase intercept.

TWO-STAGE GROUND-BASED INTERCEPTOR

The Missile Defense Agency (MDA) is encouraged to continue developing and testing the two-stage ground-based interceptor. It is understood that over \$173,000,000 has already been obligated in prior year funding to support development and testing. MDA is encouraged to provide at least \$50,000,000 in fiscal year 2010 funds to continue the two-stage interceptor program.

Furthermore, the Under Secretary of Defense for Policy is directed to submit a report to the congressional defense committees by June 1, 2010. The report shall include a plan for the continuation of the two-stage ground-based interceptor program as well as how MDA plans to leverage the development and testing of the interceptor to modernize the Ground-based Midcourse Defense system. If the report recommends continuation of the two-stage interceptor program, it shall address any options for basing two-stage interceptors in Europe or the United States to provide enhanced defense in response to future long-range missile threats from Iran. The report shall also include a description of how such a site may be made interoperable with the planned missile defense architecture for Europe and the United States. Finally, the report shall include an independent cost estimate for the two-stage ground-based interceptor plan that is recommended.

GLOBAL SUPPLY CHAIN SECURITY

The national security establishment currently relies on electronic and computer components manufactured predominately overseas. The Department of Defense requires a trusted procurement process to provide classified handling, chain of custody, tracking and vital control of mission critical information technology system components. Accordingly, the Department is urged to provide the necessary resources to establish a Secure Procurement Logistics pilot project within the Cyber Security Initiative to perform secure procurement and logistics support for mission critical information technology.

OPERATIONAL TEST AND EVALUATION, DEFENSE

For Operational Test and Evaluation, Defense, funds are to be
available for fiscal year 2010, as follows:

DEFENSE HEALTH PROGRAM REPROGRAMMING
PROCEDURES

There is concern regarding the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and continue oversight within the Defense Health Program operation and maintenance account, the explanatory statement includes language which limits the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The bill language and accompanying recommendation should not be interpreted by the Department as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, the Services are not properly budgeting for actual execution levels among the budget activity groups and, therefore, the Direct Care System is continued as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Department of Defense to follow prior approval reprogramming procedures.

CARRYOVER

For fiscal year 2010, the recommendation includes a one percent carryover authority for the Defense Health Program. The Assistant Secretary of Defense for Health Affairs is directed to submit a detailed spending plan for any fiscal year 2009 designated carryover funds to the congressional defense committees by January 4, 2010. In addition, the Department shall, not fewer than 30 days prior to executing the carryover funds, notify the congressional defense committees in writing of the details of any such obligation. Finally, to address the continuing funding shortfalls in medical information technology, the Department is directed to use available carryover funds to address this deficit.

MEDICAL INFORMATION TECHNOLOGY

Over the past few years, criticism regarding the Department of Defense and the Department of Veterans Affairs medical information technology has grown. Both Departments developed their current systems and infrastructure independent of one another, primarily using proprietary technology and hardware that is costly, not user-friendly and technologically unsustainable. As such, both Departments have now chosen to modernize their systems and infrastructure to address many of those issues, as well as addressing the issues surrounding interoperability between both Departments and the private sector. These systems must also address new requirements made evident by continuing overseas operations, including the ability to expand based on future technology requirements.

Unfortunately, it appears that both Departments are not sufficiently coordinating their efforts, and that lessons learned are not being used to develop an efficient and cost-effective means for data interoperability and information technology modernization. The recommendation recognizes that each Department has unique system requirements; however, both Departments do have common functions that should result in the development of common technology solutions and architecture. Areas that should be joint business practices include lab work,

pharmacy orders, digital radiology transmittal, third-party collections and patient appointment scheduling. Both Departments are continuing to work on interoperability between their current systems and improving the transmittal of medical records from one system to another. However, there is significant concern that the necessary efforts being made to jointly develop the required future systems are inadequate. Therefore, the Joint Executive Council (JEC) and the Health Executive Council (HEC) are directed to report to the Committees on Appropriations of the House and the Senate not later than January 11, 2010, on a complete and thorough review of the technology requirements of each Department. The report shall detail each requirement, to include those that are deemed unique to each Department, include a justification of why the requirement can or cannot be developed jointly, and identify the path forward to develop such joint technology. In addition, the JEC and the HEC are directed to coordinate this report with the Department of Health and Human Services as it seeks to modernize electronic health records throughout the private sector. If done correctly and efficiently, the efforts of both Departments can be used as an example of how to modernize medical information technology.

MILITARY MEDICAL RESEARCH

The recommendation provides \$120,000,000 for Traumatic Brain Injury (TBI) and Psychological Health research and treatment efforts. The fiscal year 2010 budget submission included \$372,000,000 to address numerous unique military medical areas of concern including TBI and Psychological Health. The Department is encouraged to refer to the language in the House and Senate reports regarding gaps in research that need to be addressed within this funding to close those disparities.

It is understood that the Department of Defense is putting pressure on Health Affairs to obligate these funds in an expedited manner during fiscal year 2010 and as a result, Requests for Information (RFI) on grant proposals for this funding have already been published prior to the completion of the Department of Defense Appropriations Act, 2010. These actions are not supported by this recommendation since funding has not been appropriated and the Committees on Appropriations of the House and Senate were never notified of a new start request. Since the submission of the President's budget request, the Department has been repeatedly asked for a distributable list of medical research capability gaps that will be addressed with the additional \$372,000,000. Therefore, the Secretary of Defense is directed to provide a distributable list of medical research capability gaps that will be addressed using these funds not later than 15 days after enactment of this Act.

PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The recommendation provides \$50,000,000 for a Peer-Reviewed Medical Research Program. The Secretary of Defense, in conjunction with the Service Surgeons General, is directed to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to: Blood Cancer, Chronic Migraine and Post-traumatic headache, Dystonia, Drug Abuse, Epilepsy, Fragile X Syndrome, Inflam-

matory Bowel Disease, Interstitial Cystitis, Kidney Cancer, Lupus, Melanoma, Mesothelioma, Neuroblastoma, Osteoporosis and related bone disease, Padgett's Disease, Pheochromocytoma, Polycystic Kidney Disease, Post Traumatic Osteoarthritis, Scleroderma, Social Work Research, and Tinnitus. The recommendation emphasizes that the additional funding provided under the Peer-Reviewed Medical Research Program shall be devoted only to the purposes listed above.

HYPERBARIC OXYGEN THERAPY

The Secretary of Defense, not later than 60 days after enactment of this Act, shall submit to the congressional defense committees a report on the use of hyperbaric oxygen therapy (HBOT). The report shall include the number of members of the Armed Forces, veterans and civilians being treated with HBOT; the types of conditions being treated and the respective success rate for each condition; the current inventory, location, and rate of use for hyperbaric oxygen chambers; and any plans for expanding the use of HBOT for treatment.

DIRECT HIRE AUTHORITY

The Secretary of Defense is directed to immediately implement Section 1107 of the National Defense Authorization Act, 2008 (Public Law 110-181) which provides adequate authority for the medical specialty hiring needs of the Department of Defense. The Secretary of Defense is further directed that no later than 30 days after enactment of this Act the Department shall notify the congressional defense committees the action has been taken to implement the direct hire authority across the Department, including the civilian entities.

REDUCING SCAR FORMATION

The United States Army Institute of Surgical Research and the Armed Forces Institute of Regenerative Medicine is currently doing research to reduce scarring following battlefield injuries in conjunction with academia. The Surgeon General of the Army is urged to use funds provided for continuation of studies into new methods for wound healing and scar reduction capabilities including proceeding to a clinical study and for further product development.

MEDICAL TRANSPORTATION INFRASTRUCTURE

After reviewing the Base Realignment and Closure (BRAC) Health Systems Advisory Subcommittee's (the Committee) review of the design plans for medical centers, including the responses from the Department of Defense and the Committee, there remains deep concern about the state of the master plan to complete world class medical facilities. Failures to implement the recommendations of this plan may lead to degraded medical care for military personnel, their dependents and retirees.

The recommendation includes \$300,000,000 in the Defense Health Program operation and maintenance account for transportation issues stemming from the realignments associated with the 2005 BRAC. The Secretary of Defense is directed to provide a report to the House and Senate Committees on Appropriations detailing the status of the implementation of the BRAC Health Systems Advisory Subcommittee's plan, and on plans for the recommended funding increase, no later than 90 days after the enactment of this Act.

CHEMICAL AGENTS AND MUNITIONS DESTRUCTION, DEFENSE

For Chemical Agents and Munitions Destruction, Defense, funds are
to be available for fiscal year 2010, as follows:

(In thousands of dollars)

	Budget	House	Senate	Recommendation
CHEMICAL AGENTS & MUNITIONS DESTRUCTION, DEFENSE

COUNTER-DRUG BUDGET JUSTIFICATION MATERIALS

There is concern that the budget justification materials submitted do not provide sufficient information for appropriate oversight and understanding of program objectives and metrics. Therefore, the Secretary of Defense is directed that beginning with the fiscal year 2011 budget, the budget justification materials shall ensure that each project code

include, at a minimum: a detailed explanation of program increases and decreases including displays and explanations of program and price growth; a display showing the number of full-time equivalent (FTE) employees; average grade for government employees and number of contractor FTEs; justification of planned equipment buys for items costing more than \$250,000, including quantities and unit costs; and justification and descriptions of research and develop-

ment activities, including anticipated program accomplishments, contract awards and a description of government costs.

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT FUND

(INCLUDING TRANSFER OF FUNDS)

For the Joint Improvised Explosive Device Defeat Fund, funds are to be available for fiscal year 2010, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS				
[In thousands of dollars]				
	Budget Request	House	Senate	Recommendation
Attack the Network	203,100	183,000	0
Transfer to Title IX	-53,100
Unjustified request	-150,000
Defeat the Device	199,100	25,000	0
Transfer to Title IX	-199,100
Train the Force	41,100	35,000	0
Transfer to Title IX	-41,100
Staff and Infrastructure	121,550	121,550	121,550
Total, Joint Improvised Explosive Device Defeat Fund	564,850	364,550	0	121,550

The recommendation provides funds in the base budget for the Staff and Infrastructure line of operation. These funds are provided with the same time limitation as traditional operation and maintenance funds.

The reporting requirements directed under the Supplemental Appropriations Act, 2009 (Public Law 111-32), were not adhered to, but efforts are underway to improve that status.

The Director, Joint Improvised Explosive Device Defeat Organization (JIEDDO) is directed to submit monthly commitment, obligation, and expenditure data by line of operation and by year of appropriation to the congressional defense committees. Further, the Director, JIEDDO is directed to submit monthly reports of obligation data on a project-by-project basis by line of operation

to the congressional defense committees. The Director, JIEDDO is also directed to follow standard reprogramming procedures when transferring a cumulative amount of \$20,000,000 or more between lines of operation.

OFFICE OF THE INSPECTOR GENERAL

For the Office of the Inspector General, \$288,100,000 is provided for fiscal year 2010.

[In thousands of dollars]				
	Budget	House	Senate	Recommendation
Office of the Inspector General:				
Operation and Maintenance	271,444	287,100	287,100	287,100
Procurement	1,000	1,000	1,000	1,000
Total, Office of the Inspector General	272,444	288,100	288,100	288,100

TITLE VII—RELATED AGENCIES

For Related Agencies, funds are to be available for fiscal year 2010, as follows:

[In thousands of dollars]				
	Budget	House	Senate	Recommendation
TITLE VII—RELATED AGENCIES				
Central Intelligence Agency Retirement and Disability System Fund	290,900	290,900	290,900	290,900
Intelligence Community Management Account (ICMA)	672,812	611,002	750,812	707,912
Transfer to Department of Justice
Total, title VII, Related agencies	963,712	901,902	1,041,712	998,812

CLASSIFIED ANNEX

Adjustments to the classified programs are addressed in a separate detailed and comprehensive classified annex. The Intelligence Community, Department of Defense and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying

the Department of Defense Appropriations Act, 2010.

CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

For the Central Intelligence Agency Retirement and Disability System Fund, \$290,900,000 is provided for fiscal year 2010.

INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

For the Intelligence Community Management Account, \$707,912,000 is provided for fiscal year 2010, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS				
[In thousands of dollars]				
	Budget Request	House	Senate	Recommendation
Intelligence Community Management Account	672,812	672,812	672,812	672,812
Classified Adjustment	-64,810	78,000	34,300

TOTAL, ICMA	672,812	611,002	750,812	707,912

INTELLIGENCE COMMUNITY'S BUSINESS TRANSFORMATION OFFICE

The Director of National Intelligence is directed to submit a report 90 days after the enactment of this Act that: 1) addresses the

procurement challenges facing the Business Transformation Office; 2) explains where the most efficient and secure place to store the Community's business data will be for the foreseeable future; and 3) reviews the process

for hiring highly qualified experts and provides recommendations that streamline the

current bureaucratic process to one that allows the Director of the Business Transformation Office to efficiently build an effective staff. Finally, the report should provide a target date when all National Intelligence Program funds will achieve a sustainable unqualified audit opinion.

INTELLIGENCE COMMUNITY EDUCATION AND TRAINING STRATEGIC DESIGN

The lack of a strategic plan for the Intelligence Community training programs and professional education curriculum is concerning. The current patchwork of courses, language training efforts and schools is the result of multiple programs and initiatives instead of a coherent strategy. The Director of National Intelligence needs to benchmark successful programs such as the Department of Defense's National Defense University, and develop an appropriate educational and professional development strategy for the Community to create an innovative and competitive 21st century professional intelligence workforce. The Director of National Intelligence is encouraged to take steps to establish the Intelligence Community's capstone school in a manner that takes best advantage of opportunities for learning synergies and a transformative learning environment with other national security students. Further, no later than March 1, 2010, the Director of National Intelligence is directed to submit a report to the intelligence oversight committees on the feasibility of evolving the National Defense Intelligence College to a fee-for-service program.

TITLE VIII—GENERAL PROVISIONS

The recommendation incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed follow:

The recommendation modifies a general provision proposed by the House specifying that adjustments to programs, projects, and activities included in the "Explanation of Project Level Adjustments" that are increases above the budget are incorporated into law. Transfers within an appropriation account, among programs, projects and activities do not require general transfer authority as stipulated in Section 8005 of the accompanying Act. However, such transfers are subject to normal prior approval reprogramming procedures if such transfers exceed thresholds described elsewhere in this statement. Transfers between appropriation accounts are subject to the provisions of Section 8005 of the accompanying Act and are also subject to prior congressional approval. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that provides for upgrades to military ranges in Alaska. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that provides for limitations on the use and transfer authority of working capital fund cash balances. The House bill contained a similar provision.

The recommendation retains a provision proposed by the House that provides limitations and conditions on the use of funds made available in this Act to initiate multi-year contracts. The Senate bill contained a similar provision.

The recommendation retains a provision proposed by the House that provides for the Department of Defense to purchase anchor and mooring chains manufactured only in the United States. The Senate bill included a similar provision.

The recommendation modifies a provision proposed by both the House and Senate that prohibits funds made available to the Department of Defense from being used to demilitarize or dispose of surplus firearms.

The recommendation modifies a provision proposed by the House and Senate that restricts funds from being used to perform cost studies under OMB Circular A-76.

The recommendation modifies a provision proposed by both the House and Senate which provided funding from various appropriations for the Civil Air Patrol Corporation.

The recommendation modifies a provision proposed by both the House and Senate that provides for the number of staff years of technical effort that may be funded for defense Federally Funded Research and Development Centers (FFRDC).

The recommendation retains a provision proposed by the Senate which provides for the conveyance, without consideration, of relocatable housing units. The House bill contained a similar provision.

The recommendation modifies a provision proposed by the House which provides grant authorities for the Department of Defense acting through the Office of Economic Adjustment. The Senate contained no similar provision.

(RESCISSIONS)

The recommendation modifies a provision proposed by both the House and the Senate recommending rescissions. The rescissions agreed to are:

2008 Appropriations:

Procurement, Defense-Wide:

ASDS \$2,000,000

2009 Appropriations:

Procurement of Weapons and Tracked Combat Vehicles, Army:

Future Combat Systems Advance Procurement 26,087,000

Joint Assault Bridge ... 15,000,000

Other Procurement,

Army:

Night Vision Devices ... 131,900,000

Sequoyah Foreign Language Translation System 6,339,000

RDT&E for Aging Aircraft 3,200,000

Research, Development, Test and Evaluation, Defense-Wide:

HBCU 34,457,000

DARPA 100,000,000

Kinetic Energy Interceptor 20,000,000

The recommendation retains a provision proposed by the House that provides for the Department of Defense to dispose of negative unliquidated or unexpended balances for expired or closed accounts. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that clarifies the military status of World War II Alaska Territorial Guardsmen. The House bill contained no similar provision.

The recommendation retains a provision proposed by both the House and the Senate that prohibits the use of funds made available in this Act from being used to approve or license the sale of the F-22 fighter aircraft. Additionally, the recommendation retains language proposed by the Senate that permits the Department of Defense to conduct studies and design activities to develop a future export version of the aircraft that protects classified and sensitive information. Assuming that there will be an export version of the F-22A, nothing in this provision shall restrict the Department of Defense from sharing information regarding the future export version of the F-22 pursuant to an inquiry from a foreign government that is intended to inform that government's decision regarding whether to pursue purchase of a future export version of the F-22.

The recommendation modifies a provision proposed by the House which provides \$3,750,000 only for the construction and furnishing of additional Fisher Houses. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and Senate which provides funding and transfer authority for the Arrow Missile Defense Program.

The recommendation retains a provision proposed by the Senate that provides for the transfer of funds to properly complete prior year shipbuilding programs. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that none of the funds available to the Department of Defense may be obligated to modify command and control relationships to give Fleet Forces Command administrative and operational control of U.S. Navy forces assigned to the Pacific Fleet. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides for the noncompetitive appointments of certain medical occupational specialties, as prescribed by section 7403(g) of Title 38, United

States Code. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate which makes available funds for public schools with unusually high concentrations of special needs military dependents enrolled. The House bill contained no similar provision.

The recommendation retains a provision proposed by the House which provides authority for the Secretary of the Army to make a grant only to the Center for Military Recruitment, Assessment and Veterans Employment. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that permits Operation and Maintenance, Navy funds to be used to repair, maintain and operate flood control systems adjacent to the Pacific Missile Range Facility. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and the Senate providing funds for specific grants.

The recommendation retains a provision proposed by the Senate relating to the prohibition on transfer of program authorities relating to current tactical unmanned aerial vehicles (TUAV) from the Army. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides authorities to the Joint Interagency Training and Education Center, for homeland defense/security and traditional warfighting training. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that makes funds available in "Operation and Maintenance, Navy" for the Asia Pacific Regional Initiative Program. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that reduces funding by specified amounts due to updated economic assumptions. The House bill contained no similar provision.

The recommendation retains a provision proposed by the House that provides for the creation of a major force program category for space for the Future Year Defense Program of the Department of Defense. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the House that established requirements for Director National Intelligence budget exhibits. The Senate bill contained a similar provision.

The recommendation does not retain a provision proposed by the Senate that prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. The House contained the same provision in Title IX. The issue is addressed in Title IX.

The recommendation modifies a provision proposed by the House that prohibits award fees to any defense contractor contrary to the provisions of section 814 of the National Defense Authorization Act, Fiscal Year 2007 (Public Law 109-364). The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the House which directs the Secretary of Defense to maintain on the Department of Defense website a link to Office of the Inspector General of the Department of Defense. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the Senate that provides for a reduction of excess cash balances in the Department of Defense Working Capital Funds. The House bill contained no similar provision.

The recommendation modifies a provision proposed by the House which provides for the continuation of stop loss special pay. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House which provides for the use of funds for purchase of armored vehicles for force protection purposes. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and the Senate which authorizes the transfer of funds made available in title II to the Services' central fund established for Fisher Houses and Suites pursuant to section 2493(d) 10 U.S.C.

The recommendation modifies a provision proposed by the House that authorizes the transfer of funds from the Intelligence Community Management Account for the Program Manager for the Information Sharing Environment to other departments and agencies, for certain purposes. The Senate bill contained a similar provision.

The recommendation modifies a provision proposed by the Senate regarding the availability of operation and maintenance funding to make remittances to the Acquisition Workforce Development Fund. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that requires reports on certain elements of the ballistic missile defense system. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the Senate that not less than \$15,000,000 be made available for high priority National Guard counter-drug programs. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that provides an apology to the Native Peoples of the United States. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that requires a report on the use of live primates in training relating to chemical and biological agents. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that expresses the sense of the Senate on Joint STARS re-engining. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the Senate that requires public disclosure of certain reports. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that requires a report on Federal contracting fraud. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that makes funds available for Gulf War Illness Research. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the Senate that expresses the sense of Congress and requires a report on the Nevada Test Site. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that makes funds available from the Office of the Secretary of Defense for declassification of the 2001 nuclear posture review. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that makes funds available from Operation and Maintenance, Defense-Wide for a Military and Overseas Voter Empowerment Act. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that restricts funding to dispose of claims filed regarding water contamination. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that work under Logistics Civil Augmentation Program complies with standards. This issue is addressed in Title II of this statement.

The recommendation modifies a provision proposed by the Senate that prohibits any funds to be used for any Federal contract with specified entities if such entities require their employees to sign mandatory arbitration clauses. The House bill contained no similar provision.

The recommendation does not retain a provision proposed by the Senate that limits the early retirement of tactical aircraft. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that restores funding for the two-stage ground-based interceptor program. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that makes funds available for the evaluations and analyses of certain laser systems. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House that places restrictions on reprogramming funds provided for the National Intelligence Program. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation modifies a provision proposed by the House that prohibits the award to a contractor or conversion to performance by a contractor of any functions performed by Federal employees pursuant to a study conducted under OMB circular A-76 as of the date of enactment of this Act. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House authorizing the Secretary of Defense to transfer to the appropriation "Foreign Currency Fluctuations, Defense" unobligated funds appropriated for Operation and Maintenance and Military Personnel. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that reduces amounts appropriated in title II of this Act to reflect excess cash balances in Department of Defense Working Capital Funds. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the House that prohibits the use of National Intelligence Program funds appropriated in this Act for certain purposes. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the House that appropriates funds to the "Tanker Replacement Transfer Fund" and authorizes their transfer under certain circumstances for specified purposes.

The recommendation does not retain a provision proposed by the House that provides benefits to any member or former member of the Armed Forces who would have qualified for a day of administrative absence under the Post-Deployment/Mobilization Respite Absence program. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the House that provides resettlement support for certain refugees. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by both the House and Senate that requires congressional earmarks, when awarded to a for-profit entity, to be awarded under full and open competition.

The recommendation does not retain a provision proposed by the House that reduces amounts appropriated in title II of this Act. The Senate bill contained no similar provision. The issue is addressed in Title IX.

The recommendation does not retain a provision proposed by the House that sets certain criteria for the appointment of members of integration panels overseeing Congressionally Directed Medical Research programs related to breast cancer. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that prohibits the use of funds to eliminate any personnel positions from the 194th Regional Support Wing of the Air National Guard as of the date of enactment of this Act. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House regarding the release and transfer of detainees from Naval Station Guantanamo Bay, Cuba. The Senate bill contained a similar provision in Title IX. The issue is addressed in Title IX.

The recommendation does not retain a provision proposed by the House that prohibits the use of funds for advance procurement of the F-22 and provides that funds made available in title III under the heading "Aircraft Procurement, Air Force" may be available for other specified purposes. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House which reduces funds for the Defense Health Program in operation and maintenance and increases funds in research, development, test and evaluation. The Senate bill contained no similar provision.

The recommendation modifies a provision proposed by the House that prohibits the awarding to a contractor, or convert to performance by a contractor, any function at the United States Military Academy at West Point. The Senate bill contained no similar provision.

The recommendation does not retain a provision proposed by the House that reduces funds in Operation and Maintenance, Air Force and increases funds in Chemical Agents and Munitions Destruction, Defense. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the House that prohibits the privatization of government-owned ammunition production assets. The Senate bill

contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate that requires the Secretary of the Army to certify any transfers to private ammunition manufacturers. The House bill contained no similar provision. The issue is addressed elsewhere in the statement.

The recommendation retains a provision proposed by the Senate that prohibits funding of the Association of Community Organizations for Reform Now. The House bill contained no similar provision. The Senate bill addressed this issue in Title IX.

TITLE IX—OVERSEAS CONTINGENCY OPERATIONS

REPORTING REQUIREMENTS

The Secretary of Defense is directed to provide a report to the congressional defense committees within 30 days of the enactment of this Act on the allocation of the funds within the accounts listed in this title. The Secretary shall submit updated reports 30 days after the end of each fiscal quarter until funds listed in this title are no longer available for obligation. This report shall include: a detailed accounting of obligations and expenditures of appropriations provided in this title by program and sub-activity group for the continuation of military operations in Iraq and Afghanistan; and a listing of equipment procured using funds provided in this title.

Additionally, the Secretary of Defense is directed to continue to report incremental contingency operations costs for Operation Iraqi Freedom and Operation Enduring Freedom on a monthly basis in the Cost of War Execution report as required by Department of Defense Financial Management Regulation, chapter 23, volume 12. Further, the Secretary of Defense is directed to continue to provide the Cost of War reports to the congressional defense committees that include the following information by appropriation: funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations and cumulative fiscal year disbursements.

In order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The Secretary of Defense is directed to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

PROGRESS REPORT ON IRAQ

Section 316 of Public Law 111-32, Supplemental Appropriations Act, 2009 directed the Secretary of Defense to submit to Congress on a quarterly basis a report on "Iraq Troop Drawdown Status, Goals and Timetable." Section 316 requires this report to be prepared and submitted every 90 days through September 30, 2010. The recommendation does not repeat section 9010 from the House-passed Department of Defense Appropriations Act, 2010 which repeated this requirement. It is expected that the Department will continue to submit the report as required through September 30, 2010.

BUDGET AMENDMENT

The recommendation fully funds an increase in the Army's end strength, as requested by the Department of Defense in a formal budget amendment submitted on August 13, 2009, after the House had already completed consideration of the Department

of Defense Appropriations Act, 2010. The budget amendment, which provides \$1,012,600,000 to recruit, retain and support an additional 15,000 soldiers in fiscal year 2010, has been accepted. It is understood that these additional soldiers, and the 7,000 additional soldiers the Department plans to add in fiscal year 2011, are needed temporarily to allow existing Brigade Combat Teams to deploy at full strength. There is a concern about the strain on the Army imposed by the on-going high operations tempo in Iraq and the increased demand in Afghanistan. There is also concern about the Department's decision to fund this temporary growth in end-strength by reducing funding for much-needed trucks and tactical vehicles. While it is believed that combat units in the theater of operations are being provided with the required quantity of high-quality tactical vehicles, concern remains that the Department is not requesting adequate funding to reset and replenish damaged and worn-out vehicles or addressing vehicle shortages in the National Guard and the reserve forces. Accordingly, the recommendation provides funding of \$1,063,038,000 for High Mobility Multipurpose Wheeled Vehicles (HMMWV), and \$863,357,000 for the Family of Medium Tactical Vehicles. The recommendation provides much needed trucks for the active Army, the Army National Guard and the Army Reserve.

MI-17 HELICOPTERS

There is concern with the Department's growing reliance on the Mi-17 helicopter to meet critical tactical lift requirements for Afghanistan, Iraq and Pakistan security forces. This platform has exceptionally-high maintenance requirements. Parts and service are not readily available in the theater of operations. Furthermore, the Mi-17 is in high demand by U.S. forces operating in and training for Afghanistan, but there are only two foreign-owned plants producing new aircraft at this time. Therefore, the Secretary of Defense is directed to report to the congressional defense committees not later than sixty days after the enactment of this Act on the Department of Defense's current and anticipated demand for Mi-17s for U.S., Afghanistan, Iraq and Pakistan security forces, the anticipated availability or shortage of additional airframes, the sustainability of the airframes currently slated for use by Afghanistan and Iraq security forces, an analysis of alternative airframes, and the future costs and funding sources available for procuring Mi-17s.

MEDICAL TREATMENT FOR CONTRACTORS

There is concern that American workers are not getting reasonable medical treatment for injuries they have suffered while working in a combat zone. Accordingly, the Department is urged to encourage Federal contractors to provide access to the most effective treatment available for injuries suffered while working outside the United States in support of military operations, including Operation Iraqi Freedom and Operation Enduring Freedom; and encourage Federal contractors performing a Federal contract outside the United States to ensure that American workers performing the contract receive the same benefits for injuries suffered outside the United States that they would receive if they were working within the United States.

MILITARY PERSONNEL

For Military Personnel, funds are to be available for fiscal year 2010, as follows:

	Budget request	House	Senate	Recommendation
Military Personnel, Army

OPERATION AND MAINTENANCE

For Operation and Maintenance, funds are
to be available for fiscal year 2010, as follows:

O-1		Budget Request	House	Senate	Recommendation
OPERATION & MAINTENANCE, ARMY					
135	ADDITIONAL ACTIVITIES	36,526,999	29,064,719	36,388,405	36,139,639
	Transfer to OCOTF		-7,266,180		
	Reduce LOGCAP Growth			-400,000	-400,000
	Army Asymmetric Warfare Office			-17,000	-17,000
	Transfer from Base: CASEVAC/Logistics Rotary Wing				
	Contract for OEF-Philippines			18,500	
	Transfer from Base: Family Readiness Support Assistants			59,891	
	Transfer from Base: Child Care/Youth Development Programs			69,320	
	Transfer from Base: Installation Support			10,088	
	Transfer from Base: Warfighter and Family Services			78,514	
	Transfer from Base: Reception Stations			2,076	
	Transfer from Base: Wounded Warrior Program			10,377	
	Transfer from JIEDDO: OPS - US Army Home Station C-IED Lanes II			8,100	8,100
	Transfer from JIEDDO: JCOE - C-IED Live-Fire Environment			500	500
	Transfer from JIEDDO: JCOE - Biometrics Training Integration			1,000	1,000
	Transfer from JIEDDO: JCOE - First Army CTC Leveling			3,100	3,100
	Transfer from JIEDDO: JCOE - JRTC Simulated Radio Infrastructure Expansion			260	260
	Transfer from JIEDDO: OPS - Joint Total Entity Tracking for Instrumented Battlefield			770	770
	Transfer from JIEDDO: JCOE - USA Company Intel Support Teams (ColST)			2,250	2,250
	Transfer from JIEDDO: OPS - Biometrics MTT			1,870	1,870
	Transfer from JIEDDO: OPS - Battlefield Forensics MTT Course			6,790	6,790
	Transfer from JIEDDO: OPS - JTTP Modeling and Simulation			5,000	5,000
136	COMMANDERS EMERGENCY RESPONSE PROGRAM	1,500,000	1,300,000	1,200,000	1,200,000
	Unjustified request		-200,000		-300,000
	Transfer to MRAP Fund for Urgent Unfunded Requirement			-300,000	
137	RESET	7,867,551	6,254,041	7,867,551	7,867,551
	Transfer to OCOTF		-1,573,510		
411	SECURITY PROGRAMS	1,426,309	1,140,547	1,426,309	1,426,309
	Transfer to OCOTF		-285,262		
	Classified Adjustments		-500		
421	SERVICEWIDE TRANSPORTATION	5,045,902	4,036,722	5,045,902	5,045,902
	Transfer to OCOTF		-1,009,180		
	TRANSFER TO OCOTF				-3,628,247
	UNJUSTIFIED REQUEST FOR CONTRACTED SUPPORT IN THEATER				-230,000
TOTAL, OPERATION & MAINTENANCE, ARMY		52,366,761	41,836,029	51,928,167	47,821,154

COMMANDER'S EMERGENCY RESPONSE
PROGRAM

The recommendation provides \$1,200,000,000 for the Commander's Emergency Response Program (CERP) in fiscal year 2010, \$300,000,000 below the request. Included in this amount is \$1,000,000,000 for CERP in Afghanistan and \$200,000,000 for CERP in Iraq. The amount provided for CERP in Afghanistan effectively doubles what has been committed in Afghanistan for fiscal year 2009. Additionally, with the redeployment from Iraq and withdrawal from the major cities, CERP requirements in that theater of operations will decrease significantly in fiscal year 2010. Of the funds provided for CERP, \$500,000,000 shall be withheld pending completion and submission of the report described below.

The Department of Defense needs to greatly improve its management and oversight of CERP and its justifications of CERP budget requests. Additionally, there is concern that the Department's plan to significantly increase the use of CERP in Afghanistan does not yet include an increase in the number of personnel qualified to conduct proper oversight and management of those funds. Therefore, the Secretary of Defense is directed to conduct a thorough review of CERP and sub-

mit a report to the congressional defense committees not later than 180 days after enactment of this Act. This report shall include: the process by which CERP budget requests are generated and justified; existing management and oversight of CERP funds and contracts by the Department of the Army, the Undersecretary of Defense, Comptroller, and U.S. Central Command; the number of personnel required and the number of personnel currently deployed to Afghanistan with Joint Contracting Command and U.S. Forces—Afghanistan specifically in support of CERP; a separate assessment for Iraq and Afghanistan of the goals, purpose and expected requirement for CERP funds in the coming year; the coordination process of projects with other U.S. government agencies and Non-Governmental Organizations carrying out projects in Iraq and Afghanistan; the requirements for the sustainment of projects carried out under CERP; the procedures for ensuring that projects carried out under CERP are coordinated with the host governments and local community leaders; and the process and systems for tracking projects carried out under CERP. Additionally, the Secretary of Defense is directed, as part of the program review, to report on the advisability of establishing a program office

for CERP to be responsible for the development of budgets, strategic plans, program controls, requirements for program coordination, and standards for training.

The Secretary of the Army is directed to submit monthly commitment, obligation and expenditure data for CERP in Iraq and Afghanistan to the congressional defense committees not later than 30 days after each month. Finally, the Secretary of Defense is directed to submit the required quarterly report in a searchable database form in addition to the paper report.

CIVILIAN-MILITARY TRAINING

The Secretary of Defense is directed, in conjunction with the Secretary of State and the Administrator of the United States Agency for International Development, to continue to support the requirements for monthly integrated civilian-military training for civilians deploying to Afghanistan at Camp Atterbury, Indiana, including through the allocation of military and civilian personnel, trainers, and other resources for that purpose.

PROCUREMENT 963 408

For Procurement, funds are to be available for fiscal year 2010, as follows:

P-1	Budget Request	House	Senate	Recommendation

UP ARMORED HMMWVs

The fiscal year 2010 budget request for Overseas Contingency Operations includes funding for the procurement of up-armored HMMWVs. At the request of the Marine Corps, Congress appropriated \$177,200,000 in fiscal year 2009 supplemental funding for the procurement of Frag Kit 4 underbody armor protection for M114 vehicles in theater. However, it is understood that the Marine Corps has rescinded that requirement due to technical difficulties and will not procure any Frag Kit 4 kits. Therefore, the Commandant of the Marine Corps is directed to apply the funds previously appropriated for the procurement of Frag Kit 4 kits for the procurement of up-armored HMMWVs for contingency operations instead.

FAMILY OF HEAVY TACTICAL VEHICLES

The recommendation includes \$803,230,000 for the Family of Heavy Tactical Vehicles. The funding provides for the purchase of a variety of heavy trucks, tractors and trailers including Heavy Expanded Mobility Tactical Trucks; Heavy Equipment Transporter Tractors; Heavy Equipment Transporter Trailers; and other heavy transport systems to support line haul, local haul, unit resupply and other missions. These trucks and trailers provide critical support to units in the field. The Army is expected to promptly procure these heavy trucks and trailers as described in budget justification materials.

COMMON REMOTELY OPERATED WEAPONS STATION

The recommendation provides \$495,000,000 for Common Remotely Operated Weapons Stations (CROWS), which includes the \$235,000,000 in the budget request, a transfer of \$360,000,000 from Other Procurement, Army, and a program reduction of \$100,000,000. Although there is strong support for the CROWS program, this reduction will avoid funding ahead of need. It is understood

that funding for CROWS systems is available in the funding lines for other weapons systems and tactical vehicles. Should additional CROWS funding be required in fiscal year 2010, the Army should reprogram internally to meet the demand. The Army is encouraged to make the CROWS System a Program of Record.

MINE RESISTANT AMBUSH PROTECTED (MRAP) AND MINE RESISTANT AMBUSH PROTECTED ALL TERRAIN VEHICLES (M-ATVs)

The recommendation provides \$6,281,000,000, an increase of \$825,000,000 over the request to address additional M-ATV vehicle requirements, as identified by the Department. The Department shall continue to adhere to the execution and reporting requirements contained in section 8122 of Public Law 110-116.

TRAINING DEVICES FOR MINE RESISTANT AMBUSH PROTECTED (MRAP) AND MINE RESISTANT AMBUSH PROTECTED ALL TERRAIN VEHICLES (M-ATVs)

In response to the threat of Improvised Explosive Devices (IEDs) to Forces in theater, the Department of Defense has procured more than 16,000 MRAPs, and recently validated a requirement of more than 6,000 lightweight MRAPs, M-ATVs, for operations in Afghanistan.

Due to the weight of the heavy armor and high center of gravity, the driving characteristics of both the MRAP and M-ATV are considerably different from other vehicles that are in use by the military. Aggressive safety training helps avoid casualties due to roll-overs and other types of accidents. Emergency egress training, including the emergency operation of the heavy armored doors is essential. It is understood that MRAP vehicles and virtual trainers have been provided to home station training facilities for active component, National Guard and Reserve units to prepare service members to

operate and maintain these vehicles, which they will receive upon their arrival in the combat theaters. The military services are encouraged to take maximum advantage of these training devices to prepare servicemembers for operations in and around MRAPs and M-ATVs. The Department is expected to use funds available in this Act to procure additional training devices, including virtual vehicle trainers if required.

NATIONAL GUARD AND RESERVE EQUIPMENT

The recommendation provides \$950,000,000 for the National Guard and Reserve Equipment Account. Of that amount, \$575,000,000 is for the Army National Guard; \$135,000,000 for the Air National Guard; \$85,000,000 for the U.S. Army Reserve; \$55,000,000 for the Navy Reserve; \$45,000,000 for the Marine Corps Reserve; and \$55,000,000 for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year.

This funding will allow the Guard and reserve components to procure high priority equipment that will complement the combined State and Federal missions.

MODERNIZATION PRIORITIES

Each National Guard and reserve component Chief shall submit to the congressional defense committees a detailed assessment of that component's modernization priorities not later than 30 days after enactment of this Act. The National Guard and reserve component Chiefs should exercise control of the funds provided in this account, to better ensure that the most urgent National Guard and reserve equipment modernization priorities are addressed with the funding provided in this appropriation.

RESEARCH, DEVELOPMENT, TEST AND EVALUATION

For Research, Development, Test and Evaluation, funds are to be available for fiscal year 2010, as follows:

SABER FOCUS

The Saber Focus demonstration program is envisioned to provide a much needed capability to the warfighter. The Congress has provided over \$200,000,000 for this effort, funded entirely outside the normal budg-

eting process. The Department has been given numerous opportunities to fund this potentially game-changing program in its base budget but has chosen not to do so, largely due to schedule slips with the actual demonstration. The demonstration is currently scheduled in fiscal year 2010 and will

utilize funding carried over from fiscal year 2009. Therefore, the recommendation provides \$16,900,000 for the Saber Focus program, a reduction of \$35,000,000, which should be sufficient to finally transition the program to a Program of Record.

REVOLVING AND MANAGEMENT FUNDS

DEFENSE WORKING CAPITAL FUNDS

For the Defense Working Capital Fund, \$412, 215,000 is provided for fiscal year 2010.

		Budget Request	House	Senate	Recommendation

JOINT IMPROVISED EXPLOSIVE DEVICE DEFEAT
FUND

(INCLUDING TRANSFER OF FUNDS)

For the Joint Improvised Explosive Device Defeat Fund, funds are to be available for fiscal year 2010, as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS
[In thousands of dollars]

	Budget Request	House	Senate	Recommendation
Attack the Network	812,000	730,000	1,015,100	865,100
Transfer from Title VI			203,100	53,100
Defeat the Device	536,000	600,000	735,100	735,100
Transfer from Title VI			199,100	199,100
Train the Force	187,000	160,000	161,810	161,810
Transfer from Title VI			41,100	41,100
Transfer to Service OCO accounts for proper execution			-66,290	-66,290
Staff and Infrastructure	0	0	121,550	0
Transfer from Title VI			121,550	
Total, Joint Improvised Explosive Device Defeat Fund	1,535,000	1,490,000	2,033,560	1,762,010

The Director, Joint Improvised Explosive Device Defeat Organization (JIEDDO) is directed to continue to submit monthly commitment, obligation, and expenditure data by line of operation and by year of appropriation to the congressional defense committees. Further, the Director, JIEDDO is directed to submit monthly reports of obligation data on a project-by-project basis by line of operation to the congressional defense committees. The Director, JIEDDO is also directed to follow standard reprogramming procedures when transferring a cumulative amount of \$20,000,000 or more between lines of operation.

OFFICE OF THE INSPECTOR GENERAL

For the Office of the Inspector General, \$8,876,000 is provided for fiscal year 2010.

TITLE IX—GENERAL PROVISIONS

The recommendation incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed follow:

The recommendation retains a provision proposed by the Senate that provides for special transfer authority for this title. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides authority for the supervisory and administrative costs associated with construction projects in Afghanistan funded with operation and maintenance funds, that may be obligated when the contract is awarded. The House bill contained a similar provision.

The recommendation retains a provision proposed by the Senate that provides for the procurement of passenger motor vehicles for the physical security of personnel. The House bill contained a similar provision.

The recommendation modifies a provision proposed by the House and the Senate which

provides funding under “Operation and Maintenance, Army” to fund the Commander’s Emergency Response Program (CERP) and requires quarterly reports to the congressional defense committees.

The recommendation does not retain a provision proposed by the House that provides for a transfer from the Defense Cooperation Account. The Senate bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that designates funds in this title for overseas deployments and other activities. The House bill contained a similar provision.

The recommendation retains a provision proposed by the House that prohibits the use of funds made available in this Act to contravene laws enacted or regulations promulgated to implement the United Nations Convention Against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment. The Senate bill contained the same provision in Title VIII.

The recommendation does not retain a provision proposed by the House that requires a report on the timetable for Iraq troop draw down. The Senate bill contained no similar provision. The issue is addressed elsewhere in this statement.

The recommendation retains a provision proposed by the Senate that provides reporting requirements and reprogramming thresholds for Iraq and Afghanistan Security Forces Funds and Pakistan Counterinsurgency Fund. The House bill contained no similar provision.

The recommendation includes a provision that restricts the transfer or release into the United States of any individual who was detained at Naval Station, Guantanamo Bay, Cuba.

The recommendation does not retain a provision proposed by the Senate that provides

funding for fuel requirements. The House bill contained no similar provision.

The recommendation retains a provision proposed by the Senate that prohibits funding of the Association Community Organizations for Reform Now. The House bill contained no similar provision. The issue is addressed in Title VIII.

The recommendation does not retain a provision proposed by the Senate that provides for the support of certain civilian-military training for citizens deploying to Afghanistan. The House bill contained no similar provision. This issue is addressed elsewhere in the statement.

The recommendation does not retain a provision proposed by the Senate to hold open and closed hearings on strategy and resources of the United States with respect to Afghanistan and Pakistan. The House bill contained no similar provision.

The recommendation modifies a provision proposed by the Senate that makes available funding for outreach and reintegration services under the Yellow Ribbon Reintegration Program. The House bill contained no similar provision.

TITLE X—GENERAL PROVISIONS

The recommendation incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed follow:

The recommendation does not retain a provision proposed by the House concerning hyperbaric chambers for treatment of traumatic brain injury. The Senate bill contained no similar provision. The issue is addressed elsewhere in the statement.

FOOTNOTES:

- 1/ Included in Budget under Procurement title.
2/ Overseas Deployments and Other Activities (ODDA)
pursuant to FY 2010 concurrent budget resolution.
3/ Contributions to Department of Defense Retiree
Health Care Fund (Sec. 726, P.L. 108-375)(CBO est)

DIVISION B—OTHER MATTERS

Section 1001 provides such sums as are necessary for the Supplemental Nutrition Assistance Program (SNAP), to be held in reserve for use in such amounts and at such times as may be necessary to carry out the program. The fiscal year 2010 appropriation for SNAP was based on the latest official projection available to Congress at that time—the Office of Management and Budget's Mid-Session Review—and can support a large increase in participation over fiscal year 2009. However, increases in participation levels in the latter part of fiscal year 2009 were very high. If those rates of increase continue, the current appropriation level would not be sufficient to meet program participation.

Section 1002 provides \$400,000,000 in additional funding for state administrative expenses under the Supplemental Nutrition Assistance Program, to assist states in dealing with high program participation levels, designated as an emergency requirement.

Section 1003 extends the authorization for compulsory copyright license used by satellite television providers to February 28, 2010. Funding is fully offset.

Section 1004 provides extension to certain provisions of the USA PATRIOT Improvement and Reauthorization Act of 2005 and the Intelligence Reform and Terrorism Prevention Act of 2004 until February 28, 2010.

Section 1005 extends the National Flood Insurance Program through February 28, 2010.

Section 1006 provides \$125,000,000 to the Small Business Administration (SBA), to continue two temporary enhancements to SBA loan guarantee programs made by the American Recovery and Reinvestment Act of

2009 and which are nearly out of funding. One of the enhancements being extended allows the SBA to guarantee 90 percent of certain small business loans, instead of the 75 percent allowed under permanent law (or 85 percent for small loans), thereby encouraging banks to make these loans by reducing the amount they have at risk and the reserves they must hold. The other reduces fees paid by lenders and borrowers. The funding provided in the bill is estimated to be sufficient to continue both items through February 28, 2010. The bill also extends the expiration date of the authorization for the 90 percent loan guarantees from February 17 to February 28, 2010. Funding is fully offset.

Section 1007 will release upon enactment to Swain County, North Carolina \$4,000,000 of previously appropriated funds, with the remaining \$8,800,000 to be made available 120 days after the County, the state of North Carolina, the Interior Department and the Tennessee Valley Authority reach a settlement.

Section 1008 extends the authorization for the highway, transit, highway safety and motor carrier safety programs of the Department of Transportation until February 28, 2010.

Section 1009 provides an extension of expiring UI benefit provisions that were established or continued in the American Recovery and Reinvestment Act, including the Emergency Unemployment Compensation program, 100 percent Federal funding for the Extended Benefits program, and the extra \$25 weekly UI benefit through February 28, 2010.

Section 1010 extends the 65 percent COBRA health insurance subsidy from nine to 15 months for individuals who have lost their

jobs. The job lost eligibility date is extended in the provision through February 28, 2010.

Section 1011 delays a scheduled 21.2 percent reduction in Medicare's 2010 physician payments through February 28, 2010.

Section 1012 includes a provision to freeze the Department of Health and Human Services poverty guidelines at 2009 levels in order to prevent a reduction in eligibility for certain means-tested programs, including Medicaid, Supplemental Nutrition Assistance Program (SNAP), and child nutrition, through March 1, 2010.

Section 1013 rescinds funds from the digital television conversion coupon program.

Section 1014 provides that explanatory statement submitted by the Chairman of the Defense Subcommittee shall have the same effect as a joint explanatory statement.

DISCLOSURE OF CONGRESSIONAL EARMARKS AND CONGRESSIONALLY DIRECTED SPENDING ITEMS

Following is a list of congressional earmarks and congressionally directed spending items (as defined in clause 9 of rule XXI of the Rules of the House of Representatives and rule XLIV of the Standing Rules of the Senate, respectively) included in the amended bill or the explanatory statement, along with the name of each Senator, House Member, Delegate, or Resident Commissioner who submitted a request to the Committee of jurisdiction for each item so identified. Neither the amended bill nor the explanatory statement contains any limited tax benefits or limited tariff benefits as defined in the applicable House or Senate rules.

Though clause 9(b) of rule XXI of the Rules of the House of Representatives technically only applies to conference reports, the following is a list of congressional earmarks,

limited tax benefits, or limited tariff benefits that were neither (1) included in the House bill or Senate amendment on H.R. 3326, nor (2) in a report of a committee of ei-

ther House on this bill or on a companion measure.

				House	Senate
National Park Service	Construction	Swain County, NC		Shuler	

I reserve the balance of my time.

Mr. YOUNG of Florida. I yield myself such time as I may consume.

Madam Speaker, I want to congratulate all of the members of the subcommittee for having worked so hard all year long to get this product to where we finally have final passage on the issue.

The House passed this bill 4½ months ago. The Senate passed it in September. It has been a bit of a painful process along the way because a lot of suggestions and a lot of ideas were raised of which we could agree to some and could not agree to others.

Anyway, we have produced what I think is a good package. I may not be as enthusiastic about this one as I have been for many others in the past, but it is a good bill. It does provide what our soldiers, what our sailors, what our marines, and what our airmen need in order to do their jobs and to protect themselves while they're at it.

I would have said "Coast Guard," but we don't have the jurisdiction in this

subcommittee for the Coast Guard. Yet we recognize the importance of the United States Coast Guard as well.

The bill is not too much different from the House bill that we passed 4½ months ago. There has had to be some negotiation, obviously, but I think we provided what our soldiers need and what our country needs. There is a 3.4 percent pay raise for the members of our military. It wasn't quite that big when it came to us, but we increased it to give a little more of a substantial pay raise to the members of our military.

There is one point that I was questioned about which I need to make clear: There is no money in this bill to move detainees from Guantanamo or to buy or build new facilities in the United States for detaining Guantanamo detainees. So there is no money in this bill for that purpose.

All in all, it's a good bill and one that I can support enthusiastically. As I think most of the Members know, Madam Speaker, a number of other

temporary issues have been added to this bill at the leadership level, and we do not object to that. We think that that is perfectly acceptable. In fact, I think it's a good idea in some of the cases.

I yield to the ranking member on the full committee, who chaired this subcommittee for quite a few years, the gentleman from California (Mr. LEWIS), who has been a major player in our Defense appropriations for years.

Mr. LEWIS of California. I very much appreciate my colleague for yielding.

Madam Speaker, my friend, Mr. MURTHA, has spent some time at Bethesda, and I would like to recognize the contributions that he has made to this bill and to the work he has done with Mr. YOUNG.

Madam Speaker, it has taken months to get to this point but I'm pleased to see that we are finally considering a Defense Appropriations bill to provide funds for the men and women of our armed forces and the national security needs of our country.

We should have been on the House floor months ago—months ago—passing a clean Defense funding bill. Like many Members, I questioned the priorities of the Democrat leadership in moving this year's funding bills, particularly the decision to send the President the Legislative Branch conference report as our first completed bill. It sent an unmistakable signal that the House majority was putting the needs of Congress first and placing the needs of our troops at the end of the line.

I know there has been great temptation to use the Defense bill as the vehicle to carry many unrelated legislative items that could not and would not muster enough support to pass on their own. And while this package before us is far from clean, it's a streamlined version of what was, just a few days ago, shaping up to be the mother of all Christmas tree bills.

It was Chairman OBEY who, on December 18th, 2005 said, and I quote, "The defense bill ought to be about delivering equipment and supporting our troops. There is something especially outrageous and callous about the willingness of the majority party leadership to allow the Defense Department bill in a time of war to be held hostage to totally unrelated legislative items."

But that is precisely what we are doing by including a variety of non-defense related legislative provisions in this package. Some items like COBRA, food stamps, and so-called "poverty guidelines" have been manipulated in a way to suit the Chairman's purposes for redistributing income in America but do not reflect the agreement reached to garner bipartisan support on this bill.

We are also designating as emergency spending an additional \$20 billion worth of program extensions. I'm not arguing that some of these are unworthy but merely pointing out that they should have no place in a defense spending bill. At the very least, we should pay for them honestly rather than continuing to add to our mountain of debt.

More curious to me is the fact that buried within this legislation is an airdropped Member project in the form of bill language authorizing the payment of nearly \$13 million to a county in North Carolina. I can only assume that this project meets all of the necessary requirements for congressional projects. No one seems to know how or why this project was included in this package but it's there in black and white for the world to see.

Also disconcerting is the fact that the underlying defense spending bill fails to include funding needed for additional MRAPS to support the 30,000 troop surge in Afghanistan. My understanding is that the House and Senate majority and minority were in full agreement to funding an additional 4,000 MRAPS—and yet a decision was made at another level—perhaps even at a staff level—to leave this vital funding out of this package. Again, it's a decision like this that causes me to scratch my head and question the priorities of this majority leadership.

At the end of the day, this legislation is far from perfect; I would vote against Division B if given the opportunity. But it is a vast improvement over the massive train wreck that was heading our way earlier this week. I strongly support the underlying defense portion of this package and ask our colleagues to support

our troops who are defending freedom at home and abroad.

Mr. CONYERS. Madam Speaker, I rise in opposition to H.R. 3326, the Fiscal Year 2010 Department of Defense Appropriations Act.

The President's announcement last week came as no surprise to me and many of my colleagues; he has consistently stated throughout the Presidential campaign and during his first year in office that he is committed to shifting military resources from Iraq into Afghanistan. Nonetheless, I am disappointed the President has moved ahead with, what I believe to be, an incorrect course of action.

As we move forward in this process, it is imperative that the House consider all options about how to best succeed in Afghanistan. It is in this spirit today that I want to announce the creation of a new "Peace and Progress in Afghanistan Caucus" that will give Democrats and Republicans a place to organize and advocate for a new strategy that recognizes the need to redeploy our troops, while strengthening our civilian and diplomatic approaches.

The presence of military troops in Afghanistan is having a detrimental effect on our efforts to secure a lasting peace in the region and diffuse the threat of international terrorism. Our military presence only inflames anti-American resentment.

Only by pursuing a wide-ranging policy that focuses on reorienting the United States' commitment to the Afghan government and people by emphasizing indigenous reconciliation and reconstruction strategies, rigorous regional diplomacy, and swift redeployment of the US military, will we ultimately succeed in Afghanistan."

I was extremely heartened that two of the three prongs of the President's new strategy focus on a civilian surge and on diplomacy with Pakistan. It is a shame that the funding in this bill will not support these worthy approaches. The President believes that the United States can transform resentment into hope by working with our humanitarian and local government partners on the ground to give the Afghan people access to education, strong civic institutions, and a sustainable, legitimate source of income.

I believe that a new focus on a civilian surge should also empower local NGOs and initiatives that directly benefit the Afghan people, like the highly successful National Solidarity Project, an Afghan-run community development program.

Similarly, if the Pakistani people understand that we are committed to helping secure their safety and prosperity, they will step up their efforts to combat terrorism within their borders. Additionally, I believe we must expand our thinking beyond Pakistan to include other actors and countries that affect the greater region. One of the least discussed aspects of this conflict is the role India must play in promoting regional peace. For years, the Pakistani military and intelligence services have been hesitant to crack down on Taliban militants operating in the tribal regions because they fear the establishment of an Afghan government that would be susceptible to Indian influence. Such a worst case scenario, in their view, would give one of their traditional regional foes a foothold on both their northern and southern borders.

In order to secure a long-term regional peace, the President must engage India and Pakistan to seek a final political agreement on Kashmir. Only when Pakistan feels secure in the south, will the Pakistani army be able to focus its efforts on defeating the Taliban who dwell along the Afghan border.

I look forward to working with the President to promote and expand these critical approaches to securing victory.

The President has committed to ending the war in a responsible manner. Although we disagree on the means being employed to reach that laudable goal at the moment, I believe that I and other pro-peace, pro-national security Members of Congress can help him can craft a successful policy that will bring our troops home as soon as possible.

In the meantime, I will continue to oppose funding a war that emphasizes a heavy military footprint. No amount of additional troops can bring a war with no military solution to an end.

Mr. BLUMENAUER. Madam Speaker, as we enter the final days of 2009, I'm pleased to join my colleagues in Congress to pass a series of bills that will protect jobs, spur employment, and strengthen the ability of families to make it through economic hardship. Among these measures is H.R. 3326, the "Fiscal Year 2010 Department of Defense Appropriations Act." Although I remain extremely frustrated by large portions of this bill that spend too much on the wrong things, I voted for it to provide resources for our troops, including hundreds of Oregonians stationed abroad, and for Oregon's economy.

The bill includes a number of hard-fought provisions that will make a difference for Oregon's economy. Universities like Portland State, Oregon, and Oregon State, local companies like Precision Castparts and our regional manufacturing initiative, the Manufacturing 21 Coalition, will see needed investment in programs to treat traumatic brain injury and develop a skilled workforce. These are the right investments—targeted and timely. Spending billions of dollars on items that the Pentagon doesn't need and the President didn't want takes resources away from addressing the deficit, or from critical investments like our own people.

This bill is also a vehicle for making sure that millions of people can bridge this economic downturn. This legislation ensures that ordinary Americans do not lose unemployment benefits, that the unemployed have access to health care, that doctors in Oregon and around the country are not subjected to the egregious Medicare reimbursement cuts. These efforts demand support.

I look forward to swift enactment of these much-needed provisions. Grinding the legislative process to a halt only short-changes honest Americans. It is my sincere wish that in the New Year we renew a spirit of cooperation in the Senate and across the aisle.

Mr. BRALEY of Iowa. Madam Speaker, I rise today to express my support for the Defense Appropriations Act for FY10 and am glad that it includes extensions of several laws that are set to expire, such as extending unemployment benefits and COBRA health insurance. I am also pleased that it includes important items such as a delay of the scheduled 21 percent cut in Medicare payments to

doctors and an extension of highway programs.

I am disappointed, however, that several tax extenders that were passed by the House last week as part of the Tax Extenders Act will not be considered before the end of the year, such as the biodiesel tax credit. Although there has been some discussion to pass these extenders retroactively early next year, Congress' failure to extend the current credit before the end of the year could cause harm to the biodiesel facilities in my District. Unlike other tax extenders, the biodiesel tax credit is liquid and a retroactive tax bill is still not as effective as ensuring the tax credit continues uninterrupted. We not only need to get this extended in the short-term, but we need to come up with a longer-term plan to provide more security for investment in biodiesel which is good for the economy, the environment, and energy security.

I am also concerned that Congress has failed to extend the 1.0 Floor on the Work Geographic Practice Cost Index (GPCI) under Medicare Part B, which expires at the end of this year. This is exactly why we need to address these unfair GPCIs once and for all, which only serve to penalize Iowa medical providers who choose to accept Medicare patients. I have called for a permanent extension of the 1.0 Floor, and I have secured language in the Health Care Reform bill to address geographic disparities in Medicare. However, the current floor is still set to expire at the end of this year. I will continue to urge my colleagues to address this problem through a retroactive fix as soon as possible next year, and through a permanent fix of the unfair geographic adjusters under Medicare.

To help Iowa's farmers, it is also essential to extend the five-year depreciation for farming business machinery and equipment, as well as extensions of provisions encouraging farmers to set aside land for conservation. As we continue to work our way out of the harshest economic climate since the Great Depression, these tax credits will play a tremendous role in encouraging job creation and strengthening Iowa's middle class families. We also need to extend the Research and Development tax credit. By renewing this credit, we are taking meaningful steps to encourage companies to hire Iowa's educated and experienced workers for good-paying 21st century jobs that can't be outsourced.

Thanks again, Madam Speaker, for your leadership. We have gotten a lot accomplished this year, but it is critical that we make the tax extenders package a high priority item. I encourage you to work with the Senate to get this passed into law so that we don't lose jobs in the industries that rely on these credits at the same time that we are working so hard to create them.

Mr. VAN HOLLEN. Madam Speaker, I rise in support of the 2010 Department of Defense Appropriations Act.

This measure represents Congress's commitment to the millions of dedicated men and women, in and out of uniform, throughout the Department of Defense, who work to address the national security challenges of the country. This bill also expresses our commitment to their families, whose service to the country is recognized and greatly appreciated.

In total, the act appropriates \$636.3 billion for DoD programs, operations and troop support. This represents a 2 percent increase of current funding levels, and while not including funding for the President's proposed troop increase in Afghanistan, includes \$128.2 billion for military operations in Iraq and Afghanistan.

The bill contains funds to meet the logistical needs of our military including new and updated equipment, combat vehicles and battle gear. The measure also includes funding for military pay raises, military health care benefits and quality of life improvements for the troops and their families.

Since first clearing this chamber in July, there have been important add-ons made to the bill. These add-ons include a number of non-defense provisions—such as an extension of certain emergency unemployment insurance benefits; an extension of a 65 percent premium subsidy for COBRA health insurance, allowing recipients to obtain the subsidized insurance coverage for six additional months; a delay, until February, of a scheduled 21 percent cut in Medicare payments to doctors; funding for nutrition assistance; and \$400 million for state administrative expenses.

Additionally, I am especially pleased that today's DoD Appropriations bill includes an unprecedented fund of \$300 million set aside for the purpose of mitigating BRAC-related transportation and community impacts at the new Walter Reed National Military Medical Center and Fort Belvoir. Congress is committed to building world class facilities for our wounded warriors in the national capital region, and these funds are an integral part of that effort. I want to thank Congressman MORAN, Chairman MURTHA, and Chairman OBEY, as well as Senator MIKULSKI and Senator CARDIN, for their partnership on this initiative. I look forward to working with our Senate colleagues, the Department of Defense, and other stakeholders to make these funds available for their intended purpose at the soonest possible date.

Madam Speaker, as the country prepares to ask even more of our service members, it is our responsibility to do all we can to honor our commitments to them and their families—While we can never fully repay the debt we owe them, we can work to ensure that they have the resources they need to do their jobs abroad and the resources they need to meet their obligations here at home.

I encourage my colleagues join me in support of the bill.

Mr. YOUNG of Alaska. Madam Speaker, I rise to discuss the \$2.4 million that was included at my request in the FY10 Defense Appropriations Bill for Synthetic Liquid Fuels.

Considering the large amounts of potential CO₂ emissions produced by a coal or a natural gas-to-liquids facility, technologies will have to be developed to ascertain the feasibility of sequestering the CO₂.

Recent investigations by the U.S. Department of Energy have shown that between 8 and 12 billion barrels of additional oil can be recovered from the existing Alaska North Slope oil fields with using CO₂ enhanced oil recovery technology. Alaska North Slope oil reservoirs present a potentially large target or "sink" for sequestering the CO₂ generated in a Fairbanks-based coal-to-liquids or a coal/

gas-to-liquids plant, thereby enhancing conventional oil recovery as a by-product. However, very little practical study of CO₂ sequestration has directly addressed the Alaska North Slope area. Moreover, in the present case, effective CO₂ sequestration is highly dependent on the technologically and economically-feasible transportation of CO₂ from the Fairbanks source to the Alaska North Slope. Additionally, for the Alaska Natural Gas Pipeline proposed to bring the Alaska North Slope natural gas to world markets, to be successful, accommodation for the handling of about 480 mmscf CO₂/day, assuming 4 bscf/day of natural gas, from the Prudhoe Bay Unit must be considered.

The study paid for by these monies would investigate the feasibility of gathering, delivering and utilizing the resultant CO₂ from the plant for enhanced oil recovery on the North Slope of Alaska, thereby simultaneously sequestering CO₂ and increasing domestic oil production. If this proves feasible, the construction of the proposed would supply the U.S. military with domestically produced synthetic fuel and greatly increase U.S. oil production from existing oil fields.

Mr. MICA. Madam Speaker, although I voted "yes" in support of H.R. 3326, the Defense Appropriations Bill, and consider myself a strong advocate for those in military service to our nation, I want to express my opposition to funds appropriated in this measure to move and house Terrorists from Guantanamo to Illinois. Having personally visited Guantanamo I can attest that prisoners and detainees have accommodations for better than many seniors, veterans and law-abiding Americans. These terrorists are enemy combatants who committed international acts of war and terror and should not be entitled to our civil or criminal system of justice.

Furthermore after spending nearly half a billion dollars on the Guantanamo facility to now waste a half a billion dollars more on that scum of the earth is a horrible insult to all Americans and every taxpayer. When you think that this administration cannot possibly come up with another dramatic waste of public funds it seems today in this rarified air in Washington one never ceases to be stunned and annoyed.

Unfortunately, the wasteful action and insult relating to Guantanamo is only one of a number of unacceptable provisions that have been tucked into the Defense Appropriations Bill.

Mr. FRELINGHUYSEN. Madam Speaker, I want to echo the comments of my Ranking Members, Mr. YOUNG and Mr. LEWIS. This is a good bill, thanks to the hard work of our Chairman JACK MURTHA, his Ranking Member BILL YOUNG and their capable staffs.

Clearly, had I written the bill, I would have written it differently in certain areas. (I certainly would not have tacked on a record increase in the debt limit!)

My major regret is that we should have done more.

This bill started out \$3.5 billion short of the President's request—despite the fact that we are engaged in two, hard-fought wars.

And now, we have a larger mission in Afghanistan involving more soldiers and Marines and a more complex and expensive operations to support and resupply them.

At a time when this Congress has found the 'will and the wallet' to throw billions of borrowed dollars at every domestic program under the sun, our leaders are finding ways to cut defense—sometimes subtle, sometimes blatant.

I tell my Colleagues who have pledged to support a strong national defense, that this bill is the high water mark. It's all downhill from here.

With that said, Madam Speaker, there is much to like in the base bill.

I support reform of our military acquisition processes.

I support Secretary Gates' program to re-examine our national security priorities in light of the new irregular challenges and threats that are proliferating well beyond Iraq and Afghanistan.

I support funding in the bill for: a 3.4 percent pay raise for our troops (all volunteers); over \$29 billion to provide first class medical care through our Defense Health program; \$15 billion to allow the Navy to build seven ships; funding for more F/A-18 aircraft. We also set the stage for a future multi-year procurement of the F-18 aircraft to begin to close the Navy's "fighter gap;" \$6.3 billion for 6,600 more lightweight MRAPs for Afghanistan. These vehicles are badly needed as IED's have proliferated;

However, I wish we could find a way to restore the cuts to missile defense and ensure that the F-22 assembly line keeps rolling.

In this context, Madam Speaker, I worry that this Administration is not making the investments today to ensure that we will be prepared to defend our interests against all threats in the years to come.

I must also add that I am very concerned about the Majority's insistence on using this bill, and our troops, to pass unrelated, and sometimes controversial provisions. For example, this bill should not be the vehicle to legislate Medicare doctor's payments, COBRA, Satellite television, nutrition assistance reauthorization, the PATRIOT Act and other provisions.

In closing, I thank Chairman MURTHA and Ranking Member YOUNG for their leadership.

Ms. RICHARDSON. Madam Speaker, I rise in strong support of H.R. 3326, the FY2010 Defense Appropriations Act," which provides \$636.3 billion in defense funding. This bill keeps faith with our troops and provides the funding needed to ensure they are the best trained, best prepared, best equipped, and best cared for fighting force in the history of the world. That is the least we can do for those who willingly risk their lives to keep us safe.

Madam Speaker, I also support the bill because it makes the needed investments to keep our nation strong, safe, and respected in the world. One of the most important investments is the \$2.5 billion in funding provided to build and maintain 10 C-17 Air Force cargo aircraft, which is assembled in my district but serves the nation and helps protect the peace the world over.

I want to thank Chairman MURTHA and Chairman OBEY for working with me to secure this funding and also for masterly shepherding this legislation to the floor.

Madam Speaker, in my remaining time let me briefly explain why I fight so hard for the

C-17, as Chairman MURTHA can attest: Airlift is the enabler of global reach, global power, and global vigilance. This is what makes us a superpower.

The C-17 is the best airlift aircraft in the world because of its ability to fly long distances and land in remote airfields in rough, land-locked regions.

The C-17 is the premier transporter for military, humanitarian and peacekeeping missions because it can:

Take off from a 7,600-ft. airfield, carry a payload of 160,000 pounds, fly 2,400 nautical miles, refuel while in flight and land in 3,000 ft. or less on a small unpaved or paved airfield in day or night.

In addition to the wars in Afghanistan and Iraq, the C-17 has proved its mettle in humanitarian missions to Darfur, Myanmar, China, and Georgia in the former Soviet Union.

The men and women who design and build the C-17 represent a critical component of our nation's industrial base and a workforce that is second to none.

At a time when we are adding to our troop strength in the Army and Marine Corps overall, and expanding our deployment to Afghanistan, it only makes sense to continue production of the C-17, the only program that provides for strategic airlift over the long term.

For California alone, the C-17 program at Long Beach contributes almost 14,000 direct jobs and an economic impact of \$2 billion.

In conclusion, Madam Speaker, I support this bill because it restores and enhances the readiness of our troops, equipment, and defense infrastructure. It takes care of our military personnel and their families. And it authorizes the needed investments to keep our nation strong, safe, and respected in the world.

I urge my colleagues to join me in voting for the bill on final passage.

Mr. HOLT. Madam Speaker, I rise in support of this important bill.

To help support our troops and their families, this bill provides a much-deserved 3.4 percent military pay increase, as well as \$472.4 million for Family Advocacy programs and full funding for Family Support and Yellow Ribbon to provide support to military families, including quality child care, job training for spouses, and expanded counseling and outreach to families experiencing the separation and stress of war. Additionally, H.R. 3326 provides \$29.2 billion (\$3 billion above the 2009 level) for the Defense Health Program to provide quality medical care for servicemembers and their including \$120 million for Traumatic Brain Injury and Psychological Health Research.

Regarding the Defense Department's operations, I'm pleased that the bill provides \$5 billion to allow defense personnel, not contractors, to perform critical department functions. The Department estimates that every position that is converted from contract to federal civilian saves on average \$44,000 per year. Additionally, the bill reduces contracted advisory and assistance services by \$51 million, and includes general provisions to stop further conversions by the Department of Defense from government functions to contractors. The bill also contains important policy provisions I support, including a bar on the establishment of

permanent bases in Iraq or Afghanistan, and the continuation of a general requirement prohibiting the torture of detainees held in U.S. custody.

I am disappointed that we were forced to include in this bill a 60 day extension of three expiring Patriot Act authorities. The very good Patriot Act reform bill reported out of the Judiciary Committee eliminates over-broad surveillance authorities, tightens requirements for the issuance of national security letters, and contains important oversight requirements that will help us protect our people from both potential terrorists and an out-of-control executive branch. That bill should be passed by the House in January 2010 and the Senate should adopt it.

Some non-defense policy items are also attached to this bill, including expanded unemployment benefits, including increased payouts and longer duration of benefits, through February 28, 2010. The bill also extends from nine to 15 months (to February 28, 2010) the 65 percent COBRA health insurance subsidy for individuals who have lost their jobs. The COBRA subsidy extension would help New Jersey families between jobs immediately, as without this subsidy the average New Jersey family would pay \$1,156 a month for COBRA coverage, which would consume over two-thirds of their unemployment benefits.

Overall, this bill meets important national security and domestic policy needs, and I urge my colleagues to join me in supporting this bill.

Mr. BOYD. Madam Speaker, I want to thank Chairman MURTHA and Ranking Member YOUNG for their work on the Fiscal Year 2010 Defense Appropriations Act. This bill will ensure that our military members have the equipment, training and resources they need to continue to defend our great nation, particularly in light of the continuing engagements in Iraq and Afghanistan. As a Vietnam veteran, I understand the sacrifices our troops are making and they are never far from my mind in the work I do here.

I specifically want to highlight the section in the bill under consideration today regarding the Combat Air Force restructure plan and thank the Chairman for his work with me on this provision to delay the early retirement of F-15s from Tyndall Air Force Base. I also want to acknowledge and thank the Secretary of the Air Force and the Chief of Staff for their incredible dedication and willingness to resolve this tough issue with me.

This six month delay of the Combat Air Force restructure plan stipulated in H.R. 3326 represents a tremendous legislative victory for Bay County and is the result of a year's worth of efforts by our community. Working together, we have put Tyndall in a strategic position to be a key component of the Air Force's next generation fighter infrastructure. It has been made clear from the very highest levels of the Air Force, from the Chief and Secretary, that Tyndall is a national jewel that plays, and will continue to play, a valuable role in our country's defense.

I also want to thank the people of Bay County, particularly the Bay Defense Alliance, who have been partners with me as we worked together to protect the economic interest of our community and security interests of

our country. It is no secret from the halls of Congress to the halls of the Pentagon that the community supporting Tyndall Air Force Base is top notch.

Additionally, I look forward to the results of the reporting requirements in this bill that will help us all better understand the Air Force's fighter requirements and the impact that the drawdown would have on our nation's combat air forces and the communities that support them.

In summary, this bill will make sure that our nation remains the strongest military in the world and I strongly support it.

Mr. ETHERIDGE. Madam Speaker, I am pleased once again to rise in support of H.R. 3326 the Fiscal Year 2010 Defense Appropriations Act. In addition to making important investments to keep the American people safe, strengthen our military, and support our troops, this amended bill makes sure that the American economy is safe, strengthens our recovery, and supports those in need.

As a veteran of the U.S. Army, and the representative of Fort Bragg and Pope Air Force Base, I am proud of our troops who serve our country, and pleased that we are completing our work on funding their efforts in Iraq and Afghanistan, meeting their equipment needs at home, and fulfilling our commitment to our troops and their families. I spoke about many of those provisions when this bill first passed in July.

This amended bill also keeps our commitment to the working men and women of America who deserve support in this economic downturn. As the representative of a state with one of the highest unemployment rates in the nation, I am proud that this bill will provide a degree of economic security for workers who are struggling during this holiday season. Extending benefits for folks who are having trouble finding a job is the right thing to do for families and our recovering economy. The temporary support in this bill will help North Carolinians maintain health care coverage and pay their bills while they get back on their feet and find their next job opportunity.

This bill continues our efforts to get the economy back on track and create jobs. The families who receive extended benefits will be putting money right back into our local economy—buying groceries, filling their cars with gas, and making their mortgage payments on time. The bill also extends improvements to Small Business Administration guaranteed loans so that small businesses can secure the financing they need in these tight economic times. Small business are a major engine of our economy, and are responsible for almost all year-over-year job growth. We must make sure they can get the funding they need to create jobs so we can reduce unemployment and restore our economy.

Madam Speaker, this bill already made sure our Armed forces have the support they need to protect the American people. The amendments we are voting on today also make sure we preserve our economic safety net and promote American prosperity.

I urge my colleagues to join me in support of H.R. 3326.

Mrs. BACHMANN. Madam Speaker, I rise today in support of H.R. 3326, the Fiscal Year 2010 Department of Defense Appropriations

Act, as amended by the Senate. However, while I applaud the hard work of House leadership in bringing this much needed legislation to the floor, I regret that an opportunity to more fully address the threat posed by suspected terrorists currently under detention by the United States government has been missed.

The United States military is responsible for keeping Americans safe. And in light of the challenge that we face in Iraq and Afghanistan, the Federal Government's commitment to our soldiers has never been more important. As such, I'm pleased we're working to ensure that the promises we've made to those who serve in our Armed Forces are kept. Whether it's the 3.4 percent military pay increase or the \$104 billion to improve military equipment, I believe we must ensure our troops receive the support they deserve for the great sacrifice they have made by serving our country, and clearly this bill represents a strong show of that support.

However, while H.R. 3326, as passed, is a strong bill, I was disappointed that one of the most troubling issues of the day was not addressed. Critical to ensuring individual Americans' safety is the future treatment of the dangerous enemy combatants housed at the Guantanamo detention facility. Rather than allowing Khalid Sheikh Mohammed to be tried in New York City through our civilian court system and transporting Guantanamo detainees to Thomson Correctional Institution in Illinois, Congress should unequivocally restrict enemy combatants to trial by military commission and permanently deny funding to transport them into our country.

Madam Speaker, we are at a critical juncture in our nation's history. However, as we work to bolster a strong national defense, we cannot ignore the ever-present threat posed by those rogue agents who wish to do us harm. I believe a cornerstone of addressing this threat is to remove the current legal ambiguity with regard to detainee treatment. By trying these detainees in a civilian setting, we are allowing them to exploit our judicial system for personal gain and undermine the work of our military commissions, which have served our nation for centuries.

So while I am pleased to be here on the floor today supporting our troops, it is my sincere hope that the questions surrounding America's prosecution of enemy combatants will be answered in a way that best ensures our national security.

Mr. TIAHRT. Madam Speaker, the base bill of H.R. 3326, the FY2010 Defense Appropriations bill, effectively meets the needs of our men and women in uniform. Although not perfect, H.R. 3326 takes important steps to invest in the people and equipment of the United States Armed Forces. Sadly, Democrat leadership has once again decided to use this vital and non-partisan piece of legislation to enact controversial measures, such as bringing terrorists to U.S. soil.

The United States military is the strongest in the world due to our people, training and equipment. I am happy to say that each of those is strongly supported in this legislation.

Our military men and women are patriots and the world's finest soldiers, sailors, airmen and Marines. Congress has a moral obligation

to offer them our thanks and unwavering support. Although we can never fully repay their sacrifice and commitment, H.R. 3326 at least provides a pay raise. The bill provides a 3.4 percent pay raise for all servicemembers, which is 0.5% higher than that proposed by the Obama administration.

Our military and their families deserve the world's finest medical care. H.R. 3326 makes a \$30 billion investment to care for sick and wounded servicemembers and their families. This includes \$370 million for medical research and \$120 million for Traumatic Brain Injury and psychological health research.

The legislation also provides \$500 million for family advocacy programs that support military families. With so many servicemen and women deployed overseas, our military families are under particular strain. Whether at Fort Riley or McConnell Air Force Base, Kansas families need this extra assistance when their loved ones are deployed. The bill makes the right investments to ensure they are protected and supported.
